

STRATEGY & BUSINESS UPDATES IN CONJUNCTION WITH AGM PRESENTATION

The Board of Directors (the "**Board**") of TOTM Technologies Limited (the "**Company**", together with its subsidiaries, the "**Group**") is holding its Annual General Meeting (the "**AGM**") on 30 September 2026 and wishes to provide shareholders with a business update in conjunction with the AGM presentation. Shareholders may refer to the AGM presentation released on same day for further details.

STRATEGY & BUSINESS UPDATES

The Group builds on a long track record in national identity infrastructure, earned through reliability, security and disciplined execution at scale. As it contributes to the next phase of Southeast Asia's development, the Group aim is to create trusted infrastructure for an increasingly interconnected region. This strategy centres on diversification into frontier technologies, with each of the Group's businesses positioned to address distinct opportunities.

Trust is the foundation of any digital economy and transcends multiple layers. The Group's Identity business supports the national biometric identity programmes in Indonesia. The business continues to extend its capabilities through partnerships, providing new solutions to the private sector. TOTM.AI, the Group's venture in artificial intelligence, is designed to serve both public institutions and enterprises. It enables organisations to deploy AI solutions with governance and safety features.

The Group's Blockchain business addresses the growing demand for traceability, compliance and efficient settlement in cross-border trade within ASEAN. Through collaborations with partners, the business explores trade finance and digital product passports as initial use cases for commercial viability. In parallel, the Group's Maritime business supports the fleets behind regional trade through an AI-driven operational data management platform.

Advances in quantum computing are expected to challenge the encryption that secures today's digital systems. The Group's Quantum business is exploring of its quantum-safe solutions to help organisations prepare for the transition to post-quantum cryptography.

The Group will continue to follow its "Steady Core, New Frontiers" direction. The Identity business provides stability, while each of the frontier technologies initiatives progress towards commercialisation tractions. The Group is taking a talent-first approach, bringing in the skills and experience required for these initiatives to succeed. Together, these priorities position the Group for sustainable long-term growth across the region.

CAUTIONARY STATEMENT

Shareholders and potential investors are advised to read this announcement and any further announcements by the Company carefully, and to exercise caution when dealing in the Company's securities. Persons who are in doubt as to the action they should take should consult their stockbrokers, bank managers, solicitors or other professional advisers.
