10 SEPTEMBER 2026 CIMIC'S LEIGHTON ASIA AWARDED A DATA CENTRE PROJECT IN INDIA

CIMIC Group company Leighton Asia has been awarded a contract by a multinational technology corporation to construct a data centre in Hyderabad, India.

The award continues the company's expansion in the fast-growing digital infrastructure sector across Asia.

The project will be delivered in joint venture with Sterling and Wilson.

CIMIC Group President and Executive Director Roberto Gallardo said:

"This award reflects the confidence clients have in Leighton Asia's ability to deliver complex projects safely and reliably.

"We're seeing strong demand for high-quality digital infrastructure across key Asian markets, and this project further strengthens our presence in a sector where we have proven capability and a strong track record."

Leighton Asia Managing Director Brad Davey said:

"We've built a strong relationship with this client through successful project delivery, and we're pleased to continue that partnership.

"Data centres require a high degree of planning, coordination and technical expertise. Together with Sterling and Wilson, we're focused on delivering a facility that meets the client's requirements and supports their long-term growth in India."

Construction is scheduled to commence immediately.
