4. RATIONALE AND USE OF PROCEEDS

As announced on 13 September 2022, the Group decided not to continue with a commercial lease space for a second confinement centre at the Mines Wellness City, Klang Valley, Malaysia. Nonetheless, the Board considers the Healthcare and Wellness Business to be viable for the Group and continues to look for opportunities in the sector, including new postpartum care sites, and chiropractic and physiotherapy centres. Investment strategies are being directed to healthcare and wellness projects which require lower set up cost and investments.

Due to the present loss-making situation of the Healthcare Business, the Group has encountered difficulty obtaining funds from traditional financial institutions. In view of the working capital needs of the Healthcare Business, the Board decided to proceed with the entry into the Convertible Loan Note with the Lender, who have expressed interest in supporting the Healthcare Business and its future prospects. The Board

is of the view that the negotiated interest accruing on the Convertible Loans at a rate of fifteen per cent (15%) is fair given the support that the Lender have for the Healthcare Business and the current business and economic climate, as well as the right to convert the Convertible Loan Note being at the Company's discretion.

The Conversion Share Issue represents a means for the Company to settle the payment of the aggregate principal sum of the Loan Amounts owed to the Lender under the CLNA and will allow the Company to conserve its cash for its core business activities. The issuance and allotment of the Conversion Shares will further help align the interests of the Lender with the interests of the Company.

As mentioned in the Group's unaudited financial statements for the nine month financial period ended 30 September 2022 released on 10 November 2022, the Group is looking at raising capital of up to S\$1.7 million to finance capital outlays and for working capital purposes having considered, amongst others, the Group's net current liabilities position of RM\$8.0 million.

Notwithstanding that the Group has obtained letters of undertaking from creditors to not demand for amounts owing to them of approximately RM1.6 million until the resources permit; and a letter of financial support from a substantial shareholder who has agreed to provide up to S\$5.0 million for the Group to meet its liabilities and its normal operating expenses as and when required, the Directors are of the view that the Convertible Loan is beneficial to the Group as it will allow the Group to strengthen its financial position (if converted), improve the Group's cash flow and increase working capital available to the Group to fund the anticipated working capital requirements of the Group.

The Convertible Loan Note will allow the Company to strengthen its financial position by raising net cash proceeds (after deducting estimates expenses of approximately S\$10,000) of approximately S\$90,000 ("**Net Proceeds**"), which are intended to be utilised by the Company in the following manner:

Use of Net Proceeds	Proportion (%)	Amount of Net Proceeds
Expansion of the Healthcare Business, including, renovation and refurbishment of chiropractic centres in Singapore and Malaysia	22.2%	S\$20,000
Working capital including, <i>inter alia</i> , professional fees, staff salaries and general overheads	77.8%	S\$70,000
Total	100.0%	S\$90,000

Pending the deployment of the Net Proceeds, the Net Proceeds may be deposited with banks and/or financial institutions and/or invested in short-term money market instruments and/or marketable securities, and/or used for any other purposes on a short-term basis, as the Directors may, in their absolute discretion, deem fit in the interests of the Company.

The Company will make periodic announcements on the utilisation of the Net Proceeds as and when such proceeds are materially disbursed and whether such use is in accordance with the stated use and in accordance with the percentage allocated. As the Net Proceeds will be used for working capital purposes, the Company will disclose a breakdown with specific details on how the Net Proceeds have been applied. Where there is any material deviation from the stated use of the Net Proceeds, the Company will announce the reasons for such deviation. The Company will also provide a status report on the use of Net Proceeds in the Company's quarterly and full year financial statements issued under Rule 705 of the Catalyst Rules and its annual reports.
