

34 million European Style Index Put Warrants expiring on 28 August 2025 relating to the Hang Seng Index (the "Warrants")

- The terms set out in this Term Sheet are a summary of, and are subject to the terms and conditions (the "**Conditions**") set out in Macquarie Bank Limited's (the "**Issuer**") base listing document dated 5 June 2025 (the "**Base Listing Document**") and the supplemental listing document to be dated on or about 16 June 2025 (the "**Supplemental Listing Document**", together with the Base Listing Document, the "**Listing Documents**").
- If you are in any doubt on whether Warrants are suitable for you, you should consult your financial advisers or such other professional advisers to the extent that you consider necessary.
- Please read the Listing Documents and the risk factors stated in such Listing Documents and in this Term Sheet carefully. You should not invest in Warrants if you do not understand the risks or are not willing to assume the risks.
- This Term Sheet does not constitute or form part of any offer, or invitation, to subscribe for or to sell, or solicitation of any offer to subscribe for or to purchase, the Warrants or other securities of the Issuer, nor is it calculated to invite, nor does it permit the making of, offers by the public to subscribe for or purchase for cash or other consideration the Warrants or other securities of the Issuer. This Term Sheet may not be distributed or circulated by you to any other person other than in a manner which complies with the restrictions set out in the section entitled "Sales Restrictions" in the Base Listing Document.

MACCOANTE	
Warrants are volatile instruments and are subject to considerable fluctuations in value due to, including but not limited to, the level and volatility of the Index, dividends and interest rate, the time remaining to expiry and the creditworthiness of the Issuer.	
• You may lose your entire investment Changes in the price of the level of the Index can be unpredictable, sudden and large, resulting in the Index moving in a direction which will negatively impact upon the return on investment. If the level of the Index reaches a level such that the Cash Settlement Amount at expiry is less than or equal to zero, you will lose	
your entire investment.	
Liquidity Risks	
The secondary market may be illiquid	
DMM may be the only market participant buying and selling the Warrants. Therefore, the secondary market for the Warrants may be limited and you may not be able to realise the value of the Warrants. Please note that the bid-ask spread increases with illiquidity. As the Warrants are only exercisable on the Expiry Date, you will not be able to exercise your Warrants to realise value in the event that the trading in the Warrants becomes illiquid.	
Product Specific Risks	
Trading in the Warrants may be suspended	
If trading in the shares or securities relating to or constituting the Index is suspended, trading of options or futures relating to the Index on any options or futures exchanges is suspended, or options or futures generally on any options and/or futures exchanges on which options or futures relating to the Index are traded is suspended, or if the Index for whatever reason is not calculated, trading in the Warrants will be suspended for a similar period.	
• The value of certain index constituents may not be included in the closing level of the Index A level for the Index may be published by the Index Sponsor at a time when one or more shares comprised in the Index are not trading. If this occurs on a Valuation Date and there is no Market Disruption Event under the terms of the Warrants then the value of such shares will not be included in the closing level of the Index.	
• Issuer may make adjustments to the terms and conditions of the Warrants	
You should note that an investment in the Warrants involves valuation risks in relation to the Index. The	
level of the Index may vary over time by reference to various factors, including changes in computation or	
composition. Certain events relating to the Index may require or permit the Issuer to make certain	
adjustments or amendments to the Conditions. However, the Issuer is not required to make an adjustment	
for every event that affects the Index and if an event occurs which does not require the Issuer to adjust the	
Conditions, the market price of the Warrants and the return upon exercise of the Warrants may be affected.	
 No notice will be given if the Issuer determines that adjustments will not be made. You may be exposed to an exchange rate risk 	
There may be an exchange rate risk where the Cash Settlement Amount is converted from a foreign currency	
into Singapore Dollars.	
Issuer Related Risks	
You are exposed to the credit risk of the Issuer	
The Warrants constitute direct, general and unsecured contractual obligations of the Issuer and of no other	
person, and rank on a parity with the Issuer's other unsecured contractual obligations and unsecured and	
unsubordinated debt other than indebtedness preferred by mandatory provisions of law. If you purchase the	
Warrants, you are relying upon the creditworthiness of the Issuer and have no rights under the Warrants	
against any other person. If the Issuer is unable to meet its obligations under the Warrants, you will lose	
your entire investment. The Issuer issues a large number of financial instruments, including Warrants, on a	
global basis and at any given time, the financial instruments outstanding may be substantial. A reduction in	
the rating, if any, accorded to the outstanding debt securities of the Issuer by any one of its rating agencies	
could result in a reduction in the trading value of the Warrants. The Issuer does not in any respect underwrite or guarantee the performance of any Warrant. As the Issuer is not incorporated in Singapore, any insolvency	
proceedings in respect of the Issuer will be subject to foreign insolvency laws and procedures.	
 Conflicts of interest may arise from the overall activities of the Issuer or its affiliates 	
The Issuer and any of its affiliates are diversified financial institutions that engage in a wide range of	
commercial and investment banking, brokerage, funds management, hedging transactions and investment	
and other activities for their own account or the account of others. In addition, the Issuer and any of its	
affiliates, in connection with their other business activities, may possess or acquire material information or	
publish or issue research reports about the Index. Such activities and information may involve or otherwise	
affect the Index in a manner that may cause consequences adverse to investors in the Warrants or otherwise	
create conflicts of interests in connection with the issue of Warrants by the Issuer.	
• Hedging or market-making activities by the Issuer or its affiliates may affect the Warrants	
In connection with hedging or market-making activities or with respect to proprietary or other trading	
activities by the Issuer or its affiliates, the Issuer or its affiliates may enter into transactions in the Index or related derivatives which may affect the market price, liquidity or value of the Warrants and which may	

F. FEES AND CHARGES

affect the interests of investors in the Warrants.

WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT? • Normal transaction and brokerage fees apply, similar to fees that you would pay for other transactions on

SGX-ST.

APPENDIX

DISCLAIMER OF THE INDEX SPONSOR
