CORPORATE PROFILE

ELECTRONICS MANUFACTURING SERVICES SOLUTIONS

PCI Limited ("PCI") delivers manufacturing services to a global customer base. Our business is to create competitive advantage for our customers through helping them bring products to market in the quickest possible time, at the right price and performance point, and with the highest quality. Every day PCI provides complete manufacturing supply chain services to leading global technology companies.

Whether we are helping to facilitate the launch of new products, or enhancing the competitiveness of existing projects, PCI offers services at all points in the manufacturing outsourcing cycle. These include design, manufacturing engineering, material sourcing and procurement, assembly, test and logistics. PCI's aim is to add value at each step in the supply chain.

The manufacturing we are engaged in encompasses printed circuit board assembly, user interface panel and complete box-build projects. Examples of projects are networking and wireless communications products, home appliances products, display modules for mobile communications products, user interface panels for computer peripherals and a broad range of medical, industrial and automotive products.

PCI'S COMPETENCIES

PCI's primary strength is the dedication of our employees and their knowledge of all aspects of electronics manufacturing. Combined with a network of technology and supply chain partners we deliver a high quality service. With more than thirty years of experience in providing manufacturing solutions, we have a clear understanding of customer's technology and supply chain needs. PCI has its headquarters in Singapore.

We also house our Design & Development Centre, Quality Engineering Laboratory and Manufacturing Engineering Centre in Singapore. PCI has manufacturing facilities in Batam, Indonesia and Shanghai, China. We have the flexibility and capacity to meet the most demanding requirements from low volume to high volume projects, including high value and high product mix needs.

Our design team provides product manufacturability and test solutions for any stage from between initial design concepts, through to helping facilitate the final touches to a new product. Design engineers interact closely with customer counterparts on all technical aspects of projects with a constant exchange of information and design suggestions.

CORPORATE PROFILE (cont'd)

Design activities are based in fully equipped design centres in Singapore and Philippines. Our experience includes radio frequency, global positioning system, liquid crystal module, control panel, printed circuit board and mechanical design.

Manufacturing capabilities consist of a range of medium to high volume surface mount technology (SMT) assembly lines, test and X-ray inspection machines and 50 wire bonding machines, with up to date demonstrated competencies for 01005, chip scale package (CSP), chip on board, chip on flex and chip on glass component assembly. PCI has significant manual assembly (conveyor belt system and cell manufacturing system) capacity to complete medium to high volume module level, or full box build assembly.

PCI provides rapid development of test protocol, and automated test stations for many functional test applications including telecommunications, networking and RF technologies. Our particular strength is in the design and assembly of jigs and fixtures for product test requirements.

SUPPLY CHAIN MANAGEMENT

PCI's materials operations take care of our customer's total material requirements, encompassing global procurement, purchasing, and material management. PCI's purchasing leverage helps to secure complete bill of materials in time to meet our customers' product launches and shipment deadlines.

Our procurement team works globally and frequently visits suppliers to evaluate quality, technology and deliverability capabilities. The development of long-term relationships with suppliers allows us to provide customers the support they need to source and procure electronic components and mechanical parts at highly competitive prices. Materials management takes care of the planning and purchasing needs for on time delivery and at the same time controls carefully the customer's material procurement commitment and logistics. When supply problems surface, we will pro-actively offer alternative solutions, including product redesign to replace end of life, costly, or scarce components.

QUALITY

Since receiving our ISO 9002 certification in early 1993, PCI has actively pursued continuous improvement to our management system through standardisation. Today, our Singapore HQ and Indonesian factories are certified to the latest versions of quality management systems of ISO 9001:2008, ISO/TS 16949:2009 (automotive products), and ISO 13485:2012 (medical products). Our China factory is also certified to ISO 9001:2008. In order to further enhance our management system, we have embarked on the Business Excellence journey through the Singapore Standards, Productivity and Innovation Board (SPRING) Singapore Quality Class (SQC) certification in 2012.

CORPORATE PROFILE (cont'd)

PCI believe in sustainability and we have sound policies and processes in dealing with our environmental impacts, occupational health and safety risks, and labour and ethics issues. We are certified to ISO 14001:2004 and OHSAS 18001:2007. PCI has utilised Singapore Building and Construction Authority (BCA) Green Mark scheme, and this culminated with our Singapore HQ building being awarded with Gold Award for Existing Building in 2013.

Being an innovative product design partner to our blue-chip customers, we are convinced that quality has to be built into products. Hence, the testing and reliability analysis during the design and development phases are crucial. We are able to provide reliability prediction (MTBF), and failure mode and effect criticality analysis (FMECA) for our designers and hence aid in the reliability growth of the product. We are proficient in conducting various design verification tests (DVT) at our in-house laboratory. In addition, we have a long-standing relationship with TUV-SUD Singapore to conduct a comprehensive suite of environmental qualification tests (EQT) and electromagnetic compatibility tests (EMC) to ensure excellent product reliability.

A DEDICATED PARTNER

PCI is a secure and dependable long-term partner. Our experience in supplying manufacturing solutions to the most

demanding global customers is an assurance that PCI can get the job done. Customers frequently compliment us on providing a responsive and individual service regardless of the size of the project and PCI has been conferred numerous awards by happy and satisfied customers.

It's easy to work with PCI; customers have ready access to key individuals in Singapore, and support from local marketing personnel. Communications advances and our regular experience of working late into the night, help eliminate time zone differences. Once a program starts, a dedicated program manager will ensure a smooth transition from initiation through to manufacturing. We have a "can do" attitude and are pro-active in working towards the best solution for our customers.

PCI was listed on the Sesdaq of the Singapore Exchange Securities Trading Limited (the "SGX-ST") in May 1992 and transferred to the Mainboard of the SGX-ST in May 1995.

CHAIRMAN'S STATEMENT

PEH KWEE CHIM
Executive Chairman

FINANCIAL REVIEW

In FY15, we achieved a revenue of USD 189.37 million as compared to USD 178.80 million in the previous year. The net profit attributable to shareholders was USD 20.19 million as compared to USD 5.70 million in the previous year.

The Group's financial position remained strong. As at 30 June 2015, total assets and total liabilities were USD 130.97 million and USD 44.38 million respectively. Earnings per share was 10.14 US cents bringing the total net asset value per ordinary share as at 30 June 2015 to 43.47 US cents.

DIVIDEND

The Board is pleased to recommend a first and final tax exempt one-tier dividend of 3 SG cents and a special tax exempt one-tier dividend of 2 SG cents per ordinary share for the year.

OPERATIONAL REVIEW

EMS Activities

In FY15, EMS revenue was USD 184.61 million and profit before tax from operations was USD 6.47 million. This represented a 6% increase in revenue and a 56% increase in profit from operations over FY14. The improvement in performance was commendable in view of the challenging business environment the Company operated in.

During the financial year, global electronic OEMs continued to experience weak end-market demand. It affected several of our

customers which in turn led to a reduction in sales compared to the last financial year. Despite the uncertain business and operating conditions, we saw the launch of new projects into mass production from our key customers. This in turn contributed to the overall increase in EMS revenue as compared to the previous year.

Our constant efforts in improving our advanced engineering know-how have kept us relevant to the present and future product development needs of our customers. Over the last one year, we continued to see key customers tapping our advanced engineering expertise in their product design. This was to support their future product launches in the field of vehicle telematics system and fitness equipment. This was in line with our goal to manufacture more design content projects. As a result of our engineering and manufacturing capabilities, we were engaged by a US company to manufacture a box-build product which comprised both electronics and mechatronics parts. This further enlarged our product portfolio.

On the operating front, we faced pressure to increase wages in Indonesia and China, but the impact was not significant. We continued to implement new productivity initiatives in our manufacturing processes to counter labour cost pressure. In addition, through the use of software tools and active collaboration work with our suppliers, we kept our overall operations efficient and remained competitive to our customers.

CHAIRMAN'S STATEMENT

Over the last twelve months, we started to set up a new manufacturing facility in Kunshan, China. We plan to relocate our current Shanghai operations to Kunshan in the next financial year. The 10,000 square metre Kunshan facility is a larger facility compared to the existing Shanghai site. In the 4th quarter of the year, we acquired a factory in Batam. The plan is to merge our two existing Batam plants to one in the next financial year. With the new facilities in Kunshan and Batam, we are poised to support our EMS growth objective.

Estate Management Activities

In FY15, estate management and rental activities achieved revenue of USD 4.54 million compared to USD 4.43 million in the previous year, whereas profit before tax jumped to USD 15.46 million from USD 1.97 million last year. At the operating level, profit from operations was comparable to FY14. The Group booked a gain of USD 13.43 million during the financial year from the disposal of its leasehold property at Jalan Ahmad Ibrahim in Singapore. The Group acquired a new building in the 4th quarter of the financial year and will move its headquarters to the new site in FY16.

OUTLOOK

The global economic outlook for the next six to twelve months remains challenging. US moderate economic growth could be outweighed by the uncertainty in the Eurozone and China financial market volatility and its slowing economy. The Directors remain cautious about the Group's business outlook for the next six to twelve months. Nevertheless, the Group will continue to focus on

improving its operating efficiencies and invest in technical know-how and manufacturing setup to support its long-term goals and objectives.

ACKNOWLEDGEMENT

I am very pleased to welcome Mr Ho Soo Ching to our Board. Mr Ho joined the Board as a Non- Executive and Independent Director on 3 November 2014. Mr Ho brings with him a wealth of experience in the financial services industry as well as the telecommunications and civil engineering sectors. We will benefit greatly from his global operations knowledge and business expertise.

On behalf of the Board of Directors, I would like to express our appreciation to our customers, business partners and shareholders for their continuing support and confidence in PCI. Last but not least, I would like to thank our Management and staff for their dedication and tireless efforts throughout the year.

CORPORATE GOVERNANCE REPORT

PCI is committed to maintaining high standards of corporate governance to ensure greater transparency and maximise long-term shareholder value.

This report describes PCI's main corporate governance practices for the financial year ended 30 June 2015 with reference to the guidelines of the Singapore Code of Corporate Governance 2012 (the "Code"). Where there is any material deviation from any principle of the Code, an explanation has been provided within the Report.

BOARD MATTERS

The Board's Conduct of Affairs (Principle 1)

The Board oversees the business and affairs of the Group. It provides leadership and guidance to Management, sets strategic objectives and ensures that the necessary financial and human resources are in place for the Company to meet its objectives and reviews Management performance. The Board establishes a framework of prudent and effective controls which enables risks to be assessed and managed. The Board also sets the Company's values and standards, and ensures that obligations to its shareholders and other key stakeholders are understood and met.

The Board is responsible for the Group's overall performance objectives, key operational initiatives, financial plans and annual budget, major investments, divestments and funding proposals, quarterly and full year financial performance reviews, risk management and corporate governance practices. Each Director exercises his independent judgement to act in good faith and the best interest of the Company to enhance the long-term value of the Group to its shareholders.

The Board is supported by the Board Committees established to assist the Board in discharging its responsibilities of overseeing the Group's affairs and enhancing corporate governance. These Committees are the Audit Committee, the Remuneration Committee and the Nominating Committee.

The Board meets on a regular basis. Where necessary, additional Board meetings are held to deliberate on any ad hoc significant matters. An aggregate of 4 Board meetings were held for the financial year ended 30 June 2015. The Directors' attendance at Board meetings and meetings of the various Board Committees during the financial year ended 30 June 2015 are as follows:

CORPORATE GOVERNANCE REPORT

Notes:

- (1) Ms Tey Swee Nai, Nancy retired from the Board and as the Chairman of the Audit Committee and a member of the Remuneration and Nominating Committees on 24 October 2014.
- (2) Mr Ho Soo Ching was appointed as a Non-Executive, Independent Director, the Chairman of the Audit Committee and a member of the Remuneration and Nominating Committees on 3 November 2014.

The Company has in place a set of internal controls and guidelines that sets out finance authorisation and approval limits for borrowings, investments, acquisitions, disposals, capital and operating expenditures and expenses. The Board approves transactions exceeding certain threshold limits, while delegating authority for transactions below those limits to Management to facilitate operational efficiency.

Management briefs new Directors on the Company's business and strategic directions, as well as governance practices. The Company conducts site visits for new Directors. Formal letters are issued to newly-appointed Directors upon their appointment, including details of their duties and responsibilities as Directors. As part of training for the Board, Directors are briefed either during Board and Board Committee meetings or at specially convened sessions on changes to regulations and accounting standards, as well as industry related matters. Where appropriate, Directors are sent for conferences and seminars in relevant fields. Articles and reports relevant to the Group's business are also circulated to the Directors for information.

Board Composition and Guidance (Principle 2)

The Board currently comprises 5 Directors, 2 of whom are Non-Executive, Independent Directors, 1 of whom is a Non-Executive Director and 2 of whom are Executive Directors. The Non-Executive, Independent Directors are Mr Lo Pang Foo Steven and Mr Ho Soo Ching. The Non-Executive Director is Mr Loh Kee Kong. The Executive Directors are Mr Peh Kwee Chim and Mr Peh Siong Woon Terence. The Nominating Committee assesses the independence of the Directors annually and the Board having taken into account the views of the Nominating Committee, considered Mr Lo Pang Foo Steven and Mr Ho Soo Ching to be independent under the guidelines provided by the Code.

The Directors bring with them a broad range of expertise and experience in areas such as accounting and finance, law, business and management and industry knowledge. The diversity of the Directors' experience allows for the useful exchange of ideas and views and strategic planning experience.

Chairman and Chief Executive Officer (Principle 3)

Different individuals assume the Chairman and the Chief Executive Officer functions in PCI. There is a clear separation of the roles and responsibilities between the Chairman and the Chief Executive Officer. The Chairman's responsibilities include chairing the Board meetings and guiding the Board on its discussions on significant issues. The Chief Executive Officer is responsible for the day-to-day management of the business and the overall performance of the Group. The Chairman and the Chief Executive Officer are not related.

Lead Independent Director (Principle 3)

In line with the recommendations set out in the Code, the Company has appointed Mr Lo Pang Foo Steven as the Lead Independent Director. He is available to shareholders if they have concerns relating to matters that contact through the normal channels of the Chairman, the Chief Executive Officer or the Senior Vice President, Finance has failed to resolve or where such contact is inappropriate.

Board Membership (Principle 4)

The Nominating Committee comprises Mr Lo Pang Foo Steven (Committee Chairman), Mr Peh Kwee Chim and Mr Ho Soo Ching (appointed on 3 November 2014), the majority of whom, including the Chairman, are Non-Executive, Independent Directors. Ms Tey Swee Nai, Nancy served as a member of the Nominating Committee until 24 October 2014.

CORPORATE GOVERNANCE REPORT

The Nominating Committee's functions include reviewing Board succession plans for Directors, evaluating the performance of the Board, Board Committees and Directors, considering and making recommendations to the Board concerning the appointment and re-election of and determining the independence of the Directors. The role and functions of the Nominating Committee are set out in its Terms of Reference.

When selecting new Directors, the Nominating Committee takes into consideration the skills and experience required and the current composition of the Board, and strives to ensure that the Board has an appropriate balance of independent Directors as well as Directors with the right profile of expertise, skills, attributes and experience.

In evaluating a Director's contribution and performance for the purpose of re-election, the Nominating Committee takes into consideration a variety of factors such as attendance, preparedness, participation and candour.

At each Annual General Meeting ("AGM") of the Company, not less than one third of the Directors for the time being (being those who have been longest in office since their last re-election) are required to retire from office by rotation. A retiring Director is eligible for re-election by the shareholders of the Company at the AGM. Also, all newly appointed Directors during the year will hold office only until the next AGM and will be eligible for re-election. Directors above 70 years of age are subject to annual re-appointment.

Key information on the Directors is set out on pages 7 and 8 of this Annual Report.

The Nominating Committee has reviewed the contribution by each Director taking into account their listed company board representations and other principal commitments. As the Directors have given sufficient time, effort and attention to the affairs of the Company, notwithstanding their other directorships and other principal commitments, the Nominating Committee and the Board are of the view that there is no necessity to regulate the maximum number of listed company board representations that the Directors may hold.

Board Performance (Principle 5)

The Board has implemented a process carried out by the Nominating Committee, for assessing the effectiveness of the Board as a whole, effectiveness of its Board Committees and the contribution by each individual Director to the effectiveness of the Board on an annual basis. The performance evaluation process covers a range of issues including size and composition of the Board and Board Committees, information management, decision-making, processes, risk and crisis management, communication with Senior Management and stakeholder management. The evaluation and feedback are then consolidated and presented to the Board for discussion on strengths and weaknesses to improve the effectiveness of the Board and its Committees.

Access to Information (Principle 6)

The Directors are provided with Board papers and related materials, background or explanatory information in advance of each Board Meeting to enable them to be properly informed of matters to be discussed and/or approved, as well as ongoing reports relating to operational and financial performance of the Group. The Board has separate and independent access to Senior Management and the Company Secretary at all times. The Company Secretary also assists the Chairman by ensuring good information flows within the Board and its Committees, and between the Management and the Non-Executive Directors. The Company Secretary attends all Board Meetings, and her appointment or removal is subject to the Board's approval.

The Board also has access to independent professional advice, if necessary, at the expense of PCI.

REMUNERATION MATTERS (Principles 7, 8 and 9)

The Remuneration Committee comprises Mr Lo Pang Foo Steven (Committee Chairman), Mr Loh Kee Kong and Mr Ho Soo Ching (appointed on 3 November 2014), all of whom are Non-Executive Directors and the majority of whom, including the Chairman, are Independent Directors. Ms Tey Swee Nai, Nancy served as a member of the Remuneration Committee until 24 October 2014.

CORPORATE GOVERNANCE REPORT

The duties of the Remuneration Committee include the following:

- (a) Review and recommend to the Board for endorsement, a framework of remuneration for the Board and key management personnel. The framework covers all aspect of remuneration, including but not limited to director's fees, salaries, allowances, bonuses and benefits in kind;
- (b) Review and recommend to the Board for endorsement, the specific remuneration packages for each Director, as well as for the key management personnel; and
- (c) Review the level and mix of remuneration and benefits, policies and practices of the Company.

The role and functions of the Remuneration Committee are set out in its Terms of Reference, which set out its authorities and duties.

The objective of the Group's remuneration policy is to ensure that the level and structure of the remuneration are aligned with the long-term interests and risk policies of the Company, and that the remuneration is able to attract, retain and motivate the Board to provide good stewardship of the Company and Senior Management to successfully manage the Company and Group as a whole.

The remuneration packages of the key management personnel of the Group generally comprise two components. One component is fixed in the form of a base salary that includes the 13th month based AWS. The other component is variable consisting of performance bonus. The variable portion is largely dependent on the financial performance of the Group and individual performance. The Remuneration Committee strongly supports and endorses the flexible wage system because it gives the Company more flexibility to ride through economic downturns. The Remuneration Committee has adopted set profitability levels to be achieved before performance bonuses are payable. The Remuneration Committee believes that profitability levels best reflect the financial health and performance of the Group's business and is also a key performance measure used by other companies in similar industry.

Presently, the Company does not have any share option scheme.

For financial year ended 30 June 2015, there were no termination, retirement and post-employment benefits granted to Directors, the Chief Executive Officer and the top five key management personnel (who are not Directors or the Chief Executive Officer).

Non-Executive Directors are paid a fixed fee, taking into account the effort, time spent and responsibilities of each Non-Executive Director. The fees of Non-Executive Directors are subject to shareholders' approval at the AGM. Executive Directors do not receive any Directors' fees.

Having reviewed and considered the variable components of remuneration of the Executive Directors and key management personnel, which are moderate, the Remuneration Committee is of the view that there is no requirement to institute contractual provisions in the terms of employment to reclaim incentive components of their remuneration in exceptional circumstances of misstatement of financial results or of misconduct resulting in financial loss to the Company.

The Directors' and the Chief Executive Officer's remuneration is disclosed in bands of USD250,000. The remuneration of the top five key management personnel in the Group (who are not Directors or the Chief Executive Officer of the Company) is shown in bands of USD250,000. Due to the sensitivity and confidentiality of remuneration matters, the Board is of the view that it is in the best interests of the Company not to fully disclose the remuneration of each individual Director, the Chief Executive Officer and the top five key management personnel (who are not Directors or the Chief Executive Officer) and the aggregate total remuneration paid to the top five key management personnel (who are not Directors or the Chief Executive Officer).

No employee of the Company and its subsidiaries was an immediate family member of a Director or the Chief Executive Officer and whose remuneration exceeded USD50,000 during the financial year ended 30 June 2015.

CORPORATE GOVERNANCE REPORT

ACCOUNTABILITY AND AUDIT

Accountability (Principle 10)

The Board through its timely release of the Company's quarterly and full year results, aims to provide shareholders with a balanced and understandable assessment of the Company's performance, position and prospects. The Board also ensures timely and full disclosure of material corporate developments to shareholders.

PCI recognises the importance of providing the Board with a continual flow of relevant information on an accurate and timely basis in order that it may effectively discharge its duties. On a regular basis, Board members are provided with business and financial reports comparing actual performance with budget with highlights on key business indicators and major issues.

Risk Management and Internal Controls (Principles 11 & 13)

The Company does not have an internal audit function. The Board is ultimately responsible for the governance of the Group's risk management and internal controls. The Board and Management of the Company are fully committed to maintaining sound risk management and internal control systems to safeguard shareholders' interests and the Group's assets.

The Board determines the Company's levels of risk tolerance and risk policies, and oversees Management in the design, implementation and monitoring of the risk management and internal control systems.

The Company has implemented a Risk Management Framework for the identification, assessment, monitoring and reporting of financial, operational, information technology and compliance risks. A system of risk management and internal controls are in place to address, manage or mitigate these risks. On an annual basis, Management reviews the adequacy and effectiveness of the Company's risk management and internal control systems, including financial, operational, compliance and information technology controls and updates the Board. In addition, material control weaknesses over financial reporting, if any, are highlighted by the external auditor in the course of the statutory audit.

All audit findings and recommendations made by the external auditor are reported to the Audit Committee and significant findings are discussed at the Audit Committee meetings. Management follows up on all recommendations to ensure timely remediation of audit issues and reports the status to the Audit Committee.

The Board has received assurance from the Chief Executive Officer and the Senior Vice President, Finance that:

- (a) The financial records of the Group have been properly maintained and the financial statements for the year ended 30 June 2015 give a true and fair view of the Group's operations and finances; and
- (b) The system of risk management and internal controls in place within the Group is adequate and effective in addressing the material risks in the Group in its current business environment including material financial, operational, compliance and information technology risks.

Based on the risk management and internal controls established and maintained by the Group, work performed by the external auditor, and reviews performed by Management and the Board Committees as well as the assurance received from the Chief Executive Officer and the Senior Vice President, Finance, the Board, with the concurrence of the Audit Committee, is of the opinion that the Group's risk management systems and internal controls were adequate and effective as at 30 June 2015 to address financial, operational, compliance and information technology risks, which the Group considers relevant and material to its operations.

The Board notes that the system of risk management and internal controls established by the Group provides reasonable, but not absolute, assurance that the Group will not be adversely affected by any event that can be reasonably foreseen as it strives to achieve its business objectives. In this regard, the Board also notes that no system of risk management and internal controls can provide absolute assurance against the occurrence of material errors, poor judgement in decision-making, human error, losses, fraud or other irregularities.

CORPORATE GOVERNANCE REPORT

Audit Committee (Principle 12)

Up to 24 October 2014, the Audit Committee chaired by Ms Tey Swee Nai, Nancy, comprised three Non-Executive Directors, the majority of whom are independent. The other members of the Audit Committee are Mr Loh Kee Kong and Mr Lo Pang Foo Steven. Mr Ho Soo Ching, the current Audit Committee Chairman, was appointed on 3 November 2014. Mr Ho Soo Ching and Mr Loh Kee Kong have accounting or related financial management expertise and experience. The Board considers Mr Lo Pang Foo Steven as having sufficient financial knowledge and experience to discharge his responsibility as a member of the Committee.

The role of the Audit Committee is documented in its Terms of Reference, which define the purpose, authority and responsibilities of the Audit Committee.

The Audit Committee meets at least four times a year. The Audit Committee's duties include the following:

- (a) Review with the external auditor the audit plan including the nature and scope of the audit before its commencement, their evaluation of the system of internal accounting controls, their report on the audit of the year end financial statements and consider the effectiveness of actions or policies taken by Management on the recommendations and observations;
- (b) Review significant financial reporting issues and judgements so as to ensure the integrity of the financial statements of the Company and any formal announcements relating to the Company's financial performance. This includes review of quarterly and annual financial statements before submission to the Board for its approval;
- (c) Review the assistance given by Management to the external auditor;
- (d) Review the independence and objectivity of the external auditor;
- (e) Review the nature and extent of non-audit services performed by the external auditor;
- (f) Review the adequacy and effectiveness of the Company's internal controls, including financial, operational, compliance and information technology controls and risk management;
- (g) Meet with the external auditor without the presence of Management at least annually;
- (h) Investigate any matter which falls within the Audit Committee's Terms of Reference, having full access to and co-operation by Management and the full discretion to invite any Director or executive officer to attend its meetings, and reasonable resources to enable it to discharge its functions properly;
- (i) Review interested persons' transactions falling within the scope of Chapter 9 of the Listing Manual of the SGX-ST;
- (j) Make recommendations to the Board on the appointment/re-appointment/removal of the external auditor, and approve the audit fees and terms of engagement of the external auditor; and
- (k) Review arrangements by which staff of the Company and any other persons may, in confidence, raise concerns about possible improprieties in matters of financial reporting or other matters, so as to ensure that arrangements are in place for the independent investigation of such matters and for appropriate follow up action.

Some of the Company's subsidiaries, are audited by different auditors. The names of these auditors are listed on page 62 of the Annual Report. The Board and the Audit Committee are satisfied that the appointment of these auditors would not compromise the standard and effectiveness of the audit of the Group. Accordingly, the Board confirms that Rule 712 and Rule 715 read with Rule 716 of the SGX-ST Listing Manual have been complied with.

The Audit Committee has nominated Messrs Ernst & Young LLP for re-appointment as auditor of the Company at the forthcoming Annual General Meeting.

There were no non-audit services provided by the external auditor to the Group in FY2015. Accordingly, no non-audit fees were paid to the external auditor in FY2015. This is set out in the notes to the financial statements, together with the amount of fees paid to the external auditor in FY2015 in respect of audit services. As such, the Audit Committee was satisfied with the independence and objectivity of the external auditor.

CORPORATE GOVERNANCE REPORT

Changes to accounting standards and accounting issues which have a direct impact on the financial statements were reported to the Audit Committee, and highlighted by the external auditor in their meetings with the Audit Committee.

- (2) ET Designers Pte Ltd is controlled by Mr Peh Lawrence Teck-Woon, who is the son of Mr Peh Kwee Chim and the brother of Mr Peh Siong Woon Terence.

Whistleblowing Policy

The Company has implemented a whistleblowing policy, which serves to encourage and provide a channel to staff and third parties to report in good faith and in confidence, without fear of reprisals, concerns about possible wrongdoing or breach of applicable laws, regulations, policies or other matters. The objectives for such arrangement is to ensure independent investigation of such matters and for appropriate follow-up action. A whistleblower may report concerns about possible improprieties directly to the Chairman of the Audit Committee under confidential mail.

SHAREHOLDERS RIGHTS AND RESPONSIBILITIES

Shareholder Rights, Communication with Shareholders and Conduct of Shareholder Meetings (Principles 14, 15 and 16)

The Company communicates information to shareholders and the investing community through announcements that are released to the SGX-ST via SGXNET. Such announcements include the quarterly and full year results, material transactions, and other developments relating to the Group requiring disclosure under the corporate disclosure policy of the SGX-ST. The Company also maintains a website at www.pciltd.com.sg where the public can access information on the Group.

Shareholders are invited to attend, participate and vote at the general meetings. The notice of meetings is given within the stipulated timeline and the shareholders are informed of the relevant rules and voting procedures of the meetings.

The Company fully supports shareholders' participation at Annual General Meetings and Extraordinary General Meetings. Shareholders are informed of general meetings through published notices, reports and circulars sent to all shareholders. The notice of general meeting, which sets out all items of business to be transacted at the general meeting, is also released via SGXNET and published in The Business Times.

CORPORATE GOVERNANCE REPORT

A shareholder who is entitled to attend and vote may either vote in person or in absentia through the appointment of one or more proxies (who can either be named individuals nominated by the shareholder to attend the meeting or the Chairman of the meeting as the shareholder may select). The Company's Articles of Association allow a shareholder of the Company to appoint up to two proxies to attend and vote in place of the shareholder. Voting in absentia by mail, facsimile or email is currently not permitted to ensure proper authentication of the identity of shareholders and their voting intent.

The Company's main forum for dialogue and interaction with shareholders takes place at its Annual General Meeting, where the members of the Board, the Chairman of each Board Committees, Senior Management and the external auditor are in attendance. At the Annual General Meeting, shareholders are given the opportunity to air their views and ask questions regarding the Company.

The Board ensures that there are separate resolutions at general meetings of the Company. The external auditor is also present to address shareholders' queries on the conduct of audit and the preparation and content of the auditor's report.

The Company prepares detailed minutes of general meetings, which include substantive comments or queries from shareholders and responses from the Chairman, Board Members and Management. These minutes are available to shareholders upon their request.

To ensure transparency, the Company puts all resolutions at general meetings to vote by electronic poll voting and announces the detailed results showing the number of votes cast for and against each resolution and the respective percentage. The polling results are also announced on the SGX-ST and the Company's website.

The Company's policy on the payment of dividends (excluding special dividends) is to endeavour – barring unforeseen circumstances – to pay up to fifty percent (50%) of net profit after tax. In considering the level of dividend payments, the Board takes into account various factors including the level of available cash, the return on equity and retained earnings and projected level of capital expenditure and other investment plans.

Dealings in Securities

The Group has clear internal guidelines for dealings in securities by Directors and employees. PCI's Directors and employees are prohibited from dealing in PCI's shares for the period of two weeks prior to the announcement of quarterly results and a period of one month prior to the announcement of year-end results. In addition, Directors and employees are prohibited from dealing in PCI's shares on short-term considerations and/or while in possession of unpublished material price-sensitive information relating to PCI shares.

CONCLUSION

The Company recognises the importance of good corporate governance practices for maintaining and promoting investor confidence. The Company will continue to review and improve its corporate governance practices on an ongoing basis.

DIRECTORS' REPORT

Audit committee

The Audit Committee carried out its functions in accordance with Section 201B(5) of the Companies Act, Chapter 50 of Singapore and the Singapore Exchange Securities Trading Limited Listing Manual. The functions carried out are detailed in the Corporate Governance Report, which is included in the Company's Annual Report for the financial year ended 30 June 2015.

The Audit Committee has full access to and has the co-operation of management and has been given the resources required for it to discharge its functions properly. It also has full discretion to invite any director and executive officer to attend its meetings. The external auditor has unrestricted access to the Audit Committee.

The Audit Committee, having reviewed all non-audit services provided by the external auditor to the Group, is satisfied that the nature and extent of such services would not affect the independence of the external auditor. The Audit Committee has also conducted a review of interested person transactions.

Auditor

Ernst & Young LLP have expressed their willingness to accept re-appointment as auditor.

INDEPENDENT AUDITOR'S REPORT

To the Members of PCI Limited

Report on the financial statements

We have audited the accompanying financial statements of PCI Limited (the "Company") and its subsidiaries (collectively, the "Group") set out on pages 28 to 72, which comprise the balance sheets of the Group and the Company as at 30 June 2015, the income statements, statements of comprehensive income, statements of changes in equity of the Group and the Company and the consolidated cash flow statement of the Group for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's responsibility for the financial statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the provisions of the Singapore Companies Act, Chapter 50 (the "Act") and Singapore Financial Reporting Standards, and for devising and maintaining a system of internal accounting controls sufficient to provide a reasonable assurance that assets are safeguarded against loss from unauthorised use or disposition; and transactions are properly authorised and that they are recorded as necessary to permit the preparation of true and fair financial statements and to maintain accountability of assets.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Singapore Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements of the Group and the balance sheet, statement of changes in equity, income statement and statement of comprehensive income of the Company are properly drawn up in accordance with the provisions of the Act and Singapore Financial Reporting Standards so as to give a true and fair view of the financial position of the Group and the Company as at 30 June 2015 and of the financial performance, changes in equity and cash flows of the Group and the changes in equity of the Company for the year ended on that date.

Report on other legal and regulatory requirements

In our opinion, the accounting and other records required by the Act to be kept by the Company and by those subsidiary corporations incorporated in Singapore of which we are the auditor have been properly kept in accordance with the provisions of the Act.

NOTES TO THE FINANCIAL STATEMENTS

For the Financial Year ended 30 June 2015

1. General information

PCI Limited (the "Company") is a limited liability company incorporated and domiciled in the Republic of Singapore, with its principal place of business and registered office at 386 Jalan Ahmad Ibrahim, Singapore 629156. The Company is listed on the Singapore Exchange Securities Trading Limited. The Company's holding company is Chuan Hup Holdings Limited, incorporated in the Republic of Singapore.

The principal activities of the Company are providing electronics manufacturing services and investment holding. There has been no significant change in the nature of these activities from the previous financial year.

The principal activities of the subsidiaries are disclosed in Note 14 to the financial statements.

2. Summary of significant accounting policies

2.1 *Basis of preparation*

The consolidated financial statements of the Group, the balance sheet, income statement, statement of comprehensive income and statement of changes in equity of the Company have been prepared in accordance with Singapore Financial Reporting Standards ("FRS").

The financial statements have been prepared on a historical cost basis except as disclosed in the accounting policies below.

The financial statements are presented in United States dollars ("USD" or "US\$") which is the functional currency of the Group and all values in the tables are rounded to the nearest thousand ("US\$'000") as indicated.

2.2 *Changes in accounting policies*

The accounting policies adopted are consistent with those of the previous financial year except in the current financial year, the Group has adopted all the new and revised standards and Interpretations of FRS ("INT FRS") that are effective for annual periods beginning on or after 1 July 2014. The adoption of these standards and interpretations did not have any effect on the financial performance or position of the Group and the Company.

NOTES TO THE FINANCIAL STATEMENTS

For the Financial Year ended 30 June 2015

2. Summary of significant accounting policies (cont'd)

2.3 *Standards issued but not yet effective*

The Group has not adopted the following standards and interpretations that have been issued but not yet effective:

Description	Effective for annual periods beginning on or after
FRS 114 <i>Regulatory Deferral Accounts</i>	1 January 2016
Amendments to FRS 1 <i>Disclosure Initiative</i>	1 January 2016
Amendments to FRS 110, FRS 112 and FRS 28 <i>Investment Entities: Applying the Consolidation Exception</i>	1 January 2016
Amendments to FRS 16 <i>Property, Plant and Equipment</i> and FRS 41 <i>Agriculture: Bearer Plants</i>	1 January 2016
Amendments to FRS 27 <i>Equity Method in Separate Financial Statements</i>	1 January 2016
Amendments to FRS 16 and FRS 38 <i>Clarification of Acceptable Methods of Depreciation and Amortisation</i>	1 January 2016
Amendments to FRS 111 <i>Accounting for Acquisitions of Interest in joint Operations</i>	1 January 2016
Amendments to FRS 110 and FRS 28 <i>Sale or Contribution of Assets between an Investor and Its Associate or Joint Venture</i>	1 January 2016
Improvements to FRSs (November 2014)	
(a) Amendments to FRS 105 <i>Non-Current Assets Held for Sale and Discontinued Operations</i>	1 January 2016
(b) Amendments to FRS 107 <i>Financial Instruments: Disclosures</i>	1 January 2016
(c) Amendments to FRS 19 <i>Employee Benefits</i>	1 January 2016
(d) Amendments to FRS 34 <i>Interim Financial Reporting</i>	1 January 2016
FRS 115 <i>Revenue from Contracts with Customers</i>	1 January 2017
FRS 109 <i>Financial Instruments</i>	1 January 2018

Except for FRS 115, the directors expect that the adoption of the other standards and interpretations above will have no material impact on the financial statements in the period of initial application. The nature of the impending changes in accounting policy on adoption of FRS 115 is described below:

FRS 115 *Revenue from Contracts with Customers*

FRS 115 establishes a new five-step model that will apply to revenue arising from contracts with customers. Under FRS 115 revenue is recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. The principles in FRS 115 provide a more structured approach to measuring and recognising revenue. The new revenue standard is applicable to all entities and will supersede all current revenue recognition requirements under FRS. Either a full or modified retrospective application is required for annual periods beginning on or after 1 January 2017 with early adoption permitted. The Group is currently assessing the impact of FRS 115.

2.4 *Basis of consolidation and business combinations*

(a) *Basis of consolidation*

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries as at the end of the reporting period. The financial statements of the subsidiaries used in the preparation of the consolidated financial statements are prepared for the same reporting period as the Company. Consistent accounting policies are applied to like transactions and events in similar circumstances.

All intra-group balances, income and expenses and unrealised gains or losses resulting from intra-group transactions and dividends are eliminated in full.

NOTES TO THE FINANCIAL STATEMENTS

For the Financial Year ended 30 June 2015

2. Summary of significant accounting policies (cont'd)

2.4 *Basis of consolidation and business combinations (cont'd)*

(a) *Basis of consolidation (cont'd)*

Subsidiaries are consolidated from the date of acquisition, being the date on which the Group obtains control and continue to be consolidated until the date that such control ceases.

Losses within a subsidiary are attributed to the non-controlling interests even if that results in a deficit balance.

A change in the ownership interest of a subsidiary, without a loss of control is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

- Derecognises the assets (including goodwill) and liabilities of the subsidiary at their carrying amounts at the date when controls are lost;
- Derecognises the carrying amount of any non-controlling interests;
- Derecognises the cumulative translation differences recorded in equity;
- Recognises the fair value of the consideration received;
- Recognises the fair value of any investment retained;
- Recognises any surplus or deficit in profit or loss; or
- Re-classifies the Group's share of components previously recognised in other comprehensive income to profit or loss or retained earnings, as appropriate.

(b) *Business combinations*

Business combinations are accounted for by applying the acquisition method. Identifiable assets acquired and liabilities assumed in a business combination are measured initially at their fair value at the acquisition date. Acquisition-related costs are recognised as expenses in the periods in which the costs are incurred and the services are received.

Any contingent consideration to be transferred by the acquirer will be recognised at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration which is deemed to be an asset or liability, will be recognised in profit or loss.

The Group elects for each individual business combination, whether non-controlling interest in the acquiree (if any), that are present ownership interests and entitle their holders to a proportionate share of net assets in the event of liquidation, is recognised on the acquisition date at fair value, or at the non-controlling interest's proportionate share of the acquiree's identifiable net assets. Other components of non-controlling interests are measured at their acquisition date fair value, unless another measurement basis is required by another FRS.

Any excess of the sum of the fair value of the consideration transferred in the business combination, the amount of non-controlling interest in the acquiree (if any), and the fair value of the Group's previously held equity interest in the acquiree (if any), over the net fair value of the acquiree's identifiable assets and liabilities is recorded as goodwill. In instances where the latter amount exceeds the former, the excess is recognised as gain on bargain purchase in profit or loss on the acquisition date.

NOTES TO THE FINANCIAL STATEMENTS

For the Financial Year ended 30 June 2015

2. Summary of significant accounting policies (cont'd)

2.5 *Transactions with non-controlling interests*

Non-controlling interests represents the equity in subsidiaries not attributable, directly or indirectly to owners of the Company and is presented separately in the consolidated statement of comprehensive income and within equity in the consolidated balance sheet, separately from equity attributable to owners of the Company.

Changes in the Company owners' ownership interests in a subsidiary that do not result in a loss of control are accounted for as equity transactions. In such circumstances, the carrying amount of the controlling and non-controlling interests is adjusted to reflect the changes in their relative interests in its subsidiary. Any differences between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

2.6 *Foreign currencies*

The Group's consolidated financial statements are presented in USD, which is also the Company's functional currency. Each entity in the Group determines its own functional currency and items included in the consolidated financial statements of each entity are measured using that functional currency.

(a) *Transactions and balances*

Transactions in foreign currencies are measured in the respective functional currencies of the Company and its subsidiaries and are recorded on initial recognition in the functional currencies at exchange rates approximating those ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies are translated at the rate of exchange ruling at the end of the reporting period. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

Exchange differences arising on the settlement of monetary items or on translating monetary items at the end of the reporting period are recognised in profit or loss except for exchange differences arising on monetary items that form part of the Group's net investments in foreign operations, which are recognised initially in other comprehensive income and accumulated under foreign currency translation reserve in equity. On disposal of the foreign operation, the cumulative amount of exchange differences deferred in other comprehensive income relating to that foreign operation is recognised in profit or loss as a component of the gain or loss on disposal.

(b) *Consolidated financial statements*

For consolidation purpose, the assets and liabilities of foreign operations are translated into USD at the rate of exchange ruling at the end of the reporting period and their profit or loss were translated at the average rate of the reporting period. The exchange differences arising on the translation are recognised in other comprehensive income. On disposal of a foreign operation, the component of other comprehensive income relating to that particular foreign operation is recognised in profit or loss.

In the case of a partial disposal without loss of control of a subsidiary that includes a foreign operation, the proportionate share of the cumulative amount of the exchange differences are re-attributed to non-controlling interests and are not recognised in profit or loss. For partial disposals of associates or jointly controlled entities that are foreign operations, the proportionate share of the accumulated exchange differences is reclassified to profit or loss.

2.7 *Property, plant and equipment*

All items of property, plant and equipment are initially recorded at cost. Such cost includes the cost of replacing part of the property, plant and equipment and borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying property, plant and equipment. The cost of an item of property, plant and equipment is recognised as an asset if, and only if, it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably.

NOTES TO THE FINANCIAL STATEMENTS

For the Financial Year ended 30 June 2015

2. Summary of significant accounting policies (cont'd)

2.7 *Property, plant and equipment (cont'd)*

Subsequent to recognition, all items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses, if any. When significant parts of property, plant and equipment are required to be replaced in intervals, the Group recognises such parts as individual assets with specific useful lives and depreciation, respectively. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the property, plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in profit or loss as incurred.

Depreciation is computed on a straight-line basis over the estimated useful lives of the assets as follows:

Leasehold improvements	-	Over the remaining lease term
Plant and equipment	-	3 years to 10 years
Motor vehicles	-	5 years

The carrying values of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying values may not be recoverable.

The residual value, estimated useful life and depreciation method are reviewed at each financial year end and adjusted prospectively, if appropriate.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefit is expected from its use or disposal. Any gains or losses on derecognition of the asset is included in profit or loss in the financial year the asset is derecognised.

2.8 *Prepaid lease payment*

The prepaid lease payment is initially measured at cost. Following initial recognition, prepaid lease payment is measured at cost less accumulated amortisation. The prepaid lease payment is amortised on a straight-line basis. Amortisation is computed on a straight-line basis over the period as follows:

Prepaid lease payment	-	Over the remaining lease term
-----------------------	---	-------------------------------

2.9 *Club membership*

Club membership was acquired separately and is not amortised as its useful life is infinite. The club membership is tested for impairment annually or more frequently if the events and circumstances indicate that the carrying values may be impaired. The useful life of club membership is reviewed annually to determine whether the useful life assessment continues to be supportable. If not, the change in useful life from infinite to finite is made on a prospective basis.

2.10 *Inventories*

Inventories are stated at the lower of cost and net realisable value. Cost comprises direct materials, direct labour costs and those production overheads, where applicable, that have been incurred in bringing the inventories to that present location and condition. Cost is calculated using the moving weighted average method. Net realisable value represents the estimated selling price in the ordinary course of business, less all estimated costs to completion and costs to be incurred in marketing, selling and distribution.

In arriving at net realisable values, allowances are made when necessary for obsolete, slow-moving and defective stocks.

2.11 *Subsidiaries*

A subsidiary is an investee that is controlled by the Group. The Group controls an investee when it is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

In the Company's separate financial statements, investments in subsidiaries are accounted for at cost less impairment losses.

NOTES TO THE FINANCIAL STATEMENTS

For the Financial Year ended 30 June 2015

2. Summary of significant accounting policies (cont'd)

2.12 *Impairment of non-financial assets*

The Group assesses at the end of each reporting period whether there is an indication that an asset may be impaired. If any such indication exists, or when an annual impairment assessment for an asset is required, the Group makes an estimate of the asset's recoverable amount.

An asset's recoverable amount is the higher of an asset's or cash-generating unit's fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets. Where the carrying amount of an asset in cash-generating unit exceeds its recoverable amount, the asset is considered impaired and is written-down to its recoverable amount. In assessing value in use, the estimated future cash flows expected to be generated by the asset are discounted to their present values using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs to sell, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded subsidiaries or other available fair value indicators.

Impairment losses of continuing operations are recognised in profit or loss in those expense categories consistent with the function of the impaired asset, except for assets that are previously revalued where the revaluation was taken to other comprehensive income. In this case the impairment is also recognised in other comprehensive income up to the amount of any previous revaluation.

Assessment is made at the end of each reporting period as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the Group estimates the asset's or cash-generating unit's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increase cannot exceed the carrying amount that would have been determined, net of depreciation had no impairment loss been recognised previously. Such reversal is recognised in profit or loss unless the asset is measured at revalued amount, in which case the reversal is treated as a revaluation increase.

2.13 *Financial assets*

Initial recognition and measurement

Financial assets are recognised when, and only when, the Group becomes a party to the contractual provisions of the financial instrument. The Group determines the classification of its financial assets at initial recognition.

When financial assets are recognised initially, they are measured at fair value, plus in the case of financial assets not at fair value through profit or loss, directly attributable transaction costs.

Subsequent measurement

The subsequent measurement of financial assets depends on their classifications as follows:

(a) Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss include financial assets held-for-trading and financial assets designated upon initial recognition at fair value through profit or loss. Financial assets are classified as held-for-trading if they are acquired for the purpose of selling or repurchasing in the near term. This category includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by FRS 39. Derivatives, including separated embedded derivatives are also classified as held-for-trading unless they are designated as effective hedging instruments.

The Group may only designate an instrument at fair value through profit or loss upon initial recognition when the following criteria are met and the designation is determined on an instrument by instrument basis:

- The designation eliminates or significantly reduces the inconsistent treatment that would otherwise arise from measuring the assets or liabilities or recognising gains or losses on them on a different basis;

NOTES TO THE FINANCIAL STATEMENTS

For the Financial Year ended 30 June 2015

2. Summary of significant accounting policies (cont'd)

2.13 *Financial assets* (cont'd)

Subsequent measurement (cont'd)

(a) Financial assets at fair value through profit or loss (cont'd)

- The assets and liabilities are part of a group of financial assets, financial liabilities or both which are managed and their performances evaluated on a fair value basis, in accordance with a documented risk management or investment strategy; or
- The financial instrument contains one or more embedded derivatives which significantly modify the cash flows that otherwise would be required by the contract.

Subsequent to initial recognition, financial assets at fair value through profit or loss are measured at fair value. Any gains or losses arising from changes in fair value of the financial assets are recognised in profit or loss. Net gains or net losses on financial assets at fair value through profit or loss includes exchange differences, interests and dividend income.

Derivatives embedded in host contracts are accounted for as separate derivatives and recorded at fair value if their economic characteristics and risks are not closely related to those of the host contracts and the host contracts are not held-for-trading or designated at fair value through profit or loss. These embedded derivatives are measured at fair value with changes in fair value recognised in profit or loss. Reassessment only occurs if there is a change in the terms of the contract that significantly modifies the cash flows that would otherwise be required.

(b) Loans and receivables

Non-derivative financial assets with fixed or determinable payments that are not quoted in an active market are classified as loans and receivables. Subsequent to initial recognition, loans and receivables are measured at amortised cost using the effective interest method, less impairment. Gains or losses are recognised in profit or loss when the loans and receivables are derecognised or impaired and through the amortisation process. The Group and the Company's loans and receivables comprise cash and bank balances, trade receivables, other receivables and amounts due from subsidiaries.

De-recognition

A financial asset is derecognised where the contractual right to receive cash flows from the asset has expired. On de-recognition of a financial asset in its entirety, the differences between the carrying amount and the sum of the consideration received and any cumulative gains or losses that have been recognised in other comprehensive income are recognised in profit or loss.

All regular way purchases and sales of financial assets are recognised or de-recognised on the trade date i.e., the date that the Group commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace concerned.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is presented in the balance sheets, when and only when, there is a currently enforceable legal right to set off the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

NOTES TO THE FINANCIAL STATEMENTS

For the Financial Year ended 30 June 2015

2. Summary of significant accounting policies (cont'd)

2.14 *Impairment of financial assets*

The Group assesses at the end of each reporting period whether there are any objective evidence that a financial asset is impaired:

(a) *Financial assets carried at amortised cost*

For financial assets carried at amortised cost, the Group first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant, or collectively for financial assets that are not individually significant. If the Group determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is, or continues to be recognised are not included in a collective assessment of impairment.

If there is objective evidence that an impairment loss on financial assets carried at amortised cost has been incurred, the amounts of the loss is measured as the differences between the asset's carrying amount and the present values of estimated future cash flows discounted at the financial asset's original effective interest rate. If a loan has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate. The carrying amount of the asset is reduced through the use of an allowance account. The impairment loss is recognised in profit or loss.

When the asset becomes uncollectible, the carrying amount of impaired financial assets is reduced directly or if an amount was charged to the allowance account, the amounts charged to the allowance account are written-off against the carrying values of the financial assets.

To determine whether there is objective evidence that an impairment loss on financial assets has been incurred, the Group considers factors such as the probability of insolvency or significant financial difficulties of the debtor and default or significant delay in payments.

If in a subsequent period, the amounts of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed to the extent that the carrying amount of the asset does not exceed its amortised cost at the reversal date. The amount of reversal is recognised in profit or loss.

(b) *Financial assets carried at cost*

If there is objective evidence (such as significant adverse changes in the business environment where the issuer operates, probability of insolvency or significant financial difficulties of the issuer) that an impairment loss on financial assets carried at cost has been incurred, the amount of the loss is measured as the differences between the asset's carrying amount and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment losses are not reversed in subsequent periods.

2.15 *Cash and cash equivalents*

Cash and cash equivalents comprise cash at bank and on hand and deposits with financial institutions which are subject to an insignificant risk of changes in value.

2.16 *Provisions*

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of economic resources will be required to settle the obligation and the amount of the obligation can be estimated reliably.

Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of economic resources will be required to settle the obligation, the provisions are reversed. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability. When discounting is used, the increase in the provisions due to the passage of time is recognised as a finance cost.

NOTES TO THE FINANCIAL STATEMENTS

For the Financial Year ended 30 June 2015

2. Summary of significant accounting policies (cont'd)

2.17 *Financial liabilities*

Initial recognition and measurement

Financial liabilities are recognised when, and only when, the Group becomes a party to the contractual provisions of the financial instrument. The Group determines the classification of its financial liabilities at initial recognition.

All financial liabilities are recognised initially at fair value and in the case of financial liabilities not at fair value through profit or loss, directly attributable transaction costs.

Subsequent measurement

The measurement of financial liabilities depends on their classifications as follows:

(a) Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held-for-trading and financial liabilities designated upon initial recognition at fair value through profit or loss. Financial liabilities are classified as held-for-trading if they are acquired for the purpose of selling in the near term. This category includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships. Separated embedded derivatives are also classified as held-for-trading unless they are designated as effective hedging instruments.

Subsequent to initial recognition, financial liabilities at fair value through profit or loss are measured at fair value. Any gains or losses arising from changes in fair value of the financial liabilities are recognised in profit or loss.

The Group has not designated any financial liabilities upon initial recognition at fair value through profit or loss.

(b) Financial liabilities that are not carried at fair value through profit or loss

After initial recognition, financial liabilities that are not carried at fair value through profit or loss are subsequently measured at amortised cost using the effective interest rate method. Gains or losses are recognised in profit or loss when the liabilities are derecognised and through the amortisation process. The Group and the Company's financial liabilities measured at amortised cost comprise trade and other payables and amounts due to related companies.

De-recognition

A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expired. When an existing financial liability is replaced by another from the same lender on substantially different terms or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a de-recognition of the original liability and the recognition of a new liability and the differences in the respective carrying amount is recognised in profit or loss.

2.18 *Employee benefits*

(a) *Defined contribution plan*

The Group participates in the national pension schemes as defined by the laws of the countries which it has operations. In particular, the Singapore companies in the Group make contributions to the Central Provident Fund ("CPF") scheme in Singapore, a defined contribution pension scheme. Contributions to defined contribution pension schemes are recognised as an expense in the financial period in which the related service is performed.

(b) *Employee leave entitlement*

Employee entitlements to annual leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave as a result of services rendered by employees up to the end of the reporting period.

2. Summary of significant accounting policies (cont'd)

2.19 Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured, regardless of when the payment is made. Revenue is measured at the fair value of consideration received or receivable, excluding discounts, rebates and sales taxes or duties. The Group has assessed its revenue arrangements to determine if it is acting as principal or agent. The Group has concluded that it is acting as a principal in all of its revenue arrangements. The following specific revenue recognition criteria must also be met before revenue is recognised:

(a) Sale of goods

Revenue from sale of goods is recognised upon the transfer of significant risk and rewards of ownership of the goods to the customers usually on delivery of goods. Revenue is not recognised to the extent where there are significant uncertainties regarding recovery of the consideration due, associated costs or the possible return of goods.

(b) Rendering of services

Revenue from services is recognised when service is rendered.

(c) Rental income

Rental income arising from operating leases on leasehold property is accounted for on a straight-line basis over the lease terms. The aggregate costs of incentives provided to lessees are recognised as a reduction of rental income over the lease term on a straight-line basis.

(d) Dividend income

Dividend income from investments is recognised when the Group's right to receive payment is established.

(e) Interest income

Interest income is recognised using the effective interest method.

2.20 Taxes

(a) Current income tax

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantially enacted by the end of the reporting period, in the countries where the Group operates and generates taxable income.

Current income taxes are recognised in profit or loss except to the extent that the tax relates to items recognised outside profit or loss, either in other comprehensive income or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

(b) Deferred tax

Deferred tax is provided using the liability method on temporary differences at the end of the reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all temporary differences, except:

- where the deferred tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and

NOTES TO THE FINANCIAL STATEMENTS

(b) *Deferred tax* (cont'd)

- in respect of taxable temporary differences associated with investments in subsidiaries, an associate and interests in joint ventures, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilised except:

- where the deferred tax asset relating to the deductible temporary differences arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of deductible temporary differences associated with investments in subsidiaries, an associate and interests in joint ventures, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be utilised.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the financial year when the asset is realised or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the end of the reporting period.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss. Deferred tax items are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity and deferred tax arising from a business combination is adjusted against goodwill on acquisition.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set-off current income tax assets against current income tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

(c) *Sales tax*

Revenues, expenses and assets are recognised net of the amount of sales tax except:

- Where the sales tax incurred in a purchase of assets or services is not recoverable from the taxation authority, in which case the sales tax is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable; and
- Receivables and payables that are stated with the amount of sales tax included.

The net amount of goods and services tax ("GST") and value added tax ("VAT") recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheets.

2.21 *Share capital and share issuance expenses*

Proceeds from issuance of ordinary shares are recognised as share capital in equity. Incremental costs directly attributable to the issuance of ordinary shares are deducted against share capital.

NOTES TO THE FINANCIAL STATEMENTS

For the Financial Year ended 30 June 2015

2. Summary of significant accounting policies (cont'd)

2.22 Leases

The determination of whether an arrangement is, or contains a lease is based on the substance of the arrangement at inception date: whether fulfilment of the arrangement is dependent on the use of a specific asset or assets or the arrangement conveys a right to use the asset even if that right is not explicitly specified in an arrangement. For arrangements entered into prior to 1 January 2005, the date of inception is deemed to be 1 January 2005 in accordance with the transitional requirements of INT FRS 104.

(a) *As lessee*

Finance leases, which transfer to the Group substantially all the risks and rewards incidental to ownership of the leased item are capitalised at the inception of the lease at the fair value of the leased asset, or, if lower, at the present value of the minimum lease payments. Any initial direct costs are also added to the amount capitalised. Lease payments are apportioned between the finance charges and reduction of the lease liability so as to achieve a constant rate of interests on the remaining balance of the liability. Finance charges are charged to profit or loss. Contingent rents, if any, are charged as expenses in the financial periods in which they are incurred.

Capitalised leased assets are depreciated over the shorter of the estimated useful life of the asset and the lease term, if there is no reasonable certainty that the Group will obtain ownership by the end of the lease term.

Operating lease payments are recognised as an expense in profit or loss on a straight-line basis over the lease term. The aggregate benefit of incentives provided by the lessor is recognised as a reduction of rental expense over the lease term on a straight-line basis.

(b) *As lessor*

Leases where the Group retains substantially all the risks and rewards of ownership of the assets are classified as operating leases. Initial direct costs incurred in negotiating an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. The accounting policy for rental income is set out in Note 2.19 to the financial statements. Contingent rents are recognised as revenue in the financial period in which they are earned.

2.23 Segment reporting

For management purposes, the Group is organised into operating segments based on their products and services which are independently managed by the respective segment managers responsible for the performance of the respective segments under their charge. The segment managers report directly to the management of the Company who regularly review the segment results in order to allocate resources to the segments and to assess the segment performance. Additional disclosures on each of these segments are shown in Note 27 to the financial statements, including the factors used to identify the reportable segments and the measurement basis of segment information.

2.24 Related parties

A related party is defined as follows:

- (a) A person or a close member of that person's family is related to the Group and Company if that person:
 - (i) Has control or joint control over the Company;
 - (ii) Has significant influence over the Company; or
 - (iii) Is a member of the key management personnel of the Group or the Company or of a parent of the Company.

2.24 *Related parties (cont'd)*

- (b) An entity is related to the Group and the Company if any of the following conditions applies:
- (i) The entity and the Company are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others);
 - (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member);
 - (iii) Both entities are joint ventures of the same third party;
 - (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity;
 - (v) The entity is a post-employment benefit plan for the benefit of employees of either the Company or an entity related to the Company. If the Company is itself such a plan, the sponsoring employers are also related to the Company;
 - (vi) The entity is controlled or jointly controlled by a person identified in (a); or
 - (vii) A person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).

3. Significant accounting estimates and judgements

The preparation of the Group's consolidated financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosures of contingent liabilities at the end of the reporting period. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in the future periods.

Judgements made in applying accounting policies

Management is of the opinion that there are no critical judgements involved that have a significant effect on the amounts recognised in the financial statements (apart from those involving estimations, which are dealt with below).

Key sources of estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of each reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

(a) *Impairment assessment for plant and equipment*

Management performed an impairment assessment for plant and equipment held by a cash-generating unit ("CGU"). The recoverable amount of plant and equipment are determined based on value in use. The value in use calculation is based on a discounted cash flow model. The cash flows are derived from the budget for the next five years. The recoverable amount is most sensitive to the discount rate used for the discounted cash flow model as well as the expected future cash inflows. If discount rate had been 5% higher than management's estimates, with all other variables held constant, the recoverable amount would have been US\$773,000 lower. No impairment was recognised as the recoverable amount of CGU is higher than its carrying value.

For the Financial Year ended 30 June 2015

3. Significant accounting estimates and judgements (cont'd)

Key sources of estimation uncertainty (cont'd)

(b) *Allowance for inventories*

The Group and the Company review its inventory levels in order to identify slow moving and obsolete merchandise. Where the Group and the Company identify items of inventory that had net realisable value that is lower than its carrying amount, the Group and the Company estimate the amounts of inventory loss as allowance on inventory. Management is satisfied that adequate allowance for slow moving and obsolete merchandise has been made in the financial statements. The carrying amounts of inventories as at financial year end are disclosed in Note 11 to the financial statements.

(c) *Taxation*

Significant judgement is involved in determining the Group and the Company's provision for taxation. There are certain transactions and computations for which the ultimate tax determination is uncertain during the ordinary course of business. The Group and the Company recognises liabilities for expected tax issues based on the estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recognised, such differences will impact the income tax provisions in the financial period in which such determination is made.

The carrying amount of the Group's income tax payable and deferred tax liabilities as at 30 June 2015 was US\$2,559,000 and US\$324,000 (2014: US\$1,966,000 and US\$335,000), respectively. The carrying amount of the Company's income tax payable and deferred tax liabilities as at 30 June 2015 was US\$1,911,000 and US\$324,000 (2014: US\$1,566,000 and US\$335,000), respectively.

4. Financial instruments, financial risk and capital management

(a) *Categories of financial instruments*

The following table sets out the financial instruments at the end of the reporting period:

	Group		Company	
	2015	2014	2015	2014

(b) *Financial risk management policies and objectives*

Risk management is integral to the whole business of the Group and the Company. The management continually monitors the Group's and the Company's risk management process to ensure that an appropriate balance between risk and control is achieved. Risk management policies and systems are reviewed regularly to reflect changes in the market conditions and the Group's and the Company's activities.

There has been no change to the Group's and the Company's exposure to these financial risks or the manner in which it manages and measures the risk. Market risk exposures were measured using sensitivity analysis indicated below:

(b) *Financial risk management policies and objectives (cont'd)*

(i) *Credit risk*

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Group and the Company. The Group's and the Company's exposure to credit risk arises primarily from trade receivables and other receivables. The Group and the Company have adopted a policy of only dealing with recognised and creditworthy counterparties. Trade receivables consist of a large number of customers, spread across Asia Pacific, Europe and North America.

The Group and the Company perform ongoing credit evaluations of its customers' financial conditions and generally does not require collateral. This evaluation includes assessing and valuation of customers' credit reliability and periodic review of their financial status to determine credit limits to be granted.

The Group and the Company do not have any significant credit risk exposure to any single counterparty or any group of counterparties having similar characteristics.

The carrying amount of financial assets recorded in the financial statements, represents the Group's and the Company's maximum exposure to credit risk without taking account of the value of any collateral obtained.

Further details of credit risks on trade receivables and other receivables are disclosed in Notes 7 and 8, respectively to the financial statements.

Cash and fixed deposits are held with creditworthy financial institutions.

(ii) *Interest rate risk*

Interest rate risk is the risk that the fair value or future cash flows of the Group's and the Company's financial instruments will fluctuate because of changes in market interest rates. Summary quantitative data of the Group's and the Company's interest bearing financial instruments can be found in Section b(iv) of this note.

The Group's and the Company's portfolio of interest linked structured deposits bear fixed interest rate, which is subject to performance of underlying funds and is considered minimal since these are capital protected.

No sensitivity analysis is prepared as the Group and the Company do not expect any material effect on the Group's and the Company's profit or loss arising from the effects of reasonably possible changes to interest rates on interest bearing financial instruments at the end of the reporting period.

(iii) *Foreign currency risk*

Foreign currency risk arises from commercial transactions, recognised assets and liabilities and net investments in foreign operations where the commercial transaction or recognised assets and liabilities are denominated in a currency other than the respective functional currencies of Group entities and the Company. The Group's foreign exchange exposures give rise to market risk associated with exchange rate movements against the US\$, the Group's functional and reporting currency.

The Group and the Company use forward contracts to hedge their exposures to foreign currency risk in the local reporting currency. Further details of the forward contracts are found in Note 10 to the financial statements.

(b) *Financial risk management policies and objectives (cont'd)*

(iii) *Foreign currency risk (cont'd)*

At the end of the reporting period, the material carrying amount of monetary assets and monetary liabilities, including intercompany balances denominated in currencies other than the respective group entities' functional currencies are as follows:

	Group				Company			
	Assets		Liabilities		Assets		Liabilities	
	2015	2014	2015	2014	2015	2014	2015	2014

Chinese yuan	5,157	4,713	–	–	4,843	4,713	–	–
Euro	–	–	68	220	–	–	68	220

The Company has a number of investments in foreign subsidiaries, whose net assets are exposed to currency translation risk. The Group does not currently designate its foreign currency denominated debt as a hedging instrument for the purpose of hedging the translation of its foreign operations.

The following table details the sensitivity to a 5% increase/(decrease) in the relevant functional currencies against the foreign currency of each group entity. 5% is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items (excluding derivative financial instruments) and adjusts their translations at the period end for a 5% change in foreign currency rates. The sensitivity analysis includes loans to foreign operations within the Group where the denomination of the loan is in a currency other than the currency of the lender or the borrower.

If the relevant functional currency of each group entity weakens by 5% against the foreign currencies, profit before income tax for the financial year will increase/(decrease) by:

A 5% strengthening of the relevant foreign currency against the functional currency of each group entity would have resulted in an equal but opposite effect on the financial statements of the Group and the Company, on the basis that all other variables remain constant.

(iv) *Liquidity risk*

Liquidity risk refers to the risk in which the Group and the Company are unable to meet its short-term obligations and this arises from the possibility that customers may not be able to settle their obligations within the normal terms of trade. Liquidity risk is managed by matching the payment and receipt cycle. Management is of the opinion that liquidity risk is minimal as the Group and the Company have sufficient funds generated through operations to meet funding requirements and adequate lines of credit are also maintained to ensure the necessary liquidity.

Liquidity risk analysis

Non-derivative financial liabilities

All financial liabilities of the Group and the Company are repayable on demand or due within one year.

Non-derivative financial assets

The following table details the expected maturity for non-derivative financial assets. The inclusion of information on non-derivative financial assets is necessary in order to understand the Group's and the Company's liquidity risk management as the Group's and the Company's liquidity risk is managed on a net asset and liability basis. The tables below have been drawn up based on the undiscounted contractual maturities of the financial assets including interests that will be earned on those assets except where the Group and the Company anticipates that the cash flow will occur in a different period. The adjustment column represents the possible future cash flows attributable to the instrument included in the maturity analysis which is not included in the carrying amount of the financial asset on the balance sheets:

4. Financial instruments, financial risk and capital management (cont'd)

(b) *Financial risk management policies and objectives (cont'd)*

(v) *Fair value of financial assets and financial liabilities*

The carrying amount of cash and bank balances, trade and other receivables and payables approximate their respective fair values due to the relatively short-term maturity of these financial instruments. The fair values of derivative financial instruments as at financial year end are disclosed in Note 10 to the financial statements.

The Group classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the assets or liabilities, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and
- Level 3 - Inputs for the assets or liabilities that are not based on observable market data (i.e., unobservable inputs).

There have been no transfers of fair value instruments between levels during the financial years ended 30 June 2015 and 30 June 2014.

(c) *Capital management*

The primary objective of the Group's capital management is to maintain an optimal capital structure to maximise shareholders' value and to support business growth, taking into consideration underlying business risks.

The Group manages its capital through regular reviews to ensure business returns commensurate with the level of risks and adjustments to capital allocations are made in the light of changes in economic conditions. No changes were made in the Group's objectives and policies during the financial years ended 30 June 2015 and 2014.

Cost of defined contribution plan	78	68	78	68
	2,947	2,195	2,915	2,166

The remuneration of directors and key management is determined by the remuneration committee having regard to the performance of individuals and market trends.

At the end of reporting period, no share options have been granted to the Company's directors.

6. Cash and bank balances

	Group		Company	
	2015	2014	2015	2014

Fixed deposits pledged for foreign exchange forward contracts	1,448	1,336	1,448	1,336
	41,978	57,208	32,048	45,658

Cash and bank balances comprise cash held by the Group and the Company and short-term fixed deposits with an original maturity of three months or less. The carrying amount of these assets approximates their fair values.

Fixed deposits held during the financial year earned interests at rates ranging from 0.05% to 9.00% (2014: 0.01% to 9.00%) per annum.

Fixed deposits amounting to US\$1,448,000 (2014: US\$1,336,000) were pledged to certain financial institutions as a charge for the purpose of securing foreign exchange forward contracts as disclosed in Note 10 to the financial statements.

The Group and the Company's cash and bank balances that were not denominated in the functional currencies of the respective entities are as follows:

7. Trade receivables

	Group		Company	
	2015	2014	2015	2014
	US\$'000	US\$'000	US\$'000	US\$'000
Trade receivables	33,164	30,654	30,422	28,012

Trade receivables were non-interest bearing and the average credit period on sale of goods was 59 days (2014: 61 days). They were recognised at their original invoice amounts which represent their fair values at initial recognition.

Management has evaluated the creditworthiness and past collection history of receivables and is satisfied that no further provision for receivables that were past due date is necessary.

Before accepting any new customers, the Group will assess the potential customers' credit quality. Credit limits are monitored periodically by management.

In determining the recoverability of a trade receivable, the Group considers any change in the credit quality of the trade receivable from the date credit was initially granted up to the end of the reporting period. The concentration of credit risk is limited due to the customers based being large and unrelated. Accordingly, management believes that there is no further credit provision required.

The table below is an analysis of trade receivables as at 30 June:

	Group		Company	
	2015	2014	2015	2014
	US\$'000	US\$'000	US\$'000	US\$'000
Not past due and not impaired	29,656	27,476	27,757	25,302
Past due but not impaired:

- 3 months or more	—	—	—	—
	33,164	30,654	30,422	28,012

Trade receivables that were neither past due nor impaired were with creditworthy debtors with good payment records with the Group and the Company.

No provision was made to the above receivables that were past due but not impaired as there has not been a significant change in credit quality and the amounts were still considered recoverable.

The Group and the Company's trade receivables that were not denominated in the functional currencies of the respective entities are as follows:

	Group		Company

Foreign exchange forward contracts (analysed as current)	–	(249)	21	–

The foreign exchange forward contracts ("Forward Contracts") include an embedded derivative which may significantly modify the cash flows that would otherwise be required by the contract. The Forward Contracts may be terminated earlier than the maturity dates upon the occurrence of the knock-out event as stipulated in the contract. The Forward Contracts may not serve as an effective hedging tool on existing currency position as the potential gain is capped while the potential loss is unlimited.

The Forward Contracts' maturity dates range from 27 July 2015 to 6 August 2015.

At the end of the reporting period, the total notional amounts of outstanding foreign exchange forward contracts to which the Group and the Company is committed are as follows:

	Group and Company	
	2015	2014
	US\$'000	US\$'000
Buy S\$ and sell US\$	14,280	19,480

The fair value was measured using inputs of the prevailing market forward exchange rates, discount and zero rate curves and foreign exchange rate volatilities. The fair value loss of the Group and the Company's foreign exchange forward contracts was estimated to be approximately US\$249,000 (2014: Net gain of US\$21,000), which has been charged to profit or loss for the financial year ended 30 June 2015.

27. Segment information

For management purpose, the Group is organised into three reportable operating segments as follows:

- The electronics manufacturing services segment is in the business of printed circuit board assembly, custom user interface design and manufacture and full turnkey electronics manufacturing.
- The estate management and rental income segment is in the business of rental of premises.
- The investment holding segment which relates to investments and treasury activities.

Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss which in certain respects, as explained in the table in the following page, is measured differently from operating profit or loss in the consolidated financial statements.

Transactions between segments are carried out on agreed term between both parties.

NOTICE OF ANNUAL GENERAL MEETING

provided that:

- (1) the aggregate number of shares to be issued pursuant to this Resolution (including shares to be issued in pursuance of Instruments made or granted pursuant to this Resolution) does not exceed 50 per cent of the total number of issued shares in the capital of the Company (as calculated in accordance with sub-paragraph (2) below), of which the aggregate number of shares to be issued other than on a pro rata basis to shareholders of the Company (including shares to be issued in pursuance of Instruments made or granted pursuant to this Resolution) does not exceed 20 per cent of the total number of issued shares in the capital of the Company (as calculated in accordance with sub-paragraph (2) below);
 - (2) (subject to such manner of calculation as may be prescribed by the Singapore Exchange Securities Trading Limited (the "SGX-ST")) for the purpose of determining the aggregate number of shares that may be issued under sub-paragraph (1) above, the percentage of issued shares shall be based on total number of issued shares in the capital of the Company at the time this Resolution is passed, after adjusting for:
 - (i) new shares arising from the conversion or exercise of any convertible securities or share options or vesting of share awards which are outstanding or subsisting at the time this Resolution is passed; and
 - (ii) any subsequent bonus issue or consolidation or subdivision of shares;
 - (3) in exercising the authority conferred by this Resolution, the Company shall comply with the provisions of the Listing Manual of the SGX-ST for the time being in force (unless such compliance has been waived by the SGX-ST) and the Articles of Association for the time being of the Company; and
 - (4) (unless revoked or varied by the Company in General Meeting) the authority conferred by this Resolution shall continue in force until the conclusion of the next Annual General Meeting of the Company or the date by which the next Annual General Meeting of the Company is required by law to be held, whichever is the earlier.
9. To transact any other business as may properly be transacted at an Annual General Meeting.

Ordinary Resolution 9

NOTICE OF ANNUAL GENERAL MEETING

NOTICE IS HEREBY GIVEN that, subject to the approval of shareholders to the first and final and special dividends being obtained at the Twenty-Sixth Annual General Meeting to be held on 22 October 2015, the Transfer Books and the Register of Members of the Company will be closed on 3 November 2015 for the preparation of dividend warrants.

Duly completed transfers in respect of ordinary shares of the Company received by the Company's Share Registrar, Tricor Barbinder Share Registration Services (a division of Tricor Singapore Pte. Ltd.) at 80 Robinson Road, #02-00, Singapore 068898, up to 5.00 p.m. on 2 November 2015, will be registered to determine shareholders' entitlements to the proposed first and final and special dividends. NOTES TO PROXY FORM:

1. A member of the Company entitled to attend and vote at the Annual General Meeting is entitled to appoint one or two proxies to attend and vote instead of him. A proxy need not be a member of the Company. The appointment of a proxy or proxies by this instrument shall not preclude a member from attending and voting in person at the Annual General Meeting. If a member attends the Annual General Meeting in person, the appointment of a proxy or proxies shall be deemed to be revoked, and the Company reserves the right to refuse to admit such proxy or proxies to the Annual General Meeting.
2. Where a member appoints two proxies, the appointment shall be invalid unless he specifies the proportion of his shareholding (expressed as a percentage of the whole) to be represented by each proxy.
3. This instrument of proxy or proxies must be signed by the appointor or his duly authorised attorney, or, if the appointor is a corporation, it must be executed either under its common seal or signed by its attorney or duly authorised officer.
4. A corporation which is a member may also authorise by resolution of its directors or other governing body an authorised representative or representatives in accordance with its Articles of Association and Section 179 of Companies Act, Chapter 50 of Singapore, to attend and vote on its behalf.
5. This instrument appointing a proxy or proxies (together with the power of attorney if any, under which it is signed or a certified copy thereof) must be deposited at the registered office of the Company at 386 Jalan Ahmad Ibrahim, Singapore 629156, not less than 48 hours before the time appointed for holding the Annual General Meeting.
6. A member should insert the total number of shares held in this instrument of proxy. If the member has shares entered against his name in the Depository Register (as defined in Section 130A of the Companies Act, Chapter 50 of Singapore), he should insert that number of shares. If the member has shares registered in his name in the Register of Members, he should insert that number of shares. If the member has shares entered against his name in the Depository Register as well as shares registered in his name in the Register of Members, he should insert the aggregate number of shares. If no number is inserted, this instrument of proxy will be deemed to relate to all the shares held by the member.
7. The Company shall be entitled to reject this instrument of proxy or proxies if it is incomplete, or illegible or where the true intentions of the appointor are not ascertainable from the instructions of the appointor specified in this instrument of proxy. In addition, in the case of a member whose shares are entered in the Depository Register, the Company may reject any instrument appointing a proxy or proxies lodged if the member, being the appointor, is not shown to have shares entered against his name in the Depository Register at 48 hours before the time appointed for holding the Annual General Meeting as certified by The Central Depository (Pte) Limited to the Company.
8. CPF Approved Nominees acting on the request of the CPF investors who wish to attend the Annual General Meeting as Observers are requested to submit in writing, a list with details of the investors' names, NRIC/Passport numbers, addresses and number of shares held. The list, signed by an authorised signatory of the CPF Approved Nominee, should reach the Company's Share Registrar, Tricor Barbinder Share Registration Services (A division of Tricor Singapore Pte. Ltd.) at 80 Robinson Road, #02-00 Singapore 068898, at least 48 hours before the time fixed for holding the Annual General Meeting.
