Profit, Net of Tax	55,023	15,381	258%	91,136	25,433	258%

n/m : not meaningful

Additional information:

Management believes that Core PATMI w/o forex and EBITDA are important measures of performance, although these are not standard measures under FRS.

Core PATMI w/o forex	38,666	3,362	n/m	66,977	10,661	528%

* We derived Core PATMI from "Profit Attributable to Owners of the Parent, Net of Tax" by excluding changes in fair value of biological assets (net of tax) and derivatives, and by excluding extraordinary items attributable to the owners of the parent.

We define Core PATMI w/o forex is an estimate derived from Core PATMI by excluding foreign exchange gains/losses (before tax) attributable to the owners of the parent. We have not made an estimate of the tax impact on foreign exchange gains/losses. This is because the majority of the gains/losses are unrealised and arise from the translation of USD bonds (from a subsidiary in Indonesia) and USD loans (from subsidiaries in China), which have no tax implication.

EBITDA	139,181	73,933	88%	243,572	138,839	75%

We define EBITDA as profit before tax from continuing operations, excluding interest income, finance costs, depreciation of property, plant and equipment, depreciation of investment properties and amortisation of intangible assets, and also excluding changes in fair value of biological assets and derivative relates to foreign exchange hedging and foreign exchange adjustments gains/(losses).

1 (d) (ii) Details of any changes in the company's share capital arising from rights issue, bonus issue, share buy-backs, exercise of share options or warrants, conversion of other issues of equity securities, issue of shares for cash or as consideration for acquisition or for any other purpose since the end of the previous period reported on. State also the number of shares that may be issued on conversion of all the outstanding convertibles, as well as the number of shares held as treasury shares, if any, against the total number of issued shares excluding treasury shares of the issuer, as at the end of the current financial period reported on and as at the end of the corresponding period of the immediately preceding financial year.

	Number of Shares	
	2nd Quarter to 30/6/2018	2nd Quarter to 30/6/2017
Issued ordinary shares:		
As at beginning of period	1,769,525,591	1,769,525,591
Issued during the period	90,000,000	-
As at end of period	1,859,525,591	1,769,525,591
Treasury shares:		
As at beginning of period	12,846,700	868,300
Purchase of treasury shares	-	8,825,100
As at end of period	12,846,700	9,693,400
Issued ordinary shares excluding treasury shares	1,846,678,891	1,759,832,191

1 (d) (iii) To show the total number of issued shares excluding treasury shares as at the end of the current financial period and as at the end of the immediately preceding year.

	As at 30/6/2018	As at 30/6/2017
Total number of issued shares excluding treasury shares	1,846,678,891	1,759,832,191

1 (d) (iv) A statement showing all sales, transfers, disposal, cancellation and/or use of treasury shares as at the end of the current financial period reported on.

Not applicable.

2. Whether the figures have been audited or reviewed, and in accordance with which auditing standard or practice.

The figures have not been audited or reviewed by the auditors.

3. Where the figures have been audited or reviewed, the auditors' report (including any qualifications or emphasis of a matter).

Not applicable.

4. Whether the same accounting policies and methods of computation as in the issuer's most recently audited annual financial statements have been applied.

The accounting policies and methods of computations applied by the Group are consistent with those used in its audited financial statements as at 31 December 2017 except for those as disclosed under item 5 below.

5. If there are any changes in the accounting policies and methods of computation, including any required by an accounting standard, what has changed, as well as the reasons for, and the effect of, the change.

The Singapore Accounting Standards Council has introduced a new Singapore financial reporting framework that is equivalent to the International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). The new framework is referred to as 'Singapore Financial Reporting Standards (International)' ("SFRS(I)") hereinafter.

Subsequent to the last financial year end, as required by the listing requirements of the Singapore Exchange, the Group has adopted SFRS(I) on 1 January 2018 and issued its first set of financial information prepared under SFRS(I) for the financial period ended 31 March 2018.

Other than those discussed below, the adoption of new SFRS(I) did not result in significant change to the Group's and Company's accounting policies and did not have material impact on the amounts reported for the current or prior financial years.

5. If there are any changes in the accounting policies and methods of computation, including any required by an accounting standard, what has changed, as well as the reasons for, and the effect of, the change. (Cont'd)

In previous years, the Group and the Company measured its investment in unquoted equity securities at cost less allowance for impairment. With the adoption of SFRS(I) 9 on 1 January 2018, the Group and the Company elect to measure such unquoted investment at fair value through other comprehensive income (FVOCI). The effect of this adoption results an adjustment of US$1,803,000 to the retained earnings as at 1 January 2018 which comprises of an impairment loss of US$536,000 previously recognised in statement of comprehensive income, and a difference of US$1,267,000 between the carrying amount and the fair value of the unquoted equity securities.

6. Earnings per ordinary share of the group for the current financial period reported on and the corresponding period of the immediately preceding financial year, after deducting any provision for preference dividends.

	2nd Quarter		Jan - Jun	
	2018	2017	2018	2017
	US Cents	US Cents	US Cents	US Cents
Earnings per share for the period				
(a) Based on weighted average number of ordinary shares in issue	1.63	(0.19)	2.59	(0.08)
(b) Based on a fully diluted basis	1.63	(0.19)	2.59	(0.08)
Weighted Average Number of Ordinary Shares	1,817,977,572	1,762,956,908	1,788,003,039	1,764,560,806

7. Net asset value (for the issuer and group) per ordinary share based on the total number of issued shares excluding treasury shares of the issuer at the end of the current financial period reported on and immediately preceding financial year.

	Group		Company	
	As at 30/6/2018	As at 31/12/2017	As at 30/6/2018	As at 31/12/2017
Net asset value per ordinary share				
- in US$	0.40	0.39	0.57	0.58
- in S$	0.55	0.53	0.78	0.78

Net asset value per ordinary share is based on the issued share capital excluding treasury shares of the Company at the end of the financial period.

8. A review of the performance of the group, to the extent necessary for a reasonable understanding of the group's business. It must include a discussion of the following (a) any significant factors that affected the turnover, costs, and earnings of the group for the current financial period reported on, including (where applicable) seasonal or cyclical factors; and (b) any material factors that affected the cash flow, working capital, assets or liabilities of the group during the current financial period reported on.

Review of Group Performance

2Q 2017 vs 2Q 2016

Revenue

	2Q 2018	2Q 2017	Variance
	US$ million	US$ million	US$ million
Animal Protein Indonesia	616.0	552.9	63.1
Animal Protein Other	139.3	111.5	27.8
Dairy	94.6	79.0	15.6
Consumer Food	50.1	46.8	3.3
Others	1.0	-	1.0
Total	901.0	790.2	110.8

The Group registered continued growth in revenue, driven mainly by higher sales volumes across all business segments, coupled with higher average selling prices for broiler and swine in Animal Protein Indonesia and Animal Protein Other-Vietnam segments respectively.

Operating Profit

	2Q 2018	2Q 2017	Variance
	US$ million	US$ million	US$ million
Animal Protein Indonesia	89.5	52.8	36.7
Animal Protein Other	10.1	(12.8)	22.9
Dairy	16.8	14.7	2.1
Consumer Food	(6.0)	(4.3)	(1.7)
Others	(2.3)	1.7	(4.0)
Total	108.1	52.1	56.0

Operating profit increased mainly driven by Animal Protein Indonesia segment recording US$36.7 million improvement in operating profit, on the back of higher sales volumes and increased margins across feed, DOC and broiler. Animal Protein Other turnaround to operating profit of US$10.1 million on the back of higher revenue and higher sales volume for poultry feed and higher average selling prices for broiler and swine fattening in Vietnam.

The "Profit Before Foreign Exchange Adjustments and Changes in Fair Value of Biological Assets" was US$98.4 million in 2Q 2018 as compared to US$29.9 million in 2Q 2017.

Foreign exchange adjustments losses were US$24.8 million in 2Q 2018 as compared to a foreign exchange adjustments gain of US$2.4 million in 2Q 2017. The foreign exchange adjustments losses in 2Q 2018 were primarily due to the unrealised exchange losses arise from the translation of USD bonds in Animal Protein Indonesia segment and USD loans in Dairy.

8. A review of the performance of the group, to the extent necessary for a reasonable understanding of the group's business. It must include a discussion of the following (a) any significant factors that affected the turnover, costs, and earnings of the group for the current financial period reported on, including (where applicable) seasonal or cyclical factors; and (b) any material factors that affected the cash flow, working capital, assets or liabilities of the group during the current financial period reported on. (Cont'd)

The Group recorded a profit after tax of US$55.0 million in 2Q 2018 as compared to US$15.4 million in 2Q 2017. The Group has also started recognising 100% contribution from its dairy segment, with effect from 1 January 2018, following its acquisition of remaining interest in its dairy business.

As a result of the above, the profit attributable to owners of the parent was US$29.6 million in 2Q 2018 and the loss attributable to owners of the parent US$3.4 million in 2Q 2017.

Review of Financial Position

The Group's total assets as at 30 June 2018 increased by US$16.5 million from US$2,743.1 million to US$2,759.6 million primarily due to increase in property, plant and equipment, other assets and inventories.

The Group's total liabilities as at 30 June 2018 decreased by US$34.2 million from US$1,720.3 million to US$1,686.1 million primarily due to decrease in trade and other payables and partially offset by increase in loans and borrowing.

The Group's translation reserves increased from negative US$167.8 million as at 31 December 2017 to negative US$202.5 million as at 30 June 2018 mainly due to translation losses arising from the Indonesian Rupiah and China Renminbi weakening against the US Dollar.

Review of Group Cash Flow

Net cash flows from operating activities were US$77.8 million in 2Q 2018, which mainly arose from operating cash flows before changes in working capital of US$223.1 million, changes in working capital of US$113.1 million and income tax paid of US$32.2 million.

Net cash flows used in investing activities were US$134.9 million in 2Q 2018 mainly represented by the purchase of property, plant and equipment of US$123.3 million.

Net cash flows used in financing activities were US$13.0 million in 2Q 2018 mainly arose from purchase consideration paid for acquisition of remaining non-controlling interests in subsidiaries of US$223.0 million, interest paid of US$41.2 million and partially offset by proceeds from new bank loans of US$252.8 million.

9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.

Not applicable.

10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

For the three months ended 30 June 2018 ("2Q2018"), the Group recorded higher revenue and profitability, driven by PT Japfa Tbk's margin and volume expansion. Animal Protein Other ("APO") returned to profitability in 2Q2018 as a result of the re-balancing of the demand-supply dynamics in the Vietnam swine market.

The Group's revenue and profitability is directly impacted by cyclicality in the agri-business, which is dependent on a variety of external factors, including the seasonality of harvest and festivals, macroeconomic conditions that affect consumer purchasing power, government policies as well as changes to the market demand and supply situation which determine raw material costs and selling prices. Recent trade tensions between US and China may also result in near-term distortion of prices and physical flow of grains such as corn and soybean as well as animal protein products, in addition to volatility in foreign exchange rates. These uncertainties may impact the Group's operations and financial results.

While cyclical and macroeconomic factors are beyond the Group's control, the management will continue to focus on building on its strong business fundamentals and enhancing its operational efficiency across its four business segments. The Group aims to be one of the most efficient and lowest cost industrialised protein producers in the emerging Asian markets that it operates in and leverage the strength of its diversified and vertically integrated business model to navigate the industry cyclicality.

<u>PT Japfa Comfeed Indonesia Tbk ("PT Japfa Tbk")</u>
In 2Q2018, PT Japfa Tbk saw higher ASPs for DOC and Broilers in Indonesia on the back of strong market demand during the Lebaran festivities. Prices may ease in the quarters ahead following the re-balancing of demand-supply in the market. In Indonesia, the ASPs of livestock, including DOC and broiler prices, are expected to fluctuate due to the seasonality and cyclical nature of the livestock industry. Chicken consumption may also be affected by factors such as volatility in the Indonesian Rupiah.

With the recent strong chicken prices, there is a risk of that the Indonesian government could introduce more measures to regulate the agri-food sector. This may affect the market supply and demand dynamics and create uncertainties within the agri-food value chain in the future.

In the fourth quarter of 2016, KPPU also ruled that PT Japfa Tbk and 11 poultry companies violated the law relating to cartel by collectively agreeing to cull 6 million parent-stock as instructed by the Directorate General of Animal Livestock and Animal Health, Ministry of Agriculture and all 11 poultry companies were fined for this violation. The fine applicable to PT Japfa Tbk was approximately US$1.85 million. The Group and the 10 other poultry companies appealed against this decision of KPPU to the West Jakarta District Court which in November 2017, accepted the appeal and overruled the KPPU's decision. In December 2017, KPPU appealed to the Supreme Court against the West Jakarta District Court decision. The Supreme Court is the highest court in Indonesia. Based on the case status set out in the website of the Supreme Court the KPPU's appeal has been rejected by the Supreme Court. However until the decision of the Supreme Court has been formally issued to the parties, the status updated on the website of the Supreme Court has no legal effect.

In the second quarter of 2016, Indonesia's Business Competition Supervisory Commission ("KPPU") ruled that 32 cattle companies (including two subsidiaries of PT Japfa Tbk), a principal subsidiary of the Company listed on Bursa Efek Indonesia (IDX) violated the law relating to cartel and production arrangements and all 32 cattle companies were fined. The aggregate fine applicable to the two subsidiaries of PT Japfa Tbk was approximately US$1 million. The Group appealed against this decision of the KPPU to the Central Jakarta District Court which on 1 August 2017 affirmed the KPPU decision. The Group appealed to the Indonesian Supreme Court against the decision of the Central Jakarta District Court on 14 August 2017. Pending the decision of the Supreme Court on this appeal, KPPU's decision does not yet have permanent legal force and the said fines are not yet payable.

10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months. (Cont'd)

It should also be noted that the People's Representative Council of the Republic of Indonesia ("DPR") is in the process of amending Indonesia's Anti-Monopoly Law. In the current draft, DPR is aiming to expand KPPU's authority, to introduce new sanctions including a significantly higher fine that may be based on turnover, and to require mandatory pre-merger notification. Should the proposed amendments come into force, the Group will face new requirements which may affect its business practices. It is uncertain when the new Anti-Monopoly Law will come into force as the new law is still under intense discussions between the President and DPR.

Animal Protein Other

Vietnam returned to the black in 2Q2018 with an operating profit of US$9.4 million compared to an operating loss of US$16.2 million a year ago. Swine fattening prices in Vietnam recovered to above cost in 2Q2018, and also above 4Q2016 price levels when China imposed an import ban on Vietnamese swine in November 2016. The current recovery in prices reflects the demand-supply rebalancing of the country's swine market in Vietnam, without any exports to China.

Dairy

In China, although raw milk prices continue to be under pressure, the Group has been able to mitigate the impact through improvements in milk yields and growth in sales volume. Going forward, the Group will continue to focus on lifting milk yields and volumes to mitigate raw milk price fluctuations.

Consumer Food

The Group's Consumer Food segment continued to record operating losses in 2Q2018, both in Indonesia and Vietnam. In Indonesia, if the high chicken prices persist, it will have an adverse impact on Indonesia's consumer food profits. In Vietnam, it remains challenging to penetrate the local ambient food sector given the intense competition, especially against a strong market leader, as the Group continues its efforts to establish a foothold in the market. In the near term, the managements will monitor the situation closely.

Conclusion

The five emerging markets that the Group operates in continue to witness growing animal protein consumption. Against this backdrop, the Group is confident that its core competencies in large-scale farming and food production, diversified strategy across multiple proteins and geographies, together with its track record in replicating its industrialised and scalable business across the region, will sustain its growth in the mid- to long-term.
