

## METECH INTERNATIONAL LIMITED

(Incorporated in the Republic of Singapore)  
(Company Registration Number 199206445M)

---

### MONTHLY UPDATE FOR JUNE 2026

---

The board of directors (the “**Board**”) of Metech International Limited (the “**Company**”, and together with its subsidiaries, the “**Group**”) would like to provide an update on the following:

1) **The appointment of executive officers, including, but not limited to, the Chief Financial Officer (or a person with equivalent authority) of the Company (“CFO”)**

The Company has identified a candidate and has completed the necessary due diligence and internal evaluation for the appointment of the potential candidate for the role of CFO. The Company will make the necessary announcement(s) on SGXNet should the appointment of the CFO materialise in due course.

2) **The Company’s operations**

(a) **Lab-grown diamond business (“Diamond Business”)**

The Company wishes to update shareholders of the Company (“**Shareholders**”) that it has on 30 April 2026 obtained Shareholders’ approval for the proposed disposal of its 80% stake in Asian Eco Technology Pte. Ltd. (“**AET**”) (“**Disposal**”). Accordingly, AET will cease to be a subsidiary of the Company upon completion of the Disposal.

(b) **The Food Waste Business**

**Biomass Carbon Reduction System Machines**

The Company wishes to update shareholders that the biomass carbon reduction system machines, intended for the pilot trial, have arrived at the factory and have successfully completed testing and commissioning. Concurrently, the Company is actively engaging with corporations across multiple countries and industries to expand into various regional and international markets.

Concurrently, based on information provided by Colorful Paradise Agricultural Cooperation Co., Ltd., the Company’s joint venture partner in Taiwan, the project has received grant support as an approved initiative by the Taiwan authorities, reflecting strong market demand for such machines. To date, orders have been placed for the biomass carbon reduction system machines, underscoring the product’s viability. The Company views this as a positive development and will further strengthen its cooperation with CPAC to expand the deployment of the biomass carbon reduction system machines, including discussions on the appropriate business model and commercial arrangements going forward. In view of the grants received from the relevant authorities in Taiwan, the Company is currently in discussions with Colorful Paradise Agricultural Cooperation Co., Ltd. in relation to the joint fulfilment of such orders. The Company may also, with Colorful Paradise Agricultural Cooperation Co., Ltd., expand the relevant businesses into the ASEAN region.

## Premium Protein Powder

In relation to the non-binding memorandum of understanding with MLF Ingredients Sdn. Bhd. (“MLF”), the Company is in discussions with MLF on the proposed pricing of its potential high-protein animal nutrition products for the South Korea and United States markets. Concurrently, the Company is exploring collaborations with neighboring vendors to leverage their established sales networks to expand its global market reach, including in South Korea, the United States, Europe and Asia, while evaluating Malaysia as a potential manufacturing and production base for such products.

The Company possesses the technical know-how to derive high-quality food-grade protein ingredients from food valorization streams and plant-derived sources. The current formulation targets comprise approximately 40% protein derived from food industry by-products and valorization sources, including soy waste, brewer’s extract residues and dairy waste streams, with the remaining 60% derived from plant-based ingredients. To validate the protein content of the product, the Company had commissioned an independent third-party laboratory test.

The Company is exploring commercialization opportunities for applications including premium animal feed, baby animal nutrition, senior meal replacement products and infant nutrition formulations, subject to applicable regulatory approvals and market requirements. Management believes the high-quality protein formulations may contribute to improved nutritional outcomes, enhanced digestibility, reduced mortality rates in young animal applications and overall improved health performance.

Notwithstanding the foregoing, in light of the business developments, the Company plans to manufacture and/or assemble key components of its machines in Singapore, therefore requiring a suitable factory space.

In connection with the aforementioned, the Company has reached an in-principle understanding with the vendor of the factory in relation to a potential investment, with a view to reducing operational costs.

In this regard, the Company will make the relevant announcements in accordance with the Catalyst Rules as and when there are any material developments, including the entry into definitive agreements with the vendor (if any).

### (c) The Health Supplements Business

To meet increasing demand, the Company is working with its suppliers to scale production capabilities in China, through strategic supplier partnerships and enhancing its sales initiatives. Additionally, the Company is evaluating the introduction of innovative supplements to the market, such as Soy Oligopeptide, Okra Polysaccharide, Dibipro, Oyster Peptide, and Okra drinks.

In view of the above development, the Company plans to increase its purchases from the suppliers in order to maximize its revenue in the coming months.

### 3) **The proposed placement of 100,000,000 new ordinary shares (“Placement Shares”) in the capital of the Company (the “Placement”)**

As announced by the Company on 26 June 2026, the Company had entered into two (2) separate subscription agreements with Mr. Ma Ong Kee and Raffles Capital Limited (collectively, the “Subscribers”), where each of the Subscribers have agreed to subscribe and pay for, and the Company will allot and issue to each of the Subscribers, 50,000,000 Placement Shares, amounting to an aggregate of 100,000,000 Placement Shares, at the price of S\$0.040 for each Placement Share, amounting to an aggregate Placement consideration of S\$4,000,000.

The Company has, through its sponsor, applied to the SGX-ST for the listing of, and quotation for, the Placement Shares on the Catalist board of the SGX-ST. The Company will make the necessary announcement(s) in due course when there are any material developments in this regard.

By Order of the Board of Directors of  
**Metech International Limited**
