

Annual Communication on Progress (ACOP) 2025

Golden Agri-Resources Ltd

Thank you for submitting your ACOP report.
Please reach out to acop@rspo.org for any inquiries.

Welcome to the Annual Communication on Progress (ACOP) 2025 report.

Before you begin your ACOP 2025 report, we recommend that you refer to the ACOP Guidelines document. This document contains a full list of ACOP 2025 questions in Annex 2 to assist you in preparing the report. The ACOP Guidelines document is available in English, Bahasa Indonesia, French, German, Spanish, Polish, Thai, Simplified Chinese and Japanese.

[Get ACOP Guidelines](#)

Help text containing guidelines and definitions for individual questions is available in the report. Please hover over this symbol  to view the help text

The ACOP submission platform features an auto-save function. Your responses will automatically be saved as you proceed through the report, and you may exit and return to the report at a later time with your previous responses available.

At the end of the survey, you will be given an option to send a draft copy of the report to your email for review. Once the report has been submitted, you may download a PDF version of the report and a copy of the final report can also be sent to your email.

RSPO Member Particulars

Member Name	Golden Agri-Resources Ltd
Membership Number	1-0096-11-000-00
Membership Sector	Oil Palm Growers
Membership Category	Ordinary
Country	Mauritius

- **Please click this button to confirm that your membership particulars are correct and to acknowledge that you have read the ACOP introduction and are ready to begin your report.**

2.0 Please select ALL the palm oil-related activity(ies) that describe your company or organisation as multiple selections are allowed. ACOP reporting is NOT limited to the primary sector of the member's RSPO membership. You will be required to complete the relevant ACOP section based on your selection(s). ?

Example 1 :

For Environmental/Conservation NGO and Social/Development NGO RSPO members that consume or retail palm oil or products containing palm oil, you will be required to answer the "Retailer" ACOP form that must include the volumes of palm oil or products containing palm oil consumed or retailed under your organisation's own brands.

Example 2 :

Oil Palm Grower or Processors and/or Traders RSPO members that refine palm oil and manufacture own brand consumer cooking oil, you will be required to select and answer "Processors and/or Traders" and "Consumer Goods Manufacturers" ACOP form that must include the volumes of palm oil or products containing palm oil consumed under your organisation's own brands.

- I own and operate oil palm estate(s) and NOT Independent Smallholder farmer Group
- I represent a palm oil Independent Smallholder farmer Group
- I own and operate palm oil mills
- I own and operate palm kernel crushing plants - Processors and/or Traders
- I trade or broker palm oil, palm kernel oil or related products - Processors and/or Traders
- I am a refiner of palm oil or palm kernel oil - Processors and/or Traders
- I am a processor of intermediate (B2B) palm oil, palm kernel oil or related fractions/derivatives - Processors and/or Traders
- I am a B2B distributor or wholesaler of palm oil, palm kernel oil or related products - Processors and/or Traders
- I manufacture final consumer (B2C) products containing palm oil, palm kernel oil or related products. This includes products manufactured by 3rd party contractors - Consumer Goods Manufacturers
- I retail final consumer (B2C) products containing palm oil, palm kernel oil or related products - Retailers

I operate food retail outlets that use palm oil, palm kernel oil or related products - Retailers

G.1.0 Operational profile

G.1.1 Please state your company's main activities as a palm oil grower:

- Oil palm grower without palm oil mill
- Oil palm grower with palm oil mill
- Oil palm grower with palm oil mill and palm kernel crushing plant
- Independent palm oil mill

G.2.0 - Operations and Certification Progress

Information in Section 2.0 - Operations and Certification Progress - is a mandatory declaration in your ACOP. This includes hectare data, to enable the RSPO to accurately calculate certification of individual members, sectors and RSPO members as a whole. ACOP reports without reported hectare data will be considered as incomplete and will not be accepted. Incomplete ACOP reports may lead to suspension or termination of RSPO membership.

G.2.1 Land area controlled and managed associated to palm oil

G.2.1.1 Please state the total number of palm oil estates, certified and uncertified, controlled or managed by the member

Land area controlled and managed associated to palm oil

G.2.1.2 Total land controlled or managed for oil palm cultivation - planted and infrastructure (hectares) <input type="checkbox"/>	414601	ha
G.2.1.3 Total land controlled or managed for oil palm cultivation - unplanted (hectares) <input type="checkbox"/>	0	ha
G.2.1.4 Total land designated and managed as HCV areas (hectares) <input type="checkbox"/>	62730	ha
G.2.1.5 Other conservation land set aside, excluding HCV areas reported in 2.1.4 (hectares) <input type="checkbox"/>	0	ha
G.2.1.6 Other land under management unit (hectares) <input type="checkbox"/>	0	ha
G.2.1.7 Total land under scheme smallholders (hectares) <input type="checkbox"/>	116754	ha
Total	594,085	ha

G.2.2 Certification Progress

G.2.2.1 Number of management units certified under the RSPO P&C Certification

102

G.2.2.2 Total certified land under the RSPO P&C Certification, excluding scheme smallholders (hectares)

272953.52

G.2.2.2.1 Certification progress - land under RSPO P&C Certification, excluding scheme smallholders

57.18%

G.2.2.3 Total certified land under scheme smallholders (hectares) ?

49637.21

G.2.2.3.1 Certification progress - land under scheme smallholders ?

42.51%

G.2.3 In which countries are your estates located? ?

G.2.3.1 Indonesia – Please indicate which province(s)

Press and hold Ctrl or Command on your keyboard to select or deselect multiple provinces.

Aceh
Bali
Bangka Belitung
Banten
Bengkulu
Central Java
Central Kalimantan
Central Sulawesi
East Java
East Kalimantan

G.2.3.2 Malaysia – Please indicate which state(s)

Press and hold Ctrl or Command on your keyboard to select or deselect multiple states.

Johor
Kedah
Kelantan
Malacca
Negeri Sembilan
Pahang
Penang
Perak
Perlis
Sabah

G.2.3.3 Thailand– Please indicate which province(s)

Press and hold Ctrl or Command on your keyboard to select or deselect multiple provinces.

Amnat Charoen
Ang Thong
Bangkok
Bueng Kan
Buriram
Chachoengsao
Chainat
Chaiyaphum
Chanthaburi
Chiang Mai

G.2.3.4 Other – Please indicate which country/countries

Press and hold Ctrl or Command on your keyboard to select multiple countries.

Afghanistan
Albania
Algeria
American Samoa
Andorra
Angola
Anguilla
Antigua & Barbuda
Argentina
Armenia

G.2.4 New plantings and development (excluding replanting) ?

G.2.4.1 How much new land was planted by your company during this reporting period (hectares)? ?

0

G.2.5 Supply of Fresh Fruit Bunches (FFB)

G.2.5.1 Total FFB volume produced by estates managed or controlled by your company (tonnes) ?

7265853

G.2.5.1.1 Total certified FFB volume produced by certified estates managed or controlled by your company (tonnes) ?

4737328

G.2.5.1.2 Certification progress - Certified FFB volume produced by estates managed or controlled by your company

65.20%

G.2.5.2 In addition to FFB produced by your company's estates, does your supply base include any of the following?

- Scheme Smallholders 
- Independent Smallholders 
- Outgrowers 
- Other Third-Party Suppliers 

G.2.5.3 Scheme smallholder operations that supply your operations:

G.2.5.3.1 Total FFB volume supplied by scheme smallholders (tonnes)

1887418

G.2.5.3.2 Total certified FFB volume supplied by scheme smallholders (tonnes)

853041

G.2.5.3.3 Certification progress - Certified FFB volume supplied by scheme smallholders

45.20%

G.2.6 Fresh Fruit Bunches (FFB) processing and production operations

G.2.6.1 Number of palm oil mills operated ?

48

G.2.6.2 Number of palm oil mills that are RSPO Certified ?

37

G.2.7 Palm Kernel processing and production operations

G.2.7.1 Number of palm kernel crushers and/or palm kernel mills operated ?

9

G.2.7.2 Number of palm kernel crushers and/or palm kernel mills certified under RSPO Supply Chain Certification (SCC) ?

9

G.3.0 Palm Oil and Certified Palm Oil Production

Information in Section 3 - Palm Oil and Certified Palm Oil Production - is a mandatory declaration in your ACOP. This includes volume, to enable the RSPO to accurately calculate production uptake on a member, sector and total level. ACOP reports without reported volume data will be considered incomplete and will not be accepted.

G.3.1 Total Crude Palm Oil produced (tonnes) ?

Malaysia ?	0	MT
Indonesia ?	2187485	MT
Latin America ?	0	MT
Africa ?	0	MT
Thailand ?	0	MT
Rest of the World ?	0	MT
Total	2,187,485	MT

G.3.2 CSPO sold as RSPO certified ?

Identity Preserved (IP) ?	400176.91	MT
Segregated (SG) ?	0	MT
Mass Balance (MB) ?	510766.65	MT
RSPO Credits ?	10000	MT
Total	920,943.56	MT

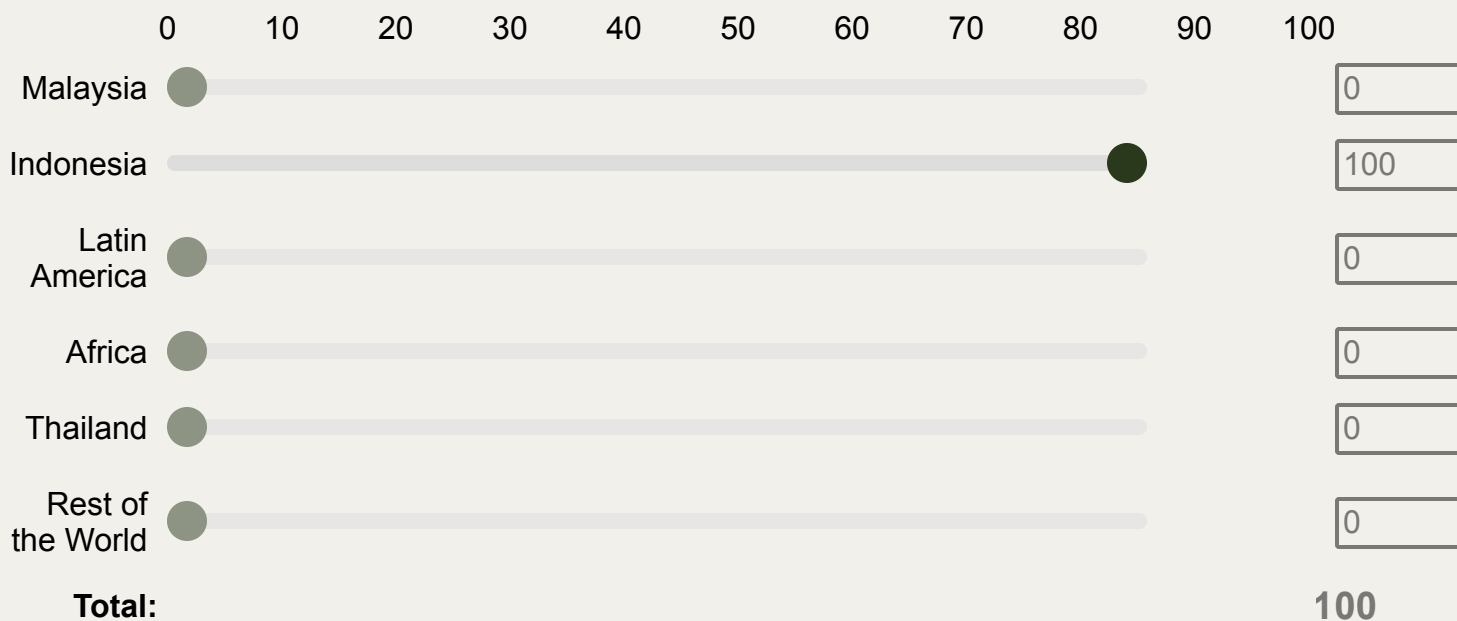

G.3.5 Total CSPO ?

G.3.2 CSPO sold as RSPO-certified ?	920943.56	MT
G.3.3 CSPO sold under other certification schemes ?	0	MT
G.3.4 CSPO sold as conventional ?	66735.80	MT
Total	987,679.36	MT

G.3.6 According to the volume information you have provided in this questionnaire, CSPO represents the following percentage of your total CPO production ?

45.15%

G.3.7 Based on total CSPO volumes sold (Question G.3.6) , please estimate the percentage of the volumes originating from your operations in the following regions/countries ?

G.3.8 Total Palm Kernel produced (tonnes) ?

Malaysia ?	0	MT
Indonesia ?	581646	MT
Latin America ?	0	MT
Africa ?	0	MT
Thailand ?	0	MT
Rest of the World ?	0	MT
Total	581,646	MT

G.3.9 CSPK sold as RSPO certified ?

Identity Preserved (IP) ?	107370.60	MT
Segregated (SG) ?	0	MT
Mass Balance (MB) ?	154262.80	MT
Total	261,633.4	MT

G.3.12 Total CSPK sold ?

G.3.9 CSPK sold as RSPO-certified ?	261633.4	MT
G.3.10 CSPK sold under other certification schemes ?	0	MT
G.3.11 CSPK sold as conventional ?	5445.86	MT
Total	267,079.26	MT

G.3.13 According to the volume information you have provided in this questionnaire, CSPK represents the following percentage of your total PK production ?

45.92%

G.3.14 Based on the CSPK sold volumes (Question G.3.12), please estimate the percentage of volumes originating from your operations in the following regions/countries: ?

G.4.0 TimeBound Plan

G.4.1 Which year did your company achieve (or plans to achieve) its first RSPO P&C certification? ?

2011

G.4.2 Which year did your company achieve (or plans to achieve) 100% RSPO certification for all its estates and mills? ?

2027

G.4.2.1 If the previous target year for G.4.2 has not been met, please explain why

Due to additional non-certified area within certified estates, GAR recently revised its RSPO Time-Bound Plan ("TBP") to 2027 in response to several challenges that have prevented it from completing its RSPO certification timebound plan, including RaCP and land title (HGU), which are presently in the processing stages.

G.4.3 Which year did your company achieve (or plans to achieve) 100% RSPO certification of scheme smallholders?

2027

G.4.3.1 If the previous target year for G.4.3 has not been met, please explain why

To meet the deadline, GAR continues in coordination with the important parties. In order to accomplish the target, the initial purpose is specified under conservative conditions. However, a number of factors have changed the original concept. GAR will continue to make the required adjustments to guarantee that the deadline is fulfilled.

G.4.4 Which year did your company achieve (or plans to achieve) 100% RSPO certification for all FFB, regardless of source?

2030

G.4.4.1 If the previous target year for G.4.4 has not been met, please explain why

GAR acknowledges that the timebound is now customized to the existing conditions. This, in our opinion, makes the objective attainable. But we also acknowledge that some issues include other important essential parties and are outside the company's authority. Thus, we are working to accomplish the present goals in spite of difficult obstacles.

G.5.0 Concession Boundaries

G.5.1 The RSPO General Assembly Resolution 6G (2013) calls for all members with Grower operations to submit their concessions boundaries through ACOP.

Has your company submitted complete concession boundaries up to supply base level to the RSPO in previous ACOP cycles as per Formatting Requirements for Plantation Boundary Data Submission Guidelines? 

Yes

No

G.5.2 Has your company either acquired any new concession sites, have any concession sites changed ownership or change its boundaries since the previous ACOP submission? 

Yes

No

Thank you for previously submitting your company's concession maps in Shapefile format. If there are any updates to the maps, please contact the RSPO GIS team at maps@rspo.org

G.6.0 GHG Footprint

G.6.1 Has your company started quantifying its GHG emissions and monitoring? 

Yes. Please state the year when your company started tracking and monitoring.

2015

No. Please explain why your company has yet to start GHG emissions tracking and monitoring.

G.6.2.1 What is the average GHG emissions by hectare (tCO₂e/ha) for all certified management units in this reporting year? 

4.45

G.6.2.2 What is the average GHG emissions per tonne of crude palm oil (tCO₂e/tCPO) for all certified management units in this reporting year? 

2.44

G.6.3 What are the key emission sources identified by your company in certified management units? 

- Land use change
- Existing cultivation peatland
- Palm oil mill effluent (POME)
- Fertiliser application

Others

Land Use Changes, Existing Cultivation peatland, POME, Fertilizer application, Fuel consumption, Electricity consumption from the grid

G.6.4.1 Does your company have a long-term target? 

Yes. Kindly provide your company target(s).

On the route to Net Zero by 2050, GAR established climate targets of 30% absolute reduction in Scope 1 and Scope 3 FLAG emissions and 42% absolute reduction in Scope 1 and 2 Non-FLAG emissions by 2030 from 2022 baseline.

No. Please explain why your company did not have an emissions target, and forecast how your emissions will change over the next five years?

G.6.4.2 What is your baseline year for setting the target? 

2022

G.6.4.3 What is your target baseline (average tCO₂e/tCPO)?

0

G.6.5 Does your company have an annual GHG emissions reduction/minimising target for all certified management units?

Yes

No, identify the reason(s) :

We developed decarbonisation roadmap and identified key initiatives to address emissions reduction and report the progress at the total level. Besides that, We published Emissions Intensity (tCO₂e/t CPO) in Sustainability Report, however we do not explicitly declare emissions intensity as the target baseline. Our 2030 targets are based on absolute reduction. Hence this question does not apply to us.

G.7.0 Support for Oil Palm Smallholders

G.7.1 How is your company supporting Independent Smallholder groups?

Sourcing of physical FFB

Financial support

Operations support

Training support

Community development

Not supporting Independent Smallholder groups

Others

G.7.1.1 Please provide the names and locations of the oil palm Independent Smallholder groups that you are currently supporting. This question is not mandatory, and is left to the discretion of the RSPO member to answer. 

GAR launched SmartTrace. This blockchain-based system provides end-to-end visibility of our palm oil's journey—from plantation to product. Together with satellite monitoring, mapping, and supplier empowerment, it helps smallholders comply with the EU Deforestation Regulation (EUDR) and future regulations. Besides that, GAR supported 77,302 plasma smallholders by providing access to certified seeds, fertilisers, and agronomic support, enabling yields of 3.6 tonnes of CPO per hectare. Training is another cornerstone of our support. We regularly deliver in-house sessions and field visits to equip smallholders with best practices in Good Agricultural Practices, integrated pest and fertiliser management, and sustainable land stewardship. Building on this momentum, under Collective for Impact, we are committed to training 100,000 smallholders by 2035, equipping them with the knowledge, tools and support to adopt sustainable practices, improve productivity and secure better income.

G.8.0 Actions For Next Reporting Period

G.8.1 Outline activities that your company will undertake in the coming year to advance its certification efforts. 

By 2027, we want to have all of our remaining mills and their supply bases—including plasma estates—certified.

G.8.2 Outline activities that your company will undertake in the coming year to promote the uptake CSPO along the supply chain. 

Since achieving full TTP for GAR-owned mills in 2017, we have expanded efforts to third-party suppliers, reaching 99.5% TTP in our Indonesian palm supply chain. To address this, GAR collaborates with multiple stakeholders on initiatives to transform the palm oil industry. These projects assist smallholders in adopting responsible practices and improving their livelihoods. One such initiative is the Sawit Terampil. Participants benefit from group coaching and individualised support on Good Agricultural Practices. To date, over 10,000 smallholders have benefited from the project.

PT.1.0 Operational Profile

PT.1.1 Please state your company's main activity within the palm oil supply chain.

- Refiner of CPO and PKO 
- Palm Kernel Crusher 
- Trader with Physical Possession 
- Trader without Physical Possession 
- Integrated Refiner-Trader-Processor 
- Intermediate Products Producer 
- Power, Energy and Biofuel Processor 
- Animal Feed Producer 
- Oleochemicals Producer 
- Distribution & Logistics 
- Other

PT.2.0 Palm Oil and Certified Sustainable Palm Oil Consumption

Information in Section 2.0 - Palm Oil and Certified Sustainable Palm Oil Sourcing is a mandatory declaration in your ACOP. This includes volume data on palm oil, palm kernel oil and related products consumed of individual members, sectors and RSPO members as a whole. ACOP reports without reported volume data will be considered as incomplete and will not be accepted. Incomplete ACOP reports may lead to suspension or termination of RSPO membership.

PT.2.1 Please include details of all certified and uncertified operations using palm oil, palm kernel oil and related products, owned and/or managed by the member and/or all entities that belong to the group. 

PT.2.1.1 In which markets do you sell goods with palm oil and palm oil - related products? 

- Europe 
- North America 
- China
- India
- Malaysia
- Indonesia
- Africa 
- Latin America 
- Rest of the World 

DL.2.0 In order to facilitate ease of reporting and transparency, RSPO members operating within the palm oil demand supply chain can now choose to report palm oil and palm oil product volumes on:

- 1) an aggregate level (as in previous ACOP reporting cycles) OR**
- 2) by up to 5 individual subsidiaries. Members with more than 5 subsidiaries will be required to aggregate the volumes of remaining subsidiaries into a separate total.**

Please indicate whether you would like to declare your palm oil and palm oil product volumes in aggregate or by subsidiaries 

- an aggregate level (as in previous ACOP reporting cycles)**
- by up to 5 individual subsidiaries. Members with more than 5 subsidiaries will be required to aggregate the volumes of remaining subsidiaries into a separate total.**

PT.2.2 Total volume of RSPO-certified (IP, MB, SG and RSPO Credits/Book and Claim) and Non RSPO-certified palm oil, palm kernel oil and related product sourced in the year ?

Crude palm oil, including derivatives refined from CPO (tonnes) ?	7227089	MT
Crude palm kernel oil, including derivatives refined from CPKO (tonnes) ?	1224854	MT
Crude palm kernel expeller (tonnes) ?	832701	MT
Total	9,284,644	MT

PT.2.3 Volume of RSPO-certified palm oil, palm kernel oil and related products sourced in the year (tonnes):

	Crude Palm Oil (CSPO) and CSPO Derivatives	Crude Palm Kernel Oil (CSPKO) and CSPKO Derivatives	Palm Kernel Expeller (CSPKE)
RSPO Credits from Mill / Crusher ?	0 MT	0 MT	0 MT
RSPO Credits from Independent Smallholder ?	0 MT	0 MT	0 MT
Mass Balance (MB) ?	699924 MT	410579 MT	0 MT
Segregated (SG) ?	274465 MT	0 MT	0 MT
Identity Preserved (IP) ?	0 MT	0 MT	0 MT
Total	974,389 MT	410,579 MT	0 MT

PT.2.4 According to the volume information you have provided in Question PT.2.2 and Question PT.2.3, your company's certified palm oil, palm kernel oil and related products uptake is: ?

14.92%

PT.2.4.1 Please provide additional information on your certified palm oil, palm kernel oil and related products uptake calculated in PT.2.4. This may include changes due to business environment, evolving nature of operations or variations due to stock positions

There is no further comments or information in this section.

PT.2.5 What is the estimated percentage of Certified Sustainable Palm Oil in the palm oil, palm kernel oil and related products sold, traded or processed by your company in the following regions: ?

PT.3.0 TimeBound Plan

PT.3.1 Which year did your company achieve (or expects to achieve) the RSPO supply chain certification or RSPO trader/distributor licence? 

2013 

PT.3.2 Which year did your company start (or expect to start) to source any RSPO-certified palm oil and oil palm products? 

2013 

PT.3.2.1 If the previous target year has not been met, please explain why.

Target has been achieved.

PT.3.3 Which year did your company achieve (or expects to achieve) 100% RSPO certification of all palm product processing facilities. 

2017 

PT.3.3.1 If the previous target year has not been met, please explain why.

Target has been achieved.

PT.3.4 Year expected to only source RSPO-certified palm oil and oil palm products. 

2030 

PT.3.4.1 If target has not been met, please explain why.

The timebound is currently ongoing.

PT.3.5 If the TimeBound Plan commitments declared above do not cover all countries in which the member operates, please explain why

We believe the industry needs to evolve to properly handle RSPO Certified products as the majority of our farmers produce them and the majority of customers demand them. GAR is committed to working with our clients, suppliers, and other RSPO members to achieve this aim.

PT.4.0 Actions for Next Reporting Period

PT.4.1 Please outline activities that your company will take in the coming year to promote the production or consumption of certified sustainable palm oil (CSPO)

- Participation in RSPO Working Group or Task Forces**
- Support Independent Smallholders (ISH)**
- Contribute to the RSPO Smallholder Trainer Academy**
- Financial contribution to the RSPO Smallholder Support Fund
- Direct investments in Smallholder Certification projects**
- Involvement/direct investments in Jurisdictional/Landscape approach**
- Direct/collective investments in conservation and restoration initiatives**
- Financial contribution to support members with Remediation and Compensation (RaCP) process, direct/collective investments in conservation and restoration initiatives
- Allocating FTE to promote the production or consumption of certified sustainable oil palm products
- Specific policies and action plans by the member to promote CSPO production or consumption in the upstream or downstream supply chain, including target dates or broader policies that include such efforts
- No activities planned
- Others**

We inform our clients of our ability to implement the RSPO CSPO's MB & SG physical supply chain modules. Additionally, we encourage our suppliers to follow the RSPO guidelines. Please visit our GAR Website (<https://www.goldenagri.com.sg/sustainability/certifications/RSPO/>) and GAR Supplier Assessment (<https://www.goldenagri.com.sg/sustainability/responsible-sourcing/supplier-assessment/>) for additional details on our initiatives to promote the adoption of RSPO certification on oil palm products in our supply chain.

CS.1.0 Challenges and Support

CS.1.1 What significant obstacles or challenges has your company encountered in the promotion of certified sustainable palm oil (CSPO)? What efforts has your company taken to address these obstacles or challenges?

- Awareness of RSPO in the market
- Difficulties in the certification process
- Certification of smallholders
- Competition with non-RSPO members
- High costs in achieving or adhering to certification
- Human rights issues
- Insufficient demand for RSPO-certified palm oil**
- Low usage of palm oil
- Reputation of palm oil in the market
- Reputation of RSPO in the market
- Supply issues
- Traceability issues
- No challenges faced
- Others**

1. The main markets in which we do business have low demand. 2. On the supply side, it is difficult to persuade new plantations to join the RSPO when there is no immediate demand. 3. Not all suppliers may get RSPO accreditation, nor do all clients demand items to have this certification. 4. The RSPO certification alone is not sufficient to ensure compliance with EUDR requirements. However, from the company's perspective, RSPO certification can be utilized as part of the risk mitigation framework to support the classification of risk toward a negligible level.

CS.1.2 In addition to the actions already reported in this ACOP report, what other ways has your company supported the vision of the RSPO to transform markets to make sustainable palm oil the norm? 

- Communication and/or engagement to transform the negative perception of palm oil
- Engagement with business partners or consumers on the use of CSPO
- Engagement with government agencies
- Engagement with peers and clients
- Promotion of CSPO through off product claims
- Promotion of CSPO outside of RSPO venues such as trade workshops or industry associations
- Promotion of physical CSPO
- Providing funding or support for CSPO development efforts
- Research & Development support
- Stakeholder engagement
- No actions taken
- Others

CS.1.3 If your company has any other publicly-available reports or information regarding its palm oil-related policies and activities, please provide the links here 

Further information on GAR palm oil-related policies and activities is publicly available on our official website and in our Sustainability Report, including our Sustainability Policy (GSEP), grievance dashboard, and sustainability updates. <https://www.goldenagri.com.sg/>;
https://www.goldenagri.com.sg/wp-content/uploads/2025/05/GAR_Sustainability_Report_2024.pdf?v1; <https://www.goldenagri.com.sg/sustainability/responsible-sourcing/supplier-assessment/>;
<https://www.goldenagri.com.sg/suppliers/support-for-palm-suppliers/>;
<https://www.goldenagri.com.sg/sustainability/responsible-sourcing/grievance-handling/>

S.1.0 Would you like to submit your ACOP 2025 report now? The data reported in ACOP 2025 is acknowledged to be true and accurate upon submission.

- No, I would like to have my ACOP 2025 reviewed internally by my company or organisation before submission
- Yes, I would like to proceed to submit my ACOP 2025 report

S.1.2 Thank you for completing your ACOP 2025 report. Please click the Submit button below to submit your final ACOP 2025 report.

Please enter your email address below to receive a copy of your ACOP 2025 report by email. You may also download a PDF copy of your report once it has been submitted.

steven.f.tamaweol@sinarmas-agri.com

To enhance our communication efforts, we encourage you to keep the contact details of your organization's RSPO representatives in MyRSPO updated from time to time.

Note: While acknowledging this is optional, your response would be helpful and appreciated.

- I have reviewed the contact details of my organisation's RSPO representatives in MyRSPO and have ensured it is up-to-date.

If you have any questions regarding your ACOP reporting, please contact the ACOP team at acop@rspo.org
