### **2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

#### **2.1 BASIS OF PREPARATION**

The condensed interim consolidated financial statements for the six months and full year ended 31 December 2024 have been prepared in accordance with Singapore Financial Reporting Standards (International) (“SFRS(I)”) 1-34 Interim Financial Reporting issued by the Accounting Standards Council Singapore. The condensed interim consolidated financial statements do not include all the information required for a complete set of financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group’s financial position and performance of the Group since the last annual financial statements for the year ended 31 December 2023.

The condensed interim consolidated financial statements are presented in Renminbi (“RMB”) and all amounts have been rounded to the nearest thousand (“RMB’000”), unless otherwise stated.

The accounting policies and method of computations used in the condensed interim consolidated financial statements are consistent with those of the previous financial year which were prepared in accordance with SFRS(I)s, except for the adoption of new and amended standards as set out in Note 2.2.

#### **2.2 New and amended Standards adopted by the Group**

A number of amendments to Standards have become applicable for the current reporting period. The Group did not have to change its accounting policies or make retrospective adjustments as a result of adopting those standards.

#### **2.3 Use of judgment and estimates**

In preparing the condensed interim consolidated financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

The significant judgements made by management in applying the Group’s accounting policies and the key sources of estimation uncertainty were the same as those that applied to the annual financial statements as at and for the year ended 31 December 2023, including:

- Determination of functional currency
- Depreciation of property, plant and equipment
- Inventory valuation method
- Impairment of property, plant and equipment and land use rights
- Estimated fair value of investment property
- Measurement of ECL of trade and other receivables
- Measurement of prepayments
- Impairment of investment in subsidiaries
- Provision for income taxes

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

### 3 SEASONAL OPERATIONS

The Group's businesses are not affected significantly by seasonal or cyclical factors.

### 4 SEGMENT INFORMATION AND REVENUE

For management purposes, the Group is organised into business units based on their products and services, and has four reportable operating segments as follows:

(i) **Zippers**

This operating segment is further sub-divided into 2 sub-segments as follows:

(a) **Zipper Chains**

The zipper chain consists of 2 strips of fabric tapes, with parallel rows of specially shaped nylon, metal or plastic teeth, as the case may be, either weaved on or punched onto adjacent edges of a fabric tape, thereby interlocking with each other to provide a firm grip and resulting in a zipper chain.

(b) **Zipper Sliders**

The zipper slider consists of a zinc zipper head and zipper pull tab which is subsequently affixed on the zipper chain, such that it moves along the rows of teeth, allowing the teeth to be fastened or separated, depending on the direction of the movement.

(ii) **Processing**

Processing represents colour dyeing of fabric tapes for zippers, electroplating services for zipper sliders and manufacturing and sales of dyed yarn.

(iii) **Trading**

The trading segment represents trading of raw materials, including rubber thread, nylon fabric and nylon yarn.

(iv) **Corporate**

The corporate segment is involved in Group-level corporate services and treasury functions.

Except as indicated above, no operating segments have been aggregated to form the above reportable operating segments.

## E. NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

### 4. SEGMENT INFORMATION AND REVENUE (CONTINUED)

Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss which in certain respects, as explained in the table below, is measured differently from operating profit or loss in the condensed interim consolidated financial statements.

Segment assets and liabilities are not disclosed as such separate financial information is not available but is evaluated regularly by the chief operating decision-maker in deciding how to allocate resources to the operating segments.

Transfer prices between operating segments are on an arm's length basis in a manner similar to transactions with third parties.

## **FY2024 vs. FY2023**

### **Revenue**

The Group's revenue decreased by RMB25.9 million (or 3%) to RMB735.9 million. The decrease was due to decrease in the sales of the Trading segment (RMB94.3 million) and Processing segment (RMB1.2 million), partially offset by the increase in the Zipper segment (RMB69.6 million).

The inter-segment sales elimination represented the dyeing and electroplating services provided by the Processing segment to the Zipper segment.

The increase in revenue from the Zipper segment for FY2024 was mainly attributable to the efforts expended by the sales department which successfully expanded the customer base, and also the improvement of product quality after automation.

The Group's Trading segment relates to the sourcing and buying of certain raw materials (such as rubber thread, nylon fabric and nylon yard) in accordance with customers' requirements. The profit margin and all purchases were based on confirmed sales. As such, the sales volume and profit margin are dependent on customers' demand. The decrease in revenue from the Trading segment was mainly due to the decrease in sales volume during FY2024 as a result of reduced demand.
