Wipro Achieves AWS Energy Competency Status

NEW YORK | BANGALORE, INDIA – September 01, 2022: Wipro Limited (NYSE: WIT, BSE: 507685, NSE: WIPRO), a leading technology services and consulting company, announced that it has achieved Amazon Web Services (AWS) Energy Competency status. This designation recognizes that Wipro has demonstrated deep expertise helping customers leverage AWS technology to transform complex systems and accelerate the transition to a sustainable energy future.

Achieving the AWS Energy Competency differentiates Wipro as an AWS Partner Network (APN) member with deep expertise and technical proficiency within this unique industry, including proven customer success developing solutions across the value chain, from production operations and optimization, to commodities trading, new energy solutions, and more. To receive the designation, APN members undergo a rigorous technical validation process, including a customer reference audit. The AWS Energy Competency provides energy customers the ability to more easily select skilled partners to help accelerate their digital transformation with confidence. [Read more about the AWS competencies achieved by Wipro and its partnership with AWS here.](#)

“Wipro is proud to achieve the AWS Energy Competency”, said **Sidharth Mishra, Vice President and Global Lead for Energy Domain and Consulting Services, Wipro Limited**. “Our team is dedicated to helping companies achieve their technology goals by leveraging the agility, breadth of services, and pace of innovation that AWS provides.”

AWS is enabling scalable, flexible, and cost-effective solutions from startups to global enterprises. To support the seamless integration and deployment of these solutions, AWS established the [AWS Competency Program](#) to help customers identify AWS Partners with deep industry experience and expertise.

AWS and Wipro’s energy domain and consulting practice have framed a Refinery Monitoring & Surveillance (RMS) solution. Wipro, as a global system integrator deployment partner, will help energy companies centralize real-time data management systems in the cloud as an initial offering. Wipro will also integrate AWS’s RMS solution to help companies address key challenges in refining operations.

About Wipro Limited

Wipro Limited (NYSE: WIT, BSE: 507685, NSE: WIPRO) is a leading technology services and consulting company focused on building innovative solutions that address clients’ most complex digital transformation needs. Forward-Looking Statements

The forward-looking statements contained herein represent Wipro's beliefs regarding future events, many of which are by their nature, inherently uncertain and outside Wipro's control. Such statements include, but are not limited to, statements regarding Wipro's growth prospects, its future financial operating results, and its plans, expectations and intentions. Wipro cautions readers that the forward-looking statements contained herein are subject to risks and uncertainties that could cause actual results to differ materially from the results anticipated by such statements. Such risks and uncertainties include, but are not limited to, risks and uncertainties regarding fluctuations in our earnings, revenue and profits, our ability to generate and manage growth, complete proposed corporate actions, intense competition in IT services, our ability to maintain our cost advantage, wage increases in India, our ability to attract and retain highly skilled professionals, time and cost overruns on fixed-price, fixed-time frame contracts, client concentration, restrictions on immigration, our ability to manage our international operations, reduced demand for technology in our key focus areas, disruptions in telecommunication networks, our ability to successfully complete and integrate potential acquisitions, liability for damages on our service contracts, the success of the companies in which we make strategic investments, withdrawal of fiscal governmental incentives, political instability, war, legal restrictions on raising capital or acquiring companies outside India, unauthorized use of our intellectual property and general economic conditions affecting our business and industry.

Additional risks that could affect our future operating results are more fully described in our filings with the United States Securities and Exchange Commission, including, but not limited to, Annual Reports on Form 20-F. These filings are available at www.sec.gov. We may, from time to time, make additional written and oral forward-looking statements, including statements contained in the company's filings with the Securities and Exchange Commission and our reports to shareholders. We do not undertake to update any forward-looking statement that may be made from time to time by us or on our behalf.
