**Extension of Trading Halt**

---

The Board of Directors of the Company (the “Board”) would like to inform that the Company has halted the trading of its shares with effect on and from 31 May 2022 (the “Trading Halt”) in anticipation of finalising certain agreements in respect of which it is currently still in the midst of finalising with parties that are based overseas and travelling earlier. As the Company requires additional time to complete such discussions and negotiations in order to conclude the agreements and to finalise the relevant announcements for release to the Shareholders, the Company has consulted the Singapore Exchange and at the Company’s request, the Singapore Exchange has granted an extension of the trading halt by one day (i.e., the trading halt may be lifted by no later than 8.00 a.m. on 6 June 2022). This would enable the Company to ensure that all material disclosures are made before the counter resumes trading.
