2. Basis of preparation

The condensed interim financial statements for the six months and full year ended 30 June 2025 have been prepared in accordance with SFRS(I) 1-34 Interim Financial Reporting issued by the Accounting Standards Council Singapore. The condensed interim financial statements do not include all the information required for a complete set of financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group's financial position and performance of the Group since the last interim financial statements for the period ended 31 December 2024. The accounting policies adopted are consistent with those of the previous financial year which were prepared in accordance with SFRS(I)s, except for the adoption of new and amended standards as set out in Note 2.1. The condensed interim financial statements are presented in Singapore dollar which is the Company's functional currency.

2.1 New and amended standards adopted by the Group

A number of amendments to Standards have become applicable for the current reporting period. The Group did not have to change its accounting policies or make retrospective adjustments as a result of adopting those standards.

2.2 Use of judgements and estimates

In preparing the condensed interim financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

The significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements as at and for the year ended 30 June 2024.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

Management is of the opinion that there are no critical judgements made in applying the Group's accounting policies and no assumptions and estimation of uncertainties that have a significant risk of resulting in a material adjustment within the next financial year.

4. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the Group operates and any known factors or events that may affect the Group in the next operating period and the next 12 months

Trade tensions and tariff uncertainty, along with rapidly evolving market dynamics, create significant challenges for businesses in making long-term decisions about supply chains, leading to holding strategies.

Nevertheless, the Group remains committed to ensuring the flexibility and resilience of its integrated own brand manufacturing (“OBM”) supply chain, which underpins its portfolio of hand protection solutions and non-glove hygiene and healthcare ancillary products. Through the effective management of its established downstream distribution network, this commitment enhances operational efficiency and enables the Group to respond swiftly to market demands and emerging trends targeted at infection control, hygiene and care, dental care, and wound care across diverse industries.

While the Group continues to produce premium disposable examination glove products at its upstream manufacturing facilities, it is actively collaborating with cost-effective manufacturers to supply both disposable and reusable gloves, as well as healthcare consumables, including medical-grade masks and bandages. The portfolio of products is marketed and sold under its proprietary **UNIGLOVES®** brand through its entrenched downstream global distribution network.

This strategic approach not only broadens the product range but also ensures the Group’s competitiveness in a rapidly evolving market. By forging partnerships with reliable manufacturers, the Group seeks to uphold quality and strengthen its market presence while efficiently addressing the diverse needs of customers.

Currently, the active retirement home project remains a strategic investment for the Group, while the OBM supply chain global business remains as the primary revenue and earnings base for the Group.
