Sunright Returns to Profitability

[Singapore, 13 March 2026](#) - Sunright Limited (SGX: Sunright) today announced its unaudited financial results for the first half-year ended 31 January 2026.

For 1H FY2026, the Group recorded revenue of S\$40.1 million, representing an increase of 15 percent from S\$34.9 million in the corresponding period last year. The Group reported a net profit of S\$1.4 million, a significant turnaround from the net loss of S\$4.6 million in 1H FY2025. Our earnings per share stood at 0.4 cent compared to loss per share of 2.8 cents recorded in the same period of last year. Our financial position improved, underpinned by a strong cash balance at \$83.8 million.

Mr. Sam Lim, Executive Chairman and Chief Executive Officer, commented, “The improvement was mainly driven by stronger operating performance across the Group’s overall equipment and services, supported by disciplined cost management and focused execution.”

For Release After 5:17 p.m., 13 Mar 2026

Industry forecasts indicate that global semiconductor revenue is projected to grow in 2026, reaching approximately USD 1 trillion, supported by sustained demand in AI-related and advanced computing applications, although recovery trends vary across automotive, industrial and other segments.

Mr. Lim added: “We are strengthening our technology platforms, engineering capabilities and operational readiness to support customers in higher-value, performance-critical environments such as artificial intelligence, power management and advanced automotive systems.”
