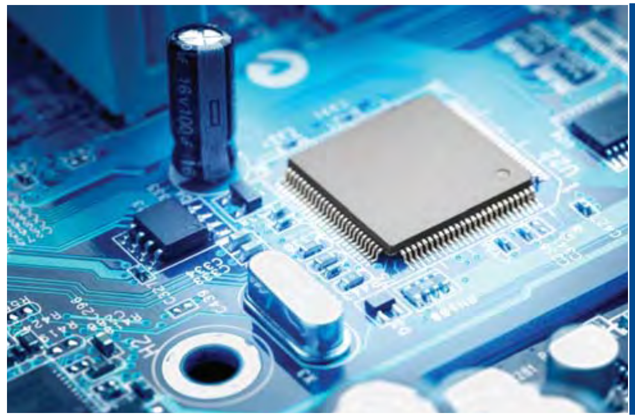
PNE Industries Ltd Annual Report 2015



2015

PNE Industries Ltd
Annual Report

Corporate Profile

PNE Industries Ltd has been listed on the SGX since May 2000. Its core business comprises of the following two segments:

- Contract manufacturing segment – manufacturing of electronic controllers and other electrical and electronic products.

- Trading segment - manufacturing and trading of emergency lighting equipment and printing materials, primarily pre-sensitised plates.

Headquartered in Singapore, the Group has sales offices and/or manufacturing facilities located in Singapore, Malaysia, China and the Netherlands.

The Group is committed to providing quality products and services to its customers. It has stringent controls in its manufacturing procedures to ensure the production of high quality reliable products. PNE has been awarded the ISO9001:2008, ISO14001:2004, ISO13485:2003, ISO/TS16949:2009 certification, as well as various quality awards by its customers over the years.

Chairman's Statement

Dear shareholders

I am pleased to deliver the annual report for 2015 on behalf of the Board of Directors. This features our results for the year, our challenges and our plans for the year ahead.

The Year in Review

For the year ended September 30, 2015 ("FY15"), the Group recorded profit before tax from continuing operations of $11.3m on the back of revenue of $74.0m. After deducting income tax expense and loss from discontinued operations, the Group ended the year with a profit of $7.2m, down $1.3m compared to last year.

Revenue rose by $1.8m or 2.5% to $74.0m in FY15 from $72.2m in FY14. The increase in revenue was due mainly to higher sales recorded by the Trading segment, which saw more customer orders for the Group's lighting products, while revenue from the Contract Manufacturing segment increased marginally. Due to the higher revenue, the Group's gross profit rose by $1.1m in FY15.

While gross profit increased, other operating income declined $6.0m due mainly to the absence this year of a one-off $9.8m gain recorded in FY14 upon the disposal of part of the Group's interest in its associate. However, FY15 saw a foreign exchange gain of $3.6m thanks mainly to the strengthening of the United States dollar during the year. In comparison, the Group incurred a $0.3m foreign exchange loss in FY14, recorded under other operating expense.

Distribution costs rose due to higher sales commission payouts. Administrative expenses increased due in part to higher staff costs, which rose because of the tight labour market and an increase in minimum wages in Shenzhen.

The Group recorded a profit from its share of results of associate this year, as opposed to a loss last year. For this year, the Group's share of results of associate reflected the results of its only remaining associate, whereas last year, the loss was due to the Group's share of the loss recorded by the Group's other associate, up to the date of disposal of part of its interest in this associate. Subsequent to the disposal, the remaining interest held by the Group is reclassified as an available-for-sale investment, for which it recorded a $0.8m impairment loss this year. The impairment loss arose due to the severe weakening of the Malaysian Ringgit.

In our annual report last year, we shared our plans to scale down our printing materials business in FY15 due to a highly challenging and competitive business environment for this business. However, despite having scaled down this business, it continued to record losses thereafter. Thus, to stem the losses, the Group has decided to divest this business through the disposal of its interest in the main subsidiary through which the Group operates this business, as announced in November 2015. As such, the results of this subsidiary had been presented as discontinued operations in FY15, with corresponding reclassifications made for FY14. The lower loss from discontinued operations this year was due to the lower scale of operations, and lower impairment for plant and machinery as well as for doubtful debts and inventories. Along with the presentation of the loss of this subsidiary as discontinued operations, the assets and liabilities associated with this subsidiary have also been reclassified as held-for-sale.

Higher cash generated from operations due to lower working capital requirements saw our cash and bank balances rise by $8.8m. This lower working capital requirement was due to lesser needs by the scaled-down printing materials business, and also to longer credit periods granted by suppliers. Lower inventories in line with the scaling down of the printing materials business also contributed to a reduction in our inventories.

Chairman's Statement

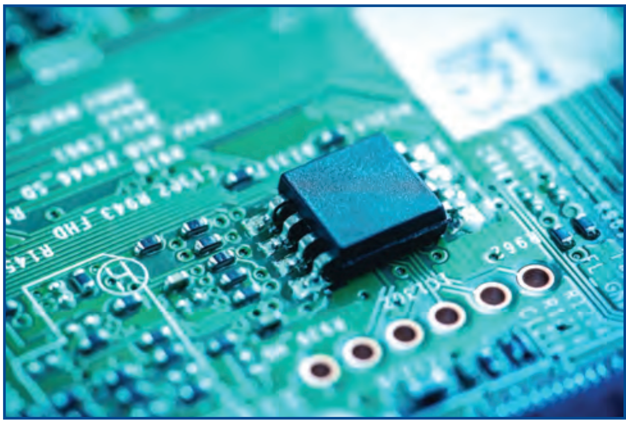
Sharing our Fruits

To comply with the SGX-ST's minimum trading price rule, during the year, the Company consolidated its shares such that every four issued shares were consolidated into one share. For FY15, the Board is pleased to recommend a final one-tier tax exempt dividend of 2.0 cents per consolidated share. This is equivalent to the 0.5 cent per share recommended for FY14 prior to the share consolidation. The proposed final dividend is subject to the approval of the shareholders at the forthcoming Annual General Meeting.

The Outlook Ahead

We remain committed to driving growth for the Group in spite of the challenges in the global arena and the highly competitive outlook in the industries that we are operating in.

The European debt crisis has not seen much significant improvements, and this has prolonged the uncertainties and volatility in the economy. As such, demand for the Group's products may be affected as we have a sizeable customer base within Europe. Cost pressures have also been rising in Singapore, China and Malaysia, in which our operations are located. The unpredictability of customers' orders and forecasts heightens the risks and uncertainties faced by the Group for any long-term planning. Stronger demands for lower prices by customers also increase the challenges being faced by the Group.



As with previous years, the volatility of the USD remains a challenge for the Group in managing its foreign exchange risks as a sizable portion of its sales are denominated in USD. Any weakening of the USD may impact the Group if revenue is not matched by costs denominated in USD.

As we move into the new financial year, the Group will remain vigilant and exercise tight control over our costs in view of the economic climate. We will also continuously identify and implement new measures to streamline operations and increase efficiency. Risk management continues to be a top priority, and we will monitor trade receivables closely to minimise risks of doubtful debts, as well as our inventory levels to lower risks of obsolete inventories. We will also continue to focus our efforts to secure new customers.

Our Sincere Thanks

On behalf of the Board, I would like to thank you, our shareholders, as well as our customers and business associates for your continuous support to us. I also take this opportunity to express our appreciation to our staff too for their dedication and hard work over the years.

Tan Kong Heng
Chairman

Products

The Company and its subsidiaries operate primarily in two business segments – contract manufacturing and trading.

The types of products sold under the contract manufacturing business include electronic controllers and other electrical and electronic products. These products are made to customers' specifications.

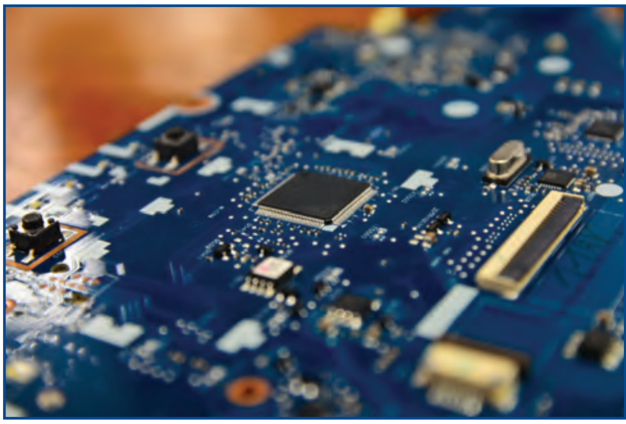
The types of products sold under the trading business include emergency lighting equipment and printing materials, primarily pre-sensitised plates. These products are made for the mass market.

Electronic controllers

Due to the demands of increasingly sophisticated consumers, the majority of electrical appliances are equipped with a number of intelligent features made possible by the use of microprocessors. The Group manufactures electronic controllers incorporating such microprocessors. Electronic controllers are employed in the control of the operations of domestic and industrial electrical appliances such as vacuum cleaners, coffee-makers, irons, remote control, lighting products, infant-care products, grooming products, food processors, valve controllers, shoe sterilizers, satellite communications, and automotive sensors.

Emergency lighting equipment

Emergency lighting equipment is a type of lighting equipment that turns on or remains on when a power failure occurs. "Exit" signs are self-lit signage installed in buildings to indicate to occupants the direction and location of emergency escape routes and/or exits.



Pre-sensitised plates

Pre-sensitised plates are also commonly known as lithographic plates or aluminium printing plates for offset lithographic printing. They are used in a variety of paper printing applications (e.g., books, magazines, catalogs, business forms, newspapers, calendars and stamps, etc).

Offset lithography is a method of printing in which the image and non-image areas occupy the same plane on the surface of a thin, metal lithographic plate on a large cylinder. The image and non-image areas are distributed chemically. The lithographic plate is prepared in such a way that the image area is rendered ink receptive and water repellant. A water-based "fountain solution", which is applied to the lithographic plate, renders the non-image area receptive to water and non-receptive to ink.

She is a member of the Institute of Singapore Chartered Accountants and holds the Bachelor of Accountancy (Second Class Upper Honours) from the Nanyang Technological University. Ms Tan is the daughter of the Chairman of the Company and the niece of all the directors except the independent directors.

Corporate Governance

PNE Industries Ltd is committed to good standards of corporate governance to protect the interests of its shareholders and maximize long-term shareholder value. This report describes the Company's corporate governance practices with specific reference to the Code of Corporate Governance ("Code") issued in 2012 in accordance to SGX's listing rules.

Principle 1: The Board's conduct of its affairs

The principal functions of the Board are to protect and enhance long-term shareholder value, establish the overall strategy for the Group, and to monitor the performance of management. To assist in the execution of its responsibilities, the Board is supported by the Nominating Committee, the Remuneration Committee, and the Audit Committee.

The Board meets at least twice a year to consider and resolve major financial and business matters of the Group. In between Board meetings, major matters concerning the Group are also put to the Board for its decision by way of circulating resolution-in-writing for the Directors' approval. Where necessary, informal meetings are held to deliberate on various issues. Material transactions requiring board approval include material acquisitions or disposals of assets, investments or divestments, corporate or financial restructuring, declarations of dividends and other returns to shareholders, and transactions involving a conflict of interest for a substantial shareholder or a Director or interested person transactions.

The directors continuously update themselves to familiarise on new laws and regulations as well as changing commercial risks and developments in order to keep abreast of changes in the industry and general economic environment. Attendance at external seminars and conferences are arranged for both existing and new directors as and when appropriate. New directors joining the Company are also given an orientation by the Company's Executive Directors and/or senior management to familiarize them with the Group.

During the last financial year ended September 30, 2015, two formal Board meetings were held. All directors as well as the company secretary attended the meetings.

Principle 2: Board composition and balance

The Board currently comprises of the following members:

Name	Board	Audit Committee	Nominating Committee	Remuneration Committee
Tan Kong Heng (Chairman)	Non-executive	-	Member	Member
Tan Koon Chwee (Managing Director)	Executive	-	-	-
Tan Kong Leong	Executive	-	-	-
Tan Kwong Soon	Non-executive	Member	-	-
Tung Chee Weng	Lead Independent	Chairman	Member	Chairman
Tan Lee Khiang	Independent	Member	Chairman	Member
Lim Meng Wee	Independent	Member	Member	Member

The directors are qualified and experienced in various fields including engineering, manufacturing, and accountancy. The Board is of the opinion that its current size and composition is appropriate given the scope and nature of the Group's operations. It will continuously review its size and composition to ensure that these remain appropriate in light of ever-changing environments.

Corporate Governance

Currently three out of the seven members of the Board are independent. Of the three independent directors, Messrs Tung Chee Weng and Tan Lee Khiang have served as Board members for more than nine years. The Nominating Committee ("NC") has conducted its annual review of the Directors' independence and was satisfied that the Company has complied with the guidelines of the Code. In its deliberation as to the independence of Messrs. Tung Chee Weng and Tan Lee Khiang, the NC reviewed among others, their length of service, past contributions, their declarations of independence, and whether there are any relationships with the Company, its related corporations, substantial shareholders or its officers, or circumstances that may affect or appear to affect their independent judgement. Based on this, the NC is satisfied that they have exercised independent judgement and character in the best interests of the Company in discharging their directors' duties. Considering their experience and expertise, it is in the interests of the Company to retain them as directors instead of requiring them to step down by virtue of their years of service. The Board concurs with the view of the NC.

Principle 3: Chairman and Managing Director

Mr Tan Kong Heng is the Chairman of the Board. Mr Tan Koon Chwee is the Managing Director and Chief Executive Officer of the Company. Mr Tan Kong Heng and Mr Tan Koon Chwee are brothers. The roles of the Chairman and CEO are separated in order to increase accountability and enhance the ability of the Board for independent decision making. Part of the duties of the Chairman includes the scheduling of Board meetings and setting the board meeting agenda in consultation with the Company's Managing Director. The Chairman also assists to ensure compliance with the Company's guidelines on corporate governance.

Principles 4 and 5: Board membership and performance

The Nominating Committee ("NC") works in accordance with its written terms of reference duly adopted by the Board. It is primarily responsible for reviewing the structure, size and composition of the Board, and for assessing the effectiveness of the Board as a whole. It also determines annually whether or not a director is independent and makes recommendations to the Board on re-nomination and re-election of directors. According to the Company's Articles, one-third of the Directors retire from office at each AGM and submit themselves for re-election at regular intervals of at least once every three years.

In assessing the effectiveness of the Board as a whole, the NC carries out a formal process annually taking into consideration both quantitative and qualitative criteria. Given the current size and composition of the Board, the NC is of the view that an assessment of the Board's performance as a whole is reflective of the contribution of each individual director. Thus, a formal assessment of the contribution of each individual director is currently not necessary. No maximum number of listed company board representations for board members have been set currently as the board members are able to manage their time and commitments.

The NC is also responsible for identifying and nominating candidates for the approval of the Board when the need for a new director is identified, whether to fill board vacancies as and when they arise, or to enhance the Board's effectiveness and capabilities. Potential candidates are identified from various sources, and may include suggestions by members of the Board or the Group's professional advisors. The NC also has the authority to engage recruitment consultants to assist it in the search and assessment process for potential candidates to join the Board. The potential candidates will be evaluated based on various criteria, including amongst others, their experience, professional qualifications and personal attributes by the NC before the NC submits its recommendation to the Board for approval. For re-election of incumbent directors, the NC will also consider, amongst others, the incumbent directors' competencies, independence, participation, attendance and contributions. A new director can be appointed to the Board via a board resolution, and will hold office until the first AGM held after his appointment, during which he will submit himself for re-election.

The NC held one meeting in the past year. All members of the NC attended the meeting.

Corporate Governance

Principle 6: Access to information

All members of the Board have separate and independent access to the Company's senior management and company secretary at all times. Should any of the directors require independent professional advice, such professionals will be hired at the Company's expense.

Prior to the Board meetings, all Directors are provided with board papers so that the Directors have complete, adequate, and timely information to enable them to be adequately prepared for the meeting. The company secretary attends all board meetings and will ensure that board procedures are complied with.

In addition to the board papers submitted to the directors for the board meeting, monthly management reports are submitted to each director to enable them to have timely information on the Group's operations and financial performance.

Principle 7: Remuneration policies

The Remuneration Committee ("RC") works in accordance with its written terms of reference duly adopted by the Board. It is primarily responsible for recommending to the Board the framework of remuneration for the Board and key executives. It also determines specific remuneration packages for each executive director, including the terms of the service agreements of the executive directors, and reviews the remuneration of the key executives.

None of the members of the RC specialize in the field of executive compensation. However, they possess general knowledge in this area, and are supported by the Group's General Manager of Personnel and Administration. In addition, if required, external professional advice will be sought at the Company's expense.

The RC held one meeting in the past year. All members of the RC attended the meeting.

Principle 8: Level and mix of remuneration
Principle 9: Disclosure on remuneration

The Group endeavours to set a level of remuneration that is appropriate to attract, retain and motivate all directors and staff. The remuneration generally includes a fixed as well as a variable component. The variable component is determined based on the performance of both the individual employee as well as the performance of the Group. There is no contractual provision that allows the Group to reclaim remuneration from the directors or staff in exceptional circumstances of misstatement of financial results, or misconduct resulting in financial loss to the Group, as the remuneration package is moderate and not excessive.

The remuneration of directors of the Company for the financial year ended September 30, 2015 are as follows:

Name of director	Base/fixed salary	Variable or performance-related income/bonuses	Fees	Options granted
$500,001 to $750,000				
Tan Koon Chwee	68%	28%	4%	Nil
Tan Kong Leong	68%	29%	3%	Nil
Nil to $250,000				
Tan Kong Heng	0%	0%	100%	Nil
Tan Kwong Soon	0%	0%	100%	Nil
Tung Chee Weng	0%	0%	100%	Nil
Tan Lee Khiang	0%	0%	100%	Nil
Lim Meng Wee	0%	0%	100%	Nil

Corporate Governance

Based on the current organization and reporting structure of the Group, it is more appropriate for three executives, who are not also directors of the Company, to be identified as the Group's top key executives instead of five as required under the Code. The names and profiles of these key executives of the Group are stated on page 6 of the annual report. Given the sensitive nature of employee remuneration, and the possible pressures from both within and outside the Group upon disclosing such information, the Board has decided that detailed disclosure of each director's and key executive's remuneration is not in the interests of the Company.

The Company does not have any employee share scheme.

Principle 10: Accountability

The Board is accountable to the shareholders while the management is accountable to the Board. When presenting the announcements for the interim and full year financial results to the shareholders, the Board aims to provide a balanced and understandable assessment of the Company's performance, position and prospects. Management assists by providing the members of the Board with management accounts of the Company on a monthly basis, as well as other information as and when necessary.

Principle 11: Risk Management and Internal Controls

TThe Board acknowledges that risk is inherent in business and there are commercial risks to be taken in the course of generating a return on business activities. The Board's policy is that risks should be managed within the Group's overall risk tolerance. The risk management functions are currently managed by the Audit Committee ("AC").

The review of the Group's system of internal controls is a concerted and continuing process, designed to manage rather than eliminate the risk of failure to achieve business objectives. The Board acknowledges its responsibility for ensuring that there is a sound system of internal controls to safeguard the shareholders' investments and Company's assets.

Based on the internal controls established and maintained by the Group, work performed by the internal and external auditors, and reviews performed by management, the Board, with the concurrence of the AC, is of the opinion that the Group's internal controls addressing financial, operational, compliance and information technology controls, and risk management systems were adequate and effective as at September 30, 2015. The Board has also received assurance from the Managing Director and Financial Controller that the Group's financial records have been properly maintained and the financial statements give a true and fair view of the Company's operations and finances, and on the effectiveness of the Group's risk management and internal control systems. However, it should be noted that no system of internal controls and risk management can provide absolute assurance against the occurrence of material errors, poor judgement, human error, losses, fraud or other irregularities.

The financial risks and management policies of the Group are laid out on pages 40 - 43 of the Annual Report.

Corporate Governance

Principle 12: Audit Committee ("AC")

The AC currently comprises three Indendent Directors and a Non-executive Director. Of the members, Mr Tan Kwong Soon has formal accounting training and experience. He and the other members of the AC have many years of experience in senior management positions and have sufficient financial management expertise to discharge the AC's functions.

The AC works in accordance with its written terms of reference duly adopted by the Board. Some of its primary responsibilities are as follows:

a. To review the audit plans and findings of the Company's internal auditors, and their evaluation of the systems of internal controls arising from their audit
b. To review the financial statements of the Company and the consolidated financial statements of the Group before their submission to the Board of Directors and the external auditors' report on those financial statements
c. To review half-yearly and full year results announcements of the Company before their submission to the Board of Directors
d. To review interested person transactions
e. To review annually the independence and objectivity of the external auditors, taking into consideration the non-audit services provided to the Group
f. To ensure that a review of the effectiveness of the Group's material internal controls is conducted at least annually
g. To review the co-operation and assistance given by the management to the Group's external auditors
h. To review the re-appointment of the external auditors of the Group

The AC has full authority to investigate any matters within its terms of reference, and has full access to the management of the Company. It also has full discretion to invite any director and executive officer to attend its meetings. The external and internal auditors have unrestricted access to the AC.

The AC held two meetings during the past year. All members of the AC attended the meetings.

Having reviewed the aggregate fees paid to the auditors, and a breakdown of the fees paid for audit and non-audit services provided by the auditors, the AC is of the opinion that the independence of the auditors have not been affected by the provision of the non-audit services. Further, it was noted that the appointment of the external auditors for the Company, its subsidiaries and associated companies are in compliance with Rules 712 and 715 of the SGX-ST Listing manual. The AC recommended that Messrs Deloitte & Touche LLP be nominated for re-appointment as the external auditors at the forthcoming AGM.

The Company has a whistle-blowing policy in place for the Group to allow staff or any other persons to raise concerns about possible improprieties for such matters to be independently investigated without any fears of reprisals.

Principle 13: Internal audit

The Group has outsourced the internal audit function to an accounting firm, namely BDO LLP. The internal auditors' primary line of reporting is to the chairman of the AC. Administratively, they report to the Managing Director of the Company, who is being assisted by the Financial Controller on this matter.

The AC annually reviews the adequacy of the internal audit function to ensure that the internal audit resources are adequate and that the internal audits are performed effectively.

The AC examines the internal audit plans, determines the scope of audit examination and approves the internal audit plan.

Corporate Governance

Principle 14: Shareholder Rights
Principle 15: Communication with Shareholders
Principle 16: Conduct of Shareholder Meetings

Shareholders are kept informed of developments and performances of the Group regularly through timely announcements via SGXNET and the press (where appropriate) as well as the annual report.

Active participation from shareholders at general meetings is welcomed by the Company. To facilitate voting by shareholders, the Company's articles allow shareholders to vote by proxies. Proxy forms can be sent to the Company by mail. During general meetings, each distinct issue is voted via separate resolutions. All directors of the Company, as well as the external auditors attend the Company's general meetings to address any queries from shareholders. Feedback can also be provided by shareholders via the Company's website.

Listing Rule 1207(19) – Dealing in Securities

The Group has adopted the SGX's Listing Rule 1207(19) with respect to dealings in securities for its internal compliance code. The Group's directors and officers are not allowed to deal in the Company's securities during the period beginning one month prior to the announcement of the Company's half year and full year results, and ending on the day of the announcement of the results, or while they are in possession of unpublished price-sensitive information. Directors and officers are also discouraged from dealing in the Company's securities on short-term consideration.

Interested Person Transactions

The Company has procedures to ensure that all transactions with interested persons are reported in a timely manner to the Audit Committee, and that the transactions are carried out on normal commercial terms and will not be prejudicial to the interests of the Company and its shareholders. There were no interested persons transactions with amounts of $100,000 or more during the year ended September 30, 2015. The Company does not have any shareholders' mandate for interested persons transactions.

Material Contracts and Loans

Pursuant to Rule 1207(8) of the Listing Manual, the Company confirms that there were no material contracts and loans of the Company and its subsidiaries involving the interests of the controlling shareholder, either still subsisting at the end of the financial year or if not then subsisting, which were entered into since the end of the previous financial year.

Directors' Statement

for the financial year ended September 30, 2015

Independent Auditors' Report to the members of PNE Industries Ltd

for the financial year ended September 30, 2015

Report on the Financial Statements

We have audited the accompanying financial statements of PNE Industries Ltd (the "Company") and its subsidiaries (the "Group") which comprise the statements of financial position of the Group and the Company as at September 30, 2015, and the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows of the Group and the statement of changes in equity of the Company for the year then ended, and a summary of significant accounting policies and other explanatory information, as set out on pages 18 to 65.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the provisions of the Singapore Companies Act (the "Act") and Singapore Financial Reporting Standards and for devising and maintaining a system of internal accounting controls sufficient to provide a reasonable assurance that assets are safeguarded against loss from unauthorised use or disposition; and transactions are properly authorised and that they are recorded as necessary to permit the preparation of true and fair financial statements and to maintain accountability of assets.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Singapore Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements of the Group and the statement of financial position and statement of changes in equity of the Company are properly drawn up in accordance with the provisions of the Act and Singapore Financial Reporting Standards so as to give a true and fair view of the financial position of the Group and of the Company as at September 30, 2015 and the financial performance, changes in equity and cash flows of the Group and changes in equity of the Company for the year ended on that date.

Report on Other Legal and Regulatory Requirements

In our opinion, the accounting and other records required by the Act to be kept by the Company and by those subsidiary corporations incorporated in Singapore of which we are the auditors have been properly kept in accordance with the provisions of the Act.

Notes to Financial Statements

for the financial year ended September 30, 2015

1. GENERAL

The Company (Registration No. 199905792R) is incorporated in Singapore with its principal place of business and registered office at 996 Bendemeer Road, #07-06, Singapore 339944. The Company is listed on the Singapore Exchange Securities Trading Limited. The financial statements are expressed in Singapore dollars.

The principal activity of the Company is that of investment holding. The principal activities of the subsidiaries and associates are disclosed in Notes 12 and 13 to the financial statements respectively.

The consolidated financial statements of the Group and statement of financial position and statement of changes in equity of the Company for the year ended September 30, 2015 were authorised for issue by the Board of Directors on December 18, 2015.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF ACCOUNTING

The financial statements are prepared in accordance with the historical cost basis, except as disclosed in the accounting policies below, and are drawn up in accordance with the provisions of the Singapore Companies Act and Singapore Financial Reporting Standards ("FRS").

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability which market participants would take into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for leasing transactions that are within the scope of FRS 17, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in FRS 2 or value in use in FRS 36.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;

- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

- Level 3 inputs are unobservable inputs for the asset or liability.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

ADOPTION OF NEW AND REVISED STANDARDS

On October 1, 2014, the Group adopted all the new and revised FRSs and Interpretations of FRSs ("INT FRSs") that are effective from that date and are relevant to its operations. The adoption of these new/revised FRSs, INT FRSs and amendments to FRSs does not result in changes to the Group's and Company's accounting policies and has no material effect on the amounts reported for the current or prior years.

At the date of authorisation of the financial statements, the following FRS, INT FRS and amendments to FRS that are relevant to the Group and the Company were issued but are not yet effective:

- FRS 109 *Financial Instruments*
- FRS 115 *Revenue from Contracts with Customers*
- Amendments to FRS 1 *Presentation of Financial Statements: Disclosure Initiative*
- Improvements to Financial Reporting Standards (November 2014)

Consequential amendments were also made to various standards as a result of these new/revised standards.

Management anticipates that the adoption of the above FRSs, INT FRS and amendments to FRSs in future periods is not expected to have a material impact on the financial statements of the Group and of the Company in the period of their adoption except for the following:

(a) FRS 109 *Financial Instruments*

FRS 109 was issued in December 2014 to replace FRS 39 *Financial Instruments: Recognition and Measurement* and introduced new requirements for (i) the classification and measurement of financial assets and financial liabilities (ii) general hedge accounting (iii) impairment requirements for financial assets.

Key requirements of FRS 109:

- All recognised financial assets that are within the scope of FRS 39 are now required to be subsequently measured at amortised cost or fair value through profit or loss (FVTPL).
- With some exceptions, financial liabilities are generally subsequently measured at amortised cost.
- In relation to the impairment of financial assets, FRS 109 requires an expected credit loss model, as opposed to an incurred credit loss model under FRS 39. The expected credit loss model requires an entity to account for expected credit losses and changes in those expected credit losses at each reporting date to reflect changes in credit risk since initial recognition. In other words, it is no longer necessary for a credit event to have occurred before credit losses are recognised.

FRS 109 will take effect from financial years beginning on or after January 1, 2018. The Group is currently evaluating the potential impact of the changes in the period of initial adoption.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

(b) FRS 115 *Revenue from Contracts with Customers*

In November 2015, FRS 115 was issued which establishes a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers. FRS 115 will supersede the current revenue recognition guidance including FRS 18 *Revenue*, FRS 11 *Construction Contracts* and the related interpretations when it becomes effective.

The core principle of FRS 115 is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Specifically, the standard introduces a 5-step approach to revenue recognition:

- Step 1: Identify the contract(s) with a customer
- Step 2: Identify the performance obligations in the contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to the performance obligations in the contract
- Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation

Under FRS 115, an entity recognises revenue when (or as) a performance obligation is satisfied, i.e. when 'control' of the goods or services underlying the particular performance obligation is transferred to the customer. Far more prescriptive guidance has been added in FRS 115 to deal with specific scenarios. Furthermore, extensive disclosures are required by FRS 115.

FRS 115 will take effect from financial years beginning on or after January 1, 2018. The Group is currently evaluating the impact of the changes in the period of initial adoption.

(c) Amendments to FRS 1 *Presentation of Financial Statements: Disclosure Initiative*

The amendments have been made to the following:

- Materiality and aggregation - An entity shall not obscure useful information by aggregating or disaggregating information and materiality considerations apply to the primary statements, notes and any specific disclosure requirements in FRSs.
- Statement of financial position and statement of profit or loss and other comprehensive income - The list of line items to be presented in these statements can be aggregated or disaggregated as relevant. Guidance on subtotals in these statements has also been included.
- Presentation of items of other comprehensive income ("OCI") arising from equity-accounted investments - An entity's share of OCI of equity-accounted associates and joint ventures should be presented in aggregate as single items based on whether or not it will subsequently be reclassified to profit or loss.
- Notes - Entities have flexibility when designing the structure of the notes and guidance is introduced on how to determine a systematic order of the notes. In addition, unhelpful guidance and examples with regard to the identification of significant accounting policies are removed.

Amendments to FRS 1 will take effect from financial years beginning on or after January 1, 2016. The Group is currently evaluating the potential impact of the changes in the period of initial adoption.

Notes to Financial Statements

for the financial year ended September 30, 2015

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

(d) Improvements to Financial Reporting Standards (November 2014)

Standards included in this cycle of improvement project comprised of the following. Amendments apply for annual periods beginning on or after January 1, 2016, unless otherwise stated.

Standard	Topic	Key amendment
FRS 105 *Non-current Assets Held for Sale and Discontinued Operations*	Changes in methods of disposal	Provides additional guidance on when an entity reclassifies an asset (disposal group) from held-for-sale to held-for-distribution to owners (or vice versa), or when held-for-distribution accounting is discontinued: • Reclassifications from held-for-sale to held-for-distribution to owners (or vice versa) should not be considered changes to a plan of sale or a plan of distribution to owners, and the classification, presentation and measurement requirements applicable to the new method of disposal should be applied. • Assets that no longer meet the criteria for held-for-distribution to owners (and do not meet the criteria for held-for-sale) should be treated in the same way as assets that cease to be classified as held-for-sale.

The Group is currently evaluating the potential impact of the above improvements to Financial Reporting Standards (November 2014).

BASIS OF CONSOLIDATION

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Company reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

When the Company has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Company considers all relevant facts and circumstances in assessing whether or not the Company's voting rights in an investee are sufficient to give it power, including:

- the size of the Company's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- potential voting rights held by the Company, other vote holders or other parties;

- rights arising from other contractual arrangements; and
- any additional facts and circumstances that indicate that the Company has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Company gains control until the date when the Company ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies.

<u>Changes in the Group's ownership interests in existing subsidiaries</u>
Changes in the Group's ownership interests in subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

When the Group loses control of a subsidiary, a gain or loss is recognised in profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary and non-controlling interests. All amounts previously recognised in other comprehensive income in relation to that subsidiary are accounted for as if the Group had directly disposed of the related assets or liabilities of the subsidiary (i.e. reclassified to profit or loss or transferred to another category of equity as specified/permitted by applicable FRSs). The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under FRS 39, when applicable, the cost on initial recognition of an investment in an associate or a joint venture.

In the Company's financial statements, investments in subsidiaries and associate are carried at cost less any impairment in net recoverable value that has been recognised in profit or loss.

BUSINESS COMBINATIONS

Acquisition of subsidiaries and businesses are accounted for using the acquisition method. The consideration for each acquisition is measured at the aggregate of the acquisition date fair values of assets given, liabilities incurred by the Group to the former owners of the acquiree, and equity interests issued by the Group in exchange for control of the acquiree. Acquisition-related costs are recognised in profit or loss as incurred.

Where applicable, the consideration for the acquisition includes any asset or liability resulting from a contingent consideration arrangement, measured at its acquisition-date fair value. Subsequent changes in such fair values are adjusted against the cost of acquisition where they qualify as measurement period adjustments (see below). The subsequent accounting for changes in the fair value of the contingent consideration that do not qualify as measurement period adjustments depends on how the contingent consideration is classified. Contingent consideration that is classified as equity is not remeasured at subsequent reporting dates and its subsequent settlement is accounted for within equity. Contingent consideration that is classified as an asset or a liability is remeasured at subsequent reporting dates in accordance with FRS 39 *Financial Instruments*: *Recognition and Measurement*, or FRS 37 *Provisions, Contingent Liabilities and Contingent Assets*, as appropriate, with the corresponding gain or loss being recognised in profit or loss.

Where a business combination is achieved in stages, the Group's previously held interests in the acquired entity are remeasured to fair value at the acquisition date (i.e. the date the Group attains control) and the resulting gain or loss, if any, is recognised in profit or loss. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income are reclassified to profit or loss, where such treatment would be appropriate if that interest were disposed of.

The acquiree's identifiable assets, liabilities and contingent liabilities that meet the conditions for recognition under the FRS are recognised at their fair value at the acquisition date, except that:

- deferred tax assets or liabilities and liabilities or assets related to employee benefit arrangements are recognised and measured in accordance with FRS 12 *Income Taxes* and FRS 19 *Employee Benefits* respectively;

- liabilities or equity instruments related to share-based payment transactions of the acquiree or the replacement of an acquiree's share-based payment awards transactions with share-based payment awards transactions of the acquirer in accordance with the method in FRS 102 *Share-based Payment* at the acquisition date; and

- assets (or disposal groups) that are classified as held for sale in accordance with FRS 105 *Non-current Assets Held for Sale and Discontinued Operations* are measured in accordance with that standard.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted during the measurement period (see below), or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed as of the acquisition date that, if known, would have affected the amounts recognised as of that date.

The measurement period is the period from the date of acquisition to the date the Group obtains complete information about facts and circumstances that existed as of the acquisition date - and is subject to a maximum of one year from acquisition date.

FINANCIAL INSTRUMENTS

Financial assets and financial liabilities are recognised on the Group's statement of financial position when the Group becomes a party to the contractual provisions of the instrument.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial instrument and of allocating interest income or expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts or payments (including all fees on points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial instrument, or where appropriate, a shorter period. Income and expense is recognised on an effective interest basis for debt instruments.

Financial assets

Financial assets are initially measured at fair value plus transaction costs, except for those financial assets classified as at fair value through profit or loss which are initially measured at fair value.

Loans and receivables

Trade receivables, loans and other receivables that have fixed or determinable payments that are not quoted in an active market are classified as "loans and receivables". Loans and receivables are measured at amortised cost using the effective interest method less impairment. Interest is recognised by applying the effective interest method, except for short-term receivables when the recognition of interest would be immaterial.

Available-for-sale financial assets

Certain shares held by the Group are classified as being available for sale and are stated at fair value. Fair value is determined in the manner described in Note 4. Gains and losses arising from changes in fair value are recognised in other comprehensive income with the exception of impairment losses, interest calculated using the effective interest method and foreign exchange gains and losses on monetary assets which are recognised directly in profit or loss. Where the investment is disposed of or is determined to be impaired, the cumulative gain or loss previously recognised in other comprehensive income and accumulated in investment revaluation reserve is reclassified to profit or loss. Dividends on available-for-sale equity instruments are recognised in profit or loss when the Group's right to receive payments is established.

Cash and cash equivalents in the statement of cash flows

Cash and cash equivalents in the statement of cash flows comprise cash on hand and demand deposits that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Impairment of financial assets

Financial assets are assessed for indicators of impairment at the end of each reporting period. Financial assets are impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the financial asset have been impacted.

For available-for-sale equity instruments, a significant or prolonged decline in the fair value of the investment below its cost is considered to be objective evidence of impairment.

For financial assets carried at amortised cost, the amount of the impairment is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade and other receivables where the carrying amount is reduced through the use of an allowance account. When a trade or other receivable is uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against the allowance account. Changes in the carrying amount of the allowance account are recognised in profit or loss.

When an available-for-sale financial asset is considered to be impaired, cumulative gains or losses previously recognised in other comprehensive income are reclassified to profit or loss.

With the exception of available-for-sale equity instruments, if, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment loss was recognised, the previously recognised impairment loss is reversed through profit or loss to the extent the carrying amount of the investment at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

In respect of available-for-sale equity instruments, impairment losses previously recognised in profit or loss are not reversed through profit or loss. Any subsequent increase in fair value after an impairment loss is recognised in other comprehensive income.

Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Financial liabilities and equity instruments

Classification as debt or equity

Financial liabilities and equity instruments issued by the Group are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. Equity instruments are recorded at the proceeds received, net of direct issue costs.

Trade and other payables

Trade and other payables are initially measured at fair value, net of transaction costs, and are subsequently measured at amortised cost, using the effective interest method, with interest expense recognised on an effective yield basis.

Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or they expire.

CAPITAL RESERVE

Pursuant to relevant laws and regulations in the PRC applicable to foreign investment enterprises and the Articles of Association of the PRC subsidiaries, the dividend declaring subsidiaries are required to maintain two statutory reserves, being a statutory surplus reserve fund and an enterprise fund. Appropriations to such reserves are made out of profit after taxation of the statutory financial statements of the subsidiaries. The subsidiaries are required to transfer 10% of its profit after taxation as reported in its PRC statutory financial statements to the statutory surplus reserve fund until the balance reached 50% of its registered capital. The statutory surplus reserve fund can be used to make up prior year losses incurred and, with approval from relevant government authority, to increase capital.

LEASES

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Rentals payable under operating leases are charged to profit or loss on a straight-line basis over the term of the relevant lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed. Contingent rentals arising under operating leases are recognised as an expense in the period in which they are incurred.

In the event that lease incentives are received to enter into operating leases, such incentives are recognised as a liability. The aggregate benefit of incentives is recognised as a reduction of rental expense on a straight-line basis, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed.

NON-CURRENT ASSETS HELD FOR SALE

Non-current assets and disposal groups are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the asset (or disposal group) is available for immediate sale in its present condition. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

Notes to Financial Statements
for the financial year ended September 30, 2015

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

When the Group is committed to a sale plan involving loss of control of a subsidiary, all of the assets and liabilities of that subsidiary are classified as held for sale when the criteria described above are met, regardless of whether the Group will retain a non-controlling interest in its former subsidiary after the sale.

Non-current assets (and disposal groups) classified as held for sale are measured at the lower of their previous carrying amount and fair value less costs to sell.

INVENTORIES
Inventories are stated at the lower of cost and net realisable value. Costs comprise direct materials and, where applicable, direct labour costs and those overheads that have been incurred in bringing the inventories to their present location and condition. Cost is calculated using the weighted average method. Net realisable value represents the estimated selling price less all estimated costs of completion and costs to be incurred in marketing, selling and distribution.

PROPERTY, PLANT AND EQUIPMENT
Property, plant and equipment are stated at cost less accumulated depreciation and any accumulated impairment losses.

Construction-in-progress consists of land cost, related acquisition expenses and construction costs incurred during the period of construction.

Depreciation is charged so as to write off the cost or valuation of assets, other than freehold land and properties under construction, over their estimated useful lives, using the straight-line method, on the following bases:

Leasehold land	-	Lease term of 50 to 97 years
Buildings	-	2% to 5%
Plant and machinery	-	10% to 20%
Furniture, fittings and office equipment	-	10% to 33.33%
Motor vehicles	-	10% to 20%
Tools and dies	-	20%

Fully depreciated assets still in use are retained in the financial statements.

The estimated useful lives, residual values and depreciation method are reviewed at each year end, with the effect of any changes in estimate accounted for on a prospective basis.

The gain or loss arising on disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

IMPAIRMENT OF TANGIBLE ASSETS
At the end of each reporting period, the Group reviews the carrying amounts of its tangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. Where a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Notes to Financial Statements

for the financial year ended September 30, 2015

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

ASSOCIATES

An associate is an entity over which the Group has significant influence and that is neither a subsidiary nor an interest in a joint venture. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

The results and assets and liabilities of associate are incorporated in these consolidated financial statements using the equity method of accounting, except when the investment, or a portion thereof, is classified as held for sale, in which case it is accounted for in accordance with FRS 105. Under the equity method, an investment in an associate is initially recognised in the consolidated statement of financial position at cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income of the associate. When the Group's share of losses of an associate exceeds the Group's interest in that associate (which includes any long-term interests that, in substance, form part of the Group's net investment in the associate), the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate.

An investment in an associate is accounted for using the equity method from the date on which the investee becomes an associate. On acquisition of the investment in an associate, any excess of the cost of the investment over the Group's share of the net fair value of the identifiable assets and liabilities of the investee is recognised as goodwill, which is included within the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment, is recognised immediately in profit or loss in the period in which the investment is acquired.

The requirements of FRS 39 are applied to determine whether it is necessary to recognise any impairment loss with respect to the Group's investment in an associate. When necessary, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with FRS 36 *Impairment of Assets* as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs to sell) with its carrying amount, any impairment loss recognised forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance with FRS 36 to the extent that the recoverable amount of the investment subsequently increases.

The Group discontinues the use of the equity method from the date when the investment ceases to be an associate, or when the investment is classified as held for sale. When the Group retains an interest in the former associate and the retained interest is a financial asset, the Group measures the retained interest at fair value at that date and the fair value is regarded as its fair value on initial recognition in accordance with FRS 39. The difference between the carrying amount of the associate at the date the equity method was discontinued, and the fair value of any retained interest and any proceeds from

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

disposing of a part interest in the associate is included in the determination of the gain or loss on disposal of the associate. In addition, the Group accounts for all amounts previously recognised in other comprehensive income in relation to that associate on the same basis as would be required if that associate had directly disposed of the related assets or liabilities. Therefore, if a gain or loss previously recognised in other comprehensive income by that associate would be reclassified to profit or loss on the disposal of the related assets or liabilities, the Group reclassifies the gain or loss from equity to profit or loss (as a reclassification adjustment) when the equity method is discontinued.

The Group continues to use the equity method when an investment in an associate becomes an investment in a joint venture or an investment in a joint venture becomes an investment in an associate. There is no remeasurement to fair value upon such changes in ownership interests.

When the Group reduces its ownership interest in an associate but the Group continues to use the equity method, the Group reclassifies to profit or loss the proportion of the gain or loss that had previously been recognised in other comprehensive income relating to that reduction in ownership interest if that gain or loss would be reclassified to profit or loss on the disposal of the related assets or liabilities.

When a Group entity transacts with an associate of the Group, profits and losses resulting from the transactions with the associate are recognised in the Group's consolidated financial statements only to the extent of interests in the associate that are not related to the Group.

PROVISIONS

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

REVENUE RECOGNITION

Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for estimated customer returns, rebates and other similar allowances.

<u>Sale of goods</u>

Revenue from the sale of goods is recognised when all the following conditions are satisfied:

- the Group has transferred to the buyer the significant risks and rewards of ownership of the goods;
- the Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- the amount of revenue can be measured reliably;
- it is probable that the economic benefits associated with the transaction will flow to the entity; and
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Notes to Financial Statements

for the financial year ended September 30, 2015

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Interest income

Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable.

Dividend income

Dividend income from investments is recognised when the shareholders' rights to receive payment have been established.

Management fee income

Management fee income is recognised when earned.

RETIREMENT BENEFIT COSTS

Payments to defined contribution retirement benefit plans are charged as an expense when employees have rendered the services entitling them to the contributions. Payments made to state-managed retirement benefit schemes, such as the Singapore Central Provident Fund, are dealt with as payments to defined contribution plans where the Group's obligations under the plans are equivalent to those arising in a defined contribution retirement benefit plan.

EMPLOYEE LEAVE ENTITLEMENT

Employee entitlements to annual leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave as a result of services rendered by employees up to the end of the reporting period.

INCOME TAX

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit as reported in the statement of profit or loss and other comprehensive income because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are not taxable or tax deductible. The Group's liability for current tax is calculated using tax rates (and tax laws) that have been enacted or substantively enacted in countries where the Company and subsidiaries operate by the end of the reporting period.

Deferred tax is recognised on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised on taxable temporary differences arising on investments in subsidiaries and associates, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

Notes to Financial Statements

for the financial year ended September 30, 2015

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset realised based on the tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

Current and deferred tax are recognised as an expense or income in profit or loss, except when they relate to items credited or debited outside profit or loss (either in other comprehensive income or directly in equity), in which case the tax is also recognised outside profit or loss (either in other comprehensive income or directly in equity, respectively).

FOREIGN CURRENCY TRANSACTIONS AND TRANSLATION

The individual financial statements of each group entity are measured and presented in the currency of the primary economic environment in which the entity operates (its functional currency). The consolidated financial statements of the Group and the statement of financial position and statement of changes in equity of the Company are presented in Singapore dollars, which is the functional currency of the Company, and the presentation currency for the consolidated financial statements.

In preparing the financial statements of the individual entities, transactions in currencies other than the entity's functional currency are recorded at the rate of exchange prevailing on the date of the transaction. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at the end of the reporting period. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on retranslation of monetary items are included in profit or loss for the period. Exchange differences arising on the retranslation of non-monetary items carried at fair value are included in profit or loss for the period except for differences arising on the retranslation of non-monetary items in respect of which gains and losses are recognised in other comprehensive income. For such non-monetary items, any exchange component of that gain or loss is also recognised in other comprehensive income.

For the purpose of presenting consolidated financial statements, the assets and liabilities of the Group's foreign operations (including comparatives) are expressed in Singapore dollars using exchange rates prevailing at the end of the reporting period. Income and expense items (including comparatives) are translated at the average exchange rates for the period, unless exchange rates fluctuated significantly during that period, in which case the exchange rates at the dates of the transactions are used. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in a separate component of equity under the header of currency translation deficit.

Notes to Financial Statements

for the financial year ended September 30, 2015

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

On the disposal of a foreign operation (i.e. a disposal of the Group's entire interest in a foreign operation, or a disposal involving loss of control over a subsidiary that includes a foreign operation, loss of joint control over a jointly controlled entity that includes a foreign operation, or loss of significant influence over an associate that includes a foreign operation), all of the accumulated exchange differences in respect of that operation attributable to the Group are reclassified to profit or loss. Any exchange differences that have previously been attributed to non-controlling interests are derecognised, but they are not reclassified to profit or loss.

In the case of a partial disposal (i.e. no loss of control) of a subsidiary that includes a foreign operation, the proportionate share of accumulated exchange differences are re-attributed to non-controlling interests and are not recognised in profit or loss. For all other partial disposals (i.e. of associates or jointly controlled entities that do not result in the Group losing significant influence or joint control), the proportionate share of the accumulated exchange differences is reclassified to profit or loss.

3. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in Note 2, management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Critical judgements in applying the entity's accounting policies

Management is of the opinion that there are no critical judgements involved that have a significant effect on the amounts recognised in the financial statements (apart from those involving estimations which are dealt with below).

Key sources of estimation uncertainty

The key assumptions concerning the future, and other key sources of estimation uncertainty at the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are discussed below.

Allowances for doubtful receivables

An allowance for doubtful receivables is set up to account for estimated loss resulting from the inability of the customers to make required payments. If the financial conditions of the customers were to deteriorate further, resulting in an impairment of their ability to make payments, additional allowances may be required in future periods. Management specifically analyses accounts receivables comprising of trade and other receivables and analyses historic bad debt, customer concentrations, customer worthiness, current economic trends and changes in the customer payment terms when making a judgement to evaluate the adequacy of the allowance for doubtful receivables.

The carrying amounts of trade and other receivables are disclosed in Notes 7 and 8 respectively.

Notes to Financial Statements

for the financial year ended September 30, 2015

3. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY *(continued)*

Allowance for inventories

Management reviews the inventory listing on a periodic basis. This review involves comparison of the carrying value of the inventory items with the respective net realisable value. The purpose is to assess whether an allowance is required to be made in the financial statements for slow-moving items. Management is satisfied that adequate allowance for inventories has been made in the financial statements.

The carrying amount of inventories is disclosed in Note 9.

Impairment in property, plant and equipment

To assess whether an asset at the end of the reporting period has been impaired, it is necessary to determine the recoverable amount of the asset which either requires an estimation of the future cash flows expected to be generated from it and the use of a suitable discount rate or the fair value less cost of disposal.

In 2015, the Group had recorded an impairment loss of $2,000 based on value-in-use of the plant and equipment, which is higher than its fair value less costs to sell. Further details have been disclosed in Note 10, together with the carrying amount of the property, plant and equipment.

In 2014, management had assessed and was of the view that there was indication of impairment in plant and equipment due to continuing losses suffered by one of its subsidiaries. The Group had recorded an impairment loss of $2,094,000 based on management's best estimate that the fair value less cost of disposal was approximately $Nil. Management had also assessed that there was no value-in-use as the future cash flows of the cash-generating unit was negative.

Investments in subsidiaries and associate

At the end of the financial year, the Group and the Company review the carrying amounts of its investments in subsidiaries and associate to determine whether there is any indication that those investments have suffered an impairment loss. If any such indication exists, the recoverable amount of the investment, which is the higher of fair value less costs to sell and value in use, is estimated in order to determine the extent of the impairment loss (if any).

In 2015, the Company recorded an impairment loss of $632,000 (2014: $Nil) in its investment in a subsidiary based on its recoverable amount determined by fair value less costs to sell. Details of the carrying amount of the investments in subsidiaries and associate are provided in Notes 12 and 13 respectively.

Impairment of available-for-sale investment

The Group follows the guidance of FRS 39 in determining whether the available-for-sale investment is considered impaired. The Group evaluates, amongst other factors, the duration and extent to which the fair value of an investment is less than its cost, the financial health of and the near-term business outlook of the investee, including factors such as industry and sector performance, changes in technology and operational and financing cash flows. The fair value of available-for-sale investment is disclosed in Note 14.

4. FINANCIAL INSTRUMENTS, FINANCIAL RISKS AND CAPITAL RISKS MANAGEMENT

(A) **Categories of financial instruments**

The following table sets out the financial instruments as at the end of the reporting period:

	Group		Company	
	2015	2014	**2015**	2014
	$'000	$'000	**$'000**	$'000
Financial Assets				
Loans and receivables				
(including cash and cash equivalents)	**58,960**	47,922	**12,701**	11,917

Financial Liabilities				
Amortised cost	**13,284**	10,518	**624**	623

(B) **Financial instruments subject to offsetting, enforceable master netting arrangements and similar agreements**

The Group and Company do not have any financial instruments which are subject to enforceable master netting arrangements or similar netting arrangements.

(C) **Financial risk management policies and objectives**

The Group's activities expose it to a variety of financial risks, including the effects of changes in foreign currency exchange rates and interest rates.

The Group does not hold or issue derivative financial instruments for speculative purpose.

There has been no change to the Group's exposure to these financial risks or the manner in which it manages and measures the risks. Market risk exposures are measured using sensitivity analysis as indicated below.

(i) <u>Foreign exchange risk management</u>

Foreign exchange risk arises from a change in foreign currency exchange rate which is expected to have an adverse effect on the Group and Company in the current reporting period and in future years.

The Group has sales and purchases primarily denominated in Renminbi, Euro, Malaysian ringgit, United States dollars, Hong Kong dollars and Singapore dollars. Fluctuations in the exchange rate between the Renminbi, Euro, Malaysian ringgit, United States dollars, Hong Kong dollars and Singapore dollars will therefore have an impact on the Group. With a higher proportion of sales than purchases and expenses denominated in either Renminbi, Euro, United States dollars or Malaysian ringgit, any depreciation of Renminbi, Euro, United States dollars or Malaysian ringgit against Singapore dollars will have an unfavourable impact on the Group.

The Group does not have any formal policy with respect to the foreign currency exposure and does not intend to pursue such a policy in the future.

4. FINANCIAL INSTRUMENTS, FINANCIAL RISKS AND CAPITAL RISKS MANAGEMENT *(continued)*

At the reporting date, the carrying amounts of monetary assets and monetary liabilities denominated in currencies other than the respective group entities' functional currencies are as follows:

	Group				Company			
	Assets		Liabilities		Assets		Liabilities	
	2015	2014	**2015**	2014	**2015**	2014	**2015**	2014

Singapore dollars	**3,082**	3,989	**170**	373	**-**	-	**-**	-

The Company has investments in foreign subsidiaries and associate whose net assets are exposed to currency risk.

Foreign currency sensitivity

The following table details the sensitivity to a 10% increase and decrease in the relevant foreign currencies against the functional currency of each group entity. 10% is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the period end for a 10% change in foreign currency rates. The sensitivity analysis includes loans to foreign operations within the Group where they gave rise to an impact on the Group's profit or loss.

If United States dollar, Singapore dollar and Malaysian ringgit weakens by 10% against the functional currency of each group entity with all other variables being held constant, the profit before tax will decrease by:

	US dollar impact				Singapore dollar impact				Malaysian ringgit impact			
	Group		Company		Group		Company		Group		Company	
	2015	2014	**2015**	2014	**2015**	2014	**2015**	2014	**2015**	2014	**2015**	2014
	$'000	$'000	**$'000**	$'000	**$'000**	$'000	**$'000**	$'000	**$'000**	$'000	**$'000**	$'000
Profit before tax	**3,283**(i)	2,129(i)	**1,187**(ii)	1,026(ii)	**291**(i)	362(i)	**-**	-	**221**(i)	258(i)	**36**(iii)	76(iii)

If United States dollar, Singapore dollar and Malaysian ringgit strengthens by 10% against the functional currency of each group entity with other variables being held constant, profit before tax will increase by the same amount above.

(i) This is mainly attributable to the exposure outstanding on receivables and payables at year end in the Group.

(ii) This is mainly attributable to the exposure outstanding on receivables from subsidiaries at year end.

(iii) This is mainly attributable to the exposure on foreign currency denominated cash and bank balances at year end.

No sensitivity analysis has been presented for the other foreign currencies as management is of the view that any fluctuations in those foreign currencies will not have a material impact on the Group's and Company's profit before tax.

4. FINANCIAL INSTRUMENTS, FINANCIAL RISKS AND CAPITAL RISKS MANAGEMENT *(continued)*

(ii) Interest rate risk management

Interest rate risk is the risk that the value of a financial instrument will fluctuate due to changes in market interest rates.

The Group and the Company are exposed to interest rate or cash flow risk for financial instruments with a floating interest rate that is reset as market rates change. The Group manages its interest rate risk by monitoring the movements in the market interest rates closely.

No sensitivity analysis is prepared as the Group and the Company do not expect any material effect on the Group's and the Company's profit or loss arising from the effects of reasonably possible changes to interest rates on interest bearing financial instruments at the end of the reporting period.

(iii) Credit risk management

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in a loss to the Group and Company. The Group and Company have adopted the policy of only dealing with creditworthy counterparties and obtaining sufficient collateral or other security where appropriate, as a means of mitigating the risk of financial losses from defaults.

The Company does not have any significant credit risk exposure to any single counterparty or any group of counterparties having similar characteristics except that the Company has significant non-trade receivables from 2 (2014 : 2) subsidiaries amounting to $11,688,000 (2014 : $5,096,000) as at September 30, 2015.

The Group does not have any significant credit risk exposure to any single counterparty or any group of counterparties having similar characteristics except that as at September 30, 2015, the Group has 2 (2014 : 2) major outstanding third party debtors amounting to $15,885,000 (2014 : $14,009,000) which accounted for 56% (2014 : 45%) of the total gross trade receivable balance.

The carrying amount of financial assets recorded in the financial statements, grossed up for any allowances for losses, and the exposure to defaults from financial guarantees, represents the Group's and Company's maximum exposure to credit risk without taking into account the value of any collateral or other security obtained.

Further details of credit risks on trade and other receivables are disclosed in Notes 7 and 8 respectively.

(iv) Equity price risk management

The Group is exposed to equity risks arising from equity investments classified as available-for-sale. Available-for-sale equity investments are held for strategic rather than trading purposes. The Group does not actively trade available-for-sale investments.

Further details of these equity investments can be found in Note 14 to the financial statements.

Equity price sensitivity

The sensitivity analysis below has been determined based on the exposure to equity price risks at the reporting date.

In respect of available-for-sale equity investment, if the equity price had been 5% higher/lower while all other variables were held constant; the Group's investment revaluation reserve would increase/decrease by $154,000 (2014 : $189,000).

Notes to Financial Statements

for the financial year ended September 30, 2015

4. FINANCIAL INSTRUMENTS, FINANCIAL RISKS AND CAPITAL RISKS MANAGEMENT *(continued)*

(v) Liquidity risk management

The Group maintains sufficient cash and cash equivalents, and internally generated cash flows to finance its activities. The Group minimises liquidity risk by keeping committed credit lines available.

The Group and the Company do not have interest bearing financial liabilities and assets except for fixed deposits held by the Group as disclosed in Note 6.

At the end of the reporting period, the Group has no financial guarantee exposure as the banking facilities utilised by the Group is secured by fixed deposits as disclosed in Note 6.

(vi) Fair value of financial assets and financial liabilities

The carrying amounts of cash and cash equivalents, trade and other receivables and trade and other payables approximate their respective fair values due to the relatively short-term maturity of these financial instruments. The fair values of other classes of financial assets and liabilities are disclosed in the respective notes to financial statements.

Some of the Group's financial assets are measured at fair value at the end of each reporting period. The following table gives information about how the fair values of these financial assets are determined (in particular, the valuation technique and inputs used).

	Fair value as at ($'000)			
	2015	2014		
Financial assets	Assets	Assets	Fair value hierarchy	Valuation technique and key input
Available-for-sale investments (see note 14)				
Available-for-sale investments	3,086	3,786	Level 1	Quoted bid prices in an active market

(D) **Capital risk management policies and objectives**

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to stakeholders through the optimisation of the debt and equity balance.

The capital structure of the Group consists of equity attributable to equity holders of the parent, comprising issued capital, reserves and retained earnings.

The Group's Board of Directors reviews the capital structure on a yearly basis and balances the Group's overall capital structure through the payment of dividends.

The Group's overall strategy remains unchanged from 2014.

5. RELATED PARTY TRANSACTIONS

Some of the Group's transactions and arrangements are with related parties and the effect of these on the basis determined between the parties is reflected in these financial statements. The balances are unsecured, interest-free and repayable on demand.

During the year, group entities entered into the following transactions with related parties:

	Group	
	2015	2014
	$'000	$'000
Transactions with associates:		
Purchase of goods	**39**	1,307
Commission	**1,386**	1,020

Compensation of directors and key management personnel

The remuneration of directors and other members of key management during the year was as follows:

	Group

Cash and cash equivalents in consolidated statement of cash flows	**29,247**	19,058	**904**	6,699

Cash and bank balances comprise cash and fixed deposits held by the Group which are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value. Fixed deposits bear interest at average interest rates ranging from 0.07% to 0.8% (2014 : 0.1% to 1.0%) per annum and with a tenure of three months or less (2014 : three months or less). Fixed deposits of $258,000 (2014 : $332,000) had been pledged for bank guarantees granted to third parties on behalf of the Group.

(Note 11)	**798**	-	-	-
Total	**28,562**	27,162	**109**	122

The average credit period on sales of goods ranged from 30 days to 90 days (2014 : 30 days to 90 days). No interest is charged on outstanding trade receivables that are beyond the credit timeframe.

Allowance for doubtful trade receivables is determined by reference to past default experience.

Before accepting any new customer, the Group assesses the potential customer's credit quality and defines credit limits by customer. Credit limits are reviewed on an ongoing basis.

In determining the recoverability of a trade receivable, the Group considers any change in the credit quality of the trade receivable from the date credit was initially granted up to the reporting date. Accordingly, management believes that there is no further credit provision required in excess of the allowance for doubtful trade receivables.

Transferred to assets classified as held for sale	**(3,478)**	-
Currency translation differences	**369**	(46)
Balance at end of year	**518**	3,759

Allowances for doubtful trade receivables are recognised for the estimated irrecoverable amounts from the sale of goods and services rendered. These allowances for doubtful trade receivables are determined after a detailed assessment by management taking into account the profile of the debtors, the economic conditions of the country and the industry that these debtors are based in and the likelihood of collection. Management is of the view that the allowance made is appropriate.

During the year, management recorded a reversal of allowance for doubtful debts of $131,000 as the amount was collected during the year.

10. PROPERTY, PLANT AND EQUIPMENT *(continued)*

In 2014, due to continuing losses suffered by a subsidiary, management recorded an impairment loss of $2,094,000 for certain plant and equipment based on management's best estimate that the fair value less cost of disposal was approximately $Nil and that there was no value-in-use as the future cash flows of the cash-generating unit was negative.

11. ASSETS CLASSIFIED AS HELD FOR SALE

During the year, the Company committed a plan to dispose all of its shareholdings in its subsidiary, PNE Print Technology Co., Ltd. ("PNE Print"). Its principal business is in the manufacturing and sale of pre-sensitised plates. PNE Print had ceased manufacturing operations since November 2014.

On November 13, 2015, the Company entered into a framework agreement with a third party for the proposed disposal of its 100% shareholdings in PNE Print. The consideration for the proposed disposal is RMB 46 million (equivalent to $10,235,000) and the amount of cash and bank balance of PNE Print at a future date to be determined.

The assets and liabilities attributable to PNE Print, which is expected to be disposed within twelve months from the end of the reporting period, have been classified as a disposal group held for sale and presented separately in the statement of financial position.

The proceeds of disposal are expected to exceed the net carrying amount of the relevant assets and liabilities and, accordingly, no impairment loss has been recognised on the re-classification of the disposal group as held for sale. The major classes of assets and liabilities comprising the disposal group classified as held for sale are as follows:

	Group 2015 $'000
Cash and bank balances	**1,317**
Trade receivables	**798**
Other receivables	**10**
Inventories	**284**
Property, plant and equipment	**2,491**
Total assets classified as held for sale	**4,900**
Other payables, and total for liabilities associated with assets classified as held for sale	**(257)**
Net assets of disposal group	**4,643**

During the year, the Company recorded an impairment loss of $632,000 in its investment in PNE Print based on its recoverable amount determined by fair value less costs to sell. The carrying amount of the investment in PNE Print as at September 30, 2015 is set out below:

	Company 2015 $'000
Unquoted equity shares, at cost	**12,028**
Less: Allowance for impairment loss	**(632)**
Asset classified as held for sale	**11,396**

Quoted equity shares, at fair value	**3,086**	3,786

The available-for-sale investment represents 13.9% equity interest in PNE PCB Berhad.

The investment above includes investment in equity instrument securities that offer the Group the opportunity for return through dividend income and fair value gains. During the financial year, an impairment loss of $829,000 is charged to other operating expenses in the profit or loss. In 2014, a fair value loss of $129,000 was recorded in other comprehensive income, which was subsequently recycled into the profit or loss in 2015 as a result of an impairment in the available-for-sale investment.

The fair value of quoted securities was based on the quoted closing prices on the last market day of the financial year.

15. DEFERRED TAX ASSETS (LIABILITIES)

Certain deferred tax assets and liabilities have been offset in accordance with the Group's accounting policy. The following is the analysis of the deferred tax balances:

	Group	
	2015	2014
	$'000	$'000
Deferred tax assets	**331**	396
Deferred tax liabilities	**(13)**	(7)

The following are the major deferred tax liabilities and assets recognised by the Group and movements thereon during the year:

	Accruals	**Tax over book depreciation**
	$'000	**$'000**
Group		
Balance at October 1, 2013	1,111	(124)
(Charge) Credit to profit or loss for the year	(707)	148

Balance at September 30, 2014	396	(7)
Charge to profit or loss for the year	(16)	(166)
Foreign exchange differences	(49)	160
Balance at September 30, 2015	**331**	**(13)**

At the end of the reporting period, the aggregate amount of temporary differences associated with undistributed profits of subsidiaries for which deferred tax liabilities have not been recognised is $13,669,000 (2014 : $11,401,000). No deferred tax liability has been recognised in respect of these differences because the Group is in a position to control the timing of the reversal of the temporary differences and it is probable that such differences will not crystallise in the foreseeable future.

Total income tax expense	**1,713**	2,239

The income tax expense varied from the amount of income tax expense determined by applying the Singapore income tax rate of 17% (2014 : 17%) to profit before tax as a result of the following differences:

	Group	
	2015	2014
	$'000	$'000
Profit before tax from continuing operations	**11,264**	16,109
Loss before tax from discontinued operation	**(2,335)**	(5,324)

[1] In 2014, management had reassessed and was of the view that deferred tax assets amounting to $669,000, previously recognised in 2013, was not likely to be recovered due to unpredictability of future profit streams. Accordingly, this had been reversed in 2014.

Notes to Financial Statements

for the financial year ended September 30, 2015

21. INCOME TAX EXPENSE *(continued)*

No deferred tax benefits has been recognised in the financial statements as the realisation of the benefits is uncertain due to unpredictability of future profit streams of the subsidiary. In 2015, the Group has unutilised tax loss of $8,186,000 (2014 : $5,312,000) that will expire in 2020. The use and expiration of such losses are subject to the agreement of the relevant tax authorities and compliance with certain provisions of the tax legislation.

22. PROFIT FOR THE YEAR

23. EARNINGS PER SHARE

The calculation of the basic earnings per share attributable to the ordinary equity holders of the Company is based on the following data:

	Group	
	2015	2014
	$'000	$'000
From continuing and discontinued operations		
Profit for the year attributable to equity holders of the Company	**7,216**	8,546
Number of fully paid ordinary shares in issue during the year (in '000)	**83,917**	83,917[(1)]

As there are no dilutive potential ordinary shares issued and/or granted, the fully diluted earnings per share is the same as the basic earnings per share.

	Group	
	2015	2014
	$'000	$'000
From continuing operations		
Profit for the year attributable to equity holders of the Company	**9,551**	14,843
Number of fully paid ordinary shares in issue during the year (in '000)	**83,917**	83,917[(1)]

The denominators used are the same as those detailed above for both basic and diluted earnings per share.

(1) On August 6, 2015, a share consolidation exercise was completed such that every four issued shares were consolidated into one share. The comparative figures for the earnings per share has been adjusted assuming that the share consolidation exercise was completed on September 30, 2014.

From discontinued operation

Basic and diluted loss per share for the discontinued operation is 2.78 cents per share (2014 : loss per share of 7.50 cents), based on the loss for the year from the discontinued operation of $2,335,000 (2014 : loss for the year of $6,297,000) and the denominators detailed above for both basic and diluted loss per share.

	$'000	$'000
Within one year	**614**	679
In the second to fifth year inclusive	**1,565**	1,785
Total	**2,179**	2,464

Operating lease payments represent rentals payable by the Group for certain of its office premises and office equipment. Leases are negotiated for an average term of 3 to 6 years and rentals are fixed for an average of 3 to 6 years.

25. SEGMENT INFORMATION

(a) Business segment

The Group determines its operating segments based on internal reports about components of the Group that are regularly reviewed by the chief operating decision maker in order to allocate resources to the segments and to assess their performance.

The Group is organised into business units based on their products on which information is prepared and reportable to the Group's chief operating decision maker for the purposes of resources allocation and assessment of performance.

The Group's reportable segments are therefore contract manufacturing, trading, printed circuit boards and others, as described below:

Contract manufacturing - The products sold include electronic controllers and electronic and electrical products.

Trading - The products sold include emergency lighting equipment and printing materials.

Printed circuit boards - The major associate is principally engaged in the manufacture of printed circuit boards. During 2014, the Group divested the associate.

Others - Refer to others which do not fall into the above segments.

During the year, the group ceased operations of a major production line attributable to the reportable segment under trading.

Notes to Financial Statements

for the financial year ended September 30, 2015

25. SEGMENT INFORMATION *(continued)*

Information regarding the Group's reporting segments is presented below.

(i) Segment revenue and results

The following is an analysis of the Group's revenue and results by reportable segment:

	Revenue		Profit	
	2015	2014	**2015**	2014
	$'000	$'000	**$'000**	$'000

1. To receive and adopt the Directors' Statement and Financial Statements for the year ended 30 September 2015 and the Auditors' Report thereon.

2. To declare a final dividend of S$0.02 (2014: S$0.0050) per ordinary share for the year ended 30 September 2015.

3. To approve the Directors' Fees of S$150,000/- (2014: S$136,000/-) for the year ended 30 September 2015.

4(a). To re-elect Mr Tan Koon Chwee, the Director retiring pursuant to Article 93 of the Articles of Association of the Company.

4(b). To re-elect Mr Tan Kwong Soon, the Director retiring pursuant to Article 93 of the Articles of Association of the Company.

4(c). To re-elect Mr Tung Chee Weng, the Director retiring pursuant to Article 93 of the Articles of Association of the Company.

5. To re-appoint Messrs Deloitte & Touche LLP as the Company's Auditors and to authorise the Directors to fix their remuneration.

AS SPECIAL BUSINESS

To consider and, if thought fit, pass the following Resolution No. 6 as Ordinary Resolution:

6. "That pursuant to Section 161 of the Companies Act, Cap. 50, authority be and is hereby given to the Directors to:

   (i) (aa) issue shares in the Company ("Shares") whether by way of rights, bonus or otherwise; and/or

   (bb) make or grant offers, agreements or options (collectively, "Instruments") that might or would require Shares to be issued during the continuance of this authority or thereafter, including but not limited to the creation and issue of (as well as adjustments to) warrants, debentures or other instruments convertible into Shares,

   at any time and upon such terms and conditions and for such purposes and to such persons as the directors may, in their absolute discretion, deem fit; and

   (ii) issue Shares in pursuance of any Instrument made or granted by the directors while such authority was in force (notwithstanding that such issue of Shares pursuant to the Instruments may occur after the expiration of the authority contained in this resolution),

   Provided that:

   (iii) the aggregate number of the Shares to be issued pursuant to such authority (including the Shares to be issued in pursuance of Instruments made or granted pursuant to such authority), does not exceed 50% of the total number of issued Shares (as calculated in accordance with paragraph (iv)

Notice of Annual General Meeting

PNE INDUSTRIES LTD (Company Registration No. 199905792R)

below), and provided further that where shareholders of the Company ("Shareholders") are not given the opportunity to participate in the same on a pro-rata basis ("non-pro-rata basis"), then the Shares to be issued under such circumstances (including the Shares to be issued in pursuance of Instruments made or granted pursuant to such authority) shall not exceed 20% of the total number of issued Shares (as calculated in accordance with paragraph (iv) below);

(iv) (subject to such manner of calculation as may be prescribed by the Singapore Exchange Securities Trading Limited (the "SGX-ST")) for the purpose of determining the aggregate number of the Shares that may be issued under paragraph (iii) above, the total number of issued Shares shall be based on the total number of issued Shares of the Company (excluding treasury shares) at the time such authority was conferred, after adjusting for:

(aa) new Shares arising from the conversion or exercise of any convertible securities;

(bb) new Shares arising from exercising share options or the vesting of share awards which are outstanding or subsisting at the time such authority was conferred; and

(cc) any subsequent bonus issue, consolidation or subdivision of the Shares;

and, in relation to an Instrument, the number of Shares shall be taken to be that number as would have been issued had the rights therein been fully exercised or effected on the date of the making or granting of the Instrument; and

(v) (unless revoked or varied by the Company in general meeting), the authority so conferred shall continue in force until the conclusion of the next annual general meeting of the Company or the date by which the next annual general meeting of the Company is required by law to be held whichever is the earlier."

7. To transact any other business.
