CIMIC'S UGL AWARDED FIBRE UPGRADE WORKS WITH NBN CO

UGL has been awarded a 3.5-year contract by NBN Co under nbn's program to upgrade the remaining Fibre to the Node network.

Under the contract, UGL will provide design, access and engagement, construction and installation services to deploy additional fibre infrastructure to premises across Queensland and Northern New South Wales.

The contract is expected to generate revenue for UGL of more than \$120 million over the initial term. The contract includes a 2-year extension option, at nbn's election.

CIMIC Group Executive Chairman Juan Santamaría said: "Access to fast broadband and connectivity is crucial to support the increasing number of connected devices across metro, regional and rural Australia. We are pleased to work with nbn to deliver robust digital infrastructure for Australians."

UGL Managing Director Doug Moss said: "UGL is committed to delivering cutting-edge technology and enhancing service accessibility for consumers across Australia. We are thrilled that nbn has entrusted us to continue to support this digital transformation, shaping the future of the nation's digital capability."

Work is expected to commence in June 2025.
