

Annual Communication on Progress (ACOP) 2024

Golden Agri-Resources Ltd

Thank you for submitting your ACOP report. Please reach out to <u>acop@rspo.org</u> for any inquiries. Welcome to the Annual Communication on Progress (ACOP) 2024 report.

Before you begin your ACOP 2024 report, we recommend that you refer to the ACOP Guidelines document. This document contains a full list of ACOP 2024 questions in Annex 2 to assist you in preparing the report. The ACOP Guidelines document is available in English, Bahasa Indonesia, French, German, Spanish, Polish, Thai, Simplified Chinese and Japanese.

Get ACOP Guidelines

Help text containing guidelines and definitions for individual questions is available in the report. Please hover over this symbol ? to view the help text

The ACOP submission platform features an auto-save function. Your responses will automatically be saved as you proceed through the report, and you may exit and return to the report at a later time with your previous responses available.

At the end of the survey, you will be given an option to send a draft copy of the report to your email for review. Once the report has been submitted, you may download a PDF version of the report and a copy of the final report can also be sent to your email.

Please acknowledge that you have read the ACOP introduction and are ready to begin your report

1.0 RSPO Member Particulars

Member Name	Golden Agri-Resources Ltd
Membership Number	1-0096-11-000-00
Membership Sector	Oil Palm Growers
Membership Category	Ordinary
Country	Mauritius

2.0 Does your company or organisation produce, process, consume or sell any palm oil or any products containing derivatives of palm oil?

2.1 Please select ALL the palm oil-related activity(ies) that describe your company or organisation as multiple selections are allowed. ACOP reporting is NOT limited to the primary sector of the member's RSPO membership. You will be required to complete the relevant ACOP section based on your selection(s).

Example 1 :

For Environmental/Conservation NGO and Social/Development NGO RSPO members that consume or retail palm oil or products containing palm oil, you will be required to answer the "Retailer" ACOP form that must include the volumes of palm oil or products containing palm oil consumed or retailed under your organisation's own brands.

Example 2 :

Oil Palm Grower or Processors and/or Traders RSPO members that refine palm oil and manufacture own brand consumer cooking oil, you will be required to select and answer "Processors and/or Traders" and "Consumer Goods Manufacturers" ACOP form that must include the volumes of palm oil or products containing palm oil consumed under your organisation's own brands.

I own and operate oil palm estate(s)
I represent a palm oil Independent Smallholder farmer Group
I own and operate palm oil mills
I own and operate palm kernel crushing plants - Processors and/or Traders
I trade or broker palm oil, palm kernel oil or related products - Processors and/or Traders
I am a refiner of palm oil or palm kernel oil - Processors and/or Traders
I am a processor of intermediate (B2B) palm oil, palm kernel oil or related fractions/derivatives - Processors and/or Traders
I am a B2B distributor or wholesaler of palm oil, palm kernel oil or related products - Processors and/or Traders
I manufacture final consumer (B2C) products containing palm oil, palm kernel oil or related products. This includes products manufactured by 3rd party contractors - Consumer Goods Manufacturers
I retail final consumer (B2C) products containing palm oil, palm kernel oil or related products - Retailers

I operate food retail outlets that use palm oil, palm kernel oil or related products - Retailers

G.1.0 Operational profile

G.1.1 Please state your company's main activities as a palm oil grower: 🖸

- □ Oil palm grower without palm oil mill
- Oil palm grower with palm oil mill
- Oil palm grower with palm oil mill and palm kernel crushing plant
- Independent palm oil mill
- Smallholder Group Manager

G.2.0 - Operations and Certification Progress

Information in Section 2.0 - Operations and Certification Progress - is a mandatory declaration in your ACOP. This includes hectarage data, to enable the RSPO to accurately calculate certification of individual members, sectors and RSPO members as a whole. ACOP reports without reported hectarage data will be considered as incomplete and will not be accepted. Incomplete ACOP reports may lead to suspension or termination of RSPO membership.

G.2.1 Land area controlled and managed associated to palm oil

G.2.1.1 Please state the total number of palm oil estates, certified and uncertified, controlled or managed by the member ?

194

Land area controlled and managed associated to palm oil

G.2.1.2 Total land controlled or managed for oil palm cultivation - planted and infrastructure (hectares)	418209	ha
G.2.1.3 Total land controlled or managed for oil palm cultivation - unplanted (hectares)0	ha
G.2.1.4 Total land designated and managed as HCV areas (hectares)	66384	ha
G.2.1.5 Other conservation land set aside, excluding HCV areas reported in 2.1.4 (hectares)	13593	ha
G.2.1.6 Other land under management unit (hectares) (hectares)	0	ha
G.2.1.7 Total land under scheme smallholders (hectares)	118026	ha
Total	616,212	ha

G.2.2 Certification Progress

G.2.2.1 Number of management units certified under the RSPO P&C Certification ?

96

G.2.2.2 Total certified land under the RSPO P&C Certification, excluding scheme smallholders (hectares) ?

234281.64

G.2.2.2.1 Certification progress - land under RSPO P&C Certification, excluding scheme smallholders

47.03%

G.2.3 In which countries are your estates located? 🖸

G.2.3.1 Indonesia – Please indicate which province(s)

Press and hold Ctrl or Command on your keyboard to select or deselect multiple provinces.

Aceh
Bali
Bangka Belitung
Banten
Bengkulu
Central Java
Central Kalimantan
Central Sulawesi
East Java
East Kalimantan

G.2.3.2 Malaysia – Please indicate which state(s)

Press and hold Ctrl or Command on your keyboard to select or deselect multiple states.

G.2.3.3 Other – Please indicate which country/countries

Press and hold Ctrl or Command on your keyboard to select multiple countries.

_

G.2.4 New plantings and development (excluding replanting) 🖸

G.2.4.1 How much new land was planted by your company during this reporting period (hectares)? ?

0

G.2.5 Supply of Fresh Fruit Bunches (FFB)

G.2.5.1 Total FFB volume produced by estates managed or controlled by your company (tonnes)

7072721

G.2.5.1.1 Total certified FFB volume produced by certified estates managed or controlled by your company (tonnes)

4449726

G.2.5.1.2 Certification progress - Certified FFB volume produced by estates managed or controlled by your company

62.91%

G.2.5.2 In addition to FFB produced by your company's estates, does your supply base include any of the following?

- Outgrowers ?
- Other Third-Party Suppliers ?

G.2.5.3 Scheme smallholder operations that supply your operations:

G.2.5.3.1 Total FFB volume supplied by scheme smallholders (tonnes) 🖸

1909890

G.2.5.3.2 Total certified FFB volume supplied by scheme smallholders (tonnes)

875575

G.2.5.3.3 Certification progress - Certified FFB volume supplied by scheme smallholders

45.84%

G.2.6 Fresh Fruit Bunches (FFB) processing and production operations

G.2.6.1 Number of palm oil mills operated

48

G.2.6.2 Number of palm oil mills that are RSPO Certified

37

9

9

G.2.7 Palm Kernel processing and production operations

G.2.7.1 Number of palm kernel crushers and/or palm kernel mills operated 🖸

G.2.7.2 Number of palm kernel crushers and/or palm kernel mills certified under RSPO Supply Chain Certification (SCC) 🖸

G.3.0 Palm Oil and Certified Palm Oil Production

Information in Section 3 - Palm Oil and Certified Palm Oil Production - is a mandatory declaration in your ACOP. This includes volume, to enable the RSPO to accurately calculate production uptake on a member, sector and total level. ACOP reports without reported volume data will be considered incomplete and will not be accepted.

G.3.1 Total Crude Palm Oil produced (tonnes)

Malaysia	0 MT
Indonesia	2155566 MT
Latin America	0 MT
Africa	0 MT

G.3.11 CSPK sold as conventional	5238.54 MT
Total	246,980.13 MT

G.3.13 According to the volume information you have provided in this questionnaire, CSPK represents the following percentage of your total PK production

43.64%

G.3.14 Based on the CSPK sold volumes (Question G.3.12), please estimate the percentage of volumes originating from your operations in the following regions/countries:

G.4.0 TimeBound Plan

G.4.1 Which year did your company achieve (or plans to achieve) its first RSPO P&C certification?

G.4.2 Which year did your company achieve (or plans to achieve) 100% RSPO certification for all its estates and mills?

2027 🗸

G.4.2.1 If the previous target year for G.4.2 has not been met, please explain why

In response to a number of challenges that have delayed GAR from achieving its RSPO certification timebound plan, including RaCP and land title (HGU), which are currently in the processing stages, GAR has recently revised its RSPO Time-Bound Plan ("TBP") to 2027 due to additional non certified area within certified estates.

G.4.3 Which year did your company achieve (or plans to achieve) 100% RSPO certification of scheme smallholders?

2027 🗸

G.4.3.1 If the previous target year for G.4.3 has not been met, please explain why

GAR continues to communicate with the key stakeholders in order to achieve the deadline. The initial purpose is defined under conservative conditions in order to achieve the goal. However, the initial plan has been altered by many circumstances. Therefore, GAR will keep making the necessary changes to ensure that the deadline is met.

G.4.4 Which year did your company achieve (or plans to achieve) 100% RSPO certification for all FFB, regardless of source?

2030 🗸

G.4.4.1 If the previous target year for G.4.4 has not been met, please explain why

GAR recognizes that the timebound is now tailored to the current circumstances and situations. We believe that this makes the goal achievable. However, we also recognize that some issues are outside the organization's jurisdiction and involve other significant key players. Therefore, despite challenging challenges, we are striving to achieve the current objectives.

G.5.0 Concession Boundaries

G.5.1 The RSPO General Assembly Resolution 6G (2013) calls for all members with Grower operations to submit their concessions boundaries through ACOP.

Has your company submitted complete concession boundaries up to supply base level to the RSPO in previous ACOP cycles as per Formatting Requirements for Plantation Boundary Data Submission Guidelines?

G.5.2 Has your company either acquired any new concession sites, have any concession sites changed ownership or change its boundaries since the previous ACOP submission?

Thank you for previously submitting your company's concession maps in Shapefile format. If there are any updates to the maps, please contact the RSPO GIS team at <u>maps@rspo.org</u>

G.6.0 GHG Footprint

G.6.1 Has your company started quantifying its GHG emissions and monitoring?

Yes. Please state the year when your company started tracking and monitoring. 2015

No. Please explain why your company has yet to start GHG emissions tracking and monitoring. G.6.2.1 What is the average GHG emissions by hectare (tCO2e/ha) for all certified management units in this reporting year? [?]

4.93

G.6.2.2 What is the average GHG emissions per tonne of crude palm oil (tCO2e/tCPO) for all certified management units in this reporting year?

2.62

G.6.3 What are the key emission sources identified by your company in certified management units? 🖸

Land use change

- Existing cultivation peatland
- Palm oil mill effluent (POME)
- Fertiliser application
 - Others

- Land use change - Existing cultivation peatland - Palm Oil effluent (POME) - Fertiliser application - Fuel consumption - Electricity consumption from the grid

G.6.4.1 Does your company have a long-term target? 🛛

Yes. Kindly provide your company target(s).

On the route to reaching Net Zero by 2050, we established a decarbonisation objective in 2024 to reduce absolute emissions in our direct activities by 30% for SCOPE 1 and 42% for SCOPE 1 and 2 in our indirect operations by 2030. Additionally, we are collaborating with our supply chain partners to advance their decarbonisation initiatives.

No. Please explain why your company did not have an emissions target, and forecast how your emissions will change over the next five years?

G.6.4.2 What is your baseline year for setting the target? 🖸

G.6.4.3 What is your target baseline (average tCO2e/tCPO)? 🛛

5.90

G.6.5 Does your company have an annual GHG emissions reduction/minimising target for all certified management units?

O Yes

No, identify the reason(s) :

Although our goal is to reduce GHG emissions by 2030, we only have predicted reductions until that time and do not have derived objectives for all certified management units.

G.7.0 Support for Oil Palm Smallholders

G.7.1 How is your company supporting Independent Smallholder groups? 🖸

Sourcing of physical FFB
Financial support
Operations support
Training support
Community development
Not supporting Independent Smallholder groups
Others

G.7.1.1 Please provide the names and locations of the oil palm Independent Smallholder groups that you are currently supporting. This question is <u>not</u> <u>mandatory</u>, and is left to the discretion of the RSPO member to answer.

We have helped independent farmers get state-owned bank finance for replanting since 2014. We also run a range of programs that foster smallholder independence. Through the Smallholders Development Program, we have provided technical assistance to independent farmers in East Kalimantan since 2013. Farmers have access to high-yielding crops, fertilizer, herbicides, and heavy equipment leasing.

G.8.0 Actions For Next Reporting Period

G.8.1 Outline activities that your company will undertake in the coming year to advance its certification efforts.

We hope to have certified all of our remaining mills and their supply-bases, including plasma estates, by the year 2027.

G.8.2 Outline activities that your company will undertake in the coming year to promote the uptake CSPO along the supply chain.

We have been steadily advancing towards 100% Traceability to the Plantation (TTP). By the end of 2023, we had accomplished over 99% TTP for our entire palm supply chain. This significant milestone reflects years of dedicated effort, dating back to 2015, when our supply chain traceability project was initiated. Using the traceability data, we can design programmes to support the thousands of smallholders we have mapped to adopt more sustainable practices. We are now partnering with our major customers on programmes to reach Tier 2 suppliers like independent smallholders and agents. These include programmes like Sawit Terampil. Working with major customers and GAR, we focus on upskilling independent smallholders from the Leuser Ecosystem area in Aceh and North Sumatra. The smallholders receive group coaching and individual support on good agricultural practices. Currently, more than 7,000 smallholders have benefitted from the project. Notably, in 2023, we helped 270 smallholders to attain RSPO certification in Aceh, covering plantations of about 560 hectares. We will continue to scale up these efforts.

PT.1.0 Operational Profile

PT.1.1 Please state your company's main activity within the palm oil supply chain.

Refiner of CPO and PKO ?
Palm Kernel Crusher
Trader with Physical Possession
Trader without Physical Possession
Integrated Refiner-Trader-Processor
Intermediate Products Producer ?
Power, Energy and Biofuel Processor <table-cell></table-cell>
Animal Feed Producer
Oleochemicals Producer
Distribution & Logistics
Other

PT.2.0 Palm Oil and Certified Sustainable Palm Oil Consumption

Information in Section 2.0 - Palm Oil and Certified Sustainable Palm Oil Sourcing is a mandatory declaration in your ACOP. This includes volume data on palm oil, palm kernel oil and related products consumed of individual members, sectors and RSPO members as a whole. ACOP reports without reported volume data will be considered as incomplete and will not be accepted. Incomplete ACOP reports may lead to suspension or termination of RSPO membership.

PT.2.1 Please include details of all certified and uncertified operations using palm oil, palm kernel oil and related products, owned and/or managed by the member and/or all entities that belong to the group.

Fully-owned

PT.2.1.1 In which markets do you sell goods with palm oil and palm oil - related products?

Europe ?
North America ?
China
India
Malaysia
Indonesia
Africa ?
Latin America ?
Rest of the World ?

DL.2.0 In order to facilitate ease of reporting and transparency, RSPO members operating within the palm oil demand supply chain can now choose to report palm oil and palm oil product volumes on:

an aggregate level (as in previous ACOP reporting cycles) OR
 by up to 5 individual subsidiaries. Members with more than 5 subsidiaries will be required to aggregate the volumes of remaining subsidiaries into a separate total.

Please indicate whether you would like to declare your palm oil and palm oil product volumes in aggregate or by subsidiaries 🖸

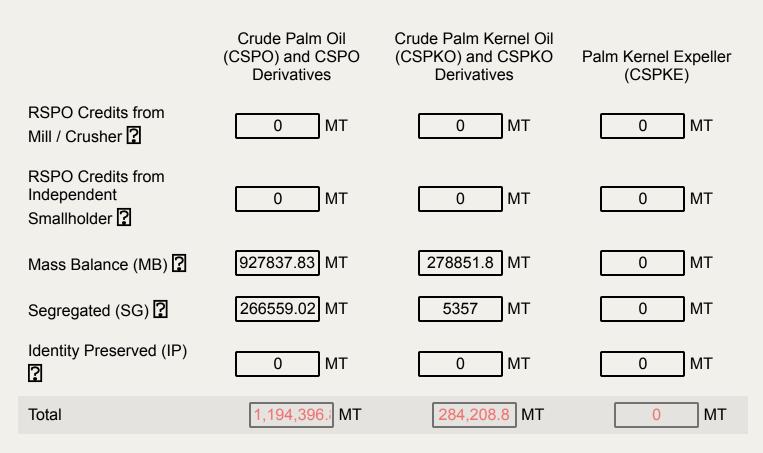

an aggregate level (as in previous ACOP reporting cycles)

by up to 5 individual subsidiaries. Members with more than 5 subsidiaries will be required to aggregate the volumes of remaining subsidiaries into a separate total.

PT.2.2 Total volume of <u>RSPO-certified</u> (IP, MB, SG and RSPO Credits/Book and Claim) and Non <u>RSPO-certified</u> palm oil, palm kernel oil and related product sourced in the year ?

Crude palm oil, including derivatives refined from CPO (tonnes)	7465199 MT
Crude palm kernel oil, including derivatives refined from CPKO (tonnes) <table-cell></table-cell>	1167580 MT
Crude palm kernel expeller (tonnes)	795048 MT
Total	9,427,827 MT

PT.2.3 Volume of RSPO-certified palm oil, palm kernel oil and related products sourced in the year (tonnes):

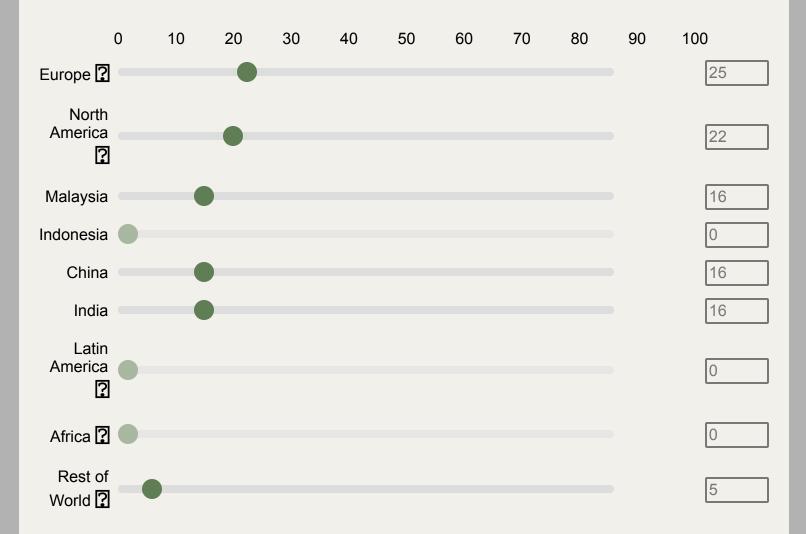

PT.2.4 According to the volume information you have provided in Question PT.2.2 and Question PT.2.3, your company's certified palm oil, palm kernel oil and related products uptake is:

PT.2.4.1 Please provide additional information on your certified palm oil, palm kernel oil and related products uptake calculated in PT.2.4. This may include changes due to business environment, evolving nature of operations or variations due to stock positions

There is no further comments or information in this section.

PT.2.5 What is the estimated percentage of Certified Sustainable Palm Oil in the palm oil, palm kernel oil and related products sold, traded or processed by your company in the following regions:

PT.3.0 TimeBound Plan

PT.3.1 Which year did your company achieve (or expects to achieve) the RSPO supply chain certification or RSPO trader/distributor licence?

2013 🗸

PT.3.2 Which year did your company start (or expect to start) to source any RSPO-certified palm oil and oil palm products?

2013 🗸

PT.3.2.1 If the previous target year has not been met, please explain why.

Target has been achieved.

PT.3.3 Which year did your company achieve (or expects to achieve) 100% RSPO certification of all palm product processing facilities. 🖸

2017 🗸

PT.3.3.1 If the previous target year has not been met, please explain why.

Target has been achieved.

PT.3.4 Year expected to only source RSPO-certified palm oil and oil palm products.

2030 🗸

PT.3.4.1 If target has not been met, please explain why.

The timebound is currently ongoing.

PT.3.5 If the TimeBound Plan commitments declared above do not cover all countries in which the member operates, please explain why

Since most of our farmers create RSPO Certified products and most consumers want them, we believe that the industry should adapt to better manage these items. In order to accomplish this goal, GAR is dedicated to collaborating with our customers, suppliers, and other RSPO members.

PT.4.0 Actions for Next Reporting Period

PT.4.1 Please outline activities that your company will take in the coming year to promote the production or consumption of certified sustainable palm oil (CSPO)

Participation in RSPO Working Group or Task Forces
Support Independent Smallholders (ISH)
Contribute to the RSPO Smallholder Trainer Academy
Financial contribution to the RSPO Smallholder Support Fund
Direct investments in Smallholder Certification projects
Involvement/direct investments in Jurisdictional/Landscape approach
Direct/collective investments in conservation and restoration initiatives
Financial contribution to support members with Remediation and Compensation (RaCP) process, direct/collective investments in conservation and restoration initiatives
Allocating FTE to promote the production or consumption of certified sustainable oil palm products
Specific policies and action plans by the member to promote CSPO production or consumption in the upstream or downstream supply chain, including target dates or broader policies that include such efforts
No activities planned
Others
We inform our clients of our ability to implement the RSPO CSPO's MB & SG physical supply chain modules. Additionally, we encourage our suppliers to follow the RSPO guidelines. Please visit our GAR Website (https://www.goldenagri.com.sg/sustainability/certifications/RSPO/) and GAR Supplier Assessment (https://www.goldenagri.com.sg/sustainability/responsiblesourcing/supplierassessment/) for additional details on our initiatives to promote the adoption of RSPO certification on oil palm products in our supply chain.

CS.1.0 Challenges and Support

CS.1.1 What significant obstacles or challenges has your company encountered in the promotion of certified sustainable palm oil (CSPO)? What efforts has your company taken to address these obstacles or challenges?

- Awareness of RSPO in the market
- Difficulties in the certification process
- Certification of smallholders
- Competition with non-RSPO members
- High costs in achieving or adhering to certification
- Human rights issues

Insufficient demand for RSPO-certified palm oil

- Low usage of palm oil
- Reputation of palm oil in the market
- Reputation of RSPO in the market
- Supply issues
- Traceability issues
- No challenges faced

Others

1. The main markets in which we do business have low demand. 2. On the supply side, it is difficult to persuade new plantations to join the RSPO when there is no immediate demand. 3. Not all suppliers may get RSPO accreditation, nor do all clients demand items to have this certification. 4. There is a twofold effort to show that RSPO certified providers can also comply with the EUDR since the EUDR law requires extra requirements separate from RSPO certification.

CS.1.2 In addition to the actions already reported in this ACOP report, what other ways has your company supported the vision of the RSPO to transform markets to make sustainable palm oil the norm?

Communication and/or engagement to transform the negative perception of palm oil
Engagement with business partners or consumers on the use of CSPO
Engagement with government agencies
Engagement with peers and clients
Promotion of CSPO through off product claims
Promotion of CSPO outside of RSPO venues such as trade workshops or industry associations
Promotion of physical CSPO
Providing funding or support for CSPO development efforts
Research & Development support
Stakeholder engagement
No actions taken
Others

CS.1.3 If your company has any other publicly-available reports or information regarding its palm oil-related policies and activities, please provide the links here ?

Please refer to our GAR Website:(https://www.goldenagri.com.sg/sustainability/certifications/RSPO/) and GAR Supplier Assessment:

(https://www.goldenagri.com.sg/sustainability/responsiblesourcing/supplierassessment/) for more information on our efforts in promoting the use of RSPO Certification on oil palm products in our supply chain.

Shared Responsibility

The SR performance uploaded in <u>MyRSPO</u>, together with the certified volume uptake reported in ACOP, is translated into a score published in the <u>SR Scorecard</u> of the RSPO website. Evidence to show compliance to the SR requirements shall be uploaded via your membership profile in MyRSPO. Please login to your <u>MyRSPO</u> account and upload the relevant policies, plans and relevant reports there. If you do not have a policy or your policy does not cover all items, you will be required to provide a Declaration of Support for the relevant policy items in your MyRSPO profile.

Please find the guide on how to declare SR performance in MyRSPO <u>here</u>. Additional information on the required policies and plans applicable to all sectors as well as the annual uptake targets for supply chain actors can be found on the SR Requirements 2019 document (Annex 1), the specific Sector Guidance documents and the Factsheet for the calculation of Shared Responsibility Uptake Target volume <u>here</u> or email the Shared Responsibility team at <u>sharedresponsibility@rspo.org</u>.

The next update of the SR Scorecard will take place in **September 2025**, using the data available in **MyRSPO by 1 July 2025** and **ACOP 2024 uptake volumes**.

Please acknowledge that you have read and understood the Shared Responsibility requirements for policy submissions.

S.1.0 Would you like to submit your ACOP 2024 report now? The data reported in ACOP 2024 is acknowledged to be true and accurate upon submission.

 No, I would like to have my ACOP 2024 reviewed internally by my company or organisation before submission

Yes, I would like to proceed to submit my ACOP 2024 report

S.1.2 Thank you for completing your ACOP 2024 report. Please click the Submit button below to submit your final ACOP 2024 report.

Please enter your email address below to receive a copy of your ACOP 2024 report by email. You may also download a PDF copy of your report once it has been submitted.

steven.f.tamaweol@sinarmas-agri.com

To enhance our communication efforts, we encourage you to keep the contact details of your organization's RSPO representatives in MyRSPO updated from time to time.

Note: While acknowledging this is optional, your response would be helpful and appreciated.

 I have reviewed the contact details of my organisation's RSPO representatives in MyRSPO and have ensured it is up-to-date.

If you have any questions regarding your ACOP reporting, please contact the ACOP team at <u>acop@rspo.org</u>
