#### 5 Accounting Policies and Comparative Figures

The financial statements are prepared in accordance with Singapore Financial Reporting Standards ("FRSs").

In the current financial period, the Group has adopted all the new and revised FRSs and Interpretations of FRS ("INT FRS") that are relevant to its operations and effective for annual periods beginning on or after 1 January 2016. The adoption of these new/ revised FRSs and INT FRSs does not result in changes to the Group's and Company's accounting policies and has no material effect on the amounts reported for the current or prior years.

The accounting policies and methods of computation adopted in the financial statements are consistent with those applied in the financial statements for the year ended 31 December 2015.

#### 6 Review of Performance

Total loans and advances declined marginally by 0.2% or \$3 million from \$1,969.4 million as at 31 December 2015 to \$1,966.4 million as at 31 March 2016. This was an increase of 8.1% or \$147.6 million over the loan base of \$1,818.8 million as at 31 March 2015.

Interest income and hiring charges rose 34% or \$4.6 million compared to the same period last year, driven mainly by higher loan volume. However, this was partially offset by an increase of 63.7% or \$3.6 million in interest expense from a higher deposit base and rates, resulting in an increase of 13.4% or \$1.1 million in the net interest income and hiring charges. Operating expenses increased by 7.5% or \$0.4 million, mainly from higher staff costs and business expenses incurred to support the increase in business activities.

Profit from operations before impairment losses rose by 15% or \$0.7 million compared to the same period last year. However, the increase was more than offset by a 59.8% or \$0.8 million increase in allowances for impairment losses as higher provision was made for individual impairment. The Group continues to maintain adequate individual and collective impairment allowances in respect of its loan portfolio.

With the additional loan provisions, the Group's profit after tax contracted by 3.6% or \$0.1 million compared to the same period last year.

Other Comprehensive Income for the first quarter of 2016 was \$10.1 million as against a loss of \$0.5 million for the same period last year. This was due to an increase in the fair value of available-for-sale financial assets mainly from revaluation of Singapore Government Securities ("SGS"). The bond market has improved from last year as the US Federal Reserve is now adopting a cautious and gradual approach to interest rate hikes in view of the global economic slowdown. The Group purchases SGS as part of its liquid assets for purpose of maintaining the minimum liquid assets required under the Finance Companies' Act.

In the opinion of the Directors, no item, transaction or event of a material and unusual nature has arisen which is likely to affect substantially the results of the operations of the Group and the Company in the interval between the end of financial year and the date of this report.

#### 7 Comments on Significant Trends and Competitive Conditions in the Industry

According to the Ministry of Trade and Industry's advance GDP estimates on 14 April 2016, the Singapore economy grew by 1.8% on a year-on-year basis in the first quarter of 2016, the same pace of growth as in the previous quarter. Growth was flat on a quarter-on-quarter seasonally-adjusted annualised basis, in contrast to the 6.2% expansion in the preceding quarter.

Growth was supported by the robust expansion in the construction sector, which grew by 6.2% year-on-year in the first quarter, an improvement from the 4.9% growth recorded in the preceding quarter.

Meanwhile, the manufacturing sector contracted by 2.0% following the 6.7% decline in the preceding quarter. The sector was primarily weighed down by a decline in the output of the transport engineering, precision engineering and electronics clusters. Growth in the services producing industries moderated to 1.9%, easing from the 2.8% in the preceding period. The growth was supported mainly by the wholesale & retail trade and finance & insurance sectors.

With the uncertain economic outlook, the volatility of the interest rate environment and the continued impact of the cooling measures leading to weak loan demand, the Group will continue to be prudent in growing its loan portfolio. We will continue to manage our business risk and operational costs to remain competitive.
