SP CORPORATION LIMITED AND ITS SUBSIDIARIES

DIRECTORS' STATEMENT

for the financial year ended 31 December 2017

The Directors of the Company present their statement together with the audited consolidated financial statements of the Group and statement of financial position and statement of changes in equity of the Company for the financial year ended 31 December 2017.

In the opinion of the Directors:

- (a) the consolidated financial statements of the Group and the statement of financial position and statement of changes in equity of the Company as set out on pages 12 to 73 are drawn up so as to give a true and fair view of the financial position of the Group and the Company as at 31 December 2017, and the financial performance, changes in equity and cash flows of the Group and changes in equity of the Company for the financial year then ended; and
- (b) at the date of this statement, there are reasonable grounds to believe that the Company will be able to pay its debts when they fall due.

1 DIRECTORS

The Directors of the Company in office at the date of this statement are as follows:

Mr Peter Sung (Chairman)
Mr Boediman Gozali (alias Tony Wu) (Managing Director and Chief Executive Officer)
Mr Cheng Hong Kok
Mr Chong Chou Yuen
Mr William Nursalim alias William Liem
Mr Tan Lye Huat

2 ARRANGEMENTS TO ENABLE DIRECTORS TO ACQUIRE BENEFITS BY MEANS OF THE ACQUISITION OF SHARES AND DEBENTURES

Neither at the end of the financial year nor at any time during the financial year was the Company a party to any arrangement whose object is to enable the Directors of the Company to acquire benefits by means of the acquisition of shares or debentures of the Company or any other body corporate.

3 DIRECTORS' INTERESTS IN SHARES AND DEBENTURES

The Directors of the Company holding office at the end of the financial year had no interests in the share capital and debentures of the Company or of related corporations as recorded in the Register of Directors' Shareholdings kept by the Company for the purposes of Section 164 of the Singapore Companies Act, Chapter 50 (the "Act") except as follows:

There was no change in any of the above-mentioned Directors' interests between the end of the financial year and 21 January 2018.

4 SHARE OPTIONS

During the financial year, there were no options granted to take up unissued shares of the Company or any corporation in the Group.

SP CORPORATION LIMITED AND ITS SUBSIDIARIES

DIRECTORS' STATEMENT

for the financial year ended 31 December 2017

4 SHARE OPTIONS (cont'd)

During the financial year, there were no shares of the Company or any corporation in the Group issued by virtue of the exercise of an option to take up unissued shares.

At the end of the financial year, there were no unissued shares of the Company or any corporation in the Group under option.

5 AUDIT AND RISK COMMITTEE

The Audit and Risk Committee of the Company consists of three non-executive Directors, two of whom are independent Directors. At the date of this statement, the members of the Audit and Risk Committee are:

Mr Cheng Hong Kok (Chairman)	(Independent and Non-Executive)
Mr Chong Chou Yuen	(Non-Independent and Non-Executive)
Mr Tan Lye Huat	(Independent and Non-Executive)

The Audit and Risk Committee performed the functions specified in Section 201B(5) of the Act, the SGX-ST Listing Manual and the Singapore Code of Corporate Governance.

The Audit and Risk Committee has met four times during the financial year ended 31 December 2017 and had reviewed, inter alia, the following, with the executive Director, external and internal auditors of the Company, where relevant:

- (a) the audit plans of the internal and external auditors, the scope of the internal audit procedures and results of the internal auditors' examination and evaluation of the Group's systems of internal accounting controls;
- (b) the Group's financial and operating results and accounting policies;
- (c) the consolidated financial statements of the Group, the statement of financial position and statement of changes in equity of the Company before their submission to the Directors of the Company and the external auditors' report on those financial statements;
- (d) the quarterly, half-yearly and annual announcements on the results and financial position of the Company and the Group;
- (e) the interested person transactions as specified under Chapter 9 of the SGX-ST Listing Manual Rules;

SP CORPORATION LIMITED AND ITS SUBSIDIARIES

DIRECTORS' STATEMENT

for the financial year ended 31 December 2017

5 AUDIT AND RISK COMMITTEE (cont'd)

- (f) the co-operation and assistance given by management to the Group's external and internal auditors; and
- (g) the re-appointment of the external and internal auditors of the Group.

The Audit and Risk Committee has full access to and has the co-operation of management and has been given the resources required for it to discharge its functions properly. It also has full discretion to invite any Director and executive officer to attend its meetings. The external and internal auditors have unrestricted access to the Audit and Risk Committee.

The Audit and Risk Committee has recommended to the Directors the nomination of Deloitte & Touche LLP for re-appointment as the external auditors of the Group at the forthcoming Annual General Meeting of the Company.

6 EXTERNAL AUDITORS

Deloitte & Touche LLP have expressed their willingness to accept re-appointment.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF SP CORPORATION LIMITED

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of SP Corporation Limited (the "Company") and its subsidiaries (the "Group"), which comprise the consolidated statement of financial position of the Group and the statement of financial position of the Company as at 31 December 2017, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows of the Group and the statement of changes in equity of the Company for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, as set out on pages 12 to 73.

In our opinion, the accompanying consolidated financial statements of the Group and the statement of financial position and statement of changes in equity of the Company are properly drawn up in accordance with the provisions of the Companies Act, Chapter 50 (the "Act") and Financial Reporting Standards in Singapore ("FRS") so as to give a true and fair view of the consolidated financial position of the Group and the financial position of the Company as at 31 December 2017 and of the consolidated financial performance, consolidated changes in equity and consolidated cash flows of the Group and of the changes in equity of the Company for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with Singapore Standards on Auditing ("SSAs"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Group in accordance with the Accounting and Corporate Regulatory Authority ("ACRA") Code of *Professional Conduct and Ethics for Public Accountants and Accounting Entities* ("ACRA Code") together with the ethical requirements that are relevant to our audit of the financial statements in Singapore, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF SP CORPORATION LIMITED

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current year. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matters

How the audit matter was addressed in the audit

Recoverability of refundable trade deposit

Management assesses at the end of the reporting period whether there is any evidence that the refundable trade deposit of US\$6,000,000 (equivalent to \$8,073,000) provided to a related party to secure coal allocations is impaired.

Management monitors and takes into consideration the following in their assessment on recoverability of the refundable trade deposit:

- the related party's past payment history to the Group;
- ongoing dealings with the related party;
- latest management accounts and/or audited financial statements of the related party;
- management's relationships and discussion with management of the related party on their coal mine's operation; and
- revised terms as agreed in the latest coal allocation agreement with the related party.

The Group's disclosure of the above significant estimates is provided in Note 3 to the financial statements, and further information related to the refundable trade deposit is provided in Note 8.

Our audit procedures focused on evaluating and challenging the key estimates used by management in assessing the recoverability of the refundable trade deposit. These procedures include:

- obtaining an understanding of the key controls and processes that management and the directors have in place to assess the recoverability of the refundable trade deposit and ensured that they have been adhered to;
- reviewing the agreements for the arrangement on the refundable trade deposit, including the latest revised agreement that has been signed subsequent to the year end; and
- challenging management's assessment of the recoverability of the amount as at the reporting date, including the assessment by management on the related party's financial position and performance, and its historical payment cycles.

We have also assessed and validated the adequacy and appropriateness of the disclosures made in the financial statements.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF SP CORPORATION LIMITED

Key Audit Matters

How the audit matter was addressed in the audit

The Group's aged trade receivables

There is a risk that the Group's aged trade receivables which are past due but not impaired may not be recoverable and allowance for doubtful receivables may not be adequate or reasonable.

Management monitors and assesses the Group's credit risk, and where required, adjust the level of impairment allowance, which requires management to make significant judgements regarding the expected future financial condition and the ability of future receipts from the debtors, especially where the debts are aged or overdue for more than 3 months.

Inappropriate judgement and estimates made in the impairment assessment would result in a significant impact on the carrying amount of the trade receivables.

Disclosure on the above key estimates has been made in Note 3 to the financial statements, and further information related to the aged trade receivables is provided in Note 9.

We have evaluated and challenged management's assessment of the recoverability of the Group's aged trade receivables which are past due but not impaired as at the reporting date, including the assessment of any allowance to be made by the Group in respect of overdue debts.

We enquired with management on the reasons for the delay in payments on certain aged trade receivables and the appropriateness of any allowance for doubtful debts to be made, by considering amongst others, factors such as subsequent cash receipts, past payment practices, the ongoing business relationship with the debtors involved or where relevant, repayment schedule as agreed with the debtors.

We have also assessed and validated the adequacy and appropriateness of the disclosures made in the financial statements.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF SP CORPORATION LIMITED

Key Audit Matters

How the audit matter was addressed in the audit

Identification of related party transactions

The Group is part of another listed group, and accordingly, there are various related parties that need to be identified and transactions with these related parties to be monitored. The Group has significant transactions with its related parties and there is a risk that the related parties may inadvertently be omitted, and as such, the Group's identification of the related party and disclosure of its transactions may be incomplete.

The related party transactions have been disclosed in Note 25 to the financial statements.

Our audit procedures included the following:

- We have assessed and evaluated the design and implementation of the Group's policies and procedures in respect of the identification of related parties and recording of related party transactions.
- We performed background checks on certain customers and suppliers to evaluate the completeness of the related parties identified by management.
- We obtained a list of related parties from management and ensured all transactions and balances with those entities have been appropriately disclosed in the financial statements. We have independently requested and obtained confirmation replies from these related parties to confirm the balances at 31 December 2017, and transactions for the year then ended.
- We also considered the completeness of the disclosure of related party transactions through review of statutory information, books and records and minutes, and assessed the disclosures for accuracy against information obtained in our audit.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF

SP CORPORATION LIMITED

Information Other than the Financial Statements and Auditor's Report Thereon

Management is responsible for the other information. The other information comprises the Chairman's Statement, CEO's Operations Review, Five-Year Financial Summary, Corporate Governance Report, Directors' Statement, SGX-ST Listing Manual Requirements, Risk Management Statement, Sustainability Report, Corporate Directory and General Information but does not include the financial statements and our auditor's report thereon, which we obtained prior to the date of this auditor's report, and the Shareholding Statistics, which is expected to be made available to us after that date.

Our opinion on the financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we read the Shareholding Statistics, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate actions in accordance with SSAs.

Responsibilities of Management and Directors for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the provisions of the Act and FRS, and for devising and maintaining a system of internal accounting controls sufficient to provide a reasonable assurance that assets are safeguarded against loss from unauthorised use or disposition; and transactions are properly authorised and that they are recorded as necessary to permit the preparation of true and fair financial statements and to maintain accountability of assets.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The Directors' responsibilities include overseeing the Group's financial reporting process.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF SP CORPORATION LIMITED

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities and business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF SP CORPORATION LIMITED

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

In our opinion, the accounting and other records required by the Act to be kept by the Company and by those subsidiary corporations incorporated in Singapore of which we are the auditors have been properly kept in accordance with the provisions of the Act.

The engagement partner on the audit resulting in this independent auditor's report is Mr Yang Chi Chih.

SP CORPORATION LIMITED AND ITS SUBSIDIARIES

NOTES TO FINANCIAL STATEMENTS

31 December 2017

1 GENERAL

SP Corporation Limited (the "Company") (Registration No. 195200115K) is domiciled and incorporated in Singapore with its registered office at 9 Oxley Rise, #03-02 The Oxley, Singapore 238697 and principal place of business at 6 Shenton Way, OUE Downtown 1, #41-03, Singapore 068809. The Company is listed on the Singapore Exchange Securities Trading Limited ("SGX-ST"). The financial statements are expressed in Singapore dollars which is also the functional currency of the Company.

The immediate holding company is Tuan Sing Holdings Limited, a company incorporated in Singapore and listed on the SGX-ST. Tuan Sing's major shareholder is Nuri Holdings (S) Pte Ltd ("Nuri"), incorporated in Singapore. Related companies in these financial statements refer to members of the immediate holding company's group of companies.

The principal activity of the Company is that of investment holding, which includes the provision of management services to related companies. The principal activities of the subsidiaries are set out in Note 29 to the financial statements.

The consolidated financial statements of the Company and its subsidiaries (the "Group") and statement of financial position and statement of changes in equity of the Company for the financial year ended 31 December 2017 were authorised for issuance in accordance with a resolution of the Directors on 25 January 2018.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) BASIS OF ACCOUNTING

The financial statements have been prepared in accordance with the historical cost basis, except as disclosed in the accounting policies below, and are drawn up in accordance with the provisions of the Singapore Companies Act and Singapore Financial Reporting Standards (International) ("SFRS(I)").

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability which market participants would take into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of FRS 102 *Share-based Payment*, leasing transactions that are within the scope of FRS 17 *Leases*, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in FRS 2 *Inventories* or value in use in FRS 36 *Impairment of Assets*.

31 December 2017

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

(a) BASIS OF ACCOUNTING (cont'd)

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

(b) ADOPTION OF NEW AND REVISED STANDARDS

On 1 January 2017, the Group adopted all the new and revised FRS and Interpretations of FRS ("INT FRS") that are effective from that date and are relevant to its operations. The adoption of these new/revised FRS and INT FRS does not result in changes to the Group's and the Company's accounting policies and has no material effect on the amounts reported for the current or prior financial years.

Convergence to the International Financial Reporting Standards ("IFRS") in 2018

Singapore-incorporated companies listed on the Singapore Exchange ("SGX") will be required to apply a new Singapore financial reporting framework, the Singapore Financial Reporting Standards (International) ("SFRS(I)"), that is identical to the International Financial Reporting Standards ("IFRS") for annual periods beginning on or after 1 January 2018. The Group will be adopting SFRS(I) for the first time for the financial year ending 31 December 2018.

Management has completed their assessment of the potential impact arising from SFRS(I) 1 *First-time adoption of SFRS(I)*, and has concluded that there are no changes to the Group's current accounting policies or material adjustments required on transition to the new framework.

SP CORPORATION LIMITED AND ITS SUBSIDIARIES

NOTES TO FINANCIAL STATEMENTS

31 December 2017

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

New SFRS(I) and SFRS(I) INT yet to be adopted

At the date of authorisation of these financial statements, the following SFRS(I), SFRS(I) INT and amendments to SFRS(I) that are relevant to the Group and the Company were issued but not effective:

- SFRS(I) 9 *Financial Instruments*¹
- SFRS(I) 15 *Revenue from Contracts with Customers (with clarifications issued)*¹
- SFRS(I) 16 *Leases*²

¹ Applies to annual periods beginning on or after 1 January 2018, with early application permitted.

² Applies to annual periods beginning on or after 1 January 2019, with early application permitted if SFRS(I) 15 is adopted.

Consequential amendments were also made to various standards as a result of these new/revised standards.

Management anticipates that the adoption of the above SFRS(I), SFRS(I) INT and amendments to SFRS(I) in future periods will not have a material impact on the financial statements of the Group and of the Company in the period of their initial adoption except for the following:

SFRS(I) 9 Financial Instruments

SFRS(I) 9 was issued in December 2017, and introduced new requirements for (i) the classification and measurement of financial assets and financial liabilities (ii) general hedge accounting (iii) impairment requirements for financial assets.

Key requirements of SFRS(I) 9:

- All recognised financial assets that are within the scope of FRS 39 *Financial Instruments: Recognition and Measurement* ("FRS 39") are now required to be subsequently measured at amortised cost or fair value through profit or loss ("FVTPL"). Specifically, debt investments that are held within a business model whose objective is to collect the contractual cash flows, and that have contractual cash flows that are solely payments of principal and interest on the principal outstanding are generally measured at amortised cost at the end of subsequent accounting periods. Debt instruments that are held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets, and that have contractual terms that give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding, are measured at fair value through other comprehensive income ("FVTOCI"). All other debt investments and equity investments are measured at FVTPL at the end of subsequent accounting periods. In addition, under SFRS(I) 9, entities may make an irrevocable election, at initial recognition, to measure an equity investment (that is not held for trading) at FVTOCI, with only dividend income generally recognised in profit or loss.

SP CORPORATION LIMITED AND ITS SUBSIDIARIES

NOTES TO FINANCIAL STATEMENTS 31 December 2017

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

SFRS(I) 9 Financial Instruments (cont'd)

- With some exceptions, financial liabilities are generally subsequently measured at amortised cost. With regard to the measurement of financial liabilities designated as at FVTPL, SFRS(I) 9 requires that the amount of change in fair value of such financial liability that is attributable to changes in the credit risk be presented in other comprehensive income, unless the recognition of the effects of changes in the liability's credit risk in other comprehensive income would create or enlarge an accounting mismatch to profit or loss. Changes in fair value attributable to the financial liability's credit risk are not subsequently reclassified to profit or loss.
- In relation to the impairment of financial assets, SFRS(I) 9 requires an expected credit loss model, as opposed to an incurred credit loss model under FRS 39. The expected credit loss model requires an entity to account for expected credit losses and changes in those expected credit losses at each reporting date to reflect changes in credit risk since initial recognition. In other words, it is no longer necessary for a credit event to have occurred before credit losses are recognised.
- The new general hedge accounting requirements retain the three types of hedge accounting mechanisms currently available in FRS 39. Under SFRS(I) 9, greater flexibility has been introduced to the types of transactions eligible for hedge accounting, specifically broadening the types of instruments that qualify for hedging instruments and the types of risk components of non-financial items that are eligible for hedge accounting. In addition, the effectiveness test has been overhauled and replaced with the principle of an 'economic relationship'. Retrospective assessment of hedge effectiveness is also no longer required. Enhanced disclosure requirements about an entity's risk management activities have also been introduced.

Management has performed a detailed analysis of the requirements of the initial application of the new SFRS(I) 9 which will result in changes to the accounting policies relating to the impairment provisions of financial assets. Management anticipates that the adoption of SFRS(I) 9 will not have a material impact on the financial statements of the Group and of the Company in the period of their initial adoption. Management does not plan to early adopt SFRS(I) 9.

SFRS(I) 15 Revenue from Contracts with Customers

In December 2017, SFRS(I) 15 was issued which establishes a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers. SFRS(I) 15 will supersede the current revenue recognition guidance including FRS 18 *Revenue*, FRS 11 *Construction Contracts* and the related Interpretations when it becomes effective.

SP CORPORATION LIMITED AND ITS SUBSIDIARIES

NOTES TO FINANCIAL STATEMENTS

31 December 2017

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

SFRS(I) 15 Revenue from Contracts with Customers (cont'd)

The core principle of SFRS(I) 15 is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Specifically, the Standard introduces a 5-step approach to revenue recognition:

- Step 1: Identify the contract(s) with a customer.
- Step 2: Identify the performance obligations in the contract.
- Step 3: Determine the transaction price.
- Step 4: Allocate the transaction price to the performance obligations in the contract.
- Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation.

Under SFRS(I) 15, an entity recognises revenue when (or as) a performance obligation is satisfied, i.e. when "control" of the goods or services underlying the particular performance obligation is transferred to the customer. Far more prescriptive guidance has been added in SFRS(I) 15 to deal with specific scenarios. Furthermore, extensive disclosures are required by SFRS(I) 15.

Management has performed a detailed analysis of the requirements of the initial application of SFRS(I) 15. Management anticipates that the adoption of SFRS(I) 15 will not have a material impact on the financial statements of the Group and of the Company in the period of their initial adoption. Management does not plan to early adopt SFRS(I) 15.

SFRS(I) 16 Leases

SFRS(I) 16 was issued in December 2017.

The Standard provides a comprehensive model for the identification of lease arrangements and their treatment in the financial statements of both lessees and lessors. The identification of leases, distinguishing between leases and service contracts, are determined on the basis of whether there is an identified asset controlled by the customer.

Significant changes to lessee accounting are introduced, with the distinction between operating and finance leases removed and assets and liabilities recognised in respect of all leases (subject to limited exceptions for short-term leases and leases of low value assets). The Standard maintains substantially the lessor accounting approach under the predecessor FRS 17 *Leases* ("FRS 17").

SP CORPORATION LIMITED AND ITS SUBSIDIARIES

NOTES TO FINANCIAL STATEMENTS

31 December 2017

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

SFRS(I) 16 Leases (cont'd)

FRS 17 does not require the recognition of any right-of-use asset or liability for future payments for the operating leases the Group enters into. Under SFRS(I) 16, the Group may be required to recognise a right-of-use asset and a corresponding liability in respect of all these leases unless they qualify for low value or short-term leases upon the application of SFRS(I) 16. Additional disclosures may also be made with respect to leases, including any significant judgement and estimation made in distinguishing between leases and service contracts, on the basis of whether an identified asset controlled by the customer exists. Management is currently still assessing the possible impact of implementing SFRS(I) 16. It is currently impracticable to disclose any further information on the known or reasonably estimable impact to the Group's financial statements in the period of initial application as management has yet to complete its detailed assessment. Management does not plan to early adopt SFRS(I) 16.

(c) BASIS OF CONSOLIDATION

The consolidated financial statements incorporate the financial statements of the Company and entities (including structured entities) controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Company reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

When the Company has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Company considers all relevant facts and circumstances in assessing whether or not the Company's voting rights in an investee are sufficient to give it power, including:

- the size of the Company's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- potential voting rights held by the Company, other vote holders or other parties;
- rights arising from other contractual arrangements; and
- any additional facts and circumstances that indicate that the Company has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

SP CORPORATION LIMITED AND ITS SUBSIDIARIES

NOTES TO FINANCIAL STATEMENTS

31 December 2017

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

(c) BASIS OF CONSOLIDATION (cont'd)

Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the financial year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Company gains control until the date when the Company ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies.

Changes in the Group's ownership interests in existing subsidiaries

Changes in the Group's ownership interests in subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

When the Group loses control of a subsidiary, a gain or loss is recognised in profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any non-controlling interests. All amounts previously recognised in other comprehensive income in relation to that subsidiary are accounted for as if the Group had directly disposed of the related assets or liabilities of the subsidiary (i.e. reclassified to profit or loss or transferred to another category of equity as specified/permitted by applicable FRS). The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under FRS 39, or when applicable, the cost on initial recognition of an investment in an associate or a joint venture.

In the Company's separate financial statements, investments in subsidiaries are carried at cost less any impairment in net recoverable value that has been recognised in profit or loss.

SP CORPORATION LIMITED AND ITS SUBSIDIARIES

NOTES TO FINANCIAL STATEMENTS

31 December 2017

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

(d) BUSINESS COMBINATION

Acquisitions of subsidiaries and businesses are accounted for using the acquisition method. The consideration for each acquisition is measured at the aggregate of the acquisition date fair values of assets given, liabilities incurred by the Group to the former owners of the acquiree, and equity interests issued by the Group in exchange for control of the acquiree. Acquisition-related costs are recognised in profit or loss as incurred.

Where applicable, the consideration for the acquisition includes any asset or liability resulting from a contingent consideration arrangement, measured at its acquisition-date fair value. Subsequent changes in such fair values are adjusted against the cost of acquisition where they qualify as measurement period adjustments (see below). The subsequent accounting for changes in the fair value of the contingent consideration that do not qualify as measurement period adjustments depends on how the contingent consideration is classified. Contingent consideration that is classified as equity is not remeasured at subsequent reporting dates and its subsequent settlement is accounted for within equity. Contingent consideration that is classified as an asset or a liability is remeasured at subsequent reporting dates at fair value, with changes in fair value recognised in profit or loss.

Where a business combination is achieved in stages, the Group's previously held interests in the acquired entity are remeasured to fair value at the acquisition date (i.e. the date the group attains control) and the resulting gain or loss, if any, is recognised in profit or loss. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income are reclassified to profit or loss, where such treatment would be appropriate if that interest were disposed of.

The acquiree's identifiable assets, liabilities and contingent liabilities that meet the conditions for recognition under the FRS are recognised at their fair value at the acquisition date, except that:

- Deferred tax assets or liabilities and liabilities or assets related to employee benefit arrangements are recognised and measured in accordance with FRS 12 *Income Taxes* and FRS 19 *Employee Benefits* respectively;
- Liabilities or equity instruments related to share-based payment transactions of the acquiree or the replacement of an acquiree's share-based payment awards transactions with share-based payment awards transactions of the acquirer in accordance with the method in FRS 102 *Share-based Payment* at the acquisition date; and
- Assets (or disposal groups) that are classified as held for sale in accordance with FRS 105 *Non-current Assets Held for Sale and Discontinued Operations* are measured in accordance with that Standard.

Non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the entity's net assets in the event of liquidation may be initially measured either at fair value or at the non-controlling interests' proportionate share of the recognised amounts of the acquiree's identifiable net assets. The choice of measurement basis is made on a transaction-by-transaction basis. Other types of non-controlling interests are measured at fair value or, when applicable, on the basis specified in another FRS.

SP CORPORATION LIMITED AND ITS SUBSIDIARIES

NOTES TO FINANCIAL STATEMENTS

31 December 2017

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

(d) BUSINESS COMBINATION (cont'd)

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted during the measurement period (see below), or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed as of the acquisition date that, if known, would have affected the amounts recognised as of that date.

The measurement period is the period from the date of acquisition to the date the Group obtains complete information about facts and circumstances that existed as of the acquisition date and is subject to a maximum of one year from acquisition date.

(e) FINANCIAL INSTRUMENTS

Financial assets and financial liabilities are recognised on the statement of financial position when the Group becomes a party to the contractual provisions of the instruments.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial instrument and of allocating interest income or expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts or payments (including all fees on points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial instrument, or where appropriate, a shorter period. Income and expense are recognised on an effective interest basis for debt instruments other than those financial instruments "at fair value through profit or loss".

Financial assets

All financial assets are recognised and de-recognised on a trade date basis where the purchase or sale of an investment is under a contract whose terms require delivery of the investment within the timeframe established by the market concerned, and are initially measured at fair value plus transaction costs, except for those financial assets classified as at fair value through profit or loss which are initially measured at fair value.

Financial assets are classified into the following specific categories: financial assets "at fair value through profit or loss" and "loans and receivables". The classification depends on the nature and purpose of financial assets and is determined at the time of initial recognition.

SP CORPORATION LIMITED AND ITS SUBSIDIARIES

NOTES TO FINANCIAL STATEMENTS

31 December 2017

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

(e) FINANCIAL INSTRUMENTS (cont'd)

Financial assets at fair value through profit or loss ("FVTPL")

Financial assets are classified as at FVTPL where the financial asset is either held for trading or it is designated as FVTPL.

A financial asset is classified as held for trading if:

- it has been acquired principally for the purpose of selling in the near future; or
- on initial recognition, it is a part of an identified portfolio of financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

A financial asset other than a financial asset held for trading may be designated as at FVTPL upon initial recognition if:

- such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise; or
- the financial asset forms part of a group of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the Group's documented risk management or investment strategy, and information about the grouping is provided internally on that basis; or
- it forms part of a contract containing one or more embedded derivatives, and FRS 39 *Financial Instruments: Recognition and Measurement* permits the entire combined contract (asset or liability) to be designated as at FVTPL.

Financial assets at fair value through profit or loss are stated at fair value, with any resultant gain or loss recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any dividend or interest earned on the financial asset and is included in "other operating income" line in the statement of profit or loss. Fair value is determined in the manner described in Note 28.

SP CORPORATION LIMITED AND ITS SUBSIDIARIES

NOTES TO FINANCIAL STATEMENTS

31 December 2017

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

(e) FINANCIAL INSTRUMENTS (cont'd)

Loans and receivables

Trade receivables, loans and other receivables that have fixed or determinable payments that are not quoted in an active market are classified as "loans and receivables". Loans and receivables are measured at amortised cost using the effective interest method less impairment. Interest is recognised by applying the effective interest method, except for short-term receivables when the effect of discounting is immaterial.

Impairment of financial assets

Financial assets, other than those at fair value through profit or loss, are assessed for indicators of impairment at the end of each reporting period. Financial assets are impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the investment have been impacted.

For financial assets, objective evidence of impairment could include:

- significant financial difficulty of the issuer or counterparty; or
- default or delinquency in interest or principal payments; or
- it becoming probable that the borrower will enter bankruptcy or financial re-organisation.

For certain categories of financial assets, such as trade receivables, assets that are assessed not to be impaired individually are, in addition, assessed for impairment on a collective basis. Objective evidence of impairment for a portfolio of receivables could include the Group's past experience of collecting payments, an increase in the number of delayed payments in the portfolio past the average credit period, as well as observable changes in national or local economic conditions that correlate with default on receivables.

For financial assets carried at amortised cost, the amount of the impairment is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate.

For financial assets that are carried at cost, the amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment loss will not be reversed in subsequent periods.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade and other receivables where the carrying amount is reduced through the use of an allowance account. When a trade or other receivable is uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against the allowance account. Changes in the carrying amount of the allowance account are recognised in profit or loss.

SP CORPORATION LIMITED AND ITS SUBSIDIARIES

NOTES TO FINANCIAL STATEMENTS

31 December 2017

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

(e) FINANCIAL INSTRUMENTS (cont'd)

Impairment of financial assets (cont'd)

For financial assets measured at amortised cost, if, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed through profit or loss to the extent that the carrying amount of the financial asset at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

Financial liabilities and equity instruments

Classification as debt or equity

Financial liabilities and equity instruments issued by the Group are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. Equity instruments are recorded at the proceeds received, net of direct issue costs.

Ordinary shares are classified as equity, incremental costs directly attributable to the issue of ordinary shares and share options are recognised as a deduction from equity, net of any tax effect.

Dividends are deducted from shareholders' equity or recorded as a liability when declared payable. Proposed dividends which are subject to shareholders' approval are not deducted from shareholders' equity and are not recorded as liabilities.

SP CORPORATION LIMITED AND ITS SUBSIDIARIES

NOTES TO FINANCIAL STATEMENTS

31 December 2017

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

(e) FINANCIAL INSTRUMENTS (cont'd)

Financial liabilities

Financial liabilities are classified as either financial liabilities "at fair value through profit or loss" or other financial liabilities.

Financial liabilities at fair value through profit or loss ("FVTPL")

Financial liabilities are classified as at FVTPL where the financial liability is either held for trading or it is designated as at FVTPL.

A financial liability is classified as held for trading if:

- it has been incurred principally for the purpose of repurchasing in the near future; or
- it is a part of an identified portfolio of financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

A financial liability other than a financial liability held for trading may be designated as at FVTPL upon initial recognition if:

- such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise; or
- on initial recognition, the financial liability forms part of a group of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the Group's documented risk management or investment strategy, and information about the grouping is provided internally on that basis; or
- it forms part of a contract containing one or more embedded derivatives, and FRS 39 permits the entire combined contract (asset or liability) to be designated as at FVTPL.

Financial liabilities at fair value through profit or loss are initially measured at fair value and subsequently stated at fair value, with any resultant gain or loss recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any interest paid on the financial liability and is included in the "other operating expenses" line in the statement of profit or loss and other comprehensive income. Fair value is determined in the manner described in Note 28.

SP CORPORATION LIMITED AND ITS SUBSIDIARIES

NOTES TO FINANCIAL STATEMENTS

31 December 2017

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

(e) FINANCIAL INSTRUMENTS (cont'd)

Other financial liabilities

Trade and other payables are initially measured at fair value, net of transaction costs, and are subsequently measured at amortised cost, using the effective interest method, with interest expense recognised on an effective yield basis except for short-term payables when the effect of discounting is immaterial. Items classified within trade and other payables are not usually re-measured, as the obligation is usually known with a high degree of certainty and settlement is of short-term in nature.

Interest-bearing bank loans and overdrafts are initially measured at fair value, and are subsequently measured at amortised cost, using the effective interest rate method. Any difference between the proceeds (net of transaction costs) and the settlement or redemption of borrowings is recognised over the term of the borrowings in accordance with the Group's accounting policy for borrowing costs.

Financial guarantee contract liabilities are measured initially at their fair values and, if not designated as at FVTPL, subsequently at the higher of the amount of obligation under the contract recognised as a provision in accordance with FRS 37 *Provisions, Contingent Liabilities and Contingent Assets* and the amount initially recognised less cumulative amortisation in accordance with FRS 18 *Revenue*.

Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or they expire.

Derivative financial instruments

The Group's activities expose it primarily to the financial risks of changes in foreign exchange rates and interest rates.

The Group uses derivative financial instruments (primarily foreign currency forward contracts) to hedge its risks associated with foreign currency fluctuations relating to certain firm commitments and forecasted transactions.

The Group's policy is to manage its interest cost using a mix of fixed and variable rate debt.

The use of financial derivatives is governed by the Group's policies approved by the Board of Directors, which provide written principles on the use of financial derivatives consistent with the Group's risk management strategy. The Group does not use derivative financial instruments for speculative purposes.

SP CORPORATION LIMITED AND ITS SUBSIDIARIES

NOTES TO FINANCIAL STATEMENTS

31 December 2017

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

(e) FINANCIAL INSTRUMENTS (cont'd)

Derivative financial instruments (cont'd)

Derivative financial instruments are initially recognised at fair value at the date a derivative contract is entered into and are subsequently remeasured to their fair value at the end of each reporting period. The resulting gain or loss is recognised in profit or loss immediately unless the derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in profit or loss depends on the nature of the hedge relationship.

A derivative is presented as a non-current asset or a non-current liability if the remaining maturity of the instrument is more than 12 months and it is not expected to be realised or settled within 12 months. Other derivatives are presented as current assets or current liabilities.

Offsetting arrangements

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when the Company and the Group has a legally enforceable right to set off the recognised amounts; and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously. A right to set-off must be available today rather than being contingent on a future event and must be exercisable by any of the counterparties, both in the normal course of business and in the event of default, insolvency or bankruptcy.

(f) LEASES

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Rentals payable under operating leases are charged to profit or loss on a straight-line basis over the term of the relevant lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed. Contingent rentals arising under operating leases are recognised as an expense in the period in which they are incurred.

In the event that lease incentives are received to enter into operating leases, such incentives are recognised as a liability. The aggregate benefit of incentives is recognised as a reduction of rental expense on a straight-line basis, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed.

SP CORPORATION LIMITED AND ITS SUBSIDIARIES

NOTES TO FINANCIAL STATEMENTS

31 December 2017

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

(g) PLANT AND EQUIPMENT

Plant and equipment are stated at cost less accumulated depreciation and any accumulated impairment losses.

Depreciation is charged so as to write off the cost of assets over their estimated useful lives, using the straight-line method, on the following bases:

	<u>Number of years</u>
Plant and equipment	1 to 10
Motor vehicles	5 to 10

The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

The gain or loss arising on disposal or retirement of an item of plant and equipment is determined as the difference between the sales proceeds and the carrying amounts of the asset and is recognised in profit or loss. Fully depreciated assets in use are retained in the financial statements.

(h) IMPAIRMENT OF TANGIBLE ASSETS

At the end of each reporting period, the Group reviews the carrying amounts of its tangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. Where a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (cash-generating unit) in prior financial years. A reversal of an impairment loss is recognised immediately in profit or loss.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

(i) PROVISIONS

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

(j) REVENUE RECOGNITION

Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for estimated customer returns, rebates and other similar allowances.

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group, the revenue can be reliably measured and when the specific criteria for each of the Group's activities are met as set out below.

Revenue from sale of products comprises revenue earned from the sale of the products net of returns, trade allowances and duties and taxes paid. Revenue from sale of products is recognised when all of the following conditions are satisfied: (i) the Group has transferred to the buyer the significant risks and rewards of ownership of the products; (ii) the Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the products sold; (iii) the amount of revenue can be measured reliably; (iv) it is probable that the economic benefits associated with the transaction will flow to the Group; and (v) the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Revenue from the rendering of services that are of short duration is recognised when the services are rendered.

Income from providing financial guarantee is recognised in profit or loss over the guarantee period on a straight line basis.

Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable.

SP CORPORATION LIMITED AND ITS SUBSIDIARIES

NOTES TO FINANCIAL STATEMENTS

31 December 2017

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

(k) BORROWING COSTS

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

(l) RETIREMENT BENEFIT COSTS

Payments to defined contribution retirement benefit plans are charged as an expense when employees have rendered the services entitling them to the contributions. Payments made to state-managed retirement benefit schemes, such as the Singapore Central Provident Fund, are dealt with as payments to defined contribution plans where the Group's obligations under the plans are equivalent to those arising in a defined contribution retirement benefit plan.

(m) EMPLOYEE LEAVE ENTITLEMENT

Employee entitlements to annual leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave as a result of services rendered by employees up to the end of the reporting period.

(n) INCOME TAX

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the financial year. Taxable profit differs from profit as reported in the consolidated statement of profit or loss and other comprehensive income because it excludes items of income or expense that are taxable or deductible in other financial years and it further excludes items that are not taxable or tax deductible. The Group's liability for current tax is calculated using tax rates (and tax laws) that have been enacted or substantively enacted in countries where the Company and subsidiaries operate by the end of the reporting period.

Deferred tax is recognised on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

SP CORPORATION LIMITED AND ITS SUBSIDIARIES

NOTES TO FINANCIAL STATEMENTS

31 December 2017

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

(n) INCOME TAX (cont'd)

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset realised based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

(o) FOREIGN CURRENCY TRANSACTIONS AND TRANSLATION

The individual financial statements of each Group entity are measured and presented in the currency of the primary economic environment in which the entity operates (its functional currency). The consolidated financial statements of the Group and the statement of financial position and statement of changes in equity of the Company are presented in Singapore dollars, which is the functional currency of the Company and the presentation currency for the consolidated financial statements.

In preparing the financial statements of the individual entities, transactions in currencies other than the entity's functional currency are recorded at the rate of exchange prevailing on the date of the transaction. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at the end of the reporting period. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on retranslation of monetary items are included in profit or loss for the period. Exchange differences arising on the retranslation of non-monetary items carried at fair value are included in profit or loss for the period except for differences arising on the retranslation of non-monetary items in respect of which gains and losses are recognised in other comprehensive income. For such non-monetary items, any exchange component of that gain or loss is also recognised in other comprehensive income.

SP CORPORATION LIMITED AND ITS SUBSIDIARIES

NOTES TO FINANCIAL STATEMENTS

31 December 2017

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

(o) FOREIGN CURRENCY TRANSACTIONS AND TRANSLATION (cont'd)

For the purpose of presenting consolidated financial statements, the assets and liabilities of the Group's foreign operations (including comparatives) are expressed in Singapore dollars using exchange rates prevailing at the end of the reporting period. Income and expense items (including comparatives) are translated at the average exchange rates for the period, unless exchange rates fluctuated significantly during that period, in which case the exchange rates at the dates of the transactions are used. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in a separate component of equity under the header of translation account.

On the disposal of a foreign operation (i.e. a disposal of the Group's entire interest in a foreign operation, or a disposal involving loss of control over a subsidiary that includes a foreign operation, loss of joint control over a jointly controlled entity that includes a foreign operation, or loss of significant influence over an associate that includes a foreign operation), all of the accumulated exchange differences in respect of that operation attributable to the Group are reclassified to profit or loss. Any exchange differences that have previously been attributed to non-controlling interests are derecognised, but they are not reclassified to profit or loss.

In the case of a partial disposal (i.e. no loss of control) of a subsidiary that includes a foreign operation, the proportionate share of accumulated exchange differences are re-attributed to non-controlling interests and are not recognised in profit or loss. For all other partial disposals (i.e. of associates or jointly controlled entities that do not result in the Group losing significant influence or joint control), the proportionate share of the accumulated exchange differences is reclassified to profit or loss.

On consolidation, exchange differences arising from the translation of the net investment in foreign entities (including monetary items that, in substance, form part of the net investment in foreign entities), and of borrowings and other currency instruments designated as hedges of such investments, are recognised in other comprehensive income and accumulated in a separate component of equity under the header of translation account.

(p) CASH AND CASH EQUIVALENTS IN THE CONSOLIDATED STATEMENT OF CASH FLOWS

Cash and cash equivalents in the statement of cash flows comprise cash on hand and fixed deposits with banks but exclude restricted bank balances. These are subject to an insignificant risk of changes in value.

(q) SEGMENT REPORTING

An operating segment is a component of the Group that engages in business activities from which it may earn revenue and incur expenses.

Operating segments are reported in a manner consistent with the internal reporting provided to members of management and the chief operating decision makers who are responsible for allocating resources and assessing performance of the operating segments.

SP CORPORATION LIMITED AND ITS SUBSIDIARIES

NOTES TO FINANCIAL STATEMENTS

31 December 2017

3 CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in Note 2, management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revision to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in period of the revision and future periods if the revision affects both current and future periods.

Critical judgements in applying the entity's accounting policies

In the process of applying the Group's accounting policies, management is of the view that there are no critical judgements involved that have a significant effect on the accounts recognised in the financial statements, apart from those involving estimations (see below), that management has made in the process of applying the Group's accounting policies and that has the most significant effect on the amounts recognised in the financial statements.

Key sources of estimation uncertainty

The key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

Recoverability of refundable trade deposit

Management assesses at the end of each reporting period whether there is any evidence that the refundable trade deposit of US\$6,000,000 (equivalent to \$8,073,000) [2016: US\$6,000,000 (equivalent to \$8,689,000)] placed with a related party is impaired. A considerable amount of judgement is required in assessing the ultimate realisation of this deposit, including reviewing the financial information of the related party, its current creditworthiness, past collection history and ongoing coal delivery from the coal mine with whom the Group has placed the deposit. Management also considered past valuation report of the coal mine which management has reviewed in prior year. If the financial condition of the coal mine deteriorates, resulting in an impairment of its ability to make payments, an allowance may be required. The carrying amount and details of the refundable trade deposit is disclosed in Note 8 to the financial statements.

SP CORPORATION LIMITED AND ITS SUBSIDIARIES

NOTES TO FINANCIAL STATEMENTS

31 December 2017

3 CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (cont'd)

Allowance for impairment loss on aged trade receivables

Management assesses at the end of each reporting period whether there is any objective evidence that receivables are impaired. If there is objective evidence that an impairment loss on aged trade receivables has been incurred, the amount of loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows. The amount of the loss is recognised in profit or loss. Where the loss subsequently reverses, the reversal is recognised in profit or loss. Details of the allowance for impairment loss on aged trade receivables are disclosed in Note 9 to the financial statements.

4 SEGMENT INFORMATION

Products and services from which reportable segments derive their revenues

For the purpose of the resource allocation and assessment of segment performance, the Group's chief operating decision maker has focused on the business operating units which in turn, are segregated based on their products and services. This forms the basis of identifying the operating segments of the Group under FRS 108.

Operating segments are aggregated into a single reportable operating segment if they have similar economic characteristics, such as long-term average gross margins, and are similar in respect of nature of products and services, and/or their reported revenue.

The Group's reportable operating segments under FRS 108 are as follows:

<i>Segment</i>	<i>Principal activities</i>
Commodities Trading	Trades and markets a broad range of products including coal, rubber, metals as well as other commodities and products used by manufacturers in the energy, tyre, metal and automotive industries in Asia. It also distributes consumer products.
Corporate and Others	General corporate activities and others.

The accounting policies of the reportable segments are the same as the Group's accounting policies described in Note 2. Segment revenue represents revenue generated from external and internal customers. Segment profit represents the profit earned by each segment after allocating finance costs. This is the measure reported to the chief operating decision maker for the purpose of resource allocation and assessment of segment performance.

For the purpose of monitoring segment performance and allocating resources, the chief operating decision maker monitors the financial assets attributable to each segment. Assets, if any, used jointly by reportable segments are allocated on the basis of the revenue earned by individual operating segments.

Tyre distribution business segment was discontinued at the end of the financial year ended 31 December 2017 (Note 24).

NOTES TO FINANCIAL STATEMENTS

31 December 2017

6 INVESTMENTS IN SUBSIDIARIES

	Company	
	2017	2016
	\$'000	\$'000
Unquoted equity shares, at cost	14,049	14,049
Recognition of financial guarantee provided to subsidiaries	4,827	4,481
Quasi-equity loan	13,500	-
Less: Impairment loss	(2,033)	(117)
	<u>30,343</u>	<u>18,413</u>

Further details regarding the subsidiaries are set out in Note 29.

The Company issued financial guarantees to banks for credit facilities of its subsidiaries and recorded a deemed financial guarantee fee income in accordance with the provisions of FRS 39 *Financial Instruments: Recognition and Measurement*. The deemed income was amortised over the period of the guarantee. The guarantee fee was not charged by the Company to the subsidiaries. The full amount of the guarantee fee is deemed to be additional investment in the subsidiaries.

During the financial year, management considered receivables from a subsidiary amounting to \$13,500,000 as a quasi-equity loan which is unsecured and interest free and the settlement is neither planned nor likely to occur in the foreseeable future. As the amounts are, in substance, a part of the Company's net investment in subsidiary, thus they are stated at cost.

In 2017, an impairment loss of \$1,916,000 in investment in subsidiaries was recognised. In making this judgement, the Company evaluates, among other factors, the market and economic environment in which the subsidiaries operate, economic performance of the subsidiaries, the duration and extent to which the cost of investment in the subsidiaries exceeds their net tangible asset values which according to management, are the best estimate of the recoverable amount.

7 INVENTORIES

	At cost	At net realisable value	Total
<u>Group</u>	\$'000	\$'000	\$'000
2017			
Raw materials	-	-	-
Finished goods	-	-	-
	<u>-</u>	<u>-</u>	<u>-</u>
2016			
Raw materials	77	-	77
Finished goods	640	42	682
	<u>717</u>	<u>42</u>	<u>759</u>

In 2016, the net realisable value of the above inventories is stated net of allowance of \$43,000. During the financial year, \$6,000 (2016: \$1,000) was recognised as an expense in respect of write-downs of inventories to net realisable value.

8 TRADE AND OTHER RECEIVABLES

	Group		Company	
	2017	2016	2017	2016
	\$'000	\$'000	\$'000	\$'000
Trade receivables (Note 9)	34,117	39,026	-	457
Other receivables (Note 10)	1,328	607	6,701	18,805
Advances to suppliers: ^(a)				
- Third party	521	103	-	-
- Related party [Note 25(a)(ii)]	-	3,476	-	-
Refundable trade deposit with related party ^(b) [Note 25(a)(ii)]	8,073	8,689	-	-
	44,039	51,901	6,701	19,262

(a) A payment of \$521,000 (2016: \$103,000) was made to a third party supplier for progress billing on order placement.

In 2016, advance to a related party for coal order placement was interest-free and repayable by 15 April 2017.

(b) Refundable trade deposit of US\$6,000,000 (2016: US\$6,000,000) relates to monies placed by the Group with a coal mine which is a related party to secure coal allocations. The deposit is secured by a corporate guarantee issued by the immediate holding company of the coal mine, which itself is a coal mine and a related party of the Group.

The deposit (equivalent to \$8,073,000 [2016: \$8,689,000]) is repayable within one year and subject to annual renewal by mutual agreement between the two parties. It bears an effective interest rate of 5.73% (2016: 5.43%) per annum (Note 10).

9 TRADE RECEIVABLES

	Group		Company	
	2017	2016	2017	2016
	\$'000	\$'000	\$'000	\$'000
Trade receivables	3,440	4,406	-	-
Amounts due from related parties – trade [Note 25(a)(ii)]	30,682	34,620	-	-
Amount due from a subsidiary - trade (Notes 6 and 29)	-	-	-	457
	34,122	39,026	-	457
Less: Allowance for doubtful trade receivables	(5)	-	-	-
	34,117	39,026	-	457

During the financial year, management noted that two trade debtors who are related parties were previously classified as external parties. Accordingly, \$22,984,000 that was previously classified and presented as "Trade receivables" as at 31 December 2016 has been re-classified as "Amounts due from related parties – trade" in the current financial statements. The amounts due from these two related parties at 31 December 2017 and 31 December 2015 amounted to \$20,310,000 and \$21,081,000 respectively.

SP CORPORATION LIMITED AND ITS SUBSIDIARIES

NOTES TO FINANCIAL STATEMENTS

31 December 2017

9 TRADE RECEIVABLES (cont'd)

Certain past due trade receivables bear interest at rates ranging from 8% to 12% (2016: 8% to 12%) per annum in accordance with the billing terms and the remaining are non-interest bearing. The trade receivables are generally on 30 to 120 days (2016: 30 to 120 days) credit terms. They are recognised at their original invoice amounts which represent their fair values on initial recognition. Before accepting any new customer, the Group assesses the potential customer's credit quality and defines credit limits by customers.

Allowances for doubtful debts are recognised against trade receivables for the estimated irrecoverable amounts from the sale of goods and services rendered to third parties. These allowances had been determined by assessing the profile of debtors and after considering recovery prospects.

Movement in the allowance for doubtful trade receivables

	Group	
	2017	2016
	\$'000	\$'000
At beginning of financial year	-	-
Allowance made during the financial year	5	-
At end of financial year	<u>5</u>	<u>-</u>

Included in the Group's trade receivable balances are debtors with a carrying amount of \$14,936,000 (2016: \$15,585,000) which are past due at the reporting date for which the Group has not recognised an allowance for doubtful receivables as there has not been a significant change in credit quality and the amounts are still considered recoverable. In determining the recoverability of a trade receivable, the Group considers any change in the credit quality of the trade receivables from the date credit was initially granted up to the reporting date. Trade receivables that are neither past due nor impaired are with creditworthy counterparties.

The table below is an analysis of trade receivables as at 31 December:

	Group		Company	
	2017	2016	2017	2016
	\$'000	\$'000	\$'000	\$'000

Effect of productivity and innovation credit	(2.6)	(2.5)
Others	(4.2)	(1.5)
Effective tax rate	<u>(7.0)</u>	<u>20.0</u>

Domestic income tax is calculated at 17% (2016: 17%) of the estimated assessable profit for the financial year. Taxation for other jurisdictions is calculated at the rates prevailing in the relevant jurisdictions.

SP CORPORATION LIMITED AND ITS SUBSIDIARIES

NOTES TO FINANCIAL STATEMENTS

31 December 2017

21 INCOME TAX (CREDIT) EXPENSE (cont'd)

At 31 December 2017, the Group had unutilised tax losses and capital allowances of approximately \$8,922,000 (2016: \$8,931,000) and \$1,885,000 (2016: \$1,831,000) respectively available for offset against future taxable income, subject to the conditions imposed by law in the countries of incorporation where these companies operate.

Future tax benefits of \$1,820,000 (2016: \$1,820,000) arising from such unutilised tax losses and capital allowances have not been recognised as there is no reasonable certainty of their recovery in future periods.

22 PROFIT FOR THE FINANCIAL YEAR

The profit for the financial year has been arrived at after charging:

	Continuing operations		Discontinued operation		Total	
	2017 \$'000	2016 \$'000	2017 \$'000	2016 \$'000	2017 \$'000	2016 \$'000

- Key management personnel	531	551	226	217	757	768

SP CORPORATION LIMITED AND ITS SUBSIDIARIES

NOTES TO FINANCIAL STATEMENTS

31 December 2017

22 PROFIT FOR THE FINANCIAL YEAR (cont'd)

	Continuing operations		Discontinued operation		Total	
	2017	2016	2017	2016	2017	2016
	\$'000	\$'000	\$'000	\$'000	\$'000	\$'000
Cost of inventories included in cost of sales	-	-	5,706	14,244	5,706	14,244
Fees for audit services to:						
- Auditors of the Company	87	87	16	16	103	103
- Other auditors	7	7	2	1	9	8
Fees for non-audit services to:						
- Auditors of the Company	32	10	8	4	40	14
- Other auditors	17	35	1	11	18	46

The Audit and Risk Committee had undertaken a review of the non-audit services provided by the auditors, Deloitte & Touche LLP, Singapore and overseas practices of Deloitte Touche Tohmatsu Limited and in the opinion of the Audit and Risk Committee, these services would not affect the independence of the auditors.

The employees of SP Corporation Limited and its subsidiaries who are located in Singapore are members of a state-managed retirement benefit plan, the Central Provident Board Fund, operated by the Government of Singapore. The Company and its subsidiaries are required to contribute a specified percentage of payroll costs to the retirement benefit scheme to fund the benefits. The only obligation of the Group with respect to the retirement benefit plan is to make the specified contributions.

The total expense recognised in profit or loss of \$213,000 (2016: \$270,000) represents contributions payable to these plans by the Group at rates specified in the rules of the plans. As at 31 December 2017, contributions of \$21,000 (2016: \$48,000) due in respect of the current financial year had not been paid over to the plans. The amounts were paid over subsequent to the end of the reporting period.

SP CORPORATION LIMITED AND ITS SUBSIDIARIES

NOTES TO FINANCIAL STATEMENTS

31 December 2017

23 EARNINGS PER SHARE (CENTS)

Basic earnings per share is calculated by dividing the net profit for the financial year attributable to owners of the Company by the weighted average number of ordinary shares in issue during the financial year:

	Group	
	2017	2016
Net profit (loss) attributable to owners of the Company (\$'000)		
- Continuing operations	966	2,527
- Discontinued operation (Note 24)	(519)	(725)
- From continuing operations and discontinued operation	<u>447</u>	<u>1,802</u>
Weighted average number of ordinary shares in issue (in '000)	<u>35,099</u>	<u>35,099</u>
Basic earnings (loss) per share (cents)		
- Continuing operations	2.75	7.20
- Discontinued operation	(1.48)	(2.07)
- From continuing operations and discontinued operation	<u>1.27</u>	<u>5.13</u>

The Company has not granted options over shares. There are no dilutive potential ordinary shares.

24 DISCONTINUED OPERATION

On 25 July 2017, the Tyre Distribution business segment entered into Asset Sale and Purchase Agreements with related parties to dispose of certain assets in the Tyre Distribution business segment so as to enhance the Group's cash resources, improve the profitability and the balance sheet of the Group and allow it to conserve its resources for other working capital requirements.

The loss for the financial year from the discontinued operation is analysed as follows:

	Group	
	2017	2016
	\$'000	\$'000
Loss of tyre distribution business for the financial year	(1,192)	(725)
Gain on disposal of tyre distribution business	673	-
	<u>(519)</u>	<u>(725)</u>

SP CORPORATION LIMITED AND ITS SUBSIDIARIES

NOTES TO FINANCIAL STATEMENTS

31 December 2017

24 DISCONTINUED OPERATION (cont'd)

The results of the tyre distribution business for the financial year from 1 January 2017 to 31 December 2017 are as follows:

		Group	
	Note	2017 \$'000	2016 \$'000
Revenue	16	6,660	16,309
Cost of sales		(5,638)	(13,758)
Gross profit		1,022	2,551
Other operating income	17	22	67
Distribution costs		(1,575)	(2,066)
Administrative expenses		(924)	(1,483)
Other operating expenses	18	(11)	(1)
Interest income	19	1	19
Loss before tax		(1,465)	(913)
Income tax credit	21	273	188
Loss after tax for the financial year (attributable to Owners of the Company)		(1,192)	(725)

During the financial year, the tyre distribution business contributed to cash outflows of \$297,000 (2016: \$2,496,000) and \$61,000 (2016: cash outflows of \$8,000) in respect of the Group's net operating cash flows and investing activities, respectively.

	Group	
	2017 \$'000	2016 \$'000
Gain on disposal of tyre distribution business		
Consideration [Note 25(a)(ii)]	1,750	-
Net assets disposed of	(914)	-
Related expenses	(163)	-
	673	-

\$873,000 of the consideration was offset against existing amounts due to the related parties. The balance consideration of \$877,000 (Notes 8 and 10), excluding \$15,000 goods and services tax, is expected to be received within one year. The gain on disposal of the tyre distribution business is recorded as part of loss for the financial year from discontinued operation in the statement of profit or loss and other comprehensive income.

25 RELATED PARTY AND RELATED COMPANY TRANSACTIONS

The Company's major shareholder is Tuan Sing Holdings Limited ("Tuan Sing"). Tuan Sing's major shareholder is Nuri Holdings (S) Pte Ltd ("Nuri"), incorporated in Singapore. Related parties are members in which the shareholders of Nuri and their family members have a controlling interest.

Related companies in these financial statements refer to members of the immediate holding company's group of companies (Note 1).

Some of the Group's transactions and arrangements are with related parties and the effect of these on the basis determined between the parties is reflected in these financial statements. The balances are unsecured, interest-free and repayable on demand unless stated otherwise.

The Company has provided financial support to one of its subsidiaries for a period of twelve months from the end of the reporting period so as to enable the subsidiary to continue to operate as a going concern and meet its contractual obligations when they fall due.

SP CORPORATION LIMITED AND ITS SUBSIDIARIES

NOTES TO FINANCIAL STATEMENTS

31 December 2017

25 RELATED PARTY AND RELATED COMPANY TRANSACTIONS (cont'd)

(a) Transactions with related companies and related parties

During the financial year, the following significant transactions with related companies and related parties were carried out in the normal course of business based on terms agreed between the parties:

	Group	
	2017	2016
	\$'000	\$'000
(i) Tuan Sing Holdings Limited and subsidiaries		
Rental expense	25	26
Management fee expense	150	150
(ii) Related parties		
Sales of goods and services	(61,307)	(74,781)
Purchases of goods	68,163	46,700
Interest income from placement of refundable trade deposit	(473)	(435)
Interest income from overdue trade receivables	(605)	(1,104)
Handling fee income	(181)	(275)
Consideration for disposal of tyre distribution business	(1,750)	-
Advance for coal order placement	-	3,476
Progress billing on order placement	552	108
Placement of refundable trade deposit	8,073	8,689

The Group is reliant on two related parties for the supply of 100% (2016: 100%) of its coal within its Commodities Trading business segment and another two related parties for the supply of 96% (2016: 95%) of its tyres within its Tyre Distribution business segment. The Group supplies 100% (2016: 100%) of its rubber products within its Commodities Trading segment to two customers who are related parties, but were previously classified as third party customers. Accordingly, \$60,611,000 sales to these two related parties for the financial year ended 31 December 2016 has been included in the comparative figure of "Sales of goods and services - related parties" in the current financial statements. Sales to these two related parties for the financial year ended 31 December 2017 amounted to \$43,853,000.

The amounts outstanding are unsecured and will be settled in cash. No expense has been recognised during the financial year for bad or doubtful debts in respect of the amounts owed by related parties.

SP CORPORATION LIMITED AND ITS SUBSIDIARIES

NOTES TO FINANCIAL STATEMENTS

31 December 2017

25 RELATED PARTY AND RELATED COMPANY TRANSACTIONS (cont'd)

(b) Compensation of Directors and key management personnel

The remuneration of Directors and key management personnel during the financial year were as follows:

	Group	
	2017	2016
	\$'000	\$'000
Short-term benefits	1,412	1,466
Post-employment benefits	68	71
	<u>1,480</u>	<u>1,537</u>

The remuneration of Directors and key management personnel are determined by the Remuneration Committee having regard to the performance of individuals and market trends.

26 COMMITMENTS

(a) Operating lease arrangements

	Group		Company	
	2017	2016	2017	2016
	\$'000	\$'000	\$'000	\$'000
Rental expense - operating lease in respect of rental of office premises, warehouse and workshops	519	610	199	193

The commitments in respect of non-cancellable operating leases contracted for but not recognised as liabilities are payable as follows:

	Group		Company	
	2017	2016	2017	2016
	\$'000	\$'000	\$'000	\$'000
Within one year	177	368	100	199
After one year but not more than five years	272	100	-	100
	<u>449</u>	<u>468</u>	<u>100</u>	<u>299</u>

The Group leases office premises and a warehouse under non-cancellable operating lease agreements. The leases have varying terms and renewal rights. The leases are negotiated for a term of 2 to 5 years (2016: 1 to 2 years) with rentals fixed for 2 to 5 years (2016: 1 to 2 years).

SP CORPORATION LIMITED AND ITS SUBSIDIARIES

NOTES TO FINANCIAL STATEMENTS

31 December 2017

26 COMMITMENTS (cont'd)

(b) Derivative financial instruments

The Group utilises currency derivatives to hedge significant future transactions and cash flows.

At the end of the reporting period, the total notional amount of outstanding foreign currency forward contracts to which the Group is committed are as follows:

	Group	
	2017	2016
	\$'000	\$'000
Foreign currency forward contracts	8,400	15,000

The change in the fair value of non-hedging currency derivative has been charged to profit or loss in the financial year.

In 2016, the Group and the Company do not have any financial instruments which are subject to enforceable master netting arrangements or similar netting agreements.

(c) Financial risk management policies and objectives

The Group has documented its financial risk management framework. The Group's risk framework has formal, systematic and comprehensive guidelines and rules to identify and manage significant risks that might affect the achievement of its business objectives. The Group's overall risk management framework seeks to minimise potential adverse effects on financial performance of the Group.

Risk management is carried out by the Company and the respective subsidiaries and business units under the policies formulated by the Company and approved by the Company's Board of Directors.

SP CORPORATION LIMITED AND ITS SUBSIDIARIES

NOTES TO FINANCIAL STATEMENTS

31 December 2017

28 FINANCIAL INSTRUMENTS, FINANCIAL RISKS AND CAPITAL MANAGEMENT (cont'd)

(c) Financial risk management policies and objectives (cont'd)

The Group's activities expose it to a variety of financial risks - market risk (including currency risk, interest rate risk and price risk), credit risk and liquidity risk. The Group's overall risk management strategy seeks to minimise potential adverse effects from the unpredictability of financial markets on the Group's financial performance.

The Group's financial instruments comprise borrowings in the form of bills payable, cash and liquid resources, trade and other receivables, trade and other payables that arise directly from its operations. The main purpose of these financial instruments is to maintain adequate finance for the Group's operations. The main risks arising from the Group's financial instruments are currency risk, price risk, interest rate risk, credit risk and liquidity risk.

The Group manages its exposure to currency and interest rate risks by using a variety of techniques and instruments. Natural hedging is preferred by matching assets and liabilities of the same currency. Derivative financial instruments are only used where it is necessary to reduce exposure to fluctuations in foreign exchange.

The Group does not contract for derivative financial instruments for speculative purposes.

There has been no major change to the Group's exposure to these financial risks or the manner in which it manages and measures the risk during the financial year. Market risk exposures are measured using sensitivity analysis indicated below.

(i) Currency risk management

The Group's businesses are mainly in Singapore, China including Hong Kong, Indonesia and Malaysia. Entities in the Group regularly transact in currencies other than their respective functional currencies ("foreign currencies") such as the Singapore dollar ("SGD"), Malaysian ringgit ("MYR") and United States dollar ("USD"). Currency risk arises when transactions are denominated in foreign currencies.

The Group's exposure to currency translation risk on the net assets in foreign operations is limited to the net assets of these operations. The risk is not hedged as such investments are considered to be long-term in nature.

The primary purpose of the Group's currency hedging activities is to protect against the effect of volatility in foreign currency exchange rates on foreign currency denominated assets and liabilities arising in the normal course of business. As far as possible, the Group relies on natural hedges of matching foreign currency denominated assets and liabilities of the same currency.

The Group uses foreign currency forward contracts to hedge its foreign currency risk and enters into forward exchange contracts with maturities of less than twelve months. Further details on the foreign currency forward contracts can be found in Notes 26(b) and 28(c)(v) to the financial statements.

NOTES TO FINANCIAL STATEMENTS

31 December 2017

28 FINANCIAL INSTRUMENTS, FINANCIAL RISKS AND CAPITAL MANAGEMENT (cont'd)

(c) Financial risk management policies and objectives (cont'd)

(i) Currency risk management (cont'd)

Currency risk exposure (cont'd)

<i>SGD equivalent</i>	USD	SGD	Others	Total
	\$'000	\$'000	\$'000	\$'000
<u>Group</u>				
At 31 December 2016				
<i>Financial assets</i>				
Cash and bank balances	2,105	230	18	2,353
Trade and other receivables	1,495	39	96	1,630
<i>Financial liabilities</i>				
Trade and other payables	(828)	(20,495)	(121)	(21,444)
<i>Net financial liabilities</i>	2,772	(20,226)	(7)	(17,461)
Less: Foreign currency forward contracts	-	15,000	-	15,000
Currency exposure	2,772	(5,226)	(7)	(2,461)

The Company's functional currency is Singapore dollar. Except for cash and bank balances of \$73,000 (2016: \$1,524,000) which are denominated in USD, there is no other currency exposure risk. The Company has relied on natural hedges of matching USD assets and liabilities with entities within the Group and accordingly, there was insignificant USD currency risk exposure as at 31 December 2017.

Currency sensitivity analysis

The following table details the sensitivity to a 10% increase and decrease in the exchange rate of the relevant foreign currencies against the functional currency of each Group entity. The magnitude represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts the translated amount at the period end for a 10% change in foreign currency rate. The sensitivity analysis includes external loans as well as loans to foreign operations within the Group where they gave rise to an impact on the Group's profit or loss and/or equity.

SP CORPORATION LIMITED AND ITS SUBSIDIARIES

NOTES TO FINANCIAL STATEMENTS

31 December 2017

28 FINANCIAL INSTRUMENTS, FINANCIAL RISKS AND CAPITAL MANAGEMENT (cont'd)

(c) Financial risk management policies and objectives (cont'd)

(ii) *Price risk management*

Due to the nature of the Group's operations, performance of certain subsidiaries in the Group who trade in aluminium, coal, rubber and steel wire rods are susceptible to changes in prices of these commodities. The Group has not entered into any hedging arrangements and at present is not hedged against price risks arising from these commodities. As far as possible, the Group adopts natural hedging by making purchases only when there is a sales demand.

Pricing sensitivity analysis

No sensitivity analysis is prepared as the Group does not expect any material effect on the Group's profit or loss arising from the effects of reasonably possible changes to price at the end of the reporting period as the Group adopts natural hedging by making purchases only when there is a sales demand.

(iii) *Cash flow and fair value interest rate risk*

Cash flow interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Fair value interest rate risk is the risk that the fair value of a financial instrument will fluctuate due to changes in market interest rates.

The Group mainly uses trade financing for funding. The Group's interest management policy is aimed at optimising net interest cost and reducing volatility in finance cost. A summary of quantitative data of the Group's interest-bearing financial instruments can be found in Note 28(c)(v).

Interest rate sensitivity analysis

No sensitivity analysis is prepared as the Group does not expect any material effect on the Group's profit or loss arising from the effects of reasonably possible changes to interest rates on interest bearing financial instruments at the end of the reporting period.

(iv) *Credit risk management*

Credit risk refers to the risk that a counterparty may default on its contractual obligations resulting in financial loss to the Group. The Group has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral where appropriate, as a means of mitigating the risk of financial loss from defaults. The Group manages these risks by monitoring credit-worthiness and limiting the aggregate risk to any individual counterparty. Therefore, the Group does not expect to incur material credit losses on its financial instruments.

SP CORPORATION LIMITED AND ITS SUBSIDIARIES

NOTES TO FINANCIAL STATEMENTS

31 December 2017

28 FINANCIAL INSTRUMENTS, FINANCIAL RISKS AND CAPITAL MANAGEMENT (cont'd)

(c) Financial risk management policies and objectives (cont'd)

(iv) Credit risk management (cont'd)

The maximum amount the Company could be forced to settle under the financial guarantee contracts in Note 27, if the full guaranteed amount is claimed by the counterparty to the guarantee is \$45,468,000 (2016: \$61,208,000). Based on expectations at the end of the reporting period, the Company considers that it is more likely than not that no amount will be payable under the arrangement. However, this estimate is subject to change depending on the probability of the counterparty claiming under the guarantee which is a function of the likelihood that the financial receivables held by the counterparty which are guaranteed suffer credit losses.

Other than as disclosed elsewhere in the financial statements, there was no significant concentration of credit risk at the end of the reporting period. The carrying amount of financial assets recorded in the financial statements, grossed up for any allowances for losses and the exposure to defaults from financial guarantees above, represents the Group's maximum exposure to credit risk without taking account of the value of any collateral obtained.

Other receivables in Note 10 are mainly derived from Singapore and Indonesia.

The refundable trade deposit and advances in Note 8 are derived from Singapore, China and Indonesia.

The credit risk for trade receivables by geographical areas is as follows:

	Group	
	2017	2016
	\$'000	\$'000
<u>By geographical areas</u>		
Singapore	23,718	26,750
Indonesia	10,394	8,323
China including Hong Kong	-	3,416

NOTES TO FINANCIAL STATEMENTS

31 December 2017

28 FINANCIAL INSTRUMENTS, FINANCIAL RISKS AND CAPITAL MANAGEMENT (cont'd)

(c) Financial risk management policies and objectives (cont'd)

(v) Liquidity risk management

The Group adopts prudent liquidity risk management by maintaining sufficient cash and cash equivalents and internally generated cash flows to finance its activities.

Due to the dynamic nature of the underlying businesses, the Group aims at maintaining flexibility in funding by keeping adequate committed credit facilities available.

Liquidity and interest risk analyses

Derivative financial instruments

The following table details the liquidity analysis for derivative financial instruments. The table has been drawn up based on the undiscounted gross inflows and (outflows) on those derivatives that require gross settlement.

	On demand or within 1 year \$'000	Within 2 to 5 years \$'000	After 5 years \$'000	Total \$'000
<u>Group</u>

Gross inflow	19	-	-	19
2016				
<i>Gross settled:</i>				
Foreign currency forward contracts				
Gross outflow	(327)	-	-	(327)

Non-derivative financial liabilities

The following tables detail the effective interest rates and the remaining contractual maturity for non-derivative financial liabilities. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group and the Company can be required to pay. The tables include both interest and principal cash flows. The adjustment column represents the possible future cash flows attributable to the instrument included in the maturity analysis which is not included in the carrying amount of the financial liability on the statement of financial position.

Non-derivative financial assets

The following tables detail the effective interest rates and the expected maturity for non-derivative financial assets. The inclusion of information on non-derivative financial assets is necessary in order to understand the Group's liquidity risk management as the Group's liquidity risk is managed on a net asset and liability basis. The tables have been drawn up based on the undiscounted maturities of the financial assets including interest that will be earned on those assets except where the Group and the Company anticipates that the cash flow will occur in a different period. The adjustment column represents the possible future cash flows attributable to the instrument included in the maturity analysis which are not included in the carrying amount of the financial asset on the settlement of financial position.

(vi) Fair value of financial assets and financial liabilities

As at the end of the reporting period, the Group's and the Company's carrying amounts of cash and bank balances, trade and other receivables and payables approximate their respective fair values due to the relatively short-term maturity of these financial instruments.

The fair value of the foreign currency forward contracts is measured based on Level 2. The valuation technique applied is discounted cash flow and key inputs are future cash flows which are estimated based on forward exchange rates (from observable forward exchange rates at the end of the reporting period) and contract forward rates, discounted at a rate that reflects the credit risk of various counterparties.

The Company had no financial assets or liabilities carried at fair value in 2017 and 2016.

There were no significant transfers between Level 1 and Level 2 of the fair value hierarchy during the financial year.

(d) Capital management policies and objectives

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern and to maintain an optimal capital structure so as to maximise shareholder value. The capital structure of the Group consists of equity attributable to owners of the Company, in the form of issued capital, translation account and accumulated losses as disclosed in the statement of changes in equity, and limited borrowing.

The Group monitors capital based on a debt-to-adjusted capital ratio. This ratio is calculated as net debt divided by adjusted capital. Net debt is calculated as total debt less cash and bank balances. Adjusted capital comprises all components of equity. The Group's overall strategy remains unchanged from 2016.

The Group is not subject to any externally imposed capital requirement.
