Media Release

Sanli Awarded Maiden LTA Project with a Contract Value of S\$281.0 Million; Largest Single Contract Secured to Date, Propels Order Book to a Record S\$614.9 Million

- The LTA project is for the supply and installation of electrical services for Cross Island Line Phase 1 and Cross Island Line – Punggol Extension.
- The addition of this new project will significantly boost the Group's order book to a record S\$614.9 million.
- Barring any unforeseen circumstances, the new project is expected to have a positive impact on the net tangible assets and earnings per share of the Group throughout the 5-year duration of the project.

SINGAPORE, 21 October 2025 – SGX-Catalist listed Sanli Environmental Limited (“**Sanli**”, the “**Company**”, “三立环境有限公司” and together with its subsidiaries, the “**Group**”), is pleased to announce that its wholly-owned subsidiary, Sanli M&E Engineering Pte Ltd, together with China Railway Electrification Engineering Group Co., Ltd. (Singapore Branch) (“**China Railway**”), has been awarded a project from the Land Transport Authority (“**LTA**”) with a contract value of approximately S\$281.0 million, which marks the largest single contract secured by the Group to date.

Commenting on the maiden LTA project, Mr. Sim Hock Heng (“沈福兴”), Chief Executive Officer and Executive Director of Sanli, said: “Securing our largest single contract to date marks a defining milestone in Sanli’s growth journey.

We believe that it reflects the trust and confidence that our public sector customers have placed in our capabilities and track record in executing complex, large-scale projects.

This latest project also represents an opportunity to collaborate with a well-established industry partner in China Railway. Through the proposed joint venture, we will leverage our complementary strengths, technical expertise, and proven execution experience to complete this project safely and efficiently on a timely basis.

Looking ahead, we will continue to pursue large-scale projects that align with our growth strategy, expanding our order book and deliver new value propositions for our customers.”

- End -

About Sanli Environmental Limited

Established in 2006 and listed in 2017 on the SGX-Catalist, Sanli Environmental Limited is an environmental engineering group that specialises in the field of water and waste management. Sanli’s expertise is in the design, supply, delivery, installation, commissioning, maintenance, repair and overhaul of mechanical and electrical equipment as well as process, instrumentation and control systems in wastewater treatment plants, water reclamation plants, NEWater plants, waterworks, service reservoirs, pumping stations and incineration plants.

Backed by its strong engineering capabilities, Sanli has the ability to integrate mechanical, electrical and process engineering expertise to provide customised, cost- and time-efficient integrated engineering solutions and services to its customers.

Leveraging on its established track record, Sanli has embarked on a diversification strategy to develop a range of growth-focused businesses, which are aimed at developing multiple revenue streams, enhancing business resiliency, and harnessing new opportunities within the environmental industry in the region.
