SGX-listed UMS signs MoU with U.S. clean-tech company

SINGAPORE, 10 June 2011 – UMS Holdings Limited (“UMS”) announced today it has signed a conditional Memorandum of Understanding ("MoU") with a U.S. clean-tech company, Terra Verde Technologies LLC ("Terra Verde"), which is developing a new hydro-power generator to provide affordable alternative energy for residential and commercial buildings in the U.S. and international markets.

Under its MoU with California-headquartered Terra Verde, Singapore Exchange-listed UMS will invest US\$1 million in four tranches to purchase a 5% stake in Terra Verde and secure a five-year exclusive agreement to manufacture, distribute and sell Terra Verde's proprietary hydro-power generators in several countries, when the generators become commercially viable.

UMS said that following the payment of the second tranche, Terra Verde will also issue warrants to UMS for the purchase of additional shares in the next 18 months.

UMS' Founder and Chief Executive Officer, Mr. Andy Luong said, "UMS views this investment as part of its business diversification strategy, leveraging on our core competency in equipment manufacturing."

UMS does not expect the new business investment to have an immediate and material impact on the Group's performance in the near term.
