4 Whether the same accounting policies and methods of computation as in the issuer's most recently audited annual financial statements have been applied.

The Group has applied the same accounting policies and methods of computation in the financial statements for the current financial period compared with those of the audited financial statements for the financial year ended 30 September 2019, except as disclosed in Note 5 below.

5 If there are any changes in the accounting policies and methods of computation, including any required by an accounting standard, what has changed, as well as the reasons for, and the effect of, the change.

The Group has adopted all the applicable new/revised Singapore Financial Standards (International) ("SFRS (I)") that became effective for the financial year beginning 1 October 2019. Other than the adoption of SFRS (I) 16, the Group expects that new/revised SFRS (I) will have no material impact to the Group's and Company's financial statements.

The Group adopted SFRS (I) 16 using the modified retrospective approach without restating prior year's information.

Under the new standard, an asset representing the right to use the underlying asset during the lease term (i.e. the right-of-use asset) and a liability to make lease payments (i.e. the lease liability) are recognised. On the adoption of SFRS(I) 16, the Group has recognised an equal amount of right-of-use assets and lease liabilities of S\$2,854,000 for its leases previously classified as operating leases (excluding short-term leases and leases for which underlying assets are of low value) as at 1 October 2019.

Right-of-use assets are measured using the cost model and are carried at cost less accumulated depreciation and accumulated impairment loss (if any), subsequent to initial recognition. The carrying amount for lease liabilities subsequent to initial recognition would take into account interest on the lease liabilities, lease payments made and any reassessment or lease modifications. Interest expense on the lease liability and the depreciation expense on the right-of-use asset are recognised separately in the income statement.

- 8 A review of the performance of the group, to the extent necessary for a reasonable understanding of the group's business. It must include a discussion of the following:-
 - (a) any significant factors that affected the turnover, costs and earnings of the group for the current financial period reported on, including (where applicable) seasonal or cyclical factors; and
 - (b) any material factors that affected the cash flow, working capital, assets or liabilities of the group during the current financial period reported on.

INCOME STATEMENT / STATEMENT OF COMPREHENSIVE INCOME

Group revenue decreased by \$\$7.9 million or 12.0% from \$\$66.0 million for the financial period ended 31 March 2019 ("1H2019") to \$\$58.1 million for the financial period ended 31 March 2020 ("1H2020"). The decrease was mainly attributable to a decrease in revenue from the aluminium segment. During the current financial period, our factories in Malaysia were closed from 18 March 2020 due to the Movement Control Order in Malaysia resulting from the COVID-19 pandemic.

Gross profit decreased from \$\$12.9 million in 1H2019 to \$\$7.6 million in 1H2020 while gross profit margin decreased from 19.6% in 1H2019 to 13.0% in 1H2020, mainly due to slower progress of projects and reduction in production output.

Selling and distribution expenses remained relatively stable in 1H2020. Administrative expenses decreased from \$\$5.0 million in 1H2019 to \$\$4.5 million in 1H2020 mainly due to lower labour and related expenses in 1H2020. Other operating expenses increased from \$\$1.9 million in 1H2019 to \$\$2.5 million in 1H2020 mainly due to a fair value loss in derivative of \$\$1.7 million recorded in 1H2020 comparing with a fair value loss in derivative of \$\$0.2 million in 1H2019. Finance costs was higher in 1H2020 mainly due to the recognition of lease liabilities following the adoption of SFRS(I) 16 Leases in the current period. Other increased from \$\$0.4 million in 1H2019 to \$\$1.1 million in 1H2020 mainly due to higher foreign currency exchange gain.

Income tax expenses for the period ended 1H2019 was S\$0.6 million due to corporate income tax provided for the Malaysia profitmaking subsidiaries.

In view of the above, the Group's profit after tax decreased from S\$4.1 million in 1H2019 to S\$0.1 million in 1H2020.

STATEMENT OF FINANCIAL POSITION

Assets and liabilities with significant fluctuations are explained as follows:

Property, plant and equipment increased slightly to \$\$46.2 million as at 31 March 2020 after offsetting cost of new additions against depreciation expenses of property, plant and equipment.

Right-of-use assets of S\$2.2 million as at 31 March 2020 was derived from the initial recognition of right-of-use assets of S\$2.9 million, partially offset by its depreciation for the current period, following the adoption of SFRS(I) 16 Leases in the current period.

Inventories increased from S\$40.5 million as at 30 September 2019 to S\$48.7 million as at 31 March 2020, mainly due to stocking up of raw materials for our production, in anticipation of restrictions on raw material imports from overseas.

Trade receivables and contract assets decreased from S\$34.1 million as at 30 September 2019 to S\$27.6 million as at 31 March 2020, mainly due to lower sales in the months preceding 31 March 2020 as compared to the period ended 30 September 2019.

Other receivables, deposits and prepayments increased by S\$1.6 million mainly due to higher advance deposits paid to suppliers and recognition of grant receivables in relation to the Jobs Support Scheme provided by the Singapore government.

Trade payables, other payables and accruals totalled at S\$20.4 million as at 31 March 2020, which is comparable to the S\$20.0 million as at 30 September 2019.

Provision for warranty decreased from S\$0.7 million as at 30 September 2019 to S\$0.6 million as at 31 March 2020, mainly due to the assessment of expected warranty claims on installation and construction projects at the end of each reporting period.

Derivatives liabilities increased from S\$0.3 million as at 30 September 2019 to S\$1.7 million as at 31 March 2020 as a result of changes in fair value of the derivatives contracts.

Lease liabilities (current and non-current portions) increased from S\$0.2 million as at 30 September 2019 to S\$2.4 million as at 31 March 2020 mainly due to the recognition of lease liabilities in relation to the right-of-use assets following the adoption of SFRS(I) 16 Leases in the current period.

STATEMENT OF CASH FLOW

Net cash generated from operating activities for 1H2020 was S\$0.4 million, which was derived from the operating cash flow before working capital changes of S\$4.8 million, after taking into account the decreases in receivables and derivatives of S\$4.6 million, increases in inventories and payables of S\$7.9 million, and the net interest and income taxes paid of S\$1.1m.

Net cash used in investing activities for 1H2020 was S\$2.0 million, which was mainly for purchase of new plant and equipment.

Net cash used in financing activities for 1H2020 was S\$5.0 million, relating to repayment of lease liabilities and term loan, purchase of treasury shares and dividends paid, partially offset by the proceeds from exercise of employee share options.

9 Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and actual results.

Not applicable.

Unaudited Half Year Financial Statement And Dividend Announcement For The Period Ended 31-03-2020

10 A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

The global outbreak of the COVID-19 pandemic has resulted in various measures taken by governments to contain the infection, including lock downs that disrupted business activities and supply chains. On 18 March 2020, the Group's Malaysia factories were closed as a result of the Movement Control Order imposed by the Malaysia government. Subsequently, the factories applied for waivers and in the following months, were allowed to resume operations in phases, gradually resuming full operations. In Singapore, the Circuit Breaker was enforced from 7 April 2020. As the bulk of our facade and HDB projects were not considered as essential services, our factories and project sites were not allowed to continue operations. Even after the Circuit Breaker ended on 1 June 2020, construction activities can only resume in gradual phases, with strict safe-distancing measures to be observed. The delays in projects would inevitably increase operating costs. However, the Group is receiving wage support, government rebates and waiver of levies to defray some of these costs.

The COVID-19 pandemic affected businesses such as manufacturing and construction. The Group will continue to face challenges in the short-term as a result of the COVID-19 pandemic. We expect our full year revenue to be lower than the previous financial year.
