Whether Takeover Defense Measures Are in Place	Yes

Supplementary Explanation Concerning the Subject Matter

Basic Policy as to How the Persons Who Control Decision-making of the Financial and Business Policies of the Company Should Be

(1) Contents of the basic policy

The Company believes it is necessary for the persons who control decision-making regarding the Company’s financial and business policies to have a sufficient understanding of the financial and business affairs of the Company and the source of its corporate value, and to be capable of continuously and sustainably ensuring and enhancing the Company’s corporate value and, in turn, the common interests of its shareholders.

The Company also believes that decisions regarding takeover propositions involving a change of control of the Company should ultimately be made based on the will of the shareholders of the Company as a whole. Furthermore, the Company will not reject a large-scale acquisition offer of the shares of the Company if it will contribute to the corporate value of the Company and, in turn, the common interests of its shareholders.

Nevertheless, among them are not a few forms of large-scale acquisition of shares that benefit neither the corporate value of the target company nor the common interests of its shareholders. Such acquisitions include those with a purpose that would apparently harm the corporate value of the target company and the common interests of its shareholders, those with the potential to practically coerce shareholders into selling their shares, those that do not provide sufficient time or

information for the target company's board of directors and shareholders to consider the details of the large-scale acquisition offer, or for the target company's board of directors to make an alternative proposal, and those that require the target company to discuss or negotiate with the acquirer in order to procure more favorable terms than those originally presented by the acquirer.

It is particularly necessary and essential for the persons who make decisions on the Company's financial and business policies to (i) maintain the system under which the Company internally covers the six business fields that allow the "integration of real estate and finance," which leads to maximization of the potential of the Company group, (ii) maintain employees who support that system with knowledge and experience specializing in real estate and finance, (iii) maintain the Company's trust in the real estate industry that has been built up over a long period of time based on the establishment of the ability and information networks supporting various value creation technologies, and (iv) master knowhow that enables comprehensive business. Unless the acquirer of a proposed large-scale acquisition of the shares in the Company understands the source of the corporate value of the Company as well as the details of financial and business affairs of the Company and would ensure and enhance these elements over the medium-to-long term, the corporate value of the Company and, in turn, the common interests of its shareholders would be harmed.

The Company believes that a person who undertakes a large-scale acquisition of the shares in the Company in a manner that does not contribute to the corporate value of the Company or the common interests of its shareholders will not be the right person to control decisions on the Company's financial and business policies. The Company believes that it needs to secure the corporate value of the Company and, in turn, the common interests of its shareholders, by taking necessary and appropriate countermeasures against such large-scale acquisition offers,

(2) Overview of the special measures to realize the basic policy

Under the new medium-term management plan called "Advancing Together 2017" (the targeted period of the plan is three years from December 2014 to November 2017), the Company group aims to further strengthen the business infrastructure by expanding and developing of the existing six business areas and considering its advance to peripheral areas of business, to build optimum corporate governance for expansion of the Company group and increase of the employees which are entailed in expansion of the business, and to establish efficient organization management structure. Further, the Company group will emphasize the cultivation of the most valuable asset of the Company group, i.e. the human resources to increase satisfaction of the employees of the Company group. As the Basic Policy in the new medium-term management plan for the further growth of the Company group, the Company group is determined to establish the original and distinctive "Tosei brand" by providing products ensuring high customer satisfaction and high-quality services. Based on these policies, the Company group is dedicated to redefine existing

ideas with the spirit of challenge and advance as the risk-taking group of companies, to aim “creation of new values and sensation as the truly globally-minded and promising professionals”.

The Company group has previously appointed multiple outside directors (two members), invited all Audit & Supervisory Board Members (five members) from outside the company, and has notified all of the above seven outside directors and Audit & Supervisory Board Members as “independent directors and/or Audit & Supervisory Board Members” in accordance with the “Principles of Corporate Governance for Listed Companies” of the Tokyo Stock Exchange. Also, the Company group has reinforced the business execution function by the introduction of the executive officer system, and the establishment of the corporate governance board, and will continue to endeavor to further strengthen corporate governance. Specifically, the Company group will focus on putting into practice actions based on a high-level awareness of compliance through raising awareness from the level of “role model” to that of “ideal” in accordance with the Compliance Principles of the Company, thorough implementation of risk management by correctly understanding and analyzing risks involved in corporate activities, continuous performance of accountability to various stakeholders including investors by promptly publicly disclosing correct corporate information under the spirit of fair disclosure, and other efforts for strengthening corporate governance.

- (3) Overview of the measures to prevent persons deemed as inappropriate, in view of the basic policy, from controlling the decisions on the Company’s financial and business policies

This plan is a measure to prevent persons deemed as inappropriate, in view of the aforementioned basic policy, from controlling the decisions on the Company’s financial and business policies, and its objective is to ensure and enhance the Company’s corporate value and, in turn, the common interests of its shareholders.

The plan stipulates procedures to be followed in an acquisition, etc. of shares, etc. of the Company ((A) a purchase and/or other acquisition of the shares and the like issued by the Company that would result in the holding ratio of share certificates, etc. (*kabuken tou hoyuu wariai*) of a holder (*hoyuusha*) of 20% or more; or (B) a tender offer (*koukai kaitsuke*) with respect to the shares, etc. issued by the Company that would result in the sum of the offeror’s ownership ratio, and that of the persons having a special relationship with the offeror, of 20% or more; or any actions similar to (A) or (B) above) by those trying to acquire (hereinafter, the “Acquirer”).

Specifically, the Acquirer must provide the Company a statement of undertaking and an acquisition document that includes necessary information, prior to making an acquisition.

Upon receiving these documents, an independent committee will conduct the review of the acquisition terms, collection of information on materials such as the management plans and business plans of the Acquirer and the Company’s board of directors and comparison thereof, the review of alternative plans, etc. presented by the Company’s board of directors, and discussions

and negotiations with the Acquirer, while obtaining advice from independent experts. In the meantime, the Company will disclose information in a timely manner.

When the acquisition is not in compliance with the procedures stipulated in the plan, and/or there is possibility of such offer to apparently cause harm to the corporate value of the Company and, in turn, to the common interests of shareholders, and it is appropriate for the Company to implement the gratis allotment of stock acquisition rights, the independent committee will recommend the implementation the gratis allotment of stock acquisition rights to the Company's board of directors. In addition, when a meeting of shareholders is convened to confirm the intent of the Company's shareholders, the Company's board of directors will comply with the shareholders' intent. These stock acquisition rights will be allotted with an exercise condition that does not allow, as a general rule, the Acquirer to exercise the rights and an acquisition provision to the effect that the Company will acquire the stock acquisition rights in exchange for shares of the Company from persons other than the Acquirer. The Company's board of directors will resolve, as an agency stipulated by the Companies Act, as to the implementation or non-implementation of the gratis allotment of stock acquisition rights, fully respecting the recommendation of the Independent Committee. In addition, when a meeting of shareholders is convened to confirm the intent of the Company's shareholders, the Company's board of directors will follow the shareholders' intent. If the procedures under this plan have commenced, the Acquirer must refrain from making any acquisition until the Company's board of directors resolves not to trigger the plan. The plan will remain in effect until the conclusion of the ordinary general meeting of shareholders for the last fiscal year ending within three years of the conclusion of the 65nd Ordinary General Meeting of Shareholders. However, if, before the expiration of the effective period, the Company's board of directors resolves to abolish the plan, the plan will be abolished at that time.

(4) Assessment by the Company's board of directors regarding specific measures and reasons thereof

Company's board of directors is of the view that the various measures to enhance the corporate value, including the new medium-term management plan and other measures to strengthen corporate governance have been established as specific actions to continuously and sustainably enhance the corporate value of the Company and, in turn, the common interests of its shareholders, and that these are in line with the basic policy, do not undermine the common interests of the Company's shareholders and are not for the purpose of maintaining the positions of the Company's corporate officers.

In addition, the Company's board of directors is of the view that the plan is in line with the basic policy, does not undermine the common interests of the Company's shareholders, and is not for the purpose of maintaining the positions of the Company's corporate officers, based on the following reasons: an approval at the general meeting of shareholders has been obtained for its renewal; its maximum effective period is stipulated to be three years and it can be abolished at any time by the resolution of the Company's board of directors; an independent committee, which is comprised of

the members that are independent of the management of the Company, has been established and the countermeasures stipulated in the plan requires the decision by the independent committee for actual executions; and the plan fully satisfies the three principles set out in the “Guidelines Regarding Takeover Defense for the Purposes of Protection and Enhancement of Corporate Value and Shareholders’ Common Interests” released by the Ministry of Economy, Trade and Industry and the Ministry of Justice on May 27, 2005.

In finalizing the contents of the disclosure, the Corporate Planning Department further obtains a resolution from the Board of Directors on those matters requiring the board resolutions, and/or an approval by the President and CEO for other matters requiring the Company's approvals.
