FURTHER OPERATIONAL UPDATES ON THE CIEMAS GOLD PROJECT

The board of directors (the "**Board**") of Wilton Resources Corporation Limited (the "**Company**", and together with its subsidiaries, the "**Group**") refers to the Company's announcement dated 10 December 2024 in relation to the Operational Updates on the Ciemas Gold Project (the "**Announcement**").

Further to the Announcement, the Board wishes to update that due to the continued power outage as a result of the heavy rainfall caused by the La Nina phenomenon, the Group's Processing Facility is currently unable to operate due to the lack of electricity and lack of new supplies of fuel to power the back-up fuel generators of the Processing Facility. Despite working closely with Perusahaan Listrik Negara, an Indonesian government owned corporation which generates the majority of the country's electrical power, the supply of electricity to the Group's Processing Facility continues to be unstable. In addition, the damages to the roads and bridges have continued to prevent vendors from delivering any supplies, including new supplies of fuel, to the mine site.

Notwithstanding, there has been no damage to the infrastructure of the Group's Processing Facility, as well as its supporting infrastructure to-date, and all headcount on the mine site has been accounted for.

The Company will continue to monitor the situation and make appropriate announcement(s) as and when there are material developments, including material financial impact to the Group, if any.

Shareholders and potential investors of the Company are reminded to exercise caution when dealing in the securities of the Company and are advised to read this announcement and any further announcements by the Company carefully. When in doubt, shareholders and potential investors of the Company should consult their stockbrokers, bank managers, solicitors, accountants or other professional advisors if they are in doubt about the actions that they should take.
