Capital Adequacy Ratio

Consolidated

We calculate the BIS capital adequacy ratio on both a consolidated and non-consolidated basis in line with provisions of Article 14-2 of the Banking Act and on the basis of calculation formula prescribed under the criteria for judging whether a bank's capital adequacy ratio is appropriate in light of assets held (the Financial Services Agency 2006 Notification No. 19, hereinafter referred to as the "FSA Capital Adequacy Notification").

As of the end of September 2025, we adopted Basel requirements for internationally active banks and applied the Advanced Internal Ratings-Based Approach (AIRB) and Foundation Internal Ratings-Based Approach (FIRB) for the calculation of credit risk-weighted assets, and the standardised approach for the calculation of the capital requirement for market risk.

Scope of Consolidation

Consolidated

- (1) There is no difference between companies belonging to the group of companies subject to the consolidated BIS capital adequacy ratio as prescribed by the FSA Capital Adequacy Notification, Article 3 (hereinafter referred to as "SuMi TRUST Bank Group") and the companies included in the scope of accounting consolidation.
- (2) The number of consolidated subsidiaries that belong to SuMi TRUST Bank Group is 37. The principal companies are the following.

Name	Principal Business Operations
Sumitomo Mitsui Trust Panasonic Finance Co., Ltd.	General Leasing, Installment Purchase Services, Credit Card Business
Sumitomo Mitsui Trust Realty Co., Ltd.	Real Estate Brokerage Business
Sumitomo Mitsui Trust Club Co., Ltd.	Credit Card Business
Sumitomo Mitsui Trust Bank (U.S.A.) Limited	Banking, Trust Business

- (3) There is no affiliated company that undertakes financial services subject to the FSA Capital Adequacy Notification, Article 9.
- (4) There are no particular restrictions on the transfer of funds and capital within SuMi TRUST Bank Group.
- (5) Of the subsidiaries which are banking, financial and insurance entities that are outside the scope of regulatory consolidation, none failed to meet the regulatory required capital.

Notes: 1. "Number of obligors" in Column f: "Qualifying revolving retail exposures," "Residential mortgage exposures," and "Other retail exposures" are tallied with the number of loans, because it is difficult to grasp the number of some obligors.

2. Financial Institution exposures (AIRB), purchased receivables for corporates, etc., on default risk (AIRB), purchased receivables for corporates, etc., on dilution risk and originator risk of loan participation (AIRB), and purchased receivables for retail on dilution risk and originator risk of loan participation are not applicable.

Note: Our Basel III leverage ratio calculation was audited by KPMG AZSA LLC, an external auditor, in accordance with "Practical Guidance on Agreed-Upon Procedures Engagement for Capital Adequacy Ratio and Leverage Ratio Calculation" (Practical Guidance 4465 for Specialized Business of the Japanese Institute of Certified Public Accountants).

The certain procedure is not part of the audit of the consolidated financial statements or the audit of the internal control over financial reporting but was conducted by the external auditor in the agreed-upon scope and under agreed-upon examination procedures, and is a report of the results presented to us. It thus does not represent an opinion or conclusion by the external auditor regarding the Basel III leverage ratio itself or parts of the internal control over the procedure to calculate the ratio.

Qualitative Disclosure Items for the Liquidity Coverage Ratio (LCR) on a consolidated basis

(1) Items concerning fluctuations in the LCR over time

Our consolidated LCR has trended steadily for the most part in the past two years.

(2) Items concerning evaluation of the LCR level

Our consolidated LCR satisfies the regulated level (100%) as required under liquidity ratio regulations and the actual LCR is roughly in line with our initial forecast. Going forward, we do not expect our LCR to deviate significantly from the current level.

(3) Items concerning the composition of totals for eligible high-quality liquid assets

The majority of our eligible high-quality liquid assets are reserve deposits held at central banks and sovereign bonds. There have been no material fluctuations in the composition of currencies, their types and locations. Furthermore, there has been no material difference between totals for eligible high-quality liquid assets and net cash outflows in major currencies.

(4) Other items concerning LCR

We don't apply the "Treatment for Qualifying Operational Deposits" and the "Additional Collateral Requirements at the Time of Market Valuation Change Based on the Scenario Approach" stipulated by the Notification.

In addition, in consideration of the impact on the consolidated LCR, monthly or quarterly data are used to calculate daily averages for certain data items that are immaterial and have practical limitations. For instance, this approach is applied to data from consolidated subsidiaries.

Qualitative Disclosure Items for the Net Stable Funding Ratio (NSFR) on a consolidated basis**(1) Items concerning fluctuations in the consolidated NSFR over time**

Our consolidated NSFR has remained mainly stable in the past three years.

(2) Items concerning special provisions for interdependent assets and liabilities

The "Special provisions for interdependent assets and liabilities" stipulated in the items under Article 101 of the Financial Services Agency Notification on Liquidity Ratio are not applied on a consolidated basis.

(3) Other items concerning consolidated NSFR

Our consolidated NSFR satisfies the regulated level (100%), and does not differ significantly from the initial forecast. In terms of future NSFR forecast, we do not expect significant deviations from the current level.

Qualitative Disclosure Items for the Liquidity Coverage Ratio (LCR) on a non-consolidated basis

(1) Items concerning fluctuations in the LCR over time

Our non-consolidated LCR has trended steadily for the most part in the past two years.

(2) Items concerning evaluation of the LCR level

Our non-consolidated LCR satisfies the regulated level (100%) as required under liquidity ratio regulations and the actual LCR is roughly in line with our initial forecast. Going Forward, we do not expect our LCR to deviate significantly from the current level.

(3) Items concerning the composition of totals for eligible high-quality liquid assets

The majority of our eligible high-quality liquid assets are reserve deposits held at central banks and sovereign bonds. There have been no material fluctuations in the composition of currencies, their types and locations. Furthermore, there has been no material difference between totals for eligible high-quality liquid assets and net cash outflows in major currencies.

(4) Other items concerning LCR

We don't apply the "Treatment for Qualifying Operational Deposits" and the "Additional Collateral Requirements at the Time of Market Valuation Change Based on the Scenario Approach" stipulated by the Notification.

In addition, for some data on items that have practical limitations, monthly or quarterly data are used to calculate daily averages.

Qualitative Disclosure Items for the Net Stable Funding Ratio (NSFR) on a non-consolidated basis**(1) Items concerning fluctuations in the non-consolidated NSFR over time**

Our non-consolidated NSFR has remained mainly stable in the past three years.

(2) Items concerning special provisions for interdependent assets and liabilities

The "Special provisions for interdependent assets and liabilities" stipulated in the items under Article 101 of the Financial Services Agency Notification on Liquidity Ratio are not applied on a non-consolidated basis.

(3) Other items concerning non-consolidated NSFR

Our non-consolidated NSFR satisfies the regulated level (100%), and does not differ significantly from the initial forecast. In terms of future NSFR forecast, we do not expect significant deviations from the current level.
