CNA Group wins S\$3.1 million contract in Thailand

- **First collaboration with Shinwa group from Japan to design and project manage a new 143 units condominium construction project in Bangkok**

Singapore, 05 March 2015 - Singapore Mainboard listed Master System Integrator ("MSI"), CNA Group Ltd. ("CNA") is pleased to announce that it was awarded a contract worth approximately S\$3.1 million by Shinwa group from Japan to undertake the design and project management for 143 units of a new condominium to be developed in the Sukhumvit area of Bangkok.

Shinwa group from Japan is a real estate company with an extensive track record of property developments in Japan and Thailand. They deliver homes with the key focus on Japanese styled and quality developments and are involved in the entire property development cycle from site acquisition to project planning, design, management, construction and sales. Their business also includes the management of serviced apartments and mixed-development buildings. This contract marks the first collaboration between CNA and the Shinwa group from Japan and the project is expected to commence in April 2015 and be completed in July 2017.

Mr Michael Ong, CNA's Group CEO and President commented: ***"This new alliance with the Shinwa group from Japan is an affirmation of their trust in our expertise in design, project management and implementation of integrated buildings and facility management solutions. I look forward to more partnerships with them to grow our footprint in Thailand and Japan."***

The above mentioned contract is expected to have a material impact on the results for the financial year ended 31 December 2015 ("FY2015").
