SINGAPORE, 4 November 2022 – IWOW Technology Limited ('iWOW' or the "Company', and together with its subsidiaries, the "**Group**")**,** a home-grown technology provider specialising in integrated wireless IoT solutions as a service, is pleased to announce that its eldercare technology (Personal Alert Button) was featured during the recent ministerial community visit to Yio Chu Kang as part of Singapore's "first dementia friendly constituency".

As reported by the Straits Times, Yio Chu Kang is set to be the first dementia-friendly constituency, with infrastructure and services catered to residents aged 65 and above, who currently form approximately 40% of the housing estate population. Deputy Prime Minister Lawrence Wong and Yio Chu Kang MP Yip Hon Weng were present at the ministerial community visit on Sunday where they rolled out plans for Yio Chu Kang to be entirely dementia-friendly by 2025.

During the event, Yio Chu Kang MP Yip Hon Weng shared that the various projects being piloted aim to provide services that can help the elderly age in the community instead of going to a nursing home. Among the projects announced is iWOW's LoRaWAN Personal Alert Button that will be

rolled out to 80 elderly residents at blocks 626, 641 and 645 Ang Mo Kio Avenue 4. The PAB allows seniors to call for help by alerting staff at the nearby Senior Activity Centre or CareLine (a telephone service by Changi General Hospital that provides health and social support to seniors). iWOW's proprietary PAB is the first battery powered and wireless SOS Button that supports push-to-talk voice messages while still achieving battery life of up to five years.

IWOW has successfully deployed close to 20,000 PABs since 2019. This pilot project in Yio Chu Kang demonstrates continued demand in Eldercare IOT solution and is testimony to iWOW's strength in developing and offering integrated IoT solutions as a service.

Mr. Raymond Bo, Chief Executive Officer and Executive Director of iWOW Technology, said, *"*We are heartened to have the opportunity to showcase our Eldercare IOT Solution to DPM Wong. Hopefully, our "little red buttons" will one day be a common feature in homes across Singapore, helping to keep our seniors and vulnerable communities safe.*"*
