## Royal Resilience

Our service credo "Every Room A Home" forms the DNA of our brand promise. It defines our guests' experiences – from the minute that they enter the hotel, right through to the comfort that our guest rooms offer as well as other service touchpoints within the hotel. It also drives the way we remember our guests' preferences, and how each service provider approaches our guests. At Hotel Royal, every guest is part of our family, and we prefer to treat them as one.

Armed with a passion to continually improve, our latest hotel to open possibly in late 2021or early 2022, The Baba House in Malacca - will be the test bed for our enhanced service concepts, along with the latest modern conveniences that our well-travelled guests have come to expect from us.

## Corporate Profile

Listed on the Mainboard of the Singapore Exchange in 1968, Hotel Royal Limited owns a total of 8 hotels in Singapore, Malaysia and Thailand with its latest acquisition of Royale Chulan Bukit Bintang in Kuala Lumpur in 2021. The 418-room hotel will be renamed Hotel Royal Bukit Bintang.

- Hotel Royal Singapore
- Hotel Royal @ Queens Singapore
- Hotel Royal Kuala Lumpur Kuala Lumpur, Malaysia
- Hotel Royal Bukit Bintang Kuala Lumpur, Malaysia

- Hotel Royal Penang Penang, Malaysia
- The Baba House Melaka, Malaysia
- Hotel Royal Bangkok
   @ Chinatown
   Bangkok, Thailand
- Burasari Resort Phuket, Thailand

The Group also owns Grand Complex, a prime commercial complex in the central business district of Wellington, New Zealand, which has approximately 278,000 square feet of lettable office and retail space, and 323 car park lots.

The Baba House, which is strategically located in the heart of Melaka's UNESCO Heritage Zone in West Malaysia, is presently undergoing major upgrading that will transform it into a heritage boutique hotel after the Group acquired it in January 2015. The 102-room Baba House, known for its traditional Peranakan architecture, is minutes to Melaka's famed Jonker Street, and close to historical landmarks such as Stadthuys (Dutch Governor House) and A'Famosa as well as bustling shopping districts.

Meanwhile, the Group continues to explore opportunities to acquire hotel and investment properties in the Asia-Pacific region.

## Group's Major Properties

### 2019

Acquired Baba Mansion adjacent to Baba House, as part of Baba House's redevelopment

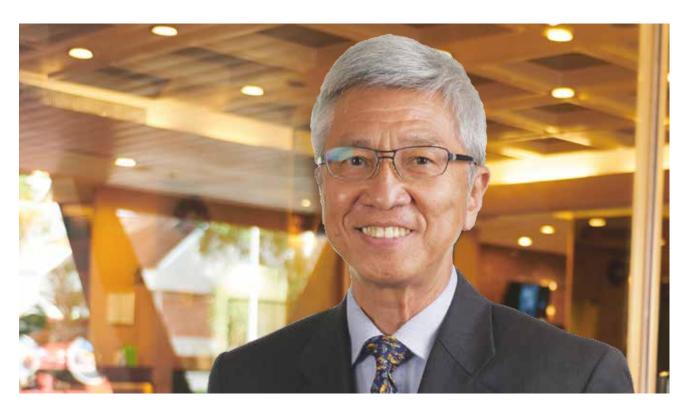

### 2021

Hotel Royal Bukit Bintang (former Royale Chulan Bukit Bintang) joins as the Group's second hotel in Kuala Lumpur, Malaysia.

# Chairman's Message

A year into the global pandemic, the world is still adapting to a new normal.

#### **Dear Shareholders**

A few vaccines have been developed and mass vaccinations have begun in many countries. However, it may be some time before the global spread of Covid-19 is contained. While Singapore's control measures have been effective, its hospitality and tourism industries will recover only when regional and global air travel returns to pre-Covid levels.

In FY2021, demand for rooms in our hotels in Singapore, Malaysia and Thailand will remain weak. Due to Malaysia's Movement Control Order measures, the refurbishment of Baba House in Melaka will be delayed and its opening postponed possibly to late 2021 or early 2022.

On February 2021, we acquired Royale Chulan Bukit Bintang in Kuala Lumpur for RM177.3 million. The hotel will be re-branded as Hotel Royal Bukit Bintang. We plan to make the best of the quiet market by renovating the hotel while room demand is low. This will result in a loss of income in 2021, but will better position the hotel down the road when tourism in Malaysia begins to recover.

Since the onset of the pandemic, the Group has focused on the health and safety of our guests and staff in our properties and operations. We took swift, proactive steps to streamline expenditure and conserve cash. These steps included the reduction of operating expenses such as unpaid leave programme for staff, hiring and wage freezes, as well as cutting utilities consumption and deferring spending on operational requirements and noncritical capital items. We also established a moratorium of principal repayments with our banks. In taking these measures, we have protected the jobs of our employees and not retrenched staff as a direct result of the public health crisis.

Our staff in frontline and back office operations, are ambassadors of the Hotel Royal brand of service. They represent the "heart-ware" of our brand, the soul of our hospitality service and the provider of memorable guest experiences. Their commitment is critical to the recovery of our hospitality, food and beverage businesses, and vital for the Group's continued growth post-Covid.

#### **FINANCIAL PERFORMANCE**

In our latest full-year results ended 31 December 2020, the Group posted a net loss attributable to shareholders of \$\$20.8 million on the back of a 47% decline in revenue to \$\$30.6 million. The lower revenue was a direct consequence of the pandemic which led to significant declines in room occupancies, and lower turnover from food/beverage and spa outlets in our hotels.

In addition, the impairment of our properties in New Zealand, Malaysia and Bangkok led Other Expenses to rise by more than six-fold. These impairments are temporary in nature. Without them, the net loss in FY2020 would have been smaller.

#### DIVIDEND

To recognise shareholders for their support in these unprecedented times, the Directors have proposed a one-tier, tax-exempt first and final cash dividend of 2.5 Singapore cents per ordinary share at the forthcoming Annual General Meeting. We felt that it would be prudent to maintain the same level of payout as in the previous year, in view of the tougher economic climate that the pandemic has brought. If approved, the proposed dividend will be paid out at a date to be announced.

#### **LOOKING AHEAD**

The huge challenges brought about by Covid-19 will remain well into FY2021. The International Air Travel Association (IATA) has projected that air travel will only return to pre-Covid levels in 2024. We will continue to monitor the impact of the global health crisis on our operations and keep a close watch on our expenditures.

#### **ACKNOWLEDGEMENTS**

These are extraordinary times in the Group's history of over half a century. To get through them, the Group will need to rally its management and staff for the long struggle ahead.

I am grateful to our Directors for huddling together to come up with strategies and appropriate responses in an industry badly damaged by the pandemic. These include advance planning for the new normal in business and leisure hospitality.

On behalf of the Board, I thank our shareholders, business partners, suppliers and customers for their continued support, as well as our management team and employees for their extraordinary dedication.

As I will be retiring as Chairman at the upcoming Annual General Meeting, I would like to express my appreciation to my colleagues on the Board and the senior management team for their unwavering support and cooperation. Mr Thomas Yang will be taking on the role of Chairman, and I wish him the very best.

Till we meet again soon, stay safe and well!

#### **Emeritus Professor Pang Eng Fong**

Chairman

29 March 2021

# Board of Directors

#### EMERITUS PROFESSOR PANG ENG FONG, 77

Emeritus Professor Pang Eng Fong was appointed to the Board of Directors on 5 December 2011. Emeritus Professor Pang is the Chairman of the Nominating Committee and a member of the Audit and Risk Committee and Remuneration Committee. He was last re-elected as a director on 27 April 2019 and was appointed Chairman of the Company on the same day.

He is a Emeritus Professor of Strategic Management (Practice), Singapore Management University.

He graduated in economics from the University of Singapore and holds a PhD from University of Illinois. He has been a visiting professor at Columbia University as well as the University of Michigan. He has also served as Singapore's ambassador/high commissioner in Seoul, Brussels and London.

#### DR TAN KIM SONG, 60

Associate Professor Tan Kim Song was appointed to the Board of Directors on 2 March 2015 and is the Chairman of the Audit and Risk Committee. He is also a member of the Nominating and Remuneration Committees. He was last re-appointed as a director on 27 June 2020.

Dr Tan is currently a faculty member in the School of Economics, Singapore Management University. He has previously worked in Chase, Fleet Boston and other investment banks, primarily in the fixed income market, as well as the Singapore Press Holdings.

He graduated in Economics from Adelaide University (First Class Honours) and holds a PhD from Yale University. He is currently also a member of the Appeal Board, Competition Commission of Singapore.

#### MR THOMAS YANG WEN-WEI, 49

Mr Thomas Yang was appointed to the Board of Directors on 28 April 2018 as an independent non-executive director. He is the Chairman of the Remuneration Committee and a member of the Audit and Risk Committee and Nominating Committee. He was last re-appointed as a director on 27 April 2019.

He is currently the Executive Operating Officer for his family-run business, Merdeka Construction Company Pte Ltd. A commercially astute sales and business development professional in the Information Technologies industry, Mr Yang has built a successful track record. During his diverse and rewarding career, he had the opportunity to work for a number of leading international companies and start-ups to proactively sell customised, technology-driven solutions in the competitive markets. Known for his consultative approach, he has collaborated with different data analytics companies to provide data analysis service to many clients.

He graduated From Northeastern University in America with a Master of Science, Electrical Engineering (Wireless Engineering).

#### MR LEE KIN HONG, 67

Mr Lee Kin Hong was appointed to the Board of Directors on 21 June 2002 as a non-executive director. He was last re-appointed as a director on 28 April 2018.

He is currently the Managing Director of Singapore-Johore Express (Private) Limited and has more than 30 years of experience in managing commercial, industrial and residential projects.

He graduated from the National University of Singapore with a Bachelor of Science (Building) and Master of Science (Project Management). He is also a member of the Singapore Institute of Building. Mr Lee Kin Hong is an Honourable Chairman of Sian Chay Medical Institution, a charitable organisation registered with the Ministry of Health.

#### MR LEE KHIN TIEN, 69

Mr Lee Khin Tien was appointed to the Board of Directors on 31 December 1996 as a non-executive director. He is a member of the Audit and Risk Committee, Nominating and Remuneration Committees. He was last re-elected as a director on 27 June 2020.

He is currently the Managing Director of Aik Siew Tong Limited, Melodies Limited and an executive director of Singapore-Johore Express (Private) Limited. He has more than 30 years of experience in real estate, bus transportation and plantation business. He graduated from Nanyang University with a Bachelor of Science (Biology).

#### DR LEE CHU MUK, 41

Dr Lee Chu Muk was appointed to the Board of Directors on 27 April 2019 as a non-executive director. He was last re-appointed as a director on 27 June 2020.

He is a director of Hong Ching Pte Ltd and an alternate director of Singapore-Johor Express (Private Limited), Aik Siew Tong Limited and Melodies Limited.

Dr Lee Chu Muk graduated from the National University of Singapore (M.B.B.S) in 2003 and has accumulated experience in diagnostic imaging as well as managing acute and chronic medical conditions. He is presently managing his own general practice (M Medical Clinic) since 2013.

#### MR LEE CHOU HOR GEORGE, 61

Mr Lee Chou Hor George was appointed to the Board of Directors as a non-independent and non-executive director on 29 June 2020.

He has approximately 30 years of experience working in various organisations such as the Housing and Development Board, Singapore Airlines group and Hotel Royal group. His areas of responsibilities included financial, leadership and management, as well as real estate and capital markets investments. He is currently a non-executive director of the key subsidiaries of the Hotel Royal group as well as several companies in the family-owned/controlled group of companies.

He graduated with Bachelor of Business Administration (Hons) and Master of Business Administration from the Schulich School of Business (York University, Toronto, Canada), a Master of Science (Real Estate) from the National University of Singapore and a Master of Professional Accounting from the Singapore Management University. He is a Chartered Accountant (Singapore) and a Certified Internal Auditor.

## Senior Management

#### **LEE CHOU HOCK**

CHIEF EXECUTIVE OFFICER

Mr Lee Chou Hock joined the Group in 1985. He is responsible for the management of the day to day operations of the Company and its investments in the subsidiaries. Prior to joining Hotel Royal, he was with a public accounting firm in Singapore. He holds a Bachelor of Accountancy from the University of Singapore and a Master of Business Administration (Hospitality & Tourism Management) from Nanyang Technological University.

#### **LEE CHU BING**

GROUP DIRECTOR OF OPERATIONS

Mr Lee Chu Bing joined the Group in 2004 in the Sales & Marketing Department and also assisted in the leasing of the Group's investment properties. He was appointed the General Manager of Hotel Royal @ Queens (Singapore) Pte Ltd in April 2007. He holds a Bachelor of Arts from the National University of Singapore.

In March 2021, he was re-designated as the Group Director of Operations.

#### PATRIK ILSTAM

GENERAL MANAGER Burasari Resort, Phuket

Mr. Patrik Ilstam joined Burasari Resort as its General Manager in 2019

Patrik started his career in Front Office at Sheraton Gothenburg in Sweden. Followed by an 11-year journey through Rooms Division and Operation Management in 4 Le Meridien branded properties, included 2 luxury Le Royal Meridien in Thailand, a pre-opening In Malaysia and a flag ship (Le Meridien Phuket). Patrik joined Burasari Phuket in June 2019 from Sheraton Grand Danang, Vietnam where he served for 2 years as Executive Assistant Manager.

With over 30 years' experience in the hospitality industry, including 20 years with major international hotel chains, he is strong in hotel operations. He brings a wealth of experience to lead the team as General Manager of Burasari Resort, Phuket and his dynamic management approach and operational expertise is a valuable asset to the Group.

#### **SAZRUL BIN FADZIL**

GENERAL MANAGER Hotel Royal Kuala Lumpur

Sazrul Bin Fadzil joined the Group in 2010 as General Manager of Hotel Royal Kuala Lumpur.

After graduating from University of Institute Technology MARA Malaysia's Hotel and Catering Management School, he was selected for a one-year industrial training in ANA Hotel Group in Tokyo, Japan as part of All Nippon Airways' scholarship programme. While in Japan, Mr Sazrul gained in-depth knowledge and experience in hotel management particularly in Front Office, Housekeeping, Maintenance and Security.

He started his career in 1990 as a management trainee in Rasa Sayang Resort, Penang, following which he joined the Genting Highlands Resorts for six years. He later took on a senior management role mainly in the opening and rebranding of new hotel properties.

Active as a NGO participant, Mr Sazrul is a committee member of Malaysia Association of Hotels and Vice Chairman of the Kuala Lumpur Chapter. In addition, he is also a Certified Inspector for the Ministry of Tourism, Arts and Culture, Malaysia where he evaluates star ratings for hotel properties, and a Certified Hotel Trainer for the American Hotel & Resort Association.

#### **LEE ZONGYE ZACH**

GROUP DIRECTOR OF PROJECT DEVELOPMENT

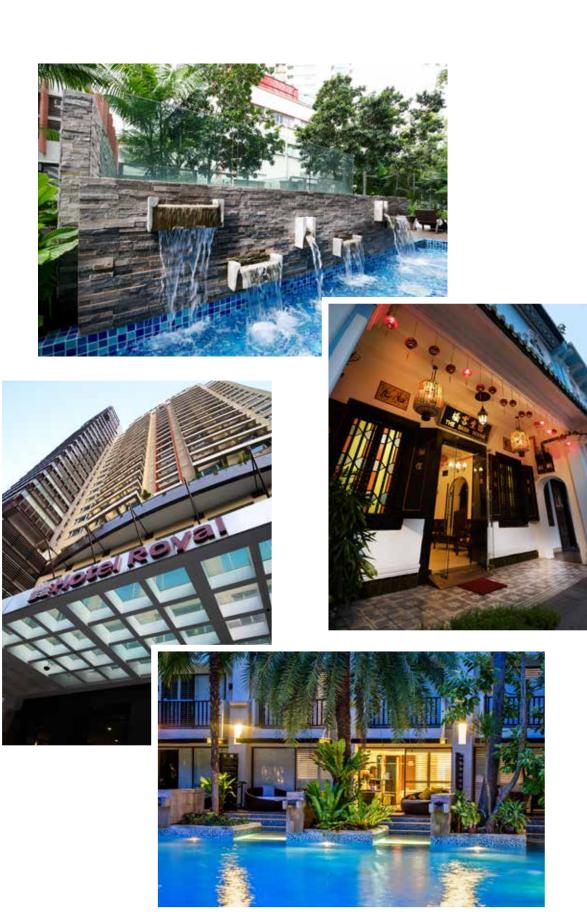

Mr. Lee Zongye Zach joined the group in 2018 as the Director of Project Development. He assists the group in asset management and oversees capital improvement projects to the group's real estate portfolio.

Prior to joining Hotel Royal Group, he has experience as an Architect and Project Manager in the United States and Singapore. He holds a Masters Degree in Architecture from Cornell University, and a Masters Degree in Real Estate from Harvard University.

#### **WONG SIEW CHOO**

GROUP REVENUE CONTROLLER

Mrs Wong Siew Choo is responsible for the treasury functions and credit control of the Group. She joined the Group in 1973. Prior to joining the Group, she had accumulated experiences in accounting and purchasing.

Achievement requires more than a vision - it takes courage, resolve and tenacity. All you have got to do is plant that seed in your mind, care for it, work steadily toward your goal, and it will become a reality.

- Earl Nightingale

# Operations and Financial Review

#### The Group's core activities are as follows:

#### **A) HOTEL OPERATIONS**

The Group owns and operates a chain of 7 hotels in Singapore, Malaysia and Thailand, such as its flagship Hotel Royal Singapore and Hotel Royal @ Queens in Singapore; Hotel Royal Kuala Lumpur, Hotel Royal Penang, and The Baba House, Melaka in Malaysia, and Hotel Royal Bangkok @ Chinatown and Burasari Resort, Phuket in Thailand. Most recently, the Group acquired Royale Chulan Bukit Bintang in Kuala Lumpur in 2021 and will be renamed Hotel Royal Bukit Bintang.

#### **B) PROPERTY INVESTMENTS**

The Group also owns investment properties in Singapore, Malaysia and New Zealand for rental income.

#### C) FINANCIAL INVESTMENTS

The Group's invests in a portfolio of shares, bonds, funds and other products, to generate a stable stream of income through interest and dividends, as well as for capital appreciation.

### CONSOLIDATED STATEMENT OF PROFIT OR LOSS (extract) Year ended 31 December 2020

	2020 \$′000	2019 \$′000	Change %
Revenue

Property investments segment	8,217	7,682	7.0
Financial investments segment	311	389	(20.1)
Total revenue	30,618	57,690	(46.9)
Less: Cost of sales	(21,795)	(30,365)	(28.2)
Gross profit	8,823	27,325	(67.7)
Less: Operating expenses	(10,407)	(14,237)	(26.9)
Add: Other income	985	1,753	(43.8)
Less: Other expenses	(16,531)	(2,416)	n.m.
Less: Finance costs	(2,971)	(4,048)	(26.6)
(Loss) Profit before income tax	(20,101)	8,377	n.m.
Less: Income tax expense	(743)	(3,515)	(78.9)
(Loss) Profit for the year attributable to owners of the Company	(20,844)	4,862	n.m.

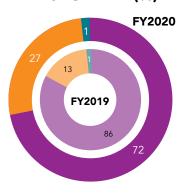

#### **REVENUE**

Group revenue comprises room sales and proceeds from its food and beverage ("F&B") operations, as well as income from investment properties and financial instruments.

In FY2020, revenue from the Group's hotel segment contracted by 55.5% to \$22.09 million brought about by stringent border controls that restricted all kinds of travel as a result of the COVID-19 pandemic. Arrivals to Singapore, Malaysia and Thailand were brought to a standstill, severely affecting the Group's hotel business and operations.

#### REVENUE BY SEGMENT (%)

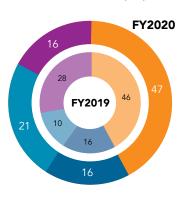

Hotel operations segment

Property investments segmentFinancial investments segment

	Financi 20		ended 31 Dec 2019		ease ease)	
	\$′000	%	\$′000	%	\$′000	%
Hotel operations segment	22,090	72	49,619	86	(27,529)	(55.5)
Property investments segment	8,217	27	7,682	13	535	7.0
Financial investments segment	311	1	389	1	(78)	(20.1)
	30,618	100	57,690	100	(27,072)	(46.9)

In terms of segmental revenue, sales from its 3 divisions declined by 46.9% to \$30.6 million. The Group's hotel and financial investment segment declined substantially, while rental income from the property investment segment increased by 7% to \$\$8.2m.

#### REVENUE BY GEOGRAPHICAL LOCATION (%)

SingaporeMalaysia

New Zealand

Thailand

	Financial year ended 31 Dec 2020 2019				Increase (Decrease)	
	\$′000	\$'000 %		%	\$′000	%
Singapore	14,440	47	25,996	46	(11,556)	(44.5)
Malaysia	5,015	16	9,476	16	(4,461)	(47.1)
New Zealand	6,329	21	5,870	10	459	7.8

	30,618	100	57,690	100	(27,072)	(46.9)

On a geographical basis, the Group's operations in Singapore, Malaysia and Thailand turned in lower revenue due to the Covid-19 pandemic.

Sales from Singapore, which accounted for 47% of total revenue in FY2020, decreased by 44.5% to \$14.4 million, while Malaysia, which accounted for 16% of total sales, reported a drop of 47.1% to \$5.01 million. Thailand, which contributed a 16% of total sales, saw a 70.4% decline to \$4.8 million.

Rental income from its investment properties in New Zealand, contributed an increase of 7.8% in Group revenue to \$6.33 million.

# Operations and Financial Review (cont'd)

#### **PROFITABILITY**

Correspondingly, the Group's gross profit in its latest FY2020 performance decreased by 67.7% to \$\$8.82 million.

Operating income from other sources, such as gain on disposal of available-for-sale investments, foreign exchange gain, miscellaneous other income, fair value gain on held-for-trading investments, fell by 43.8% to \$\$0.98 million due to an absence of fair value gain on financial assets at fair value through profit or loss and lower time deposit interest income.

Other expenses increased due to the impairment of properties in New Zealand, Malaysia and Bangkok as the recoverable amount is lower than its carrying amount.

The Group posted a pre-tax loss of \$20.1 million in FY2020.

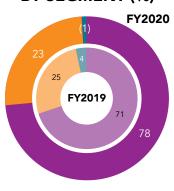

The impairment loss, inclusive of goodwill, amounted to \$14.3 million. Adjusting for the impairments, the Group registered an adjusted loss after income tax of \$6.6 million.

#### **ADJUSTED (LOSS) PROFIT AFTER INCOME TAX**

	2020 S\$'000	2019 S\$'000	+(-) S\$'000	+(-) %
(Loss) Profit after income tax	(20,844)	4,862	(25,706)	n.m
Impairment loss on building of Baba Residences and Hotel Royal Bangkok (Thailand)	8,765	-	8,765	100
Impairment loss on investment properties of Grand Complex	3,500	-	3,500	100
Impairment loss on goodwill	2,007	-	2,007	100
	14,272	-	14,272	n.m
Adjusted (loss) profit after income tax	(6,572)	4,862	(11,434)	n.m

### PROFITABILITY BY SEGMENT (%)

Hotel operations segmentProperty investments segmentFinancial investments segment

	Financial year ended 31 Dec 2020 2019			Increase (Decrease)		
	\$′000	%	\$′000	%	\$′000	%

Financial investments segment	92	(1)	498	4	(406)	(81.5)
(Loss) Profit before interest and income tax	(17,130)	100	12,425	100	(29,555)	n.m

The Group's hospitality segment, which accounted for 78% of total losses in FY2020, is the largest contributor. During the year, this segment saw its profit decline, from a pre-tax profit of \$8.8 million in FY 2019 to a pre-tax loss of \$13.4 million in FY2020.

The Group's Property segment, accounting for 23% of total losses, similarly reported a decline from a pre-tax profit of \$3.1 million in FY 2019 to a pre-tax loss of \$3.8 million in FY 2020. The pre-tax loss of \$3.8 million is primarily due to lower rental collections and Grand Complex's property impairment loss of \$3.5 million.

The Financial Investments segment, recorded a marginal profit of approximately \$0.09 million despite an 81.5% drop year-on-year.

(Loss) Profit before interest and income tax	(17,130)	100	12,425	100	(29,555)	n.m

Along with the overall decline in revenue, the Group's profit before interest and income tax similarly retreated from \$12.4 million in FY2019 to a loss of \$17.1 million in the latest full year. Singapore reported 83.4% lower pre-tax profit to \$1.06 million, caused by the downward adjustments of room rates and lower occupancy amid greater competition and travel restrictions due to the ongoing COVID-19 situation.

During the year of review, Malaysia suffered a pre-tax loss of \$3.2 million, while New Zealand and Thailand turned in pre-tax losses of \$3.08 million and \$11.9 million respectively as a result of the global health crisis.

# Operations and Financial Review (cont'd)

#### **CASHFLOW**

In FY2020, the Group showed a negative net cash from operating activities of \$3.24 million, and a net invested cash total of \$10.8 million in capital expenditure for upgrading of its investment properties as well as for expanding its hotel portfolio. The net cash of \$9.4 million was mainly due to new drawdown offset by bank loan repayment.

As at 31 December 2020, the Group's cash and cash equivalents stood at \$16.2 million.

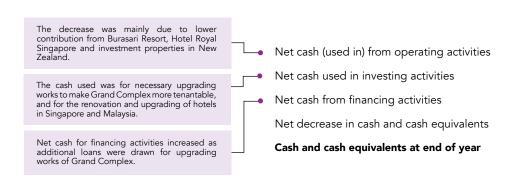

#### **GROUP CASH AND CASH EQUIVALENTS**

	FY 2020 \$'000	FY 2019 \$'000	FY 2018 \$'000	FY 2017 \$'000	FY 2016 \$'000
Cash on hand	110	154	174	166	156
Cash at bank	12,251	18,664	15,632	16,462	13,338
Fixed deposits	3,841	2,085	13,463	1,700	1,227
Total	16,202	20,903	29,269	18,328	14,721

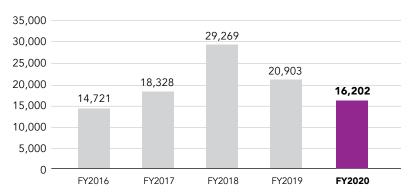

The Group's cash and cash equivalent comprise cash on hand, cash at bank and fixed deposits. The fixed deposits of subsidiary companies are pledged for loan facilities which are secured by a mortgage over the subsidiary's freehold hotel property, investment property, fixed and floating charges on all the assets of the subsidiary, subordination of intercompany advances made to the subsidiary, fixed deposits and corporate guarantee from the Company.

The short-term fixed deposits earn interest ranging from 0.14% to 1.75% per annum, with terms ranging from one month to two months.

2020 \$′000	2019 \$′000
(3,243)	11,942
(10,830)	(22,137)
9,414	1,625
(4,659)	(8,570)
16,202	20,903

# Operations and Financial Review (cont'd)

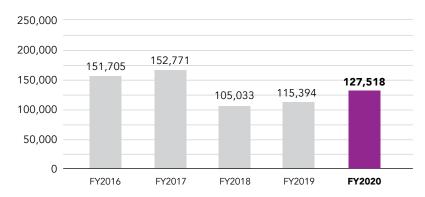

#### **GROUP BORROWINGS**

	FY 2020 \$'000	FY 2019 \$'000	FY 2018 \$'000		FY 2016 \$'000
Secured	127,518	115,394	105,033	152,771	151,705

The Group's borrowings comprise short-term and long-term bank loans. Over the years, from FY2016 to FY2018, the Group's bank borrowings have decreased as the Group had repaid part of its bank loan.

In FY2019 and FY2020, the Group's borrowings increased from new loan drawdowns by both the Company and its New Zealand subsidiary, which are offset by loan repayments by some of the Group's hotels.

#### **BORROWINGS (\$'000)**

### **STATEMENTS OF FINANCIAL POSITION** (extract) **31 December 2020**

	2020 \$′000	2019 \$′000	Change %
Total Assets	782,811	838,574	(6.6)
- Property, plant and equipment	614,389	671,464	(8.5)
- Investment properties	107,705	102,077	5.5
- Investments	29,694	28,435	4.4
- Inventories	1,043	1,106	(5.7)

- Goodwill	-	2,057	(100)
- Cash and bank balances	16,202	20,903	(22.5)
Total Liabilities	158,993	150,205	5.9
- Trade and other payables	8,518	10,670	(20.2)
- Tax liabilities	22,264	23,246	(4.2)
- Bank borrowings	127,518	115,394	10.5
Capital and reserves	623,818	688,369	(9.4)
- Share capital	150,665	150,665	-
- Asset revaluation reserve	382,010	424,469	(10.0)
- Employee benefit reserve	180	155	16.1
- Fair value reserve	17,272	16,536	4.5
- Foreign currency translation reserve	4,341	3,789	14.6
- Retained earnings	69,350	92,755	(25.2)

The Group's total shareholders' equity decreased by 9.4% to \$\$623.8 due to the global pandemic.

In spite of a challenging business landscape in FY2020, the Group continued to upgrade its hotel and investment properties progressively, and to increase and enhance its market share in these countries.

Moving ahead, the Group expects to cautiously expand its hospitality room inventory in key cities in Asia Pacific by way of acquisitions. It will also actively upgrade and increase rental income from its investment properties in New Zealand.

# Operations and Financial Review (cont'd)

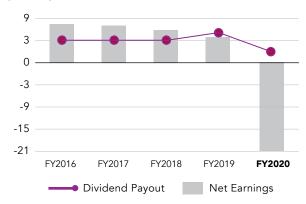

#### SHAREHOLDER RETURNS

In spite of the crisis, the Group is focused on achieving long-term capital growth for its shareholders. As such, the bulk of its accumulated earnings, when made, will be retained to invest in the Group's future growth. However, to reward shareholders, the Group will also distribute an appropriate annual dividend, provided cash flow permits.

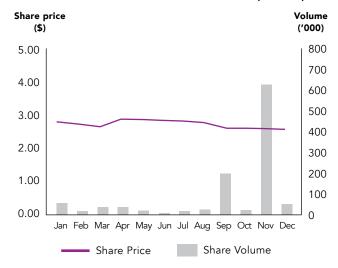

In FY2020, the Directors proposed a one-tier, tax-exempt first and final dividend of 2.5 cents per ordinary share. Amounting to approximately \$2.5 million, the proposed dividend, if approved by shareholders at the upcoming Annual General Meeting, will be disbursed at a date to be announced.

# Sustainability Report

#### **BOARD STATEMENT**

The Board of Hotel Royal Limited considers sustainability issues to be an integral part of its business strategy. This Report gives an account of the Group's environmental, social and governance (ESG) performance

#### SCOPE OF THIS REPORT

Our 6th Report discusses the development and progress of our sustainability journey in FY2020, and is guided by the SGX-ST Sustainability Reporting Guide (Practice Note 7.6). In preparing the Report, we focus on communicating value creation through our ESG strategies.

This Report covers the ESG performance for all business divisions within the Group over the reporting period. Information comes mainly from internal records.

#### **REPORTING PROCESS**

The Board has assigned the responsibility for monitoring and overseeing the Company's sustainability efforts to the Chief Executive Officer.

#### STATEMENT OF ASSURANCE

The financial statements in the Report are audited by independent auditors.

#### FOREWORD BY THE CHAIRMAN

#### **Dear Shareholders**

FY2020 was an unprecedented year, and the world had to navigate through unchartered waters, and though there is a note of optimism as vaccination programmes are being rolled out across the globe, we are clearly not out of the woods yet.

In a global crisis such as the Covid-19 pandemic, the role of sustainability becomes even more crucial as top management and boards have to strategise and respond to external and internal challenges, taking into consideration the welfare of our many stakeholders including shareholders, employees, customers and the community.

The Board recognizes its role in steering the Group's efforts on sustainability. Through its management committee, it ensures risk governance and reporting on sustainability issues. We are pleased to submit our full Sustainability Report for FY2020 together with our Annual Report to shareholders.

As with our previous Sustainability Reports, this Report is based on the Materiality Matrix that reflects strategic priorities in relation to our stakeholders' interests, and we trust you will find it useful to see how these the impact from these material factors are managed. We believe that close attention to such sustainability issues is critical to not only to profitability and shareholder value, but also to the long-term viability of our business.

Emeritus Professor Pang Eng Fong

Chairman

29 March 2021

## Sustainability Report (cont'd)

#### ABOUT THIS REPORT

#### **ORGANISATIONAL STRUCTURE**

Hotel Royal's sustainability strategy is developed and directed by the senior management in consultation with the Board of Directors. The Group's Sustainability Committee, which includes senior management executives, is led by the Group's CEO, is tasked to develop the sustainability strategy, review its material impacts, considering stakeholder priorities and in setting goals and targets, as well as collecting, verifying, monitoring and reporting performance data for this Sustainability Report.

#### **CONTENTS OF THE REPORT**

Our Report will begin with a review of the material aspects that both stakeholders and the Company view as being critical to the success and sustainability of the Company. We will seek to assess any changes in these material aspects when compared to the preceding year, where applicable, and look into issues that may have a large variance. These may include changes to the business environment, stakeholder feedback and sustainability trends.

#### HOTEL ROYAL'S SUSTAINABILITY POLICY

Hotel Royal Limited is a hospitality group that places much emphasis on executing a sustainable business strategy with profitability and shareholder value as foremost priorities. As a responsible corporate citizen operating in Singapore and the Asia-Pacific region, the Group adheres to the following principles:

#### 1 Code of conduct and business ethics

Our Code of Conduct and Business Ethics lays out the principles that apply to all of the Group's employees. This Code covers, among other things, areas such as conduct in workplace, business conduct, protection of the Company's assets, confidentiality of information and conflict of interest.

We have also established a whistle-blowing mechanism to aid in the reporting of corporate misconducts. We do not engage in child labour or take unethical means, directly or indirectly, to provide business services in our day-to-day operations. By "indirectly", we are saying that we do not engage in business with partners, suppliers or third party manufacturers that are known to use unethical means in their business processes.

#### 2 Health, safety and the environment

Management of health, safety and the environment is high on our list of priorities. We continuously seek to minimise the impact of our activities through water and energy conservation, as well as having a robust workplace safety management programme.

Please refer to the section on Corporate Social Responsibility on pages 40 - 41 of our FY2020 Annual Report.

#### 3 Employees

We believe in engaging and developing our staff to their fullest by providing opportunities for development and growth.

Please refer to the People Report on pages 42 - 45 of our FY2020 Annual Report.

#### 4 Community

We believe in giving back to the society through supporting various charitable initiatives and community projects.

Please refer to the section on Corporate Social Responsibility on pages 40 - 41 of our FY2020 Annual Report.

#### STATEMENT OF ASSURANCE

It should be pointed out that while the financial statements in the Report are audited by independent auditors, we reply on our internal process to verify the accuracy of the ESG performance data and information presented in this Report.

#### **OUR STAKEHOLDERS**

STAKEHOLDERS	HOTEL ROYAL'S COMMITMENT	ENGAGEMENT METHOD	FREQUENCY
INVESTORS	Maximise shareholder value through our corporate strategies and business fundamentals	value through es and business  • Annual General Meeting • IR Website • Emails	
CUSTOMERS	Maximise customer satisfaction through delivering quality service and products	• Ongoing operations • Collaterals • Guest feedback channels • Website

PARTNERS	Build strong partnerships with regulatory and non-governmental organisations in the pursuit of the best in environmental, health and safety standards in our operations	<ul> <li>Regular meetings, including new policies and practices</li> <li>Conferences and forums</li> </ul>	Throughout the year
COMMUNITY	Minimise environmental impact and contribute to the communities where we operate in	<ul><li>Outreach programmes</li><li>Sponsorship of events</li></ul>	Annually/Throughout the year

#### **MATERIALITY MATRIX**

The Materiality Matrix maps out the significant ESG and economic factors that impact our business, as well as insights gained from stakeholder engagements. It helps us to focus our efforts in paying attention to the values that are critical to the success of our business as well as the priorities of various stakeholders. It is reviewed regularly, taking into account the feedback that we receive from our engagement with a wide variety of stakeholders, broader sustainability trends and the issues facing the hospitality industry.

All of the Group's hotels in Singapore, Malaysia and Thailand are covered in this report.

### MANAGING SUSTAINABILITY - IDENTIFICATION OF KEY SUSTAINABILITY ISSUES

The Group has adopted the following Materiality Matrix approach to identify and prioritise key sustainability issues. Feedback was gathered from its stakeholders who formed the basis for determining the Matrix.

Based on feedback from our various stakeholders, we have shortlisted 11 material factors based on valuable insights that we have gained from our stakeholder engagement efforts, as well as factors that Management deems to have potential material impacts to our business operations. These are reviewed from time to time.

## Sustainability Report (cont'd)

### CUSTOMER SATISFACTION, RETENTION & SERVICE QUALITY

	2020	2019
Customer Satisfaction Survey	86%	82%
Employee Satisfaction Survey	68%	78%

#### **Customer Satisfaction**

The Group recognises that apart from its staff, its customers are also its lifeblood. It is therefore mission critical that it continues to attract new customers while successfully retaining existing ones. To help it track its two most important assets – its staff and its customers – the Group conducts two surveys to appraise how its hotels are performing with these stakeholders.

In 2020, its Customer Satisfaction Survey turned in a 4 percentage point improvement over the previous year, to 86%. This was despite 2020 being the year when the pandemic crippled the hospitality industry all around the world, and we were not spared. However, our Singapore hotels managed to house numerous Malaysians working here but could not commute to their homes in Malaysia.

We made the effort of expanding the breakfast menu for these long-staying guests, and listened more intently to their feedback and made improvements to make them feel even more at home with us. We also used this period of time to introduce more customer service training programmes to our frontline staff, and equipped them to handle difficult customers more effectively.

#### **Employee Satisfaction**

In 2020, the Employee Satisfaction survey score came in at 68%, which was a 10 percentage point decrease year-on-year, largely due to uncertainties brought about by the pandemic. Apart from job security issues, the Group's employees were also worried about their remuneration such as no annual wage adjustments and bonuses, and lower income as a result of low occupancies. This is unavoidable due to unprecedented health crises that the world is facing. However, Management will be looking at ways to invigorate staff morale when the business climate improves. We will also continue to focus on OJT (on-the-job training) to further equip them to do their jobs well, and to boost their morale and confidence.

In addition to training, the Group also prioritised counselling to ensure that they understand their duties and responsibilities in service delivery. Our senior management takes time to read every feedback form submitted by our staff across the Group, and we aim to have a minimum score of 80% in the Employees Satisfaction Surveys.

#### **EMPLOYEE RELATIONS**

As at 31 December 2020, the Group has a total of 568 staff, which declined by 24% compared to the previous year. Its gender diversity ratio (the ratio of male staff versus female staff) is healthy, at around 57% men to 43% women, and is roughly at the same level as the previous year.

Our goal is to always have a team of highly motivated and well-trained workforce to deliver our brand promise. To ensure this is achieved, the Group's properties have established an efficient workflow, talent management policies, and structured training programmes.

Due to the Covid-19 pandemic, it was not possible to carry out our training programmes as planned. This led to a 51% decline in the number of training hours in 2020, to 14,290 hours. Average training hours per employee also dipped by 36% to 25.2 hours.

Notwithstanding, the Group continues to prioritise training as soon as our operations are normalised. As one of the few hospitality management companies that hold quality certifications such as the ISO, Singapore Quality Class Star (SQC Star) and Singapore Service Class, our training programme focuses on the four service deliverables – namely, customer service, attitude, recognition, and efficiency – as inspired by our service credo.

	2020	2019
Men	322 (57%)	406 (54%)
Women	246 (43%)	344 (46%)
Total Group staff	568 (100%)	750 (100%)

	2020	2019	Change (%)
Total training hours	14,290	29,262	(51)
Average training hours per employee	25.2	39.0	(36)

#### **WORKPLACE SAFETY**

	2020	2019	
Workplace injury rate	0	0	
Accident frequency rate	0	0	
Accident severity rate	0	0	

We continue to maintain our zero workplace accident record in 2020, underscoring the Group's unrelentless commitment to enforcing safe practices at the workplace.

Each of our properties will have a workplace safety and health (WSH) committee set up to review current procedures and identify practices that may pose potential risks to staff and guests.

Adhering to the industry's best practices, the Committee has in place the relevant reporting channels for all accidents and injuries that occurred at the workplace, and monitored by the relevant human resource department.

In addition, our staff undergo training in workplace safety, first aid, handling fire hazards and evacuation exercises. In Singapore, the Company has been classified as Tier 1 by the Singapore Civil Defence which oversees such requirements and procedures.

## Sustainability Report (cont'd)

#### **BUSINESS CONTINUITY & RISK MANAGEMENT**

Managing business risks is a key part of ensuring corporate sustainability and over the years, the Group has adhered to the strict discipline of integrating strategic risk management practices in all of our decision-making processes.

We adopt a structured approach to identifying and managing our risk profiles before making strategic decisions that would affect the Group's performance. These risk factors would include those pertaining to the overall market, credit, operations, legal, finance as well as environmental, social and governance (ESG) issues.

Our robust risk and control framework is also designed to ensure that our strategic business decisions prioritise stakeholder value while complying with the legal and regulatory requirements. At the same time, we consider the ESG issues, which are key to the Group's short, medium or long-term sustainability. In identifying these material issues, the Group seeks to ensure that pertinent implications of legislative and regulatory changes as well as socio-economic and reputational drivers are well managed. The Group proactively seeks to integrate sustainability considerations into its businesses, mitigate risks and continuously improve business operations to deliver positive value to our stakeholders.

Please refer to pages 71 to 76 of this Annual Report for a more detailed discussion of our Risk Management initiatives.

#### **CORPORATE GOVERNANCE**

Corporate governance is a critical factor in ensuring a company's long-term viability, and the Hotel Royal group is highly committed to its best practices.

We believe in developing sound, consistent policies and practices by complying with both the letter and the spirit of Singapore's Code of Corporate Governance.

Please refer to pages 48 to 70 of this Annual Report for a detailed discussion of our Corporate Governance practices.

#### **COMMUNITY ENGAGEMENT**

	2020	2019	Change
	\$	\$	(%)
Community investments (S\$)	7,582	46,934	(84)

As a responsible publicly listed company, the Group is mindful of its role as a corporate citizen to look after the interests of the larger community that we operate in. Every year, the Group, together with our staff, contribute funds, our time and effort to support various meaningful causes.

In 2020, however, our contribution to the community fell by 84% in line with the adverse impact on the Group's business due to the onslaught of the pandemic which plagued the tourism and hospitality industries. We felt it would be prudent to conserve cash during this unprecedented global crisis.

Notwithstanding, our hotels did their part in reaching out to community charity groups and frontline workers during the pandemic. These include food distributions, donations to schools and orphanages, and beach clean-up initiatives.

#### **ENVIRONMENT MANAGEMENT**

	2020	2019	Increase/ (Decrease) (%)
Energy usage (GJ)	58,146	59,217	(2)
Water usage (cubic metres)	246,277	274,860	(11)
Hazardous and non-hazardous waste (tonnes)	381	1,019	(63)

Despite the challenging business landscape, the Group is still committed in playing its role in environmental protection and the conservation of natural resources in its operations such as minimizing the wastage of energy, water, and food, as well as in the proper disposal of waste.

However in 2020, due to the Covid-19 pandemic which drove room occupancy downwards due to border restrictions across the globe, there was an overall decline in energy consumption and waste generate as a result of lower business volume at our hotels. Energy usage dipped 2% largely because we have, over the years, been conscientiously reducing energy usage at our hotels through successfully implementing energy conserving initiatives

such as installing energy saving and sensor-activated LED lightings in guest rooms and common areas, tapping solar energy to generate hot water, and installing environmentally friendly VRV air-conditioning systems.

Similarly, the Group's usage of water in its operations dipped by 11% year-on-year, driven by its water-saving initiatives such as reducing water flow, and collecting rainwater to water the plants and wash common areas.

Hazardous and non-hazardous wastes decreased more significantly by 63% due to the lower occupancy rates at our hotels during the pandemic, and our continual recycling programme. Over the last few years, we have programmes in place to continually remind our guests and staff to "Love food, not waste". Every little act makes a positive difference towards sustainability.

#### **INNOVATION**

Our service credo, "Every Room A Home" requires continual thinking on how we can make our guests feel more at home. This is the passion that keeps us going and serves as our motivation for innovation.

In the hospitality industry, innovation can take the form of product innovation, or process innovation such as more efficient means of delivering service. It can also be in the form of logistics innovation whereby supply chains are better managed, or information to our customers are more quickly accessible through digitalisation.

At Hotel Royal, we have inculcated the innovative mindset in our people, so as to continually raise service levels to keep ourselves competitive with the market.

To date, most of our innovation is centred on saving operating costs and reducing wastage because we believe that it is critical that we make innovation an integral part of our daily lives.

# Corporate Social Responsibility

#### THE ENVIRONMENT

As a responsible corporate citizen, the Hotel Royal Group is committed to its role in preserving and conserving the environmental resources that its properties operate in.

Despite the pandemic, our hotel in Phuket - Burasari Resort - has been active in cleaning up Patong Beach in various events organized by the Patong Municipality. Our other hotel in Thailand - Hotel Royal Bangkok @ Chinatown - similarly collaborated with the capital city's Samphanthawong District in a clean-up operation on Yaowarat Road which is in front of the property.

As a group, we have also been phasing out the use of single-use plastics. Since 2016, Hotel Royal Singapore has installed dispensers for hot, warm and cold water on all floors, and ceased distributing bottled drinking water to the guest rooms. Burasari Resort has also stopped supplying plastic bottled water in its guestrooms, and instead, has replaced them with glass bottles. Burasari Resort and Hotel Royal Penang have also stopped supplying plastic straws at its food and beverage outlets, and now use paper straws.

We also have various initiatives in place to reduce our energy consumption, such as tapping solar energy to generate hot water; switching to energy-saving LED lighting; using motion sensors in lighting systems, as well as environmentally friendly VRV air-conditioning systems. In addition, we also encourage our staff to switch off lights during periods of inactivity and collect rainwater to wash common areas.

#### **SUPPORT OF THE ARTS**

Our regular arts beneficiary, The Theatre Practice, had cancelled all of their live shows and events in 2020 because of the pandemic, and as a result, we did not have to sponsor any room nights as was our usual practice. Instead, the Singapore-based arts group ran online shows and we participated as a Company Patron in view of our long-term corporate sponsorship relationship.

In addition, The Practice Theatre held its 55th anniversary event at Hotel Royal Singapore's Trishaw Coffee House and we participated as a venue sponsor. Named "Practice 55", the 55-hour online event was held from 27-29 November 2020 on Facebook Live, showcasing the arts group's journey through past and present, and participants could access the archives of its past performances, participate in its wide variety of activities and games, and even reconnect with fellow Theatre Practice supporters.

#### **COMMUNITY OUTREACH**

Apart from protecting the environment, the Group is also deeply aware of the needs around us.

Early on in the outbreak of the pandemic, our property in Kuala Lumpur rose to the occasion by participating in NADMA Agency's Quarantine program since April 2020. As one of the Top 5 favourite quarantine hotels in the city, Hotel Royal Kuala Lumpur housed incoming passengers from the airport, and provided them with 3 meals a day, and had to comply with the Malaysian government's strict protocols set up by NADMA.

On National Children's Day, which fell on 11 January 2020, Hotel Royal Bangkok @ Chinatown donated stationery supplies to children in the Wanawan Community, Soi Charoennakorn Klongsan Bangkok and Samphanthawong district office. Burasari Resort presented a cash donation to Kalim School in Phuket.

Opportunities to bless the community abound during major festivals. At Chinese New Year, for instance, Hotel Royal Penang reached out to Pertubuhan Kebajikan Da Zhi Jiang Tang SPPP and invited their children and caretakers to a buffet lunch at Grove. They were also presented with traditional red packets while their home received a cash donation.

Meanwhile, staff of Hotel Royal Kuala Lumpur visited aged and disabled residents of Persatuan Kebajikan Rumah Victory Malaysia and blessed them with gifts of food, red packets and a generous donation.

During the fasting month of Ramadan, staff of Hotel Royal Penang distributed bubur lambok to the frontline staff of nearby police station, general hospital and fire station. Collaborating with corporate partners, the hotel also reached out to Rumah Jagaan Nasyiatul Aisyiyah – Sungai Pinang; Madrasah Miftahul Irfan – Sungai Pinang; Mahad Tahfiz Al Ahmad Darul Quran – Gelugor, and Homeless @ Kapitan Keling Mosque and distributed packed foods to break fast. Hotel Royal Kuala Lumpur distributed bubur lambok to the city's fire brigade squad as a gesture of appreciation for their service.

Staff of the Kuala Lumpur property also provided basic food necessities and cash donations to the less fortunate children and needy families in Kuala Selangor and "Rumah Kasih Ibu" in Keramat, Kuala Lumpur during Malaysia's Movement Control Order.

At other times during 2020, Hotel Royal Penang contributed towards various organisations such as Penjara Pulau Pinang, Persatuan Tongkat Putih, Penang General Hospital, and Masjid Jamek Hutton Lane.

## People Report

With some 568 employees across its hotel portfolio in Singapore, Malaysia and Thailand, the Group has inculcated its service mantra "Every Room A Home", which forms the essence of its brand, in all of its ambassadors who deliver positive guest experiences.

Important touch points that are essential for brand building, our staff are truly the Group's most important brand assets, and we regard them as part of the Hotel Royal family.

In FY2020, with the pandemic raging all around the world, and with border controls bringing mass tourism to a standstill, our Group's business was not spared. However, we resolved that we would not retrench our staff, and sought to save their jobs as much as possible.

We will continue to nurture our people assets – continually motivating them to upgrade their skills, and take their service delivery to the next level.

#### Rising to the Occasion

As a team, both management and staff responded to the pandemic by being prepared and to carry out the procedures and protocols required by the Government, specifically Singapore Tourism Board's advisories on safe management measures. In particular, we had to obtain the SG Clean certification - which recognises establishments who comply with safe management measures. This is Singapore Tourism Board's criterion for hotels to offer staycation packages, and seeks to ensure that our customers and the public would have the confidence about the safety of our properties. To do this, our facilities and procedures had to audited by an external consultancy such as KPMG.

In addition, we had to appoint inhouse officers (one of whom has to be a hotel union representative) to be trained in SG Clean protocols at NTUC Learning Hub, and to conduct weekly checks to ensure that these are adhere. All staff had to be trained to ensure that they are aware of the procedures and to carry them out well. Lobby ambassadors had to be deployed to ensure all guests entering the hotel premises adhered to Safe Entry and Temperature Monitoring protocols.

#### **Equipping Multi-Taskers**

The Group has various OJT (or on-thejob training) programmes to enhance the capabilities of our staff to deliver our "Every Room A Home" service credo.

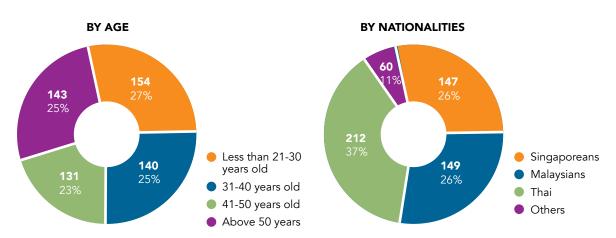

However, in FY2020, we invested in fewer training hours – a 51% decrease to 14,290 training hours – as we were not able to carry out our training programmes as planned because of the pandemic. The average training hours per employee similarly declined by 36% to 25.2 hours, as opposed to 39.0 hours a year earlier.

We are one of the few hospitality management companies with quality certifications such as ISO and Singapore Quality Class Star (SQC Star) and Singapore Service Class.

## People Report (cont'd)

#### **GROUP EMPLOYEE PROFILE 31 DECEMBER 2020**

staff ISO-certified training programme emphasises on four service deliverables - namely, customer service, attitude, recognition, and efficiency. In addition, we also provide training on first aid, as well as on-the-job training (OJT) in front office, food & beverage, housekeeping and security. We want all of our staff to function beyond their primary duties and to be holistic in their approach to customer service. For instance, our housekeeping staff are not only upskilled on room cleaning, but are coached on basic customer service skills. Our front office staff, similarly, are given complementary training on security matters as well.

The Group continues to prioritise the structured equipping of staff, and will resume our usual training schedule as soon as operations are normalised.

#### **Motivating For Higher Productivity**

Based on the Group's values of integrity and trust, senior management plays an active role in daily operations, and engages staff regularly through quarterly feedback sessions to solicit feedback and suggestions. It also took the lead in resolving work-related issues and facilitating improvements in work areas.

Every year, our Employee Satisfaction Survey seeks to listen to staff feedback about their training needs, job satisfaction, quality of the work environment, benefits and welfare. In 2020, the Survey turned in a score of 68%, which was a dip of 10 percentage points over the previous year's, mainly due to lower staff morale brought on by the pandemic.

In addition, we track the Company's operational performance, through the annual Customer Satisfaction Survey. In 2020, we scored 86% which was a 4 percentage point above the previous score.

To further motivate staff towards service excellence, we also reward staff who receive the compliments from guests by linking their performance to a points system. Staff can accumulate as many points to redeem for shopping vouchers.

In addition, staff who receive positive feedback from online travel agents are highlighted on our TV Royal and Notice Board. Exceptional achievers are identified each month as "Outstanding Service Providers". At the end of the year, the best performing staff for the year will win the "Outstanding Service

Provider of the Year" Award. Those who go out of their way to serve are nominated for the "Extra Mile Award".

#### **Celebrating Service Excellence**

The 2020 edition of the prestigious Excellent Service Awards (EXSA), organised annually by the Singapore Hotel Association and other industry bodies, and supported by Enterprise Singapore, saw nine of our staff from Hotel Royal Singapore's Housekeeping, Maintenance and Front Office being honoured with the Star, Gold and Silver accolades.

First introduced in 1994, EXSA is a national award that recognises individuals in the hospitality industry who have gone beyond the call of duty in delivering exceptional service and creating memorable experiences for guests.

Award Category	Employee Name	Designation	Department

## Corporate Governance Report

The Board and management of Hotel Royal Limited firmly believe that the Group's unwavering commitment to the best practices of corporate governance is essential to its sustainability and performance in the long-term. Driven by a strong sense of creating value and accountability towards its investors and stakeholders, Hotel Royal's quest for corporate excellence lies in its belief in developing and maintaining sound, transparent and consistent policies and practices. The Group is focused on complying with the latest updated versions of Singapore's Code of Corporate Governance – not only to the letter of the Code but to the spirit of the Code as well. In so doing, we endeavour to achieve operational excellence and achieving our long-term strategic objectives to drive long-term growth and value for our shareholders.

SGX Fast Track Program (2018 - 2021)

Best Investor Relations Award (Singapore Corporate Award) (Mid Cap, Silver) (2018)

Most Transparent Company Award (SIAS Investors' Choice Award) (Hotel / Restaurant, Winner) (2018)

## Corporate Governance Report

#### **CORPORATE GOVERNANCE REPORT**

The Board and Management of Hotel Royal Limited firmly believe that the Group's unwavering commitment to the best practices of corporate governance is essential to its sustainability and performance in the long-term. Driven by a strong sense of creating value and accountability towards its investors and stakeholders, Hotel Royal's quest for corporate excellence lies in its belief in developing and maintaining sound, transparent, and consistent policies and practices. The Group is focused on complying with the current version of Singapore's Code of Corporate Governance – not only to the letter of the Code but to the spirit of the Code as well. In so doing, we endeavour to achieve operational excellence and achieving our long-term strategic objectives to drive long-term growth and value for our shareholders.

#### SGX Fast Track

The Company was on SGX Fast Track program in April 2018 and will remain on this program until the next review cycle in 2021. SGX Fast Track recognizes the effort and achievement of listed issuers which have upheld high standard of corporate governance and maintained a good compliance track record. SGX will facilitate prioritized clearance of all submissions of corporate actions to SGX RegCo.

#### **Preamble**

The Board of Directors (the "Board") of Hotel Royal Limited (the "Company", together with its subsidiaries, the "Group") recognises the importance of corporate governance and the offering of high standards of accountability to the shareholders of the Company by complying with the benchmark set by the Code of Corporate Governance dated 6 August 2018 (the "Code") and the disclosure guide (the "Guide") developed by Singapore Exchange Securities Trading Limited (the "SGX-ST").

This report describes the Group's corporate governance framework and practices that were in place throughout the financial year under review. The Board confirms that for the financial year ended 31 December 2020 ("**FY2020**") the Company had adhered to the principles and provisions set out in the Code and the Guide, where they are applicable, relevant and practicable to the Group. Any deviations from the provisions of the Code or areas of non-compliance have been explained accordingly. The Board will continue to assess the needs of the Company and improve on its corporate governance practices as appropriate.

#### 1. BOARD MATTERS

#### 1.1 The Board's Conduct of Affairs

Principle 1: The Company is headed by an effective Board which is collectively responsible and works with Management for the long-term success of the Company.

**Role:** The Board strives to create value for its shareholders so as to ensure the long-term success of the Group through the development of the right strategy, business model, risk appetite, compensation framework, and succession planning. The Board also sets the tone for the entire organisation with regards to its values and standards, including ethical standards. Board members are expected to act in good faith and exercise independent judgement in the best interests of the Group. It believes that when making decisions, all Directors of the Board should discharge their duties and responsibilities at all times as fiduciaries, and act objectively in the interests of the Company, while holding Management accountable for performance.

The primary responsibilities of the Board of Directors include the following:

- To provide entrepreneurial leadership, set strategic objectives, and ensure that the necessary financial and human resources are in place for the Company to meet its strategic objectives;
- To establish and maintain a framework of prudent and effective controls which enables risks to be assessed and managed, including safeguarding of shareholders' interests and Company's assets;
- To constructively challenge Management and review its performance;
- To identify the key stakeholder groups and recognise that their perceptions will affect the Company's reputation;
- To set up the Company's values and standards (including ethical standards), and ensure that obligation to shareholders and other stakeholders are understood and met;
- To consider sustainability issues, such as environmental and social factors, as part of its strategic formulation;
- To approve the release of the Group's half yearly and full-year results and related party transactions of a material nature;
- To assume the responsibilities for the corporate governance of the Group.

Each Director is to exercise his due diligence and independent judgement to act in good faith and in the best interest of the Company, so as to enhance the long term value of the Group to its shareholders. Any Director facing a conflict of interests will recuse himself from discussions and decisions involving the issue of conflict. All Directors are to update the Board on a timely basis, through the Company Secretary, of interest in new companies that were not previously disclosed to the Board. Additionally, at the start of each financial year, all Directors are to submit a letter to the Company Secretary of all their interest in other companies, which are to be read and acknowledged by the Board.

In view of the need to ensure that corporate governance systems function effectively, the Company is endeavouring to proactively and promptly disclose information in a manner that promotes proper and transparent operations.

**Internal Limits of Authority:** The Group has internal guidelines governing matters that require the Board's approval which include:-

- approval of the Group strategic objectives;
- approvals of the annual operating and capital expenditure budgets and any material changes to them;
- review of performance in the light of the Group strategic objectives and business plans;
- changes relating to the Group capital structure including reduction of capital, share issues and share buy backs;
- approval of the half-yearly and full year's results announcements, annual reports and financial statements, including the corporate governance report;
- approval of the dividend policy and declaration of the interim dividend, if any, and recommendation of the final dividend;
- approval of any significant changes in accounting policies or practices;
- ensuring maintenance of a sound system of risk management and internal controls;
- approval of major capital projects;
- contracts regarding acquisitions or disposals of major fixed assets (including intangible assets such as intellectual property), substantial bank borrowings etc;
- major investments and expenditure;
- approval of resolutions and corresponding documentation to be put forward to shareholders at a general meeting including approval of all circulars and prospectuses etc;
- approval of press releases concerning matters decided by the Board;
- changes to the structure, size and composition of the Board, including following recommendations from the NC regarding appointment, cessation of Directors, members of Board Committees;
- determine the remuneration policy for the Directors, and other senior executives including the introduction of new share incentive plans or major changes to existing plans, to be put to shareholders for approval;
- establish board committees and approving their terms of reference, and approving material changes thereto;
- approval of policies, including, code of conduct, share dealing code, whistle blowing policy, environment and sustainability policy, corporate social responsibility policy etc;
- any decision likely to have a material impact on the Company or Group from any perspective, including, but not limited to, financial, operational, strategic or reputational; and
- Appointment and removal of Company Secretary.

**Board Committees:** To assist in the execution of its responsibilities, the Board has established a number of committees, including an Audit and Risk Committee ("**ARC**"), a Nominating Committee ("**NC**") and a Remuneration Committee ("**RC**"). These committees are chaired by Independent Directors and function within clearly defined terms of reference and operating procedures. The terms of reference for each Board Committee set out the responsibilities of the Board Committee, conduct of meetings, including quorum, voting requirements and qualifications for Board Committee membership. The terms of reference are reviewed on annual basis to ensure their continued relevance and efficacy. Any change to the terms of reference for any Board Committees requires Board approval.

These committees review matters on behalf of the Board and are subjected to the terms of the relevant committee's terms of reference:

- Refer matters to the Board for decision, with a recommendation from the committee (where the committee acts in an advisory capacity); or
- Determine matters (where the committee acts with delegated authority), which it then reports to the Board.

The minutes of Board Committee meetings, which records the key deliberations and decisions taken during these meetings, are circulated to all Board members for their information.

**Board Meetings:** Each Board member exercises equal responsibility in overseeing the business and affairs of the Company and objectively takes decision in the interest of the Company.

The schedule of all Board and Board Committee meetings and annual general meeting is notified to all Directors well in advance at the beginning of each financial year, after consultation with the Directors. The Company has ceased its quarterly reporting of financial results as the Company is not required by the SGX-ST to report its financial results on a quarterly basis pursuant to the Listing Manual of SGX-ST. Notwithstanding the foregoing, the Board meets on a quarterly basis to review inter alia the financial results and assure that the directors will continue to be updated on the Company and Group's developments. To cater to urgent substantial matters, the Board may convene meetings on an ad-hoc basis. Management has an obligation to supply the Board with complete, adequate information in a timely manner to ensure that the Board has adequate time to review the materials, and to facilitate constructive and effective discussions during meetings.

The Company's Constitution provides for the Board to conduct its meeting via teleconferencing or videoconferencing on a timely basis when physical meeting is not possible. The Board and its sub-committees may also make decision through circular resolutions in writing, including by electronic means.

In each meeting where matters requiring the Board's approval are to be considered, all members of the Board participate in the discussions and deliberations; and resolutions in writing are circulated to all Directors for their consideration and approval. The Management's proposals submitted to the Board for approval are accompanied with detailed background and explanatory information such as facts, resources, requirements, financial impact, risk analysis, disclosure requirements under the Listing Rules of SGX-ST, and recommendations. The exception is where a Director has a conflict of interest in a particular matter, in which case he will be required to recuse himself from the deliberations and abstain from voting on the matter. This principle of collective decisions adopted by the Board ensure that no individual influences or dominates the decision making process.

Directors are encouraged to constantly keep abreast of developments in regulatory, legal, and accounting frameworks that are of relevance to the Group, through the extensive opportunities for participation in training courses, seminars and workshops, as relevant and/or applicable. Directors are at liberty to request for any further explanations, briefings or information on other aspects of the Company and/or the Group's operations or business issues from Management when required. The Board is regularly updated on risk management, corporate governance, and other major changes in the regulatory requirements and financial reporting standards that are relevant to the Group.

Relevant new releases issued by the SGX-ST and the Accounting and Corporate Regulatory Authority ("ACRA") and news articles which are relevant to the Group's business are circulated to the Board.

**Director Orientation:** A formal appointment letter is sent to all newly-appointed Directors upon their appointment, explaining, among other matters, their roles, obligations, duties and responsibilities as members of the Board. All new Directors are oriented by senior Management with the Company's and Group's businesses and operations, its significant financial, accounting and risk management issues, code of corporate governance, policies on disclosure of interests in securities, the rules relating to disclosure of any conflict of interest in a transaction, its principal officers and independent auditors.

**Training:** Directors' training and development is an important element of good corporate governance. The newly appointed Director, Mr Lee Chou Hor George is well versed with the roles, functions and duties of a listed company director prior to his appointment as Director of the Company. He has also attended the training sessions conducted by Singapore Institute of Director ("**SID**") during FY2020.

To keep pace with regulatory changes, the Director's own initiatives are supplemented from time-to-time with information, updates, sponsored seminars conducted by external professionals and relevant courses conducted by the SID, including any changes in legislation and financial reporting standards, government policies, regulations and guidelines from SGX-ST and ACRA that affect the Company and/or Directors in discharging their duties. Directors can request for further explanations and conduct informal discussions on any aspect of the Group's operations or business issues with Management. During the year, the Company Secretary conducted detailed briefing on new disclosure requirements at Board meetings. As part of the Company's continuing education for the Directors, the Company Secretary has circulated to the Board the news releases issued by the SGX-ST and ACRA on matters including but not limited to enhancing rules on auditors, valuers and valuation reports and guidance on the conduct of general meetings amid evolving Covid-19 pandemic which are relevant to the Directors.

In FY2020, the Company's external auditors provided updates to the ARC on new and revised financial reporting standards that are applicable to the Company and Group.

The Company has set aside funding and will be responsible for arranging and funding the training of Directors.

**Number of Meetings:** During FY2020, the Board held four meetings as warranted by the particular circumstances. Telephonic attendance and conference via audio-visual communication at Board's meetings are allowed by the Company's Constitution.

If a Director is unable to attend a Board or Board Committee meeting, the Director will receive all the meeting papers so that he can review them and let the Chairman of the Board or Committee Chairman have his views, which will be conveyed to other members at the meeting.

The attendance of Directors at these meetings in FY2020 is shown below:

		Board Committee Meetings			Non-Executive	
Director	Board Meeting	Audit & Risk	Nominating	Remuneration	Directors' Meeting (without presence of Management	AGM
Dr Pang Eng Fong	4	4	1	1	1	1
Dr Tan Kim Song	4	4	1	1	1	1
Yang Wen-Wei	4	4	1	1	1	0
Lee Khin Tien	4	4	1	1	1	1
Lee Kin Hong	4	-	-	-	1	1
Dr Lee Chu Muk	4	-	-	-	1	1
Lee Chou Hor George <sup>(a)</sup>	2	-	-	-	1	-
No. of Meeting Held in FY2020	4	4	1	1	1	1

<sup>(</sup>a) Mr Lee Chou Hor George was appointed as a Non-Independent Non-Executive Director of the Company on 29 June 2020.

#### Access to Information

The Company recognises the importance of continual dissemination of relevant information which is explicit, accurate, timely and vital to the Board in exercising its duties. As such, the Board is provided with the report on the Company's progress and drawbacks in meeting its strategic business objectives or financial targets and other information relevant to the strategic issues encountered by the Company prior to the Board meetings so that the Directors would have sufficient time to understand the matters which are to be discussed.

Directors are entitled to request from Management additional information to help them make informed decisions. Management shall provide the same to the Directors in a timely manner.

The Management keep the Board informed of the Group's operations and performance through regular updates and reports as well as through informal discussion. Prior to any meetings of the Board or Board Committees, Directors are provided, where appropriate, with Management information to enable them to participate at the meetings. As a general practices, the Chief Executive Officer ("CEO") is present at Board and Board Committee's meetings to address any queries which the Board may have. The CEO of the Company also provides update on business and strategic developments pertaining the Group's business to the Directors at each Board meetings during FY2020.

In exercising their duties, the Directors have unrestricted access to the Company's Management, internal and external auditors at the Company's expenses.

Directors also have separate and independent access to the Company Secretary. The Company Secretary is responsible for ensuring that board procedures are followed and that applicable rules and regulations are complied with. She administers and attends all Board and Board Committees meetings of the Company and prepares minutes of meetings. Her responsibilities also include advising the Board on all governance matters as well as facilitating orientation and assisting with professional developments as directed by the Chairman.

The appointment and the removal of the Company Secretary are subject to the approval of the Board as a whole.

Professional advices are sought by the Board when necessary to enable the Board or its Independent Directors to carry out their roles effectively. Individual Directors may obtain professional advice to assist them in the execution of their tasks subject to the approval from the Chairman, at the Company's expense.

#### 1.2 Board Composition and Guidance

Principle 2: The Board has an appropriate level of independence and diversity of thought and background in its composition to enable it to make decisions in the best interests of the company.

**Board Size:** The Board believes that it should generally have at least 6 members and not more than 9 Directors. This range permits a good mix of expertise and experience without hindering effective deliberation.

The sizes and composition of the Board and Board Committees are reviewed annually by the NC to ensure that the sizes of the Board and Board Committees are appropriate so as to facilitate effective making. The review will ensure that there is an appropriate mix of expertise and experience, which the Group may tap on for assistance in furthering its business objectives and shaping its business strategies. The Board, with the concurrence of the NC, is of the opinion that its current board size and composition is appropriate to facilitate effective decision making, taking into account the nature and scope of the Group's operations and the wide spectrum of skills and knowledge of the Directors

**Board Independence:** The Board, taking into account the NC's view, assesses the independence of each Director (with special attention given to Directors who has served for more than 9 years) in accordance with the Code on an annual basis.

An independent director is one who is independent in conduct, character and judgement, and has no relationship with the company, its related corporations, its substantial shareholders or its officers that could interfere, or be reasonably perceived to interfere, with the exercise of the director's independent business judgement in the best interests of the company. In line with the guidance of the Code, the Board also takes into account of the existence of such relationships or circumstances, if any, including the employment of a director, or an immediate family member, by the Company or any of its related companies during the financial year in review or any of the previous three financial years; the acceptance by a director, or an immediate family member, of any significant compensation from service to the Board; and a director being related to any organisation from which the Company or any of its subsidiaries received significant payment or material services during the financial year in review or the previous financial year.

\* A substantial shareholder is a shareholder who has an interest or interests in one or more voting shares (excluding treasury shares) in the Company and the total votes attached to that share, or those shares, is not less than 5% of the total votes attached to all voting shares (excluding treasury shares) in the Company.

On this basis, Mr Lee Khin Tien, Mr Lee Kin Hong, Dr Lee Chu Muk and Mr Lee Chou Hor George are the non-executive and non-Independent Directors. All other Directors, namely Dr Pang Eng Fong, Dr Tan Kim Song and Mr Yang Wen-Wei are considered to be independent.

In assessing the independence of the Directors, the Board through the NC has examined the different relationship identified by the Code and the Guide that might impair the Directors' independence, and is satisfied that Dr Pang Eng Fong, Dr Tan Kim Song and Mr Yang Wen-Wei are independent and are able to act with independent judgement.

There is presently a strong independent element on the Board, the independence of each Director is assessed and reviewed by the NC annually. Each independent Director completes a Director's Independence Checklist annually so as to confirm his independence based on the Code's guidelines. Each of them also confirmed that they are independent and have no relationship identified in the Code. Through the NC, the Board considers all three independent Directors, Dr Pang Eng Fong, Dr Tan Kim Song and Mr Yang Wen-Wei to be independent including independence from the 5% shareholders of the Company.

As at 31 December 2020, Dr Pang Eng Fong has served 9 years from the date of his first appointment to the Board on 5 December 2011. As at this report date, the Board, having reviewed the performance of Dr Pang Eng Fong and further taking into account the deliberations of the NC and their invaluable expertise, the wealth experience and knowledge his brought to the Board, is of the view that Dr Pang Eng Fong is able to continue to exercise independent and objective judgement. Apart from having served for a period of more than 9 years on the Board, Dr Pang Eng Fong does not have any relationships or circumstances with the Company, its related corporations, its substantial shareholders or its officers that may affect his judgement and ability to discharge his duties and responsibilities as an independent director. However, Dr Pang Eng Fong has decided to retire from the Board at the conclusion of the forthcoming AGM to be held on 24 April 2021 as part of the Board rejuvenation process and good corporate governance practice.

During FY2020, the Company had complied with the relevant provisions of the Code and Listing Rules as there was a strong and independent element on the Board with more than one-third of the Board are Independent Directors and all the directors are non-executive directors. The Non-Executive Directors contribute to the Board process by monitoring and reviewing Management's performance against goals and objectives. Their views and opinions provide alternative perspectives to the Group's business.

The Board enjoys open, candid and robust discussion and no individual or small group of individuals dominate the Board's decision making. All independent directors have unrestricted direct access to Management so that they can seek clarifications before or after Board meetings. All the Directors have equal responsibility for the performance of the Group, the role of the Independent Non-Executive Directors is particularly important in ensuring that the strategies proposed by the management are fully discussed and rigorously examined and taking into account the long-term interests of not only shareholders, but also of employees, customers, suppliers and the communities in which the Group conducts its business.

<b>Board Composition and Competency</b>	The current composition	of the Board is as follows:-
---	-------------------------	------------------------------

		Committee Membership			
Director	Board Membership	Audit and Risk	Nominating	Remuneration	
Dr Pang Eng Fong	Lead Independent Director and Non- Executive Chairman	Member	Chairman	Member	
Dr Tan Kim Song	Independent Non-Executive Director	Chairman	Member	Member	
Yang Wen-Wei	Independent Non-Executive Director	Member	Member	Chairman	
Lee Khin Tien	Non-Executive Non-Independent Director	Member	Member	Member	
Lee Kin Hong	Non-Executive Non-Independent Director	-	-	-	
Dr Lee Chu Muk	Non-Executive Non-Independent Director	-	-	-	
Lee Chou Hor George	Non-Executive Non-Independent Director	-	-	-	

The Board and its Board committees collectively possesses the core competencies, appropriate mix of expertise and experience for effective functioning and decision-making. Together, the Board and Board Committees comprise Directors who as a group provide a broad range and an appropriate balance and diversity of expertise in areas such as accounting, finance, knowledge of the Company's business, management and operations experience and strategic planning experience, knowledge and age as well as familiarity with regulatory requirements. The diversity of the Directors' experience allows for useful exchange of ideas and views.

The Board is aware that gender diversity on the Board is one of the recommendations under the Code to provide an appropriate balance of diversity. Although there is currently no female Director appointed to the Board, the Board does not rule out the possibility of appointing a female Director if a suitable candidate is nominated for the Board's consideration.

The Board has taken the following steps to maintain or enhance its balance and diversity:

- (a) By assessing the existing attributes and core competencies of the Board are complementary and enhance the efficacy of the Board; and
- (b) Evaluation by the Directors of the skill sets the other Directors possess, with a view to understand the range of expertise which is lacking by the Board.

The profile of the Directors and other relevant information are set out under the "Board of Directors" section on pages 14 and 15 of this Annual Report.

The shareholdings of the individual Directors of the Company are set on page 78 of this Annual Report. None of the Directors hold shares in the Company's subsidiaries.

**Role of the Lead Independent Director:** The independent element was further strengthened by the appointment of a Lead Independent Director. Dr Pang Eng Fong is the Lead Independent Non-Executive Chairman to co-ordinate and to lead the independent Directors to provide a non-executive perspective and contribute to a balance of viewpoints on the Board. He is available to shareholders or stakeholders of the Company with concerns which they cannot resolve through the normal channels of the the CEO, the Management or the Group Accountant ("GA").

There were no query or request on any matters which requires the lead independent director's attention received in FY2020.

**Independent Directors' Meetings:** The independent Directors also communicate regularly to discuss matters such as the Group's financial performance, corporate governance initiatives, the performance of the Management, and the remuneration of the senior Management. During FY2020, the Independent Directors and the Non-Executive Directors, led by the Lead Independent Director, meet without the presence of the Management, whenever deemed necessary and at least once a year. They provided feedback to the Board after such meeting.

#### 1.3 Chairman and Chief Executive Officer

Principle 3: There is a clear division of responsibilities between the leadership of the Board and Management, and no one individual has unfettered powers of decision-making.

Relationship Between Chairman and CEO: Dr Pang Eng Fong is the Non-Executive Independent Chairman. The CEO, Mr Lee Chou Hock is not a Board member. The Chairman and the CEO are two separate persons who are not related.

Chairman's Role: The Chairman's roles in relation to Board matters are as follows:

- lead the Board to ensure its effectiveness on all aspects of its role;
- set the agenda and ensure that adequate time is available for discussion of all agenda items, in particular strategic issues:
- promote a culture of openness and discussion at the Board;
- encourage constructive relations between the Board and Management;
- exercise control over quality, quantity and timeliness of the flow of information between Management and the Board;
- ensure effective communication with shareholders and other stakeholders;
- facilitate the effective contribution of all Directors; and
- promote high standards of corporate governance with full support of the Board, the Management and the Company Secretary.

There is a clear division between the leadership of the Board and the CEO. The CEO's functions include the overall management, strategic direction and the day-to-day operations of the Group, and the realisation of organisational objectives of the Group. No one individual represents a considerable concentration of power.

#### 1.4 Board Membership

Principle 4: The Board has a formal and transparent process for the appointment and re-appointment of Directors, taking into account the need for progressive renewal of the Board.

#### The Nominating Committee

The NC is established for the purpose of ensuring there is a formal and transparent process for all Board appointments, taking into account the need for progressive renewal of the Board.

**NC Composition:** The NC consists of four Directors; namely, Dr Pang Eng Fong (Chairman), Dr Tan Kim Song, Mr Yang Wen-Wei and Mr Lee Khin Tien. 75% of the members of the NC, including its Chairman, are independent.

**Key Terms of Reference:** The key terms of reference of the NC are to:

- evaluate and review nominations for appointment and re-appointment to the Board and the various committees;
- nominate a Director for re-election at the AGM, having regard to the Director's contribution and performance;
- determine annually and as and when circumstances require if a Director is independent;
- recommend to the Board the process for the evaluation of the performance of the Board, the Board Committees and
  individual Directors, and propose objective performance criteria to assess the effectiveness of the Board as a whole
  and the contribution of each Director and annual assessment of the effectiveness of the Board;
- decide whether a Director who has multiple board representations is able to and has been adequately carrying out his
  duties as Director of the Company;
- review and make recommendations to the Board on the succession plans for Directors, in particular, the appointment and/or replacement of the Chairman, the CEO and key management personnel;
- review training and professional development programs for the Board and its Directors; and
- perform such other functions as may be assigned by the Board.

The NC and the Board will, at least once every year, review the terms of reference of the NC.

**Succession Planning:** Succession planning is a critical part of the corporate governance process. The NC seeks to refresh the Board membership in an orderly and progressive manner, so as to avoid losing institutional memory.

The NC is responsible for identifying and recommending new members to the Board for approval, after considering the necessary and desirable competencies such as their integrity, skills, experience, financial literacy and diversity of expertise. Accordingly, in selecting potential new Directors, the NC will seek to identify the competencies required to enable the Board to fulfil its responsibilities. The NC may engage consultants to undertake research on, or assess, candidates for new positions on the Board, or to engage such other independent experts as it considers necessary to carry out its duties and responsibilities.

The NC also reviews the succession planning for senior management, especially the CEO. As part of this review, the successors to key positions are identified, and development plans are instituted for them.

**Process for Selection and Appointment of New Directors:** Although the Board does not have a written policy with regards to diversity in identifying Director nominees, it will consider the benefits of all aspects of diversity, including diversity of skills, experience, background, gender, age, ethnicity and other relevant factors. When a vacancy arises under any circumstance, either as part of the Board renewal process or where it is considered that the Board would benefit from the services of a new Director with particular skills, the NC or the Board would determine the selection criteria and sources for candidates. The NC would make reference checks, meet up with the candidates, assess their suitability, and make recommendation to the Board. Shortlisted candidates would meet up with the other Board members before the Board approves the appointment.

**Re-Nomination of Retiring Directors:** The NC reviews and recommends to the Board the re-nomination of retiring Directors standing for re-election and appointment of new Directors. The review ensures that the director to be re-nominated or appointed is able to contribute to the ongoing effectiveness of the Board, has the ability to exercise sound business judgement, and has demonstrated leadership experience, high levels of professional skills and appropriate personal qualities.

All directors will submit themselves for re-election at regular intervals of at least once every three years. Pursuant to Article 117 of the Company's Constitution, at least one-third of the directors shall retire from office at the Company's Annual General Meeting. In addition, Article 122 of the Company's Constitution provides that a newly appointed director must submit himself for re-election at the Annual General Meeting following the appointment.

The NC has recommended to the Board that Mr Lee Kin Hong and Dr Pang Eng Fong (retiring pursuant to Article 117), be subject to retirement by rotation pursuant to Company's Constitution and Mr Lee Chou Hor George (retiring pursuant to Article 122) be subject to retirement pursuant to Company's Constitution. Mr Lee Kin Hong and Mr Lee Chou Hor George being eligible offer themselves for re-election at the coming Annual General Meeting and Dr Pang Eng Fong will not seek re-election and will retire as Director of the Company at the close of the Annual General Meeting. In recommending the re-election of Mr Lee Kin Hong and Mr Lee Chou Hor George, the NC has considered the Directors' overall contribution and performance. The Board has accepted the NC's recommendation.

Each member of the NC had abstained from voting on any resolution and making any recommendation and/or participated in respect of his own re-election, if any, as Director of the Company.

Details of the Directors seeking re-election are set out on pages 154 to 158 of this Annual Report.

**Annual Review of Directors' Independence:** In recommending the above Directors for re-election, the NC has given regard to the results of the board assessment (please refer to paragraphs under Board Performance regarding assessment of Board performance) in respect of his competencies in fulfilling his responsibilities as Director of the Board. The NC has also reviewed the independence of Dr Pang Eng Fong, Dr Tan Kim Song and Mr Yang Wen-Wei. In assessing their independence, the NC having considered the guidelines set out in the Code and the Guide, is of the view that Mr Yang Wen-Wei, Dr Pang Eng Fong and Dr Tan Kim Song are independent. There are no relationships identified in the Code and the Guide which would deem them not to be independent. Mr Yang Wen-Wei, Dr Pang Eng Fong and Dr Tan Kim Song have also declared that they are independent.

The Board recognises the Independent Directors' contribution and that they have over time developed an in-depth understanding of the Group's business and operations. The Independent Directors provide invaluable contributions to the Group.

Limit on Other Directorships in Listed Entities: Other than directorships in the Company, none of the Directors hold directorships in other listed companies during the current and preceding three years. The Board is of the view that a Director should hold no more than four directorships in listed entities for a director with full-time employment and not more than six directorships in listed entities for a Director with no full-time employment. All Directors are required to declare their board representations at the first Board meeting of each financial year and to inform the Board as and when there are new board representations.

**Alternate Directors:** The Board provides for the appointment of alternate directors. The Board will take into consideration the same criteria for selection of Directors such as his qualifications, competencies and independence. The Company currently does not have any alternate Director on the Board.

**Initial Appointment and Last Re-Election of Directors:** Details of the year of initial appointment and last re-election of the Directors together with their directorships in other listed companies are appended below:

Director	Position	Date of Initial Appointment	Date of Last Re-election / Re-appointment	Other principal commitments	Present directorships in other public listed companies
Dr Pang Eng Fong	Lead Independent Director and Non- Executive Chairman	5 December 2011	27 April 2019	Professor Emeritus of Singapore Management University	None
Dr Tan Kim Song	Independent Non- Executive Director	2 March 2015	27 June 2020	Associate Professor of Singapore Management University	None
Yang Wen-Wei	Independent Non- Executive Director	28 April 2018	27 April 2019	Executive Operating Officer of Merdeka Construction Company Pte. Ltd.	None
Lee Khin Tien	Non-Executive Director	31 December 1996	27 June 2020	Director of Aik Siew Tong Limited, Melodies Limited and Singapore-Johore Express (Private) Limited	None
Lee Kin Hong	Non-Executive Director	21 June 2002	28 April 2018	Director of Singapore- Johore Express (Private) Limited, Aik Siew Tong Limited, and Melodies Limited	None
Dr Lee Chu Muk	Non-Executive Director	27 April 2019	27 June 2020	General Practitioner of M Medical Clinic	None
Lee Chou Hor George	Non-Executive Director	29 June 2020	-	Director of Hock Tart Pte Ltd, Aik Siew Tong Limited, Melodies Limited and Singapore- Johore Express (Private) Limited	None

**Number of Meetings:** The NC held one meeting during FY2020. The NC has ad-hoc meetings on matters requiring urgent attention, which would then be formally confirmed and approved by circulating resolutions in writing.

Each member of the NC abstains from voting on any resolutions and making any recommendation and/or participating in discussion on matters in which he is interested.

#### 1.5 Board Performance

Principle 5: The Board undertakes a formal annual assessment of its effectiveness as a whole, and that of each of its board committees and individual Directors.

We believe that the Board's performance is ultimately reflected in the long term success of the Group.

The Board ensures compliance with applicable laws and Board members act in good faith, with due diligence and care in the best interests of the Company and its shareholders. In addition to these fiduciary duties, the Board is charged with two key responsibilities: setting strategic directions and ensuring that the Company is ably led. The measure of a Board's performance is also tested through its ability to lend support to Management especially in times of crisis, such as during the Covid-19 pandemic, and to steer the Group in the right direction.

The Board, through the delegation of its authority to the NC, has used its best efforts to ensure that Directors appointed to our Board possess the relevant background, experience and knowledge in technology, business, finance and Management skills critical to the Company's business and that each Director with his special contributions brings to the Board an independent and objective perspective to enable balanced and well-considered decisions to be made.

The Board has implemented a process for assessing the effectiveness of the Board as a whole and its Board Committees, and for assessing the contribution by directors to the effectiveness of the Board and the Chairman's leadership. No external consultant has been engaged to perform the board assessment process.

During the financial year, all Directors were requested to complete a questionnaire to assess the overall effectiveness of the Board and the Board Committees. Factors evaluated include, among other matters, board structure, meetings and accountability, access to information, risk management and internal control, management performance, succession planning, remuneration and communication with shareholders. The results of the questionnaire are first reviewed by the NC, tabled as an agenda for Board's discussion to determine areas for improvement and enhancement.

The performance of individual Directors and Chairman is evaluated annually and informally on a continual basis by the NC and the Chairman. Factors taken into account include attendance at Board and Board Committees' meetings, industry and business knowledge, acumen in the development of the Group's strategy, participation at meetings, ability to make informed business decision and independence of the directors.

Renewal or replacement of Board members, when it occurs, does not necessarily reflect their contributions to date, but may be driven by the need to position and shape the Board in line with the medium term needs of the Company and its business. The Board has taken the view that the financial indicators, may not be appropriate as these are more of a measurement of Management's performance and therefore less applicable to Directors. After the NC's review of the contribution by each individual Director to the effectiveness of the Board as a whole and its Board Committees for FY2020, it is satisfied that sufficient time and attention have been given by the Directors to the affairs of the Company and the Group.

#### 2. REMUNERATION MATTERS

#### 2.1 Procedures for Developing Remuneration Policies

Principle 6: The Board has a formal and transparent procedure for developing policies on Director and executive remuneration, and for fixing the remuneration packages of individual Directors and key management personnel. No Director is involved in deciding his or her own remuneration.

The RC makes recommendations to the Board on the framework of remuneration and the specific remuneration packages for each Directors.

#### **RC Composition**

The RC comprises four directors; namely Mr Yang Wen-Wei (Chairman), Dr Tan Kim Song, Dr Pang Eng Fong and Mr Lee Khin Tien. Where necessary, the Committee can engage professional help from external consultants in areas of executive compensation.

75% of the members of the Remuneration, including its Chairman, are independent, and all its members are non-executive Directors.

**Key Terms of Reference:** The key term of reference of the RC are to:

- recommend to the Board a framework of remuneration for Board members as well as key management personnel;
- · determine specific remuneration packages for each Non-Executive Director and the CEÓ; and
- review the terms, conditions and remuneration of the key management personnel of the Company.

The RC's objective is to motivate and retain proficient executives and ensure that the Company is able to attract competent staff who can contribute to the long-term success of the Company, taking into account the risk policies of the Company.

The RC recommends for the Board's endorsement, a framework of remuneration which covers all aspects of remuneration, including but not limited to Directors' fees, salaries, allowances, bonuses, benefits-in kind and specific remuneration packages for each director. In addition, the RC reviews the performance of the Group's key management personnel taking into consideration the CEO's assessment of and recommendation for remuneration and bonus.

No member of the RC is involved in deliberating in respect of any remuneration, compensation or any form of benefits to be granted to him. Each member of the RC will also abstain from voting on any resolutions and making any recommendations in respect of his own remuneration.

The RC has access to appropriate expert advice inside and/or outside the Company on human resources and remuneration matters of Directors and key management personnel wherever there is a need to consult externally. For FY2020, the RC has not consulted any external remuneration consultant.

The RC reviews the Company's obligations arising in the event of termination of the executive directors and key management personnel's contracts of service, to ensure that such contracts of service contain fair and reasonable termination clauses which are not overly generous with an aim to be fair and avoid rewarding poor performance. The RC is satisfied that the termination clauses therein are fair and reasonable.

#### **Number of Meetings**

The RC held one meeting during FY2020.

#### 2.2 Level and Mix of Remuneration

Principle 7: The level and structure of remuneration of the Board and key Management personnel are appropriate and proportionate to the sustained performance and value creation of the Company, taking into account the strategic objectives of the Company.

The RC reviews annually and makes recommendation on the remuneration of the Directors and key management personnel to ensure that the level and structure of remuneration commensurate is aligned with the long-term interest and risk policies of the Company and should be appropriate to attract, retain and motivate (a)the Directors to provide good stewardship of the Company and (b)key management personnel to successfully manage the Company.

The RC, with the concurrence of the Board, is of the view that the current remuneration of the Non-Executive Directors is appropriate to the level of contribution, taking into account factors such as effort and time spent, and responsibilities of the Directors. Other than Directors' fees, which have to be approved by shareholders at every AGM, the Non-Executive Directors do not receive any other forms of remuneration from the Company.

#### **Board Members**

The directors' fees paid to the Directors are based on the number of meetings attended during the year, subject to a minimum sum of \$\$25,000. The Chairman of the Board will receive an additional allowance that is equivalent to 120% (FY2019: 120%) of his Director's fee for the Board. The Chairman of each sub-committee will receive an additional allowance that is 50% of his Director's fee for the respective sub-committee. The Directors' fees are recommended by the Board for approval at the Company's Annual General Meeting. Save for the Directors' fees, the Independent Directors do not receive any other forms of remuneration from the Company. The Independent Directors do not have any service agreements with the Company.

The RC is of the view that the remuneration policy and amounts paid to Directors and key management personnel are adequate and in line with present market conditions. The Independent Directors are not compensated to the extent that their independence may be compromised.

#### **Senior Executives**

The remuneration package of key management personnel consists of four parts:

#### 1. Base or fixed remuneration

This element reflects the scope of the job and the level of skill and experience of the individuals.

#### 2. Variable for performance related income/bonuses

This is paid depending on the contribution of the key Management personnel of the Company and its subsidiaries. It usually takes the form of an end of the year ex-gratia payment to deserving employees who have gone the extra mile to grow the revenue, service level and financial performance of the Company and Group.

#### 3. Benefits

These benefits are mainly meals in the hotel and car benefit.

#### 4. Directors' Fee

Some of the key management personnel are Directors of subsidiaries and receive Directors' fees from the subsidiaries.

Incentive payment to the CEO and key management personnel takes the form of an ex-gratia payment at the end of the year and forms a small portion of their total remuneration. This will reward the CEO for both short term profitability and also sustainable long term growth of the Company and Group.

The Company has noted that the Code has recommended the incorporation of appropriate "claw-back mechanisms" to allow the Company to reclaim the variable incentive-based component of remuneration from Directors and key management personnel. There are, at present, no provisions allowing the Company to reclaim incentive components of remuneration from Directors and key management personnel in exceptional circumstances of mistatement of financial results for the following reasons:

- (a) The form of an ex-gratia payment at the end of the year and forms a small portion of key management personnel's total remuneration; and
- (b) The Directors do not receive any variable incentive-based Directors' fee.

The remuneration package, especially the year end ex-gratia bonus will be dependent on the individual's performance, Group's profitability, customers' satisfaction and the growth of the net asset value of the Group. This will balance short term profitability with long term net asset growth and also that customers' satisfaction is not compromised when we strive to increase our profitability.

The Group does not have any long term incentive plan or share option. The remuneration package and the year-end exgratia for CEO and key management personnel do not encourage excessive risk taking. The Group is also mindful that no one single investment item will compromise the long term sustainability of the Group.

#### 2.3 Disclosure on Remuneration

Principle 8: The Company is transparent on its remuneration policies, level and mix of remuneration, the procedure for setting remuneration, and the relationships between remuneration, performance and value creation.

The breakdown of remuneration of the Directors of the Company for FY2020 is as follows:

## Annual Remuneration Report Remuneration of Directors for FY2020 (in \$)

Nov. of Piroton	Director	7.4.1	
Name of Director	Company <sup>(c)</sup>	Subsidiaries	Total

Mr Lee Chou Hock (CEO) is the nephew of the Non-Executive Directors, Mr Lee Khin Tien and Mr Lee Kin Hong, a brother of Non-Executive Director, Mr Lee Chou Hor George and cousin of Non-Executive Director, Dr Lee Chu Muk.

Mr Lee Chu Bing is the brother of Dr Lee Chu Muk and Mrs Wong Siew Choo is the sister of Mr Lee Khin Tien and Mr Lee Kin Hong. Mr Lee Chu Bing is a cousin of Mr Lee Chou Hock and Mr Lee Chou Hor George.

Mr. Lee Zongye is the son of Mr. Lee Chou Hock and grand-nephew of Mr Lee Khin Tien and Mr Lee Kin Hong and nephew of Mr Lee Chou Hor George and Dr Lee Chu Muk.

The Company has no employee share option scheme, any share-based compensation scheme or any long-term scheme involving the offer of shares or options.

Remuneration of Employees who are Immediate Family Members of a Director, the CEO of a substantial shareholder Ms Lee Simin was appointed as the Assistant General Manager of Hotel Royal @ Queens on 2 January 2020. She is the daughter of Mr Lee Kin Hong (Non-Executive Director), niece of Mr Lee Khin Tien (Non-Executive Director), cousin of Mr Lee Chu Muk and Lee Chou Hor George (Non-Executive Directors) and Mr Lee Chou Hock (CEO).

Her remuneration is as follows:

	Fixed Remuneration	Variable Bonus	Benefit <sup>(2)</sup>	Subsidiaries' Director Fee	Central Provident Fund	Total Remuneration
Lee Si Min <sup>(1)</sup>	87,833	-	35	-	12,240	100,108

<sup>&</sup>lt;sup>1</sup> Ms. Lee Si Min is promoted to General Manager of Hotel Royal @ Queens on 1 March 2021.

With the emergence of the Covid-19 pandemic at the beginning of 2020, safeguarding the wellbeing and health of employees across our markets was our key priority.

All the key management personnel, who are currently in office, have volunteered to take a reduction in their remunerations for FY2020.

#### **Directors' Fees**

The RC had recommended to the Board an amount of \$200,400 as Directors' fees for the financial year ended 31 December 2020. In a show of solidarity with the nation and our stakeholders during the Covid-19 pandemic, all the Non-Executive Directors, who are currently in office, have volunteered to take a reduction of 20% in their Directors fees for FY2020. The recommended directors' fees have been endorsed by the Board and will be tabled at the forthcoming AGM for shareholders' approval. No Director is involved in deciding his own remunerations.

#### 3. ACCOUNTABILITY AND AUDIT

#### 3.1 Risk Management and Internal Controls

Principle 9: The Board is responsible for the governance of risk and ensures that Management maintains a sound system of risk management and internal controls, to safeguard the interests of the Company and its shareholders.

The Board as a whole is responsible for risk governance. Its duties are to:

- (a) ensure that Management maintains a sound system of risk management and internal controls to safeguard the Company's and Group's assets and shareholders' interest;
- (b) determine the nature and extent of significant risks and the level of risk tolerance and risk policies which the Board is willing to take to achieve its strategic intent;
- (c) provide oversight in the design, implementation and monitoring of the risk management framework and system of internal controls, including actions to mitigate the risks identified where possible;
- (d) review annually the adequacy and effectiveness of the risk management and internal control system; and
- (e) promote risk awareness culture through the Company for effective risk management.

A summary of the Group Risk Management is included in Pages 71 to 76 in this Annual Report.

The Board places special emphasis in the identification of major risk factors and Management when expanding into new overseas market, and that the short term gestation period or non-performance of the new investments will not place the Company and the Group under un-manageable risk. Hence, every new overseas investment is thoroughly and robustly discussed at Board meeting, with special emphasis on the input by the Independent Directors.

<sup>&</sup>lt;sup>2</sup> Benefits consist mainly of meals in the hotel.

The work of the internal auditors and the report of the external auditors have enabled the identification of key risks which are reported to the ARC to facilitate the Board's oversight of the effectiveness of risk management and the adequacy of mitigating measures taken by Management to address the underlying risks.

The ARC assists the Board in providing risk management oversight while the ownership of day-to-day management and monitoring of existing internal control systems are delegated to management which comprises the CEO, the GA and Head of each business division.

The Board reviews the adequacy and effectiveness of the Company's risk management and internal control systems including financial, operational, compliance, and information technology controls based on reports prepared by the internal auditors, and reviewed by the management at least once a year.

Based on the internal controls established and maintained by the Company, work performed by the internal and external auditors, and reviews performed by Management, various Board Committees and the Board, the Board with the concurrence of the ARC is of the opinion that the Company's internal controls, addressing financial, operational, compliance and information technology controls and risk management systems, were adequate and effective as at 31 December 2020.

For FY2020, the Board and the ARC have received assurance from the CEO and the GA that:

- (a) They have evaluated the adequacy and effectiveness of the Company's risk management and internal control systems, and have discussed with the Company's external and internal auditors of their reporting points and noted that there have been no significant deficiencies in the design or operation of internal controls which could adversely affect the Group's ability to record, process and report financial data. Accordingly, the Group's risk management systems and internal control systems (including financial, operational, compliance and information technology controls) are adequate and effective.
- (b) The financial records of the Company and the Group have been properly maintained and the financial statements give a true and fair view of the Company's operations and finances and are in accordance with the relevant accounting standards.

In addition, the Company had, pursuant to the amended Rule 720(1) of the Listing Manual of SGX-ST, received undertakings from all the Directors and executive officers that they each shall, in the exercise of their powers and duties as Directors and officers, comply to the best of their abilities with the provisions of the SGX-ST's Listing Rules, the Securities and Future Act, the Code on Takeover and Mergers, and the Companies Act and will also procure the Company to do so.

In assessing the need to establish a separate risk committee to assist the Board in carrying out its responsibility of overseeing the Company's risk management framework and policies, the Board after having discussed with the members of the ARC and the Board members, resolved that the function of the risk committee is best carried out by the ARC and in this connection in line with its enhanced role the Audit Committee has been renamed ARC in FY2013.

#### Accountability

The Board believes that it should conduct itself in ways that deliver maximum sustainable value to its shareholders. Prompt fulfilment of statutory requirements is one of the ways to maintain shareholders' confidence and trust in the Board's capability and integrity.

Management is responsible to the Board and the Board itself is accountable to the shareholders.

The Management will provide the Board with detailed management accounts which present a balanced and understandable assessment of the Group's performance, position and prospects on a monthly basis.

The Management also presents to the Board quarterly, half-yearly and full year financial results of the Group and the ARC reports to the Board on the results for review and approval.

The Board approves the results after review and authorises the release of the half-year and full year financial results of the Group to the SGX-ST and the public via SGXNET.

Annual general meetings are held every year to obtain shareholders' approval to routine business, as well as the election of Directors.

In addition to its statutory responsibilities, the Board also ensures that the principal risks of the Company's business are identified and appropriately managed.

#### 3.2 Audit and Risk Committee

#### Principle 10: The Board has an Audit Committee ("AC") which discharges its duties objectively.

The Audit and Risk Committee ("ARC") was tasked by the Board to assist the Board in carrying out its responsibility of overseeing the Company's risk management framework and policies. To reflect its enhanced role, the AC was renamed the ARC in FY2013.

**ARC Composition:** Members of the ARC comprise four Directors; namely Dr Tan Kim Song (Chairman), Mr Yang Wen Wei, Dr Pang Eng Fong, and Mr Lee Khin Tien. 75% of the members of the ARC, including its Chairman, are independent.

Two members of the ARC, including the Chairman, have recent and relevant accounting and/or related financial management expertise.

#### **Number of Meetings**

The ARC held four meetings during FY2020.

#### **Key Terms of Reference and Activities**

During FY2020, the ARC has performed its duties as guided by its key terms of reference which stipulate its principal functions.

The key terms of reference of the ARC are to:

- review with the external/internal auditors the audit plans, their evaluation of the system of internal accounting controls, and their audit report including the scope and results of the external audit, the independence and objectivity of the external auditors:
- review the consolidated financial statements and statement of financial position and statement of profit or loss of the Company including reviewing the significant financial reporting issues and judgments so as to ensure the integrity of the financial statements of the Group and Company and any announcements relating to the Group and Company's financial performance, before submission to the Board for approval;
- review the Group's financial and operating results and accounting policies;
- review the assurance from the CEO and the GA on the financial records and financial statements;
- review the assurance from the CEO and the GA on the adequacy and effectiveness of the Company's risk management and internal control system;
- review the internal control procedures, its scope and the results and to ensure co-ordination between the external/internal auditors and the Management; and review the assistance given by Management to the external auditors, and discuss problems and concerns, if any, arising from the interim and final audits;
- review and report to the Board at least annually the adequacy and effectiveness of the Company's risk management and system of internal controls;
- review the effectiveness of the Company's internal audit function;
- review the policy and arrangements by which employees of the Group and any other persons may, in confidence, report to the Chairman of the ARC, concerns about possible improprieties in financial reporting or other matters and ensuring that there are arrangements in place for such concerns to be safely raised and independently investigated, and for appropriately follow-up action to be taken;
- review and discuss with the external auditors any suspected fraud or irregularity, or suspected infringement of any
  relevant laws, rules or regulations, which has or is likely to have a material impact on the Group's operating results and/
  or financial position, and the Management's response;
- make recommendation to the Board on the proposals to the shareholders on the appointment, re-appointment and removal of the external auditors;
- · review interested person transactions (if any) falling within the scope of Chapter 9 of the Listing Manual;
- review potential conflicts of interest, if any;
- undertake such other review and projects as may be requested by the Board, and report to the Board its findings from time to time on matters arising and which requires the attention of the ARC; and
- undertake such other functions and duties as may be required by statute or the SGX-ST Listing Manual, or by such amendments as may be made from time to time.

#### Access to Information

The ARC has full access and co-operation of Management and has been given the resources required for it to discharge its function properly. It also has full discretion to invite any Director and key management personnel of the Group to attend its meetings. The external and internal auditors have unrestricted access to the ARC.

#### Financial Reporting and Key Audit Matter

One of the key roles of the ARC is to review the financial statements, including the review of significant judgements and accounting estimates so as to ensure the integrity of the financial statements of the Company.

Following discussion with the external auditors, the ARC and the external auditors have determined that the valuation of the Group's freehold land on which the hotels are sited, and the impairment of property, plant and equipment and investment properties are a key audit matters for FY2020.

#### Key Audit Matter

#### Valuation of properties - Freehold land

The Group has freehold land on which hotels are sited and these are stated at their fair values based on independent external valuations. The Group's freehold land amounting to \$479.15 million, account for approximately 61% of total assets at 31 December 2020.

The valuation for freehold land involves significant judgement and estimates in determining the appropriate valuation methodology to be used, and in estimating the underlying assumptions to be applied.

Certain freehold land are valued using the direct comparison approach and the key inputs are values per square meter referenced to comparable properties, with adjustments made for differences such as location, size, tenure and accessibility.

Other freehold land are valued using the residual approach, where the residual value of the land is estimated after deducting depreciated replacement cost of the hotel from the value of the whole property - land and hotel. The income capitalisation approach is used by the valuer to estimate the value of each whole property. The value of the whole property is sensitive to key inputs such as occupancy rates and revenue per room (which affect the projected earnings before interest, tax, depreciation and amortisation); and the capitalisation rate.

A change to any of the inputs may have a significant impact on the valuation of each of the properties.

### <u>Impairment of assets – Property, plant and equipment and investment properties</u>

The Group's property, plant and equipment (excluding freehold land) ("PPE") and investment properties ("IPs") account for approximately 17% and 14% of total assets respectively as at 31 December 2020. These assets (excluding freehold land in PPE) are stated at cost less accumulated depreciation and impairment loss.

Included in PPE are leasehold land, hotel building and building improvements ("leasehold land and hotel buildings"), which account for approximately 20% of the Group's total PPE.

In assessing the recoverable amount of the leasehold land and hotel buildings, and IPs, management has relied on the valuations performed by independent external valuers to estimate the net realisable values, and this involves significant judgement and estimates in determining the appropriate valuation methodology to be used, and in estimating the underlying assumptions to be applied.

Underlying the valuations for leasehold land and hotel buildings and an IP, are key inputs such as occupancy rates and revenue per room (which affects the projected earnings before interest, tax, depreciation and amortisation); and the capitalisation rate, which are sensitive to changes.

Other IPs are valued using the direct comparison approach and the key inputs are values per square meter referenced to comparable properties, with adjustments made for differences such as location, size, tenure and accessibility.

#### ARC's Comment on Key Audit Matter

For FY2020, the Group recognised in other comprehensive income (page 87 of this Annual Report) net valuation loss of \$42.465 million for freehold land on which the hotels are sited. The freehold land amounting to \$479.15 million accounted for 61% of total assets at 31 December 2020.

The Group recognised an impairment of \$12.265m in the profit or loss for the financial year 2020. The impairment loss consists of \$8.765 million and \$3.5 million from the property, plant and equipment (excluding freehold land), and the investment properties respectively.

The valuations for freehold land, property, plant and equipment and investment properties involve significant judgement in determining the appropriate valuation methodology to be used, and in estimating the underlying assumptions to be applied. A change in the assumptions can have a significant impact to the valuation.

The Group engaged reputable valuers with the necessary qualifications, competence and independence.

In order to satisfy ourselves that the valuations of freehold land, property, plant and equipment and investment properties are not materially misstated, the ARC reviewed the qualifications and competence of the valuers, and the various valuation methods, assumptions and inputs used with Management.

The ARC also obtained an understanding on the work performed by the external auditors, including their assessment of the appropriateness of the various valuation methodologies and relevance of the assumptions and inputs.

Following these discussions, ARC noted that the engagement of the external independent and experienced valuers; the valuation methods, assumptions and inputs used; explanations given by Management; and the work performed by the auditors provide a reasonable basis for concluding on the valuation of the freehold land and the impairment of the property, plant and equipment and investment properties as at 31 December 2020. The ARC considered the comments of the Independent Auditors' Report and the disclosures in Notes 14 and 15 to the financial statements. These are consistent with the results of the above discussions.

#### **Risk Management and Internal Controls**

The external and internal auditors conducted annual review to assess the risk profile including the review on the adequacy of the internal controls, addressing financial, operational, compliance risks and information technology. Such review also assessed whether there was reasonable assurance regarding the effectiveness and efficiency of operations, reliability of Management and financial reporting, and compliance with internal policies. Any material non-compliance or lapses in internal controls together with corrective measures are reported to the ARC. The timely and proper implementation of all required corrective, preventive or improvement measures are closely monitored.

The role of the Internal Auditors is to support the ARC in ensuring that the Group maintains a sound system of risk management and internal controls by monitoring and assessing the adequacy and effectiveness of key controls and procedures, conducting in-depth audits of high risk areas and undertaking investigations as directed by the ARC.

The hiring, removal, evaluation and compensation of the Internal Auditors or corporation to which the internal audit function is outsourced was approved by the ARC. The Internal Auditors have unfettered access to all the Company's documents, records, properties and personnel, including access to the ARC.

The Company's internal audit function has been outsourced to a professional firm, Philip Liew & Co. who is independent of the Company's business activities. The Internal Auditors, staffed with persons of relevant qualifications and experience, carry out the internal audit taking guidance from the International Standards for the Professional Practice of Internal auditing set by The Institute of Internal Auditors, and report directly to the ARC on internal audit matters. The ARC has reviewed and is satisfied with the independence, adequacy and effectiveness of the Company's internal audit function. The AC is also satisfied that the internal auditor is adequately resourced and has the appropriate standing within the Group.

On an annual basis, the ARC meets regularly with the Management and external and internal auditors to review auditing and risk management matters and discuss accounting implications of any major transactions including significant financial reporting issues. It also reviews the internal audit functions to ensure that an effective system of internal controls is maintained in the Group. On a half yearly basis, the ARC also reviews the interested person transactions and the financial result announcement before their submission to the Board for approval. The ARC is kept abreast by the Management, the external auditors and the Company secretary of changes to accounting standards, listing rules of the SGX-ST and other regulations which could have an impact on the Group's business and financial statements. The AC is also satisfied that the internal auditor is adequately resourced and has the appropriate standing within the Group.

In addition, at least once a year, the ARC, together with the Board, reviews the effectiveness and adequacy of the Group's system of internal controls put in place to address key financial, operational, compliance and information technology controls and risk management system affecting the operations.

Based on the Group's framework of internal controls put in place, the internal control policies and procedures established and maintained by the Group, as well as the reviews performed by the external and internal auditors, the Board with the concurrence of the ARC is of the view that the internal control systems of the Group, addressing the financial, operational, compliance, information technology controls and risk management systems are adequate and effective as at 31 December 2020.

The Board acknowledges that it is responsible for the overall internal control and risk management framework. However, it recognises that the system of internal control and risk management established by Management provides reasonable but not absolute assurance against human errors, frauds, poor judgement in decision making, and other irregularities.

The ARC has met with the internal auditors and external auditors separately and in each case, at least once a year and during FY2020, without the presence of the Management to review any matter that might be raised. Both the external and internal auditors report directly to the ARC their findings and recommendations.

The ARC is satisfied that the appointment of external auditors is in compliance with the requirements of Rule 712 and 715 of the SGX-ST Listing Manual. Together with the audit engagement partner and his team assigned to the audit of the Group, the ARC was satisfied that the resources and experience of Messrs. Deloitte & Touche LLP, the audit engagement partner and his term assigned to the audit, were adequate to meet their audit obligations, given the size, nature, operations and complexity of the Group.

Accordingly, the ARC, with the concurrence of the Board, had recommended the appointment of Messrs. Deloitte & Touche LLP as external auditors of the Company for FY2020 at the forthcoming annual general meeting based on their performance and the quality of their audit. Rule 716 of the Listing Manual of the SGX-ST is not applicable as the same auditing firm is appointed for the Company and its subsidiaries.

For FY2020, the Group incurred an aggregate of \$\$426,000 to the external auditors, of which was \$\$384,000 was for audit services and \$\$42,000 was for non audit services.

The ARC, having reviewed the scope and value of non-audit services provided to the Company and Group by the external auditors, are satisfied that the nature and extent of such services will not prejudice the independence and objectivity of the external auditors. The external auditors have also provided a confirmation of their independence to the ARC.

No former partner or Director of the Company's existing auditing firm or audit corporation is a member of the ARC.

Members of the ARC abstain from voting on any resolutions and making any recommendation and/or participating in discussion on matters in which they are interested parties.

#### Whistle-Blowing

The ARC has an established whistle-blowing policy. Allegations on serious matters relating to financial reporting, illegal or unethical conduct can be reported directly to Mr Yang Wen-Wei, the Chairman of the RC, for appropriate actions. The whistle-blowing policy which has been endorsed by the ARC has been communicated to all employees in the Group.

Under the whistle-blowing policy, employees of the Group can in good faith and confidence, raise concerns about improper conduct for independent investigation, and that the employees making such reports will be treated fairly and, to the extent possible, protected from reprisal. Anonymous complaints will also be accepted and investigated.

There was no valid whistle-blowing report received for FY2020.

#### 4. SHAREHOLDER RIGHTS AND ENGAGEMENT

#### 4.1 Shareholder rights and conduct of general meetings

Principle 11: The Company treats all shareholders fairly and equitably in order to enable them to exercise shareholders' rights and have the opportunity to communicate their views on matters affecting the Company. The Company gives shareholders a balanced and understandable assessment of its performance, position and prospects.

Shareholders are encouraged to be present at the annual general meeting in person so that face-to-face communication can best be achieved. The annual general meeting is the principal forum for dialogue with shareholders. Thus, with greater shareholders participation, it will ensure that they will be kept up to date as to the Group's long-term strategies and goals.

In addition, all the Directors (including the various Chairmen of the Board Committees) and senior Management are also present at the meeting to address queries and concerns from the shareholders. The external auditors are also present to address shareholders' queries about the conduct of the audit and the preparation and content of the auditors' reports.

Shareholders are informed of general meetings through notices contained in annual reports or circulars that are sent to shareholders. The notice of general meetings are also published in the Business Times and announced via SGXNet within the mandatory period. Rules, including voting procedures, that governed general meetings are included in the annual reports or circulars and explained further before the voting process.

For FY2020, due the Covid-19 outbreak, the Company's AGM on 27 June 2020 was held by way of electronic means, through "live webcast" and "audio-only means". The notice of AGM was published on SGXNet as well as the Company's website. The Company had also published an announcement and Frequently Asked Questions, detailing the alternative arrangements for the AGM held on 27 June 2020, during the Covid-19 pandemic. Shareholders participated in the AGM via electronic means, and their questions in relation to any resolution set out in the notice of AGM were sent to the Company in advance of the meetings. The Company provided their responses to the substantial queries and relevant comments from Shareholders at the AGM via electronic means, and the responses were subsequently published on the SGXNet and the Company's website together with the minutes of the AGM.

To enhanace shareholder participation, the Company put all resolutions tabled to vote by poll. All resolutions at the Company's general meeting will be by poll so as to better reflect shareholders' shareholding interest and promote greater transparency. The detailed results showing the number of votes cast for and against each resolution and the respective percentages will be announced immediately at the meeting and also disclosed via SGXNet on the same day. If shareholders are unable to attend the annual general meetings, the Company's Constitution allows a shareholder of the Company to appoint up to two proxies to attend and vote in place of the shareholder. The Company has amended its Constitution to allow corporations which provide nominee or custodial services to appoint more than two proxies so that shareholders who hold shares through such corporations can attend and participate in general meetings as proxies.

For FY2020, as the AGM on 27 June 2020 was held by electronic means, voting at the AGM was by proxy only. Shareholders who wish to vote on any or all of the resolutions at the AGM, appointed the Chairman of the AGM as their proxy by completing the proxy form for the AGM, and submitted the proxy form by post or by email to the Company.

Voting in absentia and by electronic mail may only be possible following careful study to ensure that integrity of the information and authentication of the identity of shareholders through the web is not compromised and is also subject to legislative amendment to recognise electronic voting.

All resolutions tabled at general meetings are on each substantially separate issue and all resolutions at general meetings requiring shareholders' are proposed as separate resolutions. Detailed information on each item in the general meeting's agenda is provided in the explanatory notes to the notice of the general meeting.

The Company prepares minutes of general meetings that include substantial and relevant comments and queries from shareholders relating the meeting's agenda, and response from the Board and Management. These minutes are available to the shareholders via SGXNet and on the Company's website.

#### **Dividend Policy**

The Company recognises shareholders' desire to receive return on their investment and always endeavours to maximise their return. The Company does not have a formal dividend policy in place. The Company intends to declare an annual dividend amounting to at least one-third of its net profit before fair value adjustments, exceptional and extraordinary items and after income tax. In considering the declaration of dividends, the Company will take into consideration the Group's profit growth, cash position, positive cash flow generated from operations, projected capital requirements for business growth and other factors as the Board may deem appropriate.

A first and final dividend of 2.5 cents per ordinary share one-tier tax exempt for FY2020 have been proposed for shareholders' approval at the forthcoming AGM on 24 April 2021.

#### 4.2 Engagement with shareholders

Principle 12: The Company communicates regularly with its shareholders and facilitates the participation of shareholders during general meetings and other dialogues to allow shareholders to communicate their views on various matters affecting the Company.

#### 4.3 Engagement with Stakeholders

Principle 13: The Board adopts an inclusive approach by considering and balancing the needs and interests of material stakeholders, as part of its overall responsibility to ensure that the best interests of the Company are served.

#### Disclosure of Information on a Timely Basis

In line with the continuous disclosure obligations of the Company pursuant to the Singapore Exchange Listing Rules and the Singapore Companies Act, it is the Board's policy to ensure that all shareholders are informed regularly, comprehensively and on a timely basis of every significant development that impact on the Group. The Company does not practise preferential and selective disclosure to any group of shareholders.

Pertinent information is communicated to all shareholders on a regular and timely basis through the following means:

- the Company's annual reports;
- notices of and explanatory memoranda for annual general meetings and extraordinary general meetings;
- announcements of half yearly and full-year financial statements containing a summary of the financial information and affairs of the Group for the period. These are disclosed on SGXNet;
- other announcements, where appropriate;
- press releases regarding major developments of the Group; and
- disclosures to the Singapore Exchange Securities Trading Limited.

The Company notifies the investors' public in advance of the date of the release of its financial results via a SGXNet announcement.

The Company has identified stakeholders as those who are impacted by the Group's business and operations as well as those who have a material impact on the Group's business and operations. Such stakeholders include hotel guests, employees, contractors, suppliers, government, regulators, community, shareholders and investors. The Company engages its stakeholders through various channels to ensure that the business interests of the Group are balanced against the needs and interests of its stakeholders. For more information on the Company's stakeholder engagement, please refer to the Company's Sustainability Report set out on pages 32 to 39 of this Annual Report.

#### **Corporate Website**

The Company adopts transparent, accountable and effective communication practices and to ensure fair dissemination to shareholders, all materials on the half yearly and full year financial results, annual report, announcements and minutes of general meetings are available on the Company's website (www.hotelroyal.com.sg). The website also contains other useful investor-related information.

For ease of communication, shareholders can contact Management via ir@hotelroyal.com.sg. This will allow the Board and Management to gather shareholders' views and inputs, and address shareholders' concern. The contact details of the investor relations function are also set out in the inside cover page of this Annual Report as well as on the Company's website. The Company have procedures in place for responding to investors' gueries.

#### **ADDITIONAL INFORMATION**

#### 5. DEALING IN SECURITIES

The Group has adopted an internal code on dealings with securities which, amongst others, prohibits the directors and key management personnel of the Group from dealing in the Company's share during the period of one month immediately preceding the announcement of the Company's half-year and full-year results respectively or if they are in possession of unpublished price-sensitive information of the Group. In addition, Directors and key executives are expected to observe insider trading laws at all times even when dealing in securities within the permitted trading period. They are also discouraged from dealing in the Company's shares on short-term considerations. Directors are required to notify the Company their secruities dealings within two (2) business days of such dealings and the Company shall disseminate the notifications received to the market via SGXNet within one (1) business day of receiving such notifications.

In view of the processes in place, in the opinion of the Board, the Company has complied with Rule 1207(19) of the Listing Manual of SGX-ST on dealing in securities.

#### 6. MATERIAL CONTRACTS

There were no material contracts entered into by the Company or any of its subsidiaries involving the interests of the CEO, any Director or controlling shareholder during the year under review or have been entered into since the end of the previous financial year.

#### 7. INTERESTED PERSON TRANSACTIONS

The Company has established procedures to ensure that all transactions with interested persons are properly documented and reported in a timely manner to the ARC and that transactions are conducted on an arm's length basis and are not prejudicial to the interests of the Company and its non-controlling shareholders.

The Board will ensure that all disclosure, approval and other requirements on interested person transactions, including those required by prevailing legislation, the Listing Manual and accounting standards are complied with.

There were no material contracts entered into by the Company and Group involving the interests of any Director or controlling shareholder, either still subsisting at the end of FY2020 or it not then subsisting, entered into since the end of the previous financial year.

The Company's disclosure in related party transactions for FY2020 as set out on page 121 of this Annual Report. There were no interested person transactions in excess of \$\$100,000 per transaction entered into by the Company and Group for the year under review or have been entered into since the end of the previous financial year.

When a potential conflict arises, the concerned parties do not participate in its deliberation so as to refrain from exercising any influence over other members of the Board.

#### 8. CODE OF CONDUCT AND ETHICS FOR EMPLOYEES

The Group has a Code of Conduct and Ethics for Employees that sets the standards and ethical conducts expected of all employees. This code covers workplace conduct, protection of the Group's assets, information confidentiality, conflict of interests, business conduct, gratuities or bribes and dishonest behaviour.

All employees are expected to maintain a high standard of personal integrity and compliance to Company policies and with the laws and regulations of the countries in which it operates.

#### 9. USE OF PROCEEDS

As at the date of this report, the status of the utilisation of the proceeds raised from the Company's Renounceable Non-Underwritten Rights Issue are as follows:

	\$'000
Total rights issue proceeds	50,227
Less Utilisation:	
3Q 2018 – repayment of outstanding loans	44,700
3Q 2018 - capital expenditure	542
2Q 2019 – dividend payment	2,400
Balance unutilised as at 31 December 2020	2,585

There was no utilisation of the right issue proceeds in FY 2020.

# Risk Management

Risk management constitutes an integral part of Hotel Royal's business management. The Group's risk and control framework seeks to provide reasonable assurance that our business objectives are achieved. We do this by ensuring that the management controls in our daily operations achieve efficiency, effectiveness, and safeguards our assets. We ensure that we are compliant with legal and regulatory requirements, while upholding the integrity of the Group's financial reporting and its related disclosures. Management is responsible for identifying critical risks to our businesses, and for developing and implementing appropriate measures to address such risks. Our risk management and control procedures are reviewed and updated regularly to reflect changes in market conditions and the activities of the Group.

The Group recognises that not all risks can be eliminated, and adopts a balanced approach to risk management, such as:

- (a) Identification
- (b) Assessment
- (c) Formulation of mitigation measures
- (d) Implementation
- (e) Monitoring and review

The following describes the Group's major risk factors and its management. In the year under review, we were satisfied that there were no risks that could affect the ability of the Group to continue as a going concern in the next twelve months.

#### **BUSINESS AND STRATEGY RISKS**

Business and strategy risks refer to factors affecting businesses such as customer demand, sales performance, macroeconomic conditions, competition, and regulatory environment. They are usually managed by the respective hotels and subsidiaries within the Group in their pursuit of growth and earnings target.

DESCRIPTION OF RISK WE FACE	WHAT WE DO TO MITIGATE THE RISKS
Strategy and investment risk	
<ul> <li>The Group is exposed to risks in its overseas expansion plan.</li> <li>The investment time frame and the budgets for such expansion plans may be exceeded and that the parameters set may not be achieved.</li> </ul>	<ul> <li>All new investment proposals are evaluated thoroughly and, where necessary, are supported by the advice of external professionals to ensure that they are in line with the Group's strategic focus and that they meet the relevant rate of financial returns. Other non-financial risk factors are also considered.</li> <li>All new investment proposals are reviewed by the senior management and discussed in detail at the Board meetings.</li> <li>They are monitored to ensure that they are able to meet the Group's strategic intent, investment objectives and returns.</li> </ul>
<ul> <li>Market and political risk</li> <li>The Group currently operates in Singapore, Malaysia, Thailand and New Zealand. The subsidiaries in these countries are exposed to changes in government policies and regulations. Some of these changes may affect the realisation of business opportunities and investments in those countries.</li> <li>Global economic uncertainties, such as trade wars and recession, will affect the Singapore economy and hence the Group's performance.</li> </ul>	<ul> <li>The Group monitors the market and political landscape in these countries, so that the Group is better able to anticipate and/or respond to any adverse changes in market and political conditions in a timely manner.</li> <li>As at 31 December 2020, approximately 31% of the Group's assets are located overseas, accounting for about 53% of the total revenue in FY 2020. As the Group currently operates in more than one country, it has greater geographical diversification which reduces the risk of a single market concentration.</li> </ul>

# $Risk\ Management\ ({\tt Cont'd})$

DESCRIPTION OF RISK WE FACE	WHAT WE DO TO MITIGATE THE RISKS
Regulatory risk	
The Group is subject to changes in prevailing laws and regulations in the countries where it operates, such as in corporate, competition and environment laws.	The Group works closely with local authorities and business partners so as to keep abreast with any changes and/or material regulatory developments.
	<ul> <li>Foreign subsidiaries will inform the Group's head office of any material regulatory development in a timely manner.</li> </ul>
Competition risk	
The hospitality business in Singapore, Malaysia and Thailand is highly competitive. Any increase in new room inventory can lead to downward pressure on room rates, particularly on older or existing properties.	<ul> <li>The Group strives to maintain competitiveness through product differentiation and leveraging on its brand name to protect and gain market share.</li> <li>The Group invests in long-term relationships with its strategic partners to improve its service and product quality and secure customer loyalty.</li> </ul>
Reputation risk	
The Group may face negative publicity or diminution in public confidence if there are mishandling of transactions or events.	<ul> <li>The Group believes in giving a fair deal to its stakeholders and has put in place an open program to achieve effective and timely communication with its key stakeholders.</li> <li>Its corporate vison, mission statement and core values are communicated to all employees within the Group.</li> </ul>
	are communicated to an employees within the Group.
Business continuity risk	
<ul> <li>Unforeseen circumstances (including internal and external threats) such as fire, flood, and terrorism attacks, can disrupt the continuation of its business operations.</li> </ul>	<ul> <li>The Group reviews its crisis management and communications procedures regularly, so as to ensure that it can continue to maintain its business operations and expedite recovery.</li> </ul>
Spread of contagious diseases	
The outbreak of contagious diseases, such as SARS and Covid-19 will have adverse effects on tourist arrivals.	<ul> <li>The Group diversifies its business sources so that the if one source of business is affected, the other sources can help to make up for the shortfall.</li> <li>The Group has sufficient financial resources to tide through economic downturns caused by such outbreaks.</li> </ul>

## **OPERATIONAL RISKS**

Operational risks refer to persons, processes, products, information technology and practices in the business activities which may not operate as designed or planned.

DESCRIPTION OF RISKS	WHAT WE DO TO MANAGE THE RISKS
Operational processes risk	
<ul> <li>Possible breakdown in internal process, deficiencies in people and management, or operational failure arising from external events can result in potential loss to the Group.</li> </ul>	Minimise unexpected losses and manage expected losses through a series of quality and people management programs, as well as through business continuity planning.
	Operating manuals, standard operating procedures and the delegation of authority matrix are in place.
	On-going efforts to streamline business processes and adopt ISO standards and certifications to achieve standardisation of processes and best practices.
	Conduct regular reviews of policies and authority limits to ensure its relevance in meeting a changing business environment.
People risk	
<ul> <li>The Group depends on quality service provided by good service providers to achieve profitability and growth.</li> <li>The execution of succession planning is a challenge, given the size of the Group.</li> </ul>	<ul> <li>The Group provides a cohesive environment under which employees can develop to their fullest potential and have a work-life balanced career path. This ensures that our human capital is continually nurtured and retained.</li> <li>Staff who perform well are attractively rewarded and groomed for more responsibilities.</li> </ul>
Climate change and environmental risk	
Climate change and environmental risk is a growing concern. Rising sea level is a potential threat to our hotels that are situated in low lying areas.	<ul> <li>The Group adopts environmentally-friendly practices and benchmarks against the best practices.</li> <li>Close monitoring of rising sea levels and their effect on our properties.</li> </ul>

# Risk Management (Cont'd)

## **FINANCIAL RISKS**

Financial risks arise from volatility in the underlying financial market and include factors such as interest rates, foreign exchange and equity prices.

DESCRIPTION OF RISKS	WHAT WE DO TO MANAGE THE RISKS
Credit risk	
The Group's credit risk is primarily attributable to its cash and bank balances, trade and other receivables. Cash and fixed deposits (Note 6) are in the custody of creditworthy financial institutions. Trade receivables are largely from credit card companies, tour agencies, regular corporate clients, hotels and tenants at the Group's properties. The Group may suffer potential financial loss resulting from the failure of customers or counterparties to settle their financial and contractual obligations as and when they fall due.	<ul> <li>Standard procedures are in place which include the application of credit approvals, performing credit evaluations, setting credit limits and regular monitoring of credit risks. Cash terms or advance payments are required for customers with lower credit standing.</li> <li>There is no significant concentration of credit risk to a single customer. It is the Group's policy to sell to a diversity of creditworthy customers to reduce concentration of credit risk.</li> <li>While the Group faces the normal business risks associated with ageing collections, it has adopted a prudent accounting policy of making provisions once trade receivables are deemed not collectible. Major collectible issues are highlighted to all concerned.</li> </ul>
Interest rate risk	
The Group is exposed to interest rate risks through the impact of rate changes on interest-bearing liabilities and assets.	<ul> <li>The Group actively monitors interest rate fluctuations and trends.</li> <li>The Group borrows in local currencies and practices natural hedging as it receives its revenue in local currencies.</li> </ul>
Foreign exchange risk	
<ul> <li>The Group has investments in funds under management of certain banks and cash deposits which are exposed to foreign exchange risk arising from the exchange rate movements of foreign currencies.</li> <li>Exchange gain or loss may also arise when the assets and liabilities in foreign currencies are translated into Singapore dollars for financial reporting purposes. For FY2020, approximately 8% (2019: 9%) of the Group's net assets is denominated in Malaysian ringgit, and approximately 8% (2019: 7%) and 10% (2019: 11%) are denominated in New Zealand dollars and Thai baht respectively.</li> </ul>	<ul> <li>Continuous monitoring of the exchange rates of major currencies.</li> <li>Currency translation risk, which is inherent for operations outside Singapore, is non-cash in nature and therefore not hedged.</li> </ul>
Price Risk	
• The Group is exposed to price risks arising from its investments classified as fair value through profit or loss and fair value through other comprehensive income. These investments include equity shares and instruments, whose fair values are subject to volatility in equity and bond prices.	Diversify the investment portfolio to manage risks.

#### **DESCRIPTION OF RISKS** WHAT WE DO TO MANAGE THE RISKS **Liquidity risk** • Liquidity risk reflects the risk that the Group will have Monitor working capital requirements and maintain a level of cash and cash equivalents deemed adequate insufficient resources to meet its financial liabilities as to mitigate the effects of fluctuations in cash flows, as they fall due. well as to ensure that the Group has sufficient funds to meet its contractual and financial obligations as and when they fall due. • Management assesses the availability of credit facilities and compliance with loan covenants on an on-going basis and no matters have been drawn to its attention that the roll-over of the short-term financing may not be forthcoming or that covenants have been breached. The Group and the Company have unutilised credit facilities totalling \$202.8 million (2019: \$183.9 million) and \$130.9 million (2019: \$112.2 million) respectively. From time to time, management evaluates the tenure of credit facilities including the need for longer term credit facilities. • Enhance ability to generate cash from operating activities to improve the Group's cash position and reduce liquidity risk. Capital structure risk • Inefficient capital structure could impact the • The Group manages its capital to ensure that entities in Group's ability to provide appropriate returns to the the Group will be able to continue as a going concern share holders. and returns to shareholders are optimised through a mix of equity, short-term, and long-term debts. The capital structure of the Group consists of equity comprising share capital discloses in Note 22, reserves and retained earnings; and debts which comprise bank borrowings and leases disclosed in Note 16, 20 and 30. Regular reviews are performed to ensure optimal capital structure. Taken into consideration are future capital requirements and capital efficiency, prevailing operating cash flow and profitability, as well as projected capital expenditure. In order to maintain or achieve an optimal capital structure, the Group may issue new shares, obtain new bank borrowings, sell assets to reduce external borrowings, pay or adjust the amount of dividend payout, or return capital to shareholders. Financial management risk • Rely on self-assessment, review, and reporting • Formalised operating manuals and standard operating processes to ensure that transactions are carried out in procedures. conformity with accounting standards and the Group's accounting policies, and that the internal controls are • Internal controls on financial reporting are reviewed regularly to ensure proper financial discipline and adequate and effective. compliance with established Group's policies and guidelines are adhered to. • The system may not prevent or detect all frauds or misstatements in a timely manner, especially with • External and internal audit reviews carried out annually changes in conditions and operations which may cause the system effectiveness to vary from time to time. on the controls and procedures in place also serve as a platform to highlight any irregularities.

# Risk Management (Cont'd)

DESCRIPTION OF RISKS	WHAT WE DO TO MANAGE THE RISKS
Derivative financial instrument risk	
<ul> <li>Market conditions may move against the Group's assumptions at the time of hedging the transactions.</li> </ul>	The Group does not hold or issue derivative financial instruments for trading purposes.

#### **COMPLIANCE RISKS**

Compliance risks are the current and prospective risks arising from violation of, or non-conformance with laws, rules, regulations, or ethical standards.

DESCRIPTION OF RISKS	WHAT WE DO TO MANAGE THE RISKS
Compliance risk	
<ul> <li>Rapid changes in laws, regulations and practices are making compliance more complicated. This is especially so as the Group also operates overseas.</li> </ul>	<ul> <li>Risk management, internal controls and corporate governance frameworks are in place and reviewed on an annual basis.</li> </ul>
• Deliberate wrongful acts, such as fraud, can result in financial loss.	Whistle-blowing policy has been in practice for some time.
	External auditors are engaged for statutory audits and internal auditors are engaged to conduct financial and operations reviews. Both external and internal auditors report directly to the Audit Committee.

#### **INFORMATION TECHNOLOGY RISKS**

Information technology (IT) risks include hardware and software failure, human error, spam, viruses and malicious attacks, as well as natural disasters such as fire, storms or floods.

DESCRIPTION OF RISKS	WHAT WE DO TO MANAGE THE RISKS
Cyber security risk	
The Group's operations are exposed to a full range of risks, presented in various forms that are associated with its IT system. This includes disruptions to the network.	<ul> <li>Adopt necessary and current IT controls and governance practices, including the strengthening of network security, such as regularly updating security patches to the system.</li> </ul>
<ul> <li>Increasing global incidence of cyberattack on company servers and websites demonstrates the need to reinforce and tighten the security of the Group's IT systems and avoid breaches.</li> </ul>	<ul> <li>Put in place appropriate measures to safeguard the loss of information, data security, and ensure the continuity of the Group's business activities and its prompt recovery from an IT crisis.</li> </ul>
Cyberattacks can disrupt operations. The theft of sensitive and confidential information can lead to litigations and financial losses.	Conduct regular training for users to heighten awareness of IT threats.

Notes to Financial Statements	91

## Directors' Statement

The directors present their statement together with the audited consolidated financial statements of the Group and statement of financial position and statement of changes in equity of the Company for the financial year ended 31 December 2020.

In the opinion of the directors, the consolidated financial statements of the Group and the statement of financial position and statement of changes in equity of the Company as set out on pages 85 to 147 are drawn up so as to give a true and fair view of the financial position of the Group and of the Company as at 31 December 2020, and the financial performance, changes in equity and cash flows of the Group and changes in equity of the Company for the financial year then ended and at the date of this statement, there are reasonable grounds to believe that the Company will be able to pay its debts when they fall due.

### 1 DIRECTORS

The directors of the Company in office at the date of this statement are:

Dr Tan Kim Song
Lee Khin Tien
Lee Kin Hong
Emeritus Professor Pang Eng Fong
Yang Wen-Wei
Dr Lee Chu Muk
Lee Chou Hor George (Appointed on 29 June 2020)

## 2 ARRANGEMENTS TO ENABLE DIRECTORS TO ACQUIRE BENEFITS BY MEANS OF THE ACQUISITION OF SHARES AND DEBENTURES

Neither at the end of the financial year nor at any time during the financial year did there subsist any arrangement whose object is to enable the directors of the Company to acquire benefits by means of the acquisition of shares or debentures in the Company or any other body corporate.

## 3 DIRECTORS' INTERESTS IN SHARES AND DEBENTURES

The directors of the Company holding office at the end of the financial year had no interests in the share capital and debentures of the Company and related corporations as recorded in the register of directors' shareholdings kept by the Company under Section 164 of the Singapore Companies Act except as follows:

Name of directors and company in which interests are held	Shareholdings registered in name of directors		Shareholdings in which directors are deemed to have an interest		
	At beginning of year or date of appointment, if later	At end of year	At beginning of year or date of appointment, if later	At end of year	
The Company	Ordinary shares		nary shares Ordinary shares		
Lee Khin Tien	282,240	282,240	-	-	
Lee Kin Hong	92,736	92,736	403,200	403,200	
Lee Chou Hor George	42,000	42,000	12,993,680	12,993,680	

The directors' interests as disclosed above remained unchanged at 21 January 2021.

#### 4 SHARE OPTIONS

#### (a) Options to take up unissued shares

During the financial year, no option to take up unissued shares of the Company or any corporation in the Group was granted.

#### (b) Options exercised

During the financial year, there were no shares of the Company or any corporation in the Group issued by virtue of the exercise of an option to take up unissued shares.

## (c) Unissued shares under option

At the end of the financial year, there were no unissued shares of the Company or any corporation in the Group under option.

#### 5 AUDIT AND RISK COMMITTEE

Members of the Audit and Risk Committee comprise four directors, namely Dr Tan Kim Song (Chairman of the Audit and Risk Committee), Yang Wen-Wei, Emeritus Professor Pang Eng Fong, and Lee Khin Tien.

The Audit and Risk Committee ("ARC") held four meetings during the financial year ended 31 December 2020 and performed the following functions:

- (a) Review with external/internal auditors the audit plans, their evaluation of the system of internal accounting controls, and their audit report including the scope and results of the external audit, the independence and objectivity of the external auditors;
- (b) Review the consolidated financial statements and statement of financial position and statement of profit or loss of the Company including reviewing the significant financial reporting issues and judgments so as to ensure the integrity of the financial statements of the Group and Company and any announcements relating to the Group and Company's financial performance, before submission to the Board of Directors for approval;
- (c) Review the Group's financial and operating results and accounting policies;
- (d) Review the internal control procedures, its scope and the results and to ensure co-ordination between the external/internal auditors and the Management; and review the assistance given by Management to the external auditors, and discuss problems and concerns, if any, arising from the interim and final audits;
- (e) Review and report to the Board of Directors at least annually the adequacy and effectiveness of the Company's risk management and system of internal controls;
- (f) Review the effectiveness of the Company's internal audit function;
- (g) Review and discuss with the external auditors any suspected fraud or irregularity, or suspected infringement of any relevant laws, rules or regulations, which has or is likely to have a material impact on the Group's operating results and/or financial position, and the Management's response;
- (h) Make recommendation to the Board of Directors on the proposals to the shareholders on the appointment, re-appointment or removal of the external auditors;
- (i) Review interested person transactions (if any) falling within the scope of Chapter 9 of the Listing Manual;
- (i) Review potential conflicts of interest, if any;
- (k) Undertake such other review and projects as may be requested by the Board of Directors, and report to the Board of Directors its findings from time to time on matters arising and which requires the attention of the ARC; and

# Directors' Statement (Cont'd)

#### 5 AUDIT AND RISK COMMITTEE (cont'd)

(l) Undertake such other functions and duties as may be required by statute or the SGX-ST Listing Manual, or by such amendments as may be made from time to time.

The ARC has full access to and co-operation of management and has been given the resources required for it to discharge its function properly. It also has full discretion to invite any director and executive officer to attend its meetings. The external and internal auditors have unrestricted access to the ARC.

The Company's internal audit function has been outsourced to Philip Liew & Co. Both the external auditors and the internal auditors report directly to the ARC their findings and recommendations.

The ARC, having reviewed the scope and value of non-audit services provided to the Company and Group by the external auditors, are satisfied that the nature and extent of such services will not prejudice the independence and objectivity of the external auditors.

The ARC has recommended to the directors the nomination of Deloitte & Touche LLP for re-appointment as external auditors of the Group at the forthcoming annual general meeting of the Company.

#### 6 AUDITORS

The auditors, Deloitte & Touche LLP, have expressed their willingness to accept re-appointment.

ON BEHALF OF THE DIRECTORS	
Emeritus Professor Pang Eng Fong

# Independent Auditor's

## Report to the Members of Hotel Royal Limited

#### Report on the Audit of the Financial Statements

#### **Opinion**

We have audited the financial statements of Hotel Royal Limited (the "Company") and its subsidiaries (the "Group"), which comprise the consolidated statement of financial position of the Group and the statement of financial position of the Company as at 31 December 2020, and the consolidated statement of profit or loss, consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows of the Group and the statement of changes in equity of the Company for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information, as set out on pages 85 to 147.

In our opinion, the consolidated financial statements of the Group and the statement of financial position and statement of changes in equity of the Company are properly drawn up in accordance with the provisions of the Companies Act, Chapter 50 (the "Act") and Singapore Financial Reporting Standards (International) ("SFRS(I)s") so as to give a true and fair view of the consolidated financial position of the Group and the financial position of the Company as at 31 December 2020 and of the consolidated financial performance, consolidated changes in equity and consolidated cash flows of the Group and of the changes in equity of the Company for the year ended on that date.

#### **Basis for Opinion**

We conducted our audit in accordance with Singapore Standards on Auditing ("SSAs"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Group in accordance with the Accounting and Corporate Regulatory Authority Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities ("ACRA Code") together with the ethical requirements that are relevant to our audit of the financial statements in Singapore, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## **Key Audit Matters**

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current year. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

### Valuation of properties - Freehold land

The Group has freehold land on which hotels are sited and these are stated at their fair values based on independent external valuations. The Group's freehold land amounting to \$479.15 million, account for approximately 61% of total assets at 31 December 2020.

The valuation for freehold land involves significant judgement and estimates in determining the appropriate valuation methodology to be used, and in estimating the underlying assumptions to be applied.

Certain freehold land are valued using the direct comparison approach and the key inputs are values per square meter referenced to comparable properties, with adjustments made for differences such as location, size, tenure and accessibility.

Other freehold land are valued using the residual approach, where the residual value of the land is estimated after deducting depreciated replacement cost of the hotel from the value of the whole property - land and hotel. The income capitalisation approach is used by the valuer to estimate the value of each whole property. The value of the whole property is sensitive to key inputs such as occupancy rates and revenue per room (which affects the projected earnings before interest, tax, depreciation and amortisation); and the capitalisation rate.

A change to any of the key inputs may have a significant impact on the valuation of each of the properties.

# Independent Auditor's

## Report to the Members of Hotel Royal Limited (cont'd)

#### Our audit performed and responses thereon

We obtained an understanding of management's process in selecting the external valuers with the appropriate knowledge and experience and how the valuation reports are used in determining the fair values for accounting purpose. We evaluated the qualifications, competence and independence of the external valuers.

We considered the appropriateness of the valuation methodologies used by the valuers and evaluated the basis and assumptions used for the above key inputs, and sought explanations from the valuers and management. We had considered whether these key inputs are consistent and in line with the individual hotel's performance or industry norms.

We also considered the adequacy of the disclosures in Note 14 to the financial statements, in describing the inherent degree of subjectivity and key assumptions used in the estimates.

## Impairment of assets - Property, plant and equipment and investment properties

The Group's property, plant and equipment (excluding freehold land) ("PPE") and investment properties ("IPs") account for approximately 17% and 14% of total assets respectively as at 31 December 2020. These assets (excluding freehold land in PPE) are stated at cost less accumulated depreciation and impairment loss.

Included in PPE are leasehold land, hotel building and building improvements ("leasehold land and hotel buildings"), which account for approximately 20% of the Group's total PPE.

In assessing the recoverable amount of the leasehold land and hotel buildings, and IPs, management has relied on the valuations performed by independent external valuers to estimate the net realisable values, and this involves significant judgement and estimates in determining the appropriate valuation methodology to be used, and in estimating the underlying assumptions to be applied.

Underlying the valuations for leasehold land and hotel buildings and an IP, are key inputs such as occupancy rates and revenue per room (which affects the projected earnings before interest, tax, depreciation and amortisation); and the capitalisation rate, which are sensitive to changes.

Other IPs are valued using the direct comparison approach and the key inputs are values per square meter referenced to comparable properties, with adjustments made for differences such as location, size, tenure and accessibility.

#### Our audit performed and responses thereon

We evaluated the qualifications, competence and independence of the external valuers.

We considered the appropriateness of the valuation methodologies used and evaluated the basis and assumptions used for the above key inputs, and sought explanations from the valuers and management. We discussed with management and evaluated the basis and key inputs used in their assessment in determining the recoverable amount of the assets, and had considered whether these key inputs are consistent and in line with the individual hotel's performance or industry norms. We also considered the adequacy of the related disclosures in the financial statements.

The Group's disclosure of the above significant estimates is disclosed in Note 3 to the financial statements, and further information related to the leasehold land and hotel buildings and IPs are provided in Notes 14 and 15 respectively.

#### Information Other than the Financial Statements and Auditor's Report Thereon

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

#### Responsibilities of Management and Directors for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the provisions of the Act and SFRS(I)s, and for devising and maintaining a system of internal accounting controls sufficient to provide a reasonable assurance that assets are safeguarded against loss from unauthorised use or disposition; and transactions are properly authorised and that they are recorded as necessary to permit the preparation of true and fair financial statements and to maintain accountability of assets.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The directors' responsibilities include overseeing the Group's financial reporting process.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- (a) Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- (b) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- (c) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- (d) Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- (e) Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- (f) Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

# Independent Auditor's

Report to the Members of Hotel Royal Limited (cont'd)

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial statements of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### **Report on Other Legal and Regulatory Requirements**

In our opinion, the accounting and other records required by the Act to be kept by the Company and by those subsidiary corporations incorporated in Singapore of which we are the auditors have been properly kept in accordance with the provisions of the Act.

The engagement partner on the audit resulting in this independent auditor's report is Hoe Chi-Hsien.

## Notes to Financial Statements

31 December 2020

#### 1 GENERAL

The Company (Registration No. 196800298G) is incorporated in Singapore with its registered office and its principal place of business at 36 Newton Road, Singapore 307964. The financial statements are expressed in Singapore dollars, which is the functional currency of the Company.

The principal activity of the Company is that of a hotelier and investment holding. The principal activities of the subsidiaries are disclosed in Note 11.

On 2 December 1968, the Company was listed on the Main Board of Singapore Exchange Securities Trading Limited ("SGX-ST").

#### COVID-19 pandemic and the aftermath

The COVID-19 pandemic and the aftermath of the pandemic globally forced to suspend or limit business operations during the reporting year and the aftermath is expected for the unforeseeable period ahead. The measures taken by the governments to contain the spread of COVID-19, including travel restrictions and social distancing, had impacted the business of the Group. The economic uncertainties have also created uncertainties relating to the valuation or recoverability of certain assets (including valuation of freehold land and impairment allowances for property, plant and equipment and investment properties) (Notes 14 and 15).

The consolidated financial statements of the Group and the statement of financial position and statement of changes in equity of the Company for the year ended 31 December 2020 were authorised for issue by the board of directors on 29 March 2021.

#### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

**BASIS OF ACCOUNTING** - The financial statements have been prepared in accordance with the historical cost basis, except as disclosed in the accounting policies below, and are drawn up in accordance with the provisions of the Singapore Companies Act and Singapore Financial Reporting Standards (International) ("SFRS(I)s").

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability which market participants would take into account when pricing the asset or liability at the measurement date.

Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for leasing transactions that are within the scope of SFRS(I) 16 Leases, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in SFRS(I) 1-2 Inventories or value in use in SFRS(I) 1-36 Impairment of Assets.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety. These levels are described below:

- Level 1 inputs are unadjusted quoted prices in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

31 December 2020

#### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

**ADOPTION OF NEW AND REVISED STANDARDS** - On 1 January 2020, the Group and the Company adopted all the new and revised SFRS(I) pronouncements that are relevant to its operations. The adoption of these new/revised SFRS(I) pronouncements does not result in changes to the Group's and the Company's accounting policies and has no material effect on the amounts reported for the current or prior years.

**STANDARDS ISSUED BUT NOT YET EFFECTIVE** - At the date of authorisation of these financial statements, the following SFRS(I)s pronouncements were issued but not effective and are expected to have an impact to the Group and the Company in the periods of their initial adoption.

Effective for annual periods beginning on or after 1 January 2020

- Amendments to SFRS(I) 1-1 Presentation of Financial Statements and SFRS(I) 1-8 Accounting Policies, Changes in Accounting Estimates and Errors: Definition of Material
- Amendments to SFRS(I) 3 Business Combinations: Definition of a Business
- Amendments to References to the Conceptual Framework in SFRS(I) Standards

Effective for annual periods beginning on or after 1 January 2021

Amendments to SFRS(I) 9, SFRS(I) 1-39, SFRS(I) 7, SFRS(I) 4, SFRS(I) 16: Interest Rate Benchmark Reform – Phase 2

Effective for annual periods beginning on or after 1 January 2022

- Amendments to SFRS(I) 1-16: Property, Plant and Equipment Proceeds before Intended Use
- Amendments to SFRS(I) 1-37: Onerous Contracts Cost of Fulfilling a Contract
- Annual Improvements to SFRS(I)s 2018-2020

Effective for annual periods beginning on or after 1 January 2023

- Amendments to SFRS(I) 1-1: Classification of Liabilities as Current or Non-current
- Amendments to SFRS(I) 17

### Effective date is deferred indefinitely

 Amendments to SFRS(I) 10 Consolidated Financial Statements and SFRS(I) 1-28 Investments in Associates and Joint Ventures: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture

The management anticipates that the adoption of the above SFRS(I) and amendments to SFRS(I) in future periods will not have a material impact on the financial statements of the Group and of the Company in the period of their initial adoption.

The Group has floating rate debt linked to SGD Swap Offered Rate and will be able to apply the practical expedient available under the Interest Rate Benchmark Reform – Phase 2 amendments to allow for modifications required by the reform as a direct consequence and made on an economically equivalent basis to be accounted for by updating the effective interest rate prospectively.

**BASIS OF CONSOLIDATION** - The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company and its subsidiaries. Control is achieved where the Company:

- Has power over the investee;
- Is exposed, or has rights, to variable returns from its involvement with the investee; and
- Has the ability to use its power to affect its returns.

The Company reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

#### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

#### BASIS OF CONSOLIDATION (cont'd)

When the Company has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Company considers all relevant facts and circumstances in assessing whether or not the company's voting rights in an investee are sufficient to give it power, including:

- The size of the company's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- Potential voting rights held by the company, other vote holders or other parties;
- Rights arising from other contractual arrangements; and
- Any additional facts and circumstances that indicate that the company has, or does not have, the current ability
  to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous
  shareholders' meetings.

Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. Income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Company gains control until the date when the Company ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to any non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and any non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies.

### Changes in the Group's ownership interests in existing subsidiaries

Changes in the Group's ownership interests in subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the company.

When the Group loses control of a subsidiary, a gain or loss is recognised in profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any non-controlling interests. All amounts previously recognised in other comprehensive income in relation to that subsidiary are accounted for as if the Group had directly disposed of the related assets or liabilities of the subsidiary (i.e. reclassified to profit or loss or transferred to another category of equity as specified/permitted by applicable SFRS(I)s). The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under SFRS(I) 9 Financial Instruments.

In the Company's separate financial statements, investments in subsidiaries are carried at cost less any impairment in net recoverable value that has been recognised in profit or loss.

**BUSINESS COMBINATIONS** - Acquisitions of subsidiaries and businesses are accounted for using the acquisition method. The consideration for each acquisition is measured at the aggregate of the acquisition date fair values of assets given, liabilities incurred by the Group to the former owners of the acquiree, and equity instruments issued by the Group in exchange for control of the acquiree. Acquisition-related costs are recognised in profit or loss as incurred.

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed. If, after reassessment, the net of the acquisition-date amounts of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a bargain purchase gain.

31 December 2020

#### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

#### **BUSINESS COMBINATIONS (cont'd)**

Where applicable, the consideration for the acquisition includes any asset or liability resulting from a contingent consideration arrangement, measured at its acquisition-date fair value. Subsequent changes in such fair values are adjusted against the cost of acquisition where they qualify as measurement period adjustments (see below). The subsequent accounting for changes in the fair value of the contingent consideration that do not qualify as measurement period adjustments depends on how the contingent consideration is classified. Contingent consideration that is classified as equity is not remeasured at subsequent reporting dates and its subsequent settlement is accounted for within equity. Contingent consideration that is classified as an asset or a liability is remeasured at subsequent reporting dates at fair value, with changes in fair value recognised in profit or loss.

Where a business combination is achieved in stages, the Group's previously held interests in the acquired entity are remeasured to fair value at the acquisition date (i.e. the date the Group attains control) and the resulting gain or loss, if any, is recognised in profit or loss. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income are reclassified to profit or loss, where such treatment would be appropriate if that interest were disposed of.

The acquiree's identifiable assets, liabilities and contingent liabilities that meet the conditions for recognition under the SFRS(I) are recognised at their fair value at the acquisition date, except that:

- deferred tax assets or liabilities and liabilities or assets related to employee benefit arrangements are recognised
  and measured in accordance with SFRS(I) 1-12 Income Taxes and SFRS(I) 1-19 Employee Benefits respectively;
- liabilities or equity instruments related to share-based payment transactions of the acquiree or the replacement of an acquiree's share-based payment awards transactions with share-based payment awards transactions of the acquirer in accordance with the method in SFRS(I) 2 Share-based Payment at the acquisition date; and
- assets (or disposal groups) that are classified as held for sale in accordance with SFRS(I) 5 Non-current Assets Held for Sale and Discontinued Operations are measured in accordance with that Standard.

Non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the entity's net assets in the event of liquidation may be initially measured either at fair value or at the non-controlling interests' proportionate share of the recognised amounts of the acquiree's identifiable net assets. The choice of measurement basis is made on a transaction-by-transaction basis. Other types of non-controlling interests are measured at fair value or, when applicable, on the basis specified in another SFRS(I).

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted during the measurement period (see below), or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed as of the acquisition date that, if known, would have affected the amounts recognised as of that date.

The measurement period is the period from the date of acquisition to the date the Group obtains complete information about facts and circumstances that existed as of the acquisition date - and is subject to a maximum of one year from acquisition date.

**FINANCIAL INSTRUMENTS** - Financial assets and financial liabilities are recognised in the Group's statement of financial position when the Group becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

#### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

#### Financial assets

All financial assets are recognised and de-recognised on a trade date basis where the purchase or sale of financial assets is under a contract whose terms require delivery of assets within the time frame established by the market concerned.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

#### Classification of financial assets

Debt instruments that meet the following conditions are subsequently measured at amortised cost:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Debt instruments that meet the following conditions are subsequently measured at fair value through other comprehensive income (FVTOCI):

- the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling the financial assets; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

By default, all other financial assets are subsequently measured at fair value through profit or loss (FVTPL).

Despite the aforegoing, the Group may make the following irrevocable election/designation at initial recognition of a financial asset:

- the Group may irrevocably elect to present subsequent changes in fair value of an equity investment in other comprehensive income if certain criteria are met; and
- the Group may irrevocably designate a debt investment that meets the amortised cost or FVTOCI criteria as measured at FVTPL if doing so eliminates or significantly reduces an accounting mismatch.

Amortised cost and effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period.

For financial instruments other than purchased or originated credit-impaired financial assets, the effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) excluding expected credit losses, through the expected life of the debt instrument, or, where appropriate, a shorter period, to the gross carrying amount of the debt instrument on initial recognition. For purchased or originated credit-impaired financial assets, a credit-adjusted effective interest rate is calculated by discounting the estimated future cash flows, including expected credit losses, to the amortised cost of the debt instrument on initial recognition.

31 December 2020

#### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

Amortised cost and effective interest method (cont'd)

The amortised cost of a financial asset is the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount, adjusted for any loss allowance. On the other hand, the gross carrying amount of a financial asset is the amortised cost of a financial asset before adjusting for any loss allowance.

Interest income is recognised using the effective interest method for debt instruments measured subsequently at amortised cost and at FVTOCI. For financial instruments other than purchased or originated credit-impaired financial assets, interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset, except for financial assets that have subsequently become credit-impaired. For financial assets that have subsequently become credit-impaired by applying the effective interest rate to the amortised cost of the financial asset. If, in subsequent reporting periods, the credit risk on the credit-impaired financial instrument improves so that the financial asset is no longer credit-impaired, interest income is recognised by applying the effective interest rate to the gross carrying amount of the financial asset.

For purchased or originated credit-impaired financial assets, the Group recognises interest income by applying the credit-adjusted effective interest rate to the amortised cost of the financial asset from initial recognition. The calculation does not revert to the gross basis even if the credit risk of the financial asset subsequently improves so that the financial asset is no longer credit-impaired.

Interest income is recognised in profit or loss and is included in the "revenue" line item.

#### Equity instruments designated as at FVTOCI

On initial recognition, the Group may make an irrevocable election (on an instrument-by-instrument basis) to designate investments in equity instruments as at FVTOCI. Designation at FVTOCI is not permitted if the equity investment is held for trading or if it is contingent consideration recognised by an acquirer in a business combination to which SFRS(I) 3 Business Combinations applies.

A financial asset is held for trading if:

- it has been acquired principally for the purpose of selling it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the Group manages together and has evidence of a recent actual pattern of short-term profit-taking; or
- it is a derivative (except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument).

Investments in equity instruments at FVTOCI are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the fair value reserve. The cumulative gain or loss will not be reclassified to profit or loss on disposal of the equity investments, instead, they will be transferred to retained earnings.

The Group has designated all investments in equity instruments that are not held for trading as at FVTOCI on initial application of SFRS(I) 9 (see Note 8).

Dividends on these investments in equity instruments are recognised in profit or loss when the Group's right to receive the dividends is established, unless the dividends clearly represent a recovery of part of the cost of the investment. Dividends are included in the "revenue" line item in profit or loss.

#### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

#### Financial assets at FVTPL

Financial assets that do not meet the criteria for being measured at amortised cost or FVTOCI are measured at FVTPL. Specifically:

- Investments in equity instruments are classified as at FVTPL, unless the Group designates an equity investment that is neither held for trading nor a contingent consideration arising from a business combination as at FVTOCI on initial recognition.
- Debt instruments that do not meet the amortised cost criteria or the FVTOCI criteria are classified as at FVTPL. In
  addition, debt instruments that meet either the amortised cost criteria or the FVTOCI criteria may be designated
  as at FVTPL upon initial recognition if such designation eliminates or significantly reduces a measurement or
  recognition inconsistency that would arise from measuring assets or liabilities or recognising the gains and
  losses on them on different bases. The Group has not designated any debt instruments as at FVTPL.

Financial assets at FVTPL are measured at fair value as at each reporting date, with any fair value gains or losses recognised in profit or loss to the extent they are not part of a designated hedging relationship. The net gain or loss recognised in profit or loss is included in the "other income" or "other expenses" line item and any dividend or interest earned on the financial asset is included in the "revenue" line item. Fair value is determined in the manner described in Note 4(d)(vi).

#### Foreign exchange gains and losses

The carrying amount of financial assets that are denominated in a foreign currency is determined in that foreign currency and translated at the spot rate as at each reporting date. Specifically:

- for financial assets measured at amortised cost that are not part of a designated hedging relationship, exchange differences are recognised in profit or loss in the "other income" or "other expenses" line item;
- for financial assets measured at FVTPL that are not part of a designated hedging relationship, exchange differences are recognised in profit or loss in the "other income" or "other expenses" line item; and
- for equity instruments measured at FVTOCI, exchange differences are recognised in other comprehensive income in the fair value reserve.

### Impairment of financial assets

The Group recognises a loss allowance for expected credit losses ("ECL") on investments in debt instruments that are measured at amortised cost or at FVTOCI, as well as on loan commitments and financial guarantee contracts. No impairment loss is recognised for investments in equity instruments. The amount of expected credit losses is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument.

The Group always recognises lifetime ECL for trade receivables. The expected credit losses on these financial assets are estimated using a provision matrix based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate.

For all other financial instruments, the Group recognises lifetime ECL when there has been a significant increase in credit risk since initial recognition. If, on the other hand, the credit risk on the financial instrument has not increased significantly since initial recognition, the Group measures the loss allowance for that financial instrument at an amount equal to 12-month ECL. The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition instead of on evidence of a financial asset being credit-impaired at the reporting date or an actual default occurring.

Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument. In contrast, 12-month ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

31 December 2020

#### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

Significant increase in credit risk

In assessing whether the credit risk on a financial instrument has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort. Forward-looking information considered includes the future prospects of the industries in which the Group's debtors operate, obtained from economic expert reports, financial analysts, governmental bodies, relevant think-tanks and other similar organisations, as well as consideration of various external sources of actual and forecast economic information that relate to the Group's core operations.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly since initial recognition:

- significant deterioration in external market indicators of credit risk for a particular financial instrument, e.g. a significant increase in the credit spread, the credit default swap prices for the debtor, or the length of time or the extent to which the fair value of a financial asset has been less than its amortised cost;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor; and
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk on a financial asset has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

Despite the aforegoing, the Group assumes that the credit risk on a financial instrument has not increased significantly since initial recognition if the financial instrument is determined to have low credit risk at the reporting date. A financial instrument is determined to have low credit risk if i) the financial instrument has a low risk of default, ii) the borrower has a strong capacity to meet its contractual cash flow obligations in the near term and iii) adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations. The Group considers a financial asset to have low credit risk when it has an internal or external credit rating of "investment grade" as per globally understood definition.

For loan commitments and financial guarantee contracts, the date that the Group becomes a party to the irrevocable commitment is considered to be the date of initial recognition for the purposes of assessing the financial instrument for impairment. In assessing whether there has been a significant increase in the credit risk since initial recognition of a loan commitment, the Group considers changes in the risk of a default occurring on the loan to which a loan commitment relates; for financial guarantee contracts, the Group considers the changes in the risk that the specified debtor will default on the contract.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

## Definition of default

The Group considers the following as constituting an event of default for internal credit risk management purposes as historical experience indicates that receivables that meet either of the following criteria are generally not recoverable.

- when there is a breach of financial covenants by the counterparty; or
- information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

#### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

Definition of default (cont'd)

Irrespective of the above analysis, the Group considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

Credit-impaired financial assets

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- a) significant financial difficulty of the issuer or the borrower; or
- b) a breach of contract, such as a default or past due event; or
- c) the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider; or
- d) it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or
- e) the disappearance of an active market for that financial asset because of financial difficulties.

Write-off policy

The Group writes off a financial asset when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery, e.g. when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognised in profit or loss.

Measurement and recognition of expected credit losses

The measurement of expected credit losses is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information as described above. As for the exposure at default, for financial assets, this is represented by the assets' gross carrying amount at the reporting date; for loan commitments and financial guarantee contracts, the exposure includes the amount drawn down as at the reporting date, together with any additional amounts expected to be drawn down in the future by default date determined based on historical trend, the Group's understanding of the specific future financing needs of the debtors, and other relevant forward-looking information.

For financial assets, the expected credit loss is estimated as the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive, discounted at the original effective interest rate.

Where lifetime ECL is measured on a collective basis to cater for cases where evidence of significant increases in credit risk at the individual instrument level may not yet be available, the financial instruments are grouped on the following basis:

- Nature of financial instruments (i.e. the Group's trade and other receivables and amounts due from customers are each assessed as a separate group. Loans to related parties are assessed for expected credit losses on an individual basis);
- Past-due status;
- Nature, size and industry of debtors; and
- External credit ratings where available.

31 December 2020

#### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

Measurement and recognition of expected credit losses (cont'd)

The grouping is regularly reviewed by management to ensure the constituents of each group continue to share similar credit risk characteristics.

If the Group has measured the loss allowance for a financial instrument at an amount equal to lifetime ECL in the previous reporting period, but determines at the current reporting date that the conditions for lifetime ECL are no longer met, the Group measures the loss allowance at an amount equal to 12-month ECL at the current reporting date

The Group recognises an impairment gain or loss in profit or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account, except for investments in debt instruments that are measured at FVTOCI, for which the loss allowance is recognised in other comprehensive income and accumulated in the investment revaluation reserve, and does not reduce the carrying amount of the financial asset in the statement of financial position.

#### Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss. In addition, on derecognition of an investment in a debt instrument classified as at FVTOCI, the cumulative gain or loss previously accumulated in the fair value reserve is reclassified to profit or loss. In contrast, on derecognition of an investment in equity instrument which the Group has elected on initial recognition to measure at FVTOCI, the cumulative gain or loss previously accumulated in the fair value reserve is not reclassified to profit or loss, but is transferred to retained earnings.

#### Financial liabilities and equity instruments

#### Classification as debt or equity

Debt and equity instruments issued by a Group entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

#### **Equity instruments**

An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. Equity instruments are recorded at the proceeds received, net of direct issue costs.

Repurchase of the company's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the company's own equity instruments.

### Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at FVTPL.

However, financial liabilities that arise when a transfer of a financial asset does not qualify for derecognition or when the continuing involvement approach applies, financial guarantee contracts issued by the Group, and commitments issued by the Group to provide a loan at below-market interest rate are measured in accordance with the specific accounting policies set out below.

#### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

#### Financial liabilities at FVTPL

Financial liabilities are classified as at FVTPL when the financial liability is 1) contingent consideration of an acquirer in a business combination to which SFRS(I) 3 applies, 2) held for trading, or 3) it is designated as at FVTPL.

A financial liability is classified as held for trading if:

- it has been acquired principally for the purpose of repurchasing it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the Group manages together
  and has a recent actual pattern of short-term profit-taking; or
- it is a derivative, except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument.

A financial liability other than a financial liability held for trading or contingent consideration of an acquirer in a business combination may be designated as at FVTPL upon initial recognition if:

- such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise; or
- the financial liability forms part of a Group of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the Group's documented risk management or investment strategy, and information about the grouping is provided internally on that basis; or
- it forms part of a contract containing one or more embedded derivatives, and IFRS 9 permits the entire combined contract to be designated as at FVTPL.

Financial liabilities at FVTPL are stated at fair value with any gains or losses arising on changes in fair value recognised in profit or loss to the extent that they are not part of a designated hedging relationship. The net gain or loss recognised in profit or loss incorporates any interest paid on the financial liabilities and is included in the "other income" or "other expenses" line item.

However, for financial liabilities that are designated as at FVTPL, the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability is recognised in other comprehensive income, unless the recognition of the effects of changes in the liability's credit risk in other comprehensive income would create or enlarge an accounting mismatch in profit or loss. The remaining amount of change in the fair value of liability is recognised in profit or loss. Changes in fair value attributable to a financial liability's credit risk that are recognised in other comprehensive income are not subsequently reclassified to profit or loss; instead, they are transferred to retained earnings upon derecognition of the financial liability.

Gains or losses on financial guarantee contracts and loan commitments issued by the Group that are designated by the Group as at fair value through profit or loss are recognised in profit or loss. Fair value is determined in the manner described in Note 4(d)(vi).

#### Financial liabilities subsequently measured at amortised cost

Financial liabilities that are not 1) contingent consideration of an acquirer in a business combination, 2) held-for-trading, or 3) designated as at FVTPL, are subsequently measured at amortised cost using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortised cost of a financial liability.

31 December 2020

#### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

#### Financial guarantee contracts

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due in accordance with the terms of a debt instrument.

Financial guarantee contracts issued by a Group entity are initially measured at their fair values and, if not designated as at FVTPL and do not arise from a transfer of a financial asset, are subsequently measured at the higher of:

- the amount of the loss allowance determined in accordance with SFRS(I) 9; and
- the amount initially recognised less, where appropriate, cumulative amount of income recognised in accordance with the revenue recognition policies.

#### Foreign exchange gains and losses

For financial liabilities that are denominated in a foreign currency and are measured at amortised cost as at each reporting date, the foreign exchange gains and losses are determined based on the amortised cost of the instruments. These foreign exchange gains and losses are recognised in the "other income" or "other expenses" line item in profit or loss.

The fair value of financial liabilities denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of the reporting period. For financial liabilities that are measured as at FVTPL, the foreign exchange component forms part of the fair value gains or losses and is recognised in profit or loss for financial liabilities that are not part of a designated hedging relationship.

## Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or they expire. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

#### Derivative financial instruments

The Group enters into interest rate swaps to manage its exposure to interest rate and foreign exchange rate risk. Further details of derivative financial instruments are disclosed in Note 18 to the financial statements.

Derivatives are initially recognised at fair value at the date a derivative contract is entered into and are subsequently remeasured to their fair value at the end of each reporting period. The resulting gain or loss is recognised in profit or loss immediately.

#### Offsetting arrangements

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when the Company and the Group has a legally enforceable right to set off the recognised amounts; and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously. A right to set-off must be available today rather than being contingent on a future event and must be exercisable by any of the counterparties, both in the normal course of business and in the event of default, insolvency or bankruptcy.

**INVENTORIES** - Inventories comprising mainly consumables are stated at the lower of cost (weighted average method) and net realisable value. Cost includes all costs of purchase and other costs incurred in bringing the inventories to their present location and condition. Net realisable value represents the estimated selling price less all estimated costs.

**PROPERTY, PLANT AND EQUIPMENT** - Property, plant and equipment are stated at cost less accumulated depreciation and any accumulated impairment losses except for freehold land on which certain hotels are sited, which are stated at revalued amounts.

Revaluations of freehold hotel land is performed with sufficient regularity such that the carrying amounts do not differ materially from those which would be determined using fair values at the end of the reporting period.

#### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

#### PROPERTY, PLANT AND EQUIPMENT (cont'd)

Any revaluation increase arising on the revaluation of freehold hotel land is recognised in other comprehensive income and accumulated in the asset revaluation reserve, except to the extent that it reverses a revaluation decrease for the same asset previously recognised in profit or loss, in which case the increase is credited to profit or loss to the extent of the decrease previously charged. A decrease in carrying amount arising on the revaluation of freehold hotel land is charged to profit or loss to the extent that it exceeds the balance, if any, held in the asset revaluation reserve relating to a previous revaluation increase of that asset.

Properties, plant and equipment in the course of construction for production, supply or administrative purposes, or for purposes not yet determined, are carried at cost, less any accumulated impairment loss. Cost includes professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Group's accounting policy. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

On subsequent sale or retirement of a revalued freehold hotel land, the attributable revaluation surplus remaining in the asset revaluation reserve is transferred directly to retained earnings.

Depreciation is charged so as to write off the cost of assets, other than freehold land, over their estimated useful lives, using the straight-line method except for linen, china, glassware, silver and uniforms where the original expenditure has been written down to approximately one-half of the original cost and all subsequent purchases have been written off as replacements. The estimated useful lives are as follows:

#### Number of years

Leasehold land Over the remaining terms of the leases (92 to 96)

Hotel buildings45 to 92Building improvements - hotels10 to 25Plant and equipment3 to 10

Depreciation is not provided on freehold land, which is recorded at fair value.

The estimated useful lives, residual values and depreciation method are reviewed at each year end, with the effect of any changes in estimate accounted for on a prospective basis.

The gain or loss arising on disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss. On the subsequent sale or retirement of a revalued property, the attributable revaluation surplus remaining in the properties revaluation reserve is transferred directly to retained earnings. No transfer is made from the revaluation reserve to retained earnings except when an asset is derecognised.

Fully depreciated assets still in use are retained in the financial statements.

**INVESTMENT PROPERTIES** - Investment properties are held on a long-term basis for income and potential investment gains. Investment properties are stated at cost less accumulated depreciation and any accumulated impairment losses.

Depreciation is charged so as to write off the cost, other than freehold land, over their estimated useful lives of 50 to 80 years, using the straight-line method. Acquired leasehold buildings are depreciated over the shorter of remaining useful life or the terms of the relevant lease.

The estimated useful lives and depreciation method are reviewed at each year end, with the effect of any changes in estimate accounted for on a prospective basis.

The gain or loss arising on disposal or retirement of an item of investment property is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

**GOODWILL** - Goodwill arising in business combination is recognised as an asset at the date that control is acquired (the acquisition date). Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interest in the acquiree and the fair value of the acquirer's previously held equity interest (if any) in the entity over net amounts of the identifiable assets acquired and liabilities assumed, at the acquisition date.

31 December 2020

#### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

#### **GOODWILL** (cont'd)

If, after reassessment, the Group's interest in the fair value of the acquiree's identifiable net assets exceeds the sum of consideration transferred, the amount of any non-controlling interest in the acquiree and the fair value of the acquirer's previously held equity interest in the acquiree (if any), the excess is recognised immediately in profit or loss as bargain purchase gain.

Goodwill is not amortised but is reviewed for impairment at least annually. For the purpose of impairment testing, goodwill is allocated to each of the Group's cash-generating units expected to benefit from the synergies of the combination. Cash-generating units to which goodwill has been allocated are tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash-generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro-rata on the basis of the carrying amount of each asset in the unit. An impairment loss recognised for goodwill is not reversed in a subsequent period.

On disposal of a subsidiary or the relevant cash generating unit, the attributable amount of goodwill is included in the determination of the profit or loss on disposal.

**IMPAIRMENT OF NON FINANCIAL ASSETS EXCLUDING GOODWILL** - At the end of each reporting period, the Group reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease.

Where an impairment loss subsequently reverses, the carrying amount of the asset (cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

**PROVISIONS** - Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

#### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

**GOVERNMENT GRANTS** - Government grants are not recognised until there is reasonable assurance that the group will comply with the conditions attaching to them and the grants will be received. The benefit of a government loan at below-market rate of interest is treated as a government grant, measured as the difference between proceeds received and the fair value of the loan based on prevailing market interest rates. Government grants whose primary condition is that the group should purchase, construct or otherwise acquire non-current assets are recognised as deferred income in the statement of financial position and transferred to profit or loss on a systematic and rational basis over the useful lives of the related assets.

Other government grants are recognised as income over the periods necessary to match them with the costs for which they are intended to compensate, on a systematic basis. Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the group with no future related costs are recognised in profit or loss in the period in which they become receivable.

#### **LEASES**

## The Group as lessor

The Group enters into lease agreements as a lessor with respect to its investment property.

Leases for which the group is a lessor are classified as finance or operating leases. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on a straight-line basis over the lease term.

Amounts due from lessees under finance leases are recognised as receivables at the amount of the group's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the group's net investment outstanding in respect of the leases.

#### The Group as lessee

The Group assesses whether a contract is or contains a lease, at inception of the contract. The Group recognises a right-of-use asset and a corresponding lease liability with respect to all lease arrangements in which it is the lessee, except for short-term leases (defined as leases with a lease term of 12 months or less) and leases of low value assets. For these leases, the Group recognises the lease payments as an operating expense on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed.

The right-of-use assets comprise the initial measurement of the corresponding lease liability, lease payments made at or before the commencement day, less any lease incentives received and any initial direct costs. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Whenever the Group incurs an obligation for costs to dismantle and remove a leased asset, restore the site on which it is located or restore the underlying asset to the condition required by the terms and conditions of the lease, a provision is recognised and measured under SFRS(I) 1-37. To the extent that the costs relate to a right-of-use asset, the costs are included in the related right-of-use asset, unless those costs are incurred to produce inventories.

Right-of-use assets are depreciated over the shorter period of lease term and useful life of the underlying asset. If a lease transfers ownership of the underlying asset or the cost of the right-of-use asset reflects that the Group expects to exercise a purchase option, the related right-of-use asset is depreciated over the useful life of the underlying asset. The depreciation starts at the commencement date of the lease. The Group applies SFRS(I) 1-36 to determine whether a right-of-use asset is impaired and accounts for any identified impairment loss as described above.

31 December 2020

#### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

**REVENUE RECOGNITION** - The Group recognises revenue from the following major sources:

- Hotel; and
- Investment properties.

Revenue is measured based on the consideration specified in a contract with a customer and excludes amounts collected on behalf of third parties. The Group recognises revenue when it transfers control of a product or service to a customer.

Control of an asset refers to the ability to direct the use of, and obtain substantially all of the remaining benefits from, the asset. Control includes the ability to prevent other entities from directing the use of, and obtaining the benefits from, an asset.

#### Revenue from hotel operations

Revenue from operations of a hotel is recognised from the following major sources: hotel stays, carpark and spa services, and sales of food and beverages.

Revenue for hotel operations is recognised at a point in time when the services are rendered. This is also the point where the Group is entitled to payment.

Revenue from sales of food and beverages are recognised when control of the goods has transferred, being at the point in time when the food and beverages are consumed. This is also the point where the Group is entitled to payment.

Other hotel related revenue relating to spa services and car park revenue are recognised when the services are rendered to the customers. Payment is due immediately when the customer consumes the service.

### Rental income

Rental income recognition is described above in LEASES note.

#### Financial investment income

Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable.

Dividend income from investments is recognised when the right to receive payment is established.

Income from providing financial guarantee is recognised in profit or loss over the guarantee period on a straight line basis.

**BORROWING COSTS** - Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, namely assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of these assets until such time as the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

**EMPLOYEE LEAVE ENTITLEMENT** - Employee entitlements to annual leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave as a result of services rendered by employees up to the end of the reporting period.

**RETIREMENT BENEFIT COSTS** - Payments to defined contribution retirement benefit plans are charged as an expense in profit or loss as they fall due. Payments made to state-managed retirement benefit schemes, such as the Singapore Central Provident Fund and Malaysia Employee Provident Fund are dealt with as payments to defined contribution plans.

#### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

#### **RETIREMENT BENEFIT COSTS** (cont'd)

Defined benefit costs are categorised as follows:

- Service cost (including current service cost, as well as gains and losses on curtailments and settlements);
- Net interest expense or income; and
- Remeasurement.

The Group presents the first two components of defined benefit costs in profit or loss as employee benefits expense. Curtailment gains or losses are accounted for as past service costs.

Subsidiaries in Thailand and Malaysia operate unfunded, defined benefit Retirement Benefit Schemes ("the Schemes") for their eligible employees. The cost of providing benefits is determined using the Projected Unit Credit Method, with actuarial valuations carried out at the end of each reporting period. Remeasurement, comprising actuarial gains and losses and the return on plan assets (excluding interest), is reflected immediately with a charge or credit recognised in other comprehensive income in the period in which they occur. Remeasurement gains and losses are recognised in other comprehensive income and accumulated in employee benefit reserve. Past service cost is recognised in profit or loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset.

The retirement benefit obligation recognised in the statement of financial position represents the actual deficit or surplus in the Group's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plan.

A liability for a termination benefit is recognised at the earlier of when the entity can no longer withdraw the offer of the termination benefit and when the entity recognises any related restructuring costs.

**INCOME TAX** - Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit as reported in the profit and loss statement because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are not taxable or tax deductible. The Group's liability for current tax is calculated using tax rates and tax laws that have been enacted or substantively enacted in countries where the Company and subsidiaries operate by the end of the reporting period.

Deferred tax is recognised on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax base used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary difference associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset realised based on the tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

31 December 2020

#### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

#### **INCOME TAX** (cont'd)

Current and deferred tax are recognised as an expense or income in profit or loss, except when they relate to items credited or debited outside profit or loss (either in other comprehensive income or directly in equity), in which case the tax is also recognised outside profit or loss (either in other comprehensive income or directly in equity), or where they arise from the initial accounting for a business combination. In the case of a business combination, the tax effect is taken into account in calculating goodwill or determining the excess of the acquirer's interest in the net fair value of the acquiree's identifiable assets, liabilities and contingent liabilities over cost.

**FOREIGN CURRENCY TRANSACTIONS AND TRANSLATION** - The individual financial statements of each group entity are measured and presented in the currency of the primary economic environment in which the entity operates (its functional currency). The consolidated financial statements of the Group and the statement of financial position and statement of changes in equity of the Company are presented in Singapore dollars, which is the functional currency of the Company, and the presentation currency for the consolidated financial statements.

In preparing the financial statements of the individual entities, transactions in currencies other than the entity's functional currency are recorded at the rates of exchange prevailing on the date of the transaction. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing on the end of the reporting period. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on retranslation of monetary items are included in profit or loss for the period. Exchange differences arising on the retranslation of non-monetary items carried at fair value are included in profit or loss for the period except for differences arising on the retranslation of non-monetary items in respect of which gains and losses are recognised in other comprehensive income. For such non-monetary items, any exchange component of that gain or loss is also recognised in other comprehensive income.

For the purpose of presenting consolidated financial statements, the assets and liabilities of the Group's foreign operations (including comparatives) are expressed in Singapore dollars using exchange rates prevailing on the end of the reporting period. Income and expense items (including comparatives) are translated at the average exchange rates for the period, unless exchange rates fluctuated significantly during that period, in which case the exchange rates at the dates of the transactions are used. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in a separate component of equity under the header of foreign currency translation reserve.

On the disposal of a foreign operation (i.e. a disposal of the Group's entire interest in a foreign operation, or a disposal involving loss of control over a subsidiary that includes a foreign operation, loss of joint control over a jointly controlled entity that includes a foreign operation, or loss of significant influence over an associate that includes a foreign operation), all of the accumulated exchange differences in respect of that operation attributable to the Group are reclassified to profit or loss. Any exchange differences that have previously been attributed to non-controlling interests are derecognised, but they are not reclassified to profit or loss.

In the case of a partial disposal (i.e. no loss of control) of a subsidiary that includes a foreign operation, the proportionate share of accumulated exchange differences are re-attributed to non-controlling interests and are not recognised in profit or loss. For all other partial disposals (i.e. of associates or jointly controlled entities that do not result in the Group losing significant influence or joint control), the proportionate share of the accumulated exchange differences is reclassified to profit or loss.

On consolidation, exchange differences arising from the translation of the net investment in foreign entities (including monetary items that, in substance, form part of the net investment in foreign entities), and of borrowings and other currency instruments designated as hedges of such investments, are recognised in other comprehensive income and accumulated in the foreign currency translation reserve.

Goodwill and fair value adjustments arising on the acquisition of a foreign operation are treated as assets and liabilities of the foreign operation and translated at the closing rate.

**CASH AND CASH EQUIVALENTS IN THE STATEMENT OF CASH FLOW** - Cash and cash equivalents comprise cash on hand and demand deposits, bank overdrafts, and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value.

#### 3 CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in Note 2 above, management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

#### Critical judgements in applying accounting policies

Management is of the opinion that any instances of application of judgements are not expected to have a significant effect on the amounts recognised in the financial statements (apart from those involving estimates which are dealt with below).

#### Key sources of estimation uncertainty

The key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are discussed below.

Recoverable amount of investments in subsidiaries in the Company's statement of financial position

Management has evaluated whether there is any indication of impairment by considering both internal and external sources of information, performance of the subsidiaries and the market conditions in which the subsidiaries operate in. In assessing the impairment loss, the recoverable amounts for investments in subsidiaries were determined based on the estimated fair value less cost to sell of the underlying assets of the individual subsidiary.

During the financial year, management has determined that the recoverable amount of certain investments in subsidiaries is lower than its carrying amount and accordingly, an impairment of \$9,441,000 (2019: \$Nil) has been recognised. The carrying amounts of investments in subsidiaries, including additional funds provided to subsidiaries and deemed investments are disclosed in Note 11.

#### Freehold hotel land at revalued amounts (Note 14)

The valuation for freehold land involves significant judgement and estimates in determining the appropriate valuation methodology to be used, and in estimating the underlying assumptions to be applied.

Certain freehold land are valued using the direct comparison approach and the key inputs are values per square meter referenced to comparable properties but adjusted for differences such as location, size, tenure and accessibility.

Other freehold land are valued using the residual approach, where the residual value of the land is estimated after deducting depreciated replacement cost of the hotel from the value of the whole property - land and hotel. The income capitalisation approach is used by the valuer to estimate the value of each whole property. The value of the whole property is sensitive to key inputs such as occupancy rates and revenue per room (which affect the projected earnings before interest, tax, depreciation and amortisation); and the capitalisation rate. Management has exercised their judgement and is satisfied that the valuation methods and estimates are reflective of current market conditions.

A change to any of the key inputs may have a significant impact on the valuation of each of the properties. Additional information about inputs are described in Note 14.

Some of the external valuers highlighted that given the unprecedented set of circumstances on which to base a judgement and given the unknown future impact that COVID-19 might have on the real estate markets, the valuers recommended to keep the valuation of these properties under frequent review.

31 December 2020

#### 3 CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (cont'd)

Impairment of leasehold land, hotel building and building improvements ("leasehold land and hotel buildings") and investment properties

The Group assess annually whether leasehold land and hotel buildings and investment properties have any indication of impairment in accordance with its accounting policy. If such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Recoverable amount is the higher of the fair value less costs to sell and value-in-use. In assessing value-in-use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessment of the time value of money and the risks specific to the asset.

During the financial year, management has determined that the recoverable amount of certain leasehold land and hotel buildings and investment properties based on the valuations performed by independent external valuers. The value-in-use as stated in the valuation report is lower than its respective carrying amount for certain of these assets. Accordingly, an impairment of \$8,765,000 and \$3,500,000 has been recognised for leasehold land and hotel buildings, and investment properties respectively. The value-in-use computation involves estimations relating to projected future earnings, occupancy rates, revenue per room and a discount rate ranging from 8% to 9%. Any change in such projections and estimates can result in changes to the impairment loss in future periods. The carrying amounts of leasehold land and hotel buildings and investment properties at the end of the reporting period are disclosed in Notes 14 and 15 to the financial statements respectively.

#### 4 FINANCIAL INSTRUMENTS, FINANCIAL RISKS AND CAPITAL MANAGEMENT

#### (a) Categories of financial instruments

The following table sets out the financial instruments as at the end of the reporting period:

	The	Group	The Company		
	2020	2019	2020	2019	
	\$'000	\$'000	\$'000	\$'000	
Financial assets					
Financial assets at amortised cost	25,820	31,009	98,775	98,437	
Financial assets designated as at FVTPL	3,406	3,725	1,006	1,566	
Equity instruments designated as at FVTOCI _	26,288	24,710	17,018	16,538	
Financial liabilities					
Financial liabilities at amortised cost	136,036	126,064	74,020	67,961	
Derivative financial instruments	196	-	-	-	
Financial guarantee	-		2,156	2,697	

(b) Financial instruments subject to offsetting, enforceable master netting arrangements and similar agreements

The Group and the Company do not have financial instruments which are subject to enforceable master netting arrangements or similar netting agreements.

### (c) Financial risk management policies and objectives

The Group's overall financial risk management programme seeks to minimise potential adverse effects of financial performance of the Group arising from exposure to financial risks such as changes in foreign currency exchange rates, interest rates and equity prices. There has been no change to the Group's exposure to financial risks or the manner in which it manages and measures the risks.

The investments in bonds, fixed income funds and equity shares as disclosed in Notes 7 and 8 are subject to a variety of financial risks, including credit risk of counterparties, liquidity risk, interest rate risk, foreign currency risk, and other market risks related to prices of equity. The Group engages professional investment managers from banks to manage the risks and returns from certain financial investments classified as held for trading. All investment accounts opened with professional investment managers from banks are approved by the board of directors. Investment managers from the banks are given discretionary powers to make investment decisions on behalf of management based on specified guidelines for managed funds.

#### 4 FINANCIAL INSTRUMENTS, FINANCIAL RISKS AND CAPITAL MANAGEMENT (cont'd)

#### (d) Exposure to financial risks

#### (i) <u>Credit risk management</u>

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Group. As at 31 December 2020, the Group's maximum exposure to credit risk without taking into account any collateral held or other credit enhancements, which will cause a financial loss to the Group due to failure to discharge an obligation by the counterparties and financial guarantees provided by the Group arises from the carrying amount of the respective recognised financial assets as stated in the consolidated statement of financial position.

In order to minimise credit risk, the Group has tasked its credit management committee to develop and maintain the group's credit risk gradings to categorise exposures according to their degree of risk of default. The credit rating information is supplied by independent rating agencies where available and, if not available, the credit management committee uses other publicly available financial information and the Group's own trading records to rate its major customers and other debtors. The Group's exposure and the credit ratings of its counterparties are continuously monitored and the aggregate value of transactions concluded is spread amongst approved counterparties.

The Group's current credit risk grading framework comprises the following categories:

Category	Description	Basis for recognising expected credit losses (ECL)
Performing	The counterparty has a low risk of default and does not have any past-due amounts.	12-month ECL
Doubtful	Amount is >30 days past due or there has been a significant increase in credit risk since initial recognition.	Lifetime ECL - not credit- impaired
In default	Amount is >90 days past due or there is evidence indicating the asset is credit-impaired.	Lifetime ECL - credit-impaired
Write-off	There is evidence indicating that the debtor is in severe financial difficulty and the Group has no realistic prospect of recovery.	Amount is written off

31 December 2020

### 4 FINANCIAL INSTRUMENTS, FINANCIAL RISKS AND CAPITAL MANAGEMENT (cont'd)

- (d) Exposure to financial risks (cont'd)
  - (i) <u>Credit risk management</u> (cont'd)

The tables below detail the credit quality of the Group's financial assets, as well as maximum exposure to credit risk by credit risk rating grades:

	<u>Note</u>	Internal credit rating	12-month or lifetime ECL	Gross carrying amount \$'000	Loss allowance \$'000	Net carrying amount \$'000
<b>Group</b> 2020				<b>\$ 000</b>	\$ 000	\$ 000
Trade receivables	9	(i)	Lifetime ECL (simplified approach)	2,551	(510)	2,041
Other receivables and refundable deposits	10	Performing	12-month ECL	7,577	-	7,577
					(510)	
2019 Trade receivables	9	(i)	Lifetime ECL (simplified approach)	2,949	(194)	2,755
Other receivables and refundable deposits	10	Performing	12-month ECL	7,351	(194)	7,351
Company					(174)	
2020						
Trade receivables	9	(i)	Lifetime ECL (simplified approach)	853	(83)	770
Other receivables and refundable deposits	10	Performing	12-month ECL	119	-	119
·					(83)	
<u>2019</u> Trade receivables	9	(i)	Lifetime ECL	684	(37)	647
Trade receivables	7	(1)	(simplified approach)	004	(37)	047
Other receivables and refundable deposits	10	Performing	12-month ECL	265	-	265
1					(37)	

<sup>(</sup>i) For trade receivables, the Group has applied the simplified approach in SFRS(I) 9 to measure the loss allowance at lifetime ECL. The Group determines the expected credit losses on these items estimated based on historical credit loss experience based on the past due status of the debtors, adjusted as appropriate to reflect current conditions and estimates of future economic conditions. Note 9 includes further details on the loss allowance for these trade receivables.

#### 4 FINANCIAL INSTRUMENTS, FINANCIAL RISKS AND CAPITAL MANAGEMENT (cont'd)

#### (d) Exposure to financial risks (cont'd)

#### (i) <u>Credit risk management</u> (cont'd)

In order to minimise credit risk, the Group has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults. The Group only transacts with entities that are rated the equivalent of investment grade and above and investments in these instruments, where the counterparties have minimum BBB- credit rating, are considered to have low credit risk for the purpose of impairment assessment. The credit rating information is supplied by independent rating agencies where available and, if not available, the Group uses other publicly available financial information and its own trading records to rate its major customers. The Group's exposure and the credit ratings of its counterparties are continuously monitored and the aggregate value of transactions concluded is spread amongst approved counterparties.

Before accepting any new customer, management assesses the potential customer's credit quality and defines credit limits by customer. The review of customer credit limits is conducted annually. There is no single customer who accounts for 10% or more of the Group's trade receivables.

Credit approvals and other monitoring procedures are also in place to ensure that follow-up action is taken to recover overdue debts. Furthermore, the Group reviews the recoverable amount of each trade debt on an individual basis at the end of the reporting period to ensure that adequate loss allowance is made for irrecoverable amounts. In this regard, management considers that the Group's credit risk is significantly reduced.

Trade receivables consist of a large number of customers, spread across diverse industries and geographical areas. Ongoing credit evaluation is performed on the financial condition of accounts receivable.

The Group's credit risk is primarily attributable to its cash and bank balances, trade and other receivables. Cash and fixed deposits (Note 6) are in the custody of creditworthy financial institutions. Trade receivables are largely from credit card companies, tour agencies, regular corporate clients, hotels and tenants at the properties of the Group. Deposits may be collected to mitigate the credit risks.

The Group has no significant concentration of credit risk.

The carrying amounts of financial assets recorded in the financial statements, grossed up for any allowances for losses represent the Group's maximum exposure to credit risk.

The Group does not hold any collateral or other credit enhancements to cover its credit risks associated with its financial assets.

#### ii) <u>Interest rate risk management</u>

The Group is exposed to interest rate risk through the impact of rate changes on interest-bearing liabilities and assets. Information on variable interest rate instruments are in section (v) below, and in Notes 16 and 20.

Interest rate sensitivity

The sensitivity analyses below is based on the exposure to variable interest rates for financial assets and financial liabilities at the end of the reporting period.

If interest rates had been 50 basis points higher or lower and all other variables were held constant, the Group's loss would increase/decrease by approximately \$0.6 million (2019: the Group's profit would decrease/increase by approximately \$0.6 million).

The above analysis excludes the effects that changes in interest rates would have on the fair value of fixed rate bonds, fixed income funds and money market funds. Generally, increases and decreases in interest rates will have inverse impact on the fair value of investments which have fixed interest rates.

31 December 2020

### 4 FINANCIAL INSTRUMENTS, FINANCIAL RISKS AND CAPITAL MANAGEMENT (cont'd)

#### (d) Exposure to financial risks (cont'd)

#### (iii) Foreign currency risk management

At the reporting date, the carrying amounts of financial assets denominated in currencies other than the functional currency of the respective entities in the Group are as follows:

	The G	iroup	The Company		
	Ass	ets	Assets		
	2020 2019		2020	2019	
	\$'000	\$'000	\$'000	\$'000	
United States dollar	7,226	6,184	2,319	2,688	
Euro	790	647	85	-	
Malaysian ringgit	222	287	-	-	
Hong Kong dollar	172	107	81	-	
Thai baht	5	105	5	105	

The above amounts include balances of subsidiaries which are eliminated on consolidation in the statement of financial position but will continue to contribute to foreign currency exposures in the statement of profit or loss and other comprehensive income.

There are no significant financial liabilities denominated in currencies other than the functional currency of the respective entities.

#### Foreign currency sensitivity

The following table details the sensitivity to a 5% increase and decrease in the relevant foreign currencies against the functional currency of each entity in the Group using the monetary amounts denominated in foreign currency at the period.

If the relevant foreign currency strengthens or weakens by 5% against the functional currency of each Group entity:

(a) Loss will decrease or increase (2019: Profit will increase or decrease) respectively by approximately:

	The Group		
	2020		
	\$'000	\$'000	
Impact arising from			
Thai baht	-	5	
Hong Kong dollar	1	-	
United States dollar	96	135	

(b) Other comprehensive income will increase or decrease respectively by approximately:

	The G	iroup
	2020	
	\$'000	\$'000
Impact arising from		
United States dollar	265	174
Euro	39	32
Hong Kong dollar	8	5
Malaysian ringgit	11	14

#### 4 FINANCIAL INSTRUMENTS, FINANCIAL RISKS AND CAPITAL MANAGEMENT (cont'd)

#### (d) Exposure to financial risks (cont'd)

#### (iii) Foreign currency risk management (cont'd)

(b) Other comprehensive income will increase or decrease respectively by approximately: (cont'd)

Changes in exchange rates of other currencies do not have a significant effect on profit or loss, and other comprehensive income.

Additionally, the Group is exposed to currency translation risk arising from net assets of subsidiaries operating in Malaysia, New Zealand and Thailand which are denominated in their respective domestic currencies which is also their functional currencies.

At the end of the year, net assets in the following countries, expressed as a percentage of net assets of the Group were as follows:

	The C	The Group		
	2020	2019		
	%	%		
Malaysia	8	9		
New Zealand	8	7		
Thailand	10	11		

#### (iv) Equity price risk management

The Group is exposed to equity risks arising from equity investments at FVTPL and at FVTOCI. Equity investments measured at FVTOCI are held for strategies rather than trading purposes. The Group does not actively trade such investments.

Further details of these equity investments can be found in Notes 7 and 8.

Equity price sensitivity

The sensitivity analyses below have been determined based on the exposure to equity price risks at the end of the reporting period.

In respect of equity instruments at FVTOCI, if equity price had been 10% higher/lower while all other variables were held constant, the Group's fair value reserves would increase/decrease by approximately \$2.6 million (2019: \$2.5 million).

#### (v) Liquidity risk management

At the end of the year, the Group and the Company have unutilised credit facilities totaling \$202.8 million (2019: \$183.9 million) and \$130.9 million (2019: \$112.2 million) respectively.

From time to time, management evaluates the tenure of credit facilities. Both the Company and the Group have adequate resources to discharge obligations as and when they fall due.

#### Derivative financial instruments

The Group's derivative financial instruments comprise interest rate swap which are measured at fair value at the end of the reporting period. See Note 18 for more information on derivative financial instruments.

### (vi) Fair value of financial assets and financial liabilities

The Group and the Company determines fair values of financial assets and financial liabilities in the following manner:

(a) Fair value of the Group's financial assets and financial liabilities that are not measured at fair value on a recurring basis (but fair value disclosures are required)

The carrying amounts of financial assets and financial liabilities recorded at amortised cost in the financial statements approximate their fair values due to the relatively short term maturity of these financial instruments. The carrying amounts of long term borrowings approximate their fair values as interest rates float with market rates. See Note 18 for more information on derivative financial instruments.

31 December 2020

### 4 FINANCIAL INSTRUMENTS, FINANCIAL RISKS AND CAPITAL MANAGEMENT (cont'd)

- (d) Exposure to financial risks (cont'd)
  - (vi) Fair value of financial assets and financial liabilities (cont'd)
    - (b) Fair value of the Group's financial assets and financial liabilities that are measured at fair value on a recurring basis

The following financial assets are measured at fair value at the end of each reporting period. Fair values belong to the following levels in the fair value hierarchy.

	Leve	el 1	Level 3		
	2020	2019	2020	2019	
	\$'000	\$'000	\$'000	\$'000	
The Group					
Financial assets at fair value through profit or loss:					
- Quoted bonds	3,396	3,720	-	-	
- Unquoted managed funds	-	-	10	5	
Financial assets at fair value through other comprehensive income:					
- Quoted equity shares	11,594	9,879	-	-	
- Unquoted equity shares	-	-	14,694	14,831	
The Company Financial assets at fair value through profit or loss:					
- Quoted bonds - Unquoted managed funds	997 -	1,565 -	- 9	- 1	
Financial assets at fair value through other comprehensive income:					
- Quoted equity shares	2,324	1,707	-	-	
- Unquoted equity shares	-		14,694	14,831	

Fair values of investments classified as Level 1 of the fair value hierarchy are based on publicly available quoted prices. Level 3 investments are measured based on net assets of the unquoted funds as provided by the fund managers and measured based on adjusted net assets of the unquoted equity shares. There is no investment falling within Level 2 of the fair value hierarchy.

### 4 FINANCIAL INSTRUMENTS, FINANCIAL RISKS AND CAPITAL MANAGEMENT (cont'd)

All gains and losses included in other comprehensive income relate to unlisted shares held at the end of the reporting period and are reported as changes of "fair value reserves".

#### (e) Capital management policies and objectives

The Group's overall strategy for managing capital remains unchanged from prior year. Capital of the Group is managed to ensure that entities in the Group will be able to continue as going concern and returns to stakeholders are optimised through a mix of equity, short-term and long-term debts.

The capital structure of the Group consists of equity comprising share capital (Note 22), reserves and retained earnings; and debt which comprise bank loans (Notes 16 and 20).

Management reviews the capital structure at least once a year, taking into consideration the cost of capital, the risks and tenure associated with each class of capital. The bank loans require the Group to comply with certain covenants such as debt to security ratio. The Group is in compliance with these covenants.

### 4 FINANCIAL INSTRUMENTS, FINANCIAL RISKS AND CAPITAL MANAGEMENT (cont'd)

(e) Capital management policies and objectives (cont'd)

Information on aggregate debts as a ratio of total assets and equity are as follows:

	The Group		
	2020	2019	
	\$'000	\$′000	
Total debt	127,518	115,394	
Total assets	782,811	838,574	
Total equity	623,818	688,369	
Debt-to-total assets ratio	16%	14%	
Debt-to-total equity ratio	20%	17%	

#### 5 RELATED PARTY TRANSACTIONS

### Compensation of directors and key management personnel

The remuneration of directors and other members of key management during the year was as follows:

	The G	The Group		
	2020	2019		
	\$'000	\$'000		
Short-term benefits	1,042	984		
Post-employment benefits	40	8		
	1,082	992		

The remuneration of directors and key management personnel is determined by the Remuneration Committee having regard to the performance of individuals and market trends.

Other related party transactions comprise:

	The G	iroup
	2020	2019
	\$'000	\$'000
Fees paid to a medical practice owned by a director	6	16
Commission paid to a related party for property management services *	16	33
Sales of food and beverage to a related party *	-	(10)
Advertising expenses paid to a related party *		11

<sup>\*</sup> Entities in which certain directors of the Company have equity interest, hold significant influence and are key management personnel of the entities.

	\$'000	\$'000	\$'000	\$'000
Cash on hand	110	154	42	53
Cash at bank	12,251	18,664	2,603	7,679
Fixed deposits	3,841	2,085	2,003	-
Total	16,202	20,903	4,648	7,732
Less: Fixed deposits pledged	(1,053)	(1,053)	-	-
Cash and cash equivalents in statement of cash flows	15,149	19,850	4,648	7,732

Fixed deposits of a subsidiary are pledged for a loan facility (Note 20).

The Group and the Company fixed deposits earn interest ranging from 0.14% to 1.75% and 0.14% (2019: 1.85% to 3.00% and Nil) per annum respectively and for terms ranging from 30 days to 365 days and 30 days (2019: 7 days to 270 days and Nil) respectively.

#### 7 FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS

The Group designated the investments shown below as at FVTPL because these represent investments that offer the Group the opportunity for return through dividend income and fair value gains.

The Group		The Company	
2020 20	2019 2020		2019
\$'000	\$'000	\$'000	\$'000
3,396	3,720	997	1,565
10	5	9	1
3,406	3,725	1,006	1,566
	<b>2020</b> <b>\$'000</b> 3,396 10	2020 2019 \$'000 \$'000 3,396 3,720 10 5	2020     2019     2020       \$'000     \$'000     \$'000       3,396     3,720     997       10     5     9

The investments above offer the Group the opportunity for return through dividend income and fair value gains. They have no fixed maturity or coupon rate. The fair values of these securities are based on closing quoted market prices on the last market day of the financial year.

Unquoted managed funds are measured at fair value through profit or loss in accordance with SFRS(I) 9 *Financial Instruments*, as they represent an identified portfolio of investments which the group manages together with an intention of profit taking when the opportunity arises.

Changes in the fair value of financial assets at fair value through profit or loss, amounting to net loss of \$134,000 (2019: net gain of \$93,000) have been included in profit or loss for the year as part of "other expenses" (2019: "other income").

#### 8 FINANCIAL ASSETS AT FAIR VALUE THROUGH OTHER COMPREHENSIVE INCOME

The Group designated the investments shown below as equity investments as at FVTOCI because these equity investments represent investments that the Group intends to hold for the medium to long-term for strategic purposes.

	The G	The Group		The Company	
	2020	2019	2020	2019	
	\$'000	\$'000	\$'000	\$'000	
Current assets					
Quoted equity shares	8,447	6,378	1,766	1,068	
Non-current assets					
Quoted equity shares	3,147	3,501	558	639	
Unquoted equity share	14,694	14,831	14,694	14,831	
	17,841	18,332	15,252	15,470	
Total	26,288	24,710	17,018	16,538	

The investments above offer the Group the opportunity for return through dividend income and fair value gains.

The financial assets held at fair value through other comprehensive income presented as current assets are those held in investment accounts managed on behalf of the Group by professional fund managers and subject to changes in components of investments within the portfolio. The financial assets held at fair value through other comprehensive income presented as non-current assets are those managed directly by the Group and are held for long term investments.

These investments in equity instruments are not held for trading. Instead, they are held for medium to long-term strategic purposes. Accordingly, management has elected to designate these investments in equity instruments as at FVTOCI as they believe that recognising short-term fluctuations in these investments' fair value in profit or loss would not be consistent with the group's strategy of holding these investments for long-term purposes and realising their performance potential in the long run.

#### 9 TRADE RECEIVABLES

	The G	The Group		mpany
	2020	2019	2020	2019
	\$'000	\$'000	\$'000	\$'000
Trade receivables	2,531	2,948	853	684
Related parties (1)	20	1	-	-
Total	2,551	2,949	853	684
Less: Loss allowance	(510)	(194)	(83)	(37)
	2,041	2,755	770	647

Entities in which certain directors of the Company have equity interest, hold significant influence and are key management personnel of the entities.

The credit period granted to customers is generally 30 days (2019: 30 days). No interest is charged on any overdue trade receivables. No interest is charged on the outstanding trade receivables. Loss allowance for trade receivables has always been measured at an amount equal to lifetime expected credit losses (ECL). The ECL on trade receivables are estimated using a provision matrix by reference to past default experience of the debtor and an analysis of the debtor's current financial position, adjusted for factors that are specific to the debtors, general economic conditions of the industry in which the debtors operate and an assessment of both the current as well as the forecast direction of conditions at the reporting date. The Group has recognised a loss allowance of 100% against all receivables over a year past due because historical experience has indicated that these receivables are generally not recoverable.

31 December 2020

#### 9 TRADE RECEIVABLES (cont'd)

There has been no change in the estimation techniques or significant assumptions made during the current reporting period.

A trade receivable is written off when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery, e.g. when the debtor has been placed under liquidation or has entered into bankruptcy proceedings, or when the trade receivables are over one year past due, whichever occurs earlier. None of the trade receivables that have been written off is subject to enforcement activities.

The age of receivables past due but not impaired amounted to \$0.8 million (2019: \$0.7 million) and ranges from 31 to 60 days (2019: 31 to 60 days). The allowance of \$510,000 (2019: \$194,000) are provided against receivables that are past due.

The table below shows the movement in lifetime ECL that has been recognised for trade receivables in accordance with the simplified approach set out in SFRS(I) 9:

	The Group		The Company	
	2020	2020 2019 2020	2020	2019
_	\$'000	\$'000	\$'000	\$'000
Balance at beginning of the year	194	196	37	45
Loss allowance recognised in profit or loss during the year:				
- Assets originated	320	12	54	-
- No longer required (write-back)	(18)	(2)	(8)	(8)
- Exchange adjustment	14	-	-	-
Write off against loss allowance	-	(12)	-	-
Balance at end of the year	510	194	83	37

#### 10 OTHER RECEIVABLES, DEPOSITS AND PREPAID EXPENSES

	The Group		The Company	
	2020	2019	2020	2019
	\$'000	\$'000	\$'000	\$'000
Outside parties	778	416	119	244
Refundable deposits (a)	6,799	6,935	-	21
Prepaid expenses	3,019	1,919	87	87
Government grant receivables (b)	606	-	373	-
	11,202	9,270	579	352

- (a) Included in the refundable deposits pertaining to a refundable deposit paid of RM19.7 million (approximately \$6.54 million) for the proposed acquisition of Royale Chulan Bukit Bintang Hotel and its business in Kuala Lumpur, Malaysia. The acquisition has yet to be completed as at 31 December 2020.
- (b) Included in the government grant receivable of the Group and the Company as at 31 December 2020 were Job Support Scheme ("JSS") payouts receivable of \$0.61 million and \$0.37 million respectively as part of the Singapore Government's measures to support business during the period of economic uncertainty impacted by Covid-19.

#### 10 OTHER RECEIVABLES, DEPOSITS AND PREPAID EXPENSES (cont'd)

For purpose of impairment assessment, other receivables are considered to have low credit risk as they are not due for payment at the end of the reporting period and there has been no significant increase in the risk of default on the receivables since initial recognition. Accordingly, for the purpose of impairment assessment for these receivables, the loss allowance is measured at an amount equal to 12-month expected credit losses (ECL).

In determining the ECL, management has taken into account the historical default experience and the financial position of the counterparties, adjusted for factors that are specific to the debtors and general economic conditions of the industry in which the debtors operate, in estimating the probability of default of each of these financial assets occurring within their respective loss assessment time horizon, as well as the loss upon default in each case. Management has determined the credit loss to be insignificant.

There has been no change in the estimation techniques or significant assumptions made during the current reporting period in assessing the loss allowance for other receivables.

#### 11 SUBSIDIARIES

The Company	
2020	2019
\$'000	\$'000
97,703	97,703

	2020 \$'000 97,703 (2,000) 95,703 99,304 (6,066) 93,238 12,234 (1,375) 10,859

The Company carried out a review of the recoverable amounts of its subsidiaries where there was an indication that the investments had suffered an impairment loss. The review concluded that an impairment of \$9,441,000 (2019: \$Nil) is required on the carrying amount of certain investments. The recoverable amount is determined based on the carrying amount of the relevant subsidiaries' audited net assets, adjusted for revaluation gain or loss on the hotel land and/ or building of the subsidiary which is not included in the subsidiary's accounts or which approximates recoverable amount at the end of the reporting period.

31 December 2020

### 11 SUBSIDIARIES (cont'd)

The details of the Company's subsidiaries are as follows:

Name of subsidiary	Country of incorporation and operation	Propor ownershij			tion of ower held	Principal activities

Panali Co., Ltd. (1)(4)	Thailand	74	74	100	100	Owns a hotel.

#### 11 SUBSIDIARIES (cont'd)

All the subsidiaries are audited by Deloitte & Touche LLP, Singapore except as indicated below:

- (1) Audited by overseas practices of Deloitte Touche Tohmatsu Limited.
- Hotel Royal (Thailand) Private Limited (a wholly-owned subsidiary in the Group) holds 40% of all shares in Hotel Royal Bangkok (Thailand) Co., Ltd and controls 87% of all votes exercisable by shareholders of Hotel Royal Bangkok (Thailand) Co., Ltd. The Articles of Association of Hotel Royal Bangkok (Thailand) Co., Ltd specifies that Hotel Royal (Thailand) Private Limited is responsible for all liabilities, assets and retained earnings of Hotel Royal Bangkok (Thailand) Co., Ltd. The consolidated financial statements of the Group thus includes all liabilities, assets and retained earnings of Hotel Royal Bangkok (Thailand) Co., Ltd.
- (3) Hotel Royal (Thailand) Private Limited (a wholly-owned subsidiary in the Group) holds 49% of all shares in Excellent Hotel (Thailand) Co., Ltd and controls 91% of all votes exercisable by shareholders of Excellent Hotel (Thailand) Co., Ltd. The Articles of Association of Excellent Hotel (Thailand) Co., Ltd specifies that Hotel Royal (Thailand) Private Limited is responsible for all liabilities, assets and retained earnings of Excellent Hotel (Thailand) Co., Ltd. The consolidated financial statements of the Group thus includes all liabilities, assets and retained earnings of Excellent Hotel (Thailand) Co., Ltd.
- (4) The Company's subsidiaries, Hotel Royal (Thailand) Private Limited and Excellent Hotel (Thailand) Co., Ltd hold an aggregate of 100% of the equity shares of Panali Co., Ltd.

The amounts owing by subsidiaries to the Company are unsecured, not expected to be repaid within the next 12 months. The outstanding amount of \$99.3 million (2019: \$89.8 million) bear interest ranging from 1.99% to 2.41% (2019: 2.50% to 3.70%) per annum which approximate market interest rate. Hence, the carrying amounts approximate their respective fair values.

The Company undertakes to provide financial support to certain subsidiaries with net current liabilities to ensure that subsidiaries can meet their contractual obligations when they fall due.

#### 12 OTHER ASSETS

	The	The Group		The Company	
	2020	2019	2020	2019	
_	\$'000	\$'000	\$'000	\$'000	
Lease incentives	777	567	84	74	
Less: Current portion included in trade receivables	(323)	(148)	-	-	
Non-current portion	454	419	84	74	
Deposits	76	84	-	-	
	530	503	84	74	

Lease incentives refer to non-cash incentives provided to tenants for entering into rental agreements for properties owned by the Group. The incentives are recognised as a reduction of rental income over the lease term on a straight-line basis.

Deposits represent payments made to suppliers for the purchase of property, plant and equipment.

31 December 2020

#### 13 GOODWILL

	The Group		
	2020	2019	
	\$′000	\$'000	
At beginning of the year	2,057	1,920	
Impairment loss recognised in profit or loss	(2,007)	-	
Exchange adjustment	(50)	137	
At end of the year		2,057	

Goodwill acquired in a business combination is allocated, at acquisition, to the cash generating units (CGUs) that are expected to benefit from that business combination. Before recognition of impairment losses, the carrying amount of goodwill had been allocated to the respective hotel operations.

The Group tests goodwill annually for impairment or more frequently if there are indications that goodwill might be impaired. During the financial year, goodwill has been fully impaired due to deterioration in the capability of subsidiary to generate future cashflows.

The recoverable amounts of the CGU are determined at the higher of net realisable value and value in use calculations. The key assumptions for the value in use calculations are growth in room rates, occupancy rates, operating costs and the rate to discount future net cash flows to present value (the discount rate). Management estimates discount rates using pre-tax rates that reflect current market assessments of the time value of money and risks specific to the CGU. Changes in room rates and direct costs are based on expectations of specific to the CGU as well as the industry at large.

The Group prepares cash flow forecasts derived from budgets approved by management for the next 10 years (2019: 10 years) and extrapolates cash flows for the following years based on long term growth rate of 3.00% (2019: 3.00%) per annum. The rate used to discount the forecast cash flows to present values at 10.50% (2019: 10.50%) per annum.

In 2019, any reasonably possible change to the key assumptions applied not likely to cause the recoverable amounts to be below the carrying amounts of the CGU.

#### 14 PROPERTY, PLANT AND EQUIPMENT (cont'd)

Right-of-use assets acquired under leasing arrangements are presented together with the owned assets of the same class. The right-of-use asset relating to leasehold land is presented under property, plant and equipment.

Property, plant and equipment of the Group and the Company with carrying amounts of \$603.6 million and \$242.5 million (2019: \$658.3 million and \$267.2 million) respectively are pledged as securities for the Group's and the Company's bank loans as disclosed in Notes 16 and 20.

During the year, the Group carried out a review of the recoverable amount of its property, plant and equipment. The review led to the impairment loss of \$8,765,000 based on valuation performed by independent appraisers as at 31 December 2020.

In 2019, the Group carried out a review of the recoverable amount of its leasehold land and building. The review led to the write back of an impairment loss of \$77,000 based on valuation performed by independent appraiser as at 31 December 2019.

#### Fair value measurement of freehold land

Revaluation increase/decrease is recognised only for freehold hotel land in accordance with the Group's accounting policies.

The Group engaged independent professional valuers who have the appropriate qualification and recent experience in such fair value measurement, to assist management in assessing the fair values of freehold land. Information relating to significant estimates involved in valuation of freehold land are provided in Note 3.

Based on the valuation, revaluation loss amounting to \$42.46 million (2019: revaluation gain of \$17.36 million) and \$24.6 million (2019: revaluation gain of \$9.9 million) for the Group and Company respectively, was recognised in other comprehensive income. The revaluation loss is charged against the asset revaluation reserve to the extent that the decrease does not exceed the amount held in the asset revaluation reserve of the same freehold land. Revaluation loss of \$0.3 million (2019: \$Nil) which exceeded the balance accumulated in the asset revaluation reserve of the same freehold land was recognised in profit or loss during the year.

The estimated fair values as at the end of each reporting period of the Group's freehold land are as follows:

	2020	2019
The Green	\$'000	\$'000
The Group		
Freehold land:		
- Singapore	400,700	443,100
- Malaysia	29,315	29,705
- Thailand	49,133	50,250
The Company		
Freehold land	241,400	266,000

As at 31 December 2020, had freehold hotel land been carried at historical cost, their aggregate carrying amount would have been approximately \$73.1 million (2019: \$73.1 million) for the Group and \$1.0 million (2019: \$1.0 million) for the Company.

### 14 PROPERTY, PLANT AND EQUIPMENT (cont'd)

Fair values of the Group's freehold and leasehold land and hotel buildings were estimated using inputs which are considered as Level 3 in the fair value hierarchy. Details of valuation techniques and significant unobservable inputs used in the fair value measurement are as follows:

	Valuation Methodology			outs
		•	2020	2019
Freehold land and hotel buildings in	Income capitalisation for land and building	Occupancy rate (1)	84% to 87%	85% to 88%
Singapore	Tor land and ballang	Room rate per day (1)	\$120 to \$140	\$118 to \$140
		Capitalisation rate (2)	4.00% to 4.25%	4.00% to 4.25%
	Residual method for land	Depreciated replacement cost per room (1)	\$189,000 to \$264,000	\$245,000 to \$330,000
Freehold and Direct Comparison leasehold land in Method for land Malaysia		Price per square metre - after adjustment for differences such as location and size (1)		
,		- Hotel Royal Kuala Lumpur	\$13,832	\$13,832
		<ul><li>- Penang</li><li>- Baba Residences (including</li></ul>	\$2,723	\$2,723
		Baba Mansion)	\$2,290	\$3,768
Freehold land in Thailand	Direct Comparison Method for land	Price per square metre - after adjustment for differences such as location, size, configuration and accessibility (1)	n	
		- Bangkok - Phuket	\$16,500 \$3,696	\$16,875 \$3,760

<sup>(1)</sup> Any significant isolated increases (decreases) in these inputs can result in a significantly higher (lower) fair value measurement.

<sup>&</sup>lt;sup>(2)</sup> Any significant isolated increases (decreases) in these inputs can result in a significantly lower (higher) fair value measurement.

<sup>\*</sup> Mainly arising from freehold buildings in New Zealand.

Right-of-use assets acquired under leasing arrangements are presented together with the owned assets of the same class. The right-of-use asset relating to leasehold building is presented under investment property.

Certain investment properties of the Group with carrying amounts of \$105.5 million (2019: \$80.6 million) are pledged as securities for the Group's bank loans (Notes 16 and 20).

The property rental income from the Group's investment properties amounted to \$7.5 million (2019: \$7.0 million). Direct operating expenses (including repairs and maintenance) arising from the rental-generating properties amounted to \$6.1 million (2019: \$4.7 million).

Based on the valuation, impairment loss amounting to \$3.5 million for the Group was recognised in profit or loss during the year.

Investment properties are recorded at cost less accumulated depreciation. Fair value increases/decreases are not recognised for investment properties. The following estimates of fair values of investment properties are provided as information.

#### 15 INVESTMENT PROPERTIES (cont'd)

Estimated fair values of investment properties

	2020	2019
	\$'000	\$′000
Freehold land and buildings in New Zealand	71,195	64,265
Freehold land and buildings in Malaysia	28,294	28,294
Freehold buildings in Singapore	7,400	7,360
Leasehold buildings in Singapore	8,400	8,400
Freehold land and building in Singapore	36,900	36,500
	152,189	144,819

Fair values of certain investment properties are generally assessed with reference to open market values of comparable properties and making adjustments for differences between the investment properties and the comparable properties. Fair value of other investment properties are assessed based on the estimated future cash flows and discounted to their present value using a pre-tax discount rate that reflects current market assessment of the time value of money and the risks specific to the assets.

Fair values of the Group's investment properties (disclosed above but not used as a basis of accounting in the statement of financial position) were estimated using inputs which are considered as Level 3 in the fair value hierarchy. The fair values for the properties were estimated after considering the results of various valuation techniques. Details of valuation techniques and significant unobservable inputs used in the fair value measurement were as follows:

	Valuation Methodology	Significant unobservable inputs (Level 3)
Freehold land and buildings in	Investment Method	Capitalisation rate on adopted market rental profile (2)
New Zealand		Growth rate (1)
		Rates to discount cash flows to present value (2)
Freehold land and buildings in Malaysia	Direct Comparison Method	Price per square metre of gross floor area (1)
Freehold and leasehold land and buildings in Singapore	Direct Comparison Method	Price per square metre of strata floor area (1)

<sup>(1)</sup> Any significant isolated increases (decreases) in these inputs can result in a significantly higher (lower) fair value measurement.

Any significant isolated increases (decreases) in these inputs can result in a significantly lower (higher) fair value measurement.

31 December 2020

#### 16 BANK LOANS

The G	iroup	The Company	
2020	2019	2020	2019
\$'000	\$'000	\$'000	\$'000
4,172	3,857	-	-
3,149	5,517	360	-
7,321	9,374	360	-
	<b>2020</b> <b>\$'000</b> 4,172 3,149	<b>\$'000 \$'000</b> 4,172 3,857 3,149 5,517	2020     2019     2020       \$'000     \$'000     \$'000       4,172     3,857     -       3,149     5,517     360

Short term bank loans of the Group bear variable interest ranging from approximately 2.8% to 4.3% (2019: 2.73% to 4.96%) per annum. The above bank facilities are secured on mortgages of subsidiaries' freehold land and buildings, leasehold land, and certain investment properties with aggregate carrying amounts as disclosed in Notes 14 and 15.

### Reconciliation of liabilities arising from financing activities

			Non-cash changes	-
<u>Group</u>	As at 1 January	Financing cash flows (i)	Foreign exchange movement	As at 31 December
	\$'000	\$'000	\$'000	\$'000
Bank loans and long-term bank loans (Notes 16 and 20)				
2020	115,394	11,940	184	127,518
2019	105,033	7,640	2,721	115,394

The cash flows make up the net amount of proceeds from borrowings and repayments of borrowings in the statement of cash flows.

#### 17 OTHER PAYABLES

	The Group		The Company	
_	2020	2019	2020	2019
_	\$′000	\$'000	\$'000	\$'000
Outside parties	4,414	4,833	97	84
Subsidiaries	-	-	27,888	28,070
Deferred grant income	895	-	577	-
Financial guarantee contract liabilities	-	-	2,156	2,697
Total	5,309	4,833	30,718	30,851
Less: Amount payable within 12 months (shown under current liabilities)	(5,278)	(4,780)	(2,830)	(2,781)
Amount payable after 12 months	31	53	27,888	28,070

Other payables comprise mainly amounts outstanding for ongoing costs.

Deferred grant income relates to the wage support for local employees under the JSS from the Singapore Government. Grant income amounting to \$2 million has been recognised in the profit or loss on a systematic basis over the period of uncertainty in which the related salary costs for which the JSS grant is intended to compensate, is offset against staff costs recognised in expenses. Management has determined the period of uncertainty to be 17 months commencing April 2020.

Amounts owing to subsidiaries of \$27,879,000 (2019: \$27,549,000) are unsecured and bear interest at 1.42% (2019: 2.60%) per annum.

#### 18 DERIVATIVE FINANCIAL INSTRUMENTS

The Group uses interest rate swaps to manage its exposure to interest rate movements on its bank borrowings by swapping a proportion of those borrowings from floating rates to fixed rates.

The following table details the notional principal amounts and remaining terms of interest rate swap contracts outstanding as at the end of the reporting period:

Outstanding floating for fixed contracts	Contracted fixed interest rate	Notional principal amount	Fair value loss
	% per annum	\$'000	\$'000
3 years contract	1.94	10,000	196

The interest rate swaps settle on a monthly basis. The floating rate on the interest rate swaps is the SGD Swap Offered Rate which average about 0.51% per annum.

The derivative financial instruments are determined based on level 2 of fair value hierarchy and based on intermediate market rate between the offer rate and the bid rate.

#### 19 RETIREMENT BENEFIT OBLIGATIONS

The subsidiaries operate unfunded, defined benefit retirement benefit schemes (the "Schemes") in Malaysia and Thailand. Under the Schemes, eligible employee of the subsidiaries are entitled to retirement benefits based on 83% to 100% of their last drawn basic salary for Malaysian and Thailand employees respectively, multiplied by the years of service on attainment of the normal retirement age of 55 years old in Thailand and 60 years old in Malaysia.

31 December 2020

#### 19 RETIREMENT BENEFIT OBLIGATIONS (cont'd)

The amounts recognised in the statement of financial position are as follows:

	The Group	
	2020	2019
	\$'000	\$'000
Present value of unfunded defined benefit obligations	497	895
Payable:		
Within 1 year	26	70
Later than 1 year but not later than 2 years	20	84
Later than 2 years but not later than 5 years	80	313
Later than 5 years	371	428
	497	895

Changes in the present values of the defined benefit obligations since the beginning of year arise from changes in current service costs incurred, less benefits paid. Such changes are recorded in the statement of profit or loss.

Defined benefit obligations for subsidiaries in Malaysia and Thailand have been valued by qualified independent actuaries. The projected unit credit method is used in the valuations.

Principal actuarial assumptions used for the purpose of the actuarial valuations were as follows:

	The	The Group		
	2020	2019		
	%	%		
Discount rate	1.3 to 4.4	1.5 to 4.4		
Expected rate of salary increases	3.0 to 4.0	4.0 to 6.0		

### 20 LONG-TERM BANK LOANS

	The Group		The Company	
	2020	2019	2020	2019
	\$'000	\$'000	\$'000	\$'000
Outside parties Less: Amount due for settlement within 12 months	123,346	111,537	43,921	37,601
(Note 16)	(3,149)	(5,517)	(360)	
Amount due for settlement after 12 months	120,197	106,020	43,561	37,601

During the year, the Group's and the Company's long term bank loans bear interest ranging from 1.45% to 4.3% and 1.61% to 2% (2019: 2.73% to 4.96% and 2.56% to 2.95%) per annum respectively.

The Group's and the Company's long term bank loans are secured against the land and buildings (Note 14) and investment properties (Note 15).

The borrowing rates for the bank loans are repriced monthly or quarterly based on benchmark market rates. Management is of the view that the carrying amounts of these bank loans approximate their fair values.

#### 21 DEFERRED TAX LIABILITIES

Charge to profit or loss for the year	31
At 31 December 2019	1,020
Credit to profit or loss for the year	(233)
At 31 December 2020	787

Subsidiaries have unutilised tax losses and capital allowances carryforward of approximately \$55.4 million (31 December 2019: \$47.1 million) which are available for offset against future taxable profits of the subsidiaries, subject to the approval by the Malaysian and Thailand tax authorities. As at 31 December 2020 and 31 December 2019, no deferred tax asset is recorded as there is no reasonable assurance of the ability to utilise the tax losses in the foreseeable future.

No deferred tax liability has been recognised in respect of undistributed earnings of foreign subsidiaries which would be subject to withholding tax if transferred out of the country. The Group is in a position to control the timing of the transfer of these retained earnings and do not expect the retained earnings to be remitted such as to attract withholding tax in the foreseeable future.

31 December 2020

#### 22 SHARE CAPITAL

	The Group and the Company			
	2020	2019	2020	2019

Fully paid ordinary shares, which have no par value, carry one vote per share and a right to dividends as and when declared by the Company.

#### 23 REVENUE

The Group derives its revenue from the transfer of goods and services at a point in time in the following major product lines. This is consistent with the revenue information that is disclosed for each reportable segment under SFRS(I) 8 Operating Segments (see Note 29).

	The G	iroup
	2020	2019
	\$'000	\$'000
Hotel operations:		
- Room revenue	17,412	35,907
- Food and beverage revenue	2,395	8,913
- Spa revenue	198	971
- Car park revenue	368	587
Properties investments:		
- Investment properties	8,217	7,682
- Premises within hotels	1,432	2,770
Financial investments:

#### **INCOME TAX EXPENSE**

	The Group	
	2020	2019
	\$′000	\$'000
Current tax	1,322	3,037
Withholding tax	117	208
Deferred tax	(255)	17
	1,184	3,262
(Over) Under provision in prior years:		
- current tax	(230)	93
- deferred tax	(211)	160
	(441)	253
Total income tax expense	743	3,515

The income tax expense varied from the amount of income tax expense determined by applying the Singapore income tax rate of 17% (2019: 17%) to profit before income tax as a result of the following differences:

	The Group	
	2020	2019
	\$'000	\$'000
Income tax expense at 17% rate	(3,417)	1,424
Difference due to foreign tax rates	(1,092)	83
Non deductible items	5,103	1,208
Withholding tax	117	208
Effect of unused tax losses and tax offsets not recognised as deferred tax assets	531	377
(Over) Under provision in prior years	(441)	253
Tax exemption and rebate	(52)	(56)
Other items	(6)	18
Total income tax expense	743	3,515

### (LOSS) EARNINGS PER SHARE

Basic (loss) earnings per share is calculated on the Group loss after tax of \$20.844 million (2019: Group profit after tax of \$4.862 million) divided by weighted average number of 100,800,000 (2019: 100,800,000) ordinary shares.

There are no dilutive potential ordinary shares and diluted earnings per share is therefore not applicable to the Group.

#### 29 **SEGMENT INFORMATION**

### Products and services of the Group

The Group is primarily engaged in the following operations:

- Owning and operating hotels and providing ancillary services ("hotel operations").
- Owning and letting out investment properties ("property investments"). Holding financial investments such as shares, bonds and funds to generate income through interest and dividends, and also for potential capital appreciation ("financial investments").

#### 29 SEGMENT INFORMATION (cont'd)

#### Definition of operating segments and reportable segments of the Group

For the purpose of reporting to the Group's chief operating decision-maker for resource allocation and assessment of operational performance, the information is organised in the following manner:

- Hotel operations information is reported on individual hotel basis.
- Property investments information is reported on individual property basis.
- Financial investments information is reported on overall performance of the investment portfolio.

The above forms the basis of determining an operating segment of the Group. For the purpose of reporting segment information externally, the following reportable segments are identified:

- Hotel operations
  - Singapore
  - Malaysia
  - Thailand
- Property investments
  - Singapore
  - New Żealand
  - Malaysia
- Financial investments

The accounting policies of the reportable segments are the same as the Group's accounting policies described in Note 2. Segment profits represent profits earned by each segment without allocation of the finance costs and income tax expense. All assets are allocated to reportable segments except for fixed deposits and income tax recoverable. Segment liabilities represent operating liabilities attributable to each reportable segment. Bank borrowings, deferred tax liabilities and tax liabilities are not allocated. Information regarding the Group's reportable segments is presented below:

	30,618	57,690	722,548	776,017

#### 30 OPERATING LEASE ARRANGEMENTS

#### The Group and Company as lessor

Operating leases, in which the group is the lessor, relate to investment properties and hotel buildings owned by the Group with lease terms of between 1 to 8 years. The lessee does not have an option to purchase the property at the expiry of the lease period. The unguaranteed residual values do not represent a significant risk for the Group, as they relate to properties which are located in locations with a constant increase in value over the years. The group did not identify any indications that this situation will change.

### Notes to Financial Statements (Cont'd)

statements	9,299	10,120		

#### 33 DIVIDENDS

In 2020, the Company declared and paid a first and final tax-exempt dividend of \$0.025 per share on the ordinary shares of the Company totaling \$2.52 million in respect of the financial year ended 31 December 2019.

In 2019, the Company declared and paid a first and final tax-exempt and special dividend of \$0.050 and \$0.010 per ordinary share respectively totaling \$6.04 million in respect of the financial year ended 31 December 2018.

Subsequent to 31 December 2020, the directors of the Company recommended that a first and final tax-exempt dividend be paid at \$0.025 per ordinary share respectively totaling \$2.52 million for the financial year just ended on the ordinary shares of the Company. The dividend is subject to approval by shareholders at the Annual General Meeting and has not been included as a liability in these financial statements.

#### 34 SUBSEQUENT EVENTS

The Group has taken possession of Hotel Royale Chulan Bukit Bintang on 22 February 2021.

RM161.54 million (approximately S\$53.15 million) was paid to the vendor on 22 February 2021 and a final payment of RM15.76 million (approximately S\$5.19 million) was released to the vendor's solicitors on 19 March 2021.

The Group has ceased operation of the property and will take about 24 months to renovate the property.

# Statistics of Shareholdings

- (8) Chip Keng Holding Bhd is the wholly-owned subsidiary of Asia Building Bhd. Asia Building Bhd is deemed interested in the 1,386,000 shares held by Chip Keng Holding Bhd.

## Notice of Annual General Meeting

Notice is hereby given that the 52nd Annual General Meeting of Hotel Royal Limited will be convened and held by way of electronic means on Saturday, 24 April 2021 at 2.30 p.m. to transact the following business:

#### **As Ordinary Business**

 To receive and adopt the Directors' Statement and the Audited Financial Statements for the financial year ended 31 December 2020 together with the Auditors' Report thereon.

(Resolution 1)

2. To declare a First and Final Dividend of 2.5 cents per ordinary share one-tier tax exempt for the financial year ended 31 December 2020. (FY2019: 2.5 cents per ordinary share)

(Resolution 2)

3. To approve the payment of Directors' fees of S\$200,400 for the financial year ended 31 December 2020. (FY2019: S\$236,500)

(Resolution 3)

4. To note the retirement of Dr Pang Eng Fong, who is retiring by rotation pursuant to Article 117 of the Company's Constitution as Director of the Company.

Dr Pang Eng Fong will not seek for re-election and will retire as Director of the Company on 24 April 2021 at the close of the Annual General Meeting. Accordingly, Dr Pang Eng Fong will relinquish his position as the Chairman of the Company and Nominating Committee and a member of the Audit and Risk Committee and Remuneration Committee.

5. To re-elect Mr Lee Kin Hong who is retiring pursuant to Article 117 of the Company's Constitution and who, being eligible, offers himself for re-election, as Director of the Company.

[See Explanatory Note (i)]

(Resolution 4)

6. To re-elect Mr Lee Chou Hor George who is retiring pursuant to Article 122 of the Company's Constitution and who, being eligible, offers himself for re-election, as Director of the Company. [See Explanatory Note (ii)]

(Resolution 5)

7. To re-appoint Deloitte & Touche LLP as the Auditors of the Company and to authorise the Directors of the Company to fix their remuneration.

(Resolution 6)

8. To transact any other ordinary business of an Annual General Meeting of which due notice shall have been given.

#### **As Special Business**

To consider and, if thought fit, to pass the following resolutions, with or without amendments, as Ordinary Resolutions:

#### 9. Authority to Issue Shares

"That, pursuant to Section 161 of the Companies Act, Cap. 50 and the rules, guidelines and measures issued by the Singapore Exchange Securities Trading Limited ("**SGX-ST**"), authority be and is hereby given to the Directors of the Company to:

- (A) (i) allot and issue shares in the capital of the Company whether by way of rights, bonus or otherwise;
  - (ii) make or grant offers, agreements, or options (collectively, "**Instruments**") that might or would require shares to be issued, including but not limited to the creation and issue of (as well as adjustments to) warrants, debentures or other instruments convertible into shares,
  - (iii) issue additional Instruments arising from adjustments made to the number of Instruments previously issued in the event of rights, bonus or capitalization issues,
    - at any time and upon such terms and conditions and for such purposes and to such persons as the Directors may in their absolute discretion deem fit; and

(B) (notwithstanding the authority conferred by this Resolution may have ceased to be in force) issue Shares in pursuance of any Instruments made or granted by the Directors while this Resolution was in force,

#### provided that:

- (a) the aggregate number of shares to be issued pursuant to this Resolution (including shares to be issued in pursuance of Instruments made or granted pursuant to this Resolution) does not exceed 50 per cent of the total number of issued shares excluding treasury shares and subsidiary holdings (as calculated in accordance with sub-paragraph (b) below), and provided further that where shareholders of the Company are not given the opportunity to participate in the same on a pro rata basis, then the aggregate number of shares to be issued under such circumstances (including shares to be issued in pursuance of Instruments made or granted pursuant to this Resolution) does not exceed 20 per cent of the total number of issued shares excluding treasury shares and subsidiary holdings (as calculated in accordance with subparagraph (b) below); and
- (b) (subject to such manner of calculation and adjustments as may be prescribed by the SGX-ST) for the purpose of determining the aggregate number of shares that may be issued under sub-paragraph (a) above, the percentage of issued shares shall be based on the total number of issued shares (excluding treasury shares and subsidiary holdings) in the capital of the Company at the time this Resolution is passed, after adjusting for:
  - (i) new shares arising from the conversion or exercise of convertible securities;
  - (ii) (where applicable) new shares arising from exercising share options or vesting of share awards outstanding or subsisting at the time of the passing of this Resolution, provided the options or awards were granted in compliance with the Listing Manual of the SGX-ST; and
  - (iii) any subsequent bonus issue, consolidation or subdivision of shares;
- (c) in exercising the authority conferred by this Resolution, the Company shall comply with the rules, guidelines and measures issued by the SGX-ST for the time being in force (unless such compliance has been waived by the SGX-ST) and the Constitution for the time being of the Company; and
- (d) (unless revoked or varied by the Company in general meeting) the authority conferred by this Resolution shall continue in force until the conclusion of the next Annual General Meeting of the Company or the date by which the next Annual General Meeting of the Company is required by law to be held, whichever is the earlier."

[See Explanatory Note (iii)]

(Resolution 7)

By Order of the Board

Sin Chee Mei Company Secretary

Singapore, 7 April 2021

### Notice of Annual General Meeting (Cont'd)

#### **EXPLANATORY NOTES:**

- (i) Mr Lee Kin Hong will, upon re-election as a Director of the Company, remain as a Non-Executive and Non-Independent Director of the Company. Detailed information on Mr Lee Kin Hong can be found under the "Board of Directors", "Corporate Governance Report" and "Disclosure of information on Directors seeking re-election" sections in the Company's Annual Report.
- (ii) Mr Lee Chou Hor George will, upon re-election as a Director of the Company, remain as a Non-Executive and Non-Independent Director of the Company. Detailed information on Mr Lee Chou Hor George can be found under the "Board of Directors", "Corporate Governance Report" and "Disclosure of information on Directors seeking re-election" sections in the Company's Annual Report.
- (iii) Ordinary Resolution 7 proposed in item 9 above, if passed, will authorize and empower the Directors from the date of the Annual General Meeting until the date of the next Annual General Meeting, to issue further shares and to make or grant convertible securities convertible into shares, and to issue shares in pursuance of such instruments, up to an amount not exceeding in aggregate 50 per cent of the total number of issued shares including treasury shares and subsidiary holdings of which the total number of shares and convertible securities issued other than on a pro-rata basis to existing shareholders shall not exceed 20 per cent of the total number of issued shares excluding treasury shares and subsidiary holdings of the Company at the time the resolution is passed, for such purposes as they consider would be in the interests of the Company. This authority will, unless revoked or varied at a general meeting, expire at the next Annual General Meeting of the Company or by the date by which the next Annual General Meeting of the Company is required by law to be held, whichever is earlier.

#### **NOTES:**

- 1. The Annual General Meeting of the Company ("Meeting" or "AGM") is being convened, and will be held, by way of electronic means pursuant to First Schedule of the COVID-19 (Temporary Measures) (Alternative Arrangements for Meetings for Companies, Variable Capital Companies, Business Trusts, Unit Trusts and Debenture Holders) Order 2020. Printed copies of this Notice of AGM will not be sent to members of the Company. Instead, this Notice of AGM will be sent to members of the Company by electronic means via publication on SGXNET and the Company's corporate website at <a href="http://hotelroyal.listedcompany.com/home.html">http://hotelroyal.listedcompany.com/home.html</a>.
- 2. Alternative arrangements relating to attendance at the Meeting via electronic means (including arrangements by which the Meeting can be electronically accessed via live audio-visual webcast and live audio-only stream, submission of questions in advance of the Meeting, addressing of substantial and relevant questions, are set out in the Company's announcement dated 7 April 2021 (the "Announcement"), which has been uploaded together with the Notice of AGM on SGXNET on the same day. The Announcement may also be assessed at <a href="http://hotelroyal.listedcompany.com/home.html">http://hotelroyal.listedcompany.com/home.html</a>. For the avoidance of doubt, the aforesaid section is circulated together with and forms part of this Notice of AGM in respect of the Meeting.
- 3. Due to the current Covid-19 restriction order in Singapore, members will not be able to attend the AGM in person. Members (whether individual or corporate) must appoint the Chairman of the Meeting as his/her/its proxy to attend, speak and vote on his/her/its behalf at the Meeting, if such member wishes to exercise his/her/its voting rights at the Meeting. In appointing the Chairman of the Meeting as proxy, members of the Company (whether individual or corporate) must give specific instructions as to voting, or abstentions from voting, in the form of proxy, failing which the appointment will be treated as invalid.
- 4. The Chairman of the Meeting, as proxy, need not be a member of the Company.
- 5. The instrument appointing the Chairman of the Meeting as a proxy, together with the power of attorney or other authority under which it is signed (if applicable) or a notarial certified copy thereof, must:
  - (i) If submitted by email, be received by the Company's Share Registrar, B.A.C.S. Private Ltd. at main@zicoholdings. com; or
  - (ii) If submitted by post, be lodged at the registered office of the Company at Hotel Royal Limited, 36 Newton Road, Singapore 307964,

In either case, by 2:30 p.m. on 21 April 2021 (being not less than seventy-two (72) hours before the time appointed for holding the Meeting) (or any adjournment thereof) and in default the instrument of proxy shall not be treated as valid.

In view of the current COVID-19 situation and the related safe distancing measures, members of the Company are strongly encouraged to submit completed proxy forms electronically via email.

- 6. This instrument appointing the Chairman of the Meeting as proxy must be under the hand of the appointor or on his/her attorney duly authorized in writing. Where the instrument appointing the Chairman of the Meeting as proxy is executed by a corporation, it must be executed either under its common seal or under the hand of its attorney or duly authorized officer, failing which the instrument of proxy may be treated as invalid.
- 7. For investors who hold Shares in the capital of the Company under Supplementary Retirement Scheme ("SRS Investors"), this proxy form is not valid for their use and shall be ineffective for all intents and purposes if used or purported to be used by them. SRS Investors who wish to appoint the Chairman of the Meeting to act as their proxy should approach their respective SRS Operators to submit their votes at least seven (7) workings days before the Meeting.

#### PERSONAL DATA PRIVACY

By submitting an instrument appointing the Chairman of the meeting to attend, speak and vote at the AGM and/or any adjournment thereof, or (b) submitting details for the registration to observe and/or listen to the proceedings of the AGM via live audio-visual webcast or live audio-only stream, or (c) submitting any question prior to the AGM, a member of the Company (i) consents to the collection, use and disclosure of the member's personal data by the Company (or its agents) for the purpose of the processing and administration by the Company (or its agents) or proxy forms appointing the Chairman as proxy of the AGM (including any adjournment thereof) and the preparation and compilation of the attendance lists, proxy lists, minutes and other documents relating to the AGM (including any adjournment thereof), and processing of the registration for purpose of granting access to members (or their corporate representatives in the case of members which are legal entities) to observe and/or listen to the proceedings of the AGM via live audio-visual webcast or live audioonly stream and providing any technical assistance where necessary, addressing relevant and substantial questions from members received before and/or during the AGM and if necessary, following up with the relevant members in relation to such questions and enabling the company to comply with any applicable laws, listing rules, regulations and/or guidelines (collectively, the "Purposes"); Photographic, sound, and/or video recordings of the AGM may be made by the Company for record keeping and to ensure the accuracy of the minutes prepared of the AGM. Accordingly, the personal data of the member of the Company (such as his/her name, his/her presence at the AGM and any questions he/she may raise or motions he/she propose/second) may be recorded by the Company for such purpose.

### ANNUAL GENERAL MEETING PROXY FORM

#### IMPORTANT

- 1. Due to the current Covid-19 restriction orders in Singapore, a member will not be able to attend the AGM in person. A member must appoint the Chairman of the Meeting as his/her/its proxy to attend, speak and vote on his/her/its behalf at the AGM if such shareholder wishes to exercise his/her/its voting rights at the AGM.
- Alternative arrangements relating to attendance at the AGM via electronic means, submission of questions in advance of the Meeting and voting by appointing the Chairman of the Meeting as proxy at the AGM, are set out in this Notice of AGM.
- 3. Please read the notes to the proxy form which contain instructions on, inter alia, the appointment of the Chairman of the Meeting as a member's proxy to attend, speak and vote on his/her behalf at the AGM.

#### **NOTES**

- 1. Please insert the total number of Shares held by you. If you have Shares entered against your name in the Depository Register (as defined in Section 81SF of the Securities and Futures Act, Chapter 289 of Singapore), you should insert that number of Shares. If you have Shares registered in your name in the Register of Members, you should insert that number of Shares. If no number is inserted, the instrument appointing a proxy or proxies shall be deemed to relate to all the Shares held by you.
- 2. Due to the current COVID-19 restriction orders in Singapore, members will not be able to attend the AGM in person. A member (whether individual or corporate) must appoint the Chairman of the Meeting as his/her/its proxy to attend, speak and vote on his/ her/its behalf at the AGM if such member wishes to exercise his/her/its voting rights at the AGM. In appointing the Chairman of the Meeting as proxy, a member (whether individual or corporate) must give specific instructions as to voting, or abstentions from voting, in respect of a resolution in the form of proxy, failing which the appointment of the Chairman of the Meeting as proxy for that resolution will be treated as invalid.
- 3. This Proxy Form must be read in conjunction with the Company's announcement dated 7 April 2021. This Proxy Form may be accessed at the Company's website at http://hotelroyal.listedcompany.com/home.html and will also be made available on SGXNet. A printed copy this Proxy Form will not be despatched to members.
- 4. The Chairman of the Meeting, as proxy, need not be a member of the Company.
- 5. The instrument appointing the Chairman of the Meeting as a proxy, together with the power of attorney or other authority under which it is signed (if applicable) or a notarial certified copy thereof, must be submitted in the following manner:
  - (i) if submitted by email, be received by the Company's Share Registrar, B.A.C.S. Private Ltd. at main@zicoholdings. com: or
  - (ii) if submitted by post, be lodged at the Registered Office of the Company at Hotel Royal Limited, 36 Newton Road, Singapore 307964

In either case, by 2:30 p.m. on 21 April 2021, being not less than seventy-two (72) hours before the time appointed for holding the Meeting (or any adjournment thereof) and in default the instrument of proxy shall not treated as valid.

In view of the current COVID-19 situation and the related safe distancing measures which may make it difficult for members of the Company to submit completed proxy forms by post, members of the Company are strongly encouraged to submit completed proxy forms electronically via email.

- 6. The instrument appointing the Chairman of the Meeting as a proxy must be under the hand of the appointor or his attorney duly authorised in writing. Where the instrument appointing Chairman of the Meeting as a proxy is executed by a corporation, it must be executed either under its seal or under the hand of its attorney or a duly authorised officer. The dispensation of the use of common seal pursuant to the Companies Act, Chapter 50 of Singapore effective from 30 March 2017 is applicable at this AGM.
- 7. For investors who hold Shares in the capital of the Company under Supplementary Retirement Scheme ("SRS Investors"), this proxy form is not valid for their use and shall be ineffective for all intents and purposes if used or purported to be used by them. SRS Investors who wish to appoint the Chairman of the Meeting to act as their proxy should approach their respective SRS Operators to submit their votes at least seven (7) workings days before the Meeting.
- 8. The Company shall be entitled to reject the instrument appointing the Chairman of the Meeting as a proxy which is incomplete, improperly completed, illegible or where the true intentions of the appointor are not ascertainable from the instructions of the appointer specified in the instrument appointing the Chairman of the Meeting as a proxy. In addition, in the case of shares entered in the Depository Register, the Company may reject any instrument appointing the Chairman of the Meeting as a proxy lodged if the member being the appointer, is not shown to have shares entered against his name in the Deposit Register as at 72 hours before the time appointed for holding the Annual General Meeting, as certified by the Central Depository (Pte) Limited to the Company.

#### PERSONAL DATA PRIVACY

By submitting an instrument appointing the Chairman of the Meeting as a proxy to vote at the Meeting and/or any adjournment thereof, a member of the Company accepts and agrees to the personal data privacy terms set out in the Notice of Annual General Meeting dated 7 April 2021.
