E. Notes to the Condensed Interim Financial Statements

1. Corporate Information

Sin Heng Heavy Machinery Limited (the "Company") is incorporated and domiciled in Singapore and whose shares are publicly traded on the Mainboard of the Singapore Exchange. These condensed interim financial statements as at and for the six months ended 30 June 2023 comprise the Company and its subsidiaries (collectively, the "**Group**").

The primary activities of the Company are those of hiring and dealing in cranes and heavy machinery and provision of facilities and custody services.

2. Basis of Preparation

2.1. Statement of compliance

The condensed interim financial statements for the six months ended 30 June 2023 have been prepared in accordance with Singapore Financial Reporting Standards (International) ("SFRS(I)") 1-34 Interim Financial Reporting issued by the Accounting Standards Council Singapore. The condensed financial statements do not include all the information required for a complete set of financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group's financial position and the performance of the Group since the last financial statements for the year ended 31 December 2022.

The Group has applied accounting policies and methods of computation in the financial statements for the current reporting period consistent with those of the audited financial statements for the year ended 31 December 2022.

In the current financial period, the Group has adopted all the new and revised SFRS(I) that are relevant to its operations and effective for annual periods beginning on 1 January 2023. The Group did not have to change its accounting policy or make retrospective adjustments as a result of adopting these standards.

The condensed financial statements are expressed in Singapore dollars which is the Company's functional currency.

2.2. Basis of measurement

The condensed financial statements have been prepared on the historical cost basis except as otherwise described in the notes below.

The condensed financial statements have been prepared on a going concern basis, since the directors have verified that there are no financial, operating or other types of indicators that might cast significant doubt upon the Group's ability to meet its obligations in the foreseeable future and particularly within the 12 months from the end of the reporting period.

2.3. Uses of estimates and judgements

The preparation of the condensed financial statements in conformity with SFRS(I) requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

The significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements as at and for the year ended 31 December 2022.

E. Notes to the Condensed Interim Financial Statements (cont'd)

2. Basis of Preparation (cont'd)

2.3. Uses of estimates and judgements (cont'd)

(a) Critical judgements in applying the entity's accounting policies

Management is of the opinion that there are no critical judgements involved that have a significant effect on the amounts recognised in the financial statements, except for those involving estimation uncertainties.

(b) Key sources of estimation uncertainty

The key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of asset and liabilities within the next financial year, are discussed below:

Impairment of cranes and aerial lifts classified as property, plant and equipment

Where there are indications of impairment of its cranes and aerial lifts classified as property, plant and equipment, the management estimates the recoverable amounts of these assets to determine the extent of the impairment loss, if any. The recoverable amounts of these assets are determined based on value-in-use calculations which require the use of key estimates such as rental rates and utilisation rates.

Allowance for inventories

In determining the net realisable value of the cranes and aerial lifts classified as inventories, an estimation of the recoverable amount of inventories on hand is performed by management based on the most reliable evidence available at the time the estimates are made. Management judgement regarding future market and economic conditions is involved in determining the net realisable value of inventories.

Allowance for trade receivables

Management judgement is required in assessing the ultimate realisation of the trade receivables. This involves an assessment of the Group's historical loss rates and estimates of expected future loss rates, management's assessment of forward looking macro-economic factors and the eventual expected credit losses in accordance with SFRS(I) 9 *Financial Instruments*.

3. Segment and Revenue Information

For the purpose of the resource allocation and assessment of segment performance, the Group's chief operating decision maker has focused on the business operating units which in turn, are segregated based on their goods and services. This forms the basis of identifying the operating segments of the Group under SFRS(I) 8 *Operating segments* as follows:

Operating segments are segregated into a single reportable operating segment if they have similar economic characteristics, such as long-term average gross margins, and are similar in respect of nature of services and processes, type of customers, methods of distribution, and/or their reported revenue, absolute amount of profit or loss and assets are not material to the consolidated totals of all operating segments.

The Group's reportable operating segments are as follows:

- Segment 1: Equipment Rental
- Segment 2: Trading

E. Notes to the Condensed Interim Financial Statements (cont'd)

3. Segment and Revenue Information (cont'd)

Segment revenue represents revenue generated from external customers. Segment profits represents the profit earned by each segment after allocating selling expenses. This is the measure reported to the chief operating decision maker for the purpose of resource allocation and assessment of segment performance.

3. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results

There was no forecast, or any prospect statement previously disclosed to shareholders.

4. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the Group operated and any known factors or events that may affect the Group in the next operating period and the next 12 months

In Singapore, the Group is cautiously optimistic about the business operations due to the ongoing support from the construction of Singapore's MRT lines and other infrastructure projects.

The Malaysia market remains challenging due to the continued weakness in the Malaysia infrastructure build out and the weakening of its currency. In view of these challenges, the Group is evaluating the strategies of our rental operations. Hence, the Group will continue to streamline and adapt our operations in line to the market conditions.

In view of the current uncertain operating environment in Myanmar since the military coup in February 2021, the Group had re-deployed its remaining rental fleet from Myanmar to Singapore. Accordingly, the Group will exit the Myanmar market.

Amidst the inflationary cost environment, volatile foreign exchange and high interest rate situation, the Group will continue to be prudent with its cash management. Notwithstanding that, the Group will remain open to explore other potential business opportunities that align with its long-term strategies.
