Income Statement

Group's sales for the second quarter ended June 30, 2014 ("2Q14") increased by 17.04% to S$28.33 million from S$24.21 million compared to the corresponding period in 2013 ("2Q13"). Sales for the six months ended June 30, 2014 ("1H14") increased marginally by 1.16% to S$49.55 million compared to S$48.98 million for the corresponding period in 2013 ("1H13"). The increase in sales was mainly due to higher orders for tablet products in 2Q14. Increase in customer base also contributed to the higher sales in 2Q14.

Other operating income increased from S$451,000 in 2Q13 to S$797,000 in 2Q14 mainly due to increase in income from warehousing and logistic center in Jiading, Shanghai after the completion of its second phase buildings construction. Coupled with gain of S$653,000 on disposal of office building in 1Q14, the Group's other operating income for 1H14 also increased to S$2.24 million from S$892,000 in 1H13.

Employee compensation for 2Q14 and 1H14 increased by 13.31% and 12.77% respectively as more sale and marketing staffs were recruited to expand the Group's sales in China. In addition, increase in salary as a result of increase of minimum wages in China has also given rise to the higher employee compensation as compared to the corresponding periods of 2013.

Depreciation for 2Q14 and 1H14 decreased by 7.02% and 21.16% respectively as certain property, plant and equipments have been fully depreciated in the current financial periods.

Finance expenses in 2Q14 increased by 159.3% to S$223,000 from S$86,000 in 2Q13. For 1H14, finance expense also increased by 103.31% to S$492,000 to S$242,000 in 1H13. This was mainly due to interest expense on loan from a related company to finance the construction of building in Jiading, Shanghai.

As a result of higher sales and other operating income as explained above, the Group achieved a profit before income tax amounting to S$252,000 for 2Q14, reversing a loss of S$2.56 million during 2Q13. For 1H14, the Group registered a lower loss before income tax of S$1.60 million as compared to a loss of S$3.65 million in 1H13.

Balance Sheet and Cash flows

Trade and other receivables at Group level decreased from S$48.57 million as at December 31, 2013 to S$40.49 million as at June 30, 2014 mainly due to lower sales achieved in 1H14 as compared to the second half of 2013 ("2H13").

The increase in inventories was mainly due to increase in purchase of key materials in anticipation of an increase in production of finished products in the next quarter.

Investment properties increased as the Group has completed the construction of its second phase buildings in Jiading, Shanghai and it is currently used for providing warehousing and logistic services.

Trade and other payables also increased by S$1 million from S$23.86 million as at December 31, 2013 to S$24.87 million as at June 30, 2014. This was mainly due to increase in trade payables of S$4.11 million as the Group purchased more raw materials at the end of 2Q14. However, the increase was offset by a decrease in other payables of S$3.11 million as the Group's subsidiary had paid the dividend for FY2013 to non-controlling interest in 1Q14.

Group borrowings decreased from S$44.61 million as at December 31, 2013 to S$27.34 million as at June 30, 2014 mainly due to repayment of trade financing upon maturity.

Due mainly to the repayment of trade financing upon maturity and coupled with the dividend payment to non-controlling interest, the Group's cash and cash equivalent reduced to S$29.40 million from S$51.15 million at the end of FY2013.

9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.

No forecast or prospect statement was disclosed to shareholders previously.

10. A commentary at the date of the announcement of the competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

The Group will continue in its R&D efforts to improve existing products and design new tablet products. It also aims to open more sales channels and work with its partners to achieve sales in more markets.

According to IDC's forecast, 87% of connected devices sales by 2017 will be tablets and smartphones, while the annual growth rate of tablets and smartphones are expected to be 15% from 2014 to 2017. With the additional income from our second phase of warehousing and logistic center in Jiading, Shanghai, and the smartphone and tablet markets ramping up to meet increased demand, we believe that we are well-placed to ride on these positive trends. We are therefore cautiously optimistic of our prospects in the coming months.
