

MONTHLY UPDATE FOR NOVEMBER 2024

The board of directors (the “**Board**”) of Metech International Limited (the “**Company**”, and together with its subsidiaries, the “**Group**”) would like to provide an update on the following:

1) The appointment of executive officers, including, but not limited to, the Chief Financial Officer (or a person with equivalent authority) of the Company

The Company is still in the midst of exploring the appointment of a potential candidate for the role of Chief Financial Officer, and will submit the necessary documents to its continuing sponsor for their assessment and due diligence in due course.

The Company will make the necessary announcement(s) on SGXNet should the appointment of the Chief Financial Officer materialise in due course.

2) The Company’s operations

For the current lab-grown diamond business, the Company is exploring how it can be transformed into new uses in emerging high-tech applications, which may gradually open new market opportunities and drive further growth for the industry. In this regard, the Company has been in active discussions with several enterprises located in Chengdu and the Sichuan Institute of the Chinese Academy of Sciences to promote the development of its lab-grown diamond business and in the application in emerging technologies. Additionally, the Company is actively engaging with other research institutions based in the People’s Republic of China to explore collaboration opportunities for the development of this new market segment using the Company’s existing machineries.

The Joint Venture

In addition, in order to create sustainable business streams and enhance shareholders’ value, the Company had, on 25 June 2024, through its wholly-owned subsidiary, Asian Green Tech Pte Ltd, entered into a joint venture agreement with Colorful Paradise Agricultural Cooperation Co., Ltd. (多彩樂園農業合作有限公司) (“**CPAC**”) to incorporate a joint venture company in Singapore (“**JV Company**”). Details of the joint venture and its business are set out in the Company’s announcement dated 25 June 2024. The Company also wishes to announce that CPAC has completed the fabrication of the biomass carbon reduction system, and the machines are currently in Taiwan for final stages of testing and commissioning before being transported to Singapore for the promotion of the system in Singapore.

The Health Supplements Business

Further to the above, on 21 August 2024, the Company announced that its wholly-owned subsidiary, “Metech Diamond Solutions Pte. Ltd.” (“**MDS**”), had changed its name to “Opulwell Biotechnology Pte. Ltd.” (“**OBPL**”).

The principal activity of MDS has also been changed to “Retail Sales of Health Supplements” as part of the Company’s preparatory work to align with the business of OBPL moving forward. The Company has evaluated the potential business models for the retail sales of health supplement

products (the “**Health Supplements Business**”) and the Board is of the view that this Health Supplements Business is of interest and will create greater value for the Company. Accordingly, the Company and a potential partner are actively conducting negotiations and are trying to push forward with the proposed collaboration. The Company will update shareholders once any arrangements have been arrived at between both parties.

Given that the business of the JV Company and the Health Supplements Business amounts to new business undertakings by the Group that is different from its existing business, the Company is in the midst of preparing and will be convening an extraordinary general meeting (“**EGM**”) in due course to seek approval from the shareholders of the Company for the proposed diversification of the Group’s business to include the joint venture’s business and the Health Supplements Business (the “**Proposed Diversification**”).

In preparation for the Proposed Diversification, the Company has sourced and shortlisted a factory space which fulfils the Company’s requirements for the new potential businesses. The Company is currently in detailed discussions with the seller about the potential acquisition of the factory space to support the operations of the new business segments.

Notwithstanding the above, the Company is in close contact with and has been actively conducting discussions with CPAC to ensure that the business of the JV Company can commence once the Proposed Diversification has been approved by shareholders of the Company. The Company will provide updates as and when there are material developments on the above-mentioned and will make the necessary announcement(s) in due course.

Share Incentivisation Scheme

The Company recognises the importance of retaining staff and directors whose contributions are critical to the Group’s success, whether in its current operations or the proposed new ventures that the Company intends to enter into. As part of its commitment to motivate, reward, and retain these individuals, the Company intends to propose share incentive scheme(s) that will offer directors and employees of the Group the opportunity to participate in the equity of the Company. This will serve to align their interests with those of the Company and acknowledge their contributions to its success.

With regards to the aforementioned points, the preparation of the circular for the Proposed Diversification and the Share Incentivisation Scheme is currently underway. The Company will make the necessary announcement(s) to convene an EGM in due course.

By Order of the Board of Directors of
Metech International Limited

Pang Wei Hao
Executive Director and Chief Executive Officer
29 November 2024
