## Accounting for Investment Properties

During the financial year ended 31 March 2015, the Group's accounting policy with respect to the measurement of investment properties, subsequent to initial recognition, has been changed from the cost model to the fair value model. This voluntary change in accounting policy has been applied retrospectively. The two methods of measurement are allowed under FRS40 Investment Property. Previously under the cost model, the Group's investment properties were initially recognised at cost and subsequently carried at cost less accumulated depreciation and accumulated impairment losses. Under the fair value model, the Group's investment properties are carried at fair value, representing open market values determined on an annual basis based on independent professional valuers and changes in fair values are recognised in income statement.

With the Group's intention to redevelop the retail mall of the Singapore Post Centre, management has reviewed and determined that the fair value model of measurement will provide more relevant and reliable financial information of the Group's investment properties. Along with the accounting policy change from the cost model to the fair value model, management has undertaken a review of the Group's property allocation between investment properties and property, plant and equipment and made reclassification as appropriate.

The effects of the voluntary change in accounting policy and review of the Group's investment property assets on the Group's financial statements are as follows:

|  | $\begin{gathered} \begin{array}{c} 2013 / 14 \\ \text { (previously } \\ \text { stated) } \end{array} \\ \hline S \$^{\prime} 000 \end{gathered}$ | Accounting policy change and property allocation review S\$'000 | $\begin{gathered} \begin{array}{c} 2013 / 14 \\ \text { (restated) } \\ \text { S } \${ }^{\prime} 000 \end{array} \end{gathered}$ | $\begin{gathered} \text { 2012/13 } \\ \text { (previously } \\ \frac{\text { stated) }}{\mathrm{S} \$^{\prime} 000} \end{gathered}$ | Accounting policy change and property allocation review S\$'000 | $\begin{gathered} 2012 / 13 \\ \frac{\text { restated) }}{\text { S } \$ 000} \end{gathered}$ |

| Total | $\mathbf{2 4 8 , 7 0 9}$ | 193,296 | $28.7 \%$ |

[^3]Group revenue increased by $28.7 \%$ in the fourth quarter of FY2014/15. Growth in the ecommerce and logistics businesses and the inclusion of new subsidiaries helped to offset the decline in traditional postal contributions. Excluding the impact of M\&As, revenue grew by $1.6 \%$.

The Mail business continued to record declining traditional letter mail volumes. However, mail revenue was flat due to the introduction of new products and the postage rate increase which took effect in October 2014.

Revenue in the Logistics division grew strongly on higher ecommerce logistics contributions and the inclusion of new subsidiaries.

Retail \& eCommerce revenue improved as the growth in ecommerce services offset the decline in traditional retail \& agency services, and financial services.

## Other Income and Gains / (Losses)

Rental and property related revenue declined largely due to lower rental income from Singapore Post Centre. Occupancy rate at Singapore Post Centre was $96.3 \%$ as at 31 March 2015.

There was a miscellaneous loss of $\$ \$ 2.2$ million, compared to income of $\$ \$ 1.8$ million in the same period last year, mainly due to loss on the disposal of property, plant and equipment, and trade related foreign exchange loss.

## Total Expenses

Total expenses amounted to $\mathbf{S} \$ 221.7$ million, an increase of $33.9 \%$ from $\mathrm{S} \$ 165.6$ million in the same period last year. The higher expenses were largely attributable to the inclusion of new subsidiaries, and the Group's continued investments in its transformation initiatives and service quality improvements.

Volume-related expenses increased with the inclusion of new subsidiaries and growth in business activities and volumes.

Labour and related expenses were higher as a result of increased operating costs in Singapore and the continuing investment in talent for the growth transformation.

The increase in administrative and other expenses was mainly attributable to higher property related expenses and professional fees related to the Group's transformation initiatives and other administrative expenses. The increase in property related expenses was mainly attributable to higher rental costs for the Group's operations.

With the change in accounting policy, depreciation for investment properties was not charged and depreciation expenses charged for the first three quarters were reversed in the fourth quarter. However, depreciation and amortisation expenses went up as a result of the review of the Group's intangible assets and inclusion of new subsidiaries.

The Group recorded underlying operating profit of S $\$ 42.8$ million, an increase of $3.5 \%$ from $S \$ 41.3$ million in the same period last year. Operating profit was $\$ \$ 40.2$ million compared to $\mathrm{S} \$ 85.1$ million $^{1}$ in the same period last year due predominantly to changes in investment properties fair value gain.

In the Mail division, operating profit was higher with the Group's focus on productivity and efficiency to manage the increase in operating costs, particularly with the investments in service quality improvements.

Operating profit in the Logistic division increased as contributions from new subsidiaries offset continuing costs in integration and transformation.

Retail \& eCommerce profit improved as a result of higher contributions from retail \& agency, and financial services, as well as better performance by SingPost eCommerce.

Operating profit in Others was negative $\$ \$ 4.2$ million due to one-off items. Property operating profit was otherwise steady.

The fair value gain on investment properties recognised in Q4 FY2014/15 comprises the change in fair value since the end of the last financial year. Fair value gain recorded in Q4 FY2014/15 was $S \$ 5.2$ million, compared to $S \$ 44.5$ million recognised in the same period of the last financial year.

## Share of Results of Associated Companies and JVs

Share of profit of associated companies and joint ventures increased by $75.9 \%$ from S $\$ 1.9$ million to $\mathrm{S} \$ 3.4$ million.

## Net Profit

The Group recorded growth of $14.9 \%$ in underlying net profit from $\mathrm{S} \$ 35.8$ million to S $\$ 41.1$ million for Q4 FY2014/15. The improvement was attributable to the better organic performance as well as the inclusion of new subsidiaries, despite the continuing investment in resources for transformation.

[^4]Net profit attributable to equity holders was lower by $51.6 \%$ at $\$ \$ 38.5$ million, compared to the restated figure of $\mathbf{S} \$ 79.6$ million ${ }^{2}$ for the same period of the last financial year. The decline was due to lower fair value gain of $S \$ 5.2$ million compared to $S \$ 44.5$ million in the previous financial year, as well as one-off items.

* Inter-segment eliminations relate to the elimination of inter-segment billings for internal services to better reflect the profitability of each business segment.

The Group posted an increase of $12.0 \%$ in revenue in FY2014/15. Growth in ecommerce and logistics related businesses and the inclusion of new subsidiaries offset the decline in the traditional postal business. Excluding the $M$ \& A impact, revenue was S $\$ 830.0$ million, an increase of $1.1 \%$ for the full year.

In the Mail division, the decrease in traditional letter mail volumes was reflected in the weaker performance of domestic mail and hybrid mail. Whilst the international mail business also faced declining letter mail volumes, revenue was supported by growth in ecommerce related activities.

For the full year, Logistics revenue was underpinned by continued growth in ecommerce related activities and the inclusion of new subsidiaries.

In Retail \& eCommerce, revenue from ecommerce services continued to grow strongly, offsetting declines in traditional retail \& agency services and financial services.

Other Income and Gains / (Losses)
Rental and property related revenue posted a decline of $2.3 \%$ from $\mathrm{S} \$ 44.9$ million to S $\$ 43.9$ million. This was largely due to lower rental income from Singapore Post Centre, which accounted for approximately $90 \%$ of total rental and property related revenue.

Miscellaneous income amounted to $\mathrm{S} \$ 6.6$ million, compared to a loss of $\mathrm{S} \$ 0.1$ million last year. The difference was due to gains on the disposals of property, plant and equipment, higher interest income and trade related foreign exchange gain. The same period last year had also included higher provisions for the restructuring of overseas operations.

## Total Expenses

The Group's total expenses increased by $14.9 \%$ from $\mathrm{S} \$ 687.1$ million to $\mathrm{S} \$ 789.4$ million. This was largely attributable to the inclusion of new subsidiaries and the Group's continued investment in its transformation initiatives and service quality improvements.

[^5]Labour and related expenses were higher mainly due to increased operating cost in Singapore and continuing investment in new talent and skill upgrading for the growth transformation.

The increase in volume-related expenses was largely due to the inclusion of new subsidiaries, and growth in international traffic and business activities.

Administrative and other expenses rose as a result of higher property related expenses and professional expenses related to M\&As and other transformation initiatives. The higher property related expenses were mainly attributable to increased rental expenses for its operations.

With the change in accounting policy, depreciation for investment properties was not charged. However, depreciation and amortisation expenses went up as a result of the review of the Group's intangible assets and the inclusion of new subsidiaries.

The Group recorded an increase of $0.5 \%$ in underlying operating profit from $\mathbf{S} \$ 185.0$ million to $\$ 185.9$ million. Operating profit amounted to $\$ \$ 186.4$ million, compared to the restated figure of $\mathrm{S} \$ 227.5$ million $^{3}$ for $\mathrm{FY} 2013 / 14$, due predominantly to changes in fair value gain.

Mail operating profit was marginally higher, as the Group focused on productivity and efficiency to manage the increase in operating costs, particularly with the investments in service quality improvements.

Despite continued expenditure to build the regional logistics business and networks, Logistics achieved a strong increase in operating profit. This was due to the inclusion of new subsidiaries and contributions from ecommerce related activities.

[^6]In the Retail \& eCommerce segment, the improvement in operating profit was mainly attributable to higher contributions from financial services and better performance by SingPost eCommerce.

Operating profit in Others was lower predominantly due to the differences in fair value gains compared to last year, and one-off items. Property operating profit was otherwise steady.

## Share of Results of Associated Companies and JVs

Share of profit of associated companies and joint ventures grew by $52.8 \%$ from $\mathrm{S} \$ 4.4$ million to $\mathrm{S} \$ 6.7$ million.

## Net Profit

The Group recorded an increase of $5.2 \%$ in underlying net profit from S $\$ 149.5$ million to S $\$ 157.2$ million for $\mathrm{FY} 2014 / 15$. The improvement in underlying performance was attributable to the Group's organic growth as well as the inclusion of new subsidiaries, despite the increased operating costs incurred for its transformation.

Net profit attributable to equity holders was lower by $17.9 \%$ at $\mathrm{S} \$ 157.6$ million, compared to the restated figure of $\$ \$ 192.0^{4}$ million previously. This was due to lower fair value gain of $\mathrm{S} \$ 5.2$ million in $\mathrm{FY} 2014 / 15$ compared to $S \$ 44.5$ million in the previous financial year, as well as one-off items.

## Balance Sheet

Ordinary equity amounted to $\mathrm{S} \$ 1.12$ billion as at 31 March 2015, compared to the restated figure of $S \$ 765.5$ million as at 31 March 2014. The increase was predominantly attributable to the enlarged share capital following the issue of shares and transfer of treasury shares to Alibaba Investment Limited in July 2014.

Total assets amounted to $\mathbf{S} \$ 2.20$ billion compared to $\mathbf{S} \$ 1.74$ billion as at 31 March 2014.
Cash and cash equivalents were higher at $\$ \$ 584.1$ million as at 31 March 2015, compared to $\mathbf{S} \$ 404.4$ million previously. The increase was attributable to proceeds received from Alibaba Investment Limited for the share issue and treasury share transfer, which partly offset funds utilised for the Group's investments and operations.

Over the financial year, the Group made several acquisitions including Couriers Please Holdings, The Store House, F.S. Mackenzie and Famous Pacific Shipping (NZ) Limited, which contributed to the increase in the Group's intangible assets, and trade and other receivables.

Investment properties amounted to $\mathbf{S} \$ 638.8$ million as at 31 March 2015 compared to S $\$ 629.1$ million and $\$ \$ 570.6$ million in the previous two financial years, as a result of higher fair valuation.

Total liabilities amounted to $\mathrm{S} \$ 730.1$ million, compared to $\mathrm{S} \$ 626.0$ million as at 31 March 2014. The increase was largely attributable to the growth in trade and other payables with the inclusion of new subsidiaries during the period.

[^7]
## Financial Position

The Group was in a net cash position ${ }^{5}$ of $\mathrm{S} \$ 345.8$ million as at 31 March 2015. The cash holdings will be utilised for investments, capital expenditure, working capital and other funding needs.

Interest coverage ratio ${ }^{6}$ remained high at $36.4 x$.

## Cash Flow

Net cash from operating activities was healthy at $\mathrm{S} \$ 235.0$ million in FY2014/15, compared to $\mathrm{S} \$ 241.8$ million last year.

Net cash used in investing activities was $\mathrm{S} \$ 235.9$ million, compared to $\mathrm{S} \$ 37.6$ million previously. During the year, cash outflow for acquisitions of new subsidiaries amounted to $\mathrm{S} \$ 119.8$ million. The Group invested $\mathrm{S} \$ 104.4$ million in property, plant and equipment, including new mail sorting equipment, property projects currently under development such as the eCommerce Logistics Hub, and additional POPStations. The Group purchased financial assets of $\mathrm{S} \$ 23.3$ million comprising mainly corporate bonds. The cash outflow was partially offset by proceeds of $\mathrm{S} \$ 11.0$ million from the disposal of property, plant and equipment, $\mathrm{S} \$ 8.3$ million from interest received and $\mathrm{S} \$ 6.0$ million from the maturity of financial assets

Net cash from financing activities was $\mathrm{S} \$ 180.6$ million, compared to net cash used of S $\$ 428.2$ million previously. During the year, the Group received proceeds of S $\$ 298.9$ million from ordinary share issues and $\mathrm{S} \$ 31.9$ million from the treasury share transfer. Cash outflows for dividend and perpetual securities distributions amounted to $\mathrm{S} \$ 128.1$ million and S $\$ 14.9$ million respectively.

Free cash flow ${ }^{7}$ was lower at $\mathrm{S} \$ 130.6$ million in FY2014/15 compared to $\mathrm{S} \$ 204.1$ million in the previous financial year, as a result of the Group's increased capital expenditure.

Use of the proceeds from the share issue and treasury share transfer to Alibaba Investment Limited is in line with the intended use stated in the SGXNET announcement dated 28 May 2014. The proceeds are being deployed for capital expenditure such as the development of the eCommerce Logistics Hub, upgrade of information technology systems, and M\&A investments.
(9) Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.

The Group also intends to redevelop its retail space at Singapore Post Centre and will make further announcements in due course.

The Group continues to pursue investment opportunities in Singapore and the region. In January 2015, its subsidiary Famous Holdings acquired 90\% of Famous Pacific Shipping (NZ) Limited. Since the MOU signed with Alibaba Investment Limited last year, the two organisations have been working well together. Discussions on the proposed business collaboration are ongoing and SingPost will provide an update when details are finalised.

## PART II ADDITIONAL INFORMATION REQUIRED FOR FULL YEAR ANNOUNCEMENT

(13) Segmented revenue and results for business or geographical segments (of the group) in the form presented in the issuer's most recently audited annual financial statements, with comparative information for the immediately preceding year.

Management has determined the operating segments based on the reports reviewed by the Group Chief Executive Officer and Group Chief Financial Officer ("Chief Operating Decision Maker" or "CODM") that are used to make strategic decisions.

The CODM considers the business from a business segment perspective. Management manages and monitors the business in the three primary business areas: Mail, Logistics and Retail:

- Mail - Mail segment provides comprehensive services for collecting, sorting, transporting and distributing domestic and international mail as well as sale of philatelic products. International mail service covers the handling of incoming international mail and outgoing international mail. Mail division also offers ePost hybrid mail service which integrates electronic data communication with traditional mail.
- Logistics - Logistics segment provides a diverse range of logistics solutions, comprising freight, warehousing, domestic and international distribution, and delivery services. The services include ecommerce logistics, warehousing, fulfilment and distribution, and other value-added services (Quantium Solutions), parcel delivery (Singapore Parcels), freight forwarding (Famous Holdings) and self-storage solutions (General Storage).
- Retail - Retail segment provides a wide variety of products and services beyond the scope of traditional postal services, including agency services, financial services and front-end ecommerce solutions.

Other operations include the provision of commercial property rental and investment holding; but these are not included within the reportable operating segments, as they are not included in the reports provided to the CODM. The results of these operations are included in the "all other segments" column.

The segment information provided to the CODM for the reportable segments for the years ended 31 March 2015 and 31 March 2014 are as follows:

Sales between segments are carried out at arm's length. The revenue from external parties reported to the CODM is measured in a manner consistent with that in the statement of comprehensive income.

The CODM assesses the performance of the operating segments based on a measure of operating profit, which is profit before interest, tax and share of profit of associated companies and joint ventures. Interest income and finance expenses are not allocated to segments.

A reconciliation of operating profit to profit before tax is provided as follows:

|  | $\mathbf{2 0 1 5}$ <br> $\mathbf{S \$ \prime 0 0 0}$ | 2014 <br> S\$'000 <br> (Restated)* |

The CODM does not review balance sheet items by reportable segments, but rather monitors them at the Group level. All assets are allocated to reportable segments other than derivative financial instruments and financial assets, held-to-maturity. Cash and cash equivalents are allocated to reportable segments where applicable.
