KOH BROTHERS ECO ENGINEERING LIMITED
(Unique Entity Number: 197500111H)

NEWS RELEASE

KOH BROTHERS ECO ENGINEERING RECEIVES APPROVAL IN-PRINCIPLE FROM THE SGX-ST FOR THE PROPOSED TRANSFER TO THE SGX MAINBOARD

- **Proposed transfer of the listing of the Company from Catalist to the Mainboard of the SGX-ST is expected to strengthen corporate profile, broaden investor base and enhance trading liquidity**

SINGAPORE, 1 July 2026 – SGX Catalist-listed sustainable engineering solutions provider, Koh Brothers Eco Engineering Limited (許兄弟生态工程有限公司) ("**Koh Brothers Eco**" or the "**Company**" together with its subsidiaries, collectively the "**Group**"), is pleased to provide an update that it has received the approval in-principle for the proposed transfer of its listing from the Catalist Board to the Mainboard of the Singapore Exchange Securities Trading Limited ("**SGX-ST**") (**"Proposed Transfer**").

First announced on 27 May 2026 via an SGXNet announcement, the Proposed Transfer of Koh Brothers Eco to the Mainboard of the SGX-ST is intended to better reflect the Company's market position, stage of growth and relative stability, while enhancing long-term value for shareholders.

Koh Brothers Eco Engineering's Chief Executive Officer, Mr. Paul Shin, commented, "Our proposed transfer to the Mainboard marks an important milestone in the Group's growth journey and reflects the strength of our business, operational track record and long-term strategy.

We are confident that a Mainboard listing will help enhance our visibility among investors, by providing the Company access to a larger and more diverse investor base, resulting in better liquidity and encouraging greater institutional investor participation, which could lead to improvements in market valuation that better reflects the underlying value of the Group. The Group will also have greater flexibility to pursue growth opportunities both locally and overseas, supporting the creation of sustainable, long-term value for our shareholders.

As at 31 December 2025, the Group has a total order book of approximately S$1.1 billion, providing earnings visibility across its engineering and construction, bio-refinery and renewable energy businesses. "

Subject to the necessary regulatory and shareholders' approvals, the Proposed Transfer is expected to strengthen the Company's profile both locally and overseas, broaden its investor base and improve research coverage and share liquidity. It is also expected to enhance its credibility and visibility with stakeholders.

A circular in relation to the Proposed Transfer will be issued, and a notice convening the extraordinary general meeting to seek approval from the shareholders of the Company will be despatched in due course.

The Company will update Shareholders as and when there are material developments in respect of the Proposed Transfer.

About Koh Brothers Eco Engineering Limited

Listed on the Singapore Exchange ("**SGX**") in 2006, Koh Brothers Eco Engineering Limited ("**Koh Brothers Eco**", and together with its subsidiaries, the "**Group**") is a sustainable engineering solutions group that provides engineering, procurement and construction ("**EPC**") services for water and wastewater treatment, hydro-engineering, bio-refinery and renewable energy projects as well as engineering and construction services, specialising in providing building and civil engineering construction and infrastructure works.

Incorporated in Singapore in 1975, Koh Brothers Eco started out by providing EPC services for water and wastewater treatment projects as well as hydro-engineering projects. Its principal market is in Asia with projects from both the public and private sectors.

The Group's Engineering and Construction division under Koh Brothers Building & Civil Engineering Contractor (Pte.) Ltd. ("**KBCE**"), which holds the A1 grade from the Building and Construction Authority ("**BCA**") for both building and civil engineering categories, possesses capabilities in building and civil engineering construction. The BCA A1 grade allows KBCE to tender for building and civil infrastructure projects of unlimited value. KBCE, which enjoys a long and rich corporate history, has a strong track record ranging from design and build to general construction for residential, commercial and institutional buildings and infrastructure works. KBCE is also a BCA L6 – (ME11) graded contractor which enables it to tender for public mechanical engineering projects of unlimited value.

Over the years, KBCE has participated in projects by various public sector agencies such as the BCA, Housing & Development Board ("**HDB**"), PUB, Singapore's National Water Agency, Urban Redevelopment Authority ("**URA**"), Land Transport Authority ("**LTA**") and Changi Airport Group ("**CAG**").

Some of KBCE's major infrastructure projects include the Punggol Waterway awarded by HDB, the iconic Marina Barrage, Geylang River Make Over, Changi Water Reclamation Plant (Phase 1), and Jurong Water Reclamation Plant by PUB, the Common Service Tunnel by URA, Downtown Line 1 Bugis Station by LTA and the retention pond at Changi Airport by CAG. In addition, through a joint venture with Samsung C&T Corporation, KBCE secured a landmark S$1.12 billion project from CAG for development works to effect three-runway operations at Changi Airport.

Other landmark building projects by KBCE include Building and Electrical works at Jurong West Neighbourhood 6 Contract; Building works at Chua Chu Kang Neighbourhood 4 Contract awarded by HDB; New Halls of Residence at Nanyang Avenue for Nanyang Technological University and the development of River Valley High School and a hostel at Boon Lay Avenue, both commissioned by the Ministry of Education; Design and Build projects for the Provost & Armour Cluster in Kranji Camp and Keat Hong Camp, both awarded by the Ministry of Defence; and the construction of the Singapore Civil Defence Force Headquarters Complex at Ubi Avenue 4 commissioned by the Ministry of Home Affairs.

The Group's Bio-Refinery and Renewable Energy division under Oiltek International Limited specialises in a full range of conventional edible oil process plants as well as biodiesel, pre-treatment and winter fuel plants. Through its subsidiary, Oiltek Global Energy Sdn. Bhd., it also designs, builds and supplies biogas recovery systems to palm oil mill effluent plants in Malaysia and Indonesia. Oiltek International Limited is listed on the SGX.
