Total non-interest income grew 5.0\% year-on-year to $\$ 1.40$ billion. Fee and commission income was $7.3 \%$ lower at $\$ 824$ million. The decrease was attributed to lower loan-related, corporate finance and fund management fees as 1 H 13 included some large deals.

Operating expenses increased $8.5 \%$ year-on-year to $\$ 1.54$ billion in 1 H 14 . Staff costs rose $8.6 \%$ to $\$ 911$ million as the Group continued to invest in talent across Singapore and the region to support its business franchise. With income growth outpacing expense growth, expense-to-income ratio improved to $42.4 \%$ in 1 H 14 from $42.9 \%$ in 1 H 13 .

Total impairment charges rose $49.7 \%$ over 1 H 13 to $\$ 307$ million due to higher individual impairment as well as collective impairment set aside for loan growth. Total loan charge off rate was maintained at 32 basis points.

Share of associates' profits for 1 H 14 were $44.7 \%$ lower than 1 H 13 at $\$ 69$ million as some associates realised higher gains on investments in 1 H 13 .

## Second quarter 2014 ("2Q14") performance

Fee and commission income for 2 Q14 was relatively flat at $\$ 410$ million when compared with 1 Q14. It was $6.0 \%$ lower from a year ago due to lower wealth management, fund management and loan-related fees.

## Performance by Operating Segment

The Group is organised to be segment－led across key markets．Global segment heads are responsible for driving business，with decision－making balanced with a geographical perspective．For internal management purposes，the following segments represent the key customer segments and business activities：

## Group Retail（＂GR＂）

GR segment covers Consumer，Privilege，Business and Private Banking．Consumer Banking serves the individual customers，while Business Banking serves small enterprises with a wide range of products and services，including deposits，loans，investments，credit and debit cards and insurance products．Privilege Banking provides an extended range of financial services，including wealth management，and restricted products such as structured notes，funds of hedge funds，and insurance plans to the wealthy and affluent customers．Private Banking caters to the high net worth individuals and accredited investors，offering financial and portfolio planning，including investment management，asset management and estate planning．

Segment profit increased $6.7 \%$ to $\$ 609$ million in 1 H 14 ，mainly driven by higher net interest income as well as higher non－interest income from credit cards．The increase was partly negated by higher business volume－related costs．

## Group Wholesale Banking（＂GWB＂）

GWB segment encompasses Commercial Banking，Corporate Banking，Financial Institutions Group（＂FIG＂），Corporate Finance and Debt Capital Markets．Commercial Banking serves the medium and large enterprises，while Corporate Banking serves large local corporations，government－linked companies and agencies，and FIG serves financial institutions．Commercial Banking，Corporate Banking and FIG provide customers with a broad range of products and services that include current accounts，deposits，lending，asset finance，ship finance，trade finance，structured finance， cash management and cross－border payments．Corporate Finance provides services that include lead managing and underwriting equity offerings and corporate advisory services．Debt Capital Markets specialises in solution－based structures to meet clients＇financing requirements in structuring，underwriting and arranging syndicated loans for general corporate needs，leveraged buy－outs，project and structured finance，and underwriting and lead managing bond issues．

Segment profit grew $2.0 \%$ to $\$ 1,063$ million in 1 H 14 ，supported by higher net interest income．The growth was partly negated by lower fee and commission income from loan－related activities，higher impairment charges and higher operating expenses．Higher operating expenses were resulted from the continued investment in product capabilities and hiring of new talents as the business expanded regionally．

## Global Markets and Investment Management（＂GMIM＂）

GMIM segment provides a comprehensive range of global markets products and services，including foreign exchange， money market，fixed income，derivatives，margin trading，futures broking，precious metals products，as well as an array of structured products．It is a dominant player in Singapore dollar instruments as well as a provider of banknote services in the region．It also engages in asset management，proprietary investment activities and management of excess liquidity and capital funds．Income from global markets products and services offered to customers of other operating segments，such as Group Retail and Group Wholesale Banking，is reflected in the respective customer segments．

Segment profit increased $7.0 \%$ to $\$ 243$ million in 1 H 14 ，mainly attributed to higher gain on investment securities．The increase was partly negated by lower income from Global Markets activities，lower fee income from fund management activities and higher impairment charges on investment securities．

## Others

Others include property－related activities，insurance businesses and income and expenses not attributable to other operating segments mentioned above．

Other segment recorded a loss of $\$ 58$ million in 1 H 14 ，as compared to a loss of $\$ 27$ million in 1 H 13 ，mainly due to lower associates＇profits．

The Group＇s CET1，Tier 1 and Total CAR as at 30 June 2014 were well above the regulatory minimum requirements．

Compared to the previous quarter，the Total CAR was slightly higher，largely attributed to second quarter＇s net profit and the issuance of S\＄500 million subordinated notes in May 2014，partially offset by the higher credit RWA arising from loan growth．

Compared to a year ago，the improvement in capital ratios was mainly attributed to retained earnings and the issuance of Basel III－compliant instruments，partially offset by higher RWA resulting from asset growth．
