EXTENSION OF MARBLE MINING LICENSE

The Board of Directors (the “Board” or “Directors”) of Hong Lai Huat Group Limited (the “Company”, and together with its subsidiaries, the “Group”) is pleased to announce that its subsidiary, HSCH Capital Co., Ltd. (“HSCH”), has successfully obtained an extension of its marble mining license from the Ministry of Mines of the Kingdom of Cambodia.

The marble mining license, which was due to expire at the end of April 2026, has been extended for a further two (2) years and will now remain valid until FY2028. This extension will allow HSCH to continue its operations without interruption and provide the necessary framework to gradually develop its production capabilities.

Marble mining operations under HSCH began in FY2025. In its first full year of operations, which was carried out at approximately 30% of its planned capacity, HSCH exported a total of 667 containers. In the first quarter of FY2026 alone, more than 300 containers were exported, reflecting steady progress.

The extension of the mining license provides HSCH with the opportunity to gradually scale up production and exports in FY2026. However, the Group remains mindful of ongoing challenges, including the current conflict in the Middle East, and will continue to closely monitor the situation while working with its sub-contractors and stakeholders to ensure steady and sustainable progress.
