Overview of UOB Group

UOB Overview

Founding

Founded in August 1935 by a group of Chinese businessmen and Datuk Wee Kheng Chiang, grandfather of the present UOB Group CEO, Mr. Wee Ee Cheong

Expansion

UOB has grown over the decades organically and through a series of strategic acquisitions. It is today a leading bank in Asia with an established presence in the Southeast Asia region. The Group has a global network of around 500 branches and offices in 19 countries and territories.

Key Statistics for 1Q22

- Gross loans : SGD320b (USD236b[1])
- Customer deposits : SGD362b (USD267b[1])
- Loan / Deposit ratio : 87.3%
- Net stable funding ratio : 113%
- All-currency liquidity coverage ratio : 129% [2]
- Common Equity Tier 1 ratio : 13.1%
- Leverage ratio : 6.9%
- Return on equity [3] : 8.8%
- Return on assets : 0.77%
- Net interest margin : 1.58%
- Non-interest income / Total income : 28.5%
- Cost / Income : 44.8%
- Non-performing loan ratio : 1.6%
- Credit Ratings

	Moody's	S&P	Fitch
Issuer rating (Senior unsecured)	Aa1	AA–	AA–
Outlook	Stable	Stable	Negative
Short-term rating	P-1	A-1+	F1+

Note: Financial statistics as at 31 March 2022

1. USD 1 = SGD 1.353 as at 31 March 2022
2. Average for 1Q22
3. Calculated based on profit attributable to equity holders of the Bank, net of perpetual capital securities distributions

A leading Singapore bank; Established franchise in core market segments

UOB

Monetary policy to normalize as growth recovers

	3Q20	4Q20	1Q21	2Q21	3Q21	4Q21	1Q22f	2Q22f	3Q22f	4Q22f
US 10-Year Treasury	0.68	0.91	1.74	1.47	1.49	1.51	2.34	2.60	2.65	2.70
US Fed Funds	0.25	0.25	0.25	0.25	0.25	0.25	0.50	1.25	1.75	2.25
SG 3M SIBOR	0.41	0.41	0.44	0.43	0.43	0.44	0.79	1.30	1.65	2.00
SG 3M SOR	0.18	0.19	0.36	0.24	0.21	0.36	0.95	1.30	1.65	2.00
SG 3M SORA	0.10	0.13	0.23	0.13	0.13	0.19	0.27	0.52	1.09	1.63
MY Overnight Policy Rate	1.75	1.75	1.75	1.75	1.75	1.75	1.75	2.00	2.25	2.25
TH 1-Day Repo	0.50	0.50	0.50	0.50	0.50	0.50	0.50	0.50	0.75	0.75
ID 7-Day Reverse Repo	4.00	3.75	3.50	3.50	3.50	3.50	3.50	3.50	4.00	4.50
CH 1-Year Loan Prime Rate	3.85	3.85	3.85	3.85	3.85	3.80	3.70	3.55	3.55	3.55

Following a 25 bps rate hike in Mar, we expect the US Federal Reserve to hike by another 50bps in the 3-4 May FOMC and at each of the five remaining meetings this year by at least 25bps. The announcement on Quantitative Tightening could also start as early as the May FOMC.

The MAS tightened monetary policy in two ways in Apr. First, the S$NEER mid-point was re-centred at its prevailing level. Second, the S$NEER appreciation slope has been raised “slightly”. We expect MAS to further steepen the S$NEER gradient slightly in its upcoming Oct policy statement, while leaving the width of the band and the level at which it is centred unchanged.

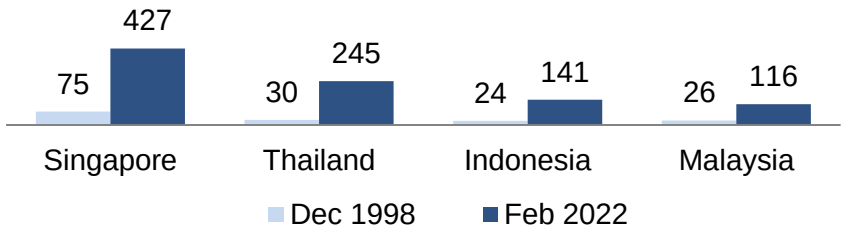

With growth recovery and higher inflation risks, more Asian central banks will unwind their ultra-loose monetary policies in 2022. Key risks include more contagious COVID-19 variants, higher commodity prices due to the sanctions on Russia and more aggressive tightening by the Federal Reserve that could increase market volatility.

Strong UOB Fundamentals

Strong UOB fundamentals

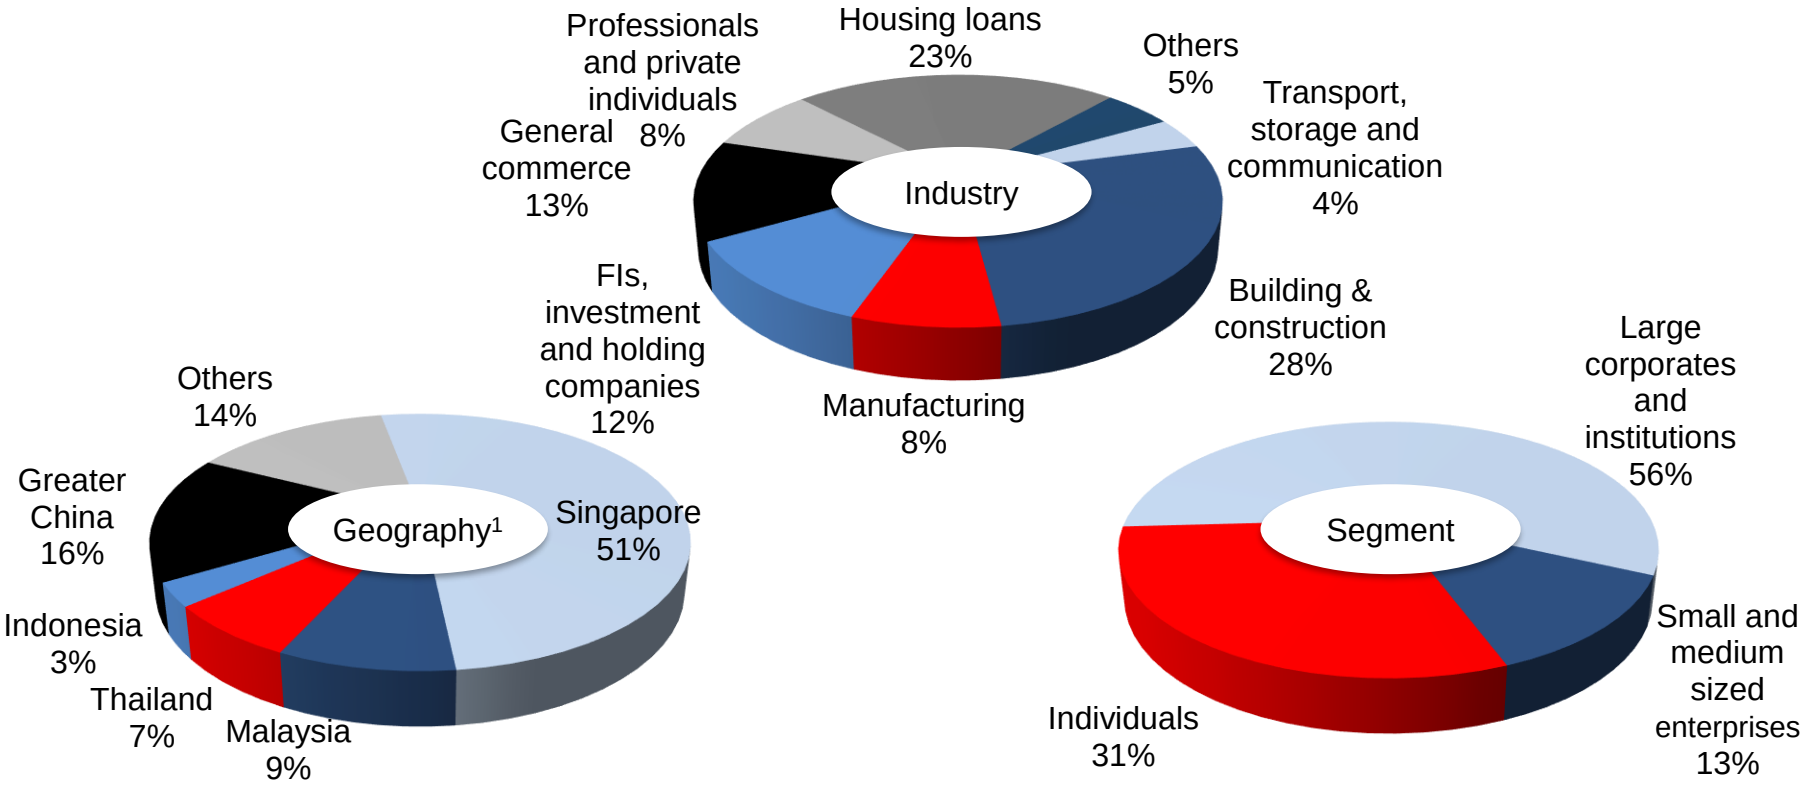

Strong management with proven track record	Consistent and focused financial management	Disciplined management of balance sheet strengths	Delivering on regional strategy
			
▪ Proven track record in steering UOB through various global events and crises ▪ Stability of management team ensures consistent execution of strategies	▪ Responsible yet prudent approach in extending loan relief to customers ▪ Continued investment in talent and technology to build capabilities in a disciplined manner ▪ At least 50% of Group earnings from home market of Singapore (AAA sovereign rating)	▪ Strong Common Equity Tier 1 capital adequacy ratio of 13.1% as at 31 March 2022 ▪ Diversified funding and sound liquidity, with 87.3% loan/deposit ratio ▪ Strengthened coverage, with general allowance on loans covering 0.9% of performing loans	▪ Holistic regional bank, with full control of overseas subsidiaries ▪ Focus on profitable niche segments and intra-regional flows ▪ Entrenched domestic presence and deep local knowledge to address needs of our targeted segments

Managing risks for stable growth

- **Prudent approach has been key to delivering sustainable returns over the years**
- **Institutionalised framework through Group Risk Appetite Statement (GRAS):**
  - Outlines risk and return objectives to guide strategic decision-making
  - Comprises 6 dimensions and 14 metrics
  - Entails instilling prudent culture as well as establishing policies and guidelines
  - Invests in capabilities, leverage integrated regional network to ensure effective implementation across key markets and businesses

Diversified loan portfolio

Note: Financial statistics as at 31 March 2022

1. Loans by geography are classified according to where credit risks reside, largely represented by the borrower's country of incorporation / operation (for non-individuals) and residence (for individuals)

Disciplined balance sheet management

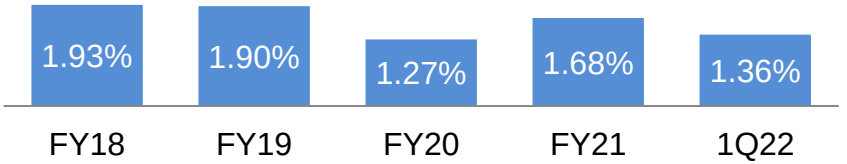

Focus on balance sheet efficiency

Healthy portfolio quality

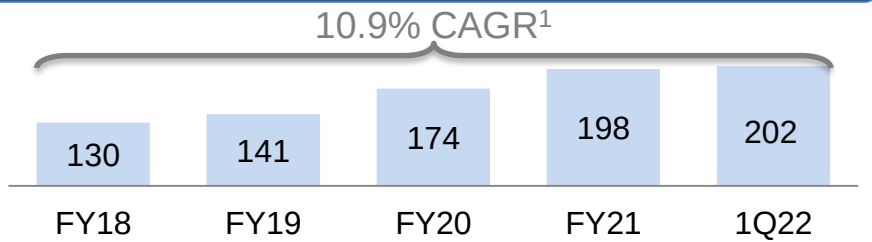

Proactive liability management

Robust capitalisation

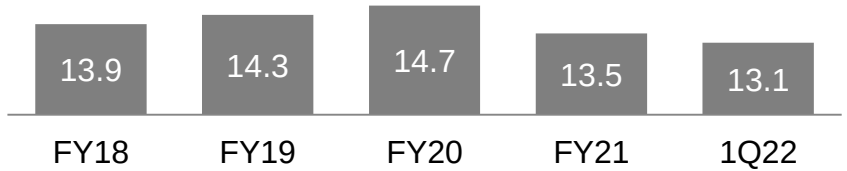

Return on risk-weighted assets

Current Account Saving Account Balances (SGD b)

Common Equity Tier 1 ratio (%)

1. Compound annual growth rate over 3¼ years (FY18 to 1Q22)

UOB's responsible financing journey: pragmatic and progressive

2018

- Rolled out ESG risk classification to better manage ESG risk in portfolio
- Led industry-wide efforts via **the Association of Banks in Singapore (ABS)** to develop:
  i. minimum ESG representations and warranties for Singapore banks, and
  ii. responsible financing e-learning module
- Enhanced ESG monitoring and reporting to improve oversight on potential controversies

2019

- Discontinued (i) new project financing of coal-fired power plant projects, (ii) project financing of greenfield thermal coal mines and (iii) new financing of greenfield oil palm plantations
- Endorsed Task Force on Climate-related Financial Disclosures (TCFD) recommendations and outlined roadmap, led by cross-functional TCFD Working Group
- Part of Monetary Authority of Singapore (MAS)'s working group to co-create the Environmental Risk Management (ENRM) Guidelines

2020

- Strengthened due diligence process with enhanced checklist and climate-related questions
- Completed a pilot transition risk climate scenario analysis in line with TCFD roadmap
- MAS's ENRM Guidelines issued; involved in MAS Green Finance Industry Taskforce (GFIT)
- All employees in relevant roles completed an industry-wide e-learning module on responsible financing

2021

- (i) Limited our thermal coal mining exposure to selected anchor client groups with diversification strategy; (ii) ceased project financing of thermal coal mine expansion; and (iii) discontinued corporate financing of coal-fired powerplants
- Established the bank's Environmental Risk Management Framework and disclosed our responsible financing sector policies on our corporate website
- Started working, in collaboration with GFIT, on an industry-aligned environmental risk questionnaire to evaluate our customers' resiliency against environmental impacts, and to identify opportunities to assist them

UOB's TCFD journey

UOB's TCFD Journey and Key Achievements

Qualitative assessment

- Completed qualitative assessment in 2019, referencing SASB's Materiality Map® and Moody's Environmental Risks Global Heatmap
- Identified carbon-intensive segments most likely to be impacted by climate change:
  - Metals and mining
  - Energy
  - Transportation
  - Chemicals
  - Building Materials
  - Agriculture
  - Forestry

Transition risk scenario analysis

- Partnered an internationally recognised environmental consultancy in climate scenario analysis in 2020
- Three pathways of climate scenarios based on research by IEA and OECD:
  - An orderly transition where early actions are taken to reduce emissions to meet climate targets *(high carbon price scenario)*
  - A disorderly transition where delayed and drastic actions are taken to meet climate targets *(moderate carbon price scenario)*
  - Business-as-usual where no actions are taken *(low carbon price scenario)*

Findings

- Carbon-intensive segments formed less than 10% of loans
- In a high carbon price scenario, an average 2-notch credit rating deterioration was observed among the sampled 382 borrowers in carbon-sensitive sectors (5% of loans); overall, the resulting credit risk impact on our portfolio is immaterial
- Negligible credit rating deterioration was observed for a sample of 68 borrowers in the real estate sector (6% of loans)

UOB's Current Work on TCFD and Future Plans

Physical risk scenario analysis

Engage climate specialists and experts to better understand and determine appropriate methodology for physical risk scenario analysis with the objective of conducting a heatmap of our portfolio vulnerability

Transition risk scenario analysis refresh

Refresh the quantitative climate scenario analysis for transition risk and continue to refine/ enhance our approach

Current Work (published in UOB's 2021 Sustainability Report)

Physical Risk Assessment Disclosure

Publish disclosures on our physical risk scenario analysis

Metrics and Targets

To publish disclosure of climate-rated Metrics and Targets, subject to data availability and suitable methodology

Future Plan (Beyond 2021)

* Computed on an annualised basis, where applicable

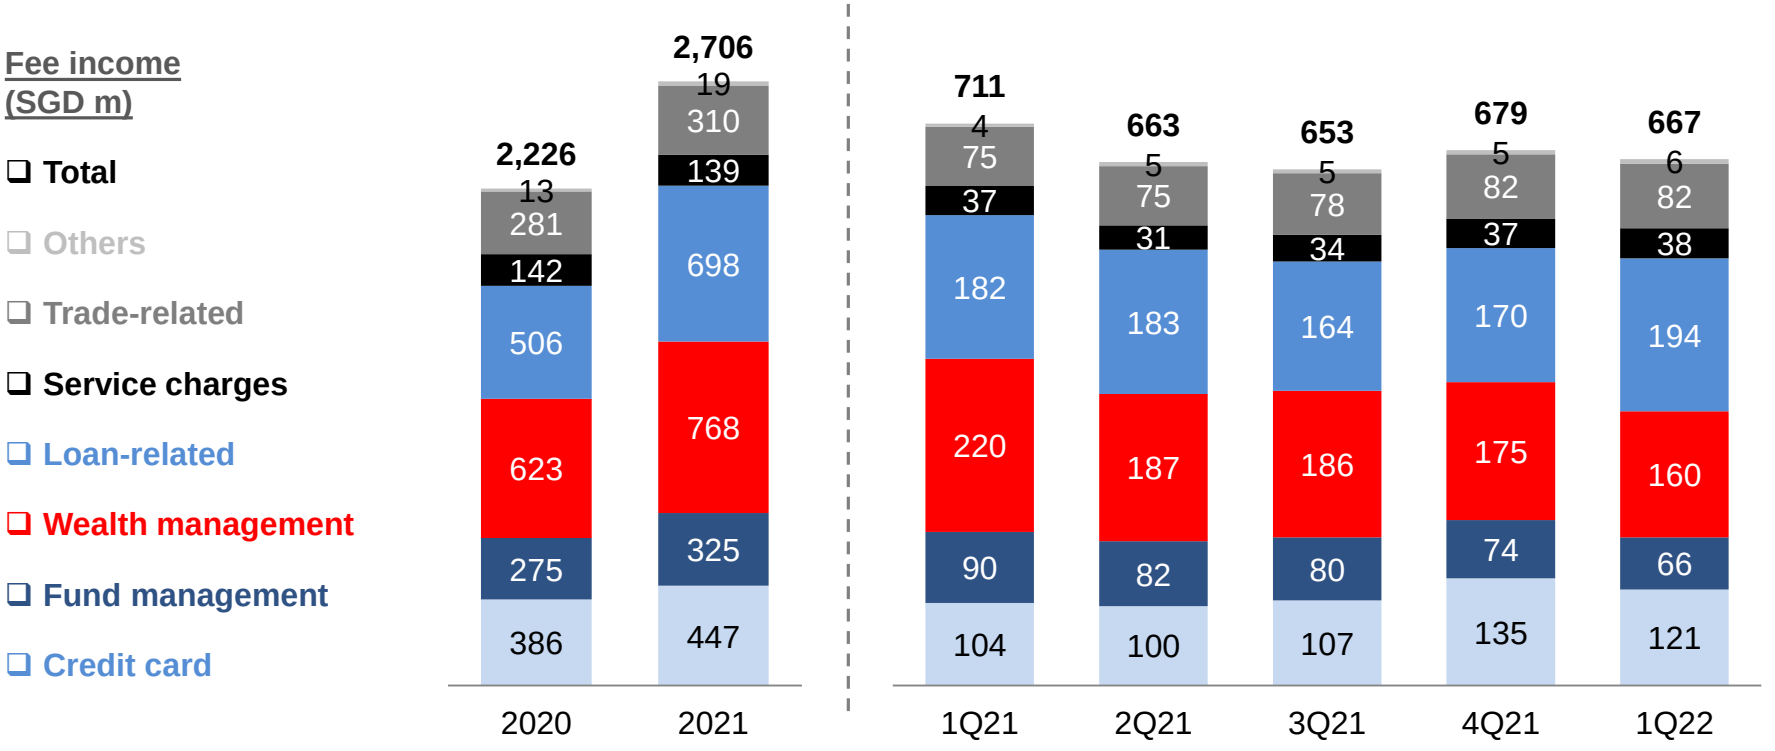

Fee income remains resilient despite weaker trading and investment income

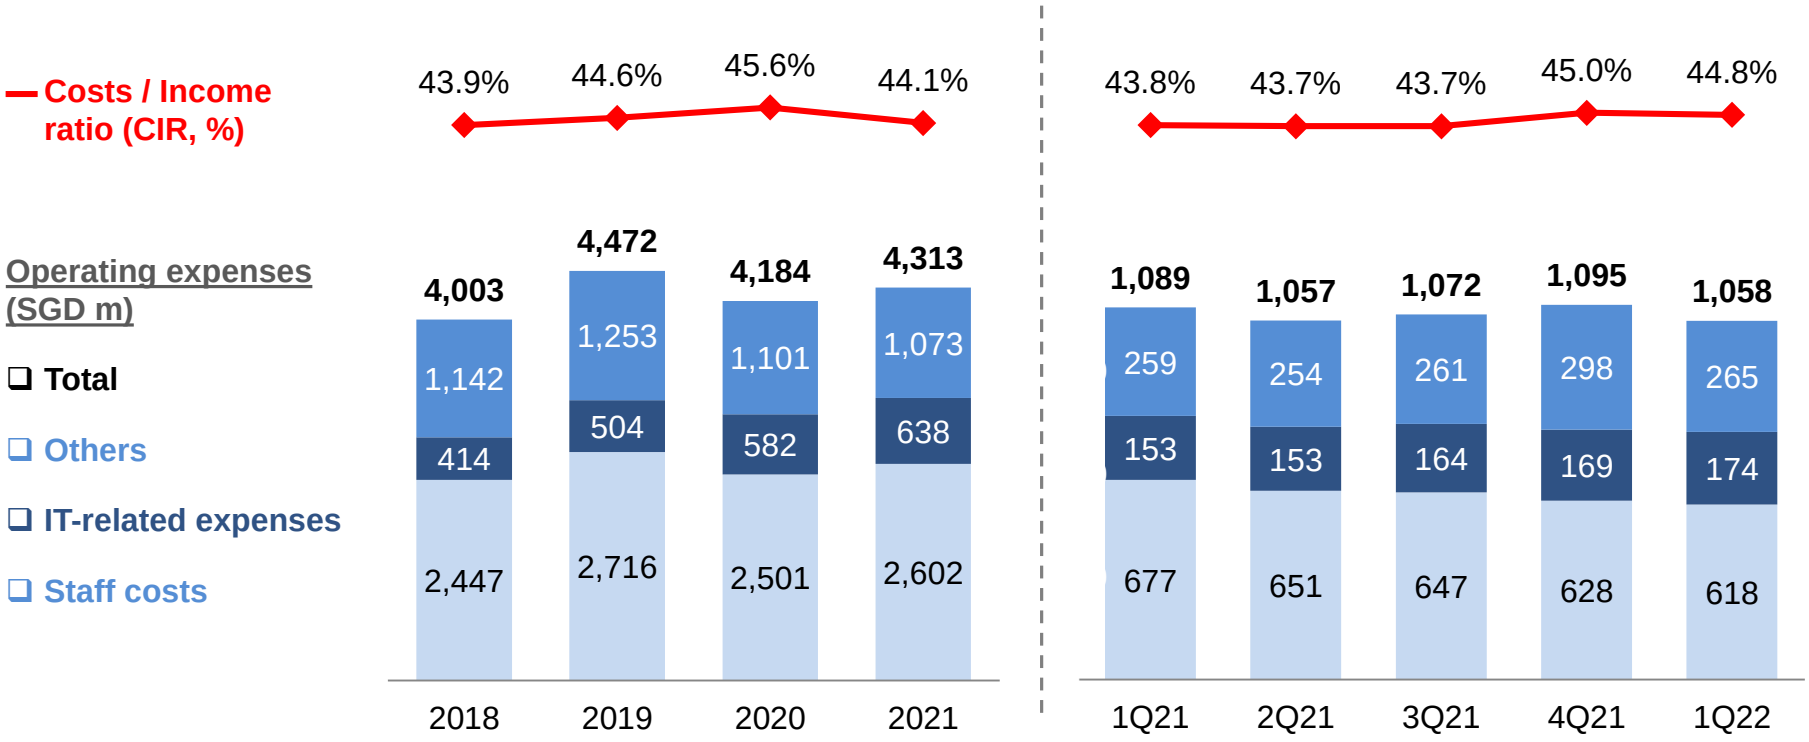

Note: Fee income has been restated where the amounts are net of expenses directly attributable to fee income

Loan-related fees hit a high as wealth management fees slowed on dampened market sentiment

Note: The amounts represent fee income on a gross basis

Stable CIR as we pace investments in staff and technology

Note: Expenses have been restated where the amounts no longer include expenses directly attributable to fee income

Note: Loans by geography are classified according to where credit risks reside, largely represented by the borrower's country of incorporation / operation (for non-individuals) and residence (for individuals)

Exposure to Greater China

As at 31 March 2022:

Mainland China exposure

($26.8b or 6% of total assets)

Bank exposure ($9.2b)

- Accounts for ~35% of Mainland China exposure; top 5 domestic banks and 3 policy banks account for ~65% of total bank exposure
- 99% with <1 year tenor
- Trade exposures form ~50% of total bank exposure

Non-bank exposure ($13.1b)

- Target customers include top-tier state-owned enterprises, large local corporates and foreign investment enterprises
- ~55% denominated in RMB
- ~55% with <1 year tenor
- NPL ratio at 0.3%

Hong Kong SAR exposure

($41.5b or 9% of total assets)

Bank exposure ($2.0b)

- Majority to foreign banks

Non-bank exposure ($34.3b)

- Mainly wholesale corporates
- ~55% with <1 year tenor
- NPL ratio at 0.7%

Note: Classification is according to where credit risks reside, largely represented by the borrower's country of incorporation / operation (for non-individuals) and residence (for individuals)

Exposure to Commodities

Mar 22	Oil and Gas (O&G)		Other Commodity Segments[2]	Total
	Upstream industries	Traders / downstream industries[1]		
Outstanding loans	S$2.0b	S$9.7b	S$9.7b	S$21.4b
% of total loans	4%		3%	7%

As of 31 March 2022, outstanding loans to commodities remain modest and represented 7% of total loans. In particular, outstanding O&G loans represented 4% of total loans as compared to 5% as at 30 June 2018.

Outstanding O&G exposure is to downstream players and traders which are mainly national oil companies (NOCs) and global firms, while short-term structured loans account for a significant share of the remainder.

A considerable portion of upstream exposure is to NOCs and international oil companies, while vulnerable accounts were already classified and their collateral value marked down (by as much as 90%) by end 2017.

Note:
(1) O&G upstream industries include offshore service companies.
(2) Other commodity segments refer to agribusiness, metals and mining.

Dividends in line with higher earnings and strong capital position

Net dividend per ordinary share (¢)

	2018	2019	2020	2021
Payout amount (SGD m)	2,000	2,171	1,304	2,009
Payout ratio (%)	50	50	45[1]	49
Payout ratio (excluding special dividends) (%)	42	42	45[1]	49

1. FY20 dividends were in line with Monetary Authority of Singapore's call for banks to cap dividends at 60% of 2019 dividends.

Note: The Scrip Dividend Scheme was applied to all the dividends for the financial years ended 2020

The Scheme provides shareholders with the option to receive Shares in lieu of the cash amount of any dividend declared on their holding of Shares. For more details, please refer to www.uobgroup.com/investor-relations/shares-and-dividends/dividends.html

Thank You
