FOR IMMEDIATE RELEASE

Attika Group Reports 19.3% Growth in FY2025 Net Profit to S\$3.4 Million; Aims to Distribute Dividend Payout of 35% for FY2026 and FY2027

- **Gross profit margin expanded to 20.5% in FY2025 from 15.1% in FY2024**
- **Secures two new contracts totalling S\$12.0 million for interior fit-out works**
- **Proposes a final dividend of 1.1029 Singapore cents per share**
- **Targets to pay out 35% of net profit attributable to owners for FY2026 and FY2027**

Singapore, **27 February, 2026** – Attika Group Ltd. (“**Attika**” or the “**Company**”, and together with its subsidiaries, the “**Group**”), is pleased to announce its financial results for the financial year ended 31 December 2025 (“**FY2025**”).

Despite a moderation in revenue following the completion of a major corporate office project in the previous financial year (“**FY2024**”), the Group achieved a 19.3% year-on-year (“**y-o-y**”) increase in net profit attributable to shareholders to S\$3.4 million in FY2025. This growth underscores the Group’s strategic pivot towards higher-margin projects and enhanced operational efficiencies.

The Group recorded revenue of S\$37.5 million for FY2025, a decrease of 32.4% from S\$55.5 million in FY2024. This moderation was primarily due to the high base effect from the completion of a significant corporate office project in FY2024. The decrease was partially offset by revenue recognition from projects secured in FY2024 that reached substantial completion during FY2025. These projects were mainly from government, data centre and community projects.

Gross profit for FY2025 stood at S\$7.7 million. Notably, gross profit margin improved significantly to 20.5% in FY2025, compared to 15.1% in FY2024. This 5.4 percentage point expansion was driven by improved cost management.

Administrative expenses decreased by 26.3% to S\$3.7 million in FY2025, largely due to the absence of one-off listing expenses incurred in FY2024, partially offset against with the increase in staff cost by S\$218,000, mainly due to salary adjustments, increase in headcount and higher directors fees of S\$122,000 and increase in amortisation of right-of-use assets of approximately S\$237,000.. Consequently, net profit attributable to equity holders rose to S\$3.4 million for FY2025, up from S\$2.8 million in FY2024.

Final Dividend and Target Dividend Payout for Next Two Years

The Board of Directors has recommended a final tax-exempt (one-tier) dividend of 1.1029 Singapore cents per ordinary share for FY2025 (“Final Dividend”), a 50% increase from 0.7353 Singapore cents in the prior year. The Final Dividend is proposed after taking into consideration the Group’s financial performance in FY2025, cash flows and cash position of the Group and the Group’s current and future cash flow requirements.

Further demonstrating its commitment to sustainable shareholder returns, the Company aims to distribute an annual dividend payout of 35% of the Group’s profit attributable to equity holders for the financial years ending 31 December 2026 (“**FY2026**”) and 31 December 2027 (“**FY2027**”).

New Contract Wins and Outlook

Bolstering its order book for the year ahead, Attika has secured two new interior fit-out contracts with an aggregate value of approximately S\$12.0 million. These projects, both from the Land

Transport Authority of Singapore (“**LTA**”), involve interior fit-out works for a bus interchange (≈S\$5.5 million) and a commercial office building (≈S\$6.5 million), both located in Jurong East, with completion expected by 2027. The new contracts are expected to contribute progressively to the Group’s financial performance over the next two years.

These latest wins add to the Group’s robust project pipeline, which includes the S\$38 million interior fit-out contracts announced in January 2026 and the S\$26 million high-specification projects (including a data centre and clean rooms) secured in November 2025.

Mr. Steven Tan, Executive Chairman and Managing Director of Attika said:

“Our FY2025 performance demonstrates the resilience of our business model. While topline figures moderated after a landmark FY2024, our ability to expand margins and grow net profit by nearly 20% validates our strategy of targeting high-value, high-specification projects. We are seeing strong momentum moving into 2026, evidenced by our recent wins in public infrastructure and commercial sectors. With our target dividend payout for the next two years, we are committed to sharing the fruits of this growth with our shareholders while maintaining the capital discipline required to seize opportunities in Singapore’s thriving construction sector.”

Looking ahead, the Building and Construction Authority (“BCA”) estimates construction demand in Singapore to reach between S\$39 billion and S\$46 billion annually from 2027 to 2030 ⁽¹⁾. Attika remains well-positioned to capitalise on this demand, particularly in niche sectors such as data centres and both public and private sector infrastructure.
