2.1 New and amended standards adopted by the Group

A number of amendments to Standards have become applicable for the current reporting period. The Group did not have to change its accounting policies or make retrospective adjustments as a result of adopting those standards.

2.2 Use of judgements and estimates

In preparing the condensed interim financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates. Given the Covid-19 pandemic has caused and will likely cause significant disruptions to economic activities, the uncertainties associated with accounting estimates and assumptions may also be increased accordingly.

The significant judgements made by management in applying the Group’s accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements as at and for the year ended 31 December 2022.

Accordingly, the entire assets and liabilities related to the CLT Group were deconsolidated and the results for the current financial period was presented separately on the consolidated statement of comprehensive income as “Discontinued operations” during the year ended 31 December 2022. There was no financial impact for the year ended 31 December 2023 relating to CLT Group as per disclosures hereunder.

During January 2023, United Overseas Bank served a Notice of Event of Default pursuant to the Facility Agreements extended to CLT Group. As part of the measure to overcome the Event of Default in respect of the CLT Loan, the Company provided financial guarantee to the Bank for CLT Group.

During 2Q2023, the financial guarantee provided by the Company was paid and redeemed from the sale of the CLT vessels.

In the latest update received in January 2024 from the liquidator via email, it was communicated that they are finalising the winding-up process and will be sending updates to CLT’s creditors in the coming months.

	47.31	30.09	57.2	79.16	59.13	33.9

6 months ended 31 December 2023 or 2H2023

- (i) On a half yearly basis, the Group's revenue increased by 57.2% or S\$17.22 million from S\$30.09 million in 2H2022 to S\$47.31 million in 2H2023 mainly due to higher contribution from IE and CP segment.
- (ii) The revenue contribution from the IE division experienced substantial 85.9% increase, amounting to S\$16.78 million. This surge took the revenue from S\$19.53 million in the 2H2022 to S\$36.31 million in the 2H2023. The significant growth is primarily attributed to business expansion within the oil and gas sector, particularly in repairs and maintenance services for Floating Production Storage and Offloading (FPSO) and Floating Storage and Offloading (FSO) contracting. Additionally, the division saw increased project management services for both existing and new builds.
- (iii) Revenue from the CP division, primarily recurring, grew by 4.7%, totaling S\$0.49 million. The revenue increased from S\$10.51 million in the 2H2022 to S\$11.00 million in the 2H2023. Despite a decrease of S\$1.01 million in demand for CP services in Singapore, this was compensated by a notable increase of S\$2.47 million from Batam operations.
- (iv) During 2H2023, the Group divested its wholly owned subsidiary, Picco Enterprise Pte. Ltd., which was operating under the Supply and Distribution (SD) division. Simultaneously, the Group restructured the supply of industrial hardware and personal protective equipment by integrating it as an internal procurement unit under the CP division. As a result of these strategic moves, the SD division is no longer considered a core business segment for the Group.

2. Review of performance of the Group (cont'd)

Condensed interim consolidated statement of profit or loss and other comprehensive income (cont'd)

(a) Revenue (cont'd)

Full year ended 31 December 2023 or FY2023

- (i) For the year-to-date performance ending 31 December 2023, the Group's revenue increased by 33.9% or S\$20.03 million from S\$59.13 million in FY2022 to S\$79.16 million in FY2023, mainly driven by the strengthened performance of the core operating segments of IE and CP.
- (ii) In fiscal year 2023, the Group's IE division experienced a significant revenue increase of 47.0%, amounting to S\$18.22 million from S\$38.80 million in FY2022 to S\$57.02 million in FY2023. The key driver behind the growth was the successful expansion and penetration into the onshore and offshore energy value chain, particularly in oil and gas activities. The buoyant demand for Floating Production Storage and Offloading (FPSO) and Floating Storage and Offloading (FSO) services, including new building, contracting, and maintenance, contributed significantly to the division's increased revenue.

This transformation in the IE division played a crucial role in offsetting a decline in revenue of S\$5.22 million associated with the strategic decision to cease steel fabrication activities in Singapore. Overall, the successful penetration allows the Group to focus on the energy value chain and exit non-performing operations.
- (iii) Revenue from our CP division increased by 9.0% or S\$1.83 million from S\$20.26 million in FY2022 to S\$22.09 million in FY2023 as the Group expanded its scope of services for Singapore and Batam to include rental of equipment and corrosion prevention of offshore wind farm projects.
- (iv) The Group has subsumed the selling and distribution (SD) hardware business under CP segment and exited the shipping (SH) business. Both SD and SH will no longer be presented as core business segments and the comparative prior year figures were restated accordingly.

(b) Cost of sales/Gross Profit Margin

6 months ended 31 December 2023 & 2H2023

- (i) The Group's cost of sales from Continuing Operations increased by 35.4% or S\$8.05 million at S\$30.78 million in 2H2023, which grew at a slower rate than the increase in revenue. Hence, gross profit increased by S\$9.16 million to S\$16.52 million for 2H2023 as compared to S\$7.36 million for 2H2022 due to the following: -
 - improved cost management and productivity through strategic initiatives, including a reduction in capital expenditure a transition towards an asset-light business model, and efficient resource allocation; and
 - positive outcomes through the cessation of operations at the waterfront fabrication yard in Singapore, coupled with strategic exits or disposals of loss-making business operations. This eliminated underperforming segments and optimise the overall business portfolio, improving the Group's financial health and operational efficiency.
- (ii) Reduction in depreciation expenses from continuing operations by S\$0.54 million to S\$1.36 million in 2H2023 from S\$1.90 million in 2H2022, which is in tandem with the Group's strategy to continue to increase the operating efficiency and/or utilisation rate of our fixed assets.

(b) Cost of sales/Gross Profit Margin (cont'd)

Full year ended 31 December 2023 or FY2023

In the financial year ending on 31 December 2023, the Group experienced a 16.4% increase in the cost of sales from Continuing Operations, reaching S\$54.25 million. Despite this, the Gross Profit exhibited a substantial increase of S\$12.39 million, totalling S\$24.91 million for the same period in FY2023 due to stronger business momentum from IE in 2H2023.

Additionally, there was a notable reduction in depreciation expenses, decreasing by S\$1.37 million to S\$3.05 million in FY2023 compared to S\$4.42 million in FY2022 due to transition to asset-light model. Overall, these financial indicators reflect effective cost management and improved profitability for the Group during the year.

2H2023 & FY2023

The Group reported Other Gains amounting to S\$4.21 million in 2H2023, a reversal from the Other Losses of S\$3.12 million in 2H2022. This positive shift was primarily driven by a one-off gain of S\$6.26 million resulting from the disposal of assets held-for-sale during the 2H2023. Simultaneously, the Group recognized S\$0.86 million on provision for stock obsolescence which was associated to the transition of supply and distribution of industrial hardware and equipment to non-core activities and an internal procurement arm. Additionally, there was a write-off of S\$1.24 million on credit loss for contract assets related to discontinuation of berthing and repair services operated out of the Batam yard.

During FY2022, the Company incurred a financial guarantee expense of S\$2.00 million relating to the corporate guarantee provided to UOB under the discontinued Cattle Line Two Pte Ltd. This was paid and redeemed from the sale of the CLT vessels by the Company in FY 2023.

(d) Administrative expenses

2H2023 & FY2023

(e) Finance cost

2H2023 & FY2023

Despite reduction in bank borrowings through deleveraging initiatives, the interest expense on borrowings from Continuing Operations increased by 6.0%, equivalent to S\$102,000. The interest expense increased from S\$1.70 million in FY2022 to S\$1.80 million in FY2023, primarily attributed to a higher interest rate environment.

(f) Profit / (Loss) attributable to Owners of the Company

2H2023 & FY2023

The Group registered a stronger operating performance in 2H2023 coupled with Other Gains resulting in turnaround to net profit attributable to shareholders of S\$4.28 million in 2H2023 and S\$3.42 million in FY2023, as compared to a net loss on Continuing Operations attributable to shareholders of S\$6.83 million in 2H2022 and S\$8.63 million in FY2022 respectively. The improved performance for 2H2023 was mainly due to: -

- (i) improved and positive contributions from IE and CP activities.
- (ii) Other Gains from the disposal of asset held-for-sale of S\$6.26 million upon completion of sale of 100,970 square metres land forming part of the Group's 328,956 square metre waterfront fabrication yard in Batam, Indonesia on 20 December 2023.
- (iii) Strategic initiatives undertaken to exit and dispose loss-making business operations. This eliminated underperforming segments and optimise the overall business portfolio, improving the Group's financial health and operational efficiency.

2. Review of performance of the Group (cont'd)

Condensed interim consolidated cashflow statement

There was a net cash inflow generated from operating activities of S\$5.95 million in FY2023.

Net cash inflow generated from investing activities was S\$10.33 million in FY2023 mainly due to the proceeds on completion of sale of 100,970 square metres land; and proceeds from disposal for one 1,700hp tugboat.

Net cash used in financing activities was S\$10.42 million in FY2023. This was mainly due to S\$7.35 million net repayment of bank loans; S\$1.23 million on payment of lease liabilities; and S\$0.76 million on bills payable; and S\$1.0 million on profit making subsidiary declaring and issued dividends to non-controlling interests.

As a result of the above, the Group registered a net increase in cash and cash equivalent of approximately S\$5.85 million for FY2023.
