KEPPEL INFRASTRUCTURE TRUST UNAUDITED RESULTS FOR THE THIRD QUARTER ENDED 30 SEPTEMBER 2018

16 October 2018

The Directors of Keppel Infrastructure Fund Management Pte Ltd, as Trustee-Manager of Keppel Infrastructure Trust, advise the following results of Keppel Infrastructure Trust for the third quarter ended 30 September 2018.

These figures have not been audited.

3Q FY18 RESULTS HIGHLIGHTS

1. Distribution per unit (“DPU”) of 0.93 Singapore cents was declared for the quarter ended 30 September 2018.
2. Group revenue for 9M FY18 was S\$465.2 million, 1.9% lower than 9M FY17, mainly from lower fees earned at Basslink due to the service outage that occurred from 25 March to 5 June 2018 as a result of an incident caused by a third party contractor. The electricity interconnector has since returned to service on 5 June 2018. This was partially offset by higher revenue from City Gas.
3. The lower profit attributable to Unitholders in 9M FY18 compared to 9M FY17 was mainly due to lower contribution from City Gas due to time lag in the adjustment of gas tariffs to reflect actual fuel cost, lower revenue at Basslink and higher fair value loss of financial derivative instruments recognised.
4. 9M FY18 distributable cash flows⁽¹⁾ of S\$107.0 million compared to 9M FY17’s S\$113.5 million was mainly due to lower contribution from City Gas.
5. Net asset value per unit as at 30 September 2018 decreased to 27.9 Singapore cents from 29.9 Singapore cents as at 31 December 2017 primarily attributable to distributions to Unitholders, partially offset by marked-to-market movements of derivative financial instruments and profit recognised for the period.
6. Gearing⁽²⁾ as at 30 September 2018 was 40.2% compared to 39.9% as at 31 December 2017.

- (1) Excluding Basslink, consistent with previous results announcements
- (2) Defined as net debt over total assets

INTRODUCTION

Keppel Infrastructure Trust (“KIT” or “Trust”), was originally listed on 12 February 2007 on the Singapore Exchange Securities Trading Limited as CitySpring Infrastructure Trust (“CIT”).

KIT’s portfolio as at 30 September 2018 included 100% interest in City Gas, Senoko Waste-to-Energy (WTE) Plant, Keppel Seghers Tuas WTE Plant, Keppel Seghers Ulu Pandan NEWater Plant, and Basslink; 70% interest in SingSpring Desalination Plant and 51% in Keppel Merlimau Cogen, DataCentre One and City-OG Gas. KIT also has a wholly-owned subsidiary which was appointed as trustee-manager of NetLink Trust. The subsidiary ceased to be the trustee-manager of NetLink Trust on 13 April 2017 and was liquidated on 8 June 2018.

The sponsor of KIT is Keppel Infrastructure Holdings Pte. Ltd., a wholly owned subsidiary of Keppel Corporation Limited (“KCL”). Keppel Infrastructure Fund Management Pte. Ltd. is the Trustee-Manager of KIT, and wholly owned by Keppel Capital Holdings Pte. Ltd., which is in turn a wholly owned subsidiary of KCL.

KIT is included in the FTSE ST Large/Mid Cap Index and FTSE ST Mid Cap Index.

KIT, being a business trust, is allowed to pay distributions to Unitholders out of its retained cash and residual cash flows, in accordance with its distribution policy. This is unlike companies, which are governed by the Companies Act, and can only make dividend payments out of accounting profits.

Details of collaterals

The bank borrowings are secured over the assets and business undertakings of City Gas, SingSpring and Basslink Group. The bank borrowings granted to SingSpring is also secured by a charge over the units in SingSpring held by the Trustee-Manager and Hyflux Ltd¹, and a charge over the shares held by the Trustee-Manager in SingSpring Pte Ltd. The bank borrowings granted to KMC is secured mainly by an assignment of KMC's rights under the Capacity Tolling Agreement.

On 20 December 2015, the Basslink interconnector experienced an unplanned outage caused by a cable fault. The interconnector returned to service on 13 June 2016. As previously announced on 18 July 2016 and 14 August 2017, Basslink was unable to meet the minimum debt service coverage ratio covenant in the project financing. As a condition of waiver of this event of default, Basslink was required to agree with the banking syndicate a Long Term Financing Plan ("LTFP") which has yet to be agreed as at 30 September 2018. There is no contractual recourse to KIT under the project financing. SFRS(I) 1-1 requires the borrowings to be classified as current liability if an entity breaches a provision of a long term loan agreement on or before the end of the reporting period. Accordingly, Basslink's borrowings were classified as current liabilities as at 30 September 2018. Discussions have been ongoing with the banking syndicate on the subsisting defaults.

Notwithstanding the classification, Basslink is current on its debt payments under the project financing, subsequent to the return to service of the interconnector on 13 June 2016. The classification has no material financial impact on the distributions per unit of KIT for the year ending 31 December 2018 since KIT does not rely on Basslink's cash flows for its distributions.

4. ACCOUNTING POLICIES

The Accounting Standards Council has issued a new financial reporting framework - Singapore Financial Reporting Standards (International) ("SFRS(I)"), which is to be adopted by Singapore Business Trusts listed on the Singapore Exchange, for annual periods beginning on or after January 1, 2018. As a first-time adopter, the Group and the Trust are to apply retrospectively, accounting policies based on each SFRS(I) effective as at the end of the first SFRS(I) reporting period (December 31, 2018), except for areas of exceptions and optional exemptions set out in SFRS(I) 1.

The Group has performed a detailed analysis of the transition options and other requirements of SFRS(I) and has determined that there are no changes to the Group's and the Trust's current accounting policies under the Financial Reporting Standards in Singapore or material adjustments on the initial transition to the new framework, other than those that may arise from implementing certain new SFRS(I) pronouncements effective at the same time, and the election of certain transition options available under SFRS(I) 1.

In adopting SFRS(I), the Group has elected the optional exemption to reset its translation reserve to nil at the date of transition on 1 January 2017. As a result, the Group reclassified cumulative translation losses of S\$26.6 million from translation reserve account to accumulated losses as at January 1, 2017. After the date of transition, any gain or loss on disposal of any foreign operations will exclude translation differences that arose before the date of transition.

5. CHANGES IN ACCOUNTING POLICIES

EPU						
- based on the weighted average number of units in issue (cents)						
- basic and diluted	0.21	0.40	(47.5)	0.30	0.99	(69.7)

KIT, being a business trust, is allowed to pay distributions to Unitholders out of its retained cash and residual cash flows, in accordance with its distribution policy. This is unlike companies, which are governed by the Companies Act, and can only make dividend payments out of accounting profits.

7. NET ASSET VALUE (“NAV”) PER UNIT

	<u>Group</u>			<u>Trust</u>		
	30 Sep 2018	31 Dec 2017	%	30 Sep 2018	31 Dec 2017	%

Adjusted NAV per unit (cents)						
- (after distribution payable to unitholders)	27.0	29.0	(6.9)	38.9	38.9	-

The Group NAV per unit before hedging and translation reserves was 32.9 cents as at 30 September 2018 and 35.4 cents (restated) as at 31 December 2017. The Trust NAV per unit before hedging reserves was 39.8 cents as at 30 September 2018 and as at 31 December 2017 respectively.

The number of units used for computation of NAV per unit and adjusted NAV per unit were 3,858,298,065 and 3,857,378,731 which were the number of units in issue as at 30 September 2018 and 31 December 2017 respectively.

8. REVIEW OF PERFORMANCE

8.1 Cash flow

The Group’s cash and bank deposits net of restricted cash remained stable at S\$175.4 million compared with S\$177.3 million as at 30 September 2017.

Net cash generated from operating activities in 9M FY18 was S\$130.1 million, S\$76.3 million higher than 9M FY17 mainly because KMC had depleted the prepaid tolling fees in August 2017 and started receiving tolling fees from the Toller since, and timing difference between receipts and payments for the period.

Net cash generated from investing activities of S\$3.5 million in 9M FY18 and S\$3.2 million in 9M FY17 arose mainly from receipt of dividend and repayment of advances from Datacentre One.

Net cash used in financing activities of S\$122.3 million in 9M FY18 was largely due to distributions to unitholders and repayment of borrowings. In 9M FY17, net cash used in financing activities of S\$94.4 million mainly relates to payment of distributions to unitholders partially offset by net proceeds from borrowings.

8. REVIEW OF PERFORMANCE (CONT'D)

8.2 Income Statement

Revenue

Group revenue for 3Q FY18 was S\$162.0 million, bringing total revenue recognised in 9M FY18 to S\$465.2 million, 1.9% lower than 9M FY17.

At City Gas, revenue of S\$88.4 million in 3Q FY18 and S\$256.3 million in 9M FY18, were higher than the corresponding periods in the previous year, due to higher town gas tariff as a result of higher fuel prices. City Gas achieved 100.0% plant availability during the period.

The Concessions² contributed revenue of S\$24.0 million in 3Q FY18, marginally lower than 3Q FY17 of S\$25.3 million due to lower dispatch at the water plants. The 9M FY18 revenue of S\$70.1 million is comparable with last year. All 4 plants fulfilled their contractual obligations during the period.

Basslink's revenue for 3Q FY18 of A\$16.4 million (approximately S\$16.5 million) and 9M FY18 of A\$41.7 million (approximately S\$42.5 million) were lower than 3Q FY17 of A\$19.4 million (approximately S\$20.8 million) and 9M FY17 of A\$60.9 million (approximately S\$64.8 million) due to the service outage that occurred from 25 March to 5 June 2018 as a result of an incident caused by a third party contractor, impacting the cumulative availability, resulting in lower fees earned during that period.

Revenue from KMC was S\$33.1 million and S\$96.3 million for 3Q FY18 and 9M FY18 respectively, comparable to last year.

CityNet contributed revenue of S\$1.1 million in 9M FY17. There was no contribution this year as CityNet ceased to be the trustee-manager of Netlink Trust with effect from 13 April 2017.

Other income

Other income in 3Q FY18 and 9M FY18 includes insurance compensation recognised in connection with service outage at Basslink.

Other losses - net

Other losses comprised mainly the fair value movement of financial derivative instruments.

Expenses

Fuel and electricity costs in 3Q FY18 and 9M FY18 were higher than last year due to higher fuel prices.

Gas transportation costs for 3Q FY18 and 9M FY18 were comparable to last year.

Operation and maintenance costs in 3Q FY18 and 9M FY18 were lower than 3Q FY17 and 9M FY17 mainly due to scheduled maintenance costs incurred last year.

Other operating expenses increased from S\$10.9 million in 3Q FY17 to S\$11.3 million in 3Q FY18 mainly due to higher property tax and professional fees. Other operating expenses for 9M FY18 were lower than last year due to lower legal fees, partially offset by higher property tax and professional fees.

Share of results of joint venture relates to KIT's 51% interest in DataCentre One. The higher contribution in 3Q FY18 and 9M FY18 is mainly due to rental step-up from April 2018.

Profit attributable to Unitholders of the Trust

The Group recorded lower profit attributable to Unitholders of the Trust in 3Q FY18 and 9M FY18 as compared to the corresponding periods last year, mainly due to lower contribution from City Gas due to the time lag in the adjustment of gas tariffs to reflect actual fuel cost, lower revenue at Basslink as a result of the March 2018 service outage and higher fair value loss of financial derivative instruments recognised.

² Concessions comprise Senoko WTE, Tuas WTE, SingSpring Desalination and Ulu Pandan NEWater plants

8. REVIEW OF PERFORMANCE (CONT'D)

8.3 Balance Sheet – Group

The Group reported net current liabilities of S\$720.2 million as at 30 September 2018, S\$289.3 million higher than net current liabilities of S\$430.9 million as at 31 December 2017 mainly due to reclassification of borrowings with maturity in 1Q FY19 to current liabilities. The net current liabilities position was also due to a reclassification of S\$687.4 million borrowings for Basslink from non-current liabilities to current liabilities in accordance with SFRS(I) 1-1. Please refer to Paragraph 1(b)(ii) for further details.

Total assets as at 30 September 2018 was S\$3,817.7 million, marginally lower than total assets of S\$3,956.4 million as at 31 December 2017.

As at 30 September 2018, total liabilities of S\$2,607.6 million was slightly lower than S\$2,644.5 million as at 31 December 2017.

Total Unitholders' funds stood at S\$1,076.3 million as at 30 September 2018, lower than S\$1,152.9 million as at 31 December 2017 due to distributions paid, partially offset by marked-to-market movements of derivative financial instruments and profit recognised for the period.

8.4 Balance Sheet – Trust

Net assets as at 30 September 2018 of S\$1,535.4 million was comparable to S\$1,533.9 million as at 31 December 2017.

9. VARIANCE FROM FORECAST STATEMENT

No forecast statement for financial year 2018 has been disclosed.

10. PROSPECTS

KIT's assets typically generate stable cash flows, with repairs and maintenance of the plants provided for as scheduled outages.

However, if such an outage lasts longer than anticipated and causes the availabilities of the plants to fall below their respective contracted levels, the plants will not be able to receive full payments due under their contracts. In addition, if the plants incur significant downtime due to extraordinary or extensive repairs, it could also lead to termination of contracts and/or liabilities or compensation arising under such agreements. Similarly, reduced availability due to the foregoing reasons would also affect production levels and revenues at City Gas.

City Gas' performance could fluctuate depending on changes in economic conditions and time lag in the adjustments of gas tariffs in response to changes in fuel costs. The tariff adjustments mechanism is designed to ensure that City Gas fully recovers its fuel costs over the long run. Maintenance costs may fluctuate during the year depending on timing of the maintenance schedule.

Waste and water concessions have long-term contracts with Singapore statutory bodies and derive most of their cash flows from capacity and availability payments. As such, the underlying performance of these assets are expected to remain stable. On 22 May 2018, Hyflux Ltd and some of its subsidiaries ("Hyflux"), including Hyflux Engineering Pte Ltd, the operator of SingSpring desalination plant ("SingSpring"), applied to the Singapore High Court to commence a court supervised process to reorganise their liabilities and business pursuant to Section 211B(1) of the Singapore Companies Act. On 19 June 2018, the Court granted a 6-month moratorium to Hyflux with respect to the application. KIT has been engaging SingSpring's operator and project lenders to ensure continued operations of SingSpring.

Under the capacity tolling agreement, KMC will receive a maximum annual capacity fee of S\$108 million (S\$55.1 million based on KIT's 51% interest in KMC) as long as it meets the availability and capacity test targets, with most of its operating costs being passed through.

While intended to be neutral over the long-term, the CRSM in Basslink may fluctuate in the short-term and such fluctuations will affect the revenues of Basslink. Following a review in April 2016, the CRSM has been adjusted from a band of +25%/-20% to +12.5%/-12.5%, thus reducing the volatility in the facility fees to be received.

DataCentre One was handed over on 12 April 2016 and has commenced generating cash flows. The DataCentre obtained its Certificate of Statutory Completion on 7 February 2017.

10. PROSPECTS (CONT'D)

On 20 December 2015, the Basslink interconnector asset was taken out of service due to a cable failure (the "Incident"). The cable returned to service on 13 June 2016.

In December 2016, an independent investigation undertaken by Cable Consulting International ("CCI"), one of the world's leading submarine power cable experts, was completed and CCI concluded that the cause of the Incident is "cause unknown", and consequently under the Basslink Services Agreement ("BSA"), a Force Majeure Event.

On 20 and 22 December 2017, two years after the Incident, Hydro Tasmania ("HT") issued media releases stating that their experts, DNV GL, had completed their investigations and alleged that the probable cause of the Incident was because Basslink operated the cable beyond its design limits. A DNV GL report also alleged that the cable, as designed and constructed, cannot meet the minimum operating requirements under the BSA (which are also part of the operating requirements in the Basslink Operations Agreement ("BOA")). The media releases also made reference to HT's offer for Basslink to operate the Basslink Interconnector at up to 500MW continuous rating until 31 March 2018 without any impact to the facility fees while Basslink consider the DNV GL reports. Basslink is currently operating the Basslink Interconnector at up to its 500MW continuous rating while the manufacturers of the interconnector and Basslink's experts are considering the DNV GL reports.

On 21 March 2018, Basslink received a letter from the State of Tasmania ("State") alleging that it had breached the BOA. The BOA governs the contractual relationship between the State and Basslink as the operator of the Basslink interconnector asset. Furthermore, the State alleged that it had suffered various losses and that Basslink must indemnify it for those losses (including alleged losses incurred by HT arising from the outage), amounting to over A\$100 million. Subsequent to the aforementioned letter, on 26 March 2018, Basslink received a Notice of Dispute from the State which raises substantially the same issues as set out in the letter which Basslink received on 21 March 2018.

Basslink understands that the State's allegations stem from the DNV GL reports commissioned by the lawyers for HT, which were provided to Basslink in December 2017. DNV GL did not conduct any testing of the Basslink cable and their reports were solely based on complex theoretical modelling. Despite requesting for it, Basslink has not been given access to DNV GL's modelling. As announced in December 2016, CCI's examination noted that the insulation adjacent to the failure site was sound and showed no evidence of thermal ageing. Basslink considers that the analysis in the DNV GL reports is flawed and stands by the independent investigation undertaken by CCI, which concluded the cause of the Incident in December 2015 as "cause unknown".

Basslink also rejects any suggestion by HT that it is entitled to any reduction in the facility fee or associated payments under the BSA as a result of Basslink operating the cable at up to 500MW continuous rating. Contractually, so long as Basslink operates the interconnector in accordance with good electricity industry practice ("GEIP"), HT is obliged to make the facility payments in full. Basslink considers that while the manufacturers and Basslink's experts are reviewing the DNV GL reports, it is GEIP to operate the interconnector at up to 500MW continuous rating.

Basslink strongly denies the allegations made by the State. While reserving its rights in this matter, in good faith, Basslink attended "without prejudice" meetings with the representatives of the State in an attempt to resolve the dispute in accordance with the BOA. Unfortunately, the dispute was not resolved, and on 26 April 2018 Basslink was notified by the State that the dispute is referred to arbitration. Basslink is vigorously defending itself in the arbitration.

As HT does not accept the Incident was a Force Majeure Event, it had withheld, amongst others, facility fees on the basis there was no Force Majeure Event. As a result, HT did not pay Basslink the full facility fees from September 2016 to August 2017 and had instead made so-called "good faith payments" to Basslink from December 2016 to July 2017. To recover monies withheld by HT, Basslink had on 14 September 2018 issued a Notice of Dispute to HT under the BSA. Basslink followed the dispute resolution procedures under the BSA in good faith to try and resolve the dispute. Unfortunately, the dispute has not been resolved, and Basslink has referred the dispute to arbitration on 8 October 2018, in accordance with the dispute resolution procedures under the BSA. If the banking syndicate do not consent to such actions, these may lead to a default under the project financing.

Discussions have been ongoing with the banking syndicate on the aforesaid consent as well as the subsisting defaults under the project financing, which arose from the Incident (as previously announced on 18 July 2016 and 14 August 2017), and the arbitration with the State announced on 2 May 2018 and 28 May 2018. To-date, Basslink remains current on the debt payments and all outstanding payments under the project financing have been fulfilled.

10. PROSPECTS (CONT'D)

The insurer has confirmed that the physical loss and damage to the cable as well as time element loss (such as business interruption loss) arising from the Incident are insurable (subject to the relevant terms of the insurance policy). An advance payment of A\$46 million has been made by the insurer to Basslink, out of which approximately A\$17.5 million was used to pay for part of the repair costs of the interconnector. Usage of the insurance proceeds is subject to the consent of the banking syndicate due to the aforesaid subsisting defaults. Basslink is working with the insurer on the remaining claims under the insurance policy.

The foregoing is not expected to have any material financial impact on the distributions per Unit of KIT for the financial year ending 31 December 2018, since KIT does not rely on Basslink's cash flows for its distributions.

The Trustee-Manager will evaluate asset enhancement opportunities in its portfolio, and will continue to identify and evaluate suitable acquisitions, including those from the Sponsor, under its investment mandate to further grow the Trust.

11d. Books Closure Date

Notice is hereby given that, the Unit Transfer Books and Register of Unitholders of KIT will be closed at 5.00 p.m. on 24 October 2018 for the purposes of determining each Unitholder's entitlement to the Distribution. Duly completed transfers in respect of Units in the capital of KIT received by the Registrar, Boardroom Corporate & Advisory Services Pte. Ltd, 50 Raffles Place #32-01 Singapore Land Tower Singapore 048623, up to 5.00 p.m. on 24 October 2018 will be registered to determine Unitholders' entitlement to the Distribution. Unitholders whose Securities Accounts with The Central Depository (Pte) Limited are credited with Units at 5.00 p.m. on 24 October 2018 will be entitled to the Distribution.

12. INTERESTED PERSON TRANSACTIONS

The Group had obtained a general mandate pursuant to Rule 920 for interested person transactions as approved by independent unitholders at the annual general meeting held on 17 April 2018. The figures below are calculated based on the effective interest held by the Trust in each subsidiary. During the financial period, the following interested person transactions were entered into by the Group:

Name of Interested Person / Nature of Transaction	Aggregate value of all interested person transactions conducted during the financial period under review under unitholders' mandate pursuant to Rule 920 (excluding transactions less than S\$100,000)

IMPORTANT NOTICE

The past performance of KIT is not necessarily indicative of its future performance. Certain statements made in this announcement may not be based on historical information or facts and may be "forward-looking" statements due to a number of risks, uncertainties and assumptions. Representative examples of these factors include (without limitation) general industry and economic conditions, interest rate trends, cost of capital and capital availability, competition from similar businesses and governmental and public policy changes, and the continued availability of financing in the amounts and terms necessary to support future business. Such forward-looking statements speak only as of the date on which they are made and KIT does not undertake any obligation to update or revise any of them, whether as a result of new information, future events or otherwise. Accordingly, you should not place undue reliance on any forward-looking statements.

Prospective investors and unitholders of KIT ("Unitholders") are cautioned not to place undue reliance on these forward-looking statements, which are based on the current view of Keppel Infrastructure Fund Management Pte. Ltd. (as trustee-manager of KIT) (the "Trustee-Manager") on future events. No representation or warranty, express or implied, is made as to, and no reliance should be placed on, the fairness, accuracy, completeness or correctness of the information, or opinions contained in this announcement. The information is subject to change without notice, its accuracy is not guaranteed, has not been independently verified and may not contain all material information concerning KIT. The information set out herein may be subject to updating, completion, revision, verification and amendment and such information may change materially. The value of Units and the income derived from them may fall as well as rise. Units are not obligations of, deposits in, or guaranteed by, KIT, the Trustee-Manager or any of its affiliates and/or subsidiaries. An investment in Units is subject to investment risks, including the possible loss of the principal amount invested.

Investors have no right to request the Trustee-Manager to redeem their Units while the Units are listed. It is intended that Unitholders may only deal in their Units through trading on Singapore Exchange Securities Trading Limited ("SGX-ST"). Listing of the Units on SGX-ST does not guarantee a liquid market for the Units.
