REASONS FOR THE CONVERTIBLE BOND ISSUE AND USE OF PROCEEDS

The Directors consider raising funds by issuing the Convertible Bond is justifiable considering the recent market conditions which represent an opportunity for the Group to enhance its working capital and strengthen its financial position for financing the expansion of the natural gas business. The Directors also consider that the issue of the Convertible Bond is an appropriate means of raising additional capital for the Group since it will not

have an immediate dilution effect on the shareholding of the existing Shareholders and if the Conversion Right is exercised, the shareholder base of the Company will be broadened. It also signifies the confidence of the Subscriber which is an internationally renowned investment fund in the market, in the potential of the Company and demonstrates their willingness to support the Company.

The Directors consider that the terms of the Convertible Bond Subscription Agreement, which were arrived at after arm's length negotiations between the Company and the Subscriber, are fair and reasonable and are in the interests of the Company and the Shareholder as a whole.
