7. Looking Ahead

A photograph of a modern architectural structure. The central feature is a large, white, triangular canopy with three prominent, curved, red panels extending downwards, resembling a stylized flower or a sail. The structure is supported by a complex network of white metal beams and glass panels, forming a large, open-air space. The building is surrounded by lush green trees and plants, with a paved walkway visible in the foreground. The sky is bright blue with some light clouds.

Key focus

✓ Proactive portfolio and asset management

✓ Further growth in Singapore with CapitaSpring

- Construction on track for completion in 1H 2021
- Call option⁽¹⁾ to acquire balance 55.0% interest in the commercial component currently not owned by CCT within five years from building's completion

✓ Continue to explore investments in Singapore and overseas ⁽²⁾

✓ Proactive and prudent capital management

Notes:

(1) Exercisable within 5 years after issue of temporary occupation permit (TOP) and price at market value. The purchase price must be higher than a base price calculated as the total development costs incurred by Glory Office Trust (GOT) on the commercial component less any net property income attributable to GOT compounded quarterly at 6.3% p.a..

(2) Develop depth in select gateway cities of developed markets and between 10-20% of investment property value.
