E. NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

1. Corporate information

Sanli Environmental Limited (the “Company”) is incorporated in Singapore (Registration No. 201705316M) with its principal place of business and registered office at 28 Kian Teck Drive, Singapore 628845. The Company was listed on the Catalist Board of the Singapore Exchange Securities Trading Limited (“SGX-ST”) on June 8, 2017.

The principal activities of the Company are those of investment holding and provision of management services. The principal activities of the subsidiaries are disclosed in Note 12 to the condensed interim consolidated financial statements.

2. Basis of preparation

The condensed interim financial statements for the six months and full year ended 31 March 2022 have been prepared in accordance with Singapore Financial Reporting Standard (International) (“SFRS(I)”) 1-34 *Interim Financial Reporting*.

The condensed interim financial statements do not include all the information required for a complete set of financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the financial position and financial performance of the Group since the last interim financial statements for the period ended 30 September 2021.

The accounting policies adopted are consistent with those of the previous financial year which were prepared in accordance with SFRS(I)s. Adoption of new and amended standards is set out in Note 2.1.

The condensed interim financial statements are presented in Singapore dollar which is the functional currency of the Company and all financial information presented in Singapore dollar are rounded to the nearest thousand (\$’000) except otherwise indicated.

2.1 New and amended standards adopted by the Group

The Group and the Company adopted all the new and revised SFRS(I) pronouncements that are relevant to its operations. The adoption of these new and revised SFR(I) pronouncements does not result in changes to the Group’s and the Company’s accounting policies and has no material effect on the amounts reported for the current or prior periods.

The following SFRS(I)s, SFRS(I) INTs and amendments to SFRS(I) that are relevant to the Group and the Company were issued but not effective.

- Amendments to SFRS(I) 3 *Reference to Conceptual Framework* ¹
- Amendments to SFRS(I) 1-37 *Onerous Contracts – Cost of Fulfilling a Contract* ¹
- Annual improvements to SFRS(I)s 2018-2020 ¹
- Amendments to SFRS(I) 1-1: *Classification of Liabilities as Current or Non-current* ²
- Amendments to SFRS(I) 1-1 and SFRS(I) Practice Statement 2 *Disclosure of Accounting Policies* ²
- Amendments to SFRS(I) 1-8 *Definition of Accounting Estimates* ²

Sanli Environmental Limited
Condensed Interim Financial Statements
For the Six-Months and Full-Year Ended 31 March 2022

- Amendments to SFRS(I) 1-12 Deferred Tax related to Assets and Liabilities arising from a Single Transaction ²

¹ Effective for annual periods beginning on or after January 1, 2022.

² Effective for annual periods beginning on or after January 1, 2023.

Management anticipates that the adoption of the above SFRS(I)s, SFRS(I) INTs and amendments to SFRS(I) in future periods will not have a material impact on the financial statements of the Group and the Company in the period of their initial adoption.

2.2 Use of judgements and estimates

In preparing the condensed interim financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

The significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the audited financial statements as at and for the financial year ended 31 March 2021.

3. Seasonal operations

The Group's businesses were not affected significantly by seasonal or cyclical factors during the financial period reported on.

4. Segment and revenue information

For purposes of resource allocation and assessment of segment performance, the Group's Chief Operating Decision Makers ("CODM") have focused on the business operating units which in turn are segregated based on the type of services supplied. This forms the basis of identifying the segments of the Group under SFRS(I) 8 *Operating Segments*. The CODM comprises the Group's Chief Executive Officer and the Executive Directors.

Operating segments are aggregated into a single reportable operating segment if they have similar economic characteristics, such as long-term average gross margins, and are similar in respect of nature of services and process, type of customers, and if applicable, the nature of the regulatory environment.

For management purposes, the Group is currently organised into two operating segments:

- Engineering, Procurement and Construction ("EPC") - provision of engineering, procurement and construction services relating to water and waste management.
- Operations and Maintenance ("O&M") - provision of operations and maintenance services relating to water and waste management.

5.1. Fair value of financial assets and liabilities

The carrying amounts of cash and cash equivalents, trade and other receivables and payables approximate their respective fair values due to the relatively short-term maturity of these financial instruments. Management is of the view that the carrying amounts of borrowings and leases liabilities approximate their respective fair values as the interest rates approximate the prevailing market rates.

The Group and the Company has no financial assets and financial liabilities that are measured at fair value on a recurring basis.

16. Subsequent events

On 26 May 2022, the Group convened an EGM to seek approval from the Company's shareholders of the following:

- i) the diversification of the Group's business to include, as part of its core business, the business comprising, but not limited to, manufacturing of magnesium hydroxide slurry, for use in various industrial applications (the "Diversification");
- ii) the adoption of a share option scheme to be known as the "Sanli Employee Share Option Scheme" (the "Option Scheme"), to authorise the Directors to grant options to subscribe for and/or purchase ordinary shares of the Company, in the form of existing shares held as treasury shares and/or new shares, to selected employees of the Company and its subsidiaries and other selected participants, on such terms as the Directors may determine from time to time, subject

to and in accordance with the rules of the Scheme and all applicable laws, regulations and rules;
and

- iii) the grant of authority to offer and grant options at a discount of up to 20% to the market price of ordinary shares of the Company under the Option Scheme.

The Diversification and the Option Scheme do not have any effect on this set of condensed interim financial statements.

On 14 April 2022, the Group's wholly-owned subsidiary, Sanli M&E Engineering Pte. Ltd, had incorporated a wholly-owned subsidiary named Enviro Plant & Engineering Pte. Ltd ("EPE").

EPE's principal businesses are to provide environmental engineering solutions for water and wastewater treatment, air pollution control and solid waste management in the industrial plant sector in Singapore and Southeast Asia countries.

The incorporation of EPE does not have any effect on this set of condensed interim financial statements.

OTHER INFORMATION PURSUANT TO APPENDIX 7C OF THE CATALIST RULES

1. Whether the figures have been audited or reviewed and in accordance with which auditing standard

The condensed interim consolidated statement of financial position of the Group and the condensed interim statement of financial position of the Company as at 31 March 2022, and the condensed interim consolidated statement of comprehensive income, condensed interim consolidated statement of changes in equity and condensed interim consolidated statement of cash flows of the Group and the condensed interim statement of changes in equity of the Company for the six-months period and full-year ended 31 March 2022, and certain explanatory notes have not been audited or reviewed by the Company's auditors.

2. Where the latest financial statements are subject to an adverse opinion, qualified opinion or disclaimer of opinion:-

(a) Updates on the efforts taken to resolve each outstanding audit issue.

(b) Confirmation from the Board that the impact of all outstanding audit issues on the financial statements have been adequately disclosed.

This is not required for any audit issue that is a material uncertainty relating to going concern.

The Group's latest audited financial statements for the financial year ended 31 March 2021 were not subject to an adverse opinion, qualified opinion or disclaimer of opinion issued by the Company's auditors.

3. Review of the performance of the Group, to the extent necessary for a reasonable understanding of the Group's business. It must include a discussion of the following:-

(a) any significant factors that affected the turnover, costs, and earnings of the Group for the current financial period reported on, including (where applicable) seasonal or cyclical factors; and

(b) any material factors that affected the cash flow, working capital, assets or liabilities of the Group during the current financial period reported on.

3.1 Review of the Group's financial performance

Revenue

2H2022 vs 2H2021

Revenue increased by S\$2.0 million or 5.9% from S\$34.7 million in 2H2021 to S\$36.7 million in 2H2022.

The increase was attributed to:

- i. the increase of S\$6.2 million or 26.7% from the Engineering, Procurement and Construction ("EPC") segment from S\$23.5 million to S\$29.7 million, mainly contributed from the major EPC projects as the industry continues to recover in the level of activities and lesser disruption on contract works due to the easing of restrictions caused by the COVID-19 pandemic. The increase is partially offset by:
- ii. the decrease of S\$4.2 million or 37.8% from the Operations and Maintenance ("O&M") segment from S\$11.2 million to S\$7.0 million due to lesser O&M contracts being completed during the financial period.

FY2022 vs FY2021

Revenue increased by S\$4.2 million or 6.9% from S\$60.5 million in FY2021 to S\$64.7 million in FY2022.

The increase was attributed to:

- i. the increase of S\$6.6 million or 15.3% from the Engineering, Procurement and Construction ("EPC") segment from S\$42.9 million to S\$49.5 million with the reason same as above. The increase was partially offset by:
- ii. decrease of S\$2.4 million or 13.5% from the O&M segment from S\$17.6 million to S\$15.2 million due to lesser O&M contracts being completed during the financial year.

Cost of contract works, gross profit and gross profit margin

2H2022 vs 2H2021

Cost of contract works increased by S\$0.5 million or 1.4% from S\$32.2 million in 2H2021 to S\$32.7 million in 2H2022, due to the following:

- i. increase in the cost of contract works of S\$2.8 million or 11.7% from the EPC segment in tandem with the increase in EPC revenue; offset by:
- ii. decrease in the cost of contract works of S\$2.3 million or 28.1% from the O&M segment, mainly due to the decrease in O&M revenue.

Sanli Environmental Limited
Condensed Interim Financial Statements
For the Six-Months and Full-Year Ended 31 March 2022

Gross profit increased by S\$1.6 million or 65.6% from S\$2.4 million in 2H2021 to S\$4.0 million in 2H2022, attributed mainly to the EPC segment due to the higher revenue and lower cost of contract works as lesser disruption on contract works resulting from the easing of restrictions caused by the COVID-19 pandemic.

Gross profit margin increased from 6.9% in 2H2021 to 10.8% in 2H2022 due to the increase in contribution from the EPC segment.

FY2022 vs FY2021

Cost of contract works increased by S\$0.8 million or 1.5% from S\$56.1 million in FY2021 to S\$56.9 million in FY2022, due to the following:

- i. increase in the cost of contract works of S\$3.1 million or 7.5% from the EPC segment in tandem with the increase in revenue; offset by:
- ii. decrease in the cost of contract works of S\$2.3 million or 15.6% from the O&M segment which is in line with the decrease in revenue.

Gross profit increased by S\$3.4 million or 76.6% from S\$4.4 million in FY2021 to S\$7.8 million in FY2022, attributed mainly to the EPC segment due to the higher revenue and lower cost of contract works as lesser disruption on contract works resulting from the easing of restrictions caused by the COVID-19 pandemic.

Gross profit margin increased from 7.3% in FY2021 to 12.0% in FY2022 mainly due to the increase in contribution from the EPC segment.

Other income

2H2022 vs 2H2021

Other income decreased by S\$0.8 million or 46.0% from S\$1.8 million in 2H2021 to S\$1.0 million in 2H2022 mainly due to lower government grants and incentives received under the Jobs Support Scheme for the COVID-19 pandemic.

FY2022 vs FY2021

Other income decreased by S\$1.4 million or 39.2% from S\$3.5 million in FY2021 to S\$2.1 million for the same reason as above.

Administration expenses

2H2022 vs 2H2021

Administrative expenses increased by S\$0.3 million or 8.5% from S\$3.0 million in 2H2021 to S\$3.3 million in 2H2022, mainly due to higher staff-related costs such as salaries and bonuses.

Sanli Environmental Limited
Condensed Interim Financial Statements
For the Six-Months and Full-Year Ended 31 March 2022

FY2022 vs FY2021

Administrative expenses increased by S\$0.3 million or 5.7% from S\$5.8 million in FY2021 to S\$6.2 million in FY2022, mainly due to higher staff-related costs such as salaries, bonuses, and recruitment expenses to support our operation.

Other operating expenses

2H2022 vs 2H2021

Other operating expenses decreased by S\$0.2 million or 19.6% from S\$0.9 million in 2H2021 to S\$0.7 million in 2H2022 mainly due to lower foreign exchange loss for the financial period.

FY2022 vs FY2021

Other operating expenses increased by S\$0.2 million or 13.4% from S\$1.5 million in FY2021 to S\$1.7 million in FY2022 mainly due to the increase in depreciation and foreign exchange loss for the financial year.

Finance costs

2H2022 vs 2H2021

Finance costs increased by 41.3% from S\$46,000 in 2H2021 to S\$65,000 in 2H2022 mainly due to the increase in bank borrowings.

FY2022 vs FY2021

Finance costs increased by 6.2% from S\$97,000 in FY2021 to S\$103,000 in FY2022 for the same reason as above.

Profit for the period/year

As a result of the above, the Group's profits for the 2H2022 and FY2022 were S\$0.9 million and S\$1.8 million, respectively.

3.2. Review of the Group's financial position

Current assets

Current assets increased from S\$40.9 million as at 31 March 2021 to S\$43.9 million as at 31 March 2022, mainly due to the increase in contract assets, partially offset by the decrease in cash and cash balance and the decrease in trade and other receivables.

Contract assets increased from S\$12.0 million as at 31 March 2021 to S\$24.5 million as at 31 March 2021 while the trade and other receivables decreased from S\$9.4 million as at 31 March 2021 to S\$7.9 million as

Sanli Environmental Limited
Condensed Interim Financial Statements
For the Six-Months and Full-Year Ended 31 March 2022

at 31 March 2022, mainly due to the significant works performed towards the end of FY2022 and billings were made in the following financial year based on the completion milestones of the ongoing projects.

The AR turnover has improved from 63 days in FY2021 to 45 days in FY2022 due to prompt collection from the customers.

Non-current assets

Non-current assets decreased from S\$10.5 million as at 31 March 2021 to S\$9.7 million as at 31 March 2022, mainly due to the depreciation charge to the property, plant and equipment.

Current liabilities

Current liabilities decreased from S\$22.0 million as at 31 March 2021 to S\$20.9 million as at 31 March 2022, mainly due to the decrease in trade and other payables as we made prompt payments to the suppliers when they fall due and the AP turnover reduced from 107 days in FY2021 to 85 days in FY2022.

Non-current liabilities

Non-current liabilities increased from S\$2.7 million as at 31 March 2021 to S\$4.7 million as at 31 March 2022, mainly due to the increase in bank borrowings.

3.3. Review of the Group's cash flows

FY2022 vs FY2021

Net cash used in operating activities amounted to S\$8.7 million due to operating cash flow before movements in working capital of S\$3.5 million, adjusted for net cash outflow from working capital changes of S\$12.2 million.

Net cash outflow from working capital of S\$12.2 million was due to:

- a) the increase in contract assets of S\$12.0 million due to significant works performed towards the end of FY2022 and billings were made in the following financial year based on the completion milestones of the ongoing projects;
- b) the decrease in trade and other payables of S\$2.4 million due to prompt payments to suppliers when they fall due; offset by:
- c) the decrease of trade and other receivables of S\$1.5 million;
- d) the increase in contract liabilities of S\$1.0 million due to advance billings and
- e) payment of income tax of S\$0.3 million.

Net cash used in investing activities of S\$0.6 million in FY2022 was mainly due to the purchase of property, plant and equipment.

Net cash generated from financing activities of S\$1.8 million in FY2022 was mainly due to the increase in bank borrowings, offset by the repayment of bank loans and the payment of dividends.

As a result of the above, there was a net decrease of S\$7.5 million in cash and cash equivalents in FY2022.

4. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.

No forecast or prospect statement was previously made to shareholders.

5. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the Group operates and any known factors or events that may affect the Group in the next operating period and the next 12 months.

For the financial year ended 31 March 2022, the Group's revenue has increased from S\$60.48 million in the previous corresponding period to S\$64.67 million, whereas its profit for the period has increased approximately 3.3 times from S\$0.53 million to S\$1.75 million. The Group's efforts to improve its project management and cost controls have registered an improvement in profit margins as it continues to execute projects in its orderbook. The Group's current orderbook stands at S\$306 million and is expected to be completed by early 2026.

The ongoing COVID-19 pandemic will continue to bring its share of challenges, but largely to a lesser degree as the situation is improving with a high global vaccination rate and with more countries managing the situation better with borders re-opening. However, the impact of COVID-19 and current geopolitical tensions in Europe are still causing a global economic impact and inflationary pressures across the board, which may have an impact on the Group's operating expenses.

The Group will continue to tender for municipal projects that leverage on its engineering expertise and strong track record, while continuing its recruitment of talent to enhance its operations to better position itself for upcoming tenders for water and waste-water related projects in Singapore. The S\$72.67 million PUB contract for new disinfection systems at Johor River Waterworks announced on 15 July 2021 is progressing as planned. Looking at the longer term, the Group also expects to explore the opportunities to participate in Singapore's \$100 billion coastal protection plan that was announced in 2019.

Expanding into Industrial Sector

Additionally, the Group is also diversifying its customer base by expanding into the industrial sector, with its incorporation of a wholly-owned subsidiary named Enviro Plant & Engineering Pte. Ltd. ("EPE") on 14 April 2022. EPE will provide environmental engineering solutions for water and wastewater treatment, air pollution control and solid waste management, to the industrial plant sector in Singapore and Southeast Asia.

Diversification into Manufacturing Business

The Group has identified certain opportunities in green technologies that can utilise its existing knowledge and expertise, as part of its diversification efforts to extend its revenue base to be less dependent on project-based revenue from the water and wastewater segment.

Today, the Group received shareholders' approval for its plans to manufacture magnesium hydroxide slurry ("Manufacturing Business") for use in various industrial applications such as the environmental protection

Sanli Environmental Limited
Condensed Interim Financial Statements
For the Six-Months and Full-Year Ended 31 March 2022

market.¹ By diversifying its business to include the Manufacturing Business, the Group expects to add stability to its revenue as the Manufacturing Business is recurring in nature.

Magnesium hydroxide is an inorganic compound which occurs in nature as the mineral, brucite. It is a white solid with low solubility in water. The Group intends to produce magnesium hydroxide slurry from brucite mineral. For this purpose, the Group intends to source for suppliers of brucite mineral and intends to sell the manufactured magnesium hydroxide slurry to customers in the water and wastewater treatment and marine industries.

As an established environmental engineering group in the field of water and waste management, the Group's track record, experience and expertise put it in good stead to engage in the Manufacturing Business. The Group is already constructing a magnesium hydroxide slurry batching plant for a client and therefore possesses the necessary experience and expertise to construct a similar plant for its own use. It also has a wide network of contacts in the water and waste-water treatment sector that may potentially lead to a ready customer base for the Manufacturing Business.

Update on Sanli Myanmar (defined herein)

Sanli Environmental (Myanmar) Company Limited ("Sanli Myanmar") is a 60% owned subsidiary of the Group, which provide Engineering, Construction and Water & Building Related Services in Myanmar. Most of the existing projects in Myanmar have been resumed and Sanli Myanmar staff have fully returned to the office with the adoption of hygiene and safety procedures and practices.

Myanmar has officially eased international travel restrictions from 17 April 2022. The political situation in the major cities where Sanli Myanmar has business and projects has remained stable and safe to work and travel. Sanli Myanmar has also expanded into new regions in Myanmar and is expected to participate in more tenders in those regions in the coming financial year. Sanli Myanmar contributed approximately 2.2% of the Group's revenue for FY2022.

Outlook

The Group continues to be hopeful that the global geopolitical situation will improve, together with the eventual normalisation of the overall global economy and industries. As a result of the above, the Group remains cautiously optimistic for the financial year ending 31 March 2023.

¹ Magnesium hydroxide slurry is used, amongst other things, as neutralising agent for wastewater treatment, as effective sorbent for removal of heavy metal in wastewater treatment and as liquid absorber for flue gas desulphurization (being the removal of unwanted sulphur dioxide from exhaust emissions).
