

Rolls-Royce Appoints SIA Engineering Company as On-Wing Services Provider

SINGAPORE, 16 February 2016 - Mainboard-listed **SIA Engineering Company Limited** (SIAEC) and Rolls-Royce will be signing an agreement today to appoint SIAEC as a Rolls-Royce approved On-Wing Services provider within its Trent Service Network.

With this appointment for the Trent family of engines, including the Trent 1000 and Trent XWB, SIAEC will be supporting an increasing number of Rolls-Royce civil engines fuelled by the growing fleets of new-generation aircraft, such as the Boeing 787 Dreamliner and Airbus A350 XWB. The On-Wing Services programme will offer a range of engine line maintenance support services to Trent engine operators.

SIAEC's Chief Executive Officer, Mr. Png Kim Chiang said: "Leveraging on the combined strengths of SIAEC's international line maintenance network and engine capabilities, and Rolls-Royce's original equipment manufacturer expertise, we are well-positioned to provide airline customers with prompt response and comprehensive technical support for their Trent engines. SIAEC's On-Wing Services support complements the Company's suite of line maintenance services to help customers maximise aircraft availability and reliability."

Eric Schulz, Rolls-Royce, President – Civil Aerospace, said: "We are creating a Trent Service Network that is more capable, competitive and flexible as our engine fleet grows. SIAEC is a valued partner in engine services and today's announcement continues to develop a very successful relationship."

The agreement will not have a material impact on SIAEC's financial performance in FY2015/16. None of the Directors of SIAEC has any interest, direct or indirect, in the transaction.

About SIA Engineering Company

(Company Registration No. 198201025C)

www.siaec.com.sg

SIA Engineering Company (SIAEC) is a major provider of aircraft maintenance, repair and overhaul (MRO) services in Asia-Pacific. SIAEC has a client base of more than 80 international carriers and aerospace equipment manufacturers. It provides line maintenance services at 36 airports in 7 countries, as well as airframe and component services on some of the most advanced and widely used commercial aircraft in the world. Apart from MRO services, SIAEC also offers a comprehensive and integrated suite of solutions under its fleet management services.

The 26 ventures with original equipment manufacturers and strategic partners in Singapore, Australia, Hong Kong, Indonesia, Philippines, United States, Taiwan and Vietnam increase the depth and breadth of the Company's service offerings. SIAEC has approvals from 29 national aviation regulatory authorities to provide MRO services for aircraft registered in the U.S., Europe, China and other countries.

About Rolls Royce

<http://www.rolls-royce.com>

Rolls-Royce operates across five businesses: Civil Aerospace, Defence Aerospace, Marine, Nuclear and Power Systems in more than 50 countries. Its Civil Aerospace business segment comprises more than 380 airlines and leasing customers.

Annual underlying revenue was £14.6 billion in 2014, around half of which came from the provision of aftermarket services. The firm announced order books stood at £76.5 billion at 30 June 2015.
