

FOR IMMEDIATE RELEASE

Secura's subsidiary partners with the Singapore Business Federation on Cybersecurity Capabilities Workshops

- **Marks the Group's continued move towards expanding its cyber security service suite**

SINGAPORE, 16 September 2016 – Secura Group Limited (新保安集团有限公司) (“**Secura**” or the “**Company**” and together with its subsidiaries, the “**Group**”), one of the leading providers of security products, services and solutions in Singapore, today announced that its wholly-owned subsidiary, Red Sentry Pte. Ltd. (红胜私人有限公司) (“**Red Sentry**”), has entered into a collaboration agreement with the Singapore Business Federation (“**SBF**”) to raise companies’ capabilities in cyber security.

Themed as the Cybersecurity Capabilities Series, these workshops aim to help Singapore companies, especially small and medium-sized enterprises, better understand the cyber security landscape and address cyber security threats more effectively.

“This collaboration with Singapore’s apex business chambers to be its cyber security partner is a strong endorsement of Red Sentry’s domain expertise in cyber security, as well as its strong track record in this industry. The rising threats of cybercrimes cannot be underestimated and we are indeed honoured to partner SBF in preparing organisations to deal with current and potential future cyber security threats,” said **Mr. Paul Lim (林春伟), Chief Executive Officer of Secura.**

There are three courses structured to cater to different levels within an organisation, ranging from staff, mid-level management and C-level executives. The topics are designed for participants and companies not in the information technology sector or with no technical background. The quarterly-run series is part of SBF’s role as the business continuity management focal point to

encourage more Singapore companies to adopt ISO 27001 – Information Security Management System. As the apex business chamber, the SBF champions the interests of the business community in Singapore in trade, investment and industrial relations as well as serving more than 22,500 member companies.

“This collaboration also marks Secura’s first move into cyber security training, which reflects our continued push to expand our suite of services and solutions in the cyber security space. We are working towards getting Red Sentry accredited by the Workforce Development Agency as an Approved Training Organisation,” said Mr. Paul Lim.

Secura’s security guarding subsidiary, Soverus Pte Ltd, has been an Approved Training Organisation accredited by the Workforce Development Agency since July 2015 for guarding-related trainings.

Secura launched its cyber security business in January 2015 and has achieved significant growth in the sales of cyber security-related products and professional services. The Group is currently expanding its suite of cyber security services for enterprise customers in the business-to-business market in both Singapore and the region. The Group also intends to extend its cyber security services to the consumer market by 2017.
