CORPORATE PROFILE

JB Foods Limited (“JB Foods” or the “Group”) started as a processor of wet cocoa beans to dry cocoa beans in the 1980s. Today, it has grown to be one of the major cocoa ingredient producers in the region, with a total processing capacity of 145,000 metric tonnes of cocoa beans equivalent per year, with two factories located at the Port of Tanjung Pelepas, a free trade zone in Johor, Malaysia, and in the Maspion Industrial Estates in Gresik, Indonesia, approximately 30 km from the Surabaya port.

The Group’s principal activities comprise the production and sale of cocoa ingredient products, namely cocoa butter, cocoa powder, cocoa liquor and cocoa cake.

JB Foods has been listed on the Mainboard of the Singapore Exchange Securities Trading Limited since 2012.

In 2014, we incorporated our subsidiaries and set up our offices, in the United States of America and Indonesia. In 2016, we incorporated our subsidiary in the People’s Republic of China.

PRINCIPAL BUSINESS

JB Foods Limited's core business is in the production and sale of cocoa ingredient products, namely cocoa butter, cocoa powder, cocoa liquor and cocoa cake.

Over the years, through its strong focus on product quality and development, the Group has honed its capability to develop and customise cocoa ingredient products to meet the varying and exacting requirements of globally diversified customers.

Complying with the highest standards of food safety, the Group ensures that its quality products consistently meet or exceed its customers' expectations. With its technical know-how, product expertise and proprietary blending methods, the Group has gained widespread recognition from its global customers.

The Group's products are sold primarily under the "JB COCOA" brand name to a worldwide customer base ranging from international trade houses to end users such as food and beverage and confectionery manufacturers.

PRODUCTION FACILITIES

MALAYSIA

The Group's cocoa processing facility is located in the Port of Tanjung Pelepas, a strategic logistics hub within a free trade zone in Johor, Malaysia. This has enabled the Group to significantly reduce land logistics costs, as well as delivery time, while closely monitoring the shipment of its containers.

INDONESIA

In 2014, the Group exercised its call option to acquire an 80% equity interest in PT Jebe Koko, a cocoa bean processing facility. This facility is located in the Maspion Industrial Estate in Gresik, Indonesia, approximately 30 km from the Surabaya port, and focuses on processing raw cocoa beans sourced domestically in Indonesia. Our Indonesian facility not only provides the Group with a competitive processing cost structure but also allows the Group to save on Indonesian export tax on raw cocoa bean. The acquisition was completed in 2015.

OUR PRODUCTS

COCOA BUTTER

Produces natural and deodorised cocoa butter which is mainly used in the production of chocolates.

COCOA POWDER

Produces a wide range of cocoa powder in varying pH value, application and fat content, used for making cocoa beverages as well as flavourings and coatings in the manufacture of food and beverage and confectionery products.

Customises recipes to specific taste and appearance based on customer specifications.

COCOA LIQUOR

Produces cocoa liquor by carefully blending cocoa beans from different origins.

Through precise control of temperature, pressure and humidity, the taste, flavour and appearance of cocoa liquor can be enhanced.

COCOA CAKE

Sells cocoa cake to international trade houses or cocoa powder millers to be refined into cocoa powder, or processed in-house.

CHAIRMAN'S MESSAGE

Our team of committed employees continue to successfully execute the Group's business strategies, delivering strong growth for the year.

DEAR SHAREHOLDERS,

FY2017 REVIEW

On behalf of the Board of Directors, it is my pleasure to present the annual report of JB Foods for the financial year ended 31 December 2017 ("FY2017"). We achieved our best financial performance since the Group's listing in 2012, with a net profit of USD14.2 million for FY2017 against USD3.8 million in the preceding year.

Despite the challenging economic conditions, the Group was able to deliver the strong set of results through expanding our businesses with existing and new customers as well as improvements in our operational efficiency.

Building on the strength of our value proposition and customer-focused business model, we successfully expanded our customer base in the USA, Indonesia and China through our sales and marketing offices in these markets.

In FY2017, the Group's shipment volume increased by 17% from the previous year.

The global cocoa market has been consolidating over the past few years. As a result, competitive pressure in the cocoa processing industry has eased and processing margins have improved as cocoa prices decreased due to excess supply of cocoa beans.

On the other hand, the availability of quality cocoa beans remains an ongoing concern for the cocoa industry as climate change continues to impact cocoa bean quality and yields. While we continuously monitor and anticipate potential supply shortages, we try to mitigate this by measures that include maintenance of adequate inventory levels as well as diversification of supply sources.

INDUSTRY OUTLOOK

The global demand for chocolate products continues to be driven by the total sensory pleasure induced upon consumption of such products. Chocolate demand continues to grow backed by the growing middle class as well as the rising disposal income per capita in global emerging markets. According to Euromonitor International, global confectionery retail sales for 2017 were projected to reach US\$186 billion, representing a 2.7% increase from 2016. Retail value sales growth for chocolate confectionery is expected to rise 3.3% for FY2017. The Group is optimistic that chocolate consumption remains positive in 2018.

As a key raw material, the supply of quality cocoa remains vital to the Group's operations and we believe that no effort should be spared to promote good agricultural practices, environmental protection measures and improvements to the social conditions of cocoa farmers. The Group will continue to reinforce our efforts to source for cocoa beans grown in a sustainable manner while allocating more resources towards sustainability initiatives.

Global economic uncertainties have heightened as the turning of major economies towards protectionism has raised the potential of a global trade war. While the Group's cocoa ingredient products are unlikely to become the direct target of such trade actions, we remain cautious as such developments could

negatively impact the export market for the Group's businesses. The Group will continue to strengthen relationships with our customers and suppliers in order to minimise any potential impact on our business operations.

DIVIDEND

As a reward to our faithful shareholders, I am also pleased to announce that the Board has declared an interim dividend of 2 Singapore cents per share for FY2017.

RIGHTS ISSUE

On 20 December 2017, the Group proposed to undertake a renounceable non-underwritten rights issue of up to 75.8 million shares in the capital of the company at an issue price of S\$0.25 for each rights share on the basis of one rights share for every three existing shares in the company (the "Rights Issue").

Our major shareholders, JB Cocoa Group Sdn Bhd and Tee Yih Jia Food Manufacturing Pte Ltd, have given their irrevocable undertakings to the company as an indication of their support for the Rights Issues and commitment to JB Foods.

The Rights Issue is expected to raise net proceeds of approximately S\$18.8 million to support our business expansion and working capital.

SUSTAINABILITY MATTERS

We reaffirm our commitment to sustainability with the publication of our maiden sustainability report guided by the Global Reporting Initiative ("GRI") Standards: Core option. For this sustainability report, we provide insights into the way we do business, while highlighting our environmental, social, governance ("ESG") and economic performance.

As a leading cocoa ingredient producer in the Asia Pacific Region, we are committed to maintaining a sound sustainability reporting framework to fulfil our social responsibility and safeguard the interests of the Group's stakeholders.

ACKNOWLEDGEMENT

On behalf of the Board, I extend my gratitude to all the staff of JB Foods for their dedication and hard work which has enabled us to tide through the difficult years.

I also want to extend my appreciation to the Board for their combined wisdom and guidance, which have kept us growing in the right direction.

Lastly, I would like to thank our business partners, shareholders and customers for their continued support and trust.

I look forward for your continued support in years to come.

Yours sincerely,

Chua Cheow Khoo, Michael
Independent Non-Executive Chairman

CEO'S MESSAGE

JB Foods achieved a record full year profit before tax of USD16.9 million for FY2017, a growth of 285% year-on-year.

DEAR SHAREHOLDERS,

JB Foods achieved a new milestone in FY2017, reaching USD24.1 million in earnings before interest, tax, depreciation and amortisation, a 114% increase year-on-year. Our ongoing business strategies continue to display positive results as reflected by the higher sales volume and increased processing margins.

FINANCIAL REVIEW

The Group's revenue fell marginally by USD4.9 million or 1.6% from USD300.6 million in FY2016 to USD295.6 million in FY2017 due to a decrease in average selling price as a result of lower cocoa bean prices, partially offset by higher shipment volume due to strong customer demand.

Despite the lower revenue, gross profit has more than doubled to USD31.9 million, from USD13.6 million in FY2016 on the back of a 6.3 percentage point improvement in gross profit margin to 10.8%.

The stronger gross profit margin was a result of our continued effort to increase sales volume and improve operating efficiency. This was further supported by the higher sales volumes which lifted processing margins.

The Group recorded other losses of USD1.7 million as compared to other gains of USD3.3 million in FY2016 due to higher foreign exchange loss arising from borrowings denominated in Great Britain Pound ("GBP") as a result of the appreciation in GBP against USD.

Selling and distribution expenses increased by USD0.3 million or 7.7% from USD4.2 million in FY2016 to USD4.5 million in FY2017, mainly due to higher export freight and handling costs incurred as a result of higher product shipment volume.

Administrative expenses increased by USD0.4 million or 6.9% from USD6.0 million in FY2016 to USD6.4 million in FY2017, mainly due to an increase in headcount and higher payroll cost.

Finance costs increased by USD0.1 million or 4.8% from USD2.4 million in FY2016 to USD2.5 million in FY2017 mainly due to increased cost of borrowings to finance purchases of cocoa beans and ingredients.

As a result of the above, the Group registered a profit after tax of USD14.2 million in FY2017 as compared to USD3.8 million in the previous year.

DIVIDEND

The Board considers dividends to be an important component of shareholder returns. For the third quarter ended 30 September 2017, the Board has declared an interim dividend of 2 Singapore cents per share.

FUTURE PROSPECTS

We are cautiously optimistic on the cocoa industry following the improved cocoa processing environment in 2017. This is largely due to the consolidation of the global cocoa market as well as lower cocoa prices which resulted in higher processing margins.

Cocoa ingredient products play a vital role in our customer's manufacturing process of consumer goods such as chocolates. With that in mind, we place strong emphasis on maintaining the high quality of our products. Owing to our commitment to offer the best products, the Group is also well-positioned to drive growth by tapping on emerging markets, such as China, India and Indonesia.

CEO'S MESSAGE

Going forward, we will continue to execute our business strategies to achieve our growth and profitability goals, as well as enhancing value to our shareholders.

ACKNOWLEDGEMENT

I would like to thank my fellow Directors, key personnel and staff members for their commitment and dedication to the Group.

On behalf of the Board, I would like to extend my sincere appreciation to our shareholders, customers, business associates and employees for their continued confidence and unwavering support to JB Foods.

We are confident that we have the right people in place to bring the Group's to greater heights performance as we move towards another new and exciting year.

Yours sincerely,

Tey How Keong

OPERATIONS AND FINANCIAL REVIEW

INCOME STATEMENT

For the full year ended 31 December 2017 ("FY2017"), JB Foods' revenue fell marginally by 1.6% or USD4.9 million to USD295.6 million, from USD300.6 million in the previous year, mainly due to the lower average selling price to the Group's customers arising from lower cocoa bean prices and partially offset by the higher shipment volume due to strong customer demand.

Despite the lower revenue, the Group registered a gross profit of USD31.9 million in FY2017 compared to USD13.6 million in FY2016. Gross profit margin improved by 6.3 percentage points to 10.8% as a result of improvements in processing margin.

The Group registered other losses (net) of USD1.7 million in FY2017 compared to other losses (net) of USD3.3 million in FY2016, mainly due to higher foreign exchange losses arising from the Group's borrowings denominated in Great Britain Pound (GBP) due to the appreciation of GBP against US Dollar (USD).

Selling and distribution expenses increased by USD0.3 million or 7.7% from USD4.2 million in FY2016 to USD4.5 million in FY2017, mainly due to higher export freight and handling costs incurred as a result of higher product shipment volume.

Administrative expenses increased by USD0.4 million or 6.9% from USD6.0 million in FY2016 to USD6.4 million, mainly due to an increase in the Group's headcount and higher payroll cost.

Taxation increased by USD2.1 million from USD0.6 million in FY2016 to USD2.7 million in FY2017, mainly due to a reversal of the Group's Investment Tax Allowance of USD0.9 million for prior years and the recognition of deferred tax liability which amounted to USD1.3 million.

As a result, the Group registered a profit after tax of USD14.2 million in FY2017 compared to a profit after tax of USD3.8 million in FY2016.

BALANCE SHEET

The Group's non-current assets increased by USD3.4 million or 5.7% from USD59.8 million as at 31 December 2016 to USD63.2 million as at 31 December 2017, mainly due to the purchase of property, plant and equipment and land lease in FY2017 of USD7.1 million and USD0.5 million respectively, partially offset by the depreciation charge of USD4.3 million on property, plant and equipment.

The Group's current assets decreased by USD9.5 million or 6.6% from USD143.8 million as at 31 December 2016 to USD134.4 million as at 31 December 2017, mainly due to the decrease in inventories, trade and other receivables and current income tax recoverable of USD12.6 million, USD4.6 million and USD0.9 million respectively, partially offset by the increase in prepayments of USD0.2 million and cash and cash equivalents of USD8.5 million.

The Group's current liabilities decreased by USD17.7 million or 13.8% from USD128.4 million as at 31 December 2016 to USD110.6 million as at 31 December 2017, mainly due to decrease in derivative financial instruments and bank borrowings of USD0.7 million and USD23.2 million respectively, partially offset by the increase in trade and other payables of USD6.3 million.

The Group's non-current liabilities increased by USD1.5 million or 106.4% from USD1.4 million as at 31 December 2016 to USD2.9 million as at 31 December 2017, mainly due to the increase in deferred tax liabilities of USD1.3 million.

The Group's equity attributable to owners of the parent increased by USD10.2 million or 13.8% from USD73.9 million as at 31 December 2016 to USD84.1 million as at 31 December 2017, mainly due to the profit of USD14.2 million generated during the financial year, partially offset by the dividend of USD4.2 million.

OPERATIONS AND FINANCIAL REVIEW

CASH FLOWS

STATEMENT OF CASH FLOWS

USD'000	FY2017	FY2016
Net cash from/(used in) operating activities	42,808	(6,621)
Net cash used in investing activities	(7,727)	(3,323)
Net cash (used in)/from financing activities	(26,547)	9,642
Net change in cash and cash equivalents	8,534	(302)
Cash and cash equivalents at end of the year	15,641	7,119

The Group's cash and cash equivalent increased by USD8.5 million in FY2017, mainly due to net cash inflows from operating activities of USD42.8 million partially offset by investing and financing cash outflows of USD7.7 million and USD26.5 million respectively.

The net cash from operating activities of USD42.8 million in FY2017 was mainly attributable to the positive operating cash flow of USD23.8 million, net cash inflows in inventories, trade and other receivables and trade and other payables of USD12.3 million, USD4.6 million and USD2.9 million respectively, partially offset by funds utilised in prepayments of USD0.2 million.

The net cash used in investing activities of USD7.7 million was mainly due to capital expenditure of USD7.9 million incurred in the purchase of plant and equipment, intangible assets, land use rights and payment of land lease, partially offset by interest received of USD0.1 million respectively.

The net cash used in financing activities of USD26.5 million was mainly due to the net repayment of bank borrowings, payment for dividends and finance cost of USD23.2 million, USD0.8 million and USD2.5 million respectively.

SUSTAINABILITY REPORT

SUSTAINABILITY MATTERS

1. BOARD'S STATEMENT

We reaffirm our commitment to sustainability with the publication of our maiden sustainability report ("Report") guided by the GRI: Core option. For this Report, we provide insights into the way we do business, while highlighting our ESG and economic performance.

Whilst mindful of our profit oriented objective, we are committed to strike a balance between growth, profit, governance, environment, the development of our people and well-being of our communities to secure a long term future of our Group. This commitment is reflected in our sustainable business strategy and the material ESG factors which are shown in this Report.

A sustainability policy ("SR Policy") covering our sustainability strategies, reporting structure, materiality assessment and processes in identifying and monitoring material ESG factors has been put in place and serves as a point of reference in the conduct of our sustainability reporting. Under this SR Policy, we will continue to monitor, review and update our material ESG factors from time to time, taking into account the feedback that we receive from our engagement with our stakeholders, organizational and external developments.

2. REPORTING FRAMEWORK

In preparing this sustainability report, we were guided by the GRI Standards: Core option.

3. REPORTING PERIOD

This Report is applicable for the Group's financial year ended 31 December 2017 ("FY2017"). A sustainability report will be published annually thereafter in accordance with our SR Policy.

4. FEEDBACK

We welcome feedback from all stakeholders on this Report. You may send related questions, comments, suggestions or feedback to our investor relations email account: investor@jbcocoa.com

SUSTAINABILITY REPORT

5. STAKEHOLDER ENGAGEMENT

The Group's efforts on sustainability are focused on creating sustainable value for its key stakeholders, which comprise customers, employees, regulators, shareholders and suppliers. Key stakeholders are determined for each material factor identified, based on the extent of which they can affect or are affected by operations of the Group.

We actively engage our key stakeholders through the following channels:

S/N	Key stakeholder	Engagement channel
1	Customer	Communications with customers are made through various channels such as meetings, events, email communications, phone calls and teleconferences.
2	Employee	Senior management holds regular communication sessions with employees to obtain feedback and alignment of business goals across all levels of workforce. Such communication channels include emails and half-yearly staff evaluation sessions where employees can pose questions in person.
3	Regulator	The Group participates in consultations and briefing organised by key regulatory bodies such as Singapore Stock Exchange so as to better understand the regulatory requirements and to furnish feedback on proposed regulatory changes that impact the company's business.
4	Shareholder	The Group conveys timely, full and credible information to shareholders through announcement on SGXNET, Company's website (http://www.jbcocoa.com), annual general meetings, annual reports, and other channels such as business publications and investors' relation events.
5	Suppliers	The Group works closely with suppliers to ensure smooth delivery of products. In general, new suppliers are screened in accordance with the purchasing policies and existing suppliers are assessed by respective work teams based on specified criteria. Feedback is also provided by the procurement teams to suppliers to ensure standards of products or services delivered by suppliers.

Through the above channels, the Group seeks to understand the views of key stakeholders, communicate effectively with them and respond to their concerns.

SUSTAINABILITY REPORT

6. POLICY, PRACTICE AND PERFORMANCE REPORTING

6.1 Reporting structure

Our sustainability strategy is developed and directed by the senior management in consultation with the Board of Directors. The Group's Sustainability Committee, which includes senior management executives, is led by the Group's CEO, and tasked to develop the sustainability strategy, review its material impacts, consider stakeholder priorities and set goals and targets, as well as collect, verify, monitor and report performance data for this Sustainability Report.

6.2 Sustainability reporting processes

Under our SR policy, our sustainability process begins with the identification of relevant factors. Relevant factors are then prioritized as material factors which are then validated. The end result of this process is a list of material factors disclosed in this Report. Processes involved are as shown in the chart below:

IDENTIFICATION

Identification of the material factors that are relevant to the Group's activities and data points for performance reporting

PRIORITIZATION

Prioritization of the material factors and identification of key sustainability factors to be reported

VALIDATION

Validation involves the verification of information and data gathered on material factors and to perform an assessment on the completeness of key sustainability factors to finalize the sustainability report content

REVIEW

Monitor, review and update our material factors from previous reporting period, taking into account the feedback received from engagement with stakeholders, organizational and external developments

SUSTAINABILITY REPORT

6.3 Materiality assessment

Under our SR Policy, each sustainability factor is assigned a reporting priority that determines the actions required as illustrated in the table below:

Reporting priority	Description	Criteria
I	High	Factors with high reporting priority are reported on in detail.
II	Medium	Factors with medium reporting priority are considered for inclusion in the Report. They may not be included in this Report if not material.
III	Low	Factors with low reporting priority may be reported to fulfil regulatory or other reporting requirements. They are not included in this Report if not material.

The reporting priority is supported by a materiality factor matrix which considers the level of concern to external stakeholders and potential impact on business.

7. MATERIAL FACTORS

Our materiality assessment performed for FY2017 involved the Group's Senior Management in identifying sustainability factors deemed material to the Group's businesses and our stakeholders so as to allow us to channel our resources judiciously to create sustainability value for our stakeholders.

Presented below are a list of key sustainability factors (Level I and selected level II reporting priority) applicable to our Group:

S/N	Material factor	Key stakeholder	Reporting priority
Environmental			
1	Energy conservation and waste optimization	Shareholder	II
2	Commitment to sustainable cocoa	Supplier, customer	II
Social			
3	Safe working environment	Employee	II
Economic			
4	Sustainable business performance	Shareholder	I
Governance			
5	Robust corporate governance framework	Shareholder, regulator	II

We will update the material factors on an annual basis to reflect changes in business operations, environment, stakeholder's feedback and sustainability trends. The details of each key sustainability factor are presented as follows:

SUSTAINABILITY REPORT

7.1 Energy conservation and waste optimization

We believe that responsible usage of energy resources and waste optimization help to preserve the environment and create long-term economic value to shareholders.

The Group has grown to be one of the major cocoa ingredient producers in the region with two factories located in Malaysia and Indonesia. To run our operations, we rely mainly on the following energy sources:

- Diesel for operating machineries and motor vehicles
- Electricity for operating production equipment and office equipment such as lighting, office work and cooling
- Liquefied petroleum gas (“LPG”) or natural gas for operating machineries, including machineries for bean drying and roasting

The main waste materials generated in operations are cocoa shells.

Under our commitment to energy conservation and waste optimisation, various measures and initiatives are adopted as follows:

a. Implement a preventive maintenance program

A systematic maintenance program for operating equipment is in place to maintain energy efficiency in our processing factories.

b. Conversion of cocoa shell into biomass energy

In Malaysia, the factory uses discarded cocoa shells as biomass to generate energy for heating processes. During the reporting period, 26% (FY2016: 26%) of energy consumed was generated from this renewable source. The factory also uses discarded cocoa shells to produce steam and generated a cost saving of approximately US\$50k (FY2016: US\$60k) monthly should diesel fuel be used instead.

c. Use of cocoa shells for animal feed

In Indonesia, given that cocoa shells are rich in protein, cocoa shells generated in operations are sold to local poultry farmers as animal feed and generated approximately US\$595k (FY2016: US\$577k) of income during the reporting period.

SUSTAINABILITY REPORT

7.2 Commitment to sustainable cocoa

Sustainability in the cocoa industry is centered on the cocoa farmers which comprises mainly smallholder farmers in developing countries in Africa and Asia. Such farmers face challenges such as ageing trees, pests, diseases and depleted soils. A key success factor to sustainable cocoa farming is to adopt good agricultural and business practices as they result in better yields and income for the farmers. Types of sustainable agricultural practices include the following:

Sustainable agricultural practice	Objective
Soil conservation	Prevent soil from becoming chemically altered by acidification or other chemical soil contamination through the use of appropriate chemicals
Fertilizer application	Prevent loss of soil fertility through applying adequate and right-quality fertilizers to supplement the missing nutrients in the soil
Harvesting storage	Ensure harvesting is performed regularly to prevent pods from becoming over-ripe as they are more likely to become infected with disease
Storage	Ensure cocoa beans packaged in clean bags that are sufficiently strong and properly sealed to prevent deterioration

We are committed to sustainable cocoa farming to ensure long-term supply of fine flavour cocoa and higher yields for cocoa farmers which will in turn supports the Group's long term sustainability. A strong commitment to sustainable cocoa farming also facilitates the Group to respond to increasing customers' demand for sustainable cocoa products.

From time to time, the Group cooperates with non-profit organisations to promote sustainable cocoa farming in Indonesia. Under such collaborations, the Group purchases cocoa beans farmed using sustainable methods and cocoa farmers are encouraged to produce high quality beans through incentives paid by the industry.

7.3 Safe working environment

A safe work environment allows our employees to work safely without fear of getting injured. This helps to build loyalty amongst our employees and support the sustainability of the Group. Accordingly, we are committed to place priority on maintaining a safety and security conscious culture amongst our employees of all levels.

The total number of Group's employees as at 31 December 2017 stands at 526 (FY2016: 392). The Group recorded zero (FY2016: zero) workplace fatality during the reporting period and 16 (FY2016: 15) non-fatal workplace injuries. Although the incident rate increased marginally, the severity of accidents decreased significantly to 29 man-days lost (FY2016: 73) during the reporting period. The non-fatal workplace injuries related to light injuries such as to hands and fingers. We will continuously work towards reducing both the occurrence and severity of workplace accidents.

Key measures adopted to manage health and safety in the workplace environment are as follows:

- A set of safety rules and regulations is in place
- Safety committees are in place and safety audits are performed reported regularly
- New employees are briefed on safety procedures during orientation
- Visual signs on safety are displayed at strategic locations within operating premises
- Briefings and talks on occupational safety are organised regularly
- Accidents are tracked and monitored regularly

SUSTAINABILITY REPORT

7.4 Sustainable business performance

We believe in creating long-term economic value for shareholders by striking a balance between rewarding shareholders by way of consistent profits, dividend payments and maintaining a robust balance sheet with strong operating cash flows.

In FY2017, the Group recorded revenue of US\$296 million (FY2016: US\$301 million). The Group generated US\$14.2 million (FY2016: US\$3.8 million) of net profit for the period attributable to equity holders of the Company, an increase of approximately 3.5 times compared to FY2016. A tax-exempt dividend of 2.00 Singapore cents per share was declared for the reporting period (FY2016: 0.50 Singapore cents per share).

Details of the Group's economic performance can be found in the financial contents and audited financial statements of this Annual Report.

7.5 Robust corporate governance framework

A high standard of corporate governance is integral in ensuring sustainability of the Group's business as well as safeguarding shareholders' interest and maximizing long term shareholder value.

Our overall Singapore Governance and Transparency Index ("SGTI") score assessed by National University of Singapore Business School was 56 for FY2017 (FY2016: 49) which placed us within the top 40 (FY2016: top 50) percentile of the public listed companies assessed.

You may refer to Corporate Governance Report of this Annual Report for details for our corporate governance practices.

8. DATA COLLECTION AND TARGET SETTING

As this is our inaugural report, we are in the process of improving and refining our data collection methods to present meaningful and reliable data to track and guide the basis for us to set targets for our material sustainability factors. Accordingly, we have deferred the process of target setting until a time when adequate, meaningful and reliable data is available.

CORPORATE GOVERNANCE REPORT

The Board of Directors (“**the Board**”) of JB Foods Limited (the “**Company**”) and its subsidiaries (the “**Group**”) is committed to maintaining a high standard of corporate governance to safeguard the interests of shareholders and to enhance corporate value and accountability.

As required by the Listing Manual of Singapore Exchange Securities Trading Limited (the “**SGX-ST**”), the following report describes the Company’s corporate governance processes and structures that were in place throughout the financial year, with specific reference made to the principles and guidelines of the Code of Corporate Governance 2012 (the “**Code**”).

This report describes the corporate governance framework and practices of the Company that were in place for the financial year ended 31 December 2017 (“**FY2017**”), with specific references to the Code. The Company confirms that it has adhered to the principles and guidelines set out in the Code, where applicable, relevant and practicable to the Group. Any deviations from the guidelines of the Code or areas of non-compliance have been explained accordingly.

PRINCIPLE 1: THE BOARD’S CONDUCT OF ITS AFFAIRS

The Board is entrusted with the responsibility for the overall management of the business and corporate affairs of the Group.

The Board’s principal functions include:

- a) reviewing the financial results of the Group, internal controls, external audit and resource allocation;
- b) supervising and approving strategic direction of the Group;
- c) reviewing the business practices and risk management of the Group;
- d) approving the annual budgets and major funding proposals;
- e) approving and monitoring major investments, divestments, mergers and acquisitions;
- f) convening of shareholders’ meetings;
- g) assuming responsibility for corporate governance; and
- h) considering sustainability issues as part of its strategic formulation.

A formal document setting out the guidelines and matters (including the matters set out above) which are to be reserved for the Board’s decision has been adopted by the Board.

To facilitate effective management and support the Board in its duties, certain functions of the Board have been delegated to various Board Committees, namely the Audit Committee (“**AC**”), the Nominating Committee (“**NC**”) and the Remuneration Committee (“**RC**”) which have been constituted with clearly defined terms of reference. Matters which are delegated to Board Committees for more detailed appraisals are reported to and monitored by the Board. In order to strengthen and facilitate the Company’s risk assessment and management systems, the Board had also established a Risk Committee on 1 April 2014 (the “**Risk Committee**”, and together with the AC, NC and RC, collectively referred to herein as “**Board Committees**”). The Board accepts that while the Board Committees have the authority to examine particular issues and will report back to the Board with their decision and/or recommendations, the ultimate responsibility on all matters lies with the entire Board.

CORPORATE GOVERNANCE REPORT

In addition, in order to strengthen the independence of the Board, the Company has appointed Mr Chua Cheow Khoo Michael as Chairman of the Board and Lead Independent Director.

The Board has scheduled to meet at least four times a year and to coincide these meetings with the Group's results announcements. Besides the scheduled meetings, the Board meets on an ad-hoc basis as warranted by particular circumstances. The Company's Constitution provides for directors to conduct meetings by teleconferencing or videoconferencing. The Board and Board Committees may also make decisions through circular resolutions.

Newly appointed Directors will be given appropriate briefings by the Management on the business activities of the Group, its strategic directions and the Company's corporate governance policies and practices, including amongst other matters, their roles, obligations, duties and responsibilities as members of the Board prior to their appointments. Such newly appointed Directors shall also, on request, travel to see the operations of the Group.

The Directors are updated, from time to time, when new laws or regulations affecting the Group are introduced. The Directors are encouraged to attend seminars and training courses that will assist them in executing their obligations and responsibilities as Directors of the Company and the Company has a training budget which can be used by the Directors to attend courses that they are interested in.

The attendance of the Directors at meetings of the Board and Board Committees held during FY2017 are as follows:

	Board of Directors		Audit Committee		Remuneration Committee		Nominating Committee		Risk Committee	
	No. of Meetings	Attendance	No. of Meetings	Attendance	No. of Meetings	Attendance	No. of Meetings	Attendance	No. of Meetings	Attendance
<u>Director</u>

Chin Koon Yew	6	6	4	4	2	2	1	1	2	2

Note:

(1) Mr Loo Wen Lieh was appointed as Alternate Director to Mr Goi Seng Hui on 23 May 2013. An Alternate Director is not required to attend a board meeting if the director to whom he is appointed as alternate director is present at such board meeting.

PRINCIPLE 2: BOARD COMPOSITION AND BALANCE

As at the date of this Annual Report, the Board comprises five Directors, of whom two are Independent Directors and one is a Non-Executive Director. The two Independent Directors of the Company are Mr Chua Cheow Khoo Michael and Mr Chin Koon Yew. As Mr Chua Cheow Khoo Michael, the Chairman of the Board, is an Independent Director, the current number of Independent Directors complies with the Code's requirement that at least one-third of the Board should comprise Independent Directors, which bring a strong and independent element to the Board. The Board has the appropriate mix of expertise and experience, and collectively possesses the necessary core competencies for effective functioning and informed decision-making. The profiles of the Directors are found in the "Board of Directors" section of this Annual Report.

CORPORATE GOVERNANCE REPORT

The Board through the NC has examined its size and composition and is of the view that it is an appropriate size for effective decision-making, taking into account the scope and nature of the operations of the Company. The NC is of the view that no individual or small group of individuals dominates the Board's decision-making process. The NC is also of the view that the Board has a good balance of Directors who have extensive business, financial, accounting and management experience.

The Board members as of the date of this Annual Report are:

Mr Chua Cheow Khoo Michael	:	Chairman and Lead Independent Director
Mr Goi Seng Hui	:	Non-Independent Non-Executive Director and Vice Chairman
Mr Tey How Keong	:	Chief Executive Officer and Executive Director
Mdm Goh Lee Beng	:	Executive Director
Mr Chin Koon Yew	:	Independent Director
Mr Loo Wen Lih	:	Alternate Director to Mr Goi Seng Hui

The Company has in place an NC which determines the independence of each Director annually based on the definition of independence as set out in the Code.

The Independent Directors will assist to develop strategy and goals for the Group and regularly assess the performance of the Management.

The Board has identified each of the Company's Independent Directors to be independent, after determining, taking into account the views of the NC, whether the Director is independent in character and judgement and whether there are relationships or circumstances which are likely to affect, or could appear to affect, the Director's judgement. Each Director is required to disclose to the Board any such relationships or circumstances as and when they arise.

The Independent Directors meet at least once annually without the presence of the other Directors.

PRINCIPLE 3: CHAIRMAN AND CHIEF EXECUTIVE OFFICER

As at the date of this Annual Report, the roles of Chairman and Chief Executive Officer ("CEO") are separated to ensure an appropriate balance of power, increased accountability and greater capacity of the Board for independent decision-making.

Mr Chua Cheow Khoo Michael, the Lead Independent Director, is the Chairman of the Board and Mr Tey How Keong assumes the role of CEO of the Company.

As Chairman, Mr Chua Cheow Khoo Michael is responsible for leading the Board and facilitating its effectiveness and his duties include promoting high standards of corporate governance.

The CEO is responsible for the formulation of the Group's strategic directions and expansion plans, and managing the Group's overall business development.

The separation of the roles of the Chairman and CEO ensures an appropriate balance of power, increased accountability and greater capacity of the Board for independent decision-making. The Chairman is not related to the CEO.

In view of the above, the Board is of the view that power is not unduly concentrated in the hands of one individual nor is there any compromised accountability and independent decision-making as all major decisions and policy changes are conducted through the respective Board Committees, all of which are chaired by the Independent Directors.

CORPORATE GOVERNANCE REPORT

PRINCIPLE 4: BOARD MEMBERSHIP

As at the date of this Annual Report, the NC comprises the following members, a majority of whom, including the Chairman, are independent:

Mr Chua Cheow Khoo Michael (Chairman)

Mr Chin Koon Yew

Mr Tey How Keong

The NC has written terms of reference that describe the responsibilities of its members. The principal functions of the NC are as follows:

- (a) reviewing and recommending nomination for re-appointment or re-election or renewal of appointment of the directors;
- (b) reviewing on an annual basis the independence of the Independent Directors;
- (c) reviewing whether a director is adequately carrying out his duties as a director; and
- (d) reviewing and recommending candidates for appointment to the Board and Board Committees.

For new appointments to the Board, the NC will consider the Company's current Board size and its composition and decide if the candidate's background, expertise and knowledge will complement the skills and competencies of the existing Directors on the Board. The candidate must be a person of integrity and must be able to commit sufficient time and attention to the affairs of the Company, especially if he is serving on multiple Boards.

If a vacancy arises under any circumstances, or where it is considered that the Board would benefit from the services of a new director, the NC, in consultation with the Board, will determine the selection criteria and select the appropriate candidate for the position.

Mr Loo Wen Lih was appointed as Alternate Director to Mr Goi Seng Hui on 23 May 2013. The NC and the Board had approved Mr Loo Wen Lih's appointment after taking into account his experience, qualifications and ability to contribute to the Board in Mr Goi Seng Hui's absence. Mr Loo Wen Lih briefs Mr Goi Seng Hui on the matters discussed during Mr Goi Seng Hui's absence so that Mr Goi Seng Hui is kept up-to-date on matters concerning the Company.

The NC is also tasked with deciding whether or not a Director is able to and has been adequately carrying out his duties as a Director, particularly when he has multiple board representations, and to assess the maximum number of listed entity board representations which any one of the Directors may hold. As a guide, Directors of the Company should not have more than six listed company board representations and other principal commitments.

After conducting reviews, the NC is satisfied that sufficient time and attention are being given by the Directors to the affairs of the Group.

Further to the above, the NC reviews the independence of each of the Independent Directors annually. As part of their review process, the NC requires the Independent Directors to complete and execute declaration forms in relation to their independence. These declaration forms are drawn up based on the guidelines in the Code. The NC reviewed the declaration forms executed by the Independent Directors as well as any declaration which they may make to determine their respective independence. Pursuant to its review, the NC is of the view that Mr Chua Cheow Khoo Michael and Mr Chin Koon Yew are independent of the Group and the Management.

CORPORATE GOVERNANCE REPORT

All Directors submit themselves for re-nomination and re-election at regular intervals at least once every three years. One-third of the Directors will retire from office by rotation at the Company's annual general meeting ("AGM") each year. A retiring Director is eligible for re-election by the shareholders at the AGM.

Details of the appointment of Directors including date of initial appointment and date of last re-election and directorships in other listed companies, both current and for the preceding three years, are set out below:

Name of Director	Age	Date of Initial Appointment	Date of Last Re-election	Present and Past Directorship in Listed Companies
Chua Cheow Khoo Michael	67	4 May 2012	26 April 2016	Present Directorships: Cogent Holdings Limited (Delisted with effect from 6 March 2018) Past Directorships: Cedar Strategic Holdings Ltd
Goi Seng Hui	71	01 March 2013	26 April 2016	Present Directorships: Envictus International Holdings Limited Super Group Ltd Tung Lok Restaurants (2000) Ltd GSH Corporation Limited Past Directorships: -
Tey How Keong	52	3 January 2012	25 April 2017	Present Directorships: - Past Directorships: -
Goh Lee Beng	52	4 May 2012	30 April 2015	Present Directorships: - Past Directorships: -
Chin Koon Yew	62	18 February 2014	25 April 2017	Present Directorships: - Past Directorships: -
Loo Wen Lih	43	23 May 2013	-	-

The Directors who are retiring by rotation pursuant to Article 98 of the Constitution of the Company at the forthcoming AGM are Mdm Goh Lee Beng and Mr Chua Cheow Khoo Michael. After assessing their respective contributions and performance, the NC is recommending each of Mdm Goh Lee Beng and Mr Chua Cheow Khoo Michael for re-election at the forthcoming AGM.

CORPORATE GOVERNANCE REPORT

PRINCIPLE 5: BOARD PERFORMANCE

The NC uses objective and appropriate quantitative and qualitative criteria to assess the performance of individual directors, and the Board as a whole. Assessment parameters include the attendance records of the directors at Board or Board Committees meetings, the level of participation at such meetings, the quality of Board processes and the business performance of the Group.

The NC assesses and recommends to the Board whether retiring directors are suitable for re-election. The NC considers that the multiple board representations held presently by some Directors do not impede their respective performance in carrying out their duties to the Company.

The Board evaluation assessment is conducted by the NC by way of a Board evaluation where the NC completes a questionnaire seeking their views on various aspects of the individual Directors' and the Board's performance.

Each member of the NC shall abstain from making any recommendations and/or participating in any deliberation of the NC and from voting on any resolutions in respect of his own performance or re-nomination as a Director. The Chairman will act on the results of the performance evaluation, and in consultation with the NC, propose, where appropriate, that new members be appointed to the Board or seek the resignation of Directors.

To assess the effectiveness of the Board as a whole, the factors evaluated by the NC include but are not limited to:

- (i) the size and composition of the Board;
- (ii) the discussion and decision-making processes of the Board (including the conduct of meetings by the Board);
- (iii) the Board's access to information;
- (iv) the accountability of the Board to the shareholders;
- (v) the observation of risk management and internal control policies by the Board; and
- (vi) the performance of the Board (including the Board's performance in relation to the discharge of its principal responsibilities in terms of the financial indicators set out in the Code).

To assess the contribution of each individual Director, the factors evaluated by the NC include but are not limited to:

- (i) his/her participation at the meetings of the Board;
- (ii) his/her ability to contribute to the discussion conducted by the Board;
- (iii) his/her ability to evaluate the Company's strengths and weaknesses and make informed business decisions;
- (iv) his/her ability to interpret the Company's financial reports and contribute to the formulation of strategies, budgets and business plans that are compatible with the Group's vision and existing business strategy;
- (v) his/her compliance with the policies and procedures of the Group;
- (vi) his/her performance of specific tasks delegated to him/her;
- (vii) his/her disclosure of any related person transactions or conflicts of interest; and
- (viii) for Independent Directors, his/her independence from the Group and the Management.

The Board and the NC have endeavoured to ensure that the Directors possess the experience, knowledge and expertise critical to the Group's business.

CORPORATE GOVERNANCE REPORT

PRINCIPLE 6: ACCESS TO INFORMATION

Directors are furnished regularly with information from Management about the Group as well as the relevant background information relating to the business to be discussed at Board meetings. The Directors also have separate and independent access to the Company's Senior Management and the Joint Company Secretaries to facilitate separate and independent access.

One Joint Company Secretary or his/her representative administers and attends all Board and Board Committees meetings of the Company and prepares minutes of meetings. Together with members of the Company's Management, the Joint Company Secretaries are responsible for ensuring that appropriate procedures are followed and that the requirements of the Companies Act and the SGX-ST and other rules and regulations that are applicable to the Company are met. Each Director has the right to seek independent legal and other professional advice, at the Company's expense, concerning any aspect of the Group's operations or undertakings in order to fulfil his duties and responsibilities as Director.

The appointment and the removal of the Joint Company Secretaries are subject to the Board's approval.

PRINCIPLE 7: PROCEDURES FOR DEVELOPING REMUNERATION POLICIES

As at the date of this report, the RC comprises the following members, a majority of whom are independent:

Mr Chin Koon Yew (Chairman)

Mr Chua Cheow Khoon Michael

Mr Tey How Keong

The RC does not comprise entirely of Non-Executive Directors as the participation of Mr Tey How Keong, the CEO and Executive Director, in the RC helps provide meaningful feedback in the setting of the Group's overall compensation packages due to his in-depth understanding of the Group's human resource capital as well as industry-specific benchmarks in respect of remuneration. The independence of the RC will not be compromised with the involvement of Mr Tey How Keong as the majority of the RC members, including the chairman of the RC, are Independent and Non-Executive Directors.

The RC has written terms of reference that describe the responsibilities of its members.

The RC will recommend to the Board a framework of remuneration for the Directors and key executives, and determine specific remuneration packages for each Executive Director. The recommendations of the RC will be referred to the Board for approval. The RC is responsible for considering, reviewing, and approving and/or varying (if necessary) the entire specific remuneration package and service contract terms for each member of key management, including but not limited to directors' fees, salaries, allowances, bonuses and other benefits-in-kind. Each member of the RC shall abstain from voting on any resolution in respect of his remuneration package.

If necessary, the RC may seek expert advice inside and/or outside the Company on the remuneration of the Directors and key management personnel. The RC ensures that in the event of such advice being sought, existing relationships, if any, between the Company and its appointed remuneration consultants will not affect the independence and objectivity of the remuneration consultants. The Company has not appointed any remuneration consultants for FY2017.

CORPORATE GOVERNANCE REPORT

PRINCIPLE 8: LEVEL AND MIX OF REMUNERATION

As part of its review, the RC ensures that remuneration packages of the Directors and the Management are comparable with industry rates and with similar companies. In its annual review of the remuneration packages of the Directors and the Management, the RC considers the Group's relative performance and the contributions and responsibilities of the individual Directors as well as the financial and commercial position and needs of the Group.

Executive Directors are paid a basic salary pursuant to their respective service agreements. Each service agreement is valid for an initial period of three years with effect from the date of the Company's admission to the SGX-ST. These service agreements provide for, inter alia, termination by either party upon giving not less than six months' notice in writing.

The Company is of the view that there is no requirement to institute contractual provisions to allow the Company to reclaim incentive components of Executive Directors' remuneration paid in prior years in exceptional circumstances of misstatement of financial results, or of misconduct resulting in financial loss, as they owe a fiduciary duty to the Company and the Company should be able to avail itself to remedies against the Executive Directors in the event of such breach of fiduciary duties.

Non-Executive Directors are paid a basic fee and an additional fee for serving on any of the Board Committees. The Chairman of each Board Committee is compensated for his additional responsibilities. The RC and Board are of the view that the Non-Executive Directors are not over-compensated to the extent their independence may be compromised. Such fees are approved by the shareholders of the Company as a quarterly payment in arrears at the AGM of the Company.

At the AGM of the Company held on 30 April 2014, the Company, having obtained Shareholders' approval, implemented an employee share option scheme ("ESOS") as a compensation scheme to promote higher performance and goals as well as to give recognition to the contributions and services of the Group's employees. For further details of the ESOS, please refer to the Appendix to the Company's Annual Report dated 15 April 2014, which may also be found on SGXNET (http://www.sgx.com/wps/portal/sgxweb/home/company_disclosure/annual_financial).

PRINCIPLE 9: DISCLOSURE ON REMUNERATION

The level and mix of remuneration of the Company's Directors (rounded off to the nearest thousand dollars) and key management personnel for FY2017 are as follows:

Name of the Directors		Salary	Bonus	Other	Fees	Total
		S\$'000	S\$'000	Benefits S\$'000	S\$'000	S\$'000
Tey How Keong	Executive	406	182	4	-	592
Goh Lee Beng	Executive	232	53	4	-	289
Chua Cheow Khoon Michael		-	-	-	60	60
Chin Koon Yew		-	-	-	48	48
Goi Seng Hui		-	-	-	36	36
Loo Wen Lieh		-	-	-	-	-
Name of Top 3 Key Management Personnel		%	%	%	%	%
<u>S\$250,000 and below</u>						
Ong Kim Teck		72	13	15	-	100
Saw Poh Chin		81	14	5	-	100
Wong Wing Hong		82	11	7	-	100

CORPORATE GOVERNANCE REPORT

The Company had 3 key management personnel for FY2017 (who are not also Directors or the CEO). The total remuneration for these 3 key management personnel amounted to S\$415,000 during FY2017.

During FY2017, there were no employees of the Group who are immediate family members of a director or the CEO whose remuneration exceeded S\$50,000.

PRINCIPLE 10: ACCOUNTABILITY

In presenting the annual financial statements and quarterly announcements to shareholders, it is the aim of the Board to provide the shareholders with detailed analysis and a balanced and understandable assessment of the company's performance, position and prospects. In addition, the Company will also release timely announcements and news releases of significant corporate developments and activities so that the shareholders can have a detailed explanation and balanced assessment of the Group's financial position and prospects.

Management provides the Board with periodic updates covering operational performance, financial results, marketing and business development and other important and relevant information by various means, including but not limited to holding meetings with the Board or via email in which documents are circulated to the Board for their review or for their information.

Other ways in which information is disseminated to shareholders are further disclosed under Principles 14 and 15.

PRINCIPLE 11: RISK MANAGEMENT AND INTERNAL CONTROLS

The Board recognises that no internal control system will preclude all errors and irregularities. The system is designed to manage rather than to eliminate the risk of failure to achieve business objectives. The controls are to provide reasonable, but not absolute, assurance to safeguard shareholders' investments and the Group's assets. The Board regularly reviews the adequacy and effectiveness of all internal controls, including financial, operational, compliance controls and internal controls in relation to information technology risks.

The Company outsources its internal audit function to an external professional firm, who reports directly to the Chairman of the AC. The objective of the internal audit function is to determine whether the Group's risk management, control and governance processes, as designed by the Company, are adequate and functioning in the required manner.

The Board with the assistance of the AC, has undertaken an annual assessment on the adequacy and effectiveness of the Group's risk management and internal control systems. The assessment considered issues dealt with in reports reviewed by the AC and the Board during the year together with any additional information necessary to ensure that the Board has taken into account all significant aspects of risks and internal controls for the Group for FY2017.

In order to obtain assurance that the Group's risks are managed adequately and effectively, the Board had reviewed an overview of the risks which the Group is exposed to, as well as an understanding of what countermeasures and internal controls are in place to manage them.

CORPORATE GOVERNANCE REPORT

The Board has obtained a written confirmation from the CEO and the Group Financial Controller:

- (a) that the financial records have been properly maintained and the financial statements give a true and fair view of the Group's operations and finances; and
- (b) regarding the adequacy and effectiveness of the Group's risk management and internal control systems.

Based on the internal controls and risk management systems established and maintained by the Group, work performed by the internal and external auditors, and reviews performed by the Management, various Board Committees and the Board, the Board, with the concurrence of the AC, is of the opinion that the Group's internal controls and risk management systems are adequate to address the financial, operational, compliance and information technology risks in its current business environment.

In addition, the Company regularly reviews and improves its business and operational activities to identify areas of significant business risks as well as take appropriate measures to control and mitigate these risks. The Company reviews all significant control policies and procedures and highlights all significant matters to the AC and Board.

The Board acknowledges that it is responsible for the overall internal control and risk management framework, but recognises that all internal control and risk management systems contain inherent limitations and that no internal control system will preclude all errors and irregularities, as a system is designed to manage rather than eliminate the risk of failure to achieve business objectives. The Board notes that all internal control systems can provide only reasonable and not absolute assurance against the occurrence of material misstatement or loss, poor judgment in decision making, human error, fraud or other irregularities.

In order to further strengthen and facilitate the Company's risk assessment and management systems, the Board had also established a Risk Committee on 1 April 2014. As at the date of this Annual Report, the Risk Committee comprises the following members:

Mr Chin Koon Yew (Chairman)

Mr Tey How Keong

Mr Goi Seng Hui

Mr Wong Wing Hong

The Risk Committee has written terms of reference that describe the responsibilities of its members. The principal functions of the Risk Committee are as follows:

- (a) to advise the Board on the Company's overall risk tolerance and strategy;
- (b) oversee and advise the Board on the current risk exposures and future risk strategy of the Company;
- (c) in relation to risk assessment:
 - (i) keep under review the Company's overall risk assessment processes that inform the Board's decision making;
 - (ii) review regularly and approve the parameters used in these measures and the methodology adopted; and
 - (iii) set a process for the accurate and timely monitoring of large exposures and certain risk types of critical importance;

CORPORATE GOVERNANCE REPORT

- (d) review the Company's capability to identify and manage new risk types;
- (e) before a decision to proceed is taken by the Board, advise the Board on proposed strategic transactions, focusing in particular on risk aspects and implications for the risk tolerance of the Company, and taking independent external advice where appropriate and available;
- (f) review reports on any material breaches of risk limits and the adequacy of proposed action;
- (g) keep under review the effectiveness of the Company's internal controls and risk management systems and review and approve the statements to be included in the annual report concerning the effectiveness of the Company's internal control and risk management systems;
- (h) review the Company's procedures for detecting fraud, including the whistle-blowing policy (if any). The Risk Committee shall ensure that these arrangements allow proportionate and independent investigation of such matters and appropriate follow up action; and
- (i) monitor the independence of risk management functions throughout the organisation.

PRINCIPLE 12: AUDIT COMMITTEE

As at the date of this report, the AC comprises the following members, all of whom are Non-Executive Directors:

Mr Chua Cheow Khoon Michael (Chairman)

Mr Goi Seng Hui

Mr Chin Koon Yew

The members of the AC, collectively, have expertise or experience in financial management and are qualified to discharge the AC's responsibilities.

The AC has explicit authority to investigate any matter within its terms of reference, full access to and co-operation of the Management, full discretion to invite any persons including a Director or an employee of the Group to attend its meeting, and reasonable resources to enable it to discharge its functions properly.

The AC holds meetings periodically and has been entrusted with the following functions:

- (a) review the financial and operating results and accounting policies;
- (b) review the audit plans of the Company's external auditors and/or internal auditors (where applicable), the scope of work and the results of the auditors' review and evaluation of the internal accounting control systems (including reviewing Management letters and Management responses);
- (c) evaluating the internal accounting control systems and ensuring coordination between the external auditors, the internal auditors and the Management, and review the assistance given by the Management to the auditors, and discuss problems and concerns, if any, arising from audits, and any matters which the auditors may wish to discuss (in the absence of the Management, where necessary);
- (d) review the external auditors' reports;

CORPORATE GOVERNANCE REPORT

- (e) review the cooperation given by the Company's officers to the external auditors;
- (f) review the half yearly and annual, and quarterly (if applicable) financial statements of the Company and the Group and the results announcements before the submission to the Board for approval, focusing in particular on changes in accounting policies and practices, major risk areas, significant adjustments resulting from the audit, compliance with accounting standards and compliance with the Listing Manual of the SGX-ST and any other relevant statutory or regulatory requirements;
- (g) review and evaluate the administrative, operating and internal accounting and financial control procedures;
- (h) review and make recommendation to the Board on the nomination of external auditors and internal auditors for appointment or re-appointment and matters relating to the resignation or dismissal of the external auditors and internal auditors;
- (i) review interested person transactions falling within Chapter 9 of the Listing Manual of the SGX-ST, if any;
- (j) review and discuss with the external auditors and internal auditors any suspected fraud, irregularity or infringement of any relevant laws, rules or regulations, which has or is likely to have a material impact on the Group's operating results or financial position and the Management's response;
- (k) review any potential conflicts of interest;
- (l) review the key financial risk areas, with a view to providing an independent oversight on the Group's financial reporting, the outcome of such review will be disclosed in the annual reports or if the findings are material, to be immediately announced via SGXNET;
- (m) review and recommend hedging policies and instruments, if any, to be implemented by the Company to the Directors;
- (n) undertake such reviews and projects as may be requested by the Board and report to the Board its findings from time to time on matters arising and requiring the attention of the AC;
- (o) generally undertake such other functions and duties which may be required by statute or the rules of the Listing Manual of the SGX-ST, and by such amendments made thereto from time to time;
- (p) reviewing the suitability of the Group Financial Controller; and
- (q) review, on an annual basis, whether or not to exercise the Kakao GmbH Call Option.

The AC meets with the external auditors without the presence of the Management at least once in every financial year.

The AC takes measures to keep abreast of the changes to accounting standards and issues which have a direct impact on financial statements, with updates being given by the external and internal auditors.

CORPORATE GOVERNANCE REPORT

The AC constantly bears in mind the need to maintain a balance between the independence and objectivity of the external auditors and the work carried out by the external auditors based on value for money consideration. The aggregate amount of fees paid to the external auditors of the Group during the financial year under review for the audit and non-audit services are disclosed in Note 24 to the financial statements in this Annual Report.

The AC has also reviewed the scope and quality of the external auditors' work before recommending the external auditors to the Board for re-appointment. After taking into account that the resources and experience of BDO LLP and the audit engagement partner assigned to the audit, BDO LLP's other audit engagements, the size and complexity of the audit for the Group as well as the number and experience of the staff assigned by BDO LLP for the audit, the AC is of the opinion that BDO LLP's independence has not been compromised and BDO LLP is able to meet its audit obligations.

The AC has recommended and the Board approves the nomination for the re-appointment of BDO LLP as external auditors of the Company at the forthcoming AGM.

The auditors of the Company's subsidiaries are disclosed in Note 9 to the financial statements in this Annual Report. BDO LLP, Singapore was appointed in FY2017 to audit the accounts of the Company and JB Foods Global Pte. Ltd.. BDO, Malaysia was appointed in FY2017 to audit the accounts of JB Cocoa Sdn Bhd and Allegis NPD Sdn Bhd. KAP Tanubrata Sutanto Fahmi Bambang & Rekan, Indonesia, a member firm of BDO International Limited, was appointed in FY2017 to audit the accounts of PT Jebe Koko and PT Jebe Trading Indonesia. BDO China Shu Lun Pan CPA LLP was appointed in FY2017 to audit the accounts of JB Cocoa Foods (China) Co., Ltd.

In appointing the audit firms for the Group, the AC is satisfied that the Company has complied with Rules 712 and 715 of the Listing Manual of the SGX-ST.

The Company has put in place a whistle-blowing policy, which provides for the mechanisms by which employees and other persons may, in confidence, raise concerns about possible improprieties in matters of financial reporting or other matters, with the objective of ensuring that arrangements are in place for the independent investigation of such matters for appropriate follow-up action. Details of the whistle-blowing policy and arrangements have been made available to all employees of the Company.

There were no reported incidents pertaining to whistle-blowing which fell under the scope and purview of the whistle-blowing policy for FY2017.

INTERNAL AUDIT

PRINCIPLE 13: THE COMPANY SHOULD ESTABLISH AN INTERNAL AUDIT FUNCTION THAT IS INDEPENDENT OF THE ACTIVITIES IT AUDITS.

The Board acknowledges that it is responsible for maintaining an internal audit function independent of the activities it audits. The Company has appointed Yang Lee & Associates to perform such internal audit functions ("Internal Auditors"). Yang Lee & Associates are not the external auditors of the Company and the AC noted that the internal audits conducted by the Internal Auditors meet the standards set out by the Institute of Internal Auditors.

CORPORATE GOVERNANCE REPORT

The Internal Auditors have unfettered access to all the Company's documents, records, properties and personnel, including access to the AC.

The Internal Auditors shall remain independent of the Management and will report to the Chairman of the AC on any material weaknesses and risks identified in the course of the audit which will also be communicated to Management. Management will accordingly update the AC on the status of the remedial action plans. To ensure the adequacy of the internal audit function, the AC reviews the Internal Auditors' scope of work on an annual basis. The AC is satisfied with the adequacy and effectiveness of the current internal audit function. The AC also believes that the system of internal controls and risk management maintained by the Company is adequate to safeguard Shareholders' investment and the Company's assets.

SHAREHOLDERS RIGHTS AND RESPONSIBILITIES

PRINCIPLE 14: SHAREHOLDER RIGHTS

The Shareholders are treated fairly and equitably to facilitate the exercise of their ownership rights. Written policies and procedures are implemented to ensure that there is adequate disclosure of development in the Group in accordance with the Listing Manual of the SGX-ST.

Any notice of a general meeting of Shareholders is issued at least 14 days before the scheduled date of such meeting.

PRINCIPLE 15: COMMUNICATION WITH SHAREHOLDERS

The Board is mindful of its obligations to provide timely disclosure of material information to shareholders of the Company and does so through:

- (a) annual reports issued to all shareholders of the Company. Non-shareholders may access the SGX website for the Company's annual reports;
- (b) quarterly results announcements of its financial statements on the SGXNET;
- (c) other announcements on the SGXNET; and
- (d) press releases on major developments regarding the Group.

The Company does not have a fixed dividend policy. The form, frequency and amount of dividends will depend on the Company's earnings, general financial condition, results of operations, capital requirements, cash flow, general business condition, development plans and other factors as the Directors may deem appropriate. Notwithstanding the foregoing, any pay-out of dividends would be clearly communicated to Shareholders via announcements released on SGXNET.

PRINCIPLE 16: CONDUCT OF SHAREHOLDER MEETINGS

The Company is committed to regular and proactive communication with its shareholders in line with continuous disclosure obligations of the Company under the Rules of SGX-ST. Pertinent information will be disclosed to shareholders in a timely, fair and equitable manner. The Company does not practise selective disclosure. Price sensitive information is first publicly released before the Company meets with any group of investors or analysts.

CORPORATE GOVERNANCE REPORT

Pertinent information is communicated to shareholders through:

- (a) quarterly results announcements which are published on the SGXNET and in news releases;
- (b) the Company's annual reports that are prepared and issued to all shareholders;
- (c) notices of and explanatory memoranda, for AGMs and extraordinary general meetings; and
- (d) press releases on major developments of the Group.

Shareholder meetings are the principal forum for communication with shareholders. Annual Reports and notices of the AGMs or any other shareholder meetings (as the case may be) are sent to all shareholders. The members of the AC, NC and RC will be present at AGMs to answer questions relating to the work of these Board Committees. The external auditors will also be present to assist the Directors in addressing any relevant queries by shareholders. The Board welcomes the views of shareholders on matters affecting the Company, whether at shareholders' meetings or on an ad hoc basis.

The Company's Constitution allows a shareholder of the Company to appoint up to two proxies to attend and vote on behalf of the shareholder at shareholder meetings, save that no limit shall be imposed on the number of proxies for nominee companies.

Votes at the forthcoming AGM and any other shareholder meetings going forward will be taken by poll so that shareholders are accorded rights proportionate to their shareholding and all votes are counted.

ADDITIONAL INFORMATION

Dealing in Securities

In compliance with Rule 1207(19) of the Listing Manual of the SGX-ST, the Group issues quarterly reminders to its Directors, officers and employees on the restrictions in dealing in the Company's securities during the period commencing (i) two weeks prior to the announcement of financial results of each of the first three quarters of the financial year, and (ii) one month before the announcement of full year results, and ending on the date of such announcements.

Directors, officers and employees are also reminded not to trade in the Company's securities at any time while in possession of unpublished price sensitive information and to refrain from dealing in the Company's securities on short-term considerations.

Interested Person Transactions

The Company has established procedures to ensure that all transactions with interested persons or related persons are reported in a timely manner to the AC and that the transactions are carried out on normal commercial terms and shall not be prejudicial to the interests of the Company and its minority shareholders. When a potential conflict of interest arises, the Director concerned takes no part in discussions nor exercises any influence over other members of the Board.

CORPORATE GOVERNANCE REPORT

During FY2017, the Group did not enter into any interested person transaction with a value of more than S\$100,000. The Group had, however, during FY2017, entered into related person transactions with a related person which is not an “interested person” as defined under Chapter 9 of the Listing Manual of the SGX-ST. In compliance with Rule 907 of the Listing Manual of the SGX-ST, the aggregate value of recurrent related person transactions of a revenue or trading nature conducted during FY2017 were as follows:

Related Person	Aggregate value of all related person transactions entered into during the financial year under review (excluding transactions less than S\$100,000)
	FY2017 USD'000
Guān Chong Cocoa Manufacturer Sdn Bhd	
– Purchase of cocoa ingredients	1,890
– Sales of cocoa ingredients	1,416

The Group does not have a general mandate from shareholders for interested person transactions pursuant to Rule 920 of the Listing Manual of the SGX-ST.

Material Contracts

There were no material contracts entered into by the Company or any of its subsidiaries involving the interests of any director or controlling shareholder during the year under review.

Use of Proceeds of Rights Issue

The Company had on 5 April 2018 completed a renounceable non-underwritten rights issue of up to 75,799,991 new ordinary shares in the capital of the company at an issue price of S\$0.25 for each rights share, on the basis of one (1) rights share for every three (3) existing ordinary shares in the capital of the Company held by entitled shareholders as at the books closure date, fractional entitlements to be disregarded (the “Rights Issue”).

Pursuant to Rule 1207(20) of the Listing Manual of the SGX-ST, the Company will disclose the use of proceeds from the Rights Issue in the annual report, and where proceeds are to be used for working capital purposes, the Company will disclose a breakdown with specific details on the use of proceeds for working capital.

As at the date of this Annual Report, the Company has not utilised any of the proceeds of the Right Issue.

There were no unissued shares of the Company or its subsidiary corporations under option as at the end of the financial year.

DIRECTORS' STATEMENT

6. Audit committee

The audit committee comprises the following members, who are the Independent directors at the date of the report:

Chua Cheow Khoon Michael (Chairman)
Goi Seng Hui
Chin Koon Yew

The audit committee has carried out its functions in accordance with section 201B (5), including reviewing the following, where relevant, with the executive Directors and external and internal auditors of the Company:

- (a) the audit plans of the internal and external auditors and the results of the internal auditors examination and evaluation of the Group's systems of internal accounting controls;
- (b) the Group's and the Company's financial and operating results and accounting policies;
- (c) the statement of financial position of the Company and the consolidated financial statements of the Group and external auditor's report on those financial statements before their submission to the Directors of the Company;
- (d) the quarterly, half-yearly and annual announcements as well as the related press releases on the results and financial position of the Company and the Group;
- (e) the co-operation and assistance given by the management to the Company's external and internal auditors;
- (f) the re-appointment of the external and internal auditors of the Company; and
- (g) the Interested Person Transactions as defined in Chapter 9 of the Listing Manual of the SGX-ST as is required by SGX-ST and ensures that the transactions were on normal commercial terms and not prejudicial to the interests of the members of the Company.

The audit committee confirmed that it has undertaken a review of all non-audit services provided by the external auditor to the Group and is satisfied that the nature and extent of such services would not affect the independence of the external auditor.

The audit committee has full access to and has the co-operation of the management and has been given the resources required for it to discharge its function properly. It also has full discretion to invite any Director and executive officer to attend its meetings. The external and internal auditors have unrestricted access to the audit committee.

The audit committee has recommended to the Directors the nomination of BDO LLP for re-appointment as external auditor of the Company at the forthcoming Annual General Meeting of the Company.

DIRECTORS' STATEMENT

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF JB FOODS LIMITED

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of JB Foods Limited (the "Company") and its subsidiaries (the "Group") as set out on pages 51 to 112 which comprise:

- the consolidated statement of financial position of the Group and the statement of financial position of the Company as at 31 December 2017;
- the consolidated statement of comprehensive income, consolidated statement of changes in equity, and consolidated statement of cash flows of the Group for the year then ended; and
- notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements of the Group and the statement of financial position of the Company are properly drawn up in accordance with the provisions of the Companies Act, Chapter 50 (the "Act") and Financial Reporting Standards in Singapore ("FRSs") so as to give a true and fair view of the consolidated financial position of the Group and the financial position of the Company as at 31 December 2017, and of its consolidated financial performance, consolidated changes in equity and consolidated cash flows of the Group for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with Singapore Standards on Auditing ("SSAs"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Group in accordance with the Accounting and Corporate Regulatory Authority ("ACRA") Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities ("ACRA Code") together with the ethical requirements that are relevant to our audit of the financial statements in Singapore, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF JB FOODS LIMITED

Report on the Audit of the Financial Statements (Continued)

1 Valuation of inventories

Key Audit Matter

As at 31 December 2017, the inventories of the Group amounted to approximately US\$83.2 million, which represents 42% of the total assets of the Group, and is one of the most significant balances on the consolidated statement of financial position.

Inventories of the Group, which comprise mainly raw materials (cocoa beans), work in progress and finished goods (processed cocoa ingredient products) are carried at lower of cost and net realisable value. The cost of cocoa ingredient products is computed using a formula in which cocoa bean purchase prices and selling prices of cocoa ingredient products are the key determinants.

We focused on the valuation of inventories because purchase prices of cocoa bean is subject to price volatility, estimated demand and related pricing. In addition, as the global cocoa market continues to be challenging amidst volatility in prices of cocoa beans and cocoa ingredient products, there is a risk that selling prices may be below cost which may result in an overstatement of inventories.

Related Disclosures

Refer to Notes 2.8, 3.2(ii) and 10 of the accompanying financial statements.

Audit Response

Our procedures included, amongst others, the following:

- Assessed the inventories costing formula and checked the computation of the cost of ingredient products for a sample of items which included checking the cocoa beans purchase prices to suppliers' invoices, cocoa ingredient products selling price to forward market rates and testing the application of the inventories costing formula;
- Assessed the net realisable values of the inventories by comparing the cost of cocoa beans and cocoa ingredient products, on a sample basis, to actual selling prices or contract prices for sales contracts secured and spot prices of cocoa beans and cocoa ingredient products subsequent to the year end; and
- Tested the inventory aging reports which management used as a basis to identify slow-moving inventories.

The results of our testing were satisfactory.

Report on the Audit of the Financial Statements (Continued)

2 Carrying amount of investments in subsidiaries

Key Audit Matter

As at 31 December 2017, the carrying amount of the Company's investment in a subsidiary, JB Cocoa Sdn Bhd was US\$59.3 million, which represents 62% of the total assets of the Company, and is one of the most significant balances on the statement of financial position of the Company.

Management assessed that there is an indication of impairment in the investment in JB Cocoa Sdn Bhd as its net tangible assets was below its carrying amount. Consequently, management carried out an impairment assessment based on value-in-use computations and determined that there is no impairment loss required for the investment.

We have determined the impairment assessment of the cost of investment in JB Cocoa Sdn Bhd to be a key audit matter as the impairment assessment involved significant judgements and estimates with regard to the key assumptions on the future market conditions, projected revenue growth rate, gross profit margin, operating expenses and discount rate used in the value-in-use computation prepared by management.

Related Disclosures

Refer to Notes 3.2(iii) and 9 of the accompanying financial statements.

Audit Response

Our procedures include, amongst others, the following:

- Discussed with management and evaluated the key assumptions made by management in the value-in-use computation, including comparing the projected revenue growth rate, gross profit margin and operating expenses against historical performance, projected selling price of cocoa ingredient products to forward market rates and discount rate against market data; and
- Performed sensitivity analysis around the key assumptions, including the projected revenue growth rate, gross profit margin and discount rate used in the value-in-use computation.

Our assessment is consistent with management's impairment test results.

Report on the Audit of the Financial Statements (Continued)

Other Information

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Directors for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the provisions of the Act and FRSs, and for devising and maintaining a system of internal accounting controls sufficient to provide a reasonable assurance that assets are safeguarded against loss from unauthorised use or disposition; and transactions are properly authorised and that they are recorded as necessary to permit the preparation of true and fair financial statements and to maintain accountability of assets.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The directors' responsibilities include overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

Report on the Audit of the Financial Statements (Continued)

Auditor's Responsibilities for the Audit of the Financial Statements (Continued)

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2017

These notes form an integral part of and should be read in conjunction with the accompanying financial statements.

1. General

JB Foods Limited (the "Company") (Registration Number 201200268D) is a public company limited by shares, incorporated and domiciled in the Republic of Singapore. The Company's registered office address is at 80 Robinson Road #17-02 Singapore 068898. The principal place of business is at Lot CP1, Jalan Tanjung A/6, Pelabuhan Tanjung Pelepas, 81560 Gelang Patah, Johor, Malaysia. The Company is listed on Singapore Exchange Securities Trading Limited on 23 July 2012.

The Company's immediate and ultimate holding company is JB Cocoa Group Sdn Bhd, a company incorporated in Malaysia.

The principal activity of the Company is that of an investment holding company.

The principal activities of the subsidiaries are set out in Note 9 to the financial statements.

The statement of financial position of the Company and the consolidated financial statements of the Company and its subsidiaries (the "Group") for the financial year ended 31 December 2017 were authorised for issue in accordance with a Directors' resolution dated 29 March 2018.

2. Summary of significant accounting policies

2.1 Basis of preparation

The financial statements have been drawn up in accordance with the provisions of the Singapore Companies Act, Chapter 50 and Singapore Financial Reporting Standards ("FRS") including related Interpretations of FRS ("INT FRS") and are prepared under the historical cost convention, except as disclosed in the accounting policies below.

The individual financial statements of each Group entity are measured and presented in the currency of the primary economic environment in which the entity operates (its functional currency). The consolidated financial statements of the Group and the statement of financial position of the Company are presented in United States dollar ("US\$") which is the functional currency of the Company and the presentation currency for the consolidated financial statements and all values presented are rounded to the nearest thousand ("US\$'000") as indicated.

The preparation of financial statements in compliance with FRS requires the management to make judgements, estimates and assumptions that affect the Group's application of accounting policies and reported amounts of assets, liabilities, revenue and expenses. Although these estimates are based on the management's best knowledge of current events and actions, actual results may differ from those estimates. The areas where such judgements or estimates have the most significant effect on the financial statements are disclosed in Note 3 to the financial statements.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2017

2. Summary of significant accounting policies (Continued)

2.1 Basis of preparation (Continued)

In the current financial year, the Group has adopted all the new or revised FRS and INT FRS that are relevant to its operations and effective for the current financial year. The adoption of these new or revised FRS and INT FRS did not result in changes to the Group's accounting policies and had no material effect on the amounts reported for the current or prior financial years.

FRS 7 (Amendments) Disclosure Initiative

The amendments require additional disclosures to enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes.

The Group adopted these amendments on 1 January 2017 and the additional disclosures have been included in the consolidated statement of cash flows.

Full IFRS convergence

Singapore-incorporated companies listed on SGX-ST are required to apply a new financial reporting framework identical to the International Financial Reporting Standards ("IFRS") for annual periods beginning on or after 1 January 2018. The new framework is referred to as 'Singapore Financial Reporting Standards (International) (SFRS(I)s'. The Group will adopt the new framework on 1 January 2018 and will apply SFRS(I) 1 First-time Adoption of Singapore Financial Reporting Standards (International) to the transition. This will involve restating the comparatives for the financial year ended 31 December 2017 and the opening statements of financial position as at 1 January 2017 in accordance with the new framework.

The Group has completed its assessment of the impact of transition and anticipates that the adoption of the new framework on 1 January 2018 (including the application of all the mandatory exceptions) will not have a material impact on the financial statements of the Group for the financial year ending 31 December 2018, other than the impact from the adoption of SFRS(I) 9 and SFRS(I) 15 which is expected to be similar to the impact of FRS 109 and FRS 115 as disclosed below. The Group is currently finalising the transitional adjustments that are required or elected under SFRS(I) 1.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2017

2. Summary of significant accounting policies (Continued)

2.1 Basis of preparation (Continued)

FRS and INT FRS issued but not yet effective

At the date of authorisation of these financial statements, the Group has not adopted the following FRS and INT FRS that are relevant to the Group that have been issued but not yet effective:

		Effective date (annual periods beginning on or after)
FRS 40 (Amendments)	: Transfers of Investment Property	1 January 2018
FRS 109	: Financial Instruments	1 January 2018
FRS 115	: Revenue from Contracts with Customers	1 January 2018
FRS 115 (Amendments)	: Clarifications to FRS 115 Revenue from Contracts with Customers	1 January 2018
FRS 116	: Leases	1 January 2019
Improvements to FRSs (December 2016)		
- FRS 101 (Amendments)	: First - time Adoption of Financial Reporting Standards	1 January 2018
INT FRS 122	: Foreign Currency Transactions and Advance Consideration	1 January 2018
INT FRS 123	: Uncertainty over Income Tax Treatments	1 January 2019

Consequential amendments were also made to various standards as a result of these new or revised standards.

Except as disclosed below, management anticipates that the adoption of the above FRS and INT FRS, where relevant, in future periods will not have a material impact on the financial statements of the Group in the period of their initial adoption.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2017

2. Summary of significant accounting policies (Continued)

2.1 Basis of preparation (Continued)

FRS and INT FRS issued but not yet effective (Continued)

FRS 109 Financial Instruments

FRS 109 supersedes FRS 39 *Financial Instruments: Recognition and Measurement* with new requirements for the classification and measurement of financial assets and liabilities, impairment of financial assets and hedge accounting.

Classification and measurement

Under FRS 109, financial assets are classified into financial assets measured at fair value or at amortised cost depending on the Group's business model for managing the financial assets and the contractual cash flow characteristics of the financial assets. Fair value gains or losses will be recognised in profit or loss except for certain equity investments, for which the Group can elect to recognise the gains and losses in other comprehensive income. Debt instruments that meet the Solely Payments of Principal and Interest contractual cash flow characteristics test and where the Group is holding the debt instrument to both collect the contractual cash flows and to sell the financial assets can also be measured at fair value through other comprehensive income.

FRS 109 carries forward the recognition, classification and measurement requirements for financial liabilities from FRS 39, except for financial liabilities that are designated at fair value through profit or loss, where the amount of change in fair value attributable to change in credit risk of that liability is recognised in other comprehensive income unless that would create or enlarge an accounting mismatch. In addition, FRS 109 retains the requirements in FRS 39 for de-recognition of financial assets and financial liabilities.

The Group has completed a preliminary assessment of the impact of FRS 109 and does not expect any significant changes to the classification and measurement of its financial assets and financial liabilities.

Impairment

FRS 109 introduces a new forward-looking impairment model based on expected credit losses to replace the incurred loss model in FRS 39. This determines the recognition of impairment loss allowances as well as interest revenue. For financial assets at amortised cost or debt instruments at fair value through other comprehensive income, the Group will recognise (at a minimum) 12 months of expected losses in profit or loss. Lifetime expected losses will be recognised on these assets when there is a significant increase in credit risk after initial recognition under the three-stage model or from initial recognition if the simplified model is applied.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2017

2. Summary of significant accounting policies (Continued)

2.1 Basis of preparation (Continued)

FRS and INT FRS issued but not yet effective (Continued)

FRS 109 Financial Instruments (Continued)

Impairment (Continued)

The new impairment requirements are expected to result in changes to and likely increases in impairment loss allowances on trade receivables and other receivables, due to earlier recognition of credit losses. The Group expects to adopt the simplified model for its trade receivables and will record an allowance for lifetime expected losses from initial recognition. For other receivables due from third parties and related parties, the Group will initially provide for 12 months expected losses under the three-stage model. The Group is still in the process of determining how it will estimate expected credit losses and the sources of forward-looking data.

Under the impairment model, the Group estimate that the impairment loss allowances on trade receivables will not result in significant impact as at 1 January 2018.

The Group and the Company are currently finalising the policies and procedures in determining how to estimate expected credit losses and the sources of forward-looking data, and evaluating the tax implications arising from the above changes in impairment model.

Transition

The Group plans to adopt FRS 109 in the financial year beginning on 1 January 2018 with retrospective effect in accordance with the transitional provisions and intends to elect not to restate comparatives for the previous financial year. The Group will include additional financial statements disclosures in the financial statements disclosures in the financial year when FRS 109 is adopted.

FRS 115 Revenue from Contracts with Customers

FRS 115 introduces a comprehensive model that applies to revenue from contracts with customers and supersedes all existing revenue recognition requirements under FRS. The model features a five-step analysis to determine whether, how much and when revenue is recognised, and two approaches for recognising revenue: at a point in time or over time. The core principle is that an entity recognises revenue when control over promised goods or services is transferred to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. FRS 115 also introduces extensive qualitative and quantitative disclosure requirements which aim to enable users of the financial statements to understand the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2017

2. Summary of significant accounting policies (Continued)

2.1 Basis of preparation (Continued)

FRS and INT FRS issued but not yet effective (Continued)

FRS 115 Revenue from Contracts with Customers (Continued)

On initial adoption of this standard, the Group has assessed that there will be no significant impact on the timing and profile of revenue recognition of the Group as disclosed in Note 2.12 to the financial statements.

The Group plans to adopt FRS 115 in the financial year beginning on 1 January 2018 using the full retrospective method in accordance with the transitional provisions and will include the required additional disclosures in its financial statements for that financial year.

FRS 116 Leases

FRS 116 supersedes FRS 17 *Leases* and introduces a new single lessee accounting model which eliminates the current distinction between operating and finance leases for lessees. FRS 116 requires lessees to capitalise all leases on the statements of financial position by recognising a 'right-of-use' asset and a corresponding lease liability for the present value of the obligation to make lease payments, except for certain short-term leases and leases of low-value assets. Subsequently, the lease assets will be depreciated and the lease liabilities will be measured at amortised cost. From the perspective of a lessor, the classification and accounting for operating and finance leases remains substantially unchanged under FRS 116. FRS 116 also requires enhanced disclosures by both lessees and lessors.

On initial adoption of FRS 116, there may be a potentially insignificant impact on the accounting treatment for leases, which the Group as lessee currently accounts for as operating leases. On adoption of FRS 116, the Group will be required to capitalise its rented office premises and other operating facilities on the statements of financial position by recognising them as 'right-of-use' assets and their corresponding lease liabilities for the present value of future lease payments. The Group plans to adopt the standard in the financial year beginning on 1 January 2019 using the modified retrospective method in accordance with the transitional provisions, and therefore will only recognise leases on balance sheet as at 1 January 2019. The Group will include and will include the required additional disclosures in its financial statements for that financial year.

2.2 Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and its subsidiaries. Subsidiaries are entities over which the Group has control. The Group controls an investee if the Group has power over the investee, exposure to variable returns from the investee, and the ability to use its power to affect those variable returns. Control is reassessed whenever facts and circumstances indicate that there may be a change in any of these elements of control.

Subsidiaries are consolidated from the date on which control is transferred to the Group up to the effective date on which that control ceases, as appropriate.

2.2 Basis of consolidation (Continued)

Intra-group balances and transactions and any unrealised income and expenses arising from intra-group transactions are eliminated on consolidation. Unrealised losses may be an impairment indicator of the asset concerned.

The financial statements of the subsidiaries are prepared for the same reporting date as that of the Company, using consistent accounting policies. Where necessary, accounting policies of subsidiaries are changed to ensure consistency with the policies adopted by other members of the Group.

Non-controlling interests in subsidiaries relate to the equity in subsidiaries which is not attributable directly or indirectly to the owners of the parent. They are shown separately in the consolidated statements of comprehensive income, financial position and changes in equity.

Non-controlling interests in the acquiree that are a present ownership interest and entitle its holders to a proportionate share of the entity's net assets in the event of liquidation may be initially measured either at fair value or at the non-controlling interests' proportionate share of the fair value, of the acquiree's identifiable net assets. The choice of measurement basis is made on an acquisition-by-acquisition basis. Subsequent to acquisition, the carrying amount of non-controlling interests is the amount of those interests at initial recognition plus the non-controlling interests' share of subsequent changes in equity. Total comprehensive income is attributed to non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Changes in the Group's interest in its subsidiaries that do not result in a loss of control are accounted for as equity transactions. The carrying amounts of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

When the Group loses control of subsidiaries, it derecognises the assets and liabilities of the subsidiaries and any non-controlling interests. The profit or loss on disposal is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any non-controlling interests. Amounts previously recognised in other comprehensive income in relation to the subsidiary are accounted for (i.e. reclassified to profit or loss or transferred directly to retained earnings) in the same manner as would be required if the relevant assets or liabilities were disposed of. The fair value of any investments retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under FRS 39 Financial Instruments: Recognition and Measurement or, when applicable, the cost on initial recognition of an investment in an associate or jointly controlled entity.

2. Summary of significant accounting policies (Continued)

2.2 Basis of consolidation (Continued)

In the separate financial statements of the Company, investments in subsidiaries are carried at cost, less any impairment loss that has been recognised in profit or loss.

Acquisition of entities under common control

Business combinations involving entities under common control are accounted for by applying the pooling of interest method which involves the following:

- The assets and liabilities of the combining entities are reflected at their carrying amounts.
- No adjustments are made to reflect the fair values, or recognise any new assets or liabilities.
- No goodwill is recognised as a result of the combination.
- Any difference between the consideration paid/transferred and the equity 'acquired' is reflected within equity as merger reserve.
- The statement of comprehensive income reflects the results of the combining entities for the full year, irrespective of when the combination took place.
- Comparatives are presented as if the entities had always been combined since the date the entities had come under common control.

2.3 Intangible assets

Intangible assets acquired separately are measured initially at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and any accumulated impairment losses.

The useful lives of intangible assets are assessed to be either finite or indefinite. Intangible assets with finite lives are amortised on a straight-line basis over the estimated economic useful lives and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at each financial year-end. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense for intangible assets with finite useful lives is recognised in profit or loss through the 'amortisation of intangible assets' line item.

Gains or losses arising from the derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in profit or loss when the asset is derecognised.

2.3 Intangible assets (Continued)

Computer software licences

Acquired computer software licences are initially capitalised at cost which includes the purchase price (net of any discounts and rebates) and other directly attributable costs of preparing the software for its intended use. Direct expenditure which enhances or extends the performance of computer software beyond its specifications and which can be reliably measured is added to the original cost of the software. Costs associated with maintaining the computer software are recognised as an expense as incurred.

Computer software licences are subsequently carried at cost less accumulated amortisation and accumulated impairment losses. These costs are amortised to profit or loss using the straight-line method over their estimated useful life of 5 years.

The useful life and amortisation method are reviewed at each financial year-end to ensure that the period of amortisation and amortisation method are consistent with previous estimates and the expected pattern of consumption of the future economic benefits embodied in the computer software.

Software under development

Software under development represent items of system under development, which is stated at cost less any impairment losses, and is not depreciated. Cost comprises direct costs of development during the period of development. Software under development is reclassified to appropriate category of intangible assets when it is completed and ready for use with amortisation commencing thereafter.

2.4 Investment property

Investment property, which is property held to earn rentals and/or for capital appreciation is initially recognised at cost and subsequently carried at cost less accumulated depreciation and impairment losses.

Depreciation is charged, using the straight-line method, so as to write off the cost over its estimated useful life of 50 years.

The residual value, useful life and depreciation method of investment property are reviewed and adjusted as appropriate, at the end of each financial year. The effects of any revision are included in profit or loss when the changes arise.

Investment property is subject to renovations or improvements at regular intervals. The costs of major renovations and improvements are capitalised as additions and the carrying amounts of the replaced components are written off to profit or loss. The costs of maintenance, repairs and minor improvement are charged to profit or loss when incurred.

On disposal or retirement of an investment property, the difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit or loss.

2.5 Property, plant and equipment

All items of property, plant and equipment are initially recognised at cost. The cost includes its purchase price and any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in a manner intended by management. Dismantlement, removal or restoration costs are included as part of the cost if the obligation for dismantlement, removal or restoration is incurred as a consequence of acquiring or using the property, plant and equipment.

Subsequent expenditure on an item of property, plant and equipment that has already been recognised is added to the carrying amount of the item when it is probable that the future economic benefits associated with the item will flow to the Group, and the cost can be reliably measured. Other subsequent expenditure is recognised as an expense during the financial year in which it is incurred.

Property, plant and equipment are subsequently stated at cost less accumulated depreciation and any accumulated impairment losses.

Freehold land is not depreciated. Depreciation on other items of property, plant and equipment is calculated using the straight-line method to allocate the depreciable amounts of the property, plant and equipment over their estimated useful lives. The principal annual rates of depreciation used are as follows:

Factory buildings	
– factory buildings	2% – 5%
– renovation and safety	10%
Plant and machinery, tools and equipment	
– plant and equipment	5%
– crane and laboratory	8%
– factory equipment	10%
– pallet	20%
Office equipment, furniture and fittings	
– furniture and fittings, office equipment, telecommunication and data line	10%
– computers and signboard	20%
Motor vehicles	
– forklift	8%
– motor vehicles	12.5% – 20%

2.5 Property, plant and equipment (Continued)

Capital work-in-progress represents items of property, plant and equipment under construction, which is stated at cost less any impairment losses, and is not depreciated. Cost comprises the direct costs of construction during the period of construction. Capital work-in-progress is reclassified to the appropriate category of property, plant and equipment when it is completed and ready for use with depreciation commencing thereafter.

The carrying values of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable.

The residual values, estimated useful lives and depreciation method are reviewed and adjusted as appropriate at the end of each financial year.

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets or, if there is no certainty that the lessee will obtain ownership by the end of the lease term, the asset shall be fully depreciated over the shorter of the lease term and its useful life.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal.

The gain or loss arising on disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

2.6 Prepaid lease payments

Prepaid operating lease payments represent the lump sum payment for the sub-lease of land. The amount is charged to profit or loss using the straight line basis over their respective lease periods.

2.7 Land use rights

Land use rights represent payments made to acquire land held under an operating lease. Land use rights are stated at costs less accumulated amortisation and accumulated impairment losses. Amortisation is calculated on a straight line basis over the lease term of 50 years.

2. Summary of significant accounting policies (Continued)

2.8 Inventories

Inventories, which comprise cocoa beans, cocoa ingredient products and stores and supplies are stated at the lower of cost and net realisable value.

Cost is calculated using the “weighted average” method and includes all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition. In the case of work-in-progress and finished goods, cost includes direct materials, direct labour and attributable production overheads. Cost allocation to work-in-progress and finished goods was determined using a formula in which cocoa bean purchase prices and selling prices of cocoa ingredients products are the key determinants.

Net realisable value represents the estimated selling price less all estimated costs of completion and costs to be incurred in marketing, selling and distribution. Where necessary, allowance is made for obsolete, slow-moving and defective inventories to adjust the carrying values of those inventories to the lower of cost and net realisable value.

2.9 Impairment of non-financial assets

At the end of each financial year, the Group reviews the carrying amounts of its non-financial assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Intangible assets not yet available for use are tested for impairment annually, and whenever there is an indication that the asset may be impaired.

The recoverable amount of an asset or cash-generating unit is the higher of its fair value less costs to sell and its value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit and loss.

2.10 Financial instruments

Financial assets and financial liabilities are recognised on the statements of financial position when the Group becomes a party to the contractual provisions of the instrument.

Financial assets

Financial assets are classified into the following specified categories: financial assets at fair value through profit or loss and loans and receivables. The classification depends on the nature and purpose for which the assets were acquired and is determined at the time of initial recognition.

All financial assets are initially recognised at fair value, plus transaction costs, except for those financial assets classified as at fair value through profit or loss, which are initially recognised at fair value.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial instrument and of allocating interest income or expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts or payments through the expected life of the financial instrument, or where appropriate, a shorter period. Income and expense is recognised on an effective interest basis for debt instruments.

Financial assets at fair value through profit or loss ("FVTPL")

Financial assets are classified as FVTPL if the financial asset is either held for trading or is designated as such upon initial recognition.

A financial asset is classified as held for trading if it has been acquired principally for the purpose of selling in the short term; or if it is part of an identified portfolio of financial instruments with a recent actual pattern of short-term profit-taking and which is managed by the Group; or if it is a derivative that is not designated and effective as a hedging instrument. The Group has not designated any financial assets as FVTPL upon initial recognition.

Financial assets at FVTPL are stated at fair value, with any resultant gain or loss recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any dividend or interest earned on the financial asset.

Loans and receivables

Non-derivative financial assets which have fixed or determinable payments that are not quoted in an active market are classified as loans and receivables. Loans and receivables are measured at amortised cost, using the effective interest method, less impairment. Interest is recognised using the effective interest method, except for short-term receivables when the recognition of interest would be immaterial. The Group's loans and receivables in the statements of financial position comprise trade and other receivables (excluding advances to suppliers) and cash and cash equivalents.

2. Summary of significant accounting policies (Continued)

2.10 Financial instruments (Continued)

Financial assets (Continued)

Impairment of financial assets

Financial assets, other than FVTPL, are assessed for indicators of impairment at the end of each financial year. Financial assets are impaired where there is objective evidence that the estimated future cash flows of the assets have been impacted.

Loans and receivables

An allowance for impairment of loans and receivables is recognised when there is objective evidence that the Group will not be able to collect all amounts due according to the original terms of the receivables. The amount of allowance is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. The carrying amount of the asset is reduced through the use of an allowance account. The amount of the loss is recognised in profit or loss.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment loss was recognised, the previously recognised impairment loss is reversed either directly or by adjusting on allowance account. Any subsequent reversal of an impairment loss is recognised in profit or loss, to the extent that the carrying amount of the asset does not exceed its amortised cost at the reversal date.

The impairment allowance is reduced through profit or loss in a subsequent period when the amount of impairment loss decreases and the related decrease can be objectively measured. The carrying amount of the asset previously impaired is increased to the extent that the new carrying amount does not exceed the amortised cost had no impairment been recognised in prior periods.

Derecognition of financial assets

The Group derecognises financial assets only when the contractual rights to the cash flows from the assets expire or it transfers the financial asset and substantially all risks and rewards of ownership of the asset to another entity.

On derecognition of a financial asset, any difference between the carrying amount and the sum of proceeds received and amounts previously recognised in other comprehensive income is recognised in profit or loss.

2. Summary of significant accounting policies (Continued)

2.10 Financial instruments (Continued)

Financial liabilities and equity instruments

Classification as debt or equity

Financial liabilities and equity instruments issued by the Group are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. Equity instruments are recorded at the proceeds received net of direct issue costs. The Group classifies ordinary shares as equity instruments.

Financial liabilities

Financial liabilities are classified as either financial liabilities at fair value through profit or loss ("FVTPL") or other financial liabilities.

Financial liabilities are classified as at FVTPL if the financial liability is either held for trading, including derivatives not designated and effective as a hedging instrument; or it is designated as such upon initial recognition. The Group has not designated any financial liabilities as FVTPL upon initial recognition.

Other financial liabilities

Trade and other payables

Trade and other payables are initially recognised at fair value, net of transaction costs and are subsequently measured at amortised cost using the effective interest method.

Bank borrowings

Bank borrowings are initially recognised at fair value, net of transaction costs incurred. Bank borrowings are subsequently stated at amortised cost using the effective interest method. Any difference between the proceeds (net of transaction costs) and the redemption value is taken to profit or loss over the period of the bank borrowings using the effective interest method.

Bank borrowings which are due to be settled within 12 months after the end of the reporting period are presented as current borrowings even though the original terms were for a period longer than 12 months and an agreement to refinance, or to reschedule payments, on a long-term basis is completed after the end of the reporting period and before the financial statements are authorised for issue. Other bank borrowings due to be settled more than 12 months after the end of the reporting period are presented as non-current borrowings in the statement of financial position.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2017

2. Summary of significant accounting policies (Continued)

2.10 Financial instruments (Continued)

Financial liabilities and equity instruments (Continued)

Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligation is discharged, cancelled or they expired. The difference between the carrying amount and the consideration paid is recognised in profit or loss.

Derivative financial instruments

Derivative financial instruments held by the Group are recognised as assets or liabilities on the statements of financial position and classified as financial assets or financial liabilities at the fair value through profit or loss.

The Group uses derivative financial instruments such as forward currency contracts and derivative commodity contracts to hedge its risks associated with foreign currency and commodity prices. Such derivative financial instruments are initially recognised at fair value at the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivative financial instruments are carried as assets when the fair value is positive and as liabilities when the fair value is negative.

Any gains or losses arising from changes in fair value on derivative financial instruments that do not qualify for hedge accounting are taken to profit or loss for the financial year.

The fair value of forward currency contracts and derivative commodity contracts are calculated by reference to contracts with similar maturity profile. The Group has not designated any of its derivatives as hedging instruments in the current or previous financial year. Fair value changes on derivatives that are not designated or do not qualify for hedge accounting are recognised in profit or loss when the changes arise.

2.11 Cash and cash equivalents

Cash and cash equivalents comprise cash and bank balances and short-term highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of change in value. For the purpose of the consolidated statement of cash flows, cash and cash equivalents comprise cash and bank balances and short-term deposits.

2.12 Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable for the sale of goods and services rendered in the ordinary course of business. Revenue is recognised to the extent that it is probable that the economic benefits will flow to the entity and the revenue can be reliably measured. Revenue is presented net of returns, discounts and sales related taxes.

Revenue from sale of goods is recognised when goods are delivered to and accepted by the customer and the significant risks and rewards of ownership have been transferred to the customer, recovery of the consideration is probable, the associated costs and possible return of goods can be estimated reliably.

Interest income is recognised on a time-proportion basis using the effective interest method.

Rental income from operating leases is recognised on a straight-line basis over the lease term.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2017

2. Summary of significant accounting policies (Continued)

2.13 Research and development expenditure

Research costs are recognised in profit or loss as incurred. Deferred development costs arising from development expenditure on an individual product/project is recognised as an intangible asset only when the Group can demonstrate the technical feasibility of completing the intangible asset so that it will be available for use or sale, its intention to complete and its ability to use or sell the asset, how the asset will generate future economic benefits, the availability of resources to complete and ability to measure reliably the expenditure during the development.

After initial recognition of development expenditure as an intangible asset, it is stated at cost less accumulated amortisation and impairment loss, if any.

2.14 Leases

Finance leases

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards incidental to ownership of the leased assets to the lessee. All other leases are classified as operating leases.

Assets held under finance leases are capitalised as property, plant and equipment and intangible assets of the Group at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the statement of financial position as a finance lease obligation. Lease payments are apportioned between finance charges and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are charged to profit or loss.

Operating Leases

Rentals payable under operating leases (net of any incentives received from lessors) are charged to profit or loss on a straight-line basis over the term of the relevant lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

Rental income from operating leases (net of any incentives given to lessees) is recognised on a straight-line basis over the term of the relevant lease unless another systematic basis is more representative of the time pattern in which user benefit derived from the leased asset is diminished.

2.15 Employee benefits

Defined contribution plans

Payments to defined contribution retirement benefit plans are charged as an expense as they fall due. Payments made to state-managed retirement benefit schemes, such as the Singapore Central Provident Fund, are dealt with as payments to defined contribution plans where the Group's obligations under the plans are equivalent to those arising in a defined contribution plan.

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2017

2. Summary of significant accounting policies (Continued)

2.15 Employee benefits (Continued)

Defined benefit plans

Certain subsidiaries operates defined benefit plans, which are unfunded.

Defined benefit plans surpluses and deficits are measured at:

- The fair value of plan assets at the reporting date; less
- Plan liabilities calculated using the projected unit credit method discounted to its present value using yields available on high quality government bonds that have maturity dates approximating to the term of the liabilities; plus
- Unrecognised past service costs; less
- The effect of minimum funding requirements agreed with scheme trustees.

Remeasurements of the net defined obligation are recognised directly within equity. The remeasurements include:

- Actuarial gains and losses
- Return on plan assets (interest exclusive)
- Any asset ceiling effects (interest exclusive).

Service costs are recognised in profit or loss, and include current and past service costs as well as gains and losses on curtailments.

Net interest expenses/(income) is recognised in profit or loss, and is calculated by applying the discount rate used to measure the defined benefit obligation (asset) at the beginning of the annual period to the balance of the net defined benefit obligation (asset), considering the effects of contributions and benefit payments during the period.

Gains or losses arising from changes to scheme benefits or scheme curtailment are recognised immediately in profit or loss.

Settlements of defined benefit plans are recognised in the period in which the settlement occurs.

Employee leave entitlement

Employee entitlements to annual leave are recognised when they accrue to employees. A provision is made for the estimated undiscounted liability for unutilised annual leave expected to be settled wholly within 12 months from the reporting date as a result of services rendered by employees up to the end of the financial year.

2.16 Borrowing costs

Borrowing costs comprise interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing costs are capitalised if they are directly attributable to the acquisition, construction or production of a qualifying asset. Capitalisation of borrowing costs commences when the activities to prepare the asset for its intended use or sale are in progress and the expenditures and borrowing costs are being incurred. Borrowing costs are capitalised until the assets are ready for their intended use. All other borrowing costs are recognised in profit or loss in the period in which they are incurred using the effective interest method.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2017

2. Summary of significant accounting policies (Continued)

2.17 Taxes

Income tax expense represents the sum of the tax currently payable and deferred tax.

Current income tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from the profit reported as profit or loss because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are not taxable or tax deductible. The Group's liability for current tax is recognised at the amount expected to be paid or recovered from the tax authorities and is calculated using tax rates (and tax laws) that have been enacted or substantively enacted in countries where the Company and subsidiaries operate by the end of the financial year.

Current income taxes are recognised in profit or loss, except to the extent that the tax relates to items recognised outside profit or loss, either in other comprehensive income or directly in equity.

Deferred tax

Deferred tax is recognised on all temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised on taxable temporary differences arising on investments in subsidiaries, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each financial year and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset realised based on the tax rates (and tax laws) that have been enacted or substantively enacted by the end of the financial year.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

Unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it has become probable that future taxable profits will be available against which the temporary difference can be utilised.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2017

2. Summary of significant accounting policies (Continued)

2.17 Taxes (Continued)

Deferred tax (Continued)

Deferred tax is recognised in profit or loss, except when it relates to items recognised outside profit or loss, in which case the tax is also recognised either in other comprehensive income or directly in equity, or where it arises from the initial accounting for a business combination. Deferred tax arising from a business combination, is taken into account in calculating goodwill on acquisition.

Sales tax

Revenue, expenses and assets are recognised net of the amount of sales tax except:

- when the sales taxation that is incurred on purchase of assets or services is not recoverable from the taxation authorities, in which case the sales tax is recognised as part of cost of acquisition of the asset or as part of the expense item as applicable; and
- receivables and payables that are stated with the amount of sales tax included.

The net amount of sales tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the statement of financial position.

2.18 Foreign currency transactions and translation

In preparing the financial statements of the individual entities, transactions in a currency other than the entity's functional currency ("foreign currencies") are recorded at the rates of exchange prevailing on the date of the transaction. At the end of each reporting period, monetary items denominated in foreign currencies are re-translated at the rates prevailing at the end of the reporting period. Non-monetary items carried at fair value that are denominated in foreign currencies are re-translated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not re-translated.

Exchange differences arising on the settlement of monetary items and on retranslation of monetary items are recognised in profit or loss for the period. Exchange differences arising on the re-translation of non-monetary items carried at fair value are included in profit or loss for the period except for differences arising on the retranslation of non-monetary items in respect of which gains and losses are recognised directly in equity. For such non-monetary items, any exchange component of that gain or loss is also recognised directly in equity.

For the purposes of presenting consolidated financial statements, the assets and liabilities of the Group's foreign operations (including comparatives) are expressed in United States dollar using exchange rates prevailing at the end of the financial year. Income and expense items (including comparatives) are translated at the average exchange rates for the period, unless exchange rates fluctuated significantly during that period, in which case the exchange rates at the dates of the transactions are used. Exchange differences arising, are recognised initially in other comprehensive income and accumulated in the Group's foreign currency translation reserve.

On disposal of a foreign operation, the accumulated foreign currency translation reserve relating to that operation is reclassified to profit or loss.

2.19 Financial guarantee

The Company has issued corporate guarantees to banks for facilities provided to the subsidiaries. These guarantees are financial guarantee contracts as they require the Company to make payments to the banks if the subsidiaries fail to fulfill their obligations relating to the facilities utilised in accordance with the terms of their facilities.

Financial guarantee contracts are initially recognised at their fair value plus transaction costs.

Financial guarantee contracts are subsequently amortised to profit or loss over the period of the borrowings or other facilities utilised, unless the Company has incurred an obligation to make payments to banks for an amount higher than the unamortised amount, in which case the financial guarantee contracts are carried at the expected amount payable to the banks.

2.20 Dividends

Equity dividends are recognised when they become legally payable. Interim dividends are recorded in the financial year in which they are declared payable. Final dividends are recorded in the financial year in which the dividends are approved by the shareholders.

2.21 Government grants

Government grants are recognised at their fair value where there is reasonable assurance that the grant will be received and all attaching conditions will be complied with. Where the grant relates to an asset, the fair value is recognised as deferred capital grant on the statements of financial position and is amortised to profit or loss over the expected useful life of the relevant asset by equal annual instalment.

2.22 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the group of executive directors and the chief executive officer who make strategic decisions.

3. Critical accounting judgements and key sources of estimation uncertainty

In the application of the Group's accounting policies, which are described in Note 2 to the financial statements, management made judgements, estimates and assumptions about the carrying amounts of assets and liabilities that were not readily apparent from other sources. The estimates and associated assumptions were based on historical experience and other factors that were considered to be reasonable under the circumstances. Actual results may differ from these estimates.

These estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2017

3. Critical accounting judgements and key sources of estimation uncertainty (Continued)

3.1 Critical judgements made in applying the accounting policies

Management is of the opinion that there are no critical judgements (other than those involving estimates) that have a significant effect on the amounts recognised in the financial statements.

3.2 Key sources of estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the financial year, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are discussed below:

(i) Depreciation of property, plant and equipment and amortisation of intangible assets

The Group depreciates the property, plant and equipment and amortises the intangible assets, using the straight-line method, over their estimated useful lives. The estimated useful life reflects management's estimate of the period that the Group intends to derive future economic benefits from the use of the Group's property, plant and equipment and intangible assets. Changes in the expected level of usage and technological developments could affect the economic useful lives of these assets which could then consequentially impact future depreciation and amortisation charges. The carrying amount of the Group's property, plant and equipment and intangible assets as at 31 December 2017 were approximately US\$55,611,000 (2016: US\$52,709,000) and US\$451,000 (2016: US\$515,000) respectively.

(ii) Inventories valuation

Inventory is valued at the lower of cost and net realisable value. Cost is determined primarily using the "weighted average" method. The cost of cocoa ingredient products is computed using a formula in which cocoa bean purchase prices and selling prices of cocoa ingredient products are the key determinants. Market price is generally the merchandise's selling price quoted from the market of similar items. The management estimates the net realisable value of inventories based on assessment of receipt of committed sales prices and provide for excess and obsolete inventories based on historical usage, estimated future demand and related pricing. In determining excess quantities, the management considers recent sales activities, related margin and market positioning of its products. However, factors beyond its control, such as demand levels and pricing competition, could change from period to period. In addition, as the global cocoa market continues to be challenging amidst volatility in prices of cocoa beans and cocoa ingredient products, such factors may require the Group to reduce the value of its inventories. The carrying amount of the Group's inventories as at 31 December 2017 was approximately US\$83,216,000 (2016: US\$95,795,000).

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2017

3. Critical accounting judgements and key sources of estimation uncertainty (Continued)

3.2 Key sources of estimation uncertainty (Continued)

(iii) Impairment of investments in subsidiaries

At the end of each financial year, an assessment is made on whether there are indications of impairment that the investments in subsidiaries are impaired. The management's assessment is based on the estimation of the value-in-use of the cash-generating unit by forecasting the expected future cash flows for a period up to 5 years and projections to terminal year, taking into consideration factors such as future market conditions, projected revenue growth, gross profit margin, operating expenses and using a suitable discount rate in order to calculate the present value of those cash flows. The Company's carrying amount of investments in subsidiaries as at 31 December 2017 was US\$91,877,000 (2016: US\$66,177,000).

(iv) Allowance for impairment of trade and other receivables

The policy for impairment of receivables of the Group is based on the ageing analysis and management's ongoing evaluation of the recoverability of the outstanding receivables. A considerable amount of judgement is required in assessing the ultimate realisation of these receivables, including the assessment of the creditworthiness and the past collection history of each customer. If the financial conditions of these customers were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances may be required. The carrying amounts of the Group's and Company's trade and other receivables as at 31 December 2017 were approximately US\$34,771,000 (2016: US\$39,413,000) and US\$3,647,000 (2016: US\$27,175,000) respectively.

(v) Income taxes

The Group recognises expected income tax issues based on their best estimates of the likely taxes due. There are certain transactions and computations for which the ultimate tax determination is uncertain during the ordinary course of business. Where the final tax outcome of these matters differs from the amounts that were initially recognised, such differences will impact the income tax and deferred tax positions, in the financial year in which such determination is made. The carrying amount of the Group's current income tax recoverable as at 31 December 2017 was approximately US\$5,000 (2016: US\$883,000). The carrying amount of the Group's current income tax payable as at 31 December 2017 was approximately US\$48,000 (2016: US\$172,000). The carrying amount of the Group's deferred tax assets and deferred tax liabilities as at 31 December 2017 was approximately US\$137,000 (2016: US\$114,000) and US\$2,034,000 (2016: US\$738,000) respectively.

The rental income from the investment property of the Group which are leased out under operating leases, amounted to US\$397,000 (2016: US\$321,000). Direct operating expenses (including repair and maintenance) arising from the rental generating investment property amounted US\$154,000 (2016: US\$180,000).

As at 31 December 2017, the fair value of the investment property was approximately US\$6,800,000 (2016: US\$5,318,000). The fair value was determined based on management's estimation by using the direct sales comparison approach by making reference to market evidence of transacted prices per square feet for comparable properties, adjusted for key attributes such as size, tenure, location, condition and prevailing market conditions. In estimating the fair value of the investment property, the highest and best use of the property is their current use. Management considers that the fair value of the investment property is sensitive to these unobservable adjustments to the price per square feet.

Any changes to the unobservable inputs, to the extent that they increase or decrease the price for square feet, will result in a corresponding increase or decrease in the fair value of the property. There is no significant inter-relationship between the unobservable inputs. The fair value of investment property is considered as fair value hierarchy level 3.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2017

9. Investments in subsidiaries (Continued)

Financial year ended 31 December 2017

Incorporation of new subsidiaries

In July 2017, JB Cocoa Holding Inc ("JBCHI"), a wholly-owned subsidiary of JB Foods Global Pte. Ltd. ("JBFG") was incorporated in Delaware, United States of America with a registered capital of US\$100,000.

In July 2017, JB Cocoa Inc ("JBICI-NY"), a wholly-owned subsidiary of JBCHI was incorporated in New York, United States of America with a paid up capital of US\$100,000.

In December 2017, JB Cocoa EBNJ LLC, a wholly-owned subsidiary of JBCHI was incorporated in New Jersey, United States of America.

In December 2017, as part of a reorganisation exercise of the Group's entities in the United States of America, JB Cocoa Inc, a wholly-owned subsidiary of JBFG which incorporated in Delaware, United States of America ("JBICI-D") has been merged with JBICI-NY. Pursuant to such merger, the surviving corporation is JBICI-NY. Subsequent to the merger exercise, JBFG transferred its shareholding in JBICI-NY to JBCHI in exchange for the share capital of US\$100,000.

Incorporation of a subsidiary

In the previous financial year, JB Cocoa Foods (China) Co., Ltd, a wholly-owned subsidiary of JB Foods Global Pte. Ltd. was incorporated in the People's Republic of China with a registered capital of US\$20,000,000, to be paid up within 20 years from the date of incorporation of the subsidiary. As at 31 December 2017, the contributed paid up capital is US\$5,000,000 (2016: US\$1,286,000). On 15 March 2018, JB Foods Global Pte. Ltd. has further contributed US\$5,000,000 to the paid up capital of JB Cocoa Foods (China) Co., Ltd.

Significant restrictions

Cash and bank balances of US\$1,853,000 (2016:US\$273,000) held in the People's Republic of China are subject to local exchange control regulations. These regulations place restrictions on exporting capital out of the country other than through dividends and thus significantly affect the Group's ability to access or use assets, and settle liabilities, of the Group.

No deferred tax asset has been recognised on the temporary differences due to the unpredictability of profit streams. The temporary differences do not expire under the current tax legislation and are subject to agreement by the relevant tax authority.

In addition, the Group has enhanced allowances under the productivity and innovation credit ("PIC") scheme amounting to approximately US\$664,000 (2016: US\$1,433,000) available for offset against future taxable profits subject to the agreement by the tax authority and provisions of the tax legislation. The above deferred tax assets have not been recognised as it is uncertain that there will be sufficient future taxable profits to realise these future benefits.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2017

26. Earnings per share

The calculation of the basic and diluted earnings per share is based on the following data:

	Group	
	2017	2016
Profit for the financial year attributable to owners of the parent (US\$'000)	14,207	3,774
Aggregate weighted number of ordinary shares applicable to basic and diluted profit per share ('000)	227,400	227,400
Basic and diluted earnings per share (US\$ cents)	6.2	1.7

The calculation of the basic and diluted earnings per share for the relevant periods is based on the profit attributable to owners of the parent for the financial years ended 31 December 2017 and 2016 divided by the aggregate weighted number of shares in the relevant periods.

The diluted earnings per share for the relevant periods are the same as the basic profit per share as the Group did not have any dilutive potential ordinary shares in the relevant periods.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2017

30. Segment information

Management has determined the operating segments based on the reports reviewed by the chief executive officer. A segment is a distinguishable component of the Group that is engaged either in providing products or services (business segment), or in providing products or services within a particular economic environment (geographical segment), which is subject to risks and rewards that are different from those of other segments.

Management monitors the operating results of its business units separately for the purpose of making decisions about resources to be allocated and assessing performance. Segment performance is evaluated based on operating profit or loss which is similar to the accounting profit or loss.

Income taxes are managed on a Group basis.

The accounting policies of the operating segments are the same of those described in the summary of significant accounting policies. There is no asymmetrical allocation to reportable segments. Management evaluates performance on the basis of profit or loss from operation before tax expense not including non-recurring gains and losses and foreign exchange gains or losses.

There is no change from prior periods in the measurement methods used to determine reported segment profit or loss.

The Group operates in only one business segment which is production and sale of cocoa ingredients products.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2017

31. Financial instruments and financial risks

The Group's activities expose them to credit risk, market risk (including foreign currency risk, interest rate risk and commodity price risk) and liquidity risk. The Group's overall financial risk management strategy focuses on the unpredictability of financial markets and seeks to minimise adverse effects from the volatility of financial markets on the Group's financial performance.

The Group uses financial instruments such as foreign currency forward contracts and derivative commodity contracts to hedge certain financial risk exposures.

The Board of directors of the Company is responsible for setting the objectives and underlying principles of financial risk management for the Group. The Group's management then establishes the detailed policies such as risk identification and measurement, exposure limits and hedging strategies, in accordance with the objectives and underlying principles approved by the Board of Directors.

There have been no changes to the Group's exposure to these financial risks or the manner in which they manage and measure the risk. Market risk exposures are measured using sensitivity analysis as indicated below.

31.1 Credit risk

The Group's exposure to credit risk, or the risk of counterparties defaulting, arise mainly from trade and other receivables. The Group manages the exposure to credit risk by the application of credit approvals, credit limits and monitoring procedures on an ongoing basis. For other financial assets (including cash and cash equivalents and derivatives), the Group minimises credit risk by dealing exclusively with high credit rating counterparties.

The Group establishes an allowance for impairment that represents the estimate of incurred losses in respect of the trade and other receivables as appropriate. The main components of this allowance are a specific loss component that relates to individually significant exposures, and a collective loss component established for group or similar assets in respect of losses that have been incurred but not yet identified. Impairment is estimated by management based on prior experience and the current economic profile.

In relation to the financial guarantees issued by the Company on behalf of its subsidiaries, the credit risk, being the principal risk to which the Company is exposed, represents the loss that would be recognised upon a default by the subsidiaries. At the end of the reporting period, the Company has provided corporate guarantee to banks for facilities granted to subsidiaries amounting to approximately US\$78,461,000 (2016: US\$99,557,000). There has been no default or non-repayment since the utilisation of the banking facility. As at the end of the reporting period, the Company does not consider it probable that a claim will be made against the Company under the guarantees.

The Group has no significant concentration of credit risk except for two (2016: two) third party trade receivables which accounts for approximately 27% (2016: 35%) of the total trade receivables as at 31 December 2017 and 2016. The Company has no significant concentration of credit risk except for amounts due from subsidiaries as at 31 December 2017 and 2016.

As the Group does not hold any collateral, the maximum exposure to credit risk is represented by the carrying amount of the financial assets at the end of the reporting period.

The Group's major classes of financial assets are bank deposits and trade and other receivables.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2017

31. Financial instruments and financial risks (Continued)

31.1 Credit risk (Continued)

Trade and other receivables that are neither past due nor impaired are creditworthy customers with good payment records with the Group.

Bank deposits are mainly deposits with banks with high credit ratings.

The exposure of credit risk for trade receivables by geographical region is as follows:

	Group	
	2017 US\$'000	2016 US\$'000
Asia		
- China	6,049	8,727
- Malaysia	3,699	3,871

Europe	8,031	7,082
North and South America	4,377	6,583
Others	1,250	1,024
	29,277	36,505

The age analysis of trade receivables that are past due is as follows:

	Gross receivable	Impairment	Gross receivable	Impairment
	2017 US\$'000	2017 US\$'000	2016 US\$'000	2016 US\$'000
Group				
Past due 1 to 30 days	5,174	-	11,678	-
Past due 31 to 60 days	263	-	2,189	-
Past due over 60 days	863	(233)	2,080	(633)

31.2 Market risk

The Group's activities expose it primarily to the financial risks of changes in foreign currency exchange rates, interest rates and commodity prices. The Group enters into derivative financial instruments to manage its exposure to foreign currency risk and commodity price risk, including foreign currency forward contracts and derivative cocoa bean contracts to mitigate the risk.

(i) Foreign exchange risk management

Currency risk arises from transactions denominated in currency other than the functional currency of the entities within the Group and the Company. The currencies that give rise to this risk are primarily Pound Sterling ("GBP") (2016: GBP). Foreign currency risk is monitored closely on an ongoing basis to ensure that the net exposure is at an acceptable level. The Group may enter into forward foreign currency contracts to hedge against its foreign currency risk.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2017

31. Financial instruments and financial risks (Continued)

31.2 Market risk (Continued)

(i) Foreign exchange risk management (Continued)

The Group has foreign operations, whose net assets are exposed to currency translation risk. The Group does not currently designate its foreign currency denominated debt as a hedging instrument for the purpose of hedging the translation of its foreign operations.

Exposure to foreign currency risk is monitored on an ongoing basis in accordance with the Group's and the Company's risk management policies to ensure that the net exposure is at an acceptable level.

Foreign currency sensitivity analysis

The following table details the sensitivity to a 5% (2016: 5%) increase and decrease in the relevant foreign currencies against the functional currency of the entities within the Group. The 5% (2016: 5%) is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents the management's assessment of the possible change in foreign exchange rates.

The sensitivity analysis includes only significant outstanding foreign currency denominated net financial assets or liabilities and adjusted for the translation at the end of the reporting period for a 5% (2016: 5%) change in foreign currency rates.

Strengthened	(1,912)
Weakened	1,912
2016

Strengthened	(1,319)
Weakened	1,319

(ii) Interest rate risk

The Group's exposure to market risk for changes in interest rates relates primarily to bank borrowings and finance lease payables as shown in Note 15 and Note 16 to the financial statements.

The Group's policy is to maintain an efficient and optimal interest cost structure using a combination of fixed and variable rate debts, and short term borrowings. It is the Group's policy to obtain quotes from banks to ensure that the most favourable rates are made available to the Group.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2017

31. Financial instruments and financial risks (Continued)

31.2 Market risk (Continued)

(ii) Interest rate risk (Continued)

Interest rate sensitivity analysis

The Group's results are not affected by changes in interest rates as the interest-bearing financial instruments are carried at fixed interest rates and measured at amortised cost.

Fair value sensitivity analysis for fixed rate instruments

The Group does not account for any fixed rate financial assets and liabilities at fair value through profit or loss, and the Group does not designate derivatives as hedging instruments under a fair value hedged accounting model. Therefore, a change in interest rates at the end of the reporting period would not affect profit or loss.

(iii) Commodity price risk

The manufacturing of the Group's products requires raw materials such as cocoa beans. The value of the Group's open sales and purchase commitments and inventory of raw materials changes continuously in line with cocoa bean price movements in the respective commodity markets. The Group's business nature, to a certain extent, results in a natural hedge between the prices of cocoa beans (as raw materials) and manufactured cocoa products. The Group may enter into derivative cocoa beans contracts to manage the risk.

31.3 Liquidity risk

Liquidity risk refers to the risk in which the Group encounters difficulties in meeting short-term obligations. Liquidity risks are managed by matching the payment and receipt cycle.

The Group actively manages operating cash flows so as to ensure that all repayment needs are met. As part of the overall prudent liquidity management, the Group maintains sufficient levels of cash to meet working capital requirements.

The following table details the Group's remaining contractual maturity for its non-derivative financial liabilities. The table has been drawn up based on undiscounted cash flows of financial liabilities based on the earlier of the contractual date or when the Group is expected to pay. The table includes both expected interest and principal cash flows.

In respect of derivative financial instruments as shown in Note 14 to the financial statements, the derivative liabilities are due within one financial year. Foreign currency forward contracts are settled on a gross basis while derivative cocoa bean contracts are settled on a net basis.

The Group's operations are financed mainly through equity, retained earnings and bank borrowings. Adequate lines of credits are maintained to ensure the necessary liquidity is available when required.

32. Capital management policies and objectives

The Group manages capital to ensure that the Group is able to continue as going concern and maintain an optimal capital structure so as to maximise shareholder value.

The Group is in compliance with externally imposed capital requirements which are the bank covenants in relation to the bank borrowings included in Note 15 to the financial statements, for the financial years ended 31 December 2017 and 2016.

The Group monitors capital based on a gearing ratio, which is total debt divided by total equity. Total debt of the Group consist of borrowings and finance lease payables. Total capital structure of the Group consists of equity attributable to equity holders of the parent, comprising issued capital, retained earnings and reserves.

The Group's management constantly reviews the capital structure, and will balance its overall capital structure through the payment of dividends, new share issues and share buy-backs as well as the issue of new debt or the redemption of existing debt. The Group's overall strategy remains unchanged from the previous financial year.

As the Company does not have borrowings, the Company's gearing ratio has not been presented.

33. Fair values of financial assets and financial liabilities

The carrying amounts of the current financial assets and current financial liabilities approximate their fair values as at the end of the reporting period due to the relatively short period of maturity of these financial instruments.

The financial instruments that are carried at fair value classified by level of fair value hierarchy are as follows:

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2017

33. Fair values of financial assets and financial liabilities (Continued)

Fair value hierarchy

The Group classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The table below analyses financial instruments carried at fair value and classified by level of the following fair value measurement hierarchy:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

There were no transfers between levels during the financial year.

The derivative financial instruments are not traded in active market. The management determines the fair value of derivative financial instruments through the valuation based on brokers' quotations. The key inputs to the calculations are the cocoa bean and foreign exchange spot and forward rates.

There have been no changes in the valuation techniques of the various classes of financial instruments during the financial year.

34. Subsequent event

On 20 December 2017, the Company announced a proposed renounceable non-underwritten Rights Issue of up to 75,799,991 new Ordinary Shares in the capital of the Company (the "Rights Shares"), at an issue price of S\$0.25 for each Rights Share, on the basis of one (1) Rights Share for every three (3) existing Ordinary Shares in the capital of the Company held by the entitled shareholders.

On 14 February 2018, the Company received approval in-principle from the Singapore Exchange Securities Trading Limited (the "SGX-ST") for the listing and quotation of 75,799,991 Rights Shares on the Main Board of the SGX-ST pursuant to the Rights Issue. The Right Shares is expected to be issued and traded in early April 2018.

SPECIAL BUSINESSES

7. To consider and, if thought fit, to pass the following ordinary resolutions with or without modifications:

AUTHORITY TO ALLOT AND ISSUE SHARES

- (A) "That, pursuant to Section 161 of the Companies Act, Chapter 50, and the listing rules of the Singapore Exchange Securities Trading Limited ("SGX-ST"), approval be and is hereby given to the Directors of the Company at any time to such persons and upon such terms and for such purposes as the Directors may in their absolute discretion deem fit, to:
- (i) issue shares in the capital of the Company whether by way of rights, bonus or otherwise;
 - (ii) make or grant offers, agreements or options that might or would require shares to be issued or other transferable rights to subscribe for or purchase shares (collectively, "Instruments") including but not limited to the creation and issue of warrants, debentures or other instruments convertible into shares;
 - (iii) issue additional Instruments arising from adjustments made to the number of Instruments previously issued in the event of rights, bonus or capitalisation issues; and

NOTICE OF ANNUAL GENERAL MEETING

- (B) (Notwithstanding the authority conferred by the shareholders may have ceased to be in force) issue shares in pursuance of any Instrument made or granted by the Directors while the authority was in force,

provided always that

- (a) the aggregate number of shares to be issued pursuant to this resolution (including shares to be issued in pursuance of Instruments made or granted pursuant to this resolution) does not exceed 50% of the total number of issued shares (excluding treasury shares) of the Company (as calculated in accordance with sub-paragraph (b) below), of which the aggregate number of shares (including shares to be issued in pursuance of Instruments made or granted pursuant to this resolution) to be issued other than on a pro rata basis to shareholders of the Company does not exceed 20% of the total number of issued shares (excluding treasury shares) of the Company (as calculated in accordance with sub-paragraph (b) below);
- (b) (subject to such manner of calculation as may be prescribed by the SGX-ST) for the purpose of determining the aggregate number of shares that may be issued under sub-paragraph (a) above, the total number of issued shares (excluding treasury shares) shall be based on the total number of issued shares (excluding treasury shares) of the Company at the time this Resolution is passed, after adjusting for:
- (i) new shares arising from the conversion or exercise of any convertible securities;
 - (ii) new shares arising from exercising share options or vesting of share awards outstanding or subsisting at the time this Resolution is passed, provided the options or awards were granted in compliance with the provisions of the Listing Manual of the SGX-ST; and
 - (iii) any subsequent bonus issue, consolidation or subdivision of shares;
- (c) in exercising the authority conferred by this Resolution, the Company shall comply with the provisions of the Listing Manual of the SGX-ST for the time being in force (unless such compliance has been waived by the SGX-ST) and the Company's Constitution; and
- (d) unless revoked or varied by the Company in general meeting, such authority shall continue in force until the conclusion of the next Annual General Meeting of the Company or the date by which the next Annual General Meeting of the Company is required by law to be held, whichever is the earlier."

[See Explanatory Note (i)]

Resolution 6

NOTICE OF ANNUAL GENERAL MEETING

8. AUTHORITY TO ALLOT AND ISSUE SHARES UNDER THE JB FOODS EMPLOYEE SHARE OPTION SCHEME 2014

That the Directors of the Company be and are hereby authorised to offer and grant Options in accordance with the rules of the JB Foods Employee Share Option Scheme 2014 (the “**Option Scheme**”) pursuant to Section 161 of the Companies Act, Chapter 50, and to deliver existing Shares (including treasury shares, if any) and to allot and issue and/or transfer from time to time such number of fully paid-up Shares in the capital of the Company as may be required to be allotted and issued and/or transferred pursuant to the exercise of the Options under the Option Scheme, provided always that:

- (i) the aggregate number of Shares over which the Company may grant Options on any date (including the number of Shares which have been and to be issued upon the exercise of the Options in respect of all Options granted under the Option Scheme) shall not exceed fifteen per cent. (15%) of the total number of Shares of the Company (excluding treasury shares) on the day preceding that date; and
- (ii) the aggregate number of Shares to be offered to certain participants collectively and individually during the duration of the Option Scheme (subject to adjustments, if any, made under the Option Scheme) shall not exceed such limits or, as the case may be, sub-limits as may be prescribed in the Option Scheme.

Resolution 7

By Order of the Board
Ong Beng Hong
Joint Company Secretary
13 April 2018

Notes:

- (1) A member of the Company (other than a Relevant Intermediary*) entitled to attend and vote at the Annual General Meeting is entitled to appoint not more than two proxies to attend and vote in his stead. A proxy need not be a member of the Company.
- (2) A Relevant Intermediary may appoint more than two proxies, but each proxy must be appointed to exercise the rights attached to a different share or shares held by him (which number and class of shares shall be specified).
- (3) If the appointor is a corporation, the proxy must be executed under seal or the hand of its duly authorised officer or attorney.
- (4) The instrument appointing a proxy must be deposited at the registered office of the Company at 80 Robinson Road, #17-02 Singapore 068898 not later than 48 hours before the time appointed for the Annual General Meeting.

*A Relevant Intermediary is:

- (a) a banking corporation licensed under the Banking Act (Cap. 19) or a wholly-owned subsidiary of such a banking corporation, whose business includes the provision of nominee services and who holds shares in that capacity; or
- (b) a person holding a capital markets licence to provide custodial services for securities under the Securities and Futures Act (Cap. 289) and who holds shares in that capacity; or
- (c) the Central Provident Fund Board established by the Central Provident Fund Act (Cap. 36), in respect of shares purchased under the subsidiary legislation made under that Act providing for the making of investments from the contributions and interest standing to the credit of members of the Central Provident Fund, if the Board holds those shares in the capacity of an intermediary pursuant to or in accordance with that subsidiary legislation.

NOTICE OF ANNUAL GENERAL MEETING

Explanatory Note:

- (i) The Ordinary Resolution 6, if passed, will empower the Directors from the date of this Meeting until the conclusion of the next Annual General Meeting, or the date by which the next Annual General Meeting of the Company is required by law to be held, or when revoked or varied by the Company in general meeting, whichever is earlier, to allot and issue further shares in the Company. The maximum number of shares which the Directors may issue under this resolution shall not exceed the quantum as set out in the resolution.

Personal Data Privacy:

By submitting an instrument appointing a proxy(ies) and/or representative(s) to attend, speak and vote at the Annual General Meeting and/or any adjournment thereof, or by attending the Annual General Meeting, a member of the Company (i) consents to the collection, use and disclosure of the member's personal data by the Company (or its agents) for the purpose of the processing and administration by the Company (or its agents) of proxies and representatives appointed for the Annual General Meeting (including any adjournment thereof) and the preparation and compilation of the attendance lists, minutes and other documents relating to the Annual General Meeting (including any adjournment thereof), and in order for the Company (or its agents) to comply with any applicable laws, listing rules, regulations and/or guidelines (collectively, the "Purposes"), (ii) warrants that where the member discloses the personal data of the member's proxy(ies) and/or representative(s) to the Company (or its agents), the member has obtained the prior consent of such proxy(ies) and/or representative(s) for the collection, use and disclosure by the Company (or its agents) of the personal data of such proxy(ies) and/or representative(s) for the Purposes, and (iii) agrees that the member will indemnify the Company in respect of any penalties, liabilities, claims, demands, losses and damages as a result of the member's breach of warranty. In addition, by attending the Annual General Meeting and/or any adjournment thereof, a member of the Company consents to the collection, use and disclosure of the member's personal data by the Company (or its agents) for any of the Purposes.

IMPORTANT: PLEASE READ NOTES OVERLEAF

NOTES

1. Please insert the total number of ordinary shares held by you. If you have ordinary shares entered against your name in the Depository Register (as defined in Section 81SF of the Securities and Futures Act, Chapter 289 of Singapore), you should insert that number of ordinary shares. If you have ordinary shares registered in your name in the Register of Members, you should insert that number of ordinary shares. If you have ordinary shares entered against your name in the Depository Register and ordinary shares registered in your name in the Register of Members, you should insert the aggregate number of ordinary shares entered against your name in the Depository Register and registered in your name in the Register of Members. If no number is inserted, the Proxy Form shall be deemed to relate to all the ordinary shares held by you.
2. A member of the Company (other than a Relevant Intermediary*), entitled to attend and vote at a meeting of the Company is entitled to appoint not more than two proxies to attend and vote instead of him save that no limit shall be imposed on the number of proxies for nominee companies. A proxy need not be a member of the Company.
3. Where a member (other than a Relevant Intermediary*) appoints two proxies, the appointments shall be invalid unless he/she specifies the proportion of his/her shareholding (expressed as a percentage of the whole) to be represented by each proxy.
4. A Relevant Intermediary may appoint more than two proxies, but each proxy must be appointed to exercise the rights attached to a different share or shares held by him (which number or class of shares shall be specified).
5. Subject to note 9, completion and return of this instrument appointing a proxy shall not preclude a member from attending and voting at the Annual General Meeting. Any appointment of a proxy or proxies shall be deemed to be revoked if a member attends the Annual General Meeting in person, and in such event, the Company reserves the right to refuse to admit any person or persons appointed under the instrument of proxy to the Annual General Meeting.
6. The Proxy Form must be lodged at the registered office of the Company at 80 Robinson Road, #17-02, Singapore 068898 not less than 48 hours before the time appointed for the Annual General Meeting.
7. The Proxy Form must be under the hand of the appointor or of his attorney duly authorised in writing. Where the Proxy Form is executed by a corporation, it must be executed either under its seal or under the hand of an officer or attorney duly authorised. Where the instrument appointing a proxy or proxies is executed by attorney on behalf of the appointor, the letter or power of attorney or a duly certified copy thereof must be lodged with the instrument.
8. A corporation which is a member may authorise by resolution of its directors or other governing body such person as it thinks fit to act as its representative at the Annual General Meeting, in accordance with Section 179 of the Companies Act, Chapter 50 of Singapore, and the person so authorised shall upon production of a copy of such resolution certified by a director of the corporation to be a true copy, be entitled to exercise the powers on behalf of the corporation so represented as the corporation could exercise in person if it were an individual.
9. An investor who holds shares under the Supplementary Retirement Scheme ("SRS Investors") (as may be applicable) may attend and cast his vote(s) at the Annual General Meeting in person. SRS Investors who are unable to attend the Annual General Meeting but would like to vote, may inform their SRS Approved Nominees to appoint the Chairman of the Annual General Meeting to act as their proxy, in which case, the SRS Investors shall be precluded from attending the Annual General Meeting.

*A Relevant Intermediary is:

- (a) a banking corporation licensed under the Banking Act (Cap. 19) or a wholly-owned subsidiary of such a banking corporation, whose business includes the provision of nominee services and who holds shares in that capacity; or
- (b) a person holding a capital markets licence to provide custodial services for securities under the Securities and Futures Act (Cap. 289) and who holds shares in that capacity; or
- (c) the Central Provident Fund Board established by the Central Provident Fund Act (Cap. 36), in respect of shares purchased under the subsidiary legislation made under that Act providing for the making of investments from the contributions and interest standing to the credit of members of the Central Provident Fund, if the Board holds those shares in the capacity of an intermediary pursuant to or in accordance with that subsidiary legislation.

GENERAL

The Company shall be entitled to reject the Proxy Form if it is incomplete, improperly completed or illegible or where the true intentions of the appointor are not ascertainable from the instructions of the appointor specified in the Proxy Form. In addition, in the case of ordinary shares entered in the Depository Register, the Company may reject any Proxy Form lodged if the member, being the appointor, is not shown to have ordinary shares entered against his name in the Depository Register as at 72 hours before the time appointed for holding the Annual General Meeting, as certified by The Central Depository (Pte) Limited to the Company.

PERSONAL DATA PRIVACY

By submitting an instrument appointing a proxy(ies) and/or representative(s), the member accepts and agrees to the personal data privacy terms set out in the Notice of Annual General Meeting.
