Press Release

Versalink Honouring Community Champions

Kuala Lumpur, 27 November 2017 – Versalink Holdings Limited, a leader in office system furniture manufacturer, was proud to be a sponsor for the recent bodymindsoul Carnival organized by The Golden Messengers and supported by The Golden Space® with the vision of creating awareness on positive living and holistic wellness in Malaysia. The Golden Space® is the only Meditation, Life-Transformation, Holistic & Healing Centre in Singapore to receive the Asia Pacific Brands Award 2015, STCM 2009 & 2010 Successful Entrepreneur Certification by Singapore Today under the “Gold Category” and the 2013 Singapore Outstanding Enterprise Award. They have presence in Singapore, Malaysia, Indonesia, United Kingdom, Australia, U.A.E., USA and New Zealand.

The event was held on the 25 & 26 November 2017 at the Commune, Sunway Velocity Mall, Cheras, Kuala Lumpur. The aim of this event was to bring joy, laughter, love and gratitude back into the lives of people from all walks of life. The theme was ‘The HEART of Community’ which basically means taking responsibility to re-build a world that is filled with peace, love, joy, gratitude and harmony.

Versalink sponsored four organizations that have inspired the community with their valuable efforts in environmental conservation and protection. These include Persatuan Kebajikan Polaris, Lost Animal Souls Shelter (LASS), SURI Inspirasi, and Love Spreads.

Commenting on this sponsorship, Mrs. Arica Walters, Group Chief Operating Officer, Versalink Holdings Limited remarked “We are inspired by the efforts of the people behind The Golden Space® and these four organizations we sponsored in trying to make a difference to the community. With their vision of creating a better world for all of us and future generations, providing hope, harmony, peace, love & care, we believe their noble efforts will raise awareness and create impact in educating the society about social responsibility and eventually passing these positive values to the community. Having such attitude can have a knock on effect to encourage others to act responsibly too in other areas of their lives. It not only helps improve overall environmental responsibility, educates people to make greener choices, it also helps to create awareness to raise people’s consciousness by encouraging personal growth and development in other area which will create positive impacts in their lives, the humanity and the world. We believe that while we can continue to do charity to help with some basic needs of the less fortunate people, it is very important that we also help to raise the people’s consciousness so that they are able to get out of any negative circumstances they are in themselves. It is everyone’s responsibility to take care of our environment, and our body, mind and soul.”

At Versalink, we feel that we can enhance relationships with our whole community by acting responsibly and selflessly to make the world a better place and community to live in. Versalink believes that investing in our community is important. We love being able to give back to the community and we are committed to support such efforts in bringing positive impact to the community, the humanity, the environment and the world.
