

PRESS RELEASE**Oman & Norway Production Update – February 2023**

SINGAPORE, 9 March 2023 – Rex International Holding Limited (“Rex International Holding”, “Rex” or the “Company”, and together with its subsidiaries, the “Group”), a technology-driven oil exploration and production company, refers to the press release issued on 9 March 2023 by its 91.81 per cent subsidiary, Masirah Oil Limited, which announced the following:

“Muscat, 9 March 2023: Masirah Oil Limited (“MOL”) today announced that gross oil production in February 2023 from the Yumna Field in offshore Block 50 Oman, amounted to an average of 5,515 stock tank barrels per day (stb/d) over 28 days.

MOL is the Operator and holds a 100 per cent interest in Block 50 Oman.”

The Group also refers to the press release dated 9 March 2023 by its 91.65 per cent subsidiary, Lime Petroleum AS, which announced the following:

“Brage Field

Lime Petroleum AS (“LPA”) today announced that oil production in February from the Brage Field in Norway, net to LPA, amounted to 1,981 barrels of oil equivalent per day (boepd).

The production in the first half of February 2023 was quite stable, with one well experiencing downtime. The technical issue had been resolved and the well has been brought back online. There was also a brief shutdown of production in mid-February as a result of a power outage. Production gradually returned to previous levels after about a week.

LPA holds a 33.8434 per cent interest in the Brage Field. The operator of the Brage Field is OKEA ASA.

Yme Field

At the Yme Field, production in February, net to LPA, was 1,926.6 bopd. Only oil is sold from the Yme Field as the produced gas is being used for production operations and re-injected into the reservoirs for improved oil recovery.

During the month, there had been steady production from all wells except one that was being worked over. Operational issues are being managed and close monitoring is ongoing.

LPA holds a 10 per cent interest in the Yme Field. The operator of the Yme Field is Repsol Norge AS.”

About Rex International Holding

Rex International Holding is a multinational exploration and production (E&P) company listed on Singapore Exchange Securities Trading Limited's Mainboard. The Company de-risks its portfolio of exploration and development assets using its proprietary liquid hydrocarbon indicator Rex Virtual Drilling technology, which can locate oil reservoirs in the sub-surface using seismic data. Since the Company's listing in July 2013, the Group has achieved four offshore discoveries, one in Oman and three in Norway.

Besides its E&P activities with a focus on Oman and Norway, the Group also offers Rex Virtual Drilling screening services to other oil exploration companies as an additional tool to increase the success rate of finding oil.
