Wipro celebrates four years in Bangladesh

Dhaka, Bangladesh and Bangalore, India – September 09, 2021: Wipro Limited (NYSE: WIT, BSE: 507685, NSE: WIPRO), a leading global information technology, consulting and business process services company, has completed its fourth year of operations in Bangladesh during which it has emerged as a leading player in the country with its technology leadership, delivery excellence and proven global experience in supporting the transformation roadmaps of its key customers.

One of Wipro's most notable customer relationships in Bangladesh is with Grameenphone Ltd., Bangladesh's leading telecom enterprise. In 2017, Wipro signed a five-year IT infrastructure and applications managed services contract with Grameenphone. This strategic partnership has aligned closely with Wipro's vision to localise, expand its technology and domain presence, and explore new business opportunities in the region.

In the past four years, Wipro has owned and managed the end-to-end applications development and maintenance, infrastructure support and maintenance, and security for Grameenphone. Supported by Wipro's expertise and strong [local delivery capabilities](#), Grameenphone has modernized its technology infrastructure and simplified its applications portfolio, thereby enhancing its efficiency and reducing the time-to-market for new products and services. In addition, back-office processes have been automated, and customer journeys have been digitized for a superior end-user experience across their digital touchpoints.

Rade Kovacevic, CTO, Grameenphone said, "Wipro has been instrumental in the digitalization journey of Grameenphone over the last four years. Their global expertise, future-fit capabilities and innovation efforts have added significant value to supporting our customers with valuable connectivity services. We look forward to an exciting journey through this tech partnership in the future."

Bhavya Kapoor, Managing Director – Southeast Asia, Wipro Limited said, "Wipro has worked towards building an IT base in the region and has a dedicated localization policy. We are encouraged by our growing presence in Bangladesh and are committed to accelerating our customers' growth by leveraging Wipro's strengths, providing progressive and innovative IT solutions, and partnering with them in their digital transformation journey."

About Wipro Limited

Wipro Limited (NYSE: WIT, BSE: 507685, NSE: WIPRO) is a leading global information technology, consulting and business process services company. We harness the power of cognitive computing, hyper-automation, robotics, cloud, analytics and emerging technologies to help our clients adapt to the digital world and make them successful. The forward-looking statements contained herein represent Wipro's beliefs regarding future events, many of which are by their nature, inherently uncertain and outside Wipro's control. Such statements include, but are not limited to, statements regarding Wipro's growth prospects, its future financial operating results, and its plans, expectations and intentions. Wipro cautions readers that the forward-looking statements contained herein are subject to risks and uncertainties that could cause actual results to differ materially from the results anticipated by such statements. Such risks and uncertainties include, but are not limited to, risks and uncertainties regarding fluctuations in our earnings, revenue and profits, our ability to generate and manage growth, complete proposed corporate actions, intense competition in IT services, our ability to maintain our cost advantage, wage increases in India, our ability to attract and retain highly skilled professionals, time and cost overruns on fixed-price, fixed-time frame contracts, client concentration, restrictions on immigration, our ability to manage our international operations, reduced demand for technology in our key focus areas, disruptions in telecommunication networks, our ability to successfully complete and integrate potential acquisitions, liability for damages on our service contracts, the success of the companies in which we make strategic investments, withdrawal of fiscal governmental incentives, political instability, war, legal restrictions on raising capital or acquiring companies outside India, unauthorized use of our intellectual property and general economic conditions affecting our business and industry. The conditions caused by the COVID-19 pandemic could decrease technology spending, adversely affect demand for our products, affect the rate of customer spending and could adversely affect our customers' ability or willingness to purchase our offerings, delay prospective customers' purchasing decisions, adversely impact our ability to provide on-site consulting services and our inability to deliver our customers or delay the provisioning of our offerings, all of which could adversely affect our future sales, operating results and overall financial performance. Our operations may also be negatively affected by a range of external factors related to the COVID-19 pandemic that are not within our control. Additional risks that could affect our future operating results are more fully described in our filings with the United States Securities and Exchange Commission, including, but not limited to, Annual Reports on Form 20-F. These filings are available at www.sec.gov. We may, from time to time, make additional written and oral forward-looking statements, including statements contained in the company's filings with the Securities and Exchange Commission and our reports to shareholders. We do not undertake to update any forward-looking statement that may be made from time to time by us or on our behalf.
