Straits Times Index (STI) quarterly review

– No changes to the constituents of the STI

FTSE Russell announces that there will be no changes to the constituents of the Straits Times Index (STI), following the September 2026 quarterly review.

A full list of STI constituents can be found on the website.

There is no change to the STI reserve list.

The STI Reserve List (in alphabetical order)
First Resources
Keppel REIT
Olam Group
Sheng Siong Group
Suntec REIT

All changes from this review take effect at the start of business on 21 September 2026 and the next review will take place in December 2026.

The indexes are reviewed quarterly in accordance with the index ground rules and to facilitate the inclusion of eligible IPO stocks. The FTSE ST methodology ensures the indexes accurately represent the investable universe for benchmarking purposes and can be easily replicated as the basis of index-linked products.

FTSE Russell has partnered with SPH Media Trust, publisher of The Straits Times newspaper, and SGX Group (Singapore Exchange) to jointly calculate Singapore's main stock market benchmark. The STI is widely followed by investors as the benchmark for the Singapore market and is used as the basis for a range of financial products including Exchange Traded Funds (ETFs), warrants, futures and other derivatives. FTSE Russell is the index administrator.

Further information on the FTSE ST Index Series, including all additions and deletions as well as ground rules, is available at FTSE Straits Times (ST) Index Series | LSEG

About FTSE Russell, an LSEG business:

FTSE Russell, LSEG's global index leader, provides innovative benchmarking, analytics and data solutions for investors worldwide. FTSE Russell calculates thousands of indexes that measure and benchmark markets and asset classes in more than 70 countries, covering 98% of the investable market globally.

FTSE Russell index expertise and products are used extensively by institutional and retail investors globally. Approximately $20 trillion is benchmarked to FTSE Russell indexes. Leading asset owners, asset managers, ETF providers and investment banks choose FTSE Russell indexes to benchmark their investment performance and create ETFs, structured products and index-based derivatives.

A core set of universal principles guides FTSE Russell index design and management: a transparent rules-based methodology is informed by independent committees of leading market participants. FTSE Russell is focused on applying the highest industry standards in index design and governance and embraces the IOSCO Principles. FTSE Russell is also focused on index innovation and customer partnerships as it seeks to enhance the breadth, depth and reach of its offering.
