RESPONSE TO SGX-ST QUERY

Unless otherwise defined herein, all capitalised terms and references used herein shall bear the same meaning ascribed to them in the Company's announcement dated 2 November 2026.

The Board of Directors (the "**Board**") of Edition Ltd. (the "**Company**") wishes to announce that the Company has on 4 November 2026 received a query from the Singapore Exchange Securities Trading Limited ("**SGX-ST**") in relation to the Company's announcement on receipt of Statutory Demand that was announced on 2 November 2026 (the "**Announcement**").

The Company sets out below its response to the SGX-ST's query.

SGX-ST query:

We note that the Company has stated in the Announcement that the Statutory Demand, if the Landlord is successful in its demand, "may have a material impact on the financial performance of the Group for the financial year ending 31 December 2026."

Given that MEOD had already received S$121,052.32, please explain why the return of S$118,870.15 plus further interest may have a material impact on the financial performance of the Group for the financial year ending 31 December 2026. Please also state whether MEOD has the financial resources to satisfy the Statutory Demand.

Company's response:

The Company would like to clarify that the assessment that the potential repayment of S$118,870.15, together with any further interest payable, may have a material impact on the financial performance of the Group was made on a standalone basis. The assessment did not take into account the collection of S$121,052.32. In this regard, when the Statutory Demand is assessed independently against the Group's recurring net losses in the past financial years and the loss for the 6 months ended 30 June 2026, the Company took the view that the potential repayment may have a material impact on the financial performance of the Group. However, when assessed together with the collection of S$121,052.32, the net impact on the financial performance is not material. The Company would also like to clarify that, while the potential payment of cash will negatively affect the cash position of the Company, it is not material compared to the net tangible liability position of the Company as at 30 June 2026.

MEOD has the financial resources to satisfy the Statutory Demand through the financial support from the Company, which includes a new loan facility extended by its controlling shareholder as disclosed in the Group's results announcement for the period ended 30 June 2026, with approximately S$1,210,000 undrawn as at the date of assessment, 28 October 2026. Further, as disclosed in the Group's results announcement for the period ended 30 June 2026, the Company's immediate and ultimate holding companies may also provide additional financial support to the Group as and when required.

By order of the Board
Edition Ltd.
