## **RESPONSES TO SGX'S QUERIES ON ANNOUNCEMENT DATED 4 SEPTEMBER 2026**

---

The Board of Directors (the **"Board"** or the **"Directors"**) of AcroMeta Group Limited (the **"Company"**, and together with its subsidiaries, the **"Group"**) refers to the Company's announcement dated 4 September 2026 (the **"Announcement"**) in relation to the entry into a non-binding indicative term sheet in respect of the Company's proposed investment in Macro-ATCLS Pte Ltd (the **"Proposed Investment"**).

The Company has, on 7 September 2026, received queries from the Singapore Exchange Securities Trading Limited (the **"SGX-ST"**) in relation to the Announcement and wishes to set out its responses to the SGX-ST below.

### **Queries from the SGX-ST**

It is stated that ATCLS is an emerging technology licensed by Macro. Please clarify the following:

- (i) The licensor of ATCLS;
- (ii) The scope of Macro's licensing rights, including whether it is an exclusive licensee; and
- (iii) The stage of development of ATCLS as an "emerging technology", including the commercial results achieved by Macro through its licensing of the technology.
- (iv) How the Group was introduced to Macro and the Proposed Investment.

### **Company's Response:**

- (i) As of the date of this response, Macro-ATCLS Pte. Ltd has not yet been incorporated and therefore does not presently act as the licensor of the ATCLS technology. The ATCLS programme is currently managed and commercialised by Macro HRD SG Pte. Ltd (**"Macro"**). Macro and the ATCLS researcher/developer group collectively intend to hold 100% of Macro-ATCLS Pte. Ltd., while Macro itself will hold at least 80% before the first external equity investment upon incorporation, and the relevant licensing and commercialisation rights will be granted to Macro-ATCLS pursuant to the applicable definitive agreements.
- (ii) Macro has been granted sole, exclusive and perpetual rights to the ATCLS technology globally, subject to the applicable contractual arrangements.
- (iii) The ATCLS technology has not been commercialised to date and Macro has not generated commercial revenue from ATCLS as at the date of this response. Substantial research and development activities have been undertaken in relation to the ATCLS technology. The technology has been developed and tested in multiple laboratories, including the Nanyang Technological University of Singapore. Macro is also currently discussing with a Japanese firm the possibility of conducting a commercial trial between Thailand and South Africa.

- (iv) The Project was introduced by the Group's consultant, Raphael Tham. Notwithstanding, Mr Yoo Kim, the CEO of Macro is an acquaintance of the Group's GM and substantial shareholder, Mr Levin Lee.

BY ORDER OF THE BOARD

Toh Ker How  
Executive Director  
9 September 2026
